Coun. RUSSO—Mr. President, I have a purpose in introducing this order. It is certainly something every voter should be interested in. It is of interest not only to the candidates seeking public office but also to the voters who make it possible for their votes to elect the individuals of their choice. There must be something wrong, Mr. President, in our election laws, when we can allow a system to exist whereby fraudulent names may be placed on nomination papers. If you or I want to protest those papers, we have to summon in hundreds of people trying to prove that fraud has taken place. Naturally, that requires time and money. You and I, Mr. President, know that we may not have the money to spend to carry that out. If we do, the laws are so elastic that the only penalty that the individual candidate may receive is merely the removal of his name from the ballot. How can you and I, Mr. President, under the circumstances we are operating under today, under this system of election laws, how can you and I determine when fraudulent names have been placed on a nomination paper? The law says that so-and-so being a candidate for such an office, or a person who has circulated the paper under oath states that the persons who appear on the nomination papers have signed in person. Of course, the law is elastic. How can you prove it, even though it is done in good faith? If you give out a nomination paper to some individual and it has ten or fifteen names on it, and that paper is passed on one to another, the same operation takes place. How are you going to determine who committed fraud, unless something is in the law whereby, when that paper is turned in to the candidate, the name of the individual who circulated that paper should be placed alongside of the last name when he turns in that paper? It makes him fully bound and responsible for those names. How are we going to determine it? That is not so bad, Mr. President, but the practice of individuals who will sit down at a desk and copy every name on the voting list and go through with that is even worse. Mr. President, we have a situation in the City of Boston and especially in the Eleventh Congressional District which will enforce my argument which I have just outlined. I fully realize, Mr. President, each one of us who is an American citizen by birth or naturalization has a perfect right to aspire to any public office. But I also realize we are duly bound to give to the people of our district a proper picture of the sincerity of the candidates. I have not the millions of dollars some of these opponents have to spend. They were saying all over the district, Mr. President, that I could not win a Congressional fight. My opponents had at their disposal the withdrawal of these other candidates who are Americans of Italian extraction. Not contented with that, Mr. President, how are we going to eliminate this malpractice of individuals putting in candidates of a similar name? You and I have read the newspapers and know things like that take place. Mind you, I have no objection when the question is on sincerity, but how can they truthfully answer to the people they are asking for support when you find a Joseph Russo who is an individual—as I understand it from the investigation that I have been able to make and the information I have been able to receive—who has a prison record and was charged with bigamy only a short time ago? You can read it in the newspapers. I have the greatest respect for the parents of this individual. It is a misfortune that another one of the family is serving now a prison term. How can we eliminate conditions that exist? If they did not fear Joseph Russo, the councilor, how can they go to this extreme? Then again I say we speak a great deal about the freedom of the press and freedom of speech. It is nauseating, the condition of these so-called publishers where such things take place. Here in our own midst is a newspaper supposed to inform the people of the City of Boston the truth, and not what they want to print. The Saturday Post, by the way, says this:

"Five Quit Curley Fight."

"The heaviest withdrawal came in the Democratic fight for Mayor James M. Curley's seat in Congress to represent the 11th district. Five quit the fight at closing time last night, leaving an even dozen names to go on the ballot. Quitting the campaign in the 11th district were Adam Palazza of Newton, Representative Enrico Cappucci of East Boston, Councilor James S. Coffey of East Boston, John A. Donlan of Boston, and former City Councilor Henry Selvitella of East Boston."

"Still in the fight for the Curley chair at Washington are John F. Kennedy of Boston, Francis X. Rooney of Somerville, former Representative Michael J. Neville of Cambridge, Robert B.

DiFuscio of Boston, two Joseph Russos of Boston, City Councilor Michael Leo Kinsella of Charlestown, Miss Katherine E. Falvey of Somerville, Michael DeLuca of Boston, Leonard Capodilupo of Boston, John F. Cotter of Charlestown, and former School Committee Chairman Joseph Lee of Beacon Hill."

Is that giving a true picture to the electorate of our district by characterizing a City Councilor because he either by fortune or misfortune has the name Joseph Russo, and there are others who carry the same name, putting me on the same level? By false information or false inferences they are putting me on the same level with the individual who has a record, as I have outlined.

Coun. COFFEY—Mr. President, a point of order. May Councilor Bayley be kept out of here? He is running in with the baseball scores. It is an important meeting here.

President KELLY—The point of order is well taken.

Coun. RUSSO—Now, Mr. President, I do not care whether I receive any publicity or not. I have never been a publicity seeker. I do not intend to start now. I do maintain, Mr. President, that the newspapers have the right to inform their leaders of the truth. If there are distinctions to bring about, do not give one the proper designation and eliminate the other. Isn't that freedom of speech? Isn't that freedom of the press, as I understand it? I believe I understand it as a poor, little immigrant boy who came here at the age of eight and one-half years. We speak so much about freedom. These publishers themselves lay stress upon the freedom of the press. Is freedom of the press what they want to print, or is freedom of the press the exploiting of truth? To my mind, freedom of the press means informing all readers of the truth. Now, how can we eliminate these conditions? We can eliminate these conditions if the laws are changed. Some clause should be put in that tightens the law or frightens the individual who is not on the up and up. I say something must be done when we are confronted with this situation I have outlined. It is not because it happens to me. That makes no difference. Whoever it may be, I believe there is an obligation upon the press or the radio to say the truth, and, unless we put some teeth in the law, we shall be confronted with the same conditions, the same corrupt practices of election laws that we are confronted with at the present time. I earnestly hope that something will be done in order to eliminate the corruption and in order to inform the people of the city, of the state or of the nation, the truth as it stands. Therefore, I hope my order will pass under suspension of the rule.

Coun. COFFEY—I cannot help joining with Councilor Russo today. I made a similar speech a week ago today. The situation then was about the same as the situation which took place in yesterday's paper. In one paper they have expanded it and it has gone to several other newspapers. It is a rotten condition where a Councilor has served in public office as Councilor Russo has done for the past eight years has to get mention at the bottom of a column, in a contest in which he is a candidate, which says there are two Joseph Russos in the fight. Knowing politics as I do, not knowing who the other Joseph Russo is and not caring, I would say some business was done. The other Joseph Russo was put in the fight for no reason but to confuse the voters. There is another Joe Russo, a City Councilor, running for Congress in the Eleventh Congressional District. That is what I dare say, knowing politics. The average person, the average mother or girl in the home who has a vote, does not take an active interest in politics, and probably would be confused on two Joseph Russos. I think it is to his credit. There must be a reason for another Joseph Russo in the fight, a definite reason for him to be there. The answer is, and I should know, coming from the district I come from, I think 45,000 Italian inhabitants are there, and the reason is obviously to split the Italian vote. They do not want Joe Russo, the City Councilor, to be there alone. They make sure there is another Joe Russo of Italian extraction in that contest. Going back a week ago, it tells about those going to quit the Congressional fight. John F. Kennedy is the young naval hero, son of the ex-ambassador. His picture was in the paper one night with McCormack and Tobin. The next night he is with Ted Williams. Last night there was a four-column write-up. I think they are going to overdo it. I think money is going to defeat him. I have some very good friends on the newspapers. Colbert never gave me a break. It is his privilege to write what he wants as a newspaper reporter. I can tell Colbert the night before what is going to appear in the papers the next day. He knows that. I have never gone to one newspaper reporter or an editor and asked for anything. I am taking as active a part in this Eleventh Congressional fight as if I were a candidate. I will be on the front page of the newspapers. I am a disabled veteran. It was not mentioned by any writer. They did not mention that my kid is a disabled veteran. I haven't the money. I cannot go out and stop a ball game and get Ted Williams to take a picture with me. I pitched professional baseball eleven years and made a good living at it. I haven't the money. I cannot have my picture taken with McCormack and Tobin. I can get called up from those offices, and asked to get out of the fight. If I had the money, I would not

get out. I would have stayed in the fight. There is a fellow I have to give credit to. He is stubborn. He has made the fight before. I was successful in his own district, which is a tough district to win. I know. I have been through the district. I have run for a seat in Congress. I have gotten my ears pinned back. For one reason, I did not have the money. I did not have the organization. The same crowd backing Kennedy in this contest is the same crowd in every contest. They count you out before you start. They did it in the last contest in Charlestown, where I spent five dollars to get 1,000 votes. That counted against me in the rail in East Boston. They have done it for years, to all the other candidates in their respective wards in that contest. Curley admits he was counted out in the last fight. One of the candidates in the city contest admitted he was counted out. There is nothing you can do if the rail is against you. You are licked. There is a blank space when they count. They can mark in anybody they want in. We know it is a rotten system, a terrible system, but there is nothing we can do about that. We take our chance. We have our recounts to see what mistakes have been made. The press is going deliberately out of its way to put Kennedy in front in a contest in which he is not even a resident. I doubt if he can collect the state bonus in this state. He is only on the voting list for 1944, 1945 and 1946 at 21 Beacon street, the Bellevue Hotel. They do not bring the fact out that Kennedy is a New Yorker and lived for twelve consecutive years there. They do not bring out that his father severed all his connections in East Boston after he got all he could get out of East Boston and the housing project through his bank, where he held hundreds of mortgages. Recently he sold out and got out. They bring out that he was brought up in East Boston and Brighton, as were his father and forefathers. It is a rotten crying shame. I had some calls from a few newspaper men last Thursday and Friday to get out of the fight and to lay off young Kennedy. I said, "Why should I lay off?" I am sore. For one thing, now that I am out of the fight, he does not come from the district. That is my peeve. I am not tied up with anybody yet, but I will be. I will have my front page advertisements. They will put them in. If they do not, I will tell the people of Boston, over the radio, why they did not put them in and who is tied up with young Kennedy. There is only one answer. They are tied up with Kennedy because he has money. They make his chief opponent somebody by the name of Rooney, a school teacher. Rooney is the red herring across the trail. The red herring is going to be taken off. I am not the only one sitting back and waiting. I refused to tie up with a good friend of mine seeking high political office. I told him I am interested only in one thing, the Congressional fight in the Eleventh District. After the nomination, which is equivalent to election, I will take action in the other contest. Can a poor man from the Eleventh Congressional District be elected, or do we have to have an outsider come in here with millions of dollars and do as he pleases, and get all the publicity he wants in the *Post* and the Boston newspapers and shove it down our throats that he is going to be elected to Congress? We have six weeks, and a lot can happen between now and election day.

Coun. KINSELLA—Mr. President, in the light of the remarks which have been made by Councilors Coffey and Russo, and since I am apparently not talking off the subject, I would very much like to have the privilege of making some remarks to indicate my interest in this particular matter. A Saturday morning newspaper carried my name erroneously as still a candidate for the office of Congressman, which is not so, because at a quarter of five Friday afternoon I signed two withdrawal blanks at the office of the Secretary of State, one for Congress and one for the Senate. As soon as I read the morning newspaper, which I do not think I ought to identify, I called the city desk of that paper and told them that I was not in the contest. Now, the reporter who was responsible for that mistake is one of the star reporters of his paper, and I venture to say that he does not make one mistake in a year. Later on in the day he called me back and asked what I intended to do, if I were actually out or in. I assured him that I was not only out but would appreciate a piece in the paper to that effect, that I was out. He said, "I will get about that thing for you." And I said, "If you are interested in the statement I would very much like to say in your paper that not only am I out but I am going to devote all my efforts to the election of the most representative candidate from the district, one who merits and deserves the election." He said, "Leo, I can't say that." I said, "I don't think you could personally. How do you feel?" "Personally," he said, "you are right, but I can't say it." So that the matter died there. Now, one of the farcical things about democracy is the manner in which our elections are held and the manner by which the law allows certain people to become candidates for certain offices. At no time do I want to impair my good relations with the press who, along with the rest of us, have helped to make and keep me alive. There is not anyone in here, the severest critic he ever had, who will not say that there was a legitimate candidacy, which was not only bogged down because—and this statement does not apply to the newspapers or the newspaper men particularly, nor even generally—it bogged down and was stymied for no other reason than that the half-nut

element would not contribute to the success of one of their own men, find it in their hearts and find it at the end of their pencils on election day to look beyond the personal affair, beyond the capabilities of the beautiful and wealthy young man who has nothing whatsoever in common with the wealthiest resident of the district. There is only one part of the Eleventh District where the residents may reasonably offer some sort of financial competition, and that is the Brattle street end, where perhaps there are a few families who can broadly be called wealthy. Mark my words that on the day after primary day this nice young man—who admittedly is a nice young man—will go to Wianno for the summer, and the crumbs that are basking now in the shadow he throws won't be able to reach him. Wait until he gets the type of requests that we have been getting for years from people who understand us and whom we understand. Wait until he is expected to go into the kitchen of the poor home and sit at a tea-stained tablecloth and talk as freely as he would in his home. He doesn't estimate those things. He doesn't contemplate that he is going to be required to do it. And when he gets to the Halls of Congress, if they are foolish enough to send him there, you don't suppose, after having been sent there by his father's money, he is going to reject his father's advice, do you? You don't suppose he is going to be on the side of the poor! He is going to be on the side that represents power, that represents money. It is the atmosphere into which he has been born. It is the atmosphere in which he was raised. Now, Mr. President, Norman Ritchie is running in the *Post* a series of reminiscences about characters that he has met over the course of thirty-five or forty years, and a week ago last Saturday he had an article concerning James J. Storrow, who was at one time candidate for Mayor of Boston. John F. Fitzgerald, grandfather of John F. Kennedy, was the factor in the contest, and his only argument was that Storrow was a wealthy man and that John F. epitomized the poor man, who made up the greatest section of the electorate of Boston at that time, and that argument put John F. into the chair of the Mayor. Now, thirty-five years later he is telling us that a grandson who has two or three million dollars in his own right, who is not and never has been a resident of that district, should be Congressman from the Eleventh Massachusetts District, without having gone through the various steps through which we have all gone to earn our spurs. If it were true in 1910 or 1912 that Boston ought to have one of its own in the mayoralty, it is true in 1946 that the Eleventh District ought to have one of its own in Congress. When they tell you that he is a fine boy I will take them by the hand, and I will take them to the homes of people who did not see their boys come back, and I will ask them if their sons were not nice boys. What credit can anyone in their right mind bestow on this young man, who did not leave his parents behind him? What credit can there be given for defending thirty million dollars when the rank and file in the American forces left poverty, defended it, and then came back to it? And add to that, Mr. President, the fact that when you go out on the street you will see hundreds passing by, and of the hundreds half at least are war veterans, walking around and getting \$20 a week. That is what they defended! It does not take much courage to defend a life of luxury and ease, backed up by thirty million dollars. I make a prediction here now, today, and that is that when the last vote is counted on the night of June 18, this young man, this interloper—and he is a nice young man but with thirty million dollars behind him—this young man will be defeated overwhelmingly by people that he does not estimate upon. Those people are my class—my class. They have not got anything. They are going to rise up and recognize the proven merit of some other candidate as against the boy who is asking for a major political office in his first effort before the public. One week ago tomorrow, Mr. President, in all good faith, and with the backing of my friends to the extent of about \$23,000, I went to an advertising agency in this city and I asked the gentleman, who happened to be a personal friend of mine, to undertake the purchase of radio time for me. He asked me how much I intended to spend on radio. I said, about \$5,000. He said, "Leo, save your money; the good radio spots are already all taken, and they are going to pass them out to various candidates for various offices in the Eleventh District but are not going to allow any public reference to the origin of the sponsor; in other words, some young man running for the Senate will be allowed five or ten minutes radio time, and, for all the listening public knows to the contrary, he has bought and paid for that himself; but that is not so, it is all signed, sealed, and almost delivered." He said, "The newspapers won't give you anything; they may give you what you call a mere shake, but it will be Kennedy on the front page, and you and the others in the death notices; I advise you as a friend not to blow your dough." Subsequently I got out, for that reason plus one or two others, principally because I was not going to take \$23,000 of my friends' money and throw it away to see my name counted second, third, fourth, fifth, or eleventh on the 19th of June. There are a number of things that can be said, and this is one that it is well for everyone to remember: The job now pays something like \$15,000 a year. Publicly I will ask Mr. Joseph Kennedy this question: "Would you,

Mr. Kennedy, give a job at ten or fifteen thousand dollars a year to any man, in any of your industries, who could not show you ten or fifteen or twenty years' experience? Now, Mr. Kennedy, I will supply my own answer. You would not. Do you want the people of the Eleventh Massachusetts Congressional District to take the boy who is politically unknown and elevate him into a position of Congressman, a major political office in the Commonwealth of Massachusetts, for functioning at Washington?" I had a conversation with young John Kennedy, and I found him to be a gloriously charming young man. Well read, well mannered, conducting himself entirely agreeably and affably. And I make no bones about the conversation because, upon my honor, we did not discuss getting out or staying in. We discussed politics categorically for most of the time, and on the practical side for some of the time. And I said to him among other things, "Is this a lark with you, John? With me it is economic necessity, it is a job for me." He said, "No, it is not." He said, "If my brother had lived he would be the candidate, and I am taking up where he would be." I thought it was a tribute to his brother's memory, in view of the fact that he wanted to go along with the life work that his brother would have chosen as his life work. Unfortunately, God in heaven saw fit to take that young man while he was still in the full bloom of his youth. That is one of the phases of war that even the wealthy can't escape. I said, "Why don't you start across the street, John, and learn about people?" He said, "It is too slow; I want the short cut." If I had one third of the nerve that that boy has displayed in accepting such foolish advice from his advisers, I would walk into his father and I would say, "I want the management of this enterprise at \$15,000 a year, and I am starting at the top, I will not come up through the grades." How long do you suppose I would last? I wonder if there is anybody in the Eleventh District who truly and honestly believes that he is not going to see the other side of his profile when this fight is settled. It is not in him to do it; it was not in his father to do it. And to go back to the statement I made ten minutes ago, if the poor man back in 1910 or 1912 was the backbone of his grandfather's success, the poor man today, who is amongst the have-not element, will prove to be the backbone of the winner, and I venture to say that the winner's initials won't be JFK. I have nothing against the boy, I am not disillusioned, I am not disappointed. Four years ago I would have been, but I have learned a lot in four years. I have learned that our class of people—and I am referring definitely to class—is honeycombed with a lot of turncoat renegades that would rather walk down School street fifteen feet behind young Kennedy, as long as they knew that they were a part of his retinue, than to walk hand in hand with one of their own who has had nothing and to whom without their help will not be given something. And I will offer this as a further prediction, Mr. President, that if he wins he will be a safe bet for re-election in 1948, and that one year later, when we go into a mayoralty election, he will be running for Mayor of the City of Boston. Mark my words, he will be a candidate, and he will either knock or very nearly knock out the man at that time who undoubtedly will be the most logical man for the job of Mayor. It is a long-range problem, designed to catapult the boy from obscurity to national prominence at the expense of the little fellow who lives on \$1,500 a year in most cases. I am determined to live long enough to see my predictions come true. The first is that he will not win on the 18th of June this year; the second is that, if he does win, he will be a candidate for Mayor of Boston three and a half years from now. Now, my statements are all made here today for one purpose only—to straighten out the erroneous impression that some people have got that I was continuing along. I was not, nor will I be. I am going along with the most truly representative and most meritorious candidate in this contest, and I hope to God that there are enough of us who will not turn against one of our own kind. That is my final word until the campaign starts.

Coun. RUSSO—Just briefly, Mr. President, may I at this time thank the councilor from Ward 1 and the councilor from Ward 2 for helping in the passage of this order. I have expressed myself and I sincerely want to thank them.

Coun. COFFEY—Mr. President, briefly, also, I just want to point out the fact that there are only four wards in the City of Boston in the Eleventh Congressional District, and John F. Kennedy has heard from three of the four Boston wards.

The order was passed under suspension of the rule.

TRANSFER OF LAND IN NORTH END TO FIRE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 6, 1946.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Board of Real Estate Commissioners in relation to the transfer of tax title land in the North End to the Fire Department, to be

used for the location of a new fire house, and recommend the passage of the accompanying order.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Real Estate Commissioners,
May 6, 1946.

Hon. James M. Curley,
Mayor of Boston.

My dear Mr. Mayor,—I am presenting for your approval and that of the City Council four copies of an order for the transfer from the Board of Real Estate Commissioners to the Fire Department of the following properties, to be used for the location of a new firehouse.

Properties located at:

1. Land on the southwesterly side of Charter street numbered 2 and 2½ in the numbering of said street. Area, 3,441 square feet. File A-1939.

2. Land, with buildings thereon, on the westerly side of Hanover street, numbered 384, 386, 388, 388½ and 388 rear in the numbering of said street. Area, 3,658 square feet. File J-9.

Very truly yours,

IRVING LEWIS, Chairman.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated February 18, 1939, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5480, page 161, on about three thousand four hundred forty-one (3,441) square feet of land on the southwesterly side of Charter street, Boston, formerly numbered 2 and 2½ in the numbering of said street; and

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated April 26, 1946, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5928, page 557, on about three thousand six hundred fifty-eight (3,658) square feet of land together with the buildings thereon, on the westerly side of Hanover street, Boston, formerly numbered 384, 386, 388, 388½ and 388 rear in the numbering of said street; and

Whereas, The Fire Department has requested that the aforesaid parcels of foreclosed tax title properties be transferred to the Fire Department for the purposes of establishing thereon a firehouse; now therefore it is hereby

Ordered, That the aforesaid parcels of foreclosed tax title property be, and the same hereby are, transferred from the care, custody, control and management of the Chairman, Board of Real Estate Commissioners, to the care, custody, control and management of the Fire Department for Fire Department purposes.

Referred to Executive Committee.

TRANSFER OF BELLE AVENUE LAND TO PUBLIC WORKS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 6, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Board of Real Estate Commissioners relative to the transfer of tax title land on Belle avenue, West Roxbury, to the Public Works Department, to be used as a city dump, and recommend the passage of the accompanying order.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Real Estate Commissioners,
May 6, 1946.

Hon. James M. Curley,
Mayor of Boston.

My dear Mr. Mayor,—I am presenting for your approval and that of the City Council, four copies of an order for the transfer from the Board of Real Estate Commissioners to the Public Works Department, one parcel of land. This land is to be used as a much needed city dump.

The property is located at:

Land on the westerly side of Belle avenue, West Roxbury. Area, 426,890 square feet. File A-1631.

Respectfully yours,
IRVING LEWIS, Chairman.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated May 16, 1941, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5441, page 562, on about four hundred twenty-six thousand eight hundred ninety (426,890) square feet of land on the westerly side of Belle avenue, West Roxbury district; and

Whereas, The Public Works Department has requested that the aforesaid parcel of foreclosed tax title property be transferred to the Public Works Department for the purposes of establishing thereon a city-owned dump; now therefore it is hereby

Ordered, That the aforesaid parcel of foreclosed tax title property be, and the same hereby is, transferred from the care, custody, control and management of the Chairman, Board of Real Estate Commissioners, to the care, custody, control and management of the Public Works Department for Public Works Department purposes.

Referred to Executive Committee.

RESURFACING OF CERTAIN WARD 13 STREETS.

Coun. HANNON offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface with smooth paving Alexander, Magnolia, Monadnock and Moseley streets, and the streets in the vicinity of St. Margaret's Hospital, Ward 13.

Passed under suspension of the rule.

INCREASE OF MINIMUM RETIREMENT BENEFITS.

Coun. HANNON offered the following:
Ordered, That his Honor the Mayor be requested to direct the officials of the Retirement Board to increase the minimum retirement benefits paid to members of our retirement system.

Coun. HANNON—Mr. President, I think that something should be done for those members of our retirement system who receive a paltry \$40 a month as a result of their contributions over a period of years. Last year we accepted legislation which was passed to raise the minimum amount of the retirement benefit paid the school teachers. Now we find ourselves in the position that an honest laborer who has worked for the city gets only \$40. He would get that much on old age assistance without contributing a cent. We have plenty of money for other things and I think some of it should be used to increase the minimum pensions.

The order was passed under suspension of the rule.

MEMORIAL TO BOSTON DEAD IN WAR.

Coun. HANNON offered the following:
Ordered, That his Honor the Mayor be requested to appoint a committee to consider the erection of a fitting memorial to those heroic residents of the City of Boston who gave their lives in the defense of our country.

Coun. HANNON—Mr. President, after the last war there was much talk about a beautiful memorial that the City of Boston was going to erect to its heroic dead. After this war there has been much more talk of what was going to be done. I was a member of the White Fund when it was planned to take money from the White Fund to erect a building out in the Fenway. Plans for that were later dropped. Then there was the plan to plant a tree somewhere in the city in the memory of each and every individual resident of the city who had laid down his life in defense of his country. Nothing has come of that. I read in the papers that other cities are planning great memorials to the boys who have given their lives. The residents of those other cities, smaller communities in the state, have done something for their heroic dead. And apparently we are just going to let it drop. The plaque on the Common is merely temporary, and it was never intended to be a permanent structure. If we should plan something in the way of a memorial to all the veterans who have died in the world that we might live, Boston owes just as much to those veterans as any other community or any other city, and I would like to see something constructive done, and the first step on that, I think, is the appointment of a planning board, the appointment of some commission or committee to look into it and make some plans.

Passed under suspension of the rule.

COUNCIL MEETINGS AT 10 A. M. ON MONDAYS.

Coun. HANNON offered the following:
Ordered, That the regular meeting of the City Council be hereafter held on Monday at 10 a. m. unless otherwise ordered.

The order was declared referred to the Committee on Rules.

Coun. HANNON—Mr. President, I congratulate you on referring it, and I hope they do something.

President KELLY—I will ask the chairman of the Committee on Rules if he will hold a meeting this week.

The order was referred to the Committee on Rules.

SIDEWALKS ON GASTON STREET, WARD 12.

Coun. COOK offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on Gaston street, Ward 12.

Passed under suspension of the rule.

NAMING OF MARINE PARK BANDSTAND AND SUMMER CONCERTS.

Coun. SCANNELL and LINEHAN offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to name

the newly constructed bandstand at Marine Park in honor of South Boston veterans who served in all wars; and be it further

Ordered, That the Park Commission be requested to arrange a schedule of nightly and Sunday band concerts for the summer months.

Passed under suspension of the rule.

ASSESSMENT OF SUFFOLK DOWNS AND TAX ON WAGERS AND ADMISSIONS.

Coun. MUCHNICK offered the following:
Ordered, That the Board of Assessors be instructed by his Honor the Mayor to consider the advisability of increasing the real estate assessment on the Suffolk Downs property.

Ordered, That his Honor the Mayor instruct his Legislative Counsel to introduce legislation to the Great and General Court authorizing the City of Boston to levy a tax of five (5) per cent of the amount wagered daily at Suffolk Downs.

Ordered, That his Honor the Mayor instruct his Legislative Counsel to introduce legislation to the Great and General Court authorizing the City of Boston to assess a tax in the sum of ten (10) per cent on all admission charges collected daily from patrons at Suffolk Downs.

Coun. MUCHNICK—Mr. President, in the last five or six months particularly there has been a tremendous amount of talk concerning the expenses of the city and the necessity for raising increased revenue. There are several ways in which the problems can be attacked, and so far it seems to me that the Mayor has taken very few of those methods. The expenses of the city might have been reduced without impairing the efficiency of the work done by the city. I say might, because I am not sure that that could have been done, but at any rate it was not done and the expenses were increased. I don't know whether any of the benefits the city gives to its citizens have been increased along with it. Then there was a lot of talk and practically no action on the question of providing increased revenue to the city. The Mayor at one time filed a bill asking for authority to borrow \$10,000,000. The Legislature turned that bill down, and in my opinion were very wise in doing so. Since then nothing much has been done except a lot of talk about what could have been done had the ten million gone through. Now it seems to me that we must face this problem, as well as any other city problem, with a certain amount of realism. There is a certain amount of property in Boston that can be taxed, and there are certain avenues from which we can realize enough money to run the city, and roughly those avenues are either in the necessity class or in the luxury class. Real estate has been bearing the brunt of all taxes in this city, and in all other cities, up until recently, and that clearly is in the necessity class. If cities are going to provide further benefits to their citizens, or to continue to provide those which they now provide at increased cost, then they must have increased revenue, and it seems very unfair and very unwise to take it from those commodities which are necessities of life. In suggesting the three orders that are now before the Council, the suggestion is made that taxes be levied against an industry which is clearly only in the luxury class, and these three orders, while they relate to the same business and to the same owners, are of three different kinds, and I would like to speak on them separately. I suggest that the assessment at Suffolk Downs, the real estate assessment, be raised, and raised considerably. At the present time the property there is assessed for approximately two million dollars, and that property should be assessed for much more. The exact figure of the assessment I do not know. I do not claim to be an expert in the assessment of real estate, but I am sure that the department downstairs will be able to handle that. Mr. Kelly, the chairman of the Board of Assessors, was quoted in the newspapers last week as saying that he was in favor of an increase, and that that increase should be based on the replacement value of the building and on the reasonable assessment value of the land, among other things. With that I would not disagree at all, but it seems to me that in determining what is reasonable for the land value the board should take into consideration the fact that a little more than 50 per cent of the stock ownership in that company recently brought the sum of \$3,600,000. That brings the value of that business, in the minds of the majority stockholders, to approximately seven million dollars. Now, that seven million dollars does not represent the land and building values alone. The \$3,600,000 represents the right to control the business and the right to run the business, and the right to exercise the privilege of racing horses, and I know that it carries along with it certain other privileges of operating the business and owning the majority of the stock. But if we stop to analyze the Suffolk Downs picture it is all wound up with the piece of real estate, and I feel that if we were to summons the books of Suffolk Downs we would find that its primary asset as carried on its books is the real estate. And that would clearly apply to the land and should enable the tax assessors to fix what would be reasonable. On the question of the building, it is my understanding that Mr. Kelly says that the replacement cost, less certain deductions, is what should determine the fair assessment value. With that I am perfectly

willing to agree. I am convinced, although I have not had a chance to check it, that the insurance that is carried on that building at Suffolk Downs would probably in and of itself be greater than the amount of the present total assessment, because insurance costs and insurance policies are also based on replacement values of buildings. Now, it seems to me, Mr. President, that the Tax Assessing Department, which asks how much insurance people carry on their properties, which asks the owner's own valuation in the application for abatement, should have the right to examine the books of a company and base their opinion on the owner's own valuation. With reference to the other two orders, the City of New York has recently —

Coun. HANNON—Mr. President.

President KELLY—For what purpose does the gentleman rise?

Coun. HANNON—A point of order.

President KELLY—State your point of order.

Coun. HANNON—I think that the councilor should take his bills one at a time. I think that courtesy should be extended to the other members of the Council in case they wish to enter into the debate on any of the three orders. As long as there is a question here we might as well straighten it out.

President KELLY—The point is well taken. The question is on the suspension of the rule and the passage of the first order.

Coun. HANNON—Is the gentleman through on the first order?

President KELLY—The gentleman said he was through.

Coun. MUCHNICK—No, Mr. President. If they are going to be taken up individually I am not through.

Coun. HANNON—I think it should be made clear that the councilor is talking on only the first order.

Coun. MUCHNICK—That is very clear to me. President KELLY—The Chair will rule that you are talking on the first order.

Coun. MUCHNICK—In view of the request that the three orders be carried separately, I move that the first order be sent to the Executive Committee and that we invite the corporation counsel and a member of the Board of Assessors to come up to answer questions.

The question came on Councilor Muchnick's motion that the order regarding the advisability of increasing the real estate assessment on Suffolk Downs be sent to the Executive Committee.

Coun. HANNON—Mr. President, I have no objection to this matter going to the executive session, but I am going to suggest that we hold the executive session sometime other than today. I don't think there is any sense in wasting an hour here, and then after you take up thirty or forty minutes suggest that it be sent to some committee so that you can go in there and talk again. I think if a matter is going to be referred to a committee there is no sense in debating it here and getting in your say, excluding everybody else, and then asking it go to some committee, and then get in there and be heard again. I commend my good friend from Ward 14 for bringing these orders in here, but I hope that we may expedite the matters here somewhat. We have gone through a Curley fight and now I hope we are negotiating through a taxation problem here, and then go out to the executive session and go through it again. Let us try to expedite things here. Let us have some sympathy for the stenographer, if not for ourselves.

President KELLY—For the councilor's information, the Chair was going to pass it under suspension of the rule, but the councilor has asked to have it sent to the executive session. What is the wish of the Body? Councilor Muchnick asks that the order be sent to the executive session.

Coun. MUCHNICK—Mr. President, I have no objection, if this goes to executive, to have it heard there the next time the Executive Committee meets. I do not press it being heard today.

The order was referred to the Executive Committee.

Coun. MUCHNICK—Mr. President, in reference to the other two orders here, we can save a lot of time if they are taken up together.

Coun. HANNON—Mr. President, I do not mind as long as there is no debate on them. If I am going to debate with a party here, I should like to debate them one by one.

President KELLY—You will be heard, councilor.

Coun. MUCHNICK—Mr. President, there are several remarks that I wish to make in reference to the other two orders but I am purposely going to hold off making those at this time and I move that those two orders be sent to the executive session.

The orders were referred to the Executive Committee.

STATEMENT BY PRESIDENT KELLY.

President KELLY made the following statement: Last week, during the debate, the Chair, desiring to be fair with all members, made a ruling which I have since learned was over-liberal in its result. In order that, in the future, we may understand the rights of councilors who have the floor, I wish to read the following taken from Cushing's Manual on Parliamentary Procedure:

"A member in possession of the floor may yield it to another on request for a temporary pur-

pose. . . . If the floor is yielded for a motion to postpone or adjourn, and no postponement or adjournment takes place, the floor is restored to the member originally in possession of it. The same is true if a member in possession of the floor yields it for the purpose of explanation, but, if he relinquishes it for any other cause, such yielding is held to be unconditional and the floor is free to any other member."

In other words, gentlemen, when you legally have the floor you may yield it only to explain or answer a question, or to permit a motion to postpone or adjournment. If you yield it for any other reason, you yield it unconditionally. In view of this rule, the Chair, hereafter, will not permit a member to unconditionally yield the floor to another member, because by permitting this the Chair would be transferring to the members a right and duty which reposes in the Chair alone.

ACCEPTANCE OF CHAPTER 219, ACTS OF 1946.

Coun. LANE offered the following:

Ordered, That chapter 219 of the Acts of 1946, entitled "An Act Increasing the Amounts of Certain Annuities Payable by the City of Boston Under Special Law to the Widows of Former Policemen and Firemen," be, and hereby is, accepted.

Passed under suspension of the rule.

SOUND EQUIPMENT IN COUNCIL CHAMBER.

Coun. LANE offered the following:

Ordered, That the City Messenger be directed to arrange for the installation of a sound system in the City Council Chamber in order that the proceedings may be heard by all those present on the floor and in the gallery.

Referred to the Committee on Rules.

Coun. LANE in the chair.

IMPROVEMENT OF FORT HILL OBSERVATORY.

Coun. MORIARTY offered the following:

Ordered, That the Art Commission be requested, through his Honor the Mayor, to recreate, beautify and make attractive for historical celebrations the Fort Hill Observatory, atop Fort avenue, Ward 11.

Ordered, That the Park Commission be requested, through his Honor the Mayor, to place the walks, land and benches around the Fort Hill Observatory atop Fort avenue, Ward 11, in first-class condition.

Coun. MORIARTY—Mr. President, there is a relationship between these orders. Most sections of the country publicize certain features of their states, cities or townships. The Westerners publicize their weather, the mountainous districts their climate, and so on. We here in the East talk of our shores and our recreational facilities, our mountains and our beaches. However, throughout New England and Massachusetts, and Boston in particular, we have many historical shrines, places and areas where history was made, where American history was made, the results of which we here in the Council today enjoy—freedom of speech, freedom of action—the foundation of American democracy. In Ward 11 in Roxbury we have one of the early battle grounds known as Fort Hill. In early American history, upon the spot which is now Fort Hill was fought probably what was the most important military engagement in our early American history. It pales into insignificance the battles of Bunker Hill and Dorchester Heights. The Battle of Bunker Hill was a complete defeat for the American forces, though we do memorialize and perpetuate the area because of the gallantry and the determination of the forces armed with nothing more than pitchforks, and probably baseball bats, or the then equivalent of baseball bats. The Battle of Fort Hill, as I said, was probably the most important military engagement in early American history. When the British forces took over Bunker Hill they advanced into Roxbury in hopes of reaching Dedham, where the ammunition dumps were then located. However, General Washington was urged to come on from New York—Ticonderoga, I believe—to establish the strategy, to repulse and throw back the British, and it was at this site where the British forces were routed and repulsed, and eventually forced to get completely out of Boston and go to Nova Scotia and New York. We here today have been talking about perpetuating the memories of those who died in battle. In the days of early American history they, too, established forts, memorials and monuments, which are now reaching a state of decay, wrack and ruin. We can't adopt the cynical policy of—what about posterity; posterity has never done anything for us. However, we are in hopes that some day the public officials will want to maintain and keep up the memorials that we would like to establish today to preserve the memories of those who

fought for us in battle. As I say, in Roxbury we have a monument structurally of more historic value than Bunker Hill, which is going to wrack and ruin. I guess a good many of us here have never seen it, but it goes 133 feet into the air. I read that the Art Commission availed themselves of funds—I believe through the Phillips Fund—to restore this fort and appointed a committee to rebuild it. I would like to likewise urge the Park Commissioner to beautify this area. It is high ground, where mothers during the summertime find great pleasure and enjoyment in going with their children where they may overlook a greater part of Boston. I urge that the Park Commissioner send some men up there to rebuild the walks, to seed the ground, and to give it some attention. It is a sad thing that we in the Council have to instruct them regarding the duties that they ordinarily should carry out themselves. They maintain inspectors who should make periodic checkups on such places. I can't be too strong in urging that the Park Commissioner and the Art Commission do something to recreate and rebeautify Fort Hill and make it the war monument that it should be.

Coun. KINSELLA—Mr. President, of course I heartily agree with Councilor Moriarty that something ought to be done about these memorials which have been allowed to fall into a state not only of disrepair but disrepute, because it is a reflection on the community spirit where they are located. But Councilor Moriarty is just a young man here in comparison with me, although I do not crow about my seniority, and it is a little disturbing and disappointing to hear a young man like Councilor Moriarty, who has such a World War record himself in this last war, draw a thin line between any two battles of the American Revolution, because in my opinion there is nothing unimportant about any battle where human beings are killed. One of the worst practices I find today is amongst the younger veterans, who have a tendency to refer to World War I as a popgun war. And in turn the World War I veterans have been guilty of making such sly and low references to the Spanish-American War. I do not agree with anybody who says that a death or an injury in battle is unimportant, and where our country's life is at stake I would not want to be guilty of saying that one battle is more important than another. Now, I understand that the historians agree that it was the Spanish War that elevated the United States of America from the rank of a third-class power to the rank of a first-class power, yet the World War I veterans look at the score and call it a popgun war. Now these young fellows today are calling the World War I veterans, veterans of a popgun war. All around us we can see today the evidences of how unimportant that war was, with our hospitals still filled with crippled men, well along in years now, many of them twenty-five or twenty-seven years on the flat of their backs. So that I am disturbed to see a young man with a real good war record of his own, a fellow whom I respect personally, draw a line of distinction between the importance of Charlestown and Roxbury. Now, I suggest that if possibly Councilor Moriarty tried to find reference to the Battle of Bunker Hill in any of the English publications, which they use in the schools of England, he would find that they do not like to be reminded of the Battle of Bunker Hill. But I have always thought from what I was told, and what I have picked up in conversation, that at Charlestown—and I hope I am not going to lay myself open to a very bitter rejoinder—at Charlestown they fought and bled, even if they were defeated. I wonder, did they fight and die at that place in Roxbury?

Coun. MORIARTY—Mr. President, I suggest that the councilor is absolutely not right about Roxbury. My authority is not just something I recall from reading in the eighth grade.

Chairman LANE—Have you yielded the floor to Councilor Moriarty?

Coun. KINSELLA—I am asking the question, if they actually fought on that location that he seeks to beautify.

Coun. MORIARTY—They did. Does he expect details in reply?

Coun. KINSELLA—I do not want the details. Well then, the historians are derelict, because after nine years of grammar school and four years in high school I do not think I find a reference to that place. However, I will vote for this. I want to be recorded as magnanimous enough to go along with a moderate request for recognition, although the people who have lived between then and now did not see fit to recognize it. We have a shaft in Charlestown that they brought a Frenchman over to dedicate—Lafayette—and I do not mean Lafayette Mulligan. That was dedicated in 1825, and the only thing I know about it is that it stands 221 feet above an 86-foot elevation, which was used, as much as anything else, to look out for the British fleet, which the Americans were always eager to engage. History so records it. But I am willing to do what I can for this. I think they ought to get some sort of recognition after a hundred and some odd years. I will do my utmost, considerable or inconsiderable, as it may demand, to see that Roxbury is finally included as one of the places where a battle of the Revolution took place. I think it is cruel that they have been so long forgotten, but I am inclined to believe that that watch tower was put up there originally for another purpose than the councilor says,—to watch for hostile Indians, and then for the protection of Charlestown. I think that that was the reason for it, though I may be wrong.

Coun. RUSSO—Mr. President, I am going on with the discussion as far as our historical section of the city and its shrines is concerned. I do not disagree with the gentlemen who have spoken so far as their respective districts are concerned, but they have not mentioned the fact that in Ward 3, only a stone's throw from this very City Hall, we have also a great historical section, where the Boston Massacre took place, right at the corner of State and Congress streets. So that therefore I do hope that when they are outlining the historical sections they will not forget where the first man fell on account of the liberty that we are now enjoying today, and that is at the spot which I have just indicated. Certainly there are many places throughout our city where something should be done in the way of placing memorials or plaques, so that the visitors to the City of Boston may know more about the history of our city.

The order was passed under suspension of the rule.

TRANSFER TO PARK DEPARTMENT OF WARD 17 LAND.

Coun. KEENAN offered the following:

Ordered, That the Board of Real Estate Commissioners be requested, through his Honor the Mayor, to transfer to the custody of the Park Department the land at the corner of Washington street and Gallivan Boulevard, Ward 17, which was taken under tax title proceedings, to be developed as a playground.

Coun. KEENAN—Mr. President, this is similar to the order which I introduced on July 25, 1945. The purpose of reintroducing this order today is that last Saturday evening at 11.30 I received a phone call from one of the boys in the neighborhood telling me that some of them had been arrested by the police officers of Station 11 for playing ball at the Woodrow Wilson School, and that they were brought down to Station 11 and the captain locked them up in the cells. I was down to Dorchester Court this morning. At this time I want to thank the councilor from Ward 13, who came down to do what he could as an attorney, and I also want to congratulate his Honor, the Judge of the Dorchester Court, for the fine work he did in dismissing the case without having a record against the young boys. There were eleven of the young men who appeared in the Dorchester Court this morning, and every one was a veteran, boys who had served at Guadalcanal, all over the United States, and all over the world, who had been arrested Saturday night and brought down and were then brought into Dorchester Court for the very simple thing of playing baseball in a school yard. Now, if this order is passed and his Honor the Mayor sees fit to put a playground in that section, the land being owned by the City of Boston, the Planning Board has prepared a plan that I have here, dated May 1, 1942. There is no money to be laid out other than leveling the land and putting up benches and a backstop. I think it would be a help and a benefit to the community, because in that section there is no playground. I ask a suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

TRAFFIC HAZARD, WARD 19.

Coun. McCORMACK offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to make necessary physical changes so as to eliminate the accident hazard in the northwest quadrant of the traffic circle at Arborway, Centre street, and May street, in Ward 19.

Passed, under suspension of the rule.

REPORT OF FINANCE COMMISSION RE MUNICIPAL EMPLOYEES.

Coun. LINEHAN—Mr. President, I would like to ask the clerk, through you, sir, if it is possible to discuss the report of the Finance Commission as a result of an order filed by me last week in regard to the pay roll situation of the City of Boston. I think the report is in the hands of the members of the City Council.

Chairman LANE—Will the gentleman suspend for a minute? The Clerk will include in the minutes of the meeting the report of the Finance Commission, and then you may discuss it.

The report was as follows:

City of Boston,

Finance Commission, May 6, 1946.

To the Honorable the Mayor and City Council.

In the Finance Commission's latest annual report of the situation with respect to the administration of municipal affairs in Boston is the observation that "through the tangled skein of department organization and administration are several conspicuous threads of duplication, lack of coordination, lack of programming, inefficient assignment of personnel, surplus and shortages of personnel, unused systems, and similar defects. . . . In other words, the root causes lie in such fundamental areas as budgeting, co-ordination of function, programming, enforcement of systems."

In supplying the Council with the statistical history of pay roll changes since January 1, 1946,

in those departments which are under the control of the Mayor, the commission again points out that the above quotation tells why each annual announcement of Boston's tax rate makes taxpayers gasp. Nevertheless, little has happened yet which would indicate a reversal of these conditions.

The many studies which the Finance Commission has made have amply demonstrated that it is principally in the pay roll requirements that change must be obtained, if the cost of municipal service is to be brought down to a figure which the taxpayers can accept as reasonable. It is not alone the elimination of positions as they become vacant, which has been often promised but seldom accomplished, but it is by the elimination of all unnecessary positions, even before the occupant passes away or reaches retirement age, that the pay roll requirements can be brought to a level which will permit the proper expenditure for plant maintenance without a crippling tax rate.

This present administration is daily finding more and more evidence that its predecessors have, in plant maintenance, neglected to take the proverbial "stitch in time to save nine." What must be realized is that it is the continuing volume of pay roll payments which have forced administrators to neglect plant in order that the pay roll requirements might be guaranteed, i. e., that the appropriations for maintenance would not reach a figure which would make collection of the resulting tax rate impossible.

The commission has long advocated a survey of the scope requiring special facilities to provide a new determination of the municipal services actually necessary; then how many employees are needed to operate these services; and, finally, what they should cost. Incidental to preparation of a report of that nature, the survey should reveal evidence of the number of city employees whose employment is unnecessary; and a natural corollary would be a determination of the form of government which could and most likely would bring about the needed change.

Not all city departments are overstaffed today; but many are carrying on their pay rolls names of employees who do nothing to earn their pay, many who give at best only a part-time service, and more particularly many whose services would not be needed if the services attempted were limited to actual requirement and then were scientifically coordinated. Many worthy services are scattered. Duplications result. Hence many more employees than should be necessary are on the pay rolls.

The new administration has had four months to develop its keynote policies. What has taken place in this time may be assumed to be illustrative of what the trend of this next four years will be. Anyone who reads the figures, therefore, can readily grasp whether or not it is the chosen policy to make any effort to revamp administration, to eliminate unnecessary pay roll.

A foreword to the statement of the figures is necessary. They do not include pay roll changes in the institutional departments, i. e., in the operation of the City Hospital, the Sanatorium (for tuberculosis patients at Mattapan) and the Chronic Hospital and Infirmary at Long Island, nor do they include Police Department figures, because pay roll changes in the Police Department are not within the Mayor's control. Institutional employees are not easy to obtain or to hold in employment because of the character of the work and the low pay as contrasted with wartime wages elsewhere, and, as a result, the daily overturn in such employees is very great.

With that explanation, the commission submits the following exhibit of pay roll changes from January 1 to April 16.

Respectfully submitted,

EDWARD F. MULLEN, Chairman,

ALEXANDER WHEELER,

LEO J. DUNN,

FREDERICK DEANE,

The Finance Commission.

ROBERT E. CUNNIFF,
Secretary.

Coun. LINEHAN—Mr. President, we finally have some information which we have been seeking for some weeks. I refer the members of the Council to the report of the Finance Commission dated May 6, 1946, which I understand every City Councilor has received a copy of. Turning to pages 1 and 2 at the back of the report, where it gives some statistics, we find a few revealing facts. Although, as it says in the report of the Finance Commission, it does not take into consideration all of the departments which are within the city, those departments which they were able to get statistics on they have listed in this report. For example, on page 2 in the back of the report, we have 679 employees eliminated, dropped from the pay roll, plus 37 retirements, 28 deaths, and 67 resignations, making a total of 811. In regard to the appointments, going over to the last two columns, it seems ironic, but the figure for temporary appointments of 679 checks with the 679 that were dropped from the pay roll. That is quite a coincidence. Plus a per-

manent appointment of 168, making a total of 847 added to the pay rolls since, I believe, the inauguration of the present Mayor of the City of Boston. Of course we realize that getting these figures now is the result of an order filed a week ago. I kind of smile when I think of how the Budget Commissioner or the Auditor said that it would take weeks and weeks to get the figures, and then I filed an order last week and here we have at least some of the Finance Commission figures. How accurate they are I don't know, but at least they do give us some information. This shows that his Honor the Mayor made a misstatement when he said that he had eliminated 1,000 employees from the rolls of the city. We find a figure of 811 eliminated for one reason or another, against total appointments of 847. Going through some of these departments, you find a few facts that are quite revealing. I noticed one of them was the Building Department. No employees dropped, and 15 appointed. Now, it is my understanding upon reading the record and

looking back upon the last few weeks that most of them were getting very good money as inspectors, and I am sorry to say that many of them that I see in the *City Record*, whose names appear in there, were not veterans. Now, the Finance Commission, which was not going to give us the information, finally gave it to us. I am glad that some public body finally gave it to us, take it for what it is. But they overlooked one thing which they requested in the order. I did ask how many veterans had been appointed under Mayor Curley, and I think that figure could have been compiled just as easily as the other, because they could have gotten it from the same report. I am sorry to say that I can't say whether he has appointed 50 veterans or 100. I would not be afraid to bet that he has not appointed many more than 150 out of 600 or 800-odd. In the first paragraph of the report it says: "In other words, the root causes lie in such fundamental areas as budgeting, coordination of function, programming, enforcement of systems." That of course does not come under the City Council; it comes under the Mayor of Boston. So that the blame for any lack of coordination of functions, and so forth, rests upon his Honor the Mayor. It also points out at the bottom of the first page of the report: "It is not alone the elimination of positions as they become vacant, which has been often promised"—if I remember correctly, by his Honor the Mayor; I think during the inauguration he promised it—"but seldom accomplished, but it is by the elimination of all unnecessary positions, even before the occupant passes away or reaches retirement age, that the pay roll requirements can be brought to a level which will permit the proper expenditure for plant maintenance without a crippling tax rate." Now, the Finance Commission does say that some of the fault rests on past administrations, due to the fact that they did not maintain the equipment during the war years, plus the years previous to that. It goes on to say: "Not all city departments are overstaffed today; but many are carrying on their pay rolls names of employees who do nothing to earn their pay, many who give at best only a part-time service, and more particularly many whose services would not be needed if the services attempted were limited to actual requirement and then were scientifically coordinated. Many worthy services are scattered. Duplications result. Hence many more employees than should be necessary are on the pay rolls. The new administration has had four months to develop its keynote policies. What has taken place in this time may be assumed to be illustrative of what the trend of this next four years will be. Anyone who reads the figures, therefore, can readily grasp whether or not it is the chosen policy to make any effort to revamp administration, to eliminate unnecessary pay roll." I am sorry to say that up to this time we have not seen any effort on the part of his Honor the Mayor to eliminate any of the so-called unnecessary employees. Whether he has placed more on the pay rolls than were there, I don't know. But, mind you, when I say "dropped," that does not mean he fired them. They may have had a temporary employment running out, or there may have been many other reasons. So that I can't give credit for eliminating all those who resigned, and so forth. I want to take at this time the opportunity of thanking the Finance Commission for changing its mind and furnishing the members of the City Council with some statistics which were requested in my order, but I sincerely hope that they will find time to check the veteran angle so that we will find out just what the City of Boston is doing in regard to trying to give employment to veterans. At this time I want to take the opportunity of congratulating the Finance Commission, which probably very seldom happens in the City Council here.

Chairman LANE—The report of the Finance Commission is hereby placed on file.

APPROPRIATION FOR TRAFFIC LIGHTS.

Coun. McCORMACK, LANE, CANTWELL, and BRYAN offered the following:

Ordered, That his Honor the Mayor be requested to initiate an appropriation of not less than \$50,000 for the purpose of installing traffic lights at various dangerous intersections throughout the city.

Passed under suspension of the rule.

INFORMATION RE PAVEMENT REPAIR CONTRACTS, ETC.

Coun. LINEHAN offered the following:

Ordered, That the Commissioner of Public Works and the Superintendent of Supplies be requested, through his Honor the Mayor, to appear before the Boston City Council to furnish more detailed information in regard to the dispensing with bids on the recent bituminous type of pavement repair contract given to the Central Construction Company of Boston; also information pertaining to other contracts for more than one thousand dollars (\$1,000) which were awarded without advertising.

Coun. LINEHAN—Mr. President, I would like at this time, if it is possible, to incorporate the remarks that I made on the order of the councilor from Ward 3, pertaining to the same subject matter as is under this order, so that I may not be repeating myself here on the floor of the Council.

Chairman LANE—Will you please repeat that?

Coun. LINEHAN—I would like to incorporate the remarks I made under the order of the councilor from Ward 3 pertaining to contracts under \$1,000; I would like to have my remarks transferred from that order over to this one and incorporate them here.

Chairman LANE—Your remarks will be incorporated by reference.

The order was passed under suspension of the rule.

PREFABRICATED HOUSES FOR VETERANS.

Coun. LINEHAN and SCANNELL offered the following:

Ordered, That the City of Boston secure prefabricated houses available from the Federal Government and through the Boston Housing Authority locate the same in that part of Columbus park not used for recreational purposes, for the purpose of furnishing housing to war veterans and their families.

The order was passed under suspension of the rule.

REPORT OF FINANCE COMMISSION RE REDUCING COST OF MUNICIPAL SERVICE.

Coun. LINEHAN offered the following:

Resolved, That the City Council in meeting assembled go on record as favoring the report of the Finance Commission pertaining to reducing the cost of municipal service in regard to the purchasing surplus property acquired by the Federal Government during the war through the War Assets Administration.

Passed under suspension of the rule.

NAMING OF

"ALEXANDER PAUCKA CIRCLE."

Coun. LINEHAN offered the following:

Ordered, That his Honor the Mayor be requested to direct that the name of the circle at Preble and Vinton streets and Columbia road be named the "Alexander Paucka Circle" to commemorate the memory of Sergeant Alexander Paucka, the first South Boston member of the armed forces to lose his life in the Philippines during World War II on January 6, 1942.

Passed under suspension of the rule.

NAMING OF CITY PROPERTY.

On motion of Coun. LINEHAN, No. 1, under unfinished business, was taken from the calendar.

The order was as follows:

Ordered, That any City of Boston property requiring a name, such as the new boat which will ply between the mainland and Long Island, shall be named in memory of a deceased war veteran.

The order was passed under suspension of the rule.

ADVERTISING BOSTON AS VACATION CENTER.

Coun. CHASE offered the following:

Ordered, That his Honor the Mayor consult with the Chamber of Commerce, the Hotel Association, and other business and taxpayer groups, with a view to determining the advisability of advertising Boston as an ideal vacation and convention center.

Coun. CHASE—Mr. President, I have in mind that many states in our Union and many cities in our Union conduct national advertising campaigns for the purpose of soliciting business for their respective states and cities. We here in Boston can boast of a city which has about everything which a convention center or a vacation center could possibly have. We have the historical sites of America right here in Boston. Near by Boston we have beautiful beaches; we are near to the foothills of the White Mountains and the rivers of Maine and the hills of the Berkshires. We are within a stone's throw, you might say, of Lexington and Concord, and other historical spots. We are within a few miles from Cape Cod. I can vision, Mr. President, with a proper advertising campaign conducted by the city on a national basis, the expenses of the conduct of that campaign being repaid many hundreds of times to the taxpayers. I think, Mr. President, we have been a little lax in the past in Boston in telling the people of America just what we have here in Boston to offer them as a vacation center and as a convention center. I think we should adopt the progressive ideas of other states and other cities, which have been conducting advertising campaigns in order to get more business, which naturally resulted in work for the citizens. I hope, Mr. President, that his Honor the Mayor will give serious consideration to this order.

The order was passed under suspension of the rule.

Coun. SCANNELL moved adjournment, and the meeting was declared adjourned.

Coun. RUSSO—Mr. President—Chairman LANE—The meeting has been adjourned.

Coun. SCANNELL—I will withdraw my motion.

Coun. RUSSO—I do request, Mr. President, that the councilor will withdraw his motion.

Coun. SCANNELL—I will withdraw it.

Chairman LANE—Councilor Scannell has withdrawn his motion.

Coun. RUSSO—Mr. President, the reason why I have asked Councilor Scannell to withdraw his motion for adjournment is that I believe that there is a matter which was given to the Executive Committee in regard to transferring of parcels of land from the Real Estate Department to the Fire Department. I would like, Mr. President, if I am in order, to move that we adjourn for the purpose of going into Executive Session.

Chairman LANE—The Chair will say that there is doubt as to a quorum being present, and there is some question as to whether a meeting of the Executive Committee can be held tonight for lack of a quorum.

The question came on motion of Coun. RUSSO that a recess be taken for the purpose of going into Executive Session. The motion was lost.

Coun. KINSELLA—Mr. President, I move that all remarks following the vote to adjourn be stricken from the record, if it is the sense of the Body that it must have a reconsideration on adjournment; otherwise we will have it in the record that after adjournment another matter of city business was accepted.

Chairman LANE—Councilor Scannell withdrew his motion with unanimous consent.

Coun. SCANNELL—Mr. President, at this time I wish to doubt the presence of a quorum.

The roll was called and six councilors responded.

Chairman LANE—Only six members being present, the Chair declares the meeting adjourned for lack of a quorum.

Adjourned at 6.15 p. m., to meet on Monday, May 13, 1946, at 2 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

April 23, 1946.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 12.45 o'clock P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton, Ward and White.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

RE-ELECTION OF ASSISTANT SUPERINTENDENT

The Chairman stated that the term of office of Katharine C. McDonnell expires Aug. 31, 1946. The election of an Assistant Superintendent is therefore in order.

The Committee proceeded to the election of an Assistant Superintendent of Schools for the term beginning Sept. 1, 1946.

For Katharine C. McDonnell—Messrs. Foley, McDevitt, Norton, Ward, and White—5.

The Chair declared Katharine C. McDonnell unanimously re-elected Assistant Superintendent for the term specified.

DEATHS

The Superintendent reported the deaths of the following-named teachers:

English High School—Barnaby M. Hogan, head of department, men, Mar. 29, 1946.

Brandeis Vocational High School—John J. Boyan, head of division, Apr. 3, 1946.

Dearborn District—Katherine M. Binkley, assistant, special classes, Mar. 29, 1946.

Placed on file.

The Superintendent reported the deaths of the following-named teachers who had been retired on pension:

Prince District—Lillian F. Sheldon, Feb. 21, 1946.

William E. Endicott District—Edith L. Phelan, Mar. 16, 1946.

Placed on file.

RESIGNATIONS.

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:

Hyde Park High School—Edna L. Purcell, industrial instructor, Feb. 22, 1946.

South Boston High School—Margaret H. Jacobs, industrial instructor, Mar. 29, 1946.

Accepted.

RETIREMENT ON PENSION

The Superintendent offered the following:

ORDERED, That the following-named person is hereby retired on pension in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, Chapter 304 of the Special Acts of 1915, and Chapter 685 of the Acts of 1945, the date of retirement and rate of pension to be as hereinafter specified:

Washington Allston District — Gertrude M. Finn, teacher, elementary, Dec. 31, 1945, \$900.

Passed unanimously.

APPOINTMENTS

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

TRANSFER OF PRINCIPAL

Frank J. Lyons, principal, Emerson District, to the same position in the Mary E. Curley Intermediate District, Apr. 29, 1946.

Approved.

(BY PROMOTION)

(Principal)

Emerson District—William R. Silva, principal (from War Emergency Principal, Grover Cleveland Intermediate District), Apr. 29, 1946.

The rules were suspended and the appointment approved.

(FROM THE ELIGIBLE LIST)

Thomas A. Edison Intermediate District—Edith Stahl, teacher, intermediate, from Sept. 1, 1946 to Aug. 31, 1947, for rest.

On the report of the Superintendent, leave of absence was granted the following-named teachers for the periods specified:

English High School—William J. Dooling, master, Mar. 27, 1946, one-half day, court summons.

Department of Manual Arts—Warren L. Flagg, Mar. 1, 1946, one day, court summons.

On the report of the Superintendent and under a suspension of the regulations, leaves of absence were granted the following-named teachers for the terms specified:

Edmund P. Tileston District—Henrietta W. Sheinker, teacher, elementary, Apr. 2 to June 27, 1946, without pay.

Phillips Brooks District—Joseph T. Sullivan, submaster, Apr. 23 to June 27, 1946, without pay.

On motion of the Superintendent, it was

ORDERED, That Robert C. Schimmel, master, Dorchester High School for Boys (assigned to Department of Visual and Radio Education), is hereby granted leave of absence without loss of pay for the period May 2 to 8, 1946, inclusive, to attend the convention of The Institute for Education by Radio, to be held at Columbus, Ohio.

TRANSFER

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that subject to the approval of the School Committee, he has made the following transfer of a teacher:

Marion G. Lane, assistant, South End Evening School, to the same position in the Roger Wolcott Evening School, Mar. 4 and 5, 1946 (two evenings).

Approved.

ASSIGNMENTS

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that subject to the approval of the School Committee, he has terminated the assignment of the following-named teacher to the school indicated, to take effect on the date stated:

Ellen E. Collins, teacher, elementary, William E. Russell District, to the Speech Improvement Classes, Apr. 17, 1946.

Placed on file and the termination approved, to take effect on the date stated.

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that subject to the approval of the School Committee, he has assigned the following-named teachers to the School for Veterans, as indicated, without change of rank or salary, to take effect on the date stated and to continue for the school year ending Aug. 31, 1946, unless earlier terminated by the Superintendent with the approval of the School Committee:

Dorchester High School for Boys—John T. Ryan, junior master, Apr. 3, 1946.

Abraham Lincoln Intermediate District—James J. Foley, teacher, intermediate, Apr. 3, 1946.

Placed on file and the assignments approved, to take effect on the date stated.

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that he has assigned the following-named teachers to assist in the "veterans on the job" training program of the Vocational Division of the Massachusetts Department of Education for the periods indicated:

Vashni Marchant, co-operative instructor, Charlestown High School, for the period Apr. 29 to June 27, 1946.

Daniel J. Galvin, co-operative instructor, Brighton High School, for the period April 29 to June 27, 1946.

James E. Carter, co-operative instructor, East Boston High School, for the period Apr. 29 to June 27, 1946.

Placed on file and the assignments approved for the periods specified.

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that he has made the following assignment, without change of rank or salary, to take effect Apr. 19 and to continue through June 27, 1946:

James B. McDonough, Shop Instructor, Department of Manual Arts, to the Charlestown High School.

Placed on file and the assignment approved for the period specified.

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that subject to the approval of the School Committee, he has assigned the following-named school physician, to take effect Jan. 9, 1946, and to continue for the school year ending Aug. 31, 1946, unless earlier terminated by the Superintendent with the approval of the School Committee:

Dr. James J. Regan, school physician, Department of School Hygiene, for full-time ophthalmological duties.

Placed on file and the assignment approved, to take effect on the date stated.

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that subject to the approval of the School Committee, he has assigned the following-named secretary to the School for Veterans, as indicated, without change of rank or salary, to take effect on the date stated, and to continue for the school year ending Aug. 31, 1946, unless earlier terminated by the Superintendent with the approval of the School Committee:

Boston Clerical School—Emma M. Greer, secretary, two-fifths time, Mar. 28, 1946.

Placed on file and the assignment approved, to take effect on the date stated.

DESIGNATIONS

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that he has made the following designations of teachers to serve in the positions indicated until such time as they shall be filled otherwise in accordance with the rules and regulations, but not beyond Aug. 31, 1946:

English High School—Edward J. Powers, junior master, as acting head of department, men, Apr. 1, 1946.

Dudley District—Sabina M. Ryan, teacher, elementary, as acting vice-principal (vice Helen B. Peterson, absent on leave), Mar. 26, 1946.

Francis Parkman District—John W. Whelan, teacher, intermediate, as acting sub master (vice Nelson I. Mixer, absent on leave), Mar. 28, 1946.

Henry Grew District—Mary A. Bassett, teacher, elementary, as acting vice principal (vice Margaret M. Brennan, absent on leave), Feb. 27, 1946.

Hugh O'Brien District—William F. Minihan, sub master, as acting principal (vice Joseph E. Lynch, absent on leave), Mar. 27, 1946; Samuel N. Sheinfeld, teacher, intermediate, as acting sub master, Mar. 27, 1946.

Placed on file.

PLAYGROUNDS, SEASON OF 1946

The Superintendent offered the following:

ORDERED, That for the current calendar year, the playground term shall be as follows:

Spring Season: Apr. 22 to June 15, 1946, inclusive.

ORDERED, That variations in the established dates for beginning and terminating playground activities may be allowed in the discretion of the Superintendent on recommendation of the Director of Physical Education.

ORDERED, That the Director of Physical Education is hereby authorized to conduct playground activities in such school yards, children's corners and athletic fields as may be approved by the Superintendent during the Spring Season of 1946.

ORDERED, That the Superintendent is hereby authorized to change the days and hours on which each playground may be conducted at his discretion.

ORDERED, That the Superintendent is hereby authorized to make such emergency appointments as may be necessary for service in the playgrounds during the Spring Season, 1946.

ORDERED, That any teacher whose name appears on the list of teachers appointed in play-

grounds for the Spring Season of 1946 may be transferred by the Superintendent from one position to another for which said teacher holds the required certificate and said teacher shall be paid according to the schedule established for the position actually filled during any day or part of the day certified to by the Director of Physical Education.

ORDERED, That the sessions of the playgrounds shall be as follows:

Spring Season—Apr. 22, 23, 24, 25, 26—9:45 A. M. to 5 o'clock P. M. Apr. 29 through June 15—from 4 o'clock P. M. to 6 o'clock P. M.—on all school days. All Saturdays—9:45 A. M. to 12 o'clock M.

The seven orders passed collectively.

Bigelow Intermediate School—at the school, Friday, May 10, 1946.

Annual Street Parade—Sunday, May 26, 1946.

SUSPENSION OF SESSIONS OF ALL DAY SCHOOLS; CLOSING OF ADMINISTRATIVE OFFICES

On motion, it was

ORDERED, That the action of the members of the Committee in suspending the sessions of all day schools on Thursday, Apr. 18, 1946, is hereby ratified.

On motion, it was

ORDERED, That the action of the members of the Committee in closing the administrative offices and supply room on Thursday, Apr. 18, 1946, is hereby ratified.

EMERGENCY EMPLOYMENT IN AFTERNOON KINDERGARTEN

On motion of the Superintendent, it was

ORDERED, That the emergency employment of Margaret B. Beatley, kindergarten teacher, one session, Samuel Adams School, Samuel Adams District, is hereby authorized in the afternoon session of that kindergarten on Mar. 22, 1946, and that she be allowed and paid additional compensation at the rate of two dollars (\$2) per session for such service.

DISCONTINUANCE OF SPECIAL CLASS

A communication was received from the Superintendent, under date of Apr. 23, 1946, reporting that he has discontinued one special class in the Eliot-Hancock District, leaving a total of eight special classes in that district, to take effect Mar. 30, 1946.

Placed on file.

GRADUATING EXERCISES

On motion of the Superintendent, it was

ORDERED, That the order passed at the meeting of Mar. 12, 1946, requesting the Department of School Buildings to secure the use of accommodations for the graduating exercises of the several high schools on certain dates, is hereby amended with respect to the following-named schools in

order to provide accommodations on the dates now specified:

Dorchester High School for Girls—Symphony Hall, Tuesday afternoon, June 11, 1946.

Jeremiah E. Burke High School for Girls—Symphony Hall, Monday afternoon, June 3, 1946.

Roxbury Memorial High School (Girls)—Symphony Hall, Tuesday afternoon, June 4, 1946.

SALE OF NAHUM CHAPIN SCHOOL

The following* preamble and order were offered:

WHEREAS, the Nahum Chapin School, Common Street, Charlestown, is not in actual use for school purposes, it is hereby

ORDERED, That it is advisable to sell the following-named property which is not now required for school purposes, in accordance with the provisions of Chapter 259 of the Acts of 1906:

Nahum Chapin School, on the southwesterly side of Common Street, Charlestown: Land and building, containing approximately 7,002 square feet.

The preamble was adopted and the order passed unanimously.

ATTENTION AT CONVENTIONS

On motion of the Superintendent, it was

ORDERED, That Frederick J. Gillis, Assistant Superintendent, is hereby authorized to attend the annual meeting of the Junior Town League, to be held in Columbus, Ohio, and the President's Highway Safety Conference, to be held in Washington, D. C., May 3 to 10, 1946, inclusive, at an expense to the city not to exceed one hundred eighty-five dollars (\$185).

On motion of the Superintendent, it was

ORDERED, That Francis J. Daly, head of division, juvenile adjustment, is hereby authorized to visit various school systems in the Mid-West to study their adjustment services, for the period Apr. 18 to 26, 1946, inclusive, at an expense to the city not to exceed one hundred seventy-five dollars (\$175).

On motion of the Superintendent, it was

ORDERED, That Joseph A. Hennessey, Director of Visual and Radio Education, is hereby authorized to attend the Tenth American Exhibition of Education Programs, sponsored by the Institute for Education by Radio, to be held in Columbus, Ohio, May 3 to 6, 1946, inclusive, at an expense to the city not to exceed one hundred fifteen dollars (\$115).

On motion of the Superintendent, it was

ORDERED, That Edward J. Wall, Supervisor of Safety Education and Health Education, is

hereby authorized to attend the President's Highway Safety Conference, to be held in Washington, D. C., May 8 to 10, 1946, inclusive, at an expense to the city not to exceed ninety dollars (\$90).

A communication was received from the Superintendent, under date of Apr. 23, 1946, submitting in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Mary W. Cauley, Director of Household Science and Arts, on her attendance at the North Atlantic Regional Conference on Home Economics Education, held at New York City, Mar. 28 to 30, 1946.

Placed on file.

BOUNDARY LINES

On motion of the Superintendent, it was

ORDERED, that the boundary lines of school districts are hereby amended as follows:

Dillaway District, for Girls—Strike out the boundary lines and substitute in place thereof the following:

Beginning at the corner of Washington and Ruggles streets; thence by the centers of Washington and Eustis streets, Harrison avenue, and Warren street, the rears of the westerly side of Walnut avenue, the northerly side of Circuit street, the westerly side of Regent street, and the northerly side of Dale street, the center of Washington street, the rears of the southwesterly side of Marcella and Ritchie streets, the centers of Columbus avenue, Centre and Gardner streets, the rear of the southeasterly side of Elmwood street, the center of Linden Park street, the rear of the southeasterly side of Hampshire street, and the center of Ruggles street to the point of beginning.

Dudley District, for Boys—Strike out the boundary lines and substitute in place thereof the following:

Beginning at the corner of Washington and Ruggles streets; thence by the centers of Washington and Eustis streets, Harrison avenue, and Warren street, the rears of the westerly side of Walnut avenue, the northerly side of Circuit street, the westerly side of Regent street, and the northerly side of Dale street, the center of Washington street, the rears of the southwesterly side of Marcella and Ritchie streets, the centers of Columbus avenue, Centre and Gardner streets, the rear of the southeasterly side of Elmwood street, the center of Linden Park street, the rear of the southeasterly side of Hampshire street, and the center of Ruggles street to the point of beginning.

Henry L. Higginson District, for Boys and Girls—Strike out the boundary lines and substitute in place thereof the following:

Beginning at the junction of Warren and Waumbeck streets;

thence by the rear of the southerly side of Waumbeck street to Crawford street, a straight line to the junction of Walnut and Westminster avenues, the centers of Walnut and Columbus avenues, the rears of the southwesterly side of Ritchie and Marcella streets, the center of Washington street, the rears of the southerly side of Dale street, the westerly side of Paulding street, the centers of Bainbridge street and Walnut avenue, the rears of the southwesterly side of Bower street, the easterly side of Humboldt avenue, the northerly side of Munroe street, and the center of Warren street to the point of beginning.

REMOVAL OF NAME FROM ELIGIBLE LIST

A communication was received from the Board of Superintendents, under date of Apr. 23, 1946, reporting the amendment of School Document No. 6, 1945, Candidates Eligible for Permanent Appointment as Teachers, as follows:

Page 22. Intermediate and Elementary Certificates, Examined Candidates—Geography. 918. Margaret L. Sullivan, December 31, 1948. Name removed by request.

Placed on file.

RESIGNATION, OFFICES OF SUPERINTENDENT-SECRETARY

A communication was received from the Acting Secretary, under date of Apr. 23, 1946, reporting the resignation of Mary G. MacLeod, assistant in the office of the Superintendent-Secretary, to take effect Apr. 16, 1946.

Accepted.

REINSTATEMENT OF MARY H. SPILLANE

On motion, it was

ORDERED, That under the provisions of Chapter 16 of the Acts of 1942, and with the approval of the Division of Civil Service, Mary H. Spillane is hereby reinstated as secretary, Brandeis Vocational High School assigned to the Solomon Lewenberg Intermediate District, through May 31, 1946.

On motion, it was

ORDERED, That during her period of service under the foregoing order, the compensation of Mary H. Spillane, secretary, Brandeis Vocational High School assigned to the Solomon Lewenberg Intermediate District, is hereby established at the rate of one hundred seventeen dollars (\$117) a month, this being the approximate difference between the salary which she received prior to her retirement on pension, March 31, 1946, and the amount of pension allowance she now is receiving.

APPOINTMENT OF ASSISTANTS IN OFFICES OF SUPERINTENDENT-SECRETARY

A communication was received from the Acting Secretary, under date of Apr. 23, 1946, reporting that subject to the approval of the School Committee and with the approval of the Division of Civil Service, she has appointed the following-named persons in the offices of the Superintendent-Secretary, to take effect on the dates stated:

Gertrude A. Lythgoe, assistant, Group D, Apr. 15, 1946.

Ruth M. Cox, assistant, Group D, Apr. 15, 1946.

Winifred M. Mulcahy, assistant, Group D, Apr. 22, 1946.

Placed on file and the appointments approved, to take effect on the dates stated.

On motion, it was

ORDERED, That the salaries of the following-named assistants, Group D, in the offices of the Superintendent-Secretary, are hereby established at the rate of twenty dollars (\$20) per week, to take effect on the dates stated:

Gertrude A. Lythgoe, Apr. 15, 1946.

Ruth M. Cox, Apr. 15, 1946.

Winifred M. Mulcahy, Apr. 22, 1946.

SALARIES, OFFICE OF BUSINESS MANAGER

A communication was received from the Business Manager, under date of Apr. 23, 1946, recommending the passage of the accompanying order adjusting the salaries of Peter A. Gavrilles and Thomas J. O'Keefe. Mr. Gavrilles returned from the service on Feb. 20, 1946 and Mr. O'Keefe on Feb. 13, 1946. These salaries are established at the rates they would have been receiving if their services had not been interrupted through military service.

Placed on file.

On motion, it was

ORDERED, That the classification and the salary or compensation of the following-named persons employed in the office of the Business Manager are hereby established as follows, to take effect on the dates indicated and to continue until otherwise ordered:

Peter A. Gavrilles, assistant Group C, Feb. 20, 1946—\$40 per week.

Thomas J. O'Keefe, assistant Group B, Feb. 13, 1946—\$41 per week.

APPROPRIATIONS AND EXPENDITURES TO APR. 1, 1946

A communication was received from the Business Manager, under date of Apr. 23, 1946, submitting a statement showing the expenditures for maintenance of

the public schools for the first three drafts of the current fiscal year, the expenditures for the first three drafts of the fiscal year 1945, and the increases and decreases in the several items.

Placed on file.

TRANSFERS OF CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of Apr. 23, 1946, recommending that the following-named senior custodians, who stand at the head of their respective lists, be transferred to the positions indicated, to take effect Apr. 28, 1946:

John J. Beatty from the Nahum Chapin to the custodianship of the Asa Gray Schoolhouse.

Michael J. Connolly from the Phineas Bates to the custodianship of the Winship Schoolhouse.

John J. Downey from the Abby W. May to the custodianship of the Charles Logue Schoolhouse.

Philip H. Kelly from the David L. Barrett to the custodianship of the Albert Palmer Schoolhouse.

Thomas H. Kelley from the Samuel W. Mason to the George T. Angell Schoolhouse.

Thomas J. McDonough 2nd from the Stephen M. Weld to the custodianship of the Samuel W. Mason Schoolhouse.

Ralph A. Meyer from the Benedict Fenwick to the custodianship of the Frederick A. Whitney Schoolhouse.

John F. Muldoon from the Richard C. Humphreys to the custodianship of the Phineas Bates Schoolhouse.

Henry E. Oakes from the Dwight to the custodianship of the Chapman Schoolhouse.

Coleman J. O'Donnell from the Albert Palmer to the custodianship of the Old Agassiz Schoolhouse.

Harold F. Page from the Joshua Bates to the custodianship of the Dwight Schoolhouse.

Hugh A. Stevenson from the Frederick A. Whitney to the custodianship of the Andrew Jackson Schoolhouse.

Edward F. Stockman from the Edwin P. Seaver to the custodianship of the William Bradford Schoolhouse.

Placed on file and the transfers approved, to take effect on the date stated.

LEAVES OF ABSENCE TO CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of Apr. 23, 1946, recommending that the following-named custodians be granted leaves of absence on one-half compensation for the periods specified because of personal illness:

Paul E. Butler, senior custodian, Dillaway Schoolhouse, Apr. 1 to 30, 1946.

James J. Curran, senior custodian, Quincy E. Dickerman Schoolhouse, Apr. 1 to 30, 1946.

Frederick N. Eaton, senior custodian, Roger Clap Schoolhouse, Apr. 1 to 30, 1946.

Frederick A. Fitzgerald, senior custodian, Julia Ward Howe Schoolhouse, April 1 to 30, 1946.

Joseph R. Hurley, junior custodian, Boston Clerical Schoolhouse, Apr. 1 to 30, 1946.

Angelo Macello, senior custodian, Prince Schoolhouse, Apr. 1 to 30, 1946.

Bernard McCormack, junior custodian, Williams Schoolhouse, Apr. 5 to 13, 1946.

Nellie McEnery, janitress, Administration Building, Feb. 22 to 28 and Apr. 1 to 7, 1946.

John J. Mullane, senior custodian, Ellen H. Richards Schoolhouse, Apr. 1 to 30, 1946.

James A. Spillane, senior custodian, Mozart Schoolhouse, Mar. 31 to Apr. 30, 1946.

Charles F. Sullivan, senior custodian, Copley Schoolhouse, Apr. 1 to 30, 1946.

Edward D. Ward, senior custodian, William E. Endicott Schoolhouse, Apr. 1 to 30, 1946.

Placed on file and leaves of absence on one-half compensation granted for the periods specified.

ESTABLISHMENT OF POLICY TO APPOINT CERTAIN TEMPORARY TEACHERS ON PERMANENT BASIS

On motion, it was

ORDERED, That, effective Sept. 1, 1946, and thereafter, those temporary teachers whose names appear on the permanent eligible lists, who have served continuously and successfully in the Boston Public Schools for at least three years, shall be appointed on a permanent basis with pension rights.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS,
Acting Secretary

SHIPBUILDING IN 1943.

In 1943 the privately operated shipyards of America came up with another miracle, shattering all world records, producing merchant shipping of approximately 19,000,000 deadweight tons, a volume equal to one fifth of total world shipping at the outbreak of the war and about two and a half times the tonnage built in 1942. Private shipyards also built about 90 per cent of all of the new U. S. Navy ships built during the year. If the man-hours utilized in building naval ships could be translated into merchant ships, the combined volume would be in excess of 40,000,000 deadweight tons. Privately operated ship repair yards repaired and made seaworthy about 23,000 ships in all classes during the year. Total employment generated by the industry is approximately 3,000,000. Private yard and Navy yard 1943 pay rolls, at the prevailing wage rates, are more than \$4,300,000,000 paid to labor and shared by almost every state.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town policy, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

1943 GREAT LAKES COAL AND GRAIN TRAFFIC.

For the 1943 season of navigation, through December 4, coal forwarded to Great Lakes docks from American ports on Lake Erie totaled 45,518,603 tons, according to a report by Solid Fuel Administrator Ickes. This was 1,858,604 tons less than in 1942, the report said. Lake navigation began a month later than it did in 1942 and strikes in the coal producing areas in May and June and in October and November temporarily reduced the flow of coal toward the Lake Erie ports. Coal received at American docks on Lake Superior, according to the report, totaled 11,111,625 tons in the 1943 season of navigation, 15 per cent above the 9,828,000 tons received there in 1942. The 1943 total, it said, exceeded the season's quota by more than 300,000 tons.

War Food Administration officials expressed the opinion that final figures would show a total of 190,000,000 bushels of grain moved via the Great Lakes to northeast ports for domestic consumption in 1943. This was greatly in excess of the 135,000,000 bushels set as the year's quota. The War Shipping Administration said that the larger quota had been set in view of added facilities to be available in 1944. These included thirteen vessels returned to the Great Lakes from ocean service by the W. S. A. and the completion by November 30, 1943, of sixteen new ore carriers for the Maritime Commission, all of which would be available for Great Lakes transportation in 1944.

CREATES ARBITRATION BOARD TO SETTLE INDUSTRIAL LABOR DISPUTES.

The city council of Toledo, Ohio, recently approved an "industrial relations charter" which creates a labor-management citizens' committee of 18 appointed by the Mayor. The charter is recommended by the Toledo City Council for adoption by representatives of industry and labor in the city. The preamble states: "Industrial harmony means more than the elimination of strikes, slow-downs and lock-outs. It means a practical, common-sense recognition of the rights of both employers and employees, the mutuality of their interests, and the importance of their joint responsibility to the citizens as a whole, whose interests transcend the presumed rights of any group."

BOND SALES.

Labor, farm, school and women's groups were responsible for 1943's greatest sale of E Bonds.

Using the person to person approach, Payroll Savings added two million workers—bringing its ranks to 26.4 million. Payroll Savings allotments jumped from 355 millions in December, 1942, to 445 millions in October, 1943. Thousands of labor-management War Bond committees were organized.

Farm committees worked intensively through personal solicitation and farmers' organizations to convert a large share of the largest farm income in history into War Bonds.

In the schools, the nation's youngest group of Bond buyers is rapidly enlisting every pupil in America.

TANKERS DO DOUBLE DUTY.

American shipyards are now making it possible for our tankers to carry extra loads. A scaffold-type extra deck enables a modern tanker to carry a load of extra freight the equivalent of 10 per cent of its normal load capacity. Some tankers now carry, in addition to its load of gasoline, deck loads of ambulances, planes, jeeps and trucks.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING TRAFFIC SIGNAL EQUIPMENT TO THE BOSTON TRAFFIC COMMISSION.

The Supply Department of the City of Boston invites bids for furnishing traffic signal equipment, as specified in proposal forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Traffic Signal Equipment." There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out. The bids will be publicly opened and read Tuesday, May 28, 1946, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WILLIAM I. ROSE,
(May 18.) Superintendent of Supplies.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

CITY OF BOSTON.

LIBRARY DEPARTMENT.

TO PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR CERTAIN PAINTING AND PAINTER'S WORK AT THE CONNOLLY BRANCH LIBRARY, 433 CENTRE STREET, JAMAICA PLAIN; FANEUL BRANCH LIBRARY, 419 FANEUL STREET, BRIGHTON; MATTAPAN BRANCH LIBRARY, 10 HAZELTON STREET, MATTAPAN.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for certain painting and painter's work in the branch libraries as listed above.

Proposals will be received until 12 o'clock noon, Friday, May 31, 1946, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Business Office, Public Library of the City of Boston, Central Library, Copley square, Boston 17, Mass. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston 8, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of one hundred and fifty dollars (\$150), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the awarding of the contract.

Specifications may be obtained on and after Monday, May 20, 1946, at the Business Office, Public Library of the City of Boston, Central Library, Copley Square, Boston 17, Mass.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to accept or reject any or all bids, and to accept or reject any portion or portions of bids, and to award the contract as he deems for the best interests of the city.

THE TRUSTEES OF THE PUBLIC LIBRARY OF THE CITY OF BOSTON,
by ELIZABETH B. BROCKUNIER, Clerk.
(May 18-25.)

consisting of forms used by State departments, and the printing of tickets, calendars, and other material ordered by organizations or individuals outside of the institution; to check the condition of the machinery and the distribution of supplies and machine repair parts; and to perform related work as required.

Entrance Requirements: Applicants must have at least one year of full-time, paid experience in the supervision of a printing shop.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING WORK AT THE STEPHEN M. WELD SCHOOL, SEYMOUR STREET, NEAR HYDE PARK AVENUE, ROSLINDALE.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing work at the Stephen M. Weld school, Seymour street, near Hyde Park avenue, Roslindale.

Proposals will be received until 12 o'clock noon, Wednesday, May 29, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.
(May 18.)

TO PROTECT MINORS.

Buffalo is considering an ordinance, similar to the one in effect in New York City, for the protection of minors in theaters. It permits children, unaccompanied by adults, only in theaters licensed as to adequate sanitary and safety provisions, sets aside a certain section for them and requires the presence of a licensed matron.

CITY OF BOSTON.

PARK DEPARTMENT.

INVITATION FOR PROPOSALS FOR REPAIRS TO FIELD HOUSE SHELTER AND PLAYGROUND FACILITIES AT JEFFERSON PLAYGROUND, ROXBURY, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, Boston, Mass., herein-after referred to as the Awarding Authority, invite sealed proposals for repairs to field house shelter and playground facilities at Jefferson Playground, Roxbury, Mass.

Proposals will be received until 2 p. m., Thursday, May 23, 1946, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$500, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 2 o'clock p. m., Monday, May 20, 1946.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

WILLIAM P. LONG, Chairman,
THEODORE C. HAFFENREFFER,
FRANK R. KELLY,
(May 11-18.) Commissioners.

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR FURNISHING AUTOMOBILES.

The Police Department of the City of Boston invites proposals for furnishing and delivering automobiles. The bidder must use the form of proposal to be obtained at the Office of the Property Clerk of the Police Department, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the Office of the Police Commissioner, a properly certified check in the amount of \$1,000, payable to and to become the property of the Police Commissioner for the City of Boston if the proposal is not carried out. Proposals will be publicly opened and read on Friday, May 31, 1946, at 12 o'clock noon, at the Office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

THOMAS F. SULLIVAN,
(May 18-25.) Police Commissioner.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR EARTH EXCAVATION AND REFILLING TO ALLOW WATER DIVISION EMPLOYEES TO INSTALL, REGULATE OR REPAIR WATER DIVISION STRUCTURES; ALSO FOR THE INSTALLATION OF WOODEN BOXES AND ESTABLISHING POST HYDRANTS IN THE BRIGHTON (WATER DIVISION) DISTRICT.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for earth excavation and refilling to allow Water Division employees to install, regulate or repair Water Division structures; also for the installation of wooden boxes and establishing post hydrants in the Brighton (Water Division) district. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Earth Excavation and Refilling to Allow Water Division Employees to Install, Regulate or Repair Water Division Structures; also for the Installation of Wooden Boxes and Establishing Post Hydrants in the Brighton (Water Division) District," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, May 24, 1946, with a certified check for three hundred and fifty (\$350) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(May 18.) Commissioner of Public Works.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO GENERAL CONTRACTORS.

INVITATIONS FOR PROPOSALS FOR MAKING ALTERATIONS, ETC., IN THE GIRLS' TRADE SCHOOL, 56 FENWAY, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for making alterations, etc., in the Girls' Trade School, 56 Fenway, Boston, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, May 28, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$300, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.
(May 18.)

POLICE DEPARTMENT.

PROPOSALS FOR FURNISHING UTILITY WAGONS.

The Police Department of the City of Boston invites proposals for furnishing and delivering utility wagons. The bidder must use the form of proposal to be obtained at the Office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the Office of the Police Commissioner, a properly certified check in the amount of \$500, payable to and to become the property of the Police Commissioner for the City of Boston if the proposal is not carried out. Proposals will be publicly opened and read on Friday, May 31, 1946, at 12 o'clock noon, at the Office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

THOMAS F. SULLIVAN,
(May 18-25.) Police Commissioner.

CITY OF BOSTON.

PARK DEPARTMENT.

PROPOSALS FOR GRADING AND LOAMING AT JOHN W. MURPHY PLAYGROUND, JAMAICA PLAIN, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for grading and loaming at John W. Murphy Playground, Jamaica Plain, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Grading and Loaming at John W. Murphy Playground, Jamaica Plain, Mass.," and left before 2 o'clock on Thursday, May 23, 1946, at the office of the Park Department with a certified check for \$500, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

WILLIAM P. LONG, Chairman,
THEODORE C. HAFENREFFER,
FRANK R. KELLY,
(May 11-18.) Commissioners.

CITY OF BOSTON.

PARK DEPARTMENT.

PROPOSALS FOR FURNISHING AND SPREADING FILLING AND SAND AT TENANE BEACH, DORCHESTER, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for furnishing and spreading filling and sand at Tenane Beach, Dorchester, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Furnishing and Spreading Filling and Sand at Tenane Beach, Dorchester, Mass.," and left before 2 o'clock on Tuesday, May 28, 1946, at the office of the Park Department with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

WILLIAM P. LONG, Chairman,
THEODORE C. HAFENREFFER,
FRANK R. KELLY,
(May 18-25.) Commissioners.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 38

SATURDAY, MAY 25, 1946.

NO. 21

COURAGE AND ENERGY ATTRIBUTES THAT SERVED TO MAKE AMERICA GREAT, JUDGE DANIEL J. GILLEN OF MUNICIPAL COURT TELLS "I AM AN AMERICAN DAY" AUDIENCE AT OBSERVANCE ON BOSTON COMMON ON SUNDAY, MAY 19 — ALSO POINTS TO FACT UNITY AND PERSEVERANCE SUBDUED ENEMIES AND VOWS AMERICANISM CAN AND WILL OVERCOME ANY AND ALL OTHER "ISMS" — "FOLLOW CONCEPTS OF CONSTITUTION OF UNITED STATES AND WE'LL EVER GO FORWARD" WAS HIS THEME.

At the "I Am An American Day" exercises on Sunday, May 19, on Boston Common, Hon. Daniel J. Gillen, Judge of the Municipal Court of Boston, the chief orator, delivered the following address:

I know I speak the sentiments of this great gathering when I say we are everlastingly grateful to the sturdy American, William Randolph Hearst, whose vision, initiative and patriotism instituted "I Am An American Day."

As long as I can remember he has preached the doctrine of Americanism; but he has rendered more than lip service — he has thrown the power, influence and energy of the Hearst publications into the furtherance of his patriotic ideals.

And I venture to say, when he learns of the thousands who have responded to his call to publicly proclaim their loyalty to America and all that it represents, he will feel amply rewarded, for a great man asks only for the confidence of his fellowman.

We are grateful also to Mayor Curley, whose energy and power of organization has provided a program and meeting that will not be surpassed in any city in our land today.

We can sum it all up when we paraphrase his old favorite, William Shakespeare, and say of Mayor Curley that time cannot wither nor custom stale his infinite resourcefulness.

Historic Pride.

We meet on one of the most historic spots in our land — Boston Common. We meet in the most historic city in America — Boston.

When we proclaim to the world "we are Americans," we can do it with as much pride and satisfaction as any community in the nation. The history of Massachusetts and Boston is in a sense the history of America.

On our Massachusetts shores landed the Pilgrims and the Puritans. And with them came the spirit of America a century and a half before these United States were created.

They and those who followed were refugees from oppression and intolerance; but in their breasts burned a hope of freedom and equality of opportunity. The hazards of wilderness, wild animals and savages did not deter them. "This is our land" was the slogan. God willing, it must be a community of law and order.

Organized government quickly followed; the Great and General Court came into being; but, before it, towns and plantations functioned. Town meeting, home rule, freedom of elections, assembly and religion came in due course.

When we turn the pages of history we read of Magna Carta and the English Bill of Rights. But neither of these documents granted the common man freedom of expression. Under the English Bill of Rights only members of Parliament were guaranteed freedom of speech. Mark you — only members of Parliament.

It was in Massachusetts in 1641 that the guarantee of freedom of speech for the people was first written into law anywhere. The General Court here in Boston ordered that every person whether freeman or foreigner may come into any court or town or public assembly and set forth his just grievances. This freedom of expression and assembly was to be our keystone.

Produced Great Men.

There must also be education. Harvard College was founded in 1635. But a year before this the town of Boston had created the Boston Latin School — destined to be the greatest institution of its kind. The school that sheltered five signers of the Declaration of Independence, in the persons of Samuel Adams, John Hancock, Robert Treat Paine, Benjamin Franklin and William Hooper. The school that gave to the world Wendell Phillips, Ralph Waldo Emerson, President Eliot of Harvard, Bishop Fitzpatrick, Edward Everett, Martin Milmore — and countless members of Congress and famous men in all walks of life.

Farming, industry and commerce followed. Every theory of planned economy proclaimed by the New Deal three hundred years later flourished in the first fifty years of the Massachusetts Bay Colony. Yes, even price fixing of commodities existed right here in Boston as early as 1645.

(Continued on page 623.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

CITY RECORD.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, May 27, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Haymarket Square, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughterhouses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE ELECTRICAL INSPECTION DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For week ending May 18, 1946.

Population as of July, 1943, Massachusetts State Census, 817,713; population estimated July, 1946, United States Census Bureau, 766,386; number of deaths (stillbirths excluded): Residents, 156; nonresidents, 49; total, 205.

Death rate per 1,000 of population: All deaths, 13.91; nonresidents deducted, 10.58.

Death rate per 1,000 of population:

ADDRESS OF HON. DANIEL J. GILLEN AT THE "I AM AN AMERICAN DAY" EXERCISES.

(Continued from page 621.)

Out of the dreams, the prayers and the ambitions of the colonists and the founding fathers was born the United States of America. Long before the Constitution was written patriots died in the Boston Massacre and at Bunker Hill for the freedoms our supreme law was to later guarantee.

In front of Faneuil Hall is the statue of a great American, located in the shadow of the Cradle of Liberty by the foresight of Mayor Curley. On it is an inscription—"Samuel Adams—he organized the Revolution." That line tells the whole story.

Boston born, Adams was the flame that set men's hearts on fire in Boston Town—to stand firm and assert their claim to a government of the people and by the people.

No king or tyrant could quench the flame. He defied Empire and Parliament. In the dark days of the Revolution he was firm, ever the leader; nor did he rest until he saw his aims and hopes blossom in the supreme law of our land.

Who created the Constitution of the United States? Why was it created? Its first line gives us the answer—"We the people, in order to form a more perfect union!"

The President did not create it—the Senate did not create it—the House of Representatives did not create it—we the people. They did not expect complete perfection, for they said in definite language we create it to form a more perfect union. They knew that at best man-made government would be imperfect. They were religious men—they knew that the only complete perfection would be that of the Almighty—the fatherhood of God and the brotherhood of man.

DEFEAT PREDICTED.

Was there unity when our government was created? No! Men said in 1787 it would not last fifty years. We will always have defeatists, but our answer to them is that today, after one hundred and sixty years, we stand the most powerful nation in the world, because we are now united.

The strength of the American character was the ability to overcome obstacles.

Can America overcome the problems of war? Germany and Japan think so! If we overcame the difficulties of three hundred years, if we are the most powerful nation in the world, then the problems of peace can be solved. Unity, determination, the "can do" spirit of America is the solution.

Each American citizen has in his possession the most powerful and priceless weapon man has created—the right to vote in free elections. The weapon is the ballot. If at times we are dissatisfied with the way our government is administered, let us remember that generally we the people are to blame—we have been indifferent, careless, not responsive to our civic obligations, fail to vote, fail to exercise our freedoms, fail to crystallize public opinion.

How do we form a more perfect union? By forming a more perfect state—by forming a more perfect city.

Ralph Waldo Emerson once said that every Boston man carried a revolution in his waistcoat pocket. And it's true

in 1946; every Bostonian carries a revolution in his vest pocket. But the revolution he carries today is the right to vote for public officials and governmental concepts all the way down to municipal administrations.

When men come to us in our day and tell us we should let the City Council elect the Mayor, our answer should be the same as it was in 1821, when the citizens of Boston assembled in Faneuil Hall and voted "No" on the same idea, and solemnly proclaimed we the people will elect the Mayor. That is the American way—we want no European ideas of local government in Boston.

PRESERVED DEMOCRATIC FORM.

In 1821, when a committee made up of Daniel Webster, Lemuel Shaw and Josiah Quincy advised Bostonians to adopt the plan then in operation in Charleston, South Carolina, where the Board of Aldermen elected the Mayor, the people rejected it, so that it was the people of Boston who preserved the democratic form in spite of the advice of leaders.

The Supreme Court of the United States has said time and again that Congress cannot delegate the powers the Constitution gave it. And by the same token the people should never delegate the power the Constitution gives them—the right to vote for public officials in free elections.

As we reflect on the glories of the past today, let us look forward with faith to the future of our country.

They tell a story about General Sherman of Civil War fame that is interesting. Some years after he was graduated from West Point he found himself out of employment, so he went for help to his classmate of the Military Academy, Braxton Bragg, later to be a famous general in the Confederate Army.

Through the influence of Bragg, Sherman obtained a position as the master of a private school in the south that catered to the children of wealthy plantation owners. Today the school is the Louisiana State University.

When Sherman was there a while, Bragg paid him a visit to find out how he was getting along. Then Sherman unburdened himself—told Bragg that he did not have much hope for a land that had so many insolent children. The boys and girls were egotistical, studied when they felt like it, disregarded the rules—nothing good could come of it—were generally a hopeless group and, if they were the future Americans, he trembled for the fate of America.

PASSING DIFFICULTIES.

A few years later these boys and girls were the backbone of the South in the Civil War and the foundation of the New South in reconstruction days.

History proved that Sherman's fears were groundless.

What is the lesson from this story? That what at times appear to be major calamities in our land are merely passing difficulties that can be overcome if we have the fortitude to go forward when the clouds are dark.

What made America great? The idea that nothing was impossible! Courage and energy conquered the west; unity and perseverance subdued our enemies; Americanism can overcome all other "isms."

If we are united, if we follow the concepts of the Constitution of the United States, we will ever march forward and, God willing, we will be able to go on to heights never dreamed of by the patriots of 1776, who gave their all to form a more perfect union.

REPORT OF JOSEPH A. HENNESSEY, DIRECTOR OF VISUAL AND RADIO EDUCATION, ON ATTENDANCE AT CONVENTION OF AMERICAN ASSOCIATION OF SCHOOL ADMINISTRATORS, AT NEW YORK CITY, MARCH 4 TO 7, 1946.

The following report has been received by the School Committee:

BOSTON, March 15, 1946.

DR. ARTHUR L. GOULD,
Superintendent of Schools.

DEAR DR. GOULD,—May I present the following report of my attendance at the Regional Conference of the American Association of School Administrators.

The sessions of the Regional Conferences on Education of the American Association of School Administrators, a department of the National Education Association, were this year held in the Hotel Pennsylvania, New York City, from March 4 to March 7, 1946.

In terms of the improvement and development of the services rendered the Boston public schools by the Department of Visual Aids, the session which considered Scientific Aids to Education and the Exhibit which showed newly refined teaching materials seemed most significant.

Efforts to make new equipment really available for school use have been hindered by the industrial disputes which have interfered with the production of the new materials. Interest in the production and distribution of teaching aids has widened as a result of the common realization of their effectiveness in the war program. The activities of these new agencies have already affected the volume and quality of projectors and such projection materials as motion pictures and film slides.

Boston's plan for the expansion of visual instruction will be influenced by the announcement of all manufacturers of their intention to make smaller, lighter and less expensive machines. Since many of the buildings in the Boston system are so constructed that the current machines suitable for large assembly halls are not needed, the manufacture of the new machines will permit the equipment of such schools at a decreased cost.

The growing interest of Boston teachers of foreign languages is evidently typical of a nation-wide interest in this direction. In the near future, materials and equipment for experimentation in this field will also be made available.

The demonstrations and discussions at the conference all seemed to confirm the desirability of continuing the established Boston practice of refraining from stimulating artificially the use of these new aids and of expanding the employment of recently developed materials only on the basis of worth and need as proved by actual classroom experience.

Respectfully submitted,

JOSEPH A. HENNESSEY,
Director, Department of Visual and Radio Education.

DEPARTMENT CHANGES.

(Continued from page 629.)

SUPPLY DEPARTMENT.

George T. Pickett, 16 Centre street, Roxbury, clerk, \$1,500 a year plus \$200 E. C. A.

STEP-RATE INCREASES.

The Mayor has approved the following increases in salaries of employees, effective on varying dates as established for members of each department involved:

POLICE DEPARTMENT.

Sliding-scale increases during 1946 have been granted the following-named members, effective as of date of anniversary of appointment, to appear for the first time upon weekly pay rolls ending April 9, 1946.

Names of police officers employed on a provisional temporary basis, who may receive a sliding-scale increase, if still employed on that basis, on their respective anniversary dates of appointment, are listed herein.

If these persons, who are provided for in our 1946 annual budget, for a sliding-scale increase, are still employed under the above authorization, on the dates below set out, request shall be made on the Division of Civil Service for continued employment at increased rate of pay.

There has been no change in duties of any person listed herein.

Administrative Force—Headquarters Clerical.

Kathryn J. Simonds, clerk, from \$1,480 to \$1,580 a year.

Marion C. Dolan, clerk, from \$1,350 to \$1,450 a year.

Margaret Foley, Marie E. Wall, Dorothy E. Harrison.

Provisional Temporary Policewoman.

Increase from \$2,400 to \$2,500 a year.

Beatrice M. Ingenere.

EXAMINATION FOR FOREMAN.

PARK DEPARTMENT.

The Mayor has approved the following request of the Commissioner:

BOSTON, April 24, 1946.

HON. JAMES M. CURLEY,

Mayor of Boston.

DEAR SIR,—I respectfully request that this department be allowed to make a request upon Civil Service for the holding of a competitive promotional examination within the Park Department for eight positions as foremen. This examination is to be confined to employees with over five years' service in this department.

Three of these positions will be covered by the foreman of the greenhouses, who will retire on May 31, 1946; the head carpenter, who died on April 10, 1946; and by the retirement in August of this year of the foreman of the Franklin Park area. These three positions are provided for in our 1946 budget.

I desire to alter the budget, for which I ask your approval to add five more positions as foremen.

For the past few years we have had the Charlestown, South Boston and Brighton districts, the Tree Division and the city's squares under the supervision of employees of this department who have been acting as foremen. All of these areas should be in charge of men who have the rating of foreman. These will not add to the personnel of the department if the examination is confined to the employees of the Park Department. The vacancies of the acting foremen's positions will not be filled when the permanent foremen are appointed.

Respectfully yours,

WILLIAM P. LONG, Chairman.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

SUPPLY DEPARTMENT.

Upon March 29 the Mayor approved contracts with bidders as indicated for furnishing drugs, etc., for city departments through December 31, 1946, with the privilege of purchasing on the same terms and conditions extended until February 15, 1947. The approximate amounts of the awards were as follows:

Commercial Solvents, \$58,000; Chester Baker, Inc., \$13,297.58; Good Drug Company, \$11,554.92; Thomas W. Reed Company, \$6,288.91; McKesson & Robbins, Inc., \$6,256.17; Winthrop Chemical Company, \$5,051.60; Berry & Withington Company, \$3,809; Parke, Davis & Co., \$3,420.10; Frederick Stearns & Co., \$2,733.60; Hoffman LaRoche Company, \$2,287; Howe & French, Inc., \$2,142.56; Hynson, Westcott & Dunning, \$1,642.20; Upjohn Company, \$1,581; Analab Laboratories, \$1,555.72; Brewer & Co., \$1,485.34; E. R. Squibb & Sons, \$1,275.25; Gilman Brothers, Inc., \$1,271; Mallinckrodt Chemical Works, \$1,256.25; National Drug Company, \$982.27; E. F. Mahady Company, \$837.04; Surgeons & Physicians' Supply Company, \$736.15; Ciba Pharmaceutical Company, \$573.20; Schering Corporation, \$524.16; American Pharmaceutical Company, \$399.35; Cowley Pharmaceutical Company, \$367.75; Burroughs Wellcome Company, \$313.56; Merck & Co., Inc., \$291.60; Boston Drug and Chemical Company, \$210.20; Sharp & Dohme, \$196.80; Roche-Organon, Inc., \$134.40; Wyeth, Inc., \$122.75. Total, \$130,577.43.

Bids were as follows:

Item 1. 600 Adrenalin in Oil, 1:500 1 cc., P. D. or Equal, Per C.—Parke Davis & Co., Inc., \$11.05*; Abbott Laboratories, \$11.93; Abbott Epinephrine in Oil, \$9.95*; Good Drug Company, \$11.93; Abbott Epinephrine HC 1, \$9.95*; Lakeside Laboratories, Inc., \$7; Epinephrine; Thomas W. Reed Company, \$11.93; Abbott; Marsh Pharmacy, \$11.93; Abbott Epinephrine, \$9.95.*

Item 2. 2 Gross Adrenalin Chloride Solution, 1-Ounce Bottles, P. D. or Lederle, Per Gross.—Kenmore Pharmacy, Inc., \$43.20; Lederle; Parke Davis & Co., Inc., 69 cents per ounce, 3 dozen lots, 58 cents per ounce, 6 dozen lots, 50 cents per ounce, 12 dozen lots; Abbott Laboratories, 38 cents per ounce, Abbott Epinephrine HC 1; Good Drug Company, \$43.20; Lederle,* Epinephrine HC 1; Thomas W. Reed Company, \$54.72; Abbott; Marsh Pharmacy, \$43.20; Epinephrine HC 1 1:1000; Lederle Laboratories, Inc., \$43.20; Epinephrine HC 1; Sharp & Dohme, \$86.40; Adrin (Injec. Epinephrine hydro).

Item 3. 6 Dozen Amfetin, 50 cc., 6's, Lilly, Per Dozen.—McKesson & Robbins, \$9; Brewer & Co., Inc., \$108; Gilman Brothers, \$108.*

Item 4. 14 Gross Amino Acid, 15 Per Cent, 100 cc., Parenteral, Per Gross.—Frederick Stearns & Co., \$183.60*, Parenamine; McKesson & Robbins, \$216; Stearn's Parenamine; Gilman Brothers, \$210; Stearns.

Item 5. 5,000 Aminophyllin; Three and Three Quarter Grain, 10 cc., Intravenous, 100's, Per C.—Kenmore Pharmacy Inc., \$15.50, 4/25 cc., Lederle; Cowley Pharmaceutical, Inc., \$11; G. D. Searle & Co., \$15.50, 2/5; McKesson & Robbins, \$15.50, 2/5; Searle; William S. Merrill

Company, \$9.66; Good Drug Company, \$15.50; Lederle; Brewer & Co., Inc., \$7.50*; Lakeside Laboratories, Inc., \$13.50; Marsh Pharmacy, \$15.50, 4 x 25 cc., 10 cc., Lederle; Burroughs Wellcome & Co., \$16.83; Lederle Laboratories, Inc., \$15.50.

Item 6. 200 Aolan, 5 cc., Duke Laboratories, 50 to Package, Per C.—McKesson & Robbins, \$15; Thomas W. Reed Company, \$15.*

Item 7. 3 Dozen Avertin, 25 cc., Winthrop, Per Dozen.—Winthrop Chemical Company, Inc., \$39.*

Item 8. 3,000 Betasynplex or Equal, Vit. B Complex, Per C.—Winthrop Chemical Company, Inc., \$22.50*; Upjohn Company, \$42.03, without water Solu-B; Thomas W. Reed Company, \$50; Upjohn.

Item 9. 1,300 Betaxin Vit. B., 250 mg., 10 cc., Per C.—Winthrop Chemical Company, Inc., \$42.50.*

Item 10. 600 Bismarsen, Abbott, with Solvent, 2 mg., 100's, Per C.—McKesson & Robbins, \$37.50; Abbott Laboratories, \$37.50; Good Drug Company, \$37.50*; Thomas W. Reed Company, \$37.50; Marsh Pharmacy, \$37.50.

Item 11. 600 Bromosulfallin, 3 cc., 10 to Box, Per Box.—Hynson, Westcott & Dunning, Inc., \$18.70 per box (100)* \$2.12½ per box (10).

Item 12. 6,000 Caff. Sod. Benzoin, 7 Grains, P. D., Lilly, S. & D., Per M.—Parke Davis & Co., Inc., \$83.20, 100's, 2 cc., amps.; Wyeth, Inc., \$52.50; William S. Merrill Company, \$42.40, 2 cc.; Abbott Laboratories, \$7.26 per C., Abbott; Good Drug Company, \$52.50; Lederle or Wyeth; Brewer & Co., \$42.* Brewer; Thomas W. Reed Company, \$72.60; Abbott; Marsh Pharmacy, \$7.26 per C., Abbott; Chester A. Baker, Inc., \$5.25; Sharp & Dohme, \$75; Benzoate, 2 cc.

Item 13. 100 Calc. Chloride, 10 Per Cent, 10 cc., Per Amp.—Parke Davis & Co., \$13.10 per C.; National Drug Company, \$8.93 per C.*

Item 14. 1,500 Calc. Gluconate, Abbott or Equal, Intramuscular, Per C.—Parke Davis & Co., \$13.98, 1 gm., 10 cc.; Cowley Pharmaceutical, Inc., \$9; McKesson & Robbins, \$12; Abbott Laboratories, \$12, \$11; Good Drug Company, \$12, \$11; Abbott; Brewer & Co., \$8.* Brewer; National Drug Company, \$9.30; Lakeside Laboratories, Inc., \$9.60; Thomas W. Reed Company, \$12; Marsh Pharmacy, \$12, \$11.*

Item 15. 200 Camphor in Oil, 3 Grain, 1 cc., 100's, Per C.—Parke Davis & Co., \$7.50; Cowley Pharmaceutical, Inc., \$5.05; William S. Merrill Company, \$5.90; Abbott Laboratories, \$7.65, \$6.55,* Abbott; Good Drug Company, \$7.65, \$6.55; Brewer & Co., \$4.15*; Thomas W. Reed Company, \$7.65; Marsh Pharmacy, \$7.65, Abbott, \$6.55.*

Item 16. 60 Cedinalid, 4 cc. (Sandoz), 0.8 Gm., 30 to Box, Per Box.—McKesson & Robbins, \$5.75.*

Item 17. 24 Gross Cev. Acid, 500 mg., 5 cc. (6 to Box), Hoff LaRoche or Equal, Per Box.—Cowley Pharmaceutical, Inc., \$2.96, 12 to box; Hoffman LaRoche Company, \$1.40*; Brewer & Co.; 76.5 cents, Brewer Vicin.

Item 18A. 5,000 Coramine, 1.5 cc., Ciba, 100's, Per C.—Ciba Pharmaceutical Products, Inc., \$10*; Surgeons & Physicians' Supply Company, \$9.75; Novocol, \$19, Nikethamide, w/v solution, 25 per cent; Novocol Chemical Manufacturing Company, \$10, Novocol Nikethamide and 25 per cent w/v solution; Abbott Laboratories, \$9.50, Nikethamide, 0.375 gram., 1/1/2 cc.; Good Drug Company, \$9.50, Nikethamide, A, .375 gram.,

Abbott; Lakeside Laboratories, Inc., \$7.95, Nikethamide; Marsh Pharmacy, .375, Abbott, \$9.50, Nikethamide; E. F. Mahady Company, \$9.75, Nikethamide, 25 per cent, w/v solution.

Item 18B. 200 Coramine, 5 cc., Ciba, 100's, Per C.—Ciba Pharmaceutical Products, Inc., \$19.80*; Novocol Chemical Manufacturing Company, \$19, Nikethamide, 25 per cent, w/v solution; E. F. Mahady Company, \$19, Nikethamide, 25 per cent, w/v solution.

Item 19. 200 Decholin Sod., 5 Per Cent, 100's, Per C.—McKesson & Robbins, \$5.40 per box, 20's, 20 per cent, 3 cc.; Thomas W. Reed Company, \$27, 20 per cent.*

Item 20A. 300 Demiol, 30 cc., Vials, 50 mg. to cc., Per Vial.—Winthrop Chemical Company, \$1.04.*

Item 20B. 3,000 Demiol, 2 cc., Amps., 50 mg. to cc., Per C.—Winthrop Chemical Company, \$10.72.*

Item 21. 3,000 Dextrose, U. S. P., 50 Per Cent, 100 cc., Per M.—Parke Davis & Co., Inc., \$460; Wyeth, Inc., \$286, 100's; Abbott Laboratories, \$43.70 per C., \$41.40 per C., Abbott; Good Drug Company, \$28.60, Wyeth; National Drug Company, \$29.81, buffered; Thomas W. Reed Company, \$414, Abbott; Marsh Pharmacy, \$43.70 per C., Abbott, \$41.40 per C.; Chester A. Baker, Inc., \$28.60.*

Item 22. 8,000 Digalen, 2 cc., Hoffman LaRoche, 1 M's, Per M.—Hoffman LaRoche Company, \$50 per M,* boxes of 100.

Item 23A. 300 Diodrast Comp., 20 cc., 25 to Box, Per Box.—Winthrop Chemical Company, \$29.40.*

Item 23B. 10 Diodrast, 35 Per Cent, 30 cc., Winthrop, 10 to Box, Per Box.—Winthrop Chemical Company, \$15.80.*

Item 24. 24 Doca, 10 cc., Hoffman La Roche, Per Vial.—Roche Organon, \$5.60.*

Item 25A. 1,000 Eph. Nov., 1 cc., Winthrop, 100's, Per C.—Winthrop Chemical Company, \$15.31.*

Item 25B. 4,000 Eph. Nov., 2 cc., Per C.—Winthrop Chemical Company, \$16.25; Surgeons & Physicians' Supply Company, \$10, Novocol Procaine; Novocol Chemical Manufacturing Company, \$10.25, Procaine Epin. Sol.; E. F. Mahady Company, \$10,* Novocol, Procaine Epin. Sol.

Item 26. 500 Eph. Sulphate, Three Quarter Grain, 1 cc., 100's, Per C.—Parke Davis & Co., Inc., \$11.25; Sharp & Dohme, \$12.15; Cowley Pharmaceutical, Inc., \$5.60; William S. Merrill Company, \$6.65; Abbott Laboratories, \$10.33, \$9.29,* Abbott; Good Drug Company, \$10.33, \$9.29,* Abbott; Brewer & Co., \$3.77*; Thomas W. Reed Company, \$10.33, Abbott; Marsh Pharmacy, \$10.33, Abbott, \$9.29; Burroughs Wellcome & Co., \$8.65.

Item 27. 4,000 Ergometrine, 1/320, 1 M's, or Equal, Per M.—Chester A. Baker, Inc., \$73.62*; Wyeth, Inc., \$73.62, Ergonovine Maleate, 1/320 gr., 0.2 mg. 100's; McKesson & Robbins, \$97.92, Ergotrate, Lilly's; Good Drug Company, \$73.62, Wyeth.

Item 28. 160 Gas Gangrene, Refined, Therapeutic, Polyvalent, Lederle or Equal, Per Vial.—Kenmore Pharmacy, Inc., \$6.08, Squibb; Chester A. Baker, Inc., \$4.45*; Lederle Laboratories, \$6.08; Parke Davis & Co., Inc., \$6.08; E. R. Squibb & Sons, \$6.08; Wyeth, Inc., \$4.45; McKesson & Robbins, \$4.45, \$6.08, Squibb; Good Drug Company, \$4.45, Wyeth, \$6.08, Lederle or Squibb; National Drug Company, \$5.20; Thomas W. Reed Company, \$6.08, Squibb; Marsh Pharmacy, \$6.08, Squibb.

Item 29. 300 Gas Gangrene, Refined, Prophylactic, Polyvalent, Lederle, or Equal, Per Vial.—Kenmore Pharmacy, Inc., \$1.38, Squibb; E. R. Squibb & Sons, \$1.38; Wyeth, Inc., \$1; McKesson & Robbins, \$1.38, Squibb; Good Drug Company, \$1, Wyeth, \$1.38, S. or L.; National Drug Company, \$1.15; Thomas W. Reed Company, \$1.38, Squibb; Marsh Pharmacy, \$1.38, Squibb; Chester A. Baker, Inc., \$1; Lederle Laboratories, \$1.38.

Item 30. 1,000 Infundin, 1 cc., B. & W., 100's, Per C.—Burroughs Wellcome & Co., \$13.05.*

Insulin: Plain, Lilly's, Squibb, Mulford.

Item 31. 10 Cartons, 20 Units, 10 10 cc. Vials to Carton, Per Carton.—Kenmore Pharmacy, Inc., \$3.30; E. R. Squibb & Sons, \$3.30; McKesson & Robbins, \$3.30; Warren Avenue Pharmacy, \$3.30; Good Drug Company, \$3.30; Brewer & Co., \$3.30; Thomas W. Reed Company, \$3.30, Squibb; Marsh Pharmacy, \$3.30; Gilman Brothers, \$3.30; Chester A. Baker, Inc., \$3.30*; Sharp & Dohme, \$3.30.

Item 32. 250 Cartons, 40 Units, 10 10 cc. Vials to Carton, Per Carton.—Kenmore Pharmacy, Inc., \$5.70; E. R. Squibb & Sons, \$5.70; McKesson & Robbins, \$5.70; Warren Avenue Pharmacy, \$5.70; Good Drug Company, \$5.70; Brewer & Co., \$5.70; Thomas W. Reed Company, \$5.70, Squibb; Marsh Pharmacy, \$5.70; Gilman Brothers, \$5.70; Chester A. Baker, Inc., \$5.70*; Sharp & Dohme, \$5.70.

Item 33. 10 Cartons, 80 Units, 10 10 cc. Vials to Carton, Per Carton.—Kenmore Pharmacy, Inc., \$11.10; E. R. Squibb & Sons, \$11.10; McKesson & Robbins, \$11.10; Warren Avenue Pharmacy, \$11.10; Good Drug Company, \$11.10; Brewer & Co., \$11.10; Thomas W. Reed Company, \$11.10, Squibb; Marsh Pharmacy, \$11.10; Gilman Brothers, \$11.10; Chester A. Baker, Inc., \$11.10*; Sharp & Dohme, \$11.10.

Insulin: Protomine Zinc.

Item 34. 600 Cartons, 40 Units, 10 10 cc. Vials to Carton, Per Carton.—Kenmore Pharmacy, Inc., \$6.60; E. R. Squibb & Sons, \$6.60; McKesson & Robbins, \$6.60; Warren Avenue Pharmacy, \$6.60; Good Drug Company, \$6.60; Brewer & Co., \$6.60; Thomas W. Reed Company, \$6.60, Squibb; Marsh Pharmacy, \$6.60; Gilman Brothers, \$6.60; Chester A. Baker Company, \$6.60*; Sharp & Dohme, \$6.60.

Item 35. 200 Cartons, 80 Units, 10 10 cc. Vials to Carton, Per Carton.—Kenmore Pharmacy, Inc., \$12.60; E. R. Squibb & Sons, \$12.60; McKesson & Robbins, \$12.60; Warren Avenue Pharmacy, \$12.60; Good Drug Company, \$12.60; Brewer & Co., \$12.60; Thomas W. Reed Company, \$12.60, Squibb; Marsh Pharmacy, \$12.60; Gilman Brothers, \$12.60; Chester A. Baker Company, \$12.60*; Sharp & Dohme, \$12.60.

Item 36. 12 Dozen Iodochloral or Lipiodol, 20 cc. Vials, Per Dozen.—G. D. Searle & Co., \$10.40, 2/5; McKesson & Robbins, 86.7 cents per vial, Searle, \$18 per dozen, Lafay; Thomas W. Reed Company, \$18 per dozen, Lipiodol, \$10.40, 2/5, Iodochloral.*

Item 37. 100 Magnesium Sulphate, 10 Per Cent, 20 cc., Per C.—Cowley Pharmaceutical, Inc., \$11.50*; Abbott Laboratories, \$17.85, Abbott, \$15.27, Abbott; Good Drug Company, \$17.85, \$15.27, Abbott; Thomas W. Reed Com-

pany, \$17.85, Abbott; Marsh Pharmacy, \$17.85, Abbott, \$15.27.*

POLICE DEPARTMENT ORDERS.

General Order No. 663.

Transfer of the following-named person from Superintendent's Office (armed service roll) is hereby ordered; effective Thursday, May 16, 1946, at 9 o'clock a. m. Patrolman Clinton R. Dempsey to Division 13.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 664.

Acting under provisions of chapter 521, Acts of 1922, as amended, creating the Contributory Retirement System, the Boston Retirement Board has notified this department that it has approved for retirement on account of accidental disability, the following-named police officer, a member of said Contributory Retirement System; to take effect at the close of business, Friday, May 31, 1946.

Wherefore, in view of this operation of law, the Police Commissioner states that on and after May 31, 1946, at the hour stated, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

Patrolman John L. McManus, Division 2.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 34.

I. HOSEMAN MICHAEL J. RILEY.

It is with deep regret that the Fire Commissioner announces the death, on Sunday, May 19, 1946, of Hoseman Michael J. Riley of Engine Company 43. Hoseman Riley was appointed to the department June 21, 1918.

The funeral will be held from the home of his sister, 1133 Washington street, Dorchester, at 8.30 a. m. Wednesday, May 22, 1946, followed by services at St. Ambrose Church, Adams street, Fields Corner, at 9 a. m.

The chief of department will make the customary detail to act as funeral escort and the members of Engine Company 43 will be excused from duty to attend the services.

II. RETURN TO DUTY FROM ARMED FORCES.

The following-named who have been serving in the armed forces of the United States will return to duty in this department, effective at 8 a. m. Wednesday, May 22, 1946:

Man on Probation Charles I. Pierce, Rescue Company 1.

Man on Probation John H. Grady, Ladder Company 6.

III. TRANSFERS.

The following transfers which will become effective at 8 a. m. Wednesday, May 22, 1946, are hereby announced:

M. O. P. Charles I. Pierce, from Rescue 1 to Tower 1.

M. O. P. John H. Grady, from Ladder 6 to Fire Prevention.

IV. CHANGES IN DESIGNATION ON ASSIGNMENT CARDS.

The following changes in designation are to be made on the boxes listed below:

Box 7146, Wiggin Terminals, Inc., E street, is to be changed to: C. Pappas, Inc., E street.

Box 12-3851, Low Supply Company, 1715 Hyde Park avenue, is to be changed to: Allied Container Company, 1715 Hyde Park avenue.

V. REV. DENNIS J. LYNCH SCHOLARSHIP.

Notice has been received from the Reverend Principal of Boston College High School that on Saturday, June 1, 1946, at 9 a. m., in the high school building, James street, there will be a special examination for the Rev. Dennis J. Lynch scholarship founded by members of the Fire Department in memory of their late chaplain.

This is an annual scholarship to be awarded to the son of any member of the Boston Fire Department who obtains the highest average in the annual competitive entrance examination which will be held on June 1, 1946.

VI. A. D. T. ASSIGNMENT AND DISCONTINUANCE.

The following signal number is to be added to running cards of the A. D. T. Company in this department:

Signal 546, Allan B. Croke Company, 163-167 Oliver street (sprinkler system.) Apparatus to respond: Engine 25, Ladder 8, District Chief 5. Nearest box is 1293.

The following A. D. T. signal has been discontinued:

Signal 163, Fisk Wharf, Merchants Warehouse.

VII. GENERAL ALARM ASSIGNMENT.

The following signal number is to be added to running cards of the G. A. C. in this department:

Signal 292, Polaroid Corporation, 109 Brookline avenue. Apparatus to respond: Engine 37, Ladder 26, District Chief 8. Nearest box is 2346.

VIII. NEW BOSTON AUTOMATIC CARDS AND DISCONTINUANCE OF SIGNAL NUMBERS.

New cards, Nos. 19, 32 and 33, dated April 29, 1946, for the Boston Automatic Assignment Book are being issued to the department today. These cards will replace old cards, Nos. 19, 32 and 33 which should be returned to Headquarters in the envelope provided on or before Monday, May 27, 1946.

The following Boston Automatic signal has been discontinued as of May 13, 1946:

Signal 545, building, 236-240 Milk street.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary amendments to the Revised Traffic Rules and Regulations of the City of Boston, which were adopted January 10, 1946, and were effective January 21, 1946, for a trial

period of sixty (60) days, and were extended March 13, 1946, for sixty (60) days from March 22, 1946, are hereby extended for a further trial period of sixty (60) days from May 21, 1946:

Section 8, Part 2 (Prohibition of Parking), is amended by striking out the following:

Otis Street, Boston Proper.

Northwest side, from Winthrop square to Summer street, 7 a. m. to 6 p. m.

Section 8, Part 2 (Prohibition of Parking), is amended by adding the following:

North Grove Street, Boston Proper.

West side, from Cambridge street to Fruit street, twenty-four hours.

Otis Street, Boston Proper.

Northwest side, from Devonshire street to Summer street, 7 a. m. to 6 p. m.

Section 9 (Angle Parking) is amended by striking out the following:

Deerfield Street, Boston Proper:

East side, from Commonwealth avenue to Bay State road.

Section 9 (Angle Parking) is amended by adding the following:

Deerfield Street, Boston Proper.

East side, from Commonwealth avenue to the bend ninety (90) feet north of Bay State road.

Section 35 (Left Turns Prohibited) is amended by adding the following:

Exchange Place.

Into Congress street, southerly.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary rule which was adopted February 28, 1946, and was effective March 18, 1946, for a trial period of sixty (60) days, is hereby extended for a further trial period of sixty (60) days from May 17, 1946:

Parking of vehicles is prohibited in the following street:

State Street, Boston Proper.

South side, southerly arm, from Washington street to Devonshire street, 7 a. m. to 6 p. m.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary amendments to the Revised Traffic Rules and Regulations of the City of Boston, which were adopted February 28, 1946, and were effective March 18, 1946, for a trial period of sixty (60) days, are hereby extended for a further trial period of sixty (60) days, from May 17, 1946:

Section 8, Part 2 (Prohibition of Parking), is amended by striking out the following:

Huntington Avenue, Roxbury.

North side, from a point six hundred (600) feet east of Riverway to Riverway, 4 p. m. to 6 p. m.

Section 8, Part 2 (Prohibition of Parking), is amended by adding the following:

Huntington Avenue, Roxbury.

South side, from Hahlon square to Jamaica way, 8 a. m. to 10 a. m.

North side, from Hanlon square to Riverway, 4 p. m. to 6 p. m.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be thirty (30) days, vehicles are excluded from the following street, effective May 17, 1946:

Devon Street, Roxbury.

From Blue Hill avenue to Warren street.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary rule which was adopted and was effective September 14, 1942, for a trial period of sixty (60) days, and which was extended for a further trial period of sixty (60) days from November 13, 1942, and which was extended from January 12, 1943, to the end of the National Emergency, is hereby rescinded, effective May 13, 1946:

Parking of vehicles is prohibited, except that vehicles owned by the U. S. Government may be parked without time limit, in the following street:

Gardner Street, Brighton.

North side, from Babcock street to a point three hundred and thirty (330) feet west of Babcock street.

Voted, That as urgently required by considerations of public safety and convenience, for a trial period of sixty (60) days, the Revised Traffic Rules and Regulations of the City of Boston are amended as follows, effective May 27, 1946:

Section 8, Part 2 (Prohibition of Parking), is amended by striking out the following:

Arlington Street, Boston Proper.

Southwest side, from Commonwealth avenue to Public Alley No. 422, 4 p. m. to 6 p. m.

Livingstone Street, Dorchester.

North side, from Blue Hill avenue to Ashton street, twenty-four hours.

Whitmore Street, Boston Proper.

Southeast side, from Kneeland street to Harvard street, twenty-four hours.

Section 8, Part 2 (Prohibition of Parking), is amended by adding the following:

Arlington Street, Boston Proper.

Southwest side, from Commonwealth avenue to Public Alley No. 422, twenty-four hours.

Livingstone Street, Dorchester.

North side, from Ashton street to a point fifty (50) feet west of Ashton street, twenty-four hours.

Massachusetts Avenue, Boston Proper and Roxbury.

Both sides, from a point one hundred (100) feet southeast of the bridge over the New York, New Haven & Hartford Railroad to a point one hundred (100) feet northwest of the bridge over the New York, New Haven & Hartford Railroad, twenty-four hours.

Reed Street, Boston Proper.

Northwest side, from Northampton street to Flagg street, twenty-four hours.

Whitmore Street, Boston Proper.

Both sides, from Kneeland street to Harvard street, twenty-four hours.

Section 41 (Isolated Stop Streets) is amended by adding the following:

Dudley Street, Roxbury.

At Harrison avenue.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary rule which was adopted January 20, 1943, and was effective January 21, 1943, for a trial period of sixty (60) days, and which was extended from March 22, 1943, to the end of the National Emergency, is hereby rescinded, effective May 13, 1946:

Parking of vehicles is prohibited in the following street:

Babcock Street, Brighton.

East side, from Gardner street to a point one hundred (100) feet north of Gardner street, twenty-four hours.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 13, 1946.

Mrs. M. J. S. Davis, Jordan Hall, May 23.

Permits granted under usual conditions.

APPROVAL OF CONSTABLES' BONDS.

The bonds of the following constables, having been duly approved by the City Treasurer, were received and approved by the Council, viz.:

Americo A. Desimone, Roland W. Golden, Salvatore Grassa, Max Kaplan, Arnold Klevens, Salvatore Maffei, William P. Miles, Bernard M. Mullen, Isie Martin, George N. Pierce, Louis Richmond, Henry J. D. Small, Joseph Simansky, Sidney Sheinfeld, Jerome Suvalla, James J. Sullivan, Isaac Shulman, Joseph M. Torr, Benjamin J. Tackeff.

Severally placed on file.

APPOINTMENTS BY THE MAYOR.

Notice was received from the Mayor of the following appointments:

Daniel Sargent, 30 The Fenway, member of Art Commission for term ending April 30, 1951.

Harry B. Braude, 900 Commonwealth avenue, member of Board of Zoning Adjustment.

Severally placed on file.

EXTENSION OF FANEUIL HALL MARKET LIMITS.

The following was received:

City of Boston,

Board of Street Commissioners, May 1, 1946.

Voted, That the Director of Markets be authorized to extend the Faneuil Hall Market limits so that they shall include the following location during 1946, from May 1 to November 1:

State street, in the center thereof, from McKinley square, east side, to Atlantic avenue, from 6.30 p. m. to 8 a. m.

This extended area may be occupied by farmers and truck gardeners for the sale of perishable produce from vehicles.

The said Director of Markets shall direct and control the placing of the vehicles of said farmers and truck gardeners in the said extension of the Faneuil Hall Market limits.

RICHARD L. CASEY,
CHARLES E. MANION,
JOHN T. O'DEA, JR.,
Street Commissioners.

Placed on file.

ORGANIZATION OF PUBLIC WELFARE DEPARTMENT.

Notice was received of organization of Public Welfare Department as follows:

Mrs. Margaret J. Gookin, Chairman; Miss Sophie Friedman, Vice-Chairman; Edward H. Willey, Treasurer; William G. O'Hare, Secretary.

Placed on file.

ACCEPTANCE OF JEFFERS STREET, WARD 18.

Coun. CANTWELL offered the following: Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway Jeffers street, Ward 18.

Passed under suspension of the rule.

STATEMENT BY COUNCILOR KINSELLA.

Coun. KINSELLA—Mr. President, I ask unanimous consent to make a statement.

President KELLY—I hear no objection.

Coun. KINSELLA—Mr. President, I have here two communications dealing with the subject upon which Councilor Moriarty and myself touched briefly last week. It seems to me one of the letters is from a heretic who probably lived in Charlestown at one time. It does not say very many kind things about Roxbury. The other letter, Mr. President, is from a Roxbury gentleman who is obviously biased. I want to read both communications, and Councilor Moriarty is going to be expected to rise for the defense of Roxbury.

The letters were as follows:

Bureau of Old Age Assistance in the City of Boston, Roxbury Branch, 109 Mt. Pleasant Avenue. City Councilor Michael L. Kinsella, City Hall, Boston, Mass.—

Dear Sir,—Some fifteen or twenty years ago I had occasion to glance at records in the headquarters of Roxbury Historical Society, then located at Roxbury Court House, 98 Roxbury street (now at The Dillaway House, Eliot square, Roxbury).

If my memory serves me correctly, the Fort Avenue Breastwork on the hilltop was a crudely built affair of fieldstones. When the British ships in the harbor found the range and made a few hits with "five pounders," the "gallant" Roxbury defenders scamped down the other side of the hill.

Shades of Fontenoy! comparing Fort Hill to Bunkers or Breeds Hill. Shame!

As the lovable, lamented Al Smith might say, "Let's look at the record" at Roxbury Historical Society.

Very truly yours,

THOMAS A. REGAN.

Roxbury Day Celebration Committee.

May 8, 1946.

Coun. Michael Leo Kinsella, Boston City Council, City Hall.

My dear Sir,—It afforded me considerable pleasure in reading in the columns of the Boston Post of May 7, your controversy with Councilor Moriarty relative to the history of the Roxbury High Fort which played such an important part in the Siege of Boston during the American Revolution.

In your controversy, you stated that you "spent 12 years learning history in the Boston public schools and no teacher ever mentioned the Battle of Fort Hill in Roxbury."

It is a sad commentary that no mention of the Roxbury High Fort was made in our history of Boston especially during your term at school and that your teachers failed to teach you such historic information, although throughout all Boston schools for a great many generations such subjects were taught by all teachers to the enjoyment of the pupils.

The historians were not derelict in placing this Fort and its history before the public so that future generations may learn of its location and the part it played in American history.

For your information I would suggest that you read the "History of Roxbury, by Francis S. Drake," pages 371 to 378, and also the diary of Major-General Heath, on pages 275 to 282. Lossing's History of the American Revolution also gives a good account of the Roxbury High Fort. Added to this, consult the "personal letters and correspondence of General Washington" which was published in 1834 in which he gives a fine account of this spot.

Although this High Fort was one of the string of forts surrounding the Town of Boston, there were others such as Parker Hill, Roxbury; Dorchester Heights and Nook's Hill now South Boston; Powder Horn Hill, Chelsea; Prospect

Hill; Bunker's Hill, Charlestown; Winter Hill and Lechmere Hill and several smaller hills in between, all fortified with troops and guns to drive the British away from Boston.

It was a well laid plan by General Washington and bore good results.

In order to give you some idea of the great number of troops encamped at Roxbury High Fort, I am inclosing a few organizations and their commanders.

Added to this, I would suggest that at some of your leisure time in the future, you would pay a visit to Roxbury High Fort and try to visualize how it looked in those eventful days with this and all the other fortifications well manned and equipped with the British fleet under Admiral Lord Howe in Boston Harbor. This will repay you for the neglect of your teachers in not teaching you the history of the famous Roxbury High Fort.

Respectfully submitted,

Capt. JOHN J. SHEEHAN,
Chairman and Historian.

Right Wing of the Continental Army, Siege of Boston, 1775 and 1776.

Maj.-Gen. Artemas Ward, Commanding, Headquarters at Roxbury.

Brigadier-General John Thomas's Brigade.

4th Regiment of Foot.—(Mass.)—Col. Ebenezer Learned.

8th Regiment of Foot.—(Mass.)—Col. John Fellows.

9th Regiment of Foot.—(Mass.)—Col. David Brewer.

16th Regiment of Foot.—(Mass.)—Col. Theophilus Cotton.

18th Regiment of Foot.—(Mass.)—Col. Timothy Danielson.

32nd Regiment of Foot.—(Mass.)—Col. Jonathan Ward.

35th Regiment of Foot.—(Mass.)—Col. John Bailey.

Brigadier-General Joseph Spencer's Brigade.

13th Regiment of Foot.—(Conn.)—Col. Samuel H. Parsons.

20th Regiment of Foot.—(Mass.)—Col. Joseph Reed.

22nd Regiment of Foot.—(Mass.)—Col. Timothy Walker.

29th Regiment of Foot.—(Conn.)—Col. Jedidiah Huntington.

33rd Regiment of Foot.—(Conn.)—Col. Samuel Wyllis.

Detachments.

Pennsylvania and Virginia Riflemen.

United Train of Artillery—Major John Crane.

The 13th and 29th Conn. regiments were sent over to Parker Hill while most of the other regiments were sent to fortify Dorchester Heights under Washington and General Thomas. General Spencer and most of his brigade remained at the High Fort until after the Siege of Boston.

Coun. KINSELLA—I would like to say briefly that he sends a list of the component parts of the Continental Army in Boston, in those days with headquarters in Roxbury, under the command of Maj.-General Artemas Ward. Councilor Moriarty can be very well proud of the thorough research that Captain Sheehan undoubtedly made, while I am thoroughly ashamed of the Charlestown fellow who cannot say any more than he did in support of my statements here last Monday. That is why I call him a heretic. If he cannot do better, he should not write anything.

Coun. MORIARTY—I ask unanimous consent to make a statement.

President KELLY—Hearing no objection, you may proceed.

Coun. MORIARTY—It is wonderful, Mr. President, with all the education we are deprived of, in all these years, we suddenly derive a great deal in the experience of one week. Councilor Kinsella from Charlestown can boast of the nationally and world-wide famous Bunker Hill Monument that is in his ward, which he has come to know. Now that we in Roxbury in our early American days were of some value for the preservation and foundation of our American democracy, as shown in the two pieces of correspondence, he has to weigh the details and the authoritative matter as against the wild ranting of the heretic from Charlestown who probably moved out to Roxbury at one time or other and saw this high fort that is a challenge to his own Bunker Hill Monument. I invite the entire Council Body, Mr. President, to the Roxbury Centennial Celebration which comes this September first. We in Roxbury hope to enjoy a celebration such as they have in Charlestown, South Boston and Dorchester. I invite the entire Council Body at one time or another to come to view our shrine on Fort Hill.

REPORT OF COMMITTEE ON CONSTABLES AND CONFIRMATIONS.

Coun. BRYAN, for the Committee on Constables and Confirmations, submitted the following:

Report on appointment (referred April 29) of Louis Levendorf, 421 Warren street, Roxbury, to be constable for term ending April 30, 1947, authorized to serve civil process upon filing of bond—recommending that appointment be confirmed.

Report on appointments (referred April 29) of constables to serve without bond and without authority to serve civil process for term ending April 30, 1947, viz.:

Thomas H. Glynn, 15 Harvard terrace, Allston; Lloyd MacLean, 142 West street, Hyde Park; Joseph Duffley, 30 Algonquin street, Dorchester; Edwin McGowan, 51 M street, South Boston; James J. Kenney, 1634 Tremont street, Roxbury—recommending that appointments be confirmed.

The report was adopted; and the question came on confirmation of the appointments. Committee, Coun. Muchnick and Cook. Whole number of ballots 14, yeas 14, and the appointments were confirmed.

RECESS.

On motion of Coun. MUCHNICK the Council voted to take a recess at 2.30 p. m., subject to the call of the Chair. The members reassembled and were called to order by President KELLY at 5.15 p. m.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Constables for term ending April 30, 1947, authorized to serve civil process upon filing of bond: William James Bacon, 5 Yarmouth street, Boston; Hector Palladino, 7 Garden Court street, Boston.

Constables to serve without bond and without authority to serve civil process for term ending April 30, 1947: James Amato, 10 Bulfinch place; Walter A. Murphy, 9 Summer street, West Roxbury.

Weigher of Coal and Weigher of Goods for term ending April 30, 1947: Mary F. Willis, 7 Harrison street, Roslindale; Ethel T. Concrec, 12 Harrison street, Roslindale.

Weigher of Goods for term ending April 30, 1947: Anthony S. J. Tomasello, 10 Glenburnie road, West Roxbury.

Weighers of Coal for term ending April 30, 1947: Miss Helen C. Riley; Louis Novick, 55 Pasadena road, Dorchester.

Mesurur of Grain for term ending April 30, 1947: Francis J. Dewey, 188 Bunker Hill street, Charlestown.

Severally referred to the Committee on Constables and Confirmations.

TRAFFIC LIGHTS AT BROWN AVENUE AND CUMMINS HIGHWAY.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Traffic Commissioner, in reply to your Council order of April 29, 1946, to install traffic lights at the intersection of Brown avenue and Cummins Highway in the Roslindale section of Ward 19.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Traffic Commission, May 9, 1946.
Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor,—Replying to the following Council order dated April 29, 1946, "Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install traffic lights at the intersection of Brown avenue and Cummins Highway in the Roslindale section of Ward 19," please be advised that there are no funds available to this Commission at present for the installation of traffic signals at this intersection.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.
Placed on file.

FENCE ON JOHN WINTHROP PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, May 8, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your Council order of April 8, 1946, to increase the height of the fence on the Danube street side of the John Winthrop Playground.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, May 3, 1946.

J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—I have your memorandum of April 26, with enclosure, City Council order requesting that the height of the fence on the Danube street side of the John Winthrop Playground be increased.

The present fence is eight feet high. Using the present framework, it could be raised not over

four feet,—for a distance of 315 feet on the Danube street side it is estimated it would cost \$520.

This playground is supposed to be used by boys under sixteen years of age—it is not supposed to be used for baseball playing even with boys under sixteen years. Occasionally a soft ball will find its way over the fence no matter what the height of the fence.

I will be very pleased to raise the fence four feet high, but that will not keep the balls inside of the fence.

Very truly yours,
WILLIAM P. LONG, Chairman.
Placed on file.

COLUMBUS PARK IMPROVEMENTS.

The following was received:

City of Boston,
Office of the Mayor, May 8, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your Council order of April 8, 1946, to renovate the locker room at Columbus Park and also to lay out soft ball and hard ball diamonds on the same park.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, May 4, 1946.

J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—I have your memorandum of April 26, with enclosure, order from the City Council that the locker room at Columbus Park be renovated and soft and hard ball diamonds be constructed at Columbus Park.

I am very happy to state that a contract has been awarded to Joseph Maguire to repair the boilers and showers and that the building of soft ball diamonds have been constructed—hard ball diamonds will be considered when the victory gardens are dispensed with.

Very truly yours,
WILLIAM P. LONG, Chairman.
Placed on file.

BACKSTOP ON MARCELLA STREET PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your Council order of April 15, 1946, to increase the height of the backstop on the Marcella street Playground.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, May 8, 1946.

J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—I have your memorandum of April 26, with enclosure, order from the City Council with the request that the Park Commission be requested to increase the height of the backstop on the Marcella street Playground (John J. Connolly). The present backstop is 18 feet high and should be of sufficient height. It might be possible to strengthen and raise the present framework so that it could increase the height of the backstop 6 feet at a cost of about \$150. A contract will be arranged for during the ensuing week.

Very truly yours,
WILLIAM P. LONG, Chairman.
Placed on file.

CLEANING OF CHANDLER'S POND.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your Council order of April 29, 1946, to proceed forthwith with the cleaning up of Chandler's Pond in Gallagher Park, Ward 22, and prepare same for bathing facilities.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, May 8, 1946.

J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—I have your memorandum of May 1, with inclosure, order from the City Council regarding the cleaning up of Chandler's Pond in Gallagher Park and prepare same for bathing facilities.

The matter of bathing facilities in this pond is one that should be given considerable investigation. Many of the stables' drainage and sewerage empties into Chandler's Pond.

I have asked the Health Department to give us a report on the condition of the water in this pond, particularly in regard to its bacteria content and whether it is a healthful place in which to bathe.

Normally, this pond is about 3½ to 4 feet in depth and there is at least 2 feet to 3 feet of soft mud in the bottom of the pond.

From every indication, I must say this is not an ideal place for bathing, etc.,—however, I will get a report from the Board of Health before anything further is done on the matter.

Very truly yours,
WILLIAM P. LONG, Chairman.
Placed on file.

FENCING OF MOTHERS' REST AREA, WARD 2.

The following was received:

City of Boston,
Office of the Mayor, May 11, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your Council order of April 29, 1946, to complete the fencing in of the mothers' rest area at Hill and Cook streets, Ward 2, Charlestown.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, May 8, 1946.

J. Joseph Connors,
Chief Clerk, Mayor's Office.
Dear Sir,—I have your memorandum of May 1, with enclosure, order from the City Council that the Park Department complete the fencing in of the mothers' rest area at Hill and Cook streets, Charlestown, Ward 2.

I will have an estimate prepared and if it is possible to comply with this request, it certainly will be a pleasure.

Very truly yours,
WILLIAM P. LONG, Chairman.
P. S. The P. J. Dinn Company, will give me a report on this within a day or two.

Placed on file.

CLEANING OF WARD 3 SEWERS AND CATCH-BASINS.

The following was received:

City of Boston,
Office of the Mayor, May 8, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works, in reply to your Council order of April 15, 1946, to take immediate steps to have all catch-basins and sewers in Ward 3 cleaned.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department, May 4, 1946.
To J. Joseph Connors, Chief Clerk, Mayor's Office.
From Robert P. Curley, Commissioner, Public Works Department.

Subject: City Council Order, April 15, 1946.
In reply to Council order of April 15, 1946, requesting the cleaning of catch-basins and sewers in Ward 3, a survey is now in progress to determine the extent of the work needed. As a result of this survey, we have been cleaning catch-basins in this area both on weekdays and on Sundays, and it is our intention to continue this practice in an effort to comply as fully as possible with the Council request.

ROBERT P. CURLEY,
Commissioner of Public Works.
Placed on file.

WITHDRAWAL OF ORDER FOR SALE OF NAILS.

The following was received:

City of Boston,
Office of the Mayor, May 8, 1946.
To the City Council.

Gentlemen,—On April 15, 1946, I transmitted an order to your Honorable Body authorizing the Transit Commission to sell a quantity of nails no longer needed by that department.

I am now informed by the Transit Commission that other city departments can make use of this supply of nails. For this reason, I hereby withdraw the order submitted to your Honorable Body on the date referred to above. The communication of the Transit Commission relative to this matter is herewith appended.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Transit Department, May 3, 1946.
Hon. James M. Curley,
Mayor of Boston.

Dear Sir,—Under date of April 4, 1946, the Transit Department requested your Honor's approval to sell a quantity of nails at the price which the department paid for them several years ago. Since this order was sent to the City Council price ceilings have changed and the department is informed that the City Purchasing Department may be able to use these nails in other city de-

partments. For these reasons we deem it advisable that the aforesaid order be withdrawn from the City Council.

Respectfully,

MALCOLM E. NICHOLS,
A. JOSEPH FENO,
JOHN T. MURRAY.

Placed on file.

APPROPRIATION FOR VETERANS' HOUSING.

The following was received:

City of Boston,
Office of the Mayor, May 13, 1946.
To the Members of the City Council.
Gentlemen.—In conformity with the provisions of chapter 13 of the Acts of 1946, it is requested that the sum of five hundred thousand dollars (\$500,000) be appropriated to be expended to provide the requisite facilities in connection with Veterans' Housing to be constructed in various areas of Boston.

It is the opinion of competent Federal and Municipal Authorities that through this expenditure accommodations will be provided for thirteen hundred (1,300) families and the Federal Government is prepared to do its part at once. The Federal Government will provide the houses and the city is required to provide the roads and facilities.

Respectfully,
JAMES M. CURLEY, Mayor.

National Housing Agency,
Federal Public Housing Authority,
Region I, 24 School Street,
Boston 8, Mass.

May 13, 1946.

In reply, please refer to R-I: JDOR.
Hon. James M. Curley,
Mayor of Boston.

Dear Mayor Curley,—This will confirm our discussion of this afternoon on the matter of the proposed temporary housing project for veterans. Under the established procedure authorized by Title V of the Lanham Act, as amended, the Federal Government through the Federal Public Housing Authority assumes the cost of dismantling, transporting, and re-erecting temporary housing facilities on new sites. The local body (in your case the City of Boston) assumes the obligation of providing the site, streets where necessary, utility mains and branch mains as may be needed, preliminary grading work, and site planning.

In connection with your proposed use of Franklin Field and the other sites mentioned in our discussion, your first step should be the preparation of a site plan to be submitted to this office for approval. As soon as your architects prepare such a plan, we shall assign members of our staff to consult with them so that you will be in a position at the earliest possible moment to start the work of site preparation.

Sincerely yours,
SUMNER K. WILEY,
Director, Region I.

Ordered, That in accordance with the provision of chapter 13 of the Acts of 1946, the sum of \$500,000 be, and hereby is, appropriated, to provide housing for Veterans of World War II and that the City Treasurer be authorized to issue, from time to time, with the approval of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Coun. HANNON—Mr. President, this is a matter which pertains to the erection of houses for veterans. It is a problem which has been troublesome to each and every one of us. It is a problem which is of the greatest and direst emergency. It is a problem which we must tackle forthwith. To refer this to a committee will be merely delaying a real question and problem which we must meet, and which should be met at the earliest opportunity. I therefore respectfully request that the rules be suspended so that this matter may take its first reading today, because we will have two weeks from today another opportunity to vote on the same matter.

Coun. LINEHAN—Mr. President, as the members of the Council well know, I have been fighting for housing for veterans all year long, and have requested his Honor only as recently as two weeks ago to get some of these so-called temporary structures and prefabricated houses and place them on a park like Columbus Park—that is, the part which is not being used for recreation. It is my understanding that these buildings will be put in a park like Franklin Park, and several other particular locations, and Columbus Park was not included among them. I am sorry to notice that. However, there is another very important thing which I think we as City Councilors should watch out for, and that is that under the ordinary housing setup in Boston we do have a so-called payment of a sum of money in lieu of taxes from the Boston Housing Authority from the different projects throughout the city. Now I would like to vote for this thing right away, but it seems to me that we should have a little more information in regard to whether or not the city will get something back out of the so-called \$500,000 which we are going to expend for utilities—such as sewers, roads and so forth. Now, as a veteran, probably it looks kind of bad for me to get up and talk this way, but I will still vote for the order if we can't get a

payment in lieu of taxes, but what I would like to do is to get the housing as quickly as possible for the veterans. But it seems proper to get some of the money back from the Boston Housing Authority, which is going to run or manage these particular buildings—that is to say, a sum of money in lieu of taxes. I don't know whether that is in the order or not. Might I ask the clerk, through you, Mr. President?

President KELLY—The clerk will read a communication from the National Housing Authority, which may help the Council.

The clerk reads the communication from Sumner K. Wiley to Mayor Curley.

Coun. LINEHAN—Mr. President, I wonder if it would be appropriate at this time to call a recess and call Mr. Sumner K. Wiley, who undoubtedly is at the F. P. H. A.—Federal Public Housing Administration—and find out from him if the City of Boston will get something back in the way of a lump sum payment in lieu of taxes, as in the other projects. My thought is that, if we can get something back for the city, all well and good. I will naturally vote to rush it through as quickly as possible for the benefit of the veterans.

President KELLY—I will point out to the councilor that it is half past five now.

Coun. LINEHAN—I notice that there are about a half dozen orders here yet, and during the interim you could have somebody call up Mr. Wiley and we might get that information.

President KELLY—The Chair will suspend action on this order for a while and will instruct the City Messenger to see if he can get Mr. Wiley.

Coun. MUCHNICK—Mr. President, it seems to me that there is much more that we might want to find out, other than what Mr. Wiley might say about potential revenue in lieu of taxes, and I would like to suggest that we take Councilor Hannon's advice and give this its first reading today, and then we will have two weeks within which to act, and this coming Monday we should make a discussion of this problem the first order of business in the Executive Committee, giving invitations to everybody who can give us any information to come down to the Executive Committee meeting and be prepared to answer questions. That would be Mr. Wiley's office, the Mayor's office, the Law Department, the Boston Housing Authority, if they are concerned with it, so that we can find out from everybody who has first hand knowledge just what the city is going to get, what the veterans are going to get, how long this will take, and everything connected with the matter. If I am in order, I would like to amend Councilor Hannon's motion to read that, in addition to what he says, this be referred to the Executive Committee and be the first order of business next week.

President KELLY—I am sorry, councilor, but the Chair has suspended action on this matter until we have more information. We are trying to get some information from Mr. Wiley. We can take it up again in a few minutes.

Later in the session Coun. MUCHNICK said: Mr. President, I understand the information which was required of Mr. Wiley has arrived.

President KELLY—That is the next order of business.

Coun. MUCHNICK—I would like to ask a question now, if that is the next order of business. Was the motion which I made properly made, or do I have to be recognized and make it again? That was the amendment to Councilor Hannon's motion.

President KELLY—I will recognize you again.

Coun. MUCHNICK—Mr. President, coming back to the motion of Councilor Hannon that the rules be suspended so that this loan order can take its first reading today, it seems to me that, in view of the emergency, it is a very sound suggestion, and further, in view of the fact, as was pointed out by Councilor Linehan, that we do not have full information, I would like to amend Councilor Hannon's motion to read that this matter be referred to the Executive Committee after it has taken its first reading and that it be the first order of business in the Executive Committee at its next meeting, and that everybody who has any information to supply be notified to come with records and everything else, so that we may get all the information necessary as quickly as possible.

President KELLY—Do you accept the amendment, Councilor Hannon?

Coun. HANNON—I am very happy to.

Coun. COOK—Mr. President, I want to expedite this matter, also. It seems to me that the motion is a little bit indefinite, because we will start off with our regular business next Monday, and we don't know when we are going to get into Executive, and we should not make people wait around for one, two or three hours. I think that matter ought to go to the committee on a day certain and at a time certain for considering it in the Executive Meeting. The way it reads now, it is indefinite, and these people who will be invited I know are busy and would like to have a definite time.

President KELLY—I think the councilor meant when we went into Executive Session. Is that what you meant?

Coun. MUCHNICK—Yes, but I think the suggestion of the councilor from Ward 12 is a very good one, and I would like to amend the motion further by stating that the Executive Committee meeting start promptly at 2.45 on Monday of next week.

Coun. LINEHAN—Mr. President, I started to rise some time ago in regard to this matter, seeing

that I was the one that requested a few minutes ago that some information be gotten.

President KELLY—I try to recognize the councilors in order.

Coun. LINEHAN—I am very glad to inform the members of the Council, including the gentleman from Ward 14, that we have some information from Mr. Sumner K. Wiley, who is in charge of the office of the Federal Public Housing Administration at 24 School street, Boston, and he tells me that, first there will be a payment in lieu of taxes to the city; second, that there will be a payment for land rent for the use of the land owned by the city, based on the value of the houses, which will be temporary, probably, at about \$2,000 valuation, plus a payment which will undoubtedly pay for all the utilities installed by the city. Now, it might have looked like I was trying to stop the housing for veterans. I am far beyond that because I think I have been one member of the Council who has been shouting for temporary or permanent housing for veterans all this year. It was not my purpose to stop housing for veterans; it was simply to see that we get some money into the treasury of the City of Boston after we spend \$500,000, without stopping the measure, without delaying this measure. I am happy to say that Mr. Sumner K. Wiley, himself or some representative of his office, will gladly be up here at the next meeting so that he can give us further information. I also suggest, as Councilor Muchnick did not, that we ask people such as the chairmen of the boards, and I would suggest all the members of the Boston Housing Authority, because after all they will be the ones that will be managing these so-called temporary structures for veterans. I hope we can get them all in, including the Federal. And I might also say the Mayor's Committee on Housing. Let them come in on this. I don't know who the members are, but I hope they are all from Boston. But, whoever they are, let us invite all of them in. And along with that, let us invite somebody from the State Department of Housing. I think the chairman is Philip Nichols. Then we will be well informed, and nobody will be overlooked. I sincerely hope that this order, along with its amendments, will be passed. I further say this, that if we do not add amendments today we cannot add them next time. That was the reason for my so-called stalling for a couple of minutes until I got the information. Now I have got the information I am happy to vote for this thing with the amendments.

President KELLY—The question first comes on the suspension of the rules. All those in favor will please rise. [Seventeen members stand.] Over two-thirds having risen, the rules are suspended. The question now comes on giving the order its first reading.

Coun. MUCHNICK—Mr. President, at this time I would like to withdraw my amendment; I would like to make it in the form of a motion after the order has been given its first reading.

The question came on giving the order its first reading. The roll was called and the order was given its first reading and passage, yeas 18, nays 0: Yeas—Coun. Bayley, Bryan, Cantwell, Chase, Cook, Fish, Hannon, Keenan, Kelly, Kinsella, Lane, Linehan, McCormack, Moriarty, Muchnick, Russo, Scannell and Sullivan—18.

Nays—0.
The order will take its second reading and passage in not less than fourteen days.

Coun. MUCHNICK—Mr. Chairman, I make that motion now that was made in the form of an amendment a few minutes ago. I don't know whether you want me to repeat it.

President KELLY—I understand the motion is that this order now be referred to the Executive Committee and that the Executive Session start at 2.45 promptly next Monday.

Coun. MUCHNICK—And that all persons who can give any information, including those who were suggested by Councilor Linehan, be invited to attend.

The motion was carried.

Coun. LINEHAN—Mr. President, may I add that in that list we might include some representatives of the Veterans of Foreign Wars, so that they will not feel slighted.

President KELLY—The Clerk of Committees will be authorized to invite both the Commanders of the Legion and the Veterans of Foreign Wars.

Coun. COOK—The Disabled American Veterans, American Veterans' Committee. I would like to put it as all veterans' organizations, statewide.

President KELLY—The Clerk of Committees will be instructed to invite all veterans' organizations.

Executive Committee Reports.

Coun. FISH, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred May 6) appropriating \$10,000 to be expended under direction of the Mayor for care of graves of soldiers, sailors and marines—that same ought to pass.

The report was accepted, and the order was passed, yeas 17, nays 0:

Yeas—Coun. Bayley, Bryan, Cantwell, Chase, Cook, Fish, Hannon, Keenan, Kelly, Kinsella, Lane, McCormack, Moriarty, Muchnick, Russo, Scannell, Sullivan—17.

Nays—0.

2. Report on message of Mayor and order (referred May 6) that Commissioner of Public Works be authorized to sell at public auction at upset price of \$1,000 one Mead-Morrison gasoline crane—that same ought to pass.

Report accepted; said order passed.

3. Report on message of Mayor and order (referred May 6) transferring tax title land in North End to Fire Department for new fire house—that same ought to pass.

Report accepted; said order passed.

4. Report on orders (referred May 6) to increase assessment on Suffolk Downs and instruct Legislative Counsel to introduce legislation authorizing city to levy a tax of 5 per cent of the amount wagered daily at Suffolk Downs—that same ought to pass.

Report accepted; said orders passed.

5. Report on message of Mayor and order (referred May 6) transferring tax title land on Belle avenue, West Roxbury, to Public Works Department to be used as city dump—that same ought not to pass without prejudice.

The question came on the acceptance of the report of the committee.

Coun. COOK—Mr. President, I wish to make a correction on the part of the committee. I understand that the committee voted that the order not pass without prejudice.

President KELLY—The correction will be made and the gentleman is correct. The question now comes on the acceptance of the report of the committee.

The report was accepted and the question then came on the rejection of the order.

Coun. BRYAN—Mr. President, I had a conference with Mayor Curley this morning in regard to this proposed land for a dump. The Mayor, at my request and at the wish of the people in my district, contacted the Public Works Commissioner and asked that the permit be withdrawn. I am very happy, and I know the people of my district will be very happy, and I want to thank my colleagues of the Council for going along with me in defeating this measure if it came to a vote. I also want to thank Councilor McCormack, who offered his legal services, and who prepared a bill in equity with a restraining order if it was necessary to stop this movement. I also want to thank Councilor Cantwell, and all the other councilors who have called me up or got in contact with me, to give me any assistance that I might have needed. I also want to thank the Boston newspapers for carrying the story, notifying the people in my section of the proposed dump. I also want to thank the editor of the *Parkway Transcript*, Richard W. Davis, for his fine editorial, and also for the news story which he carried in behalf of defeating the dump. I also want to thank Philip C. Boutwell of Brookline, who has been a member of the Metropolitan District Commission for five years, and who has been very much interested in the progress of Hovey Beach, who also offered me any assistance that I might need. There are many other organizations and civic-minded people who have called me up for three days offering their assistance. And I would have had plenty of assistance in case this thing had developed into a fight, which I knew it was going to do if this permit was granted and the dumping allowed in this area. I know that the people in my district, which is a fine residential section, have fought against any more dumps or any more cemeteries, and I have been elected by them to fight in the Council, as I always have, against any more dumps or any more cemeteries in my community.

The order was rejected.

6. Report on petition of Rita Barrett (referred February 18) for payment of annuity on account of death of her husband, Edward J. Barrett, late member of Fire Department—recommending passage of accompanying order, viz.:

Ordered, That under the provisions of section 89 of chapter 32 of the General Laws, an annuity of one thousand dollars be allowed and paid to Rita Barrett, widow of Edward J. Barrett, a member of the Fire Department who died on February 3, 1946, on account of injuries received in the performance of his duty; said annuity to continue so long as she remains unmarried; the payments to date from February 3, 1946, and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Report accepted; said order passed.

7. Report on petition of Margaret F. Mahoney (referred today)—to be paid annuity on account of death of husband, James J. Mahoney, member of Police Department—recommending passage of accompanying order, viz.:

Ordered, That under the provisions of section 89 of chapter 32 of the General Laws an annuity of seventeen hundred and eighty dollars be allowed and paid to Margaret F. Mahoney, widow of James J. Mahoney, a member of the Police Department who died on January 24, 1946, on account of injuries received in the performance of his duty; said annuity being made up of allowances as follows:

For the widow, Margaret F. Mahoney, so long as she remains unmarried—\$1,000 per annum.

For each of the following-named children during such time as he or she is under the age of eighteen or over said age and physically or mentally incapacitated from earning—\$260 per annum:

James Mahoney, born June 29, 1934; Margaret Mahoney, born July 18, 1939; Edward Mahoney, born January 27, 1943.

provided, however, that, if the widow remarries the annuity for each of said children shall be \$520 during the remainder of the time aforesaid, the payments to date from January 24, 1946, and to be charged to the appropriation for Police Department, Pensions and Annuities.

Report accepted; said order passed.

8. Report on order (referred May 6) that Legislative Counsel introduce legislation authorizing city to assess a tax of 10 per cent on all admission charges collected daily from patrons at Suffolk Downs—recommending that same ought not to pass.

The report was accepted, and the question came on the passage of the order.

Coun. MUCHNICK—Mr. President, I simply want to be recorded, and I vote in favor of the order, and I would like it so recorded in the minutes.

The order was rejected.

REPORT OF COMMITTEE ON COUNTY ACCOUNTS.

Coun. BRYAN, for the Committee on County Accounts, submitted the following:

Report on petition of Bartholomew J. Maree, employee of Penal Institutions Department, to be retired—recommending passage of following order:

Whereas, Bartholomew J. Maree, employed in the service of the County of Suffolk, as officer in the House of Correction, Penal Institutions Department, has made application to be retired under the provisions of chapter 678 of the Acts of 1945; and

Whereas, The said Bartholomew J. Maree has submitted to the City Council satisfactory evidence that he is a veteran as defined in section 56, chapter 32 of the General Laws; that he has been certified for retirement for disability by the duly authorized medical panel; that he has been in the service of the county at least ten years and has reached the age of fifty; that he is incapacitated for active service; and that his total income from all sources, exclusive of his retirement allowance and of any sum received from the government of the United States as a pension for war service, does not exceed five hundred dollars;

Ordered, That under the provisions of section 56 of chapter 32 of the General Laws, as amended by chapter 514 of the Acts of 1943, Bartholomew J. Maree, employed in the County of Suffolk as officer in the House of Correction, Penal Institutions Department, be, and hereby is, retired by the Mayor and City Council, acting as county commissioners, at an annual pension of twelve hundred and fifty dollars, being one half of his highest regular rate of compensation.

The order was passed.

REPORT OF COMMITTEE ON CONSTABLES AND CONFIRMATIONS.

Coun. BRYAN, for the Committee on Constables and Confirmations, submitted the following:

Report on appointments (referred April 6) by the Mayor of one Weigher of Coal and four Weighers of Goods—recommending that same be confirmed.

Report on appointments (referred April 29) by the Mayor of thirteen Weighers of Goods—recommending that same be confirmed.

The reports were accepted, and the question came on confirmation.

Coun. RUSSO—Are these constables with or without bonds?

President KELLY—They are Weighers of Goods and Coal.

The question came on confirmation. Committee, Coun. Bryan and Russo. Whole number of ballots 17, yeas 17, and the appointments were confirmed.

REPORT OF COMMITTEE ON CLAIMS.

Coun. LINEHAN, for the Committee on Claims, submitted the following:

Report on petition of Robert Garnett (referred April 8), to be reimbursed for amount of execution issued against him on account of his acts as operator of patrol wagon belonging to Division 10, Police Department, recommending the passage of accompanying order:

Ordered, That the sum of two hundred dollars (\$200) be allowed and paid to Robert Garnett in reimbursement for amount of execution issued against him on account of his acts as operator of patrol wagon belonging to the Police Department, said sum to be charged to the Contingent Fund.

Report accepted; said order passed.

BOSTON RAILROAD HOLDING COMPANY.

Coun. SCANNELL offered the following:

Resolved, That the Boston City Council, in meeting assembled, hereby favors the enactment of House Bill No. 507, entitled "An Act to Dissolve the Boston Railroad Holding Company."

The resolve was declared referred to the Committee on Rules.

Coun. SCANNELL—Mr. President—

President KELLY—You may ask unanimous consent to make a statement, but you cannot talk on that particular matter.

Coun. SCANNELL—Mr. President, this is something pertaining to the City of Boston. It is passed by the Legislature.

Coun. KELLY—It has no direct bearing on the business of the Council, councilor.

Coun. SCANNELL—It is a resolution asking for something, and I certainly think—

President KELLY—The Committee on Rules can probably hold a meeting this week and refer it out, and then you may talk on the resolution.

Coun. SCANNELL—Mr. President, I think this thing was something to do with the Council, as far as the bill is concerned. I am going to ask that the Chair withdraw his reference to the Committee on Rules so that I may speak on this order.

President KELLY—I can't very well withdraw it now, having referred it to the Committee on Rules. You were a member of the Body at the beginning of the year which established the rules.

Coun. SCANNELL—That I don't know. Furthermore, I wish the Committee on Rules would have some of the committee rules changed around here. Mr. President, I would like unanimous consent to make a speech.

Coun. LINEHAN—Mr. President, a point of parliamentary inquiry.

President KELLY—State your point.

Coun. LINEHAN—Isn't it possible to make an exception to the rule in a particular case by a vote of two thirds of the Body?

President KELLY—It is not on a matter of this kind. Councilor Scannell may ask unanimous consent to make a statement.

Coun. KINSELLA—Mr. President, this is a point of parliamentary inquiry. Isn't the Chair obligated to rule the gentleman out of order if he speaks on this now? Not that I have any objection to his speaking, but isn't the Chair obliged to so rule?

President KELLY—I have so informed the gentleman, that he can't talk on this resolution.

Coun. KINSELLA—I hope that the councilor understands that I offer that in order to avoid embarrassment, not to stop him from speaking.

Coun. SCANNELL—I ask unanimous consent to make a statement.

The consent was granted.

Coun. SCANNELL—Mr. President, in the past three or four years, or in the past fifteen or twenty years, the Port of Boston has deteriorated. The Port of Boston at one time was one of the finest ports on the East Coast. At that time ships came here from all over the world, giving employment to the men that worked on the water front, and giving business to the merchants of New England. There has been something happening here in Boston which has put us in a very bad position, and I suggest it is the rates charged by the New York, New Haven and Hartford Railroad. In South Boston alone, where we have some of the finest docks on the East Coast, the New York, New Haven and Hartford Railroad, which has a monopoly on these docks—and it is the only railroad that goes to the South Boston piers—charges a 56-cent tax per ton for wharfage. I believe I am in order, Mr. President.

President KELLY—I have not said a word, councilor. Councilor Scannell.

Coun. SCANNELL—I realize, gentlemen, this—that in South Boston, where the government has spent millions and millions of dollars trying to build up these docks, and realizing, gentlemen, where Boston, I believe, was one of the largest embarkation stations in the world, we have today, after the government built these wonderful docks, between 30 and 35 miles of railroad running to them, and it is nothing today, I might say, but a graveyard. In South Boston in the past week there has been one ship, what they call the "Frisco" boat from the West Coast, docked at Commonwealth Pier in South Boston, and from my information in New York there have been 500 ocean-going vessels docked in the past week, and 51 were waiting to go in, waiting for wharf space. Mind you, at the South Boston docks, where the New Haven Railroad charges 56 cents per ton for wharfage—that is, to have the stevedore take it off the boat and just lay it on the wharf, they charge 56 cents per ton—and in New York they do not charge a single penny. This is something the Boston Port Authority should go into, and it is something that they should ask the New Haven Railroad to suspend. And I shall further, at next Monday's meeting, go in and ask the Sherman Anti-Trust Committee to do something about the New Haven Railroad and its monopoly here in Massachusetts. In South Boston we have a large number of longshoremen who derive their living from the docks of South Boston and Charlestown and East Boston, and lo and behold, can you imagine 551 ships in New York in a week, and one boat from "Frisco" tied up at the South Boston Commonwealth Pier? What a sad state of affairs it is for the Boston Port Authority! But I do not blame the Boston Port Authority. I blame the men who are monopolizing our railroads here in Massachusetts. As I am talking by unanimous consent, I shall confine my remarks until next week. As I said, in South Boston—and, incidentally, for the best interests, if the gentleman from the Back Bay is not interested in South Boston, then he can leave, but I am, and I don't want any remarks. The New Haven Railroad, as I understand it, in the past eight or ten years refused to pay the City of Boston any taxes. To the credit of the Mayor of Boston, James Michael Curley, he was responsible for getting \$125,000 in taxes from the New Haven Railroad.

It is a sad situation, gentlemen. You will hear from me later in regard to the New Haven Railroad, which was monopolizing business and by-passing the City of Boston, sending anything they have from New England into New York to be shipped out. I am still within my rights, although it is pretty hard. Anything coming into the Port of Boston was by-passed by Lowell and went into New York. I know that the Boston Port Authority is going to have a tough job in asking the New Haven Railroad to bring the business into Boston. I know that there were solicitors from the New Haven Railroad who told Dan Donovan, the International Vice-President of the Longshoremen's Union, that they were soliciting business for the New Haven Railroad, and the railroad turned it over to the New York Port Authority. It is a bad state of affairs when anybody can come from Pennsylvania and control the railroads in this city, an outside interest building up the Pennsylvania Railroad and leaving the Port of Boston in a destitute condition. If we do not do something about this, there is going to be a terrible disaster in Boston. Boston is going to be the worst port in the country. You will not have a Port of Boston if the New Haven Railroad has something to do with it or any of its stooges up in the Legislature, fighting for some of their bills. Some of their tools, as I may call them, voted for it. In closing for today, I want to congratulate the members, whether they be Republican or Democratic, who have an interest in the Port of Boston and have voted for this bill. I will contend on a public platform against the gentleman who led the fight to destroy the Port of Boston. I might say that the gentleman who is so well versed in Boston and has the interests of Boston, although he be the gentleman from Ward 5, Henry Shattuck who was a colleague of mine here, went out and fought to have this bill passed. He has to be congratulated, and also each one of these men who voted for this bill. I will be on my feet next Monday, and I will say some more in regard to this dissolving of the Boston Railroad Holding Corporation.

President KELLY—The order is referred to the Committee on Rules.

Coun. RUSSO—Mr. President, I ask unanimous consent.

President KELLY—Councilor Russo asks unanimous consent to make a statement. Do I hear any opposition? Councilor Russo.

Coun. RUSSO—Mr. President, I heartily agree with what the distinguished councilor from Ward 6 (Coun. Scannell) just stated. I cannot help being reminded of what happened 32 years ago. I have a certain love and affection for the port of the City of Boston. It was in the port of the City of Boston that I first put my foot on this great land of ours, America, in 1914, a small boy of eight and one half years of age when I got off the steamer that brought me here. I saw—and it is still vivid in my mind—the hundreds of individuals working in the Port of Boston, particularly on what was known as the Commonwealth Pier. Hundreds of people were deriving their livelihood from the activities of the Port of Boston which have now faded away. I wonder when the authorities of the Port of Boston will see the port put in its right and proper condition. Mr. President, we must realize one fact, the war has ended. Certainly we know that there are various countries throughout the world that have been devastated by this second World War. We also must realize that we here in America must import and export, and must distribute to other nations throughout the world. It is not only a selfish motive because we want to distribute to nations or gain money, but there is also an obligation on the part of all the officials of the city and state governments to make sure that the people have employment. We must realize that in a very short time, as soon as this state of mind disappears from the people, recalling what we had to go through in this war, when things are going to be settled, there is no question that many importations must reach our port. Having all that in mind, I say that the Port of Boston could be made to be the No. 1 port of the country by repairing it and putting it into condition. The piers of the port must be repaired. We also must realize that many tourists, either for business purposes or for vacation, will leave the nation to travel through various other countries. Just imagine the enterprise, the work, the manpower, that is needed when these things take place. I say something ought to be done. I say something ought to be done by the officials in Congress to see that the Port of Boston will be given its proper place throughout the nation. I hope that they will take notice in order to see and give work to the people of the City of Boston and to make it port No. 1, where we can compete with any port throughout the United States. In that way we will eliminate to a certain degree the unemployment which is facing the people and the veterans who are coming back in the near future.

The resolve stood referred to the Committee on Rules.

STUDY OF AWARDING OF CITY CONTRACTS BY FINANCE COMMISSION.

Coun. CHASE offered the following:

Ordered, That the Boston Finance Commission be requested to review and study all contracts awarded by the City Purchasing Department without bid for \$1,000 or more, with a view to deter-

mining whether or not it would be more economical to change the present system of awarding such contracts.

Coun. CHASE—Mr. President, it seems to me that the time has come when we should make an effort to determine once and for all whether or not our present system in awarding contracts is not antiquated. I feel, Mr. President, that any business house which conducts a business on such a large scale as the City of Boston does, which, incidentally, is the largest corporation in New England, should conduct itself as any business corporation would. I know of many business institutions which in awarding contracts endeavor to get quality merchandise and quality products at the very lowest possible price. In awarding those contracts they group them all together in order to get the lowest price. It would seem to me that the City of Boston in awarding oil contracts might possibly be able to get a more advantageous price for the taxpayers by grouping these contracts all into one large contract and advertising them to the lowest bidder, giving the contract to the lowest bidder. Likewise with your mercantile contracts, and all the way down the line. It would seem the logical business way of getting or awarding the business to the low bidder naturally qualified to give the city quality merchandise. I think, Mr. President, if the city were to undertake in the future a plan of doing business in that way, many thousands of dollars would be saved. I believe that, if the Boston Finance Commission were to make a thorough study of the awarding of contracts by our municipal government, especially contracts for \$1,000 or more which are awarded without bid, they would unquestionably give us information which would satisfy to the extent that we would know for a fact that the city could undertake to award its contracts to the lowest bidders instead of under the present system. The Boston Finance Commission is given an appropriation of \$50,000 each year for the purpose of just such missions as I am urging the Council to request of them today. They have all the necessary engineers, statisticians and ways to determine the facts necessary in giving us an answer. I feel, Mr. President, since the Boston Finance Commission is composed of individuals appointed by different governors, that they would give us an unbiased opinion. They would give us an honest opinion. I believe that the chances are that they not only would give us an opinion but they would advocate a plan which, if adopted, would save the citizens of Boston money in the long run. I trust that the council will adopt the order.

President KELLY—Councilor Chase asks for suspension of the rule and the passage of the order.

Coun. SULLIVAN—Where the order is requesting the Finance Commission to make an investigation, and we have not a quorum, I move the order be referred to the Executive Committee.

President KELLY—The question is on the motion to refer to the Executive Committee. It is a vote and so ordered.

UNFINISHED BUSINESS.

Coun. SULLIVAN—I move that No. 1 be taken from table and passed, and No. 2 be taken from the calendar and placed on file.

Nos. 1 and 2 on the calendar, on the table, were as follows:

1. Order that Election Commission refuse to certify candidates not residents of districts in which they seek office.

2. Communication of Corporation Counsel relative to powers of City Council to obtain certain information.

Coun. LINEHAN—Mr. President, may I just comment briefly on item 2? Because we of the City Council are now going to place this item on file does not mean we concur in the opinion of the Corporation Counsel. I, for one, certainly do not. I sincerely hope that the department heads under the present administration do not get any idea from this so-called opinion from the Corporation Counsel that it will in the future allow them to stay away from any meeting which we might request them to be present at. I do not want it to look as though we are not further interested in this matter. I for one, and I know every other councilor in here, is interested, but I think it is due to the fact that we have already acted on this matter some time before and we spoke on it to some extent that we are probably now acting to place it on file. Let the department heads beware. Some of us in the City Council will see if we can, within our means, that business is conducted the way it should be in a large city such as ours.

Coun. CHASE—What is the motion, Mr. President?

President KELLY—Taking Nos. 1 and 2 from the calendar and placing them on file merely to clear up the calendar.

Coun. SULLIVAN—This has been on the calendar three weeks. There is a paper shortage. If it is not removed, it is going to be printed next week. You can always bring up a new order next week, or the week afterwards.

Coun. BAYLEY—I wish to say I concur heartily with everything the distinguished councilor from Ward 7 (Coun. Linehan) has said. I believe it is important that the department heads realize we are going to look into the municipal affairs of Boston and protect the interest of the

taxpayers. I disagree with the opinion of the Corporation Counsel. He said it was not our business and it was not the function of the Mayor to give us the number of employees as requested. I agree with the distinguished councilor from Ward 7 and do not agree with the Corporation Counsel for the City of Boston.

Coun. RUSSO—Mr. President, of course I have to concur in what the previous gentleman just stated. I agree with Councilor Sullivan to take this off the table and to file it. He has outlined the shortage of paper. I do not think we ought to waste the city money in having this appear again, unless we really have to. I do not concur with the opinion given by the Corporation Counsel, as I have stated in the previous meetings. Therefore, it does not mean that because I am in favor of removing this from the table that I concur with the opinion given by the Corporation Counsel.

Coun. LINEHAN—I want to add for the sake of the record, somewhat apropos of the No. 2 item, that we did have a commissioner before us in Executive Session today. He denied ever stating that the City Councilors were responsible for not appropriating money so that the City of Boston could take advantage of purchasing items from the War Surplus Commodities Service. That gentleman openly, before all the councilors and newspapermen, denied ever having said it. I at least want to have it in print in the *City Record* that the Superintendent of Supplies, the so-called General Rose, absolves the City Council of all blame.

President KELLY—The question comes on Councilor Sullivan's motion to remove Nos. 1 and 2 from the calendar and that No. 1 be passed, and No. 2 placed on file.

It is a vote and so ordered.

Coun. CHASE—Mr. President.

President KELLY—For what purpose does the gentleman rise?

Coun. CHASE—I move that the order asking that the Finance Commission make a study of all contracts over \$1,000 without bid be taken from the Executive Session. May I say that the motion was made under the guise of our lacking a quorum? We now have a quorum. I see no necessity for delaying the passage of the order for another week. It is a simple order. Mr. President, I hope in order to acquaint the members of the Council who were outside at the time the order was read by the clerk, that the clerk will again read my order so that we may pass on it.

President KELLY—Before the clerk reads the order, I might say unfortunately your motion is out of order. It takes 15 votes to remove it from the Executive Session. I will ring the bell for you. If there are 15 members around, your motion will be in order.

Coun. CHASE—Can't I move reconsideration of that order?

President KELLY—The only motion that is in order, councilor, is your motion to take from the committee, but unfortunately there are not 15 members of the Council here.

Coun. CHASE—A motion to reconsider is in order. A motion to reconsider the vote would be in order.

President KELLY—The only motion that would be in order would be a motion to take from the committee. It is out of the hands of the Council right now. It is in the committee.

Coun. CHASE—A motion to reconsider the vote whereby the matter was put into committee is in order, isn't it?

President KELLY—I am sorry. It is out of order.

Coun. KINSELLA—Mr. President.

Coun. LINEHAN—Mr. President.

President KELLY—Councilor Kinsella.

Coun. KINSELLA—Mr. President, a point of order. The gentleman did not receive unanimous consent to withdraw his first motion in order to introduce the motion on reconsideration.

President KELLY—A motion for reconsideration is not in order. This matter is now before the Executive Committee. The only motion in order is to take from the Executive Committee. It requires 15 votes of the Council.

Coun. KINSELLA—Mr. President, my point of order was the gentleman did not ask unanimous consent to withdraw his original motion which was the passage of the order. Since he had discovered a quorum, he asked for withdrawal from the committee in order to ask for reconsideration. He must have unanimous consent to withdraw his first motion.

President KELLY—The motion for reconsideration is out of order. The only motion—

Coun. CHASE—Mr. President, may I ask you what rule you are making the ruling on?

President KELLY—You cannot reconsider something that is not before you. This matter is in Executive Session.

Coun. CHASE—May I request you give me the ruling in the book whereby you hold such a decision?

President KELLY—I am sorry. It is not in the book. I would have to go into Cushing's Manual to find the rule.

Coun. LINEHAN—Mr. President, a point of parliamentary inquiry. I will ask a question at the end of this. Unless business intervenes between that so-called motion of referring it to the Executive Committee, unless business intervening stops his motion for reconsideration, it seems to me that any motion such as that can be reconsidered unless the rules specifically state if any other matter

intervenes between the time the motion prevails and his present motion—

President KELLY—I am sorry to disagree with you. A motion to reconsider is out of order. The only motion in order is taking from the committee which requires fifteen votes.

Coun. CHASE—Mr. President.

President KELLY—Just a minute, councilor. The Chair will read the rule. We have a definite rule about taking from the committee. "If within thirty days a matter referred to a committee is not reported upon, it may be recalled by a two-thirds vote of all the members," 15 votes of the members of the Council.

Coun. CHASE—Mr. President, I am asking reconsideration of the vote that referred that to the committee.

President KELLY—I am sorry, councilor, I made my ruling. You are out of order. There is no reconsideration.

Coun. LINEHAN—Mr. President.

President KELLY—For what purpose does the gentleman rise?

Coun. LINEHAN—A point of parliamentary inquiry. I would like to ask through you, sir, from the clerk just what matters can be reconsidered if this one cannot be?

President KELLY—That is an easy question to answer. Any matter that is still in the hands of the Council can be reconsidered. This matter is out of the hands of the Council. The matter is in the Executive Committee. It has been referred to the Executive Committee and is out of the hands of the Council.

Coun. LINEHAN—A further point of parliamentary inquiry. If any order is given to any committee by the President of this Body, does that mean that by his act it cannot be reconsidered by the Council?

President KELLY—It cannot be reconsidered once it is referred to the committee. It has to be recalled from the committee, which takes a two-thirds vote of the members of the Council.

Coun. KINSELLA—Mr. President, a point of information. In view of the fact the gentleman from Ward 4 (Coun. Chase) has been ruled out of order, I would like to introduce this bill.

President KELLY—I ruled his motion out of order.

Coun. KINSELLA—There is no motion before the Body.

Coun. CHASE—Mr. President.

Coun. KINSELLA—Mr. President, I ask recognition.

President KELLY—Does Councilor Chase wish to appeal the ruling of the Chair?

Coun. CHASE—Mr. President.

President KELLY—I made a ruling. Are you appealing the ruling, Councilor Chase?

Coun. CHASE—A point of parliamentary inquiry.

President KELLY—State your point of parliamentary inquiry.

Coun. CHASE—It has always been my understanding on any matter put to a Council vote, a motion for reconsideration would be right before the matter is finally disposed of. May I remind you, sir, that I contend that this matter has not been finally disposed of until all the parliamentary procedures have been used? We had not exhausted all the parliamentary procedure before this matter was finally sent to Executive Session. A motion to reconsider always lies in any vote.

President KELLY—I am sorry, councilor, I am going to disagree with you. Your motion to reconsider is out of order.

Coun. SULLIVAN—Mr. President.

President KELLY—Councilor Sullivan, for what purpose do you rise?

Coun. CHASE—Mr. President.

President KELLY—Councilor Sullivan, for what purpose do you rise?

Coun. SULLIVAN—A point of order.

President KELLY—The Chair recognizes Councilor Sullivan.

Coun. CHASE—Mr. President.

President KELLY—Councilor Sullivan, state your point of order.

Coun. CHASE—Mr. President.

President KELLY—Councilor Chase, you are out of order.

Coun. CHASE—A point of parliamentary inquiry.

President KELLY—The Chair recognizes Councilor Sullivan. State your point of order.

Coun. SULLIVAN—Assuming the councilor from Ward 4 (Coun. Chase) is correct, and an order does come back here, every order must have two readings unless the rules are suspended.

President KELLY—That is right.

Coun. SULLIVAN—If there is no objection, the order then will be held over to the next week. If he were successful in taking it from the committee, I would object and it would be held over until the next meeting. He will be no further ahead. We are wasting a lot of talk.

President KELLY—I am trying to explain to the gentleman it takes 15 votes to take it from the Executive Session. There are 13 present.

Coun. CHASE—Mr. President, will you advise me in the rule book where you make this ruling that reconsideration cannot be had?

President KELLY—Rule 14 at the top of page 4. I have already read it to the Body.

Coun. KINSELLA—Mr. President.

President KELLY—For what purpose does the gentleman rise?

Coun. KINSELLA—Is there a motion before the Body?

President KELLY—There is no motion before the Body.

Coun. KINSELLA—I ask recognition, Mr. President.

President KELLY—The Chair recognizes Councilor Kinsella.

REPAIRS IN TRAINING FIELD PARK, CHARLESTOWN.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to instruct the chairman of the Board of Park Commissioners to proceed immediately to the repairing in every description of Training Field Park in Charlestown.

Passed under suspension of the rule.

ACCEPTANCE OF NILES STREET, WARD 22.

Coun. MADDEN offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Niles street, Ward 22, as a public highway.

Passed under suspension of the rule.

ADJOURNMENT.

Coun. COOK—I make a motion we adjourn.

President KELLY—Councilor Cook moves we do now adjourn. It is a vote and so ordered.

Coun. CHASE—I doubt the vote.

President KELLY—Councilor Chase doubts the vote and asks for a standing vote. Those in favor of adjourning will please stand. There are nine in favor and four opposed. It is a vote, and so ordered.

Coun. BAYLEY—Mr. President, I ask a roll call vote, three of us having stood.

President KELLY—Three did not stand. No, you asked for a standing vote. We are adjourned.

Coun. BAYLEY—Mr. President, we ask for a roll call vote.

Coun. LINEHAN—Four of us were standing.

President KELLY—I called a standing vote, and three of you were not standing.

Coun. BAYLEY—We want a roll call vote.

Adjourned, on motion of Coun. COOK, at 6.30 p. m., to meet on Monday, May 20, 1946, at 2 p. m.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PUBLIC AUCTION.

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906 will sell at public auction on the premises on Friday, June 7, 1946, at 12 noon, a lot of land being a portion of the yard of the Germantown School on Washington street, near Stimson street, West Roxbury, and described as follows: Beginning at a point on the easterly side of Washington street approximately 111.5 feet north of Stimson street; thence southeasterly 167.22 feet; thence southerly 50 feet; thence northwesterly 186.68 feet to point of beginning and contains 4,034 square feet. Be all measurements more or less. The upset price will be \$500. A deposit of \$250 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days.

The Superintendent of Construction reserves the right to reject any or all bids.

JAMES H. MOONEY,
Superintendent of Construction,
Department of School Buildings,
26 Norman Street, Boston, Mass.
Capitol 5750.

(May 25-June 1.)

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

LAND, WEST ROXBURY PARKWAY, EASTERLY SIDE, WEST ROXBURY.

The City of Boston will sell at public auction all its right, title and interest in and to about five hundred ninety-nine (599) square feet of land on the easterly side of West Roxbury Parkway, West Roxbury, making the junction of Beech street, bounded and described as follows: Westerly by West Roxbury Parkway; northeasterly by Beech street; southeasterly by an estate now or formerly of Thomas P. Buckley and another, and more fully described in a tax deed recorded with Suffolk Deeds, in Book 5744, page 593.

Time of Sale: Thursday, June 6, 1946, starting at 10 a. m., at the Roslindale Municipal Building, corner of Cummins Highway and Washington street. Minimum price is two hundred dollars (\$200). A deposit of fifty dollars (\$50) in cash or certified check, required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

IRVING LEWIS,
Chairman.

(May 25-June 1.)

TANKERS DO DOUBLE DUTY.

American shipyards are now making it possible for our tankers to carry extra loads. A scaffold-type extra desk enables a modern tanker to carry a load of extra freight the equivalent of 10 per cent of its normal load capacity. Some tankers now carry, in addition to its load of gasoline, deck loads of ambulances, planes, jeeps and trucks.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO GENERAL CONTRACTORS.

INVITATIONS FOR PROPOSALS FOR MAKING ALTERATIONS, ETC., IN THE SCHOOL ADMINISTRATION ANNEX, BOWDOIN SCHOOL, 45 MYRTLE STREET, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for making alterations, etc., in the School Administration Annex, Bowdoin School, 45 Myrtle street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Friday, June 7, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Tuesday, June 4, 1946.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than five per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.

(May 25.)

CITY OF BOSTON.

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

LOTS 16, 17 ON PROPOSED STREET LEADING FROM
GREENFIELD ROAD, DORCHESTER.

The City of Boston will sell at public auction all its right, title and interest in and to about sixty-four hundred (6,400) square feet of land on the northwesterly side of a proposed street leading from the northeasterly side of Greenfield road, Dorchester (formerly known as Randolph road), being lots sixteen (16) and seventeen (17), J. A. Latham plan, dated April, 1894, recorded with Suffolk Deeds, at end of Book 2191, and more fully described in tax deeds recorded with Suffolk Deeds, Book 4517, pages 126 and 127.

Time of Sale: Thursday, June 6, 1946, starting at 10 a. m., in the Roslindale Municipal Building, corner of Cummins Highway and Washington street. Minimum price is two hundred dollars (\$200). A deposit of fifty dollars (\$50), in cash or certified check, required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

IRVING LEWIS,
Chairman.

(May 25-June 1.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN ANDOVER
ROAD BETWEEN BUCHANAN ROAD AND WELD
STREET, WEST ROXBURY, AND BROOK FARM
ROAD FROM LA GRANGE STREET TO 900 FEET
SOUTHWESTERLY, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, Office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Andover road between Buchanan road and Weld street, West Roxbury, and Brook Farm road from La Grange street to 900 feet southwesterly, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Andover road between Buchanan road and Weld street, West Roxbury, and Brook Farm road from La Grange street to 900 Feet Southwesterly, West Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, June 6, 1946, with a certified check for four hundred (400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
Commissioner of Public Works.

(May 25.)

THE SCHOOL COMMITTEE OF THE
CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET
OFFICE OF THE BUSINESS MANAGER, TENTH FLOOR.

PROPOSALS FOR FURNISHING AMERICAN ANTHRACITE
COAL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing American anthracite coal required for the school buildings from June 16, 1946, to December 31, 1946, deliveries to be continued until June 15, 1947, delivered appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Anthracite Coal for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check, payable to the City of Boston, in the amount of at least 5 per cent of the total bid, must be left at the office of the Business Manager on or before 12 o'clock m., on Monday, June 10, 1946. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The coal is to be delivered in the bins of the several buildings and the price per ton named in the proposal must include delivery and housing in a manner satisfactory to the School Committee. The contractor must furnish suitable equipment and sufficient number of men to house the coal properly and promptly. The estimated tonnage required is as follows and as much of it as possible will be housed during July and August, 1946:

American Anthracite Coal.

District.	Egg Size.
1. City Proper.....	15 tons
2. South Boston.....	—
3. East Boston.....	—
4. Roxbury.....	150 tons
5. Dorchester.....	60 tons
6. Charlestown.....	—
7. Brighton.....	—
8. West Roxbury.....	—
9. Hyde Park.....	40 tons
Total.....	265 tons

Bidders may submit a proposal for furnishing American anthracite coal required in any one or more of the above nine districts of the city and may also submit one bid covering the whole city. The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond for not less than fifty (50) per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(May 25.)

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

LAND, VETERANS OF FOREIGN WARS PARKWAY,
DUNBAR AND RAYMOND STREETS, WEST
ROXBURY.

The City of Boston will sell at public auction all its right, title and interest in and to about seven hundred seventy-five thousand one hundred forty-six (775,146) square feet of land on Veterans of Foreign Wars Parkway, Dunbar and Raymond streets, West Roxbury, consisting of thirteen (13) parcels:

Veterans of Foreign Wars Parkway, two (2) lots on northerly side of Veterans of Foreign Wars Parkway, which are more fully described in tax deeds recorded with Suffolk Deeds, Book 5780, pages 19 and 20.

Dunbar street, lots two hundred eighty-six (286) and two hundred eighty-seven (287), shown on J. Edwin Jones plan, dated August 1, 1888, recorded with Suffolk Deeds, Book 1838, page 11, and more fully described in tax deeds recorded with Suffolk Deeds, Book 5780, pages 6 and 7. A lot on the northwesterly side of Dunbar street, which is more fully described in a tax deed recorded with Suffolk Deeds, Book 5780, page 8.

Raymond street, lots two hundred seventy-five (275), two hundred seventy-six (276), two hundred seventy-seven (277) to two hundred eighty-two (282), inclusive, shown on J. Edwin Jones plan, dated August 1, 1888, recorded with Suffolk Deeds, Book 1838, page 11, and more fully described in tax deeds recorded with Suffolk Deeds, Book 5780, pages 11 to 16, inclusive. Two (2) lots on Raymond street, not numbered, which are more fully described in tax deeds recorded with Suffolk Deeds, Book 5780, pages 17 and 18.

Time of Sale: Tuesday, June 4, 1946, at 10 a. m., on the premises. Minimum price is seven thousand seven hundred and fifty (\$7,750) dollars. A deposit of one thousand dollars (\$1,000), in cash or certified check, is required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN WASHINGTON STREET, WARDS 11 AND 19, FROM MORTON STREET TO ANGLE 130 FEET WEST OF WALK HILL STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Washington street, Wards 11 and 19, from Morton street to angle 130 feet west of Walk Hill street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Washington Street, Wards 11 and 19, from Morton Street to Angle 130 Feet West of Walk Hill Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, June 5, 1946, with a certified check for seventeen hundred (1,700) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(May 25.) Commissioner of Public Works.

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

LAND, HYDE PARK AVENUE, HYDE PARK.

The City of Boston will sell at public auction all its right, title and interest in and to about eighteen thousand five hundred eighty-seven (18,587) square feet of land, more or less, on the easterly side of Hyde Park avenue, Hyde Park, bounded and described as follows:

Beginning at a point on the easterly line of Hyde Park avenue at the land of Page & Hall Manufacturing Company, Inc.

Westerly by the easterly line of Hyde Park avenue, ninety-seven and 89-100 (97.89) feet.

Northerly by land now or formerly of City of Boston, one hundred ninety-seven and 79-100 (197.79) feet.

Easterly by land of New York, New Haven & Hartford Railroad Company, ninety-nine and 16-100 (99.16) feet.

Southerly by land of Page & Hall Company, Inc., one hundred eighty-one and 96-100 (181.96) feet to the point of beginning.

Said parcel is a lot shown on a plan by Thomas F. McGovern, Chief Engineer, Street Laying-Out Department, Boston, dated April 1, 1946, on file in the office of said department, City Hall, Boston, Mass. Said land is a portion of the premises described in a tax deed recorded with Suffolk Registry of Deeds, Book 5881, page 37.

Time of Sale: Tuesday, June 4, 1946, at 3.10 p. m., on the premises. Minimum price is eighteen hundred and fifty dollars (\$1,850). A deposit of three hundred dollars (\$300), in cash or certified check, is required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

POLICE DEPARTMENT.

PROPOSALS FOR FURNISHING UTILITY WAGONS.

The Police Department of the City of Boston invites proposals for furnishing and delivering utility wagons. The bidder must use the form of proposal to be obtained at the Office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the Office of the Police Commissioner, a properly certified check in the amount of \$500, payable to and to become the property of the Police Commissioner for the City of Boston if the proposal is not carried out. Proposals will be publicly opened and read on Friday, May 31, 1946, at 12 o'clock noon, at the Office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

THOMAS F. SULLIVAN,
(May 18-25.) Police Commissioner.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO HEATING CONTRACTORS.

INVITATION FOR PROPOSALS FOR INSTALLING MANHOLE AND HANDHOLE PLATES ON STEAM BOILERS IN THE VARIOUS SCHOOLS, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for installing manhole and handhole plates on steam boilers in the various schools, Boston, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 5, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,

(May 25.) Superintendent of Construction.

INVITATION FOR PROPOSALS FOR CALKING, POINTING AND WATERPROOFING AT THE BUNKER HILL SCHOOL, CHARLESTOWN, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for calking, pointing and waterproofing at the Bunker Hill School, Charlestown, Mass.

Proposals will be received until 12 o'clock noon, Monday, June 3, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT AND SEWERAGE WORKS IN COLUMBUS AVENUE, WARD 9, FROM NORTHAMPTON STREET TO STATION STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement and sewerage works in Columbus avenue, Ward 9, from Northampton street to Station street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement and Sewerage Works in Columbus Avenue, Ward 9, from Northampton Street to Station Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, June 7, 1946, with a certified check for ten thousand (10,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,

(May 25.) Commissioner of Public Works.

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

LAND, HYDE PARK AVENUE, HYDE PARK.

The City of Boston will sell at public auction all its right, title and interest in and to about four thousand five hundred thirty-one (4,531) square feet of land, more or less, on the easterly side of Hyde Park avenue, Hyde Park, bounded and described as follows:

Beginning at a point on the easterly line of Hyde Park avenue at the land of John Simson.

Northerly by land of John Simson, one hundred seventy-five (175) feet.

Westerly by land of John Simson, eighty-two (82) feet.

Northerly by land now or formerly of City of Boston, thirty-seven and 67-100 (37.67) feet.

Easterly by land of New York, New Haven & Hartford Railroad Company, ninety-three and 20-100 (93.20) feet.

Southerly by land now or formerly of City of Boston, one hundred ninety-seven and 79-100 (197.79) feet to the easterly line of Hyde Park avenue.

Westerly by the easterly line of Hyde Park avenue, ten (10) feet to the point of beginning.

Said parcel is a lot shown on a plan by Thomas F. McGovern, Chief Engineer, Street Laying-Out Department, City Hall, Boston, Mass., dated April 1, 1946, on file in the office of said department, City Hall, Boston. Said land is a portion of the premises described in a tax deed recorded with Suffolk Registry of Deeds, Book 5881, page 37.

Time of Sale: Tuesday, June 4, 1946, at 3 p. m., on the premises. Minimum price is three hundred and fifty dollars (\$350). A deposit of one hundred and fifty dollars (\$150), in cash or certified check, required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

IRVING LEWIS,

(May 25-June 1.)

Chairman.

CITY OF BOSTON.

LIBRARY DEPARTMENT.

To PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR CERTAIN PAINTING AND PAINTER'S WORK AT THE CONNOLLY BRANCH LIBRARY, 433 CENTRE STREET, JAMAICA PLAIN; FANEUL BRANCH LIBRARY, 419 FANEUL STREET, BRIGHTON; MATTAPAN BRANCH LIBRARY, 10 HAZLETON STREET, MATTAPAN.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for certain painting and painter's work in the branch libraries as listed above.

Proposals will be received until 12 o'clock noon, Friday, May 31, 1946, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Business Office, Public Library of the City of Boston, Central Library, Copley square, Boston 17, Mass. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston 8, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of one hundred and fifty dollars (\$150), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the awarding of the contract.

Specifications may be obtained on and after Monday, May 20, 1946, at the Business Office, Public Library of the City of Boston, Central Library, Copley Square, Boston 17, Mass.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to accept or reject any or all bids, and to accept or reject any portion or portions of bids, and to award the contract as he deems for the best interests of the city.

THE TRUSTEES OF THE PUBLIC LIBRARY OF THE CITY OF BOSTON,

by ELIZABETH B. BROCKUNIER, Clerk.

(May 18-25.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PUBLIC AUCTION.

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906, will sell at public auction on the premises on Friday, June 7, 1946, at 10 a. m., lot of land, formerly the site of the Everett Street School on Everett street, between Park and Mill streets, Dorchester, and described as follows: Beginning at a point on the northerly side of Everett street approximately 77 feet east of Park street; thence northeasterly 156.07 feet; thence southeasterly 119.91 feet; thence southwesterly 163.03 feet; thence northwesterly 120 feet to point of beginning and contains 19,130 square feet. Be all said measurements more or less. The upset price will be \$2,000. A deposit of \$500 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days.

The Superintendent of Construction reserves the right to reject any or all bids.

JAMES H. MOONEY,
Superintendent of Construction,
Department of School Buildings,
26 Norman Street, Boston, Mass.
Capitol 5750.

(May 25-June 1.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

To ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING WORK AT THE NATHAN HALE SCHOOL, CEDAR STREET, ROXBURY, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing work at the Nathan Hale School, Cedar street, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 5, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.

(May 25.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING HAY AND GRAIN.

The Supply Department of the City of Boston invites proposals for furnishing hay and grain as specified in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Hay and Grain." There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out.* The bids will be publicly opened and read Friday, May 31, 1946, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

(May 25.)

WILLIAM I. ROSE,
Superintendent of Supplies.

CITY OF BOSTON.

PARK DEPARTMENT.

PROPOSALS FOR FURNISHING AND SPREADING FILLING AND SAND AT TENEAN BEACH, DORCHESTER, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for furnishing and spreading filling and sand at Tenean Beach, Dorchester, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Furnishing and Spreading Filling and Sand at Tenean Beach, Dorchester, Mass.," and left before 2 o'clock on Tuesday, May 28, 1946, at the office of the Park Department with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING WORK
AT THE LAFAYETTE SCHOOL, RUGGLES STREET,
ROXBURY, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing work at the Lafayette School, Ruggles street, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 5, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

INSTITUTIONS DEPARTMENT.

PROPOSALS FOR ERECTING A WHARF TO REPLACE THE FRONT WHARF, INCLUDING ELECTRICAL WORK, AT LONG ISLAND, BOSTON HARBOR.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for erecting a wharf to replace the Front Wharf, including electrical work, at Long Island, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 12, 1946, at the office of the Awarding Authority, eighth floor, 809 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$5,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, carpenters, engineers and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of the compliance with the foregoing stipulations will be required prior to the award of a contract, and also comply fully with the rules and regulations governing the taking down of buildings or other structures as contained in bulletin No. 49, revised as of January 2, 1944, of the Building Commissioner for the City of Boston.

Specifications may be obtained at the office of the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Friday, June 7, 1946.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

G. FRANK McDONALD,
Commissioner of Institutions.

(May 25-June 1.)

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER, TENTH FLOOR.

PROPOSALS FOR FURNISHING RUN OF MINE AND NUT AND SLACK SEMI-BITUMINOUS COAL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing run of mine and nut and slack semi-bituminous coal required for the school buildings from June 16, 1946, to December 31, 1946, deliveries to be continued until June 15, 1947, provided appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Run of Mine and Nut and Slack Semi-Bituminous Coal for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check, payable to the City of Boston, in the amount of at least 5 per cent of the total bid, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, June 10, 1946. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The coal is to be delivered in the bins of the several buildings and the price per ton named in the proposal must include the delivery and housing in a manner satisfactory to the School Committee. The contractor must furnish suitable equipment and sufficient number of men to house the coal properly and promptly. The estimated tonnage required is as follows and as much of it as possible will be housed during July and August, 1946:

District.	Semi-Bituminous Coal.		Nut and Slack.	
	Run of Mine.			
1. City Proper.....	3,910 tons	—		
2. South Boston.....	2,160 tons	—		
3. East Boston.....	2,790 tons	—		
4. Roxbury.....	9,900 tons	—		
5. Dorchester.....	8,100 tons	300 tons		
6. Charlestown.....	1,265 tons	300 tons		
7. Brighton.....	2,515 tons	—		
8. West Roxbury.....	3,045 tons	—		
9. Hyde Park.....	2,390 tons	—		
Total.....	36,075 tons	600 tons		

Bidders may submit a proposal for furnishing the run of mine and nut and slack semi-bituminous coal required in any one or more of the above nine districts of the city and may also submit one bid covering the whole city. The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond of not less than fifty (50) per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(May 25.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PUBLIC AUCTION.

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906 will sell at public auction on the premises on Friday, June 7, 1946, at 1 p. m., a lot of land formerly the site of the Old Baker Street School at the corner of Baker and Gardner streets, West Roxbury, and described as follows: Beginning at a point on the westerly side of Baker street approximately 78 feet south of Gardner street; thence westerly 114.08 feet; thence northerly 82.32 feet; thence easterly by Gardner street 115.71 feet to corner of Baker street; thence southerly by Baker street 77.82 feet to point of beginning and contains 9,339 square feet. Be all said measurements more or less. The upset price will be \$750. A deposit of \$250 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days. The Superintendent of Construction reserves the right to reject any or all bids.

JAMES H. MOONEY,
Superintendent of Construction,
Department of School Buildings,
26 Norman Street, Boston, Mass.
Capitol 5750.

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

LOT 45, MELBA WAY, HYDE PARK.

The City of Boston will sell at public auction all its right, title and interest in and to about fifty-six hundred (5,600) square feet of land on the westerly side of Melba way, Hyde Park, being lot forty-five (45), C. B. Humphrey plan, dated February 14, 1944, filed with the Land Court (Suffolk Registry District) as plan No. 13486R with Certificate No. 44103, and being bounded and described as follows: Easterly by Melba way, fifty-six (56) feet; northerly by lot 44A as shown on said plan, one hundred (100) feet; westerly by lot two hundred one (201) as shown on said plan, fifty-six (56) feet and southerly by lot forty-six (46), one hundred (100) feet, and more fully described in a tax deed recorded with Suffolk Deeds, Registered Land Division, as Document No. 113950, with Certificate No. 27166.

Time of Sale: Thursday, June 6, 1946, starting at 10 a. m., in the Roslindale Municipal Building, corner of Cummins Highway and Washington street. Minimum price is two hundred and fifty dollars (\$250). A deposit of one hundred dollars (\$100), in cash or certified check, required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

Chairman.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRS AT CALF PASTURE PUMPING STATION AND UNION PARK STREET PUMPING STATION IN BOSTON, MASS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairs at Calf Pasture pumping station and Union Park Street pumping station in Boston, Mass. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairs at Calf Pasture Pumping Station and Union Park Street Pumping Station in Boston, Mass.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, June 10, 1946, with a certified check for two hundred and fifty (250) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR FILLING AND LOAMING AT CARSON STREET PLAYGROUND, DORCHESTER, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for filling and loaming at Carson Street Playground, Dorchester, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Filling and Loaming at Carson Street Playground, Dorchester, Mass.," and left before 2 o'clock on Thursday, June 6, 1946, at the office of the Park Department with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

WILLIAM P. LONG, Chairman,
THEODORE C. HAFENREFFER,
FRANK R. KELLY,

(May 25-June 1.)

Commissioners.

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

LOT 67, HYDE PARK AVENUE, HYDE PARK.

The City of Boston will sell at public auction all its right, title and interest in and to about five thousand (5,000) square feet of land on the northwesterly side of Hyde Park avenue, being lot sixty-seven (67), Whitman & Breck plan, dated September 1, 1881, recorded with Norfolk Deeds, Book 531, page end, and more fully described in a tax deed recorded with Suffolk Deeds in Book 5439, page 543.

Time of Sale: Tuesday, June 4, 1946, at 2.30 p. m., on the premises. Minimum price is two hundred and fifty dollars (\$250). A deposit of one hundred dollars (\$100), in cash or certified check, required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

(May 25-June 1.)

IRVING LEWIS,
Chairman.THE SCHOOL COMMITTEE OF THE
CITY OF BOSTON.ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER, TENTH
FLOOR.PROPOSALS FOR FURNISHING FUEL OIL FOR
BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing fuel oil required for school buildings from June 16, 1946, to December 31, 1946, deliveries to be continued until June 15, 1947, provided appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Fuel Oil for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check for three hundred dollars (\$300) payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, June 10, 1946. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of bids. Fuel oil is to be delivered in the tanks of the several buildings and the price per barrel of heavy or medium oil and the price per gallon of light oil named in the proposal must include the delivery in said tanks in a manner satisfactory to the School Committee. In view of the fact that buildings will be changed from coal to oil as quickly as labor and materials can be furnished it is not possible at this time to estimate the exact quantities to be required between June 16, 1946, and June 15, 1947, for the buildings to be changed from coal to oil. It is necessary therefore, that bidders have this situation in mind. The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond for not less than fifty (50) per cent of the amount of the contract.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 38

SATURDAY, JUNE 1, 1946.

No. 22

FINANCE COMMISSION URGES MAYOR AND CITY COUNCIL TO PROVIDE BOSTON WITH INCINERATION PLANT AS AN IMMEDIATE AND URGENT NEED TO SAVE CITY'S FUNDS, AND PROVIDE UP-TO-DATE MEANS OF DISPOSING OF GARBAGE AND REFUSE — POINTS TO PRESENT EXCESSIVE COSTS, AMOUNTING TO MORE THAN \$1,000,000 ANNUALLY — WARNS OF SCARCITY OF NEAR-BY DUMPS, WHICH SITUATION GREATLY INCREASES COSTS OF TRANSPORTING AND DISPOSING OF REFUSE — CHARGES BECAUSE OF CONTRACTUAL DEMANDS CITY IS POWERLESS TO CONTROL PRICES.

The Finance Commission has addressed the following communication to the Mayor and City Council:

BOSTON, May 24, 1946.

To the Honorable the Mayor and City Council.

The Finance Commission desires once again to try to inspire some official action which will provide a solution of one of the city's most troublesome problems — the collection and disposal of refuse by a method which will be efficient and economical. The problem appears to be no nearer solution now than it has been for many years. Certainly it does not appear that any action in regard to it is in immediate prospect.

Although many other capital improvements have been provided by the insertion in the budget of the 10 per cent down payment, so called — the amount to be raised by taxation of any project to be financed by loan appropriation — there has been no such provision yet made for the construction of an incinerator to consume the city refuse. Inasmuch as the Assessors have practically completed their work of fixing valuations, and the declaration of the tax rate will be made within a few weeks, hope for an early substitution of the incineration method of disposal for the antiquated dump method used in Boston has waned.

During the war years the construction of an incinerator system for disposal of the city refuse was proclaimed to be the No. 1 postwar construction project. Now this project appears to have been abandoned.

Lack Adequate Service.

Nevertheless, the records continue to abound with complaints of the lack of adequate service, with charges of unsavory practices in the making of contracts for collection and disposal of refuse, and with intimations of unwarranted and excessive cost. They abound also with demands by individuals, organizations, and even by officials charged with the duty of operating it, for the adoption of a modern, efficient, and economical method and means of performance.

Regretfully the Finance Commission must state that the situation annually becomes worse, that the cost annually becomes more and more excessive, and that every effort made to obtain improvement of any kind is brushed aside. It is evident that administrations, one after another, prefer to keep this activity within the political patronage field rather than provide a system which will make the service reliable and less costly.

Besides being a service upon which the health of the community, in large part, depends and which has great importance in maintaining a clean city appearance, the cost of collection and disposal of refuse is a big item in the list which adds up to Boston's almost prohibitive tax rate, \$42.50. The total cost of it today to people living or doing business in Boston is at the rate of approximately \$3,000,000 a year. Yet the opinion seems well founded that this cost is excessive to the extent of over \$1,000,000.

There has been little permanent change in the situation with respect to method and facilities in more than half a century. On the other hand, each year brings its own increase in its cost, and these increases have been unavoidable only because of the unwillingness to install an efficient modern method.

Contractors Benefit.

As the only benefit from the present arrangement accrues to a limited number of contractors with whom the city deals in this matter, and as this benefit is substantial and constantly increasing, as will be shown in this report, it is high time that the city administration put a stop to thus favoring a small and powerful group at the expense of the city, and face the situation squarely by introducing efficiency and economy in the operation of this important service. Among these particular refuse contractors there is always the threat hanging over them all that if one attempts individual action another will break his hold on a district by offering a lower price for the contract. As a result competition is stifled.

(Continued on page 660.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

CITY RECORD.

STREET AGENCIES.

Old South News Stand, Old South entrance to subway. Also News Stand, first floor, City Hall Annex.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, June 3, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Haymarket Square, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughterhouses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE ELECTRICAL INSPECTION DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For week ending May 25, 1946.

Population as of July, 1943, Massachusetts State Census, 817,713; population estimated July, 1946, United States Census Bureau, 766,386; number of deaths (stillbirths excluded): Residents, 166; nonresidents, 41; total, 207.

Death rate per 1,000 of population: All deaths, 14.04; nonresidents deducted, 11.26.

Death rate per 1,000 of population:

Last week, 13.91; corresponding week last year, 15.29.

Deaths by age periods, sex, etc.: Under one year, 18; one year to four years, inclusive, 2; sixty years and over, 118. Total deaths: Male, 120; female, 87; deaths in hospitals and institutions, 144.

MAYOR CURLEY PLANS \$400 A YEAR INCREASE IN PAY FOR CITY EMPLOYEES TO START JANUARY 1, 1947 — MAKES ANNOUNCEMENT AFTER CONFERENCE WITH REPRESENTATIVES OF TWENTY-ONE LOCALS OF MUNICIPAL EMPLOYEES — HOPES TO ACCOMPLISH THIS BY EFFECTING ECONOMIES AND SAVINGS DURING BALANCE OF YEAR — ALSO HOPES FOR LEGISLATION THAT WILL PROVIDE ADDITIONAL SOURCES OF REVENUE TO HELP PUT PLANS INTO EFFECT.

At a luncheon meeting held with representatives of 21 locals representing various groups of city employees (American Federation of State, County and Municipal Employees, AFL), his Honor the Mayor received and gave consideration to a wage and salary report which proposed that all city employees who have not received the equivalent of a \$400 increase in compensation since January 1, 1942, be granted individual increases necessary to bring their pay increase to the figure of \$400. The report contained a proviso that any increase in salary since January 1, 1942, such as a step-rate increase, promotional grade increase or adjustment of salary by change of rating, would not be considered as a part of the \$400 amount.

In the financing of this proposal, it was contemplated that the present E. C. A. allowances would be utilized. In discussing the proposal with the committee, his Honor the Mayor expressed the opinion that the immediate adoption of the proposal was impossible in the light of the financial condition of the city but expressed the belief that, by effecting economies and savings during the balance of the current year, it was his opinion that provision could be made to adopt the proposal as of January 1, 1947. The Mayor further stated that, provided the Legislature would agree to the enactment of legislation providing immediately additional sources of revenue to the city, he would be inclined to not only advance the effective date of putting the proposal into operation but would also give consideration to adjustments to make salaries of city employees in the lower brackets equal to salaries and wages of state employees doing similar work.

He discussed with the committee specific proposals such as a \$5 increase in the corporate excise tax, a 5 per cent tax on admission to all forms of amusement and the pending proposal now under consideration by the Ways and Means Committee to modify the present state income tax so as to retain within the Commonwealth a substantial portion of similar taxes paid to the Federal Government.

The members of the committee expressed a willingness to support such programs before the Legislature and to enlist the aid of all organized labor.

The following were present at the conference: John J. Doherty, Chairman of the Wage Committee; Coleman Gorham, Joseph Lydon, William Bibbey and Frank Morse, members of the Wage Committee; Col. A. E. Carey, International Union Counsel; William V. Ward, International Vice-President;

John Leonard, President of Boston Council; Thomas Bowe, President, Massachusetts State Federation of Labor; Harry P. Grages, Boston Central Labor Union; Charles J. Fox, City Auditor; Robert P. Curley, Commissioner of Public Works, and William P. Long, Park Commissioner.

MAYOR ORGANIZES COMMITTEE TO PLAN FOR ANY FUEL EMERGENCY THAT MIGHT ARISE.

An Emergency Committee was organized on May 24 at the office of the Mayor at City Hall, Boston, consisting of Col. John J. Mahoney, Building Commissioner, Chairman; General William I. Rose, Superintendent of the Supply Department; Col. Maxwell B. Grossman, Penal Institutions Commissioner; Col. David J. Brickley, Soldiers' Relief Commissioner; Dr. Charles F. Wilinsky, Deputy Health Commissioner; Col. Thomas F. Sullivan, Boston Police Commissioner, and Daniel J. Donovan, City Collector, and cooperating with this committee all department heads of the city.

A check-up was made with reference to fuel and we find that all departments of the city have a sufficient supply of oil and fuel to last for at least sixty days and in some cases, longer. The City Hospital reports that they have sufficient medical supplies to take care of their requirements for at least three months and sufficient food supplies, other than perishable, to last a month.

The Committee has arranged to contact various major food supply houses and also the four storage plants in the city with a view to making provision to secure sufficient supplies to last from thirty to sixty days. The committee has likewise arranged to contact the War Department and the First Service Command with a view to securing sufficient trucks in addition to trucks that might be furnished by the Public Works Department and Park Department to bring in milk supplies from Northern New York, Canada, Vermont and New Hampshire. In conjunction with the milk distribution, arrangements have been made to secure a sufficient supply of condensed, evaporated and powdered milk to take care of the requirements for the next thirty to sixty days.

It was the judgment of the committee that the strike might not last more than seventy-two hours, but it was deemed advisable to take all emergency measures in the event that it lasted longer. The committee does not believe that there

is any occasion for too great uneasiness on the part of the public which might result in a panic and are hopeful that the strike will be settled within the next seventy-two hours. In the event that it continues for a longer period, the committee organized has made preparations to take care of the needs of the people.

Dr. Charles F. Wilinsky, Deputy Health Commissioner, is prepared to organize the Health Units which are located in the most congested and poorer sections of the city, and arrange for the sale of milk and food, if the necessity should arise. The committee is to meet this afternoon at four and in the meantime are taking the necessary steps to take care of the needs of the people.

OUTSIDE STATIONS OPEN FOR PAYMENT OF TAX BILLS.

The Mayor has received the following letter:

BOSTON, May 22, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—For the convenience of the taxpaying public, extra stations for the payment of poll and other taxes, and water bills, will be opened at the following locations, between the hours of 10 a. m. and 2 p. m., during the period stated:

June 4, 5, 1946.

Curtis Hall, South street, Jamaica Plain.

Municipal Building, East Broadway, South Boston.

Town Hall, Washington street, Brighton.

Municipal Building, Vine street, Roxbury.

June 11, 12, 1946.

Court House, Roxbury street, Roxbury.

Municipal Building, Columbia road, Dorchester.

Codman Square Library, Codman Square, Dorchester.

Court House, City square, Charlestown.

June 18, 19, 1946.

Police Station 11, Adams and Arcadia streets, Dorchester.

Municipal Building, River street, Hyde Park.

Municipal Building, Roslindale square, Roslindale.

Court House, Meridian street, East Boston.

Respectfully yours,

DANIEL F. DONOVAN,
City Collector.

CIRCULAR LETTER NO. 10.

CITY OF BOSTON,

MAYOR'S OFFICE, May 17, 1946.

To Heads of Departments.

Beginning June 15 and continuing until September 14, 1946, you are hereby authorized to maintain a so-called skeleton force of employees in your several departments on Saturdays within the period referred to above.

In view of the fact that there is no authority for the cessation of municipal activities on Saturdays, department officials will make certain that sufficient employees are on duty on Saturdays to properly conduct the business of the city.

The authority herein given to department heads is predicated on the assumption that the operation of a skeleton force on Saturdays will not impair the service to which the public is entitled.

Respectfully,

JAMES M. CURLEY, Mayor.

CIRCULAR LETTER NO. 11.

CITY OF BOSTON,
MAYOR'S OFFICE, May 22, 1946.

To the Heads of City Departments.

GENTLEMEN,—In the preparation of the 1946 budget, department requests for permanent equipment were disallowed, my purpose being to provide the same through loan expenditures.

Upon my recommendation, the City Council authorized a loan of \$1,500,000 for Departmental Equipment which is now available for purchases.

All purchases, exclusive of those of the Police Department and the Library Department, are to be made by requisitions through the Supply Department and charged to the Departmental Equipment Loan; invoices for payment are to be approved by the respective department heads on loan requisitions to be forwarded to the City Auditor. Any amounts in excess of the allowances contained in the following schedules must be requested in writing and shall be effective when approved by the Budget Commissioner and Mayor.

The following amounts for the purpose herein stated are allowed and approved.

Respectfully,

JAMES M. CURLEY, Mayor.

CHELSEA BRIDGE TO REMAIN CLOSED UNTIL DREDGING ENDS.

It was announced on May 24 by Public Works Commissioner Robert P. Curley that because of additional dredging which must be done for the United States Government and which could not be

foreseen when the original plans were made, it will be necessary to continue in effect the closing of the Chelsea Street Bridge to vehicular and pedestrian use, daily, from 12.01 a. m. to 6 a. m., to and including Friday morning, May 31.

Suitable signs indicating that the bridge is not in use for traffic will be placed at the approaches, the commissioner added.

DIRECT AIR LINE SERVICE TO MEXICO FROM BOSTON STARTS.

His Honor the Mayor was, on May 23, in receipt of the following telegram from Eddie Rickenbacker, President and General Manager of Eastern Air Lines:

HON. JAMES M. CURLEY,
Mayor of Boston.

Under authorization granted by the Civil Aeronautics Board yesterday, Eastern Air Lines, Inc., will immediately inaugurate direct passenger, mail and express air service between your city and Mexico City across the gulf and between your city and San Juan, Puerto Rico. We are keenly disappointed that we were not authorized to establish for your city our proposed direct service to Havana, Kingston, Baranquilla and the Canal Zone. Please so advise your local Chamber of Commerce and your local press.

EDDIE RICKENBACKER,
President and General Manager.

FINANCE COMMISSION URGES MAYOR AND CITY COUNCIL TO PROVIDE CITY WITH INCINERATION PLANT.

(Continued from page 667.)

NUMBER INVOLVED IN REFUSE COLLECTION IN BOSTON.

In no other city is there, proportionately, such a multitude of men and methods involved in the collection and disposal of refuse. Besides regularly employed city men who collect in the North End, the West End, Beacon Hill, the central business district, part of the South End and part of Roxbury, there are nine private firms collecting in other districts under city contract. A tenth firm has a contract for disposal of the collections in the central area. For more than thirty years there was a stipulation in the latter contract that garbage must be separated from other refuse and consumed by the reduction process at Spectacle Island, but now disposal is permitted by dumping all refuse, garbage as well as general rubbish, on city-owned land on Spectacle Island. In the other areas, it was the intention of the contracts when executed that the operating contractor must find his own dump for general rubbish. Separate collection of garbage was required, and disposal of garbage, other than by dumping, was permitted as the contractor could arrange for it. Most of them sold it to farmers for feeding pigs. Nevertheless, in some areas, the city is now being forced to assume the obligation of providing dumping places for the rubbish, while the contractors retain the lucrative disposal of garbage.

Moreover, in addition to public collection, there are a large number of private firms selling collection service to commercial establishments. These establishments, by city regulation, must pay for disposal of refuse, in contrast to free collection from residences. The volume of this private business has become substantial because the prices charged by private contractors are much less than the cost by use of the city's ticket system. At present, in addition to the collection by city employees and by city contract, 84 permits for garbage collection and 47 for general refuse collection are held by private contractors. Hence, from a financial standpoint, the city gives up to pri-

vate contractors the only part of the service from which a revenue can be derived.

EXPENSE TO TAXPAYER.

The only conclusion which may be drawn from this situation is that the motive is to provide that the greatest possible number may profit from this work at the expense of the taxpayer. Efficiency in the system and economy hold no place in the picture.

EFFORTS TO IMPROVE THE SITUATION.

A few years ago the Finance Commission made an exhaustive study of the situation. It has continued to keep track of developments since. One administration was induced to give up city collection in some districts and substitute collection by contract. City collection cost was then estimated to be three times as much as contract collection might be.

Subsequent developments proved the estimate correct. In Charlestown, where city collection cost was about \$65,000, the low bidder in advertised competition obtained a contract to do the work for \$17,000. It was the consensus of official and Charlestown opinion that the contractor did a better job. South Boston collection was given to a contractor who bid about \$26,000, whereas it had been costing the city around \$85,000. Again it was the general opinion that the service was better. The administration in office at the time thereupon extended contract collection to other districts.

However, the cost benefit in contract collection did not last long. New conditions speedily developed under which the city lost the advantage. A group of contractors, one to each district, obtained control of the only dumps available. There was then only one dump to each contractor. This meant that the contractor who had the dump had the advantage over all others who might want to enter competition for the contract. If the city advertised for bids there would be no real competition because only one bidder would have a place for disposal.

In this situation of no advertised competition the city had to take the price of the one contractor who was thus entrenched. To revert to collection by city employees had its drawback because the city owned no mainland dumps, and without them the only recourse would be to truck the collections from all parts of the city to a couple of city-owned wharves, at which another contractor provides disposal by hauling the refuse to Spectacle Island. The cost of hauling from all over the city to these wharves and the difficulties of trucking through the city were considered insurmountable obstacles.

PRICES MOUNT UP.

With the coming of war and consequent labor and equipment shortages, prices for collection and disposal began to go up all around. For a time charges increased moderately; but, as the war situation developed, demands by the contractors for increased allowances became less moderate. Now the city is powerless to control prices unless the incineration system is provided.

If the city owned a few incinerators properly located, disposal by incineration would reduce the contract work merely to collection. Collection, without disposal other than to an incinerator only requires manpower and trucks to pick up the refuse and tote it to the

incinerators. A large number of contractors would quite probably make competition for the work on this limited basis. This would release the grip which the few now have on it.

The construction of one big incinerator adjacent to the City Hospital where it might pay for its operation by supplying heat, light, and power to the City Hospital and the Public Works Department shops was proposed by the Finance Commission. Naturally the erection of three to five more small incinerators properly located would take care of the collections in the remainder of the city.

One recent administration retained a leading engineering firm to investigate this idea. Its report confirmed the view of the Finance Commission that not only would incineration be cleaner and healthier, but cheaper.

In February, 1945, the administration in office made a gesture toward incineration by providing an appropriation of \$30,000 for plans and letting a contract to a designing engineer to work out detailed plans for an incinerator on city-owned land on Albany street. After this contract was executed, the engineer was forced to change his plans because some official objection was raised to the Albany Street site. He went ahead with the new idea of locating the incinerator on Southampton street. Nine months later, after the engineer had been paid \$24,080, a new Public Works Commissioner, the third to hold office while this matter of incineration was being worked out, claimed a serious flaw in the performance of the engineer's contract and refused to accept the plans.

The difficulty in the latter situation arises over two specifications in the engineer's contract. The possibility of a difference in interpretation of them may have more significance than appears on the surface. One required a plan for an incinerator which will dispose of "200 tons of refuse per day." The Commissioner who let the contract interpreted this specification to mean an incinerator which could consume 200 tons in an 8-hour day. The plans were drawn to provide an incinerator which will consume from 450 to 600 tons in a 24-hour day.

A new Commissioner, however, interprets "the day" as specified to mean 200 tons in a 24-hour period. Whatever the merits of the present Public Works Commissioner's decision on this feature of the plans, erecting an incinerator on Albany street or Southampton street which can consume only 200 tons in a 24-hour day is wasting an opportunity to make a substantial saving in providing heat, light and power at the City Hospital.

The second point in dispute relates to the cost of the incinerator planned. The contract stipulated that in the payment for plans \$700,000 would be considered as the maximum cost of the proposed incinerator until bid prices determined otherwise. However, to carry out the plans as drawn by the designing engineer, his estimate is that it will cost about \$1,500,000. He contends that the \$700,000 figure was intended merely to be a control in the cost of plans, and that his plans as drawn for a \$1,500,000 incinerator had the authority of the former Commissioner who let the contract. This dispute has continued since last December without any perceptible hope of solution.

If the contentions of the present Commissioner are correct, that he cannot accept the plans which have been drawn because they will provide an incinerator of 450 to 600 tons capacity for a 24-hour

day and will cost more than \$700,000, it means that the city now has no plans and that the \$24,080 already paid to the engineer is wasted. Therefore, what was intended to be the No. 1 postwar project, a big incinerator which would conceivably save the city hundreds of thousands of dollars, thus appears to be definitely sidetracked.

It may be significant in this situation that the contractor who has had a monopoly for twenty-five years for disposal of refuse from the central area at Spectacle Island is now renewing his equipment, though his present contract expires on December 31, 1946. Apparently he is not anticipating that his lucrative business with the city is soon to come to an end.

COST OF COLLECTION BY CONTRACTORS.

An examination of the cost of contract collection in the last five years reveals an increase which is out of all proportion to the current rise in general labor prices. The following figures show how this cost has advanced in that period:

COLLECTION CONTRACT PAYMENTS.

YEAR.	Expenditure.	Increase Over Previous Year.	Per Cent of Increase Over 1941.
1941.....	\$415,248		
1942†.....	580,688	\$165,420	39.8%
1943‡.....	996,935	416,267	140.0%
1944.....	1,096,280	99,345	164.0%
1945.....	1,233,122	136,842	196.9%
1946.....	*1,291,440	*58,318	211.0%

* Estimated—based on January 1, 1946, contract prices.

† 1942—1 district added at cost of \$2,380 per month—\$28,560 per year.

‡ 1943—2 districts added at cost of \$9,725 per month—\$116,700 per year.

The cost by districts for collection is shown in the table on next page:

The Finance Commission believes that the present charges of the contractors in these districts are excessive. That has naturally followed the practice in recent years to award the contracts in negotiation proceedings rather than to follow the standard method of seeking public competition. It has failed to keep charges at reasonable figures. The negotiations have come to consist of merely listening to a statement from each contractor as to what he wants and then deciding to give him what he wants. What his costs are, which is something the city has the right to know, the city apparently does not bother to find out.

THE DISPOSAL CONTRACT.

One company has held the contract for the disposal of refuse collected in the central area for twenty-five years. After it once became established, it had no competition. The executive of this disposal company is the executive head of another firm which holds the collection contract in the largest district of the city. This second firm also engages in general contracting and has had numerous city contracts.

The cost of the central area disposal has risen from the rate of \$265,000 in 1943 to \$414,000 in 1946 (the award price) an increase of 56.2 per cent.

The contract with the disposal company was on a 10-year basis from 1922 to 1942, but since 1943 has been for a year at a

Total.....	\$415,260	\$580,668	\$996,979	\$1,006,680	\$1,204,332	\$1,291,440	

* Three months' contract expires March 31, 1946.

† The 1944 contracts provide for extra payment for increase in wages not included in these figures. The increases added approximately 10 per cent to the contract price as given in each case.

time. When the 10-year contract practice was abandoned the reason given was that it was the intention to erect an incinerator and dispose of the refuse by incineration. Incidentally, a 10-year contract must have City Council approval under the Boston Charter, but a yearly contract may be made by the Mayor and Public Works Commissioner without Council approval.

In yielding to the price demands of the contractor in the recent awards of this contract, the Public Works officials have accepted without question the contractor's statement of costs. The Finance Commission has analyzed these reputed costs and is of the opinion that some of them do not fairly apply to this contract and others warrant no consideration by the city in determination of a fair price. For example, there is an item for depreciation and another for replacement on a plant now obsolete and no longer in use, allowances for taxes not being paid, and for office and advertising expense seemingly not properly chargeable to this contract. Furthermore, it is the opinion of the Commission that the work intended by the contract can be performed by the city itself, even if the same method is continued, for \$200,000 less per year than the contractor charges. The city owns the principal area used for dumping, and there is now no separation of garbage from other refuse.

The detail on which the Finance Commission bases this contention is as follows:

Present cost of disposal under contract method.....	\$414,000
Operating cost by city under same method.....	275,293
	\$138,707
Income from service and salvage,	61,563
	\$200,270

Therefore, if the present method of disposal at Spectacle Island is to be continued, the city should take over the work of disposal, and the difference in cost, under proper management, could

be cut in halves. In one year the saving will provide for all the equipment necessary and leave a very substantial margin as well. Until incineration is provided, it is unconscionable to continue the unwarranted expense in the present arrangement.

INCINERATOR PLAN.

Moreover, the Finance Commission is still of the opinion that the best solution of this irritating situation is to adopt the incineration plan. It should be the cheapest in the long run and is the least objectionable method of disposal. In the increasing scarcity of dumps and the unwillingness of one community after another to allow the use of vacant and waste land for dumping purposes, it is only a question of a short time when there will be no other method of disposal left to the city.

Recent happenings in the Brighton district are an indication of what is likely to happen soon all over the city. The Brighton contractor used a Watertown dump for many years. Recently he was deprived of the use of this dump location. The Public Works Commissioner tried, in turn, to obtain two other dumping sites in Brighton and one in West Roxbury. In each instance the force of local public opinion blocked the venture. Now arrangements are being made to have the contractor truck his loads of refuse to Albany street in the South End where he will dump into scows. This arrangement will require the city to increase his price from \$10,000 per month to \$17,000 per month. In fact, this contractor is now receiving an increase amounting to a rate of \$84,000 per year to cart his collections temporarily to city-owned land in Dorchester. In addition, the city will have to increase the contract price of the disposal contractor because of the extra haulage by him to Spectacle Island.

This situation may soon be repeated in other districts. It saves the contractor expense of maintaining and operating dumps and gets him a larger return for his truck equipment.

From the foregoing it may be seen that the city is in a vicious situation in

respect to this particular service. Yet it can not be abandoned as could some other less needed services. It can, however, be intelligently and scientifically provided. From the taxpayers' standpoint there is neither intelligence nor science in the present arrangement of it, and the cost has become almost prohibitive.

The immediate duty of the Public Works Department and the Mayor is to straighten out the tangle in regard to the contract for plans for an incinerator. The next step then is to erect the requisite number of incinerators and, once and for all, get the city out of the grip of a few political contractors. Such a use of the city's borrowing capacity has as much merit as any of the projects now being provided for and more than some of them.

Respectfully submitted,

EDWARD F. MULLEN, *Chairman*,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK DEANE,
The Finance Commission.

ROBERT E. CUNIFF,
Secretary.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

ASSESSING DEPARTMENT.

Permission has been given to continue the employment of Kathryn M. Daly, 62 Winthrop street, Winthrop, as temporary clerk at \$4 a day plus \$200 a year E. C. A.

Permission has been given to continue the employment of the following temporary personnel for a period of thirty days:

Helen Denehy, 183 Chelsea street, Charlestown, typist-clerk, \$4 a day; Christina Greene, 44 Hollander street, Roxbury, clerk, Remington-Rand billing machine operator, \$4 a day; Charles McConnell, 19 Myrtle street, Boston, temporary clerk, \$5 a day; Margaret G. McNally, 38 Rutland square, Boston, Mary Curran, 183 Centre street, Dor-

PUBLIC WORKS DEPARTMENT.

Paving Service.

Approval has been given for the emergency employment of the following as auto mechanics at \$6.50 a day, for a period of thirty days, effective from May 6, 1946, pending action on requisition which has been made for four temporary auto mechanics to fill temporary vacancies in the city garage, caused by absence of employees on sick leave, etc.:

Allan Zeeman, 9 Egremont road, Brighton; Michael Ferris, 672 Tremont street, Boston; Alphonse Simon, 672 Tremont street, Boston.

Sanitary Service.

Approval has been given for the assignment of the following who have been appointed as constables at \$1,600 a year plus \$200 E. C. A., effective May 1:

Charles A. Cantwell, 4 Violante street, Mattapan; Joseph L. Coffey, 451 Meridian street, East Boston; Jeremiah A. Daley, 14 Concord street, Charlestown; Sabine D'Also, 115 Princeton street, East Boston; Owen P. Flynn, 5 Sterling square, South Boston; Daniel E. Hurley, 61 Magazine street, Roxbury; Leo E. Hynes, 43 Nonantum street, Brighton; Carl H. Kohlus, 1463 Centre street, Roslindale; Joseph A. Locke, 133 Thornton street, Roxbury; Leo P. Marshall, 4 Dudley place, Roxbury; James J. Murphy, 7 Myrtle place, Roxbury; Edward H. Nelligan, 1721 Commonwealth avenue, Brighton; John F. O'Brien, 1156 Commonwealth avenue, Allston; Timothy F. Scannell, 272 West Third street, South Boston; Louis Taylor, 38 Intervale street, Roxbury; John W. Toole, 34 Rodman street, Jamaica Plain; Frank A. Winnett, 296 Bunker Hill street, Charlestown.

Sewer Service.

Approval has been given for the temporary transfer of the following employees from firemen, first class, at \$41.50 a week plus \$200 a year E. C. A. to steam engineers at \$48 a week plus \$200 a year E. C. A. for a period of six months, effective from May 22, 1946, to fill vacancies caused by the promotion of Edward Harrington to chief engineer and the retirement of John Mahoney.

Peter A. Merrigan, 151 Draper street, Dorchester; Hubert McKiernan, 26 Winship street, Brighton.

Water Service.

Approval has been given for the change in rating of the following employees from permanent-intermittent to permanent full-time meter readers at \$1,800 a year plus \$200 E. C. A., to fill existing vacancies in the budget, effective May 22, 1946:

John Kelley, 5 Pond street, Jamaica Plain; Anthony C. Calabro, 493 Ashmont street, Dorchester.

Approval has been given for the assignment of the following who have been appointed as constables at \$1,600 a year plus \$200 E. C. A., effective May 1:

Cornelius T. Fitzpatrick, 17 King street, Dorchester; Murray Harris, 11 Kingsdale street, Dorchester; Joel T. Izzo, 60 Leverett street, Boston; Antonio Mele, 40 Staniford street, Boston; John F. Quinlan, 173 Beech street, Roslindale; Peter Salem, 53 Oak street, Boston; Frederick Sullivan, 36 Raven street, Dorchester.

SOLDIERS' RELIEF DEPARTMENT.

Permission has been given to amend the budget of the Soldiers' Relief Department, Item A-1, Personal Service, insofar

WIRE INSTALLATION PERMITS ISSUED FOR THE WEEK ENDING
MAY 25, 1946.—Concluded.

Paul Bilezikian.....	98 Boylston street, City.....	Motor.....	1.25

as the position, clerk and assistant paymaster, 2 at \$1,900, is concerned. I recommend that this position be changed to:

Paymaster, 1 at \$1,900 a year.

Clerk and assistant paymaster, 1 at \$1,900 a year.

There has been no rating of paymaster since July 1, 1942, when the previous incumbent was retired due to age. This proposed change should have been performed at that time but was not.

Mary Morante, clerk and assistant paymaster at \$1,900 a year, should be granted this position. For the present, no increase in salary is requested. Miss Morante has been an employee of this department since August 26, 1918, and has held the position of clerk and assistant paymaster since June 1, 1930. She is a capable and conscientious employee and has been most faithful in the performance of her duties.

Permission has been given to grant an increase in salary from \$1,800 a year plus \$200 E. C. A. to \$2,100 a year plus \$200 E. C. A. to Elizabeth M. Duffy, 799 East Fourth street, South Boston, settlement clerk and stenographer.

WEIGHTS AND MEASURES DEPARTMENT.

Approval has been given for the reinstatement of Deputy Sealer Willard F. O'Brien, 5 Orchard street, Jamaica Plain, at \$2,200 a year plus \$200 E. C. A.

The Mayor has approved the following appointments:

BUILDING DEPARTMENT.

Dominic T. Cardillo, 22 Chelsea street, East Boston, gas fitting inspector, \$2,200 a year plus \$200 E. C. A.

John H. Glover, 80 Johnswood road, clerk of department, \$3,000 a year (pension deduction, \$1,284, estimated, department amount, \$1,716).

COLLECTING DEPARTMENT.

Harry A. Higgins, 10 Orkney road, Brighton, clerk (military substitute), \$1,300 a year plus \$200 E. C. A.

Margaret W. Campbell, 7 Lexington street, Charlestown, Remington-Rand key punch operator, \$1,400 a year plus \$200 E. C. A.

FIRE DEPARTMENT.

Edward Thomas, 64 Queensberry street, battery maker, \$6.50 a day plus \$200 E. C. A.

HEALTH DEPARTMENT.

Thomas A. Scanlan, 25 Howes street, Dorchester, junior clerk-typist, \$1,200 a year, inclusive of E. C. A.

HOSPITAL DEPARTMENT.

John A. Volini, 344 Harrison avenue, Boston, electrician, \$42 a week plus \$200 a year E. C. A.

Marguerite L. Farrell, 12 Worcester square, City, X-ray technician, \$34 a week plus \$200 a year E. C. A.

Constance T. Matarese, 2 Forest place, Charlestown, X-ray technician, \$34 a week plus \$200 a year E. C. A.

Leonora H. Lopez, 28 Gaston street, Roxbury, medical social worker, \$1,500 a year.

Elizabeth Johnson, 127 Harrishof street, Roxbury, medical social worker, \$1,500 a year.

INSTITUTIONS DEPARTMENT.

Joseph E. Noonan, 212 L street, South Boston, deckhand (temporary), \$1,800 a year plus \$200 E. C. A.

Stanley Lenciewicz, 314 East Eighth street, South Boston, fireman, \$33.50 a week plus \$200 a year E. C. A.

LAW DEPARTMENT.

Dominic Agrippino, 17 Fleet street, Boston, assistant corporation counsel, \$4,000 a year plus \$200 E. C. A.

OVERSEERS OF PUBLIC WELFARE.

Mary E. Martin, 40 Lindsey street, Dorchester, provisional clerk typist, \$1,000 a year plus \$200 E. C. A.

Thomas Ryan, 9 Lonsdale street, Dorchester, social worker, \$1,800 a year plus \$200 E. C. A.

Katherine Healey, 70 Glendale street, Dorchester, senior bookkeeper, \$1,800 a year plus \$200 E. C. A.

PARK DEPARTMENT.

Henry Fusco, 33 Eastern avenue, Hyde Park, physical instructor, \$5.50 a day plus \$200 a year E. C. A.

PENAL INSTITUTIONS DEPARTMENT.

Edward Gormley, 834 Huntington avenue, Boston, officer, \$1,600 a year and maintenance plus \$200 E. C. A.

William F. Pierce, 78 Ferrin street, Charlestown, officer, \$1,600 a year and maintenance plus \$200 E. C. A.

Louis Sacco, 353 Charles street, Boston, assistant foreman herdsman, \$2,000 a year and maintenance plus \$200 E. C. A.

(Continued on page 668.)

Increase from \$2,400 to \$2,500 a year.
William A. Crane.

Division 10.

Increase from \$2,400 to \$2,500 a year.
Donald A. MacMillan.

Division 18.

Increase from \$2,200 to \$2,400 a year.
Sidney N. Wolf.

Superintendent's Office.

Increase from \$2,400 to \$2,500 a year.
Lester J. Brennan, John B. Morris, John J. McCarthy, Lawrence M. O'Keefe, Charles M. Flavin, Richard D. Chausse, Charles W. Cleary, Leo M. Miller, Francis P. Ryan, Robert A. Foley.

Increase from \$2,200 to \$2,400 a year.
Clifford P. Delamere, Joseph Spear, William G. Connelly, Harry A. F. Mawhinney, John F. McDonough, Timothy C. Allen, James J. Kelly.

Increase from \$2,000 to \$2,200 a year.
Richard F. Laughlin, John J. McAuliffe, Richard M. White, John J. Hunt, Harold A. Stelfox.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

The following step-rate increase in salary of \$100 a year has been approved: Francis J. Scanlon, district foreman, from \$2,700 to \$2,800 a year.

SUFFOLK COUNTY.

EAST BOSTON DISTRICT COURT.

The following employees will be eligible for sliding scale increases on various dates: John Ligotti, first assistant clerk, from \$2,600 to \$2,700.

Charlotte R. Schleicher, clerical assistant, from \$1,000 to \$1,100.

Margaret H. Wilson, clerical assistant, from \$1,000 to \$1,100.

MEDICAL EXAMINER (Southern Division).

The following sliding scale increases in the salaries of members of the staff of the Medical Examiner Department, Southern Division, County of Suffolk, have been approved:

Mary R. Sullivan, senior clerk, \$2,100 to \$2,200.

Priscilla A. Pratt, senior clerk, \$1,400 to \$1,500.

OVERTIME ALLOWED.

The heads of the various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Institutions Department.

Authority has been given to pay to the following city employees overtime for services rendered in bringing the steamer "James Michael Curley" from Prawl's Island to Boston, April 30 to May 5, said amount to be charged to Institutions Boat, Purchase, Alterations, etc.:

Capt. Rufus J. Clark, steamer "Michael J. Perkins," \$25; Frederick E. Steele, engineer, steamer "Michael J. Perkins," \$50; Roland Audette, steward, Long Island Hospital, \$25.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

HOSPITAL DEPARTMENT.

Upon May 8 the Mayor approved a contract with the Builders Iron Works for rewiring and repairs to porch screens and grilles for Surgical Building, Boston City Hospital. Bids, opened Wednesday, April 3, were as follows:

Builders Iron Works, \$7,700; The Burrows Corporation, \$7,650.

PARK DEPARTMENT.

Upon May 9 the Mayor approved a contract as indicated in the following letter:

BOSTON, April 29, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—On April 25, 1946, bids were publicly opened and read for the repairs to field house, bleachers and shelter at John J. Connolly Playground, Roxbury. The bids received were as follows:

P. J. Cantwell & Son, \$24,264; M. Solimando, \$24,825; Rossano Construction Company, Inc., \$25,341; Sciaba Company, \$26,400; J. F. Stack & Co.,

\$26,588.70; Patrick J. Sullivan, \$26,993; R. A. Buccella & Sons, \$29,125.

All of these contractors included a price for gunite work. Item 2c of the specifications, in an amount of \$17,340. As only one sub-bid on gunite work was received, and in our opinion the price is not reasonable for acceptance without competition, in accordance with provisions of the Acts of 1939, chapter 480, as amended, we have rejected such gunite bid. The bids received with the gunite sub-bid omitted are as follows:

P. J. Cantwell & Son, \$6,924; M. Solimando, \$7,485; Rossano Construction Company, Inc., \$8,001; Sciaba Company, \$8,060; J. F. Stack & Co., \$8,248.70; Patrick J. Sullivan, \$8,653; R. A. Buccella & Sons, \$11,785.

I respectfully request permission of your Honor to award a contract for repairs to field house, bleachers and shelter at John J. Connolly Playground, Roxbury, exclusive of gunite work, Item 2e, to P. J. Cantwell & Son, 644 East Fourth street, South Boston, in the amount of \$6,924, same to be charged to the special appropriation, Park and Playground Improvements, etc., Revenue.

Respectfully,

WILLIAM P. LONG, *Chairman.*

PUBLIC WORKS DEPARTMENT.

Upon May 13 the Mayor approved a contract with F. Susi & DeSantis Company, the lowest bidder, for sewerage works in alleys Nos. 918 and 919, Roxbury, between Newbury street and alley No. 917, at an estimated cost of \$1,685.48. The work contemplated in the contract is to be completed within ninety days after the contract is approved by the Mayor. The following bids were received April 23:

F. Susi & DiSantis Company, \$1,685.48; J. D'Amico, \$2,934; Baker & Co., \$3,180; M. J. Kelly Company, Inc., \$3,156.58; R. A. Buccella & Sons, \$3,564.60; Edward M. Matz, Inc., \$3,650.

Upon May 13 the Mayor approved a contract with F. Susi & DiSantis Company, the lowest bidder, for laying water pipes in Neillian Crescent, Pond and Alder streets, West Roxbury, and Rosewood road, Hyde Park, at an estimated cost of \$2,657.50. The work contemplated in the contract is to be completed on or before June 29, 1946. The following bids were received April 25:

F. Susi & DiSantis Company, \$2,657.50; J. Justino, \$3,035; Baker & Co., \$3,146; R. A. Buccella & Sons, \$3,341.95; Edward M. Matz, Inc., \$3,375; C. Russo, Inc., \$3,427.50; Williams Brothers, \$3,930; Roxbury Concrete Construction Company, \$4,315; Charles Struzziery Company, \$4,345.

Upon May 13 the Mayor approved a contract with R. Zoppo, the lowest bidder, for cleaning deposit sewers at the Calf Pasture pumping station, at an estimated cost of \$15,000. The work must be started within one week after the approval of the contract by the Mayor and must be completed within thirty days thereafter. The following bids were received April 29:

R. Zoppo, \$15,000; M. J. Kelly Company, Inc., \$17,960; Marinucci Brothers & Co., \$18,000; James A. Freaney, \$25,800; Gaffney Construction and Engineering Company, \$30,600.

Upon May 13 the Mayor approved a contract with Bradford Weston, Inc., the lowest bidder, for repairing embank-

ment and sea wall of Moon Island Causeway, Quincy, at an estimated cost of \$7,810. The work to be done under this contract shall be completed within ninety days after the contract is approved by the Mayor. The following bids were received April 10:

Bradford Weston, Inc., \$7,810; Rufo Construction Company, Inc., \$8,370; Speedway Contracting Company, \$8,412; F. P. Lane Company, \$10,720; Marinucci Brothers & Co., \$13,520.

SCHOOL COMMITTEE.

The School Committee has approved proposals for furnishing scissors and shears for Boston public schools. Bids, opened Friday, March 29, were received from the following firms:

E. E. Babb & Co., Inc., Gledhill Brothers, Inc., J. L. Hammett Company.

Award was made to the lowest responsible bidder in accordance with specifications and standards and contract executed as follows:

May 14, 1946, E. E. Babb & Co., Inc., \$1,276.02.

SUPPLY DEPARTMENT.

Upon May 16 the Mayor approved a contract with the Atlantic Brick and Tile Company for furnishing 100,000 sewer bricks for the Public Works Department, as required, until December 31, 1946, with the privilege of purchasing on the same terms and conditions extended to April 30, 1947, at a price of \$19.25 per thousand, less a cash discount of 50 cents per thousand for payment in ten days.

The total amount of the award was \$1,925, less a cash discount of 50 cents per thousand for payment in ten days.

Bids, opened April 23, were as follows: *Approximately 100,000 Sewer Bricks, as Per Specifications, Per Thousand.*—Atlantic Brick and Tile Company, \$19.25.

Total.—Atlantic Brick and Tile Company, \$1,925.

Cash Discount, Ten Days.—Atlantic Brick and Tile Company, 50 cents per thousand.

Net Total.—Atlantic Brick and Tile Company, \$1,875.

Remarks.—Atlantic Brick and Tile Company, gray cement sand lime, see specifications.

Upon May 16 the Mayor approved a contract with the Portland Stone Ware Company for furnishing 10,000 barrels Portland cement to be delivered, as required, until December 31, 1946, with the privilege of purchasing on the same terms and conditions extended to May 31, 1947.

It was recommended that the contract be awarded to the Portland Stone Ware Company, the lowest bidder, at a price of 39 cents over the published dealers' cost per barrel in the Boston switching area at the time of shipment as established by the Portland cement manufacturer, same being \$2.72 per barrel on the day of the opening of the bids; less 10 cents per barrel cash discount for payment in ten days.

The total amount of the contract was \$31,100, less 10 cents per barrel cash discount for payment in ten days.

Bids, opened May 7, were as follows:

The Published Dealers' Cost Per Barrel in the Boston Switching Area, at the Time of Shipment, as Established by the Portland Cement Manufacturer, Plus the Following Price for Each Barrel of 380 Pounds Net, Delivered in Paper Bags and Accepted.—John J. Gallagher, Inc., 43 cents; Portland Stone Ware Company, 39 cents; Waldo Brothers Company, 68 cents.

The Published Dealers' Cost Per Barrel in the Boston Switching Area, at the Time of Shipment, as Established by the Portland Cement Manufacturer, on the Day of the Opening of the Bids.—John J. Gallagher, Inc., \$2.72; Portland Stone Ware Company, \$2.72; Waldo Brothers Company, \$2.72.

Price Per Barrel on Day of the Opening of Bids.—John J. Gallagher, Inc., \$3.15; Portland Stone Ware Company, \$3.11; Waldo Brothers Company, \$3.40.

Total.—John J. Gallagher, Inc., \$31,500; Portland Stone Ware Company, \$31,100; Waldo Brothers Company, \$34,000.

Cash Discount, Ten Days.—John J. Gallagher, Inc., 10 cents per barrel; Portland Stone Ware Company, 10 cents per barrel; Waldo Brothers Company, 7 cents per barrel.

Net Total.—John J. Gallagher, Inc., \$30,500; Portland Stone Ware Company, \$30,100; Waldo Brothers Company, \$33,300.

Remarks.—John J. Gallagher, Inc., bid irregular, no copy of bid filed at City Auditor's office; Portland Stone Ware Company, bidder not responsible for delays in deliveries due to strikes, embargoes or any other causes beyond its control.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and commercial houses for furnishing supplies, labor, etc. Communications from heads of the several departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, May 10, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—I respectfully request your Honor's approval to enter into a contract for architect's services with John M. Gray Company, 175 High street, Boston, Mass.

This contract is for the purpose of procuring the usual architectural service for alterations at the Dorchester High School for Girls, Talbot avenue and Washington street, Dorchester, the cost of said alterations not to exceed twenty-seven thousand dollars (\$27,000); at the High School of Commerce, Avenue Louis Pasteur, Boston, the cost of said alterations not to exceed twenty-six thousand dollars (\$26,000); at the Teachers College Group, Huntington avenue, Boston, the cost of said alterations not to exceed twenty-six thousand dollars (\$26,000); at the Boston Trade High School, Parker street, Roxbury, the cost of said alterations not to exceed twenty-eight thousand dollars (\$28,000); at the Jamaica Plain High School, Elm street, Jamaica Plain, the cost of said alterations not to exceed fourteen thousand dollars (\$14,000), and at the Robert Gould Shaw School, Mt. Vernon street, West Roxbury, the cost of said alterations not to exceed twelve thousand dollars (\$12,000).

The usual fee, namely, ten per cent (10 per cent) of the construction cost, will be paid to John M. Gray Company on this contract.

I feel that the best interests of the City of Boston are being served by awarding this contract in this manner as there is no way in which competition could be obtained.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

FIRE DEPARTMENT.

BOSTON, May 8, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Recently it has been necessary for this department to order twelve complete motors to be installed in American-LaFrance ladder trucks, hose cars and pumps to replace old worn-out motors, in order that the apparatus will be in operative condition. The old motors have seen years of service and cannot be repaired to the extent that they will be in good operating condition.

The cost of the twelve motors is \$24,300, which ordinarily would be charged to Item E-13, Miscellaneous, in the 1946 Fire Department budget. However, if this were done, the funds allowed in this item would be exhausted and we would have difficulty in purchasing hundreds of various types of motor parts which are required to keep the apparatus in working condition.

In my opinion these twelve complete motors could rightfully be classed as equipment and I therefore respectfully request your Honor's permission to charge the cost of the twelve motors, namely, \$24,300, to the Revenue Loan for the purchase of department equipment.

Respectfully yours,

RUSSELL S. CODMAN, JR.,
Fire Commissioner.

HOSPITAL DEPARTMENT.

BOSTON, April 9, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested for the award of a contract without advertising to Electric Maintenance Company, Inc., in the sum of \$1,250, for repairing ice plant motor at this hospital.

When it was found that it was necessary to have this work done, bids were invited, without advertising, from three reliable firms as follows:

Northeastern Electric Company, \$1,370;
Boston Armature Works, Inc., \$1,330;
Electric Maintenance Company, Inc., \$1,250.

As all of these bids exceeded \$1,000, the Trustees voted to publicly advertise for bids. However, on the day appointed for receiving bids, no bidders appeared.

Because of the emergency nature of the work, the Trustees then voted, subject to your approval, to award the contract to Electric Maintenance Company, Inc., the lowest original bidder, at \$1,250. The Trustees feel that nothing can be gained by further advertising and therefore recommend the award of this contract.

Respectfully yours,

JAMES W. MANARY, M.D.,
Superintendent.

INSTITUTIONS DEPARTMENT.

BOSTON, May 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—The high-pressure steam lines in the tunnels at the Long Island Hospital, which have been in operation for a long time, are deteriorating to a degree that at least in a dozen places live steam is escaping and presenting a danger to the inmates and employees in scalding. Brazing has been done in the past and the brazing is letting go, and it is now deemed advisable not to use this method again as the pipes are too old. New sections are proposed where the leaks occur and must be done immediately.

Inasmuch as the work is now an emergency, I respectfully ask your permission to place a service order with the Joseph H. Maguire Company to install sections where needed at a cost not to exceed \$1,500 (fifteen hundred dollars). The Maguire Company has done considerable work on the island and their work has been highly satisfactory, and no advantage would be gained for the city in advertising for bids.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

PARK DEPARTMENT.

BOSTON, April 22, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Under date of January 21, 1942, a lease was awarded to Richard A. Kelly of 1690 Columbia road, South Boston, for the premises opposite Marine Park, South Boston, known as the City Point Boat Landing, for a period of five years from May 1, 1942, to April 30, 1947. Mr. Kelly has been the lessee for some few years and the concession had been in his family for several years before he became the lessee, having been operated formerly by his late father.

Under the terms of the lease, which will expire on April 30, 1947, Mr. Kelly is paying to the city rental of \$2,100 a year. He has operated the concession in a very satisfactory manner during all the years he has held it. He has now requested that a new lease be issued to him for a period of five years starting May 1, 1947, and expiring April 30, 1952.

As Mr. Kelly has been a satisfactory tenant and the rental he is paying is a fair amount, the Board of Park Commissioners respectfully requests your approval for the award of this lease to Richard A. Kelly for five years beginning May 1, 1947, at a rental of \$2,100 a year.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

BOSTON, May 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—The condition of the road surfaces in the Arnold Arboretum, due to extreme weather conditions of last winter, is such that they have become in many places unraveled. In about two weeks Lilac Sunday will be celebrated on these grounds. Thousands of people who on that day annually visit this beauty spot would be subject to possible injuries from having to travel over defective portions of the roads unless these conditions are immediately rectified.

John Deveney & Co. is in a position to furnish immediate service in repairing these roadways, thus insuring safe roads for our citizens to travel on. Mr. Deveney has agreed to do the required patch work at the same rates per square yard that are set forth in the general patching contract of all city streets and highways.

In view of the urgent necessity of starting this repair work promptly, in order to insure public safety, I respectfully request, because of the public interest involved, the permission of your Honor to dispense with public advertising and to award a contract to John Deveney & Co. of 17 St. Ann street, Jamaica Plain, in the approximate sum of \$12,868, for repairing roadways in the Arnold Arboretum, West Roxbury, the cost of same to

be charged to the special appropriation, Park and Playground Improvements, etc., Revenue.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

BOSTON, May 15, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—You are respectfully requested to award a service order to the National Waterproofing Company, 1077 Columbus avenue, Boston, Mass., for repairing concrete in bleachers at J. J. Connolly Playground, Roxbury, Mass., in a sum not to exceed one thousand nine hundred dollars (\$1,900).

This company has furnished this outside price for cutting out loose and disintegrated concrete and patching same on the first four (4) tiers of the bleachers.

On Thursday, April 25, 1946, a sub-bid for the restoration of the entire structure was submitted in the sum of \$17,340. As this was the only bid received on that date, and the price seemed excessive, it is now found advisable to take care of the worst of the concrete by this method. The work is to be done at the cost of labor plus the cost of materials, the total sum not to exceed the sum of \$1,900.

As this concern is one of the best in this line of work, the Board of Park Commissioners feels that nothing would be gained by advertising, and accordingly requests that this work be awarded to them without advertising.

Respectfully,

WILLIAM P. LONG, *Chairman.*

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 8, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—From time to time it is necessary for this department to hire a one and one-half ton truck.

We issue service orders in each case for a definite number of hours for certain periods. Under these orders the contractor, Casey & Hayes Company, furnishes the truck, with the chauffeur or operator and all the gasoline and oil, at a rental rate of \$1.50 per hour. The aggregate cost of hiring this equipment throughout the year exceeds \$1,000, but I feel that it is to the advantage of the city to hire the equipment in this manner.

I therefore respectfully request your permission to hire this equipment, a one and one-half ton truck, upon the issuance of service orders at the rate \$1.50 per hour, the Casey & Hayes Company to furnish the operator and the gasoline and oil necessary to operate the vehicle.

Respectfully yours,

JAMES E. SULLIVAN,
Superintendent.

PUBLIC WORKS DEPARTMENT.

BOSTON, April 18, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Under date of April 17, 1946, a bid was received for repairing hull, etc., of the ferryboat "Daniel A. MacCormack," after advertising for same in the *City Record* under date of April 6, 1946. The only bidder was the Bethlehem Steel Company, who submitted a bid of \$26,234 for doing the work.

Subsequent to the opening of the bids it was found that the Bethlehem Steel Company had altered the specifications on the proposal submitted by inserting on page 18 of the specifications, under Sec-

tion 1, a new sub-section called (L) wherein any workmanship or material found to be defective shall be replaced by the contractor without cost to the city upon notice by the city given within sixty (60) days after completion of the work, etc., and likewise assuming the liability for loss of or damage to the ferry-boat, her equipment, movable stores and cargo which occur during performance of the work as a result of the contractor's fault or negligence in connection with prosecution of the work, provided that the contractor's liability under this section shall in no event exceed the sum of \$300,000.

Alterations were likewise made in the specifications with reference to methods of payment on safety valves, page 12; injectors and reducing valves on page 13, and generators and blowers on page 14.

Because of the alterations and the bid not being responsive to the public advertised bid for this work I have rejected the bid as being informal.

The alterations made in the specifications by the bidder prior to submitting the proposal being satisfactory to this department, and because of the necessity of doing the work as required by the United States Coast Guard inspection service, your approval is respectfully requested to the award of a contract, without further public advertising for bids, to the Bethlehem Steel Company, in the amount of \$26,340, the work to be performed on the basis of the unit prices submitted in original proposal by this firm, with changes as outlined above.

All terms of these specifications will be completed within ten (10) weeks after the approval of the contract by the Mayor.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, April 29, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Since the contract which the Welsbach Street Lighting Company of America had with the city for lighting the streets by means of gas lamps at the rate of \$23 per lamp per year expired on December 31, 1945, the company has been carrying on the work under temporary agreements, based upon the terms and conditions contained in the original contract.

The present agreement terminates on May 1, and, as the city is not yet in a position to negotiate a new contract, I respectfully request the permission of your Honor to make another agreement with this company to carry on this service until June 1, 1946.

The Welsbach Company is the only firm able to perform this service, and, as no advantage would be gained by inviting proposals, I respectfully ask the permission of your Honor to dispense with advertising.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, May 8, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On April 19 and 20, 1946, certain employees of the Sanitary Division of this department, who were engaged in the work of collecting refuse in the North and South End districts of the city, disobeyed orders and refused to work.

As a result, a very serious condition was brought about due to the fact that garbage and rubbish could not be collected.

It was necessary for this department to take immediate action, and arrangements were made with the firm of Coleman Brothers Corporation for the use of their men and trucks to collect rubbish and garbage in these two districts.

Because of the emergency which had arisen, it was impossible for this department to obtain bids by public advertisement, so, for that reason, I respectfully request the authority of your Honor to dispense with the requirement of advertising, and to award this work to the above-mentioned firm in the amount of \$1,135.52. This work was done on April 20, 1946.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, May 9, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—C. Russo & Co., Inc., had a contract with this department, dated January 5, 1946, for earth excavation and refilling to allow Water Division employees to install, regulate and repair Water Division structures in the West Roxbury district.

The estimated amount of this contract was \$6,000, and, although the date of completion was May 15, the contractor finished his work up to the amount of the contract, on the 20th of April. It was assumed in this department that, as is usual in contracts, a 25 per cent increase would be allowed, but I am informed by the City Auditor that, due to a recent ruling, this 25 per cent increase in the amount of work to be done under a contract is not applicable to contracts awarded without advertising. In this case, the contract awarded to this firm had been given without publicly advertising for bids.

There is a certain amount of work which should be done and which I feel can be done by this firm. I therefore respectfully request your Honor to dispense with advertising, and to award to the firm of C. Russo & Co., Inc., work not in excess of \$2,000, to be done under service orders issued by the Water Division of this department. I feel that under present conditions, this is the most advantageous way of handling this matter.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, April 18, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of April 16, 1946, informal quotations were solicited on requisitions of the Public Works Department calling for tires and tubes, passenger and truck. The following bids were received:

Automotive Distributors, Inc., \$1,850.87; Norwalk Tire and Battery Company, \$1,868.30; Cooper Fire Sales Company, \$1,973.30; Goodyear Service, \$1,983.20; Thomas E. Hogan Company, \$1,983.78; Firestone Stores, \$1,996.58; Edward S. Quirk Corporation, \$2,001.26.

The Public Works Department has requested delivery of these tires and tubes as soon as possible and the lowest bidder is prepared to make immediate delivery.

Under these circumstances and in view of the fact that all available sources of supply have been contacted, permission is requested to dispense with public advertisement and award to the lowest bidder, the Automotive Distributors, Inc., 201 Brighton avenue, Allston, at its bid price of \$1,850.87, less a cash discount of 2 per cent for payment in ten days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, April 18, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On April 16, 1946, this office was prepared to receive bids on proposals for furnishing twelve six-cylinder American-LaFrance motors, or equal, in accordance with specifications, for the American-LaFrance fire apparatus of the Fire Department on its requisitions No. 669 and No. 708. The only bid received was submitted by the American-LaFrance-Foamite Corporation.

Prior to the public opening of bids, this office had contacted all available sources of supply in an attempt to determine the possibility of using other motor models in the city's fire apparatus. Inquiry was also directed to the redistribution and salvage branch of the United States Army regarding surplus motors which, after some change-overs, might have served the purpose.

This information was referred to the Fire Department and, after consideration of the engineering principles involved in the necessary alterations, it was the opinion of the Fire Department that the purchase of the Army surplus motors was not practical under the circumstances.

Your permission is therefore requested to award a contract to the American-LaFrance-Foamite Corporation, 28 Brighton avenue, Boston, for furnishing twelve Model 12E-5260 six-cylinder American-LaFrance motors, in accordance with specifications, to the Fire Department at the bid price of \$2,025 each. The total amount of the contract will be \$24,300.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, May 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On November 5, 1946, this office solicited informal bids on Park Department requisition No. 83 calling for two new one and one-half ton dump trucks for the Cemetery Division. The following concerns were requested to bid:

General Motors Corporation, G. M. C. Truck and Coach Division, \$2,915.40; Mass. Motor Car Company, \$3,161.50; John J. Delaney, Inc., \$3,321.34; Jackson Chevrolet Company, \$3,392.82; Lalime & Partridge, Inc., \$3,484.92; Autocar Sales and Service, no bid; Mack Motor Car Company, no bid; International Motor Company, no bid; J. J. Brodigan Company, no bid; White Motor Company, no bid; Cote Motor Company, no bid.

Shortly after receipt of the bids, the appropriation for these trucks was transferred out of the Park budget and the Supply Department was unable to effect the purchase. In the meantime, General Motors, by reason of its low bid, had allocated the two trucks to the city

account in its national program of distribution in order to assure early delivery.

This office has now been informed by General Motors that one truck has been delivered to its local branch; that the other is en route; and that delivery can probably be made in May if a purchase order is promptly executed. Furthermore, this company is willing to deliver the trucks at the price quoted in November.

The automotive market is still unsettled and it is my opinion that if new bids were solicited at this time, such bids would compare unfavorably with the price quoted in November and delivery dates would undoubtedly be late this Fall.

Your permission is therefore requested to dispense with public advertisement and award a contract on the basis of the informal bids to the General Motors Corporation, G. M. C. Truck and Coach Division, for furnishing to the Cemetery Division of the Park Department:

Two new one and one half-ton dump trucks in accordance with specifications, G. M. C. Model C-302, with wood or Heil body at \$1,872.60, \$3,745.20; less: taxes, at \$35, \$70; trades, at \$200, \$400; discounts, at \$179.90, \$359.80—\$829.80; net total, \$2,915.40.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

TREASURY DEPARTMENT.

BOSTON, May 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—The City Council has this year passed various loan orders amounting to \$6,900,000, which together with the unissued orders authorized in previous years, will necessitate the issuance of approximately \$8,000,000 in serial loans on or about August 1, 1946. The bank note companies require a minimum of two to three months to prepare the certificates for such an issue and therefore it is necessary at this time to arrange for the engraving of approximately 8,000 coupon bond certificates.

The Vose-Swain Engraving Company, Inc., 530 Atlantic avenue, Boston, have been doing satisfactory work of this type for this department for over fifteen years and have the necessary steel engraved plates in their possession. These plates can be used for this issue with alterations that will cost \$210. They have submitted a bid of 42 cents each for certificates bearing one sheet of coupons and 58 cents each for certificates bearing two sheets of coupons with delivery in two and one half to three months. These certificates and coupons are to be fully engraved with the exception of the fill-in.

The American Bank Note Company, with offices in Boston, have been asked to bid, but declined to do so for the reasons that they could not furnish a fully engraved certificate in the required time and were not interested in bidding on a competitive basis because of the added cost of preparing new plates and other reasons.

Therefore, realizing that no purpose would be served by publicly advertising for bids, I respectfully request your permission to award the contract for these certificates to the Vose-Swain Engraving Company, Inc., at a price of 42 cents each for certificates bearing one sheet of coupons and 58 cents each for

certificates bearing two sheets of coupons with an additional charge of \$210 for making necessary alterations in the steel engraved plates.

Very truly yours,

HENRY F. BRENNAN,
City Treasurer.

RE-ALLOCATIONS OF BUDGET APPROPRIATIONS.

The Mayor has granted approval for the following reallocation of budget appropriations as requested by the heads of the departments interested:

BOSTON TRAFFIC COMMISSION.

BOSTON, May 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—Kindly make the following reallocation within Group D of the budget appropriations for this department:

From D-16 to D-5, \$20.

We were allowed \$10 in Item D-5 for medical, surgical and laboratory supplies. It has been necessary to purchase first-aid supplies in an amount exceeding the budget allowance by \$16.60.

Respectfully yours,

WILLIAM P. HICKEY,
Commissioner.

LAW DEPARTMENT.

BOSTON, April 23, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Subject to your approval I am amending the designations of personnel in the budget of the Law Department for the year 1946 in the following manner:

Archibald P. McNeil, from investigator of encroachments at \$2,750 a year plus \$200 E. C. A. to investigator at \$2,750 a year plus \$200 E. C. A.

This change of designation has the approval of the Division of Civil Service, no change in compensation is involved, and the change is being made so that the duties of the position may be more accurately described by the title.

Yours very truly,

JOSEPH A. SCOLPONETI,
Corporation Counsel.

BOSTON, May 9, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Will you please approve the following reallocation of funds in the Law Department appropriation for the current year:

From B-29, Stenographic and copies, \$15, to B-4, Transportation of persons, \$15.

The purpose of this reallocation is to provide funds for the attendance at the annual conference of City Solicitors and Town Counsel of Massachusetts at the New Ocean House, Swampscott, of a representative of the Law Department. In previous years these expenses have been borne personally by the Assistant Corporation Counsel attending this conference. I feel that it is an expense which should be borne by the city.

Yours very truly,

JOSEPH A. SCOLPONETI,
Corporation Counsel.

PARK DEPARTMENT.

BOSTON, May 9, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested for the reallocation of funds within the Park Department budget as follows:

From C-13, Tools and Instruments, to C-5, Motorless Vehicles, \$5.

The reason for this request is that in making up our budget for the year 1946 we requested an allowance of \$750 in C-5 and were granted that allowance. This was to cover the cost of an industrial trailer ordered in 1945 but which was not delivered until early this year. The bill for the trailer is \$755, and therefore we require an additional \$5 in the C-5 item.

On April 2 we requested a reallocation of \$5 for the purpose mentioned above, to the C-5 item from C-16, and the request was approved by you on April 4. We are now informed by the Auditor's office that C-16 has been encumbered for almost the full amount of the appropriation and that no reallocation can be made from it.

We therefore request that the reallocation to C-5 approved by you on April 4 be cancelled and that the request made today be substituted in its place.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

PENAL INSTITUTIONS DEPARTMENT

(HOUSE OF CORRECTION).

BOSTON, April 22, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested for the following reallocation of funds:

From E-1, Building, \$735, B-39, Repairs, \$100, to C-6, Stable, \$60, C-12, Surgical-Medical, \$75, C-15, Tires-Tubes, \$500, D-5, Medical-Surgical, \$100, B-10, Rent-Taxes, \$100.

The above reallocations are requested for the following reasons:

C-6: Higher prices for material and impossible to obtain last year.

C-12: Surgical-Medical, extra equipment required.

C-15: Tires and tubes for all rolling stock.

D-5: Medical-Surgical, higher prices for medicine, etc.

B-10: Rentals, storage of shuttle boat "Hilda E."

Respectfully yours,

MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 3, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—In view of the age of the ambulances in our charge and of the department car, extensive repairs have been necessary.

Approximately \$400 has been expended to date. I have an estimate of \$480 for repairs on No. 1 ambulance from the Packard Motor Company. In order to take care of this and future repairs for the balance of the year, and in view of the inadequate allowance, I respectfully request a reallocation of \$700 from B-39 to B-14.

Very truly yours,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

BOSTON, May 8, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—In view of the severe roads this winter, which necessitated the buying of extra tires, and the inadequacy of the appropriation, will you kindly grant me permission to make the following reallocation in the appropriation of the Public Buildings Department:

From C-9, \$100, to C-15, \$100.

Respectfully yours,

JAMES E. SULLIVAN,
Superintendent.

PUBLIC WORKS DEPARTMENT.

BOSTON, May 3, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Approval is requested to amend the budget of the Water Division as follows:

Increase yardmen at \$1,900 a year plus \$200 E. C. A., from one to two.

Decrease yardmen at \$1,800 a year plus \$200 E. C. A. from one to none.

This request is made for the purpose of adjustment of salary of John F. Cunningham from \$1,800 to \$1,900 a year plus \$200 E. C. A., in order to place his compensation on the same basis as other employees performing similar duties.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SOLDIERS' RELIEF DEPARTMENT.

BOSTON, April 24, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request your permission to amend the budget of the Veterans' Rehabilitation Division of the Soldiers' Relief Department, Item A-1, Personal Service, in so far as the one position of clerk-counselor at \$2,000 is concerned.

Inasmuch as the Department of Civil Service has decided that the title of this particular position should be "Veterans' Service Counselor," I believe this change should be made and designated as such in the future.

Very truly yours,

DAVID J. BRICKLEY, *Commissioner.*

BOSTON, May 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Will you kindly transfer the funds of the Soldiers' Relief as follows: From the appropriation for B-4, Transportation of Persons, \$16, to the appropriation for C-10, Library, \$16.

Each year this department requires one bound copy of the Boston Directory, fabrikoid binding, which is used daily to determine legal settlements of beneficiaries of this department. This year's volume will cost \$32, an increase of \$9 over the previous year.

Respectfully,

DAVID J. BRICKLEY, *Commissioner.*

SUFFOLK COUNTY COURT HOUSE.

May 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—In the Suffolk County Court House budget for 1946 submitted by the Commission there were two items under C-7 which were not allowed. One item submitted by the

Register of Deeds, Mr. Fitzgerald, and the other item by the Register of Probate, Mr. Sullivan, covered the estimated cost of equipment needed this year for their respective departments.

48 steel chairs.....	\$600
1 new steel counter, removing four Land Registry cases to, and adding three new Land Registry cases for, Registry of Deeds, Old Social Law Library.....	8,500
1 steel counter with cashier's cage, fireproof storage, and compartments for filing documents and books.....	5,000
2 steel cabinets with roller shelves and fireproof curtains for storage of Probate dockets, Registry of Probate.....	2,500

These items are necessary to relieve the congestion which has existed for many years in these two departments. The equipment is to be used in added quarters which have been assigned to both these departments, and will house documents and files in fireproof condition readily accessible to the public as required by law. These items have been discussed thoroughly with Mr. Carven, Budget Commissioner, and Mr. Fox, Auditor, both of whom are thoroughly familiar with the situation.

The Commission respectfully requests your Honor's permission to have an allotment from the Departmental Equipment Fund of \$16,600, to cover these essentials.

Very truly yours,

COURT HOUSE COMMISSION,
by ARNO I. DREW, *Chairman.*

EAST BOSTON DISTRICT COURT.

BOSTON, May 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—This is to be regarded as a request for a reallocation of seventy cents (\$.70) from B-4, Transportation, to B-1, Printing and Binding, for the following reason:

The appropriation for B-1 was overdrawn, and this transfer is required to properly meet the payment.

Yours truly,

* WILLIAM H. BARKER, *Clerk.*

MUNICIPAL COURT, ROXBURY DISTRICT.

BOSTON, May 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—It is respectfully requested that the following sum be reallocated as follows:

From B-4, Transportation, \$40, to B-39, General, \$40.

This request is made in order to supplement the amount allotted for general repairs to equipment. An increase in price of repairs accounts for this request.

Yours very truly,

THEODORE A. GLYNN, *Clerk.*

POLICE DEPARTMENT ORDERS.

General Order No. 665.

Patrolman John M. Kelly, Division 4, honorably discharged veteran of World War I, having arrived at the age of fifty and eight-twelfths years, having been in service of the Boston Police Department for nineteen and eleven-twelfths years, and having requested retirement under provisions of section 56, chapter 32, General Laws (Ter. Edit.) as amended, for the reason that he is incapacitated for active service; it is hereby

Ordered, His Honor the Mayor having approved the same, that said Patrolman John M. Kelly be retired from active duty in the Police Department, and that his name be placed upon our pension roll at rate of twelve hundred fifty (1,250) dollars per annum (to be paid monthly), said sum being one half of amount of compensation received by him in office from which he is retired; effective Friday, May 24, 1946, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of Memorial Day visits to the various cemeteries, the following rules are effective on Sunday, May 26, and Thursday, May 30, 1946:

The following streets are one way in the direction indicated:

Arborway.

North drive, from Forest Hills street to Centre street.

Main drive, from Centre street to Forest Hills street.

Bourne Street.

From Canterbury street to Patten street.

Brook Farm Road.

From entrance to St. Joseph's Cemetery to Baker street.

From entrance to St. Joseph's Cemetery to La Grange street.

Canterbury Street.

From Cummins Highway to Morton street.

Harvard Street.

From Walk Hill street to Cummins Highway.

Mt. Hope Street.

From Canterbury street to American Legion Highway.

Paine Street.

From Canterbury street to Walk Hill street.

Patten Street.

From Bourne street to Hyde Park avenue.

Walk Hill Street.

From Hyde Park avenue to Canterbury street.

From Blue Hill avenue to Harvard street.

Washington Street.

From Brookley road to Arborway.

Parking of vehicles is prohibited in the following streets:

Brook Farm Road.

Both sides, from Baker street to La Grange street.

Fairview Avenue.

Both sides, from River street to the Fairview Cemetery.

Grove Street.

Both sides, from Washington street to the Boston-Dedham line.

That vehicles are excluded from the following streets except for the formation of parades:

Arborway.

South drive (Court House road), from Morton street to Forest Hills street.

Morton Street.

From Washington street to Forest Hills street.

That left turns are prohibited from Washington street into Arborway easterly, from Arborway to Washington street southerly and from Arborway into South street southerly.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 20, 1946.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KELLY in the chair. Absent, Coun. Coffey.

The meeting was opened with the salute to the Flag.

JURORS DRAWN.

President KELLY—The Chair is in receipt of a venire for jurors. The City Messenger will so notify his Honor the Mayor.

(The City Messenger reported that the Mayor was not available.)

Jurors were drawn, Coun. SCANNELL presiding at the box in the absence of the Mayor, as follows:

Forty traverse jurors, Superior Criminal Court, to appear June 4, 1946, viz.:

William L. Cooney, Ward 1; Martin Doucett, Ward 3; Thomas Grant, Ward 3; Robert G. Champagne, Ward 4; Gregory Vladias, Ward 4; Ernest P. F. Hakanson, Ward 5; Irvin M. Kelley, Ward 5; Edward J. Dubois, Ward 7; John Reardon, Ward 7; William Thomas Lyons, Ward 8; John C. Stevenson, Ward 9; Robert E. Martin, Ward 10; Robert DiGiovine, Ward 11; Richard B. Jackson, Ward 12; Harry Tobin, Ward 12; John Cotter, Ward 13; Charles M. Lauder, Ward 13; Max Fainblatt, Ward 14; Abraham Fine, Ward 14; William Marsh, Ward 14; Morris Milgram, Ward 14; Peter W. Mulvey, Ward 14; Samuel Port, Ward 14; Benjamin Sherman, Ward 14; George Lipson, Ward 15; Albert J. Worley, Ward 15; Harold J. Cheyne, Ward 17; Alfred H. Allen, Ward 18; William F. Brown, Ward 18; Harry D. Lockhart, Jr., Ward 18; John J. Grady, Jr., Ward 19; Thomas E. Day, Ward 20; James P. Griffin, Ward 20; J. Ralph Jackman, Ward 20; Herbert H. Russell, Ward 20; Joseph M. Sullivan, Ward 20; George M. Harrington, Ward 21; Frank M. Keefe, Ward 21; Albert L. Huiton, Ward 22; John E. Waters, Ward 22.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Constables to serve without bond and without authority to serve civil process for term ending April 30, 1947: Raymond M. Lindsay, 197 Kelton street, Allston; James W. Daly, 46 Stanton street, Dorchester.

Weighers of Goods for term ending April 30, 1947: John C. McLeod, 16 Ingleside avenue, Malden; Nathaniel C. Lord, D. J. Cutter & Co., 420 Freeport street, Dorchester.

Severally referred to the Committee on Constables and Confirmations.

CANDIDATES WHO ARE NOT RESIDENTS OF DISTRICT.

The following was received:

City of Boston,

Office of the Mayor, May 17, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Board of Election Commissioners, in reply to your order of May 13, 1946, to refuse to certify the name of any candidate who does not reside in the district in which he seeks office.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Elector Department, May 16, 1946.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—This is in reply to your communication of May 15 with attached City Council order to the effect that this Board refuse to certify the name of a candidate who does not reside in the district in which he seeks office.

May we explain that our duties in reference to State nomination papers are very limited. We check signatures of persons who appear to be registered voters qualified to sign; we certify the number of such names appearing on each paper. If the law requires that a certificate of party enrollment be filed with the paper, we issue such certificate. In no instance is this Board called upon to question in any way the qualifications of the candidate in reference to the nomination he seeks. The decision as to a candidate's eligibility rests with the Secretary of the Commonwealth and with the State Ballot Law Commission.

Since all matters relating to the certification of nomination papers are regulated by statute, the Board has no power to refuse to certify a paper filed in accordance with law.

Very truly yours,

BOARD OF ELECTION COMMISSIONERS,

WILLIAM A. MOTLEY, JR.,

Chairman.

Placed on file.

LIGHTS AT FALLON FIELD, WARD 20.

The following was received:

City of Boston,

Office of the Mayor, May 18, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your order of May 6, 1946, to install lights at Fallon Field, Ward 20, along the walk between Belgrade avenue and Robert street.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Park Department, May 15, 1946.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of May 11 with inclosure, order from the City Council requesting the Park Commission to install lights at Fallon Field along the walk between Belgrade avenue and Robert street.

Please be assured these will be attended to as soon as we possibly can get to them. These lights should be installed and the department will light this area.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

RELETTERING OF SIGNS THROUGHOUT CITY.

The following was received:

City of Boston,

Office of the Mayor, May 17, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your order of May 6, 1946, to proceed at once with the relettering of signs throughout the city.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Park Department, May 15, 1946.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Mr. Connors,—I have your memorandum of May 11, with inclosure, order from the City Council requesting the Park Commission to proceed at once to the relettering of signs erected throughout the city on parks and playgrounds, etc.

Please be assured this will be given immediate attention, but we have only two painters in the department and it will be some little time before the job can be completed.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

NAMING OF MARINE PARK, ETC.

The following was received:

City of Boston,

Office of the Mayor, May 18, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your Council order of May 6, 1946, to name the newly constructed bandstand at Marine Park in honor of South Boston veterans who served in all wars, and to arrange a schedule of nightly and Sunday band concerts for the summer months.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Park Department, May 17, 1946.

J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of May 11 with inclosure, order from the City Council that the newly constructed bandstand at Marine Park be named in honor of South Boston veterans who served in all wars, and to arrange a schedule of nightly and Sunday band concerts for the summer months.

The naming of this bandstand, which is in Marine Park will have to be taken up with his Honor the Mayor—this is one of the principal parks in South Boston, it is a newly built stand, and he is deeply interested in this area; having built and developed it in his former administration.

Regarding the band concerts, if I can obtain the use of the Coast Guard or the Army bands, I would be very pleased to get them to play Sundays, but I don't think I could get any bands to play nights, without a hired band, and we have no money available in the budget for the hiring of bands.

I will inform you at a later date what I can do about the band concerts.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

RESURFACING OF PENDER STREET, WARD 20.

The following was received:

City of Boston,

Office of the Mayor, May 18, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works,

in reply to your order of May 6, 1946, to resurface Pender street, Ward 20, which is in a very dangerous condition.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Public Works Department, May 14, 1946.

To J. Joseph Connors, Chief Clerk, Mayor's Office. From Robert P. Curley, Commissioner, Public Works Department.

Subject: Pender Street, Ward 20.

I return herewith order in City Council that the Commissioner of Public Works resurface Pender street, Ward 20, and this will advise you that this street will be put on the list of streets to be given consideration for construction this year.

ROBERT P. CURLEY,

Commissioner of Public Works.

Placed on file.

RETIREMENT BENEFITS.

The following was received:

City of Boston,

Office of the Mayor, May 20, 1946.

To the City Council.

Gentlemen,—In reply to your order of May 13, 1946, requesting me to direct the Boston Retirement Board to increase the minimum retirement benefits, permit me to say that neither the Mayor nor the Retirement Board can comply with this proposal, as the benefits are fixed by the provisions of the statute establishing the Retirement System.

In 1924, on my petition, the law was amended to establish a minimum of \$480, and I do not consider it advisable to take up any question of increase until the pending legislation is disposed of and it is determined whether or not the city employees will be permitted to join the new State system.

Respectfully,

JAMES M. CURLEY, Mayor.

The message was declared placed on file, but later in the session Coun. HANNON moved that the matter be withdrawn and referred to the Executive Committee.

Coun. HANNON—Mr. President, I would like to ask unanimous consent to withdraw the matter already placed on file and have it referred to the Executive Committee. It pertained to minimum pensions paid by the City of Boston. The reason I am doing this, Mr. President, is that in the letter from his Honor the Mayor he informs us that some legislation is being enacted which will take care of the matter. If we keep it alive here, we will see that something is done on it. At the suggestion of one of the reporters, I received some very interesting figures. We have 2,108 people on the pension rolls of the City of Boston. Only 352 receive a pension of \$900 or over; 1,256 are receiving less than \$900. Four hundred and twenty-three are receiving only \$40 a month. Seventy-seven people who contributed part of their salary to obtain a pension are receiving even less than \$40 a month. Now, we are up against this problem: Men and women, matrons, laborers, work for the city and give their best. They have money deducted from their pay each week with the stipulation they are to receive a pension. They get through after years of service. Four hundred and twenty-three of them receive only \$40 a month. Seventy-seven of them receive less than \$40 a month. If they are smart they will take out the money they have contributed to our retirement system, and go on to old age assistance. They get more money on the old age assistance without contributing a penny than they do under our retirement system. Something should be done to benefit these people. His Honor the Mayor suggested in his letter that something is being done. I would like this referred to the Executive Committee so that each councilor here might find out what is being done. If possible, we may introduce some action to alleviate the suffering of these people who are taxed for a retirement fund and then find out on their retirement they receive less money than they would have received under the old age act.

The Mayor's message was referred to the Executive Committee.

DATA RE TAXES ON HOUSING PROJECTS.

The following was received:

City of Boston,

Office of the Mayor, May 16, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the City Collector, in reply to your order of April 22, 1946, relative to what the City of Boston obtained from the Boston Housing Authority in taxes for the past five years, and also taxes derived before the Housing Authority took over these properties.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Collecting Department, May 2, 1946.

Mr. J. Joseph Connors,

Chief Clerk, Mayor's office.

Dear Sir,—In answer to your letter of April 26 on the City Council order for information on

housing projects, the following information is available in the Collector's office:

Total receipts, eight projects, 1941 through 1945	\$1,085,109
Total receipts, three projects not completed	None
Total receipts	\$1,085,109

Based on a valuation of \$7,945,700 for the 2,500 properties taken by the government, and using a \$40 tax rate basis, the total tax receipts would be, from 1941 through 1945, \$1,584,175.

Respectfully yours,

DANIEL F. DONOVAN,
City Collector.

Placed on file.

TEMPORARY HOUSING FOR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, May 20, 1946.

To the Honorable the City Council.
Gentlemen,—I submit herewith for the consideration of your Body an order to facilitate the providing of temporary housing for veterans in the City of Boston. Section 1 of the proposed order supplements an order passed by your Body on May 6, 1946; authorizing the Boston Housing Authority to enter into a contract with the Federal Public Housing Authority with respect to Camp McKay in South Boston. Section 1 of the proposed order if enacted will permit the amendment of the existing contract with respect to Camp McKay to provide for fifty additional dwelling units.

Section 3 of the proposed order will permit the Boston Housing Authority to enter into further contracts with the Federal Public Housing Authority for the purpose of providing an additional 1,224 temporary dwelling units for veterans in the City of Boston.

Respectfully,
JAMES M. CURLEY, Mayor.

Federal Public Housing Authority,
Region I,
24 School Street,
Boston 8, Mass., May 10, 1946.

In reply please refer to R-1: JMC:V-19131.

Joseph A. Scoloponi, Corporation Counsel, 11 Beacon Street, Boston, Mass.

Dear Mr. Scoloponi,—Upon further examination of the buildings turned over to us by the Army at Camp McKay, we find that 50 additional temporary family dwelling units can be provided by converting the existing buildings. The resolution already adopted permits the Housing Authority to contract for 226 such dwelling units. That resolution should be amended to provide for 276 temporary family dwelling units and an amended contract should be entered into on that project. At the same time, it might be advisable to have the Council approve a resolution authorizing the Boston Housing Authority to contract for the remaining 1,500 dwelling units allotted to the City of Boston at this time. After subtracting 276 such units, there will be a net balance of 1,224 units.

You will find inclosed five copies of a suggested resolution together with five copies of the amended contract prepared for execution. We shall appreciate your taking the necessary steps to have the City Council approve this resolution at its next regular meeting next Monday. In the meantime, if you could sign the amendment to show it had been approved as to form, we would be able to have the amendment executed by the Boston Housing Authority as soon as the resolution had been adopted by the Council and approved by the Mayor.

Sincerely yours,
HAROLD ROBINSON,
Regional Counsel.

Be it Resolved by the City Council of the City of Boston.

Section 1. That an amendment to Contract No. HA(V-19131)mp-1, dated May 7, 1946, and entitled "Contract with Local Body to Provide Temporary Housing Pursuant to Title V (as amended) of the Lanham Act" on Form FPFA 1481, Rev. 3-18-46 (Region I) be entered into with the Federal Public Housing Authority in order to increase the number of family dwelling units for veterans' housing to be provided by the Federal Public Housing Authority pursuant to said contract from two hundred twenty-six to two hundred seventy-six.

Section 2. That the Boston Housing Authority is hereby authorized to execute said amendment in as many counterparts as may be necessary.

Section 3. That the Boston Housing Authority is hereby authorized to enter into one or more additional contracts on the form entitled "Contract with Local Body to provide Temporary Housing Pursuant to Title V (as amended) of the Lanham Act" (Form FPFA 1481, Rev. 3-18-46, Region I) in order to secure from the Federal Public Housing Authority substantially one thousand two hundred twenty-four additional dwelling units for veterans' housing in the City of Boston. Referred to Executive Committee.

SIDEWALKS ON GASTON STREET, WARD 12.

The following was received:

City of Boston,
Office of the Mayor, May 17, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works, in reply to your order of May 6, 1946, to install granolithic sidewalks on Gaston street, Ward 12.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department, May 16, 1946.
To J. Joseph Connors, Chief Clerk, Mayor's Office.
From Robert P. Curley, Commissioner, Public Works Department.
Subject: Gaston Street, Ward 12.

I return herewith order in City Council that the Commissioner of Public Works install granolithic sidewalks on Gaston street, Ward 12, and this will advise you that the brick sidewalks on this street have just been relaid under contract by the Highway Division.

I regret to advise you that, at the present time, there are no funds available for the construction of artificial stone sidewalks.

However, this street will be put on the list of streets to be given consideration when funds are available for this type of work.

ROBERT P. CURLEY,
Commissioner of Public Works.

Placed on file.

FORT HILL OBSERVATORY IMPROVEMENTS.

The following was received:

City of Boston,
Office of the Mayor, May 18, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, in reply to your order of May 6, 1946, to place the walks, land and benches around the Fort Hill Observatory atop Fort avenue, Ward 11, in first-class condition.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Park Department, May 15, 1946.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of May 11, with inclosure, order from the City Council that the land and benches around the Fort Hill Observatory be placed in first-class condition.

Please be assured every consideration will be given this and we will get to it just as soon as we possibly can with our limited forces.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

RESURFACING OF CERTAIN WARD 13 STREETS.

The following was received:

City of Boston,
Office of the Mayor, May 16, 1946.

To the City Council.

Gentlemen,—I submit herewith communication from the Commissioner of Public Works, in reply to your order of May 6, 1946, to resurface with smooth paving Alexander, Magnolia, Monadnock and Moseley streets, and the streets in the vicinity of St. Margaret's Hospital, Ward 13.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Public Works Department, May 14, 1946.
To J. Joseph Connors, Chief Clerk, Mayor's Office.
From Robert P. Curley, Commissioner, Public Works Department.
Subject: Alexander, Magnolia, Monadnock and Moseley Streets, and the Streets in the Vicinity of St. Margaret's Hospital, Ward 13.

I return herewith order in City Council that the Commissioner of Public Works resurface with smooth paving Alexander, Magnolia, Monadnock and Moseley streets, and the streets in the vicinity of St. Margaret's Hospital, Ward 13, and this will advise you that these streets will be put on the list of streets to be given consideration for construction this year.

ROBERT P. CURLEY,
Commissioner of Public Works.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Joseph A. Calcagno, for compensation for damage to car by city truck.

Mrs. Anthony Giordano, for compensation for injuries caused by an alleged defect in Centre street.

Hoague-Sprague Corporation, for compensation for damage to truck by limb of tree.

Katherina Kneffner, for compensation for collapse of water boiler at 53 Seymour street, Rosindale, caused by water being shut off.

Charles LaMattina, for compensation for damage to property by city truck.

Mac Landa, for compensation for injuries caused by an alleged defect at 66 Walnut park.

Joseph Maubourquette, for compensation for injuries caused by an alleged defect in Savin Hill school yard.

Neisner Brothers, Inc., to be reimbursed for expenses incurred by broken water main on Province street, Boston.

John J. Shanks, for compensation for damage to property at 16 and 18 Massasoit street, Mattapan, caused during installation of sidewalk.

John Stuart, for compensation for damage to truck caused by an alleged defect in North Beacon street.

Mary T. Thornton, for compensation for injuries caused by an alleged defect at 97 Summer street.

Committee on Licenses.

Petition of Ruth E. MacDonald for driveway opening at 34 East Concord street.

Petition of Eastern Massachusetts Street Railway Company for license to operate motor vehicles from Sullivan square to Somerville line.

PERMITS FOR CHILDREN.

Petitions for children under fifteen years of age to appear at places of public amusement were received, as follows:

Edna Cora Johnson, Brown Hall, June 16.
D. Tierney, Symphony Hall, May 24.
Lilla Frances Viles, Hyde Park High School, June 10.

Hazel Boone, Jordan Hall, June 15.
Katherine D. O'Gorman, New England Mutual Hall, May 25.

Permits granted under usual conditions.

APPROVAL OF CONSTABLES' BONDS.

The constables' bonds of the following, having been duly approved by the City Treasurer, were received and approved, viz.:

Anthony Luongo, Michael Ober, Leon Small, Sidney Williams, David Weir.

Approved by the Council.

A petition for transient vendor's license together with bond of Maryland Casualty Company was received from Guiseppina Martiniello at 90 Meridian street, East Boston.

License issued and fee paid and bond approved.

NOTICE OF INTEREST IN CONTRACT.

Notice was received from Merton P. Ellis, member of Board of Appeal, of interest in contract to repair sidewalk at Old State House.

Placed on file.

APPROVAL OF LOAN.

Notice was received from the State Emergency Finance Board of approval of loan of \$2,900,000 to meet appropriations made for Old Age Assistance, term of loan being fixed at five years.

Placed on file.

CONDITION OF NORTH BENNET STREET BATH HOUSE.

Coun. RUSSO offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to immediately improve the sanitary conditions at the North Bennet Street Bath House and to provide sufficient towels and soap for the use of the patrons.

Coun. RUSSO Mr. President, very briefly, I hate to present these orders time after time. However, I cannot help it. This time of the year when many people are going to the North End bath house, they are complaining not only of the unsanitary condition of the bath house, but also the towels. They have not sufficient towels in order to wipe themselves when they get through taking a bath. The towels, I believe, are no larger than ordinary napkins. They give only two towels to a person. Visualize, Mr. President, how impossible it is for anyone after they have done a good day's work to take a bath and try to wipe themselves on two towels that are no larger than the ordinary napkin. Therefore, I hope his Honor the Mayor, through the Park Commissioner, will do something about it, to eliminate these conditions.

The order was passed under suspension of the rule.

REPORT OF COMMITTEE ON RULES.

Coun. LANE, for the Committee on Rules, submitted the following:

Report on order (referred May 13) that Council approves enactment of House Bill 507 for dissolution of Boston Railroad Holding Company—recommending that same be passed.

The report was accepted, and the question came on the passage of the order.

Coun. SCANNELL—Mr. President, last week I made various remarks in regard to this order. Due to the parliamentary procedure in this Body, I was not able to say what I was going to say. I will try to be as brief as possible. This bill in the Legislature pertaining to the dissolving of the Boston Railroad Holding Company is very vital to the welfare of this city. I refer to the monopoly in this city and state and all the New England states that a New York interest, the Pennsylvania Railroad, has over any railroad entering this City of Boston and the Port of Boston. In South Boston alone we have some of the finest docking facilities in the country. Over there in South Boston we have a large percentage of our population who work in these docks and railroad yards. It may surprise the members of this Body to know in the last week there have been three ships in from foreign ports as compared with a number of well over five hundred coming into the port of New York. The New York, New Haven & Hartford Railroad Company charges in the South Boston docks, the Army Base, Castle Island, Commonwealth Pier—and incidentally this is the only railroad coming in to these docks outside their own dock piers Nos. 4 and 5—charges 56 cents a ton for every ton of cargo coming into the port. As I said before, in New York there is not a solitary cent paid by any of these railroads in New York City. This Boston Railroad Holding Company is a subsidiary of the New York, New Haven & Hartford Railroad. They in turn have control of 26 per cent of the Boston & Maine Railroad. The result is that men who are soliciting trade for the New Haven Railroad, I am told on good authority, are told not to ship through Boston but to by-pass Boston, and send it out through the port of New York. This is a bad state of affairs. There is something fishy as far as the Boston Railroad Holding Company is concerned. I think the Senate and the Governor should make sure they do dissolve this Railroad Holding Company. We, in turn, can have other railroads come in here and bid for this business. I do not think there should be any monopoly in any business. It is a sad state of affairs when a gentleman from my district goes up and fights for a public utility company when he is sent there to fight for the workman in South Boston. I refer to John Powers who is connected with Stuart Rand of the Back Bay. Can you imagine the contrast? Here are public officials who are being used as tools for a public utility corporation which is trying to rule the Port of Boston. I say, Mr. President, any man who is sent from the Back Bay or any other part of Boston, if he wants to represent the people, then let him represent them. If he goes up and uses a sheepskin in a legislative body, then he should be disbarred. Any man who uses a sheepskin to put something over should be disbarred. When I see the cooperation of John Hall and Stuart Rand of the Back Bay and, lo and behold, Representative John Powers fighting for the public utilities, it is about time to quit. Mark you, gentlemen, if there is not something done about this, the Port of Boston is going to deteriorate. The New Haven Railroad has by-passed Boston and has shipped anything that is coming from the New England states out through New York. The Boston Port Authority has control over this situation, and I am informing General Kells who has charge of the port that if he does not do something about the Boston Railroad Holding Company and the New Haven Railroad, then Boston and the people of my district, the longshoremen, truck drivers, clerks, anybody supporting his family through working at the docks at South Boston are going to be in a bad way if we do not get rid of the Boston Railroad Holding Company. The International Vice President of the Longshoremen's Union, Dan Donovan, has informed me they have solicited work, seeking shipping from the New England states. He has informed me many a time they were told to send freight through the port of New York. We have one of the best harbors in the country. We have the best docking facilities in the country. It is a sad state of affairs when a company such as the Boston Railroad Holding Company can come in and monopolize the railroad situation here in Boston, ruining this port. I wish to congratulate the members of the House of Representatives who voted to dissolve this company. They have the interests of the people of Boston at heart, especially men from up state, whether they are Republican or Democrats. They know of these conditions. In closing, Mr. President, I hope that the Senate votes to dissolve this Railroad Holding Company. In doing so they will bring about much better business for Boston. It will at least stop some of these men who have no interest or care for the people of Boston. In presenting this order, I did so because it is a move to try to get more ships into our city and get more work for the people of my district.

The order was passed.

PARADE OF BOSTON SCHOOL CADETS.

Coun. BAYLEY, CHASE and RUSSO offered the following:

Ordered, That the City Messenger be directed to rope off the streets along the route of the parade of the Boston School Cadets, to be held on Sunday, May 26, 1946, the expense of same to be charged to the City Council appropriation for Flags, Ropes and Stakes.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON PARKMAN FUND.

Coun. RUSSO, for the Committee on Parkman Fund, submitted the following:

Report on message of the Mayor and order (referred May 6) for appropriation of \$44,000 from Parkman Fund, to be expended under direction of the Park Commissioners, for Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887—recommending that same ought to pass.

Report accepted; said order passed, yeas 17, nays 0.

Yeas—Coun. Bayley, Bryan, Cantwell, Carey, Cook, Fish, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, Muchnick, Russo, Scannell, Sullivan—17.

Nays—0.

INFORMATION RE VETERANS' HOUSING.

Coun. MUCHNICK—Mr. President, prior to the time we adjourned last week there was a motion carried that we go into executive at 2.45 on the question of housing. If there is no objection, I wish that could be done.

President KELLY—I might say that those gentlemen have not been invited to today's meeting. They have been invited to next Monday's meeting, on account of the fourteen days which have to elapse from the reading of the orders. They want to give them a week's notice. They have been invited to next Monday's meeting instead of today.

Coun. MUCHNICK—If they have not been invited, they have not been invited. Some of us wanted a week's time in which to study it over after we get the information ourselves.

President KELLY—That is up to the members of the Council. There is no requirement that it has to be passed next Monday.

DINNER IN HONOR OF SERGEANT CHARLES MACGILLIVRAY.

Coun. LINEHAN and SCANNELL offered the following:

Ordered, That the President of the Boston City Council be requested to designate a delegation of City Councilors to attend a testimonial dinner tendered to the only Medal of Honor winner of the recent war from Boston, Sergt. Charles MacGillivray, on the evening of June 13, 1946.

Passed under suspension of the rule.

President KELLY—The Chair at this time asks that the five veteran members of the Boston City Council be on that committee. Councilor Cook, Madden, Moriarty, Coffey and Linehan. They will please attend the dinner, if possible. At this time the President wishes to add Councilor Scannell's name to the committee. I realize I made a mistake, Sergeant MacGillivray is from South Boston. Will you serve and attend that dinner?

Coun. SCANNELL—I will be glad to.

SUNDAY BASEBALL GAMES.

Coun. SULLIVAN offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Boston American League Baseball Team Officials with a view of starting Sunday games at a later hour now that there is no time limit on Sunday games; and also to broadcast Sunday games such as the game next Sunday between Boston and the New York Yankees.

Coun. SULLIVAN—Mr. President, the reason for this order is because the residents of Boston and the surrounding cities and towns are unable to purchase tickets for next Sunday's game unless they pay \$5 for a \$1.80 ticket, \$8 for a \$2.40 ticket and \$12 for the \$3.60 ticket. The citizens are not in a position to pay that price for one seat. I am asking in this order that the Mayor confer with the officials of the American League to broadcast next Sunday's ball game so that the citizens of Boston who would like to attend this game and are unable to, at least will enjoy it over the radio. I am asking now for suspension of the rules and passage of the order.

Coun. BAYLEY—I am very much in favor of the latter part of the order providing that we request the broadcasting of the Sunday games for those fans unable to get tickets for the game next Sunday—and there are many thousands of them who cannot do it—but I am not in favor of the first part of the order. In the first place, I believe both the American and National Leagues must start doubleheaders not later than 2 p. m.

I cannot see the advantage for the citizens of Boston in having us request it start at a later hour. I believe it should start as it is at the present time. I do not believe it is right to ask this, and I would like to have these orders separated. I believe the order should be two orders. I am opposed to the first half of it. I am in favor of the second. We should pass the part about the broadcasting. It is going beyond our province and is impossible for the League to change under the present circumstances.

President KELLY—I do not know what is in the councilor's mind. He might mean fifteen minutes. If Councilor Sullivan can enlighten you on what he has on his mind, I wish he would.

Coun. SULLIVAN—That was the idea, fifteen minutes later. The reason we want to get the order in today is because of the fact that the scalpers have these tickets. They have secured them months ago. They are asking the people to pay \$5 and \$12. If I had put in the latter part of the order separately, it would have gone to the Committee on Rules and not come out until after the ball game on Sunday. The main thing is to get the Sunday ball games and next Sunday's ball game broadcast, if possible.

Coun. BAYLEY—The order does not specifically apply to next Sunday. The Legislature recently acted to permit the playing of baseball games after 6.30. I understand the ball clubs have agreed that the double headers will start at 1.30. It is unfair for us to go on record asking for a change of time now that the Legislature has given us permission to finish after 6.30. I would like to amend the order for the last half, to act on the last half. I am going to move that the first half be referred to the Committee on Rules. I do not see the connection between the two orders. It ought properly to be two orders.

President KELLY—I think the best thing to do is to refer this order to the Executive Session, and see if you can get together on the order. The order is referred to the executive session.

The order was referred to the executive session.

REPORT OF COMMITTEE ON LICENSES.

Coun. SCANNELL, for the Committee on Licenses, submitted the following:

Report on petition of Eastern Massachusetts Street Railway Company (referred today) for license to operate motor vehicles from Sullivan square to Somerville line—recommending that same ought to pass.

Report accepted; said license granted under usual conditions.

TREATMENT OF IRISH REPUBLICAN PRISONERS.

Coun. SCANNELL offered the following:

Whereas, John McCaughey and David Fleming, citizens and soldiers of the Irish Republic, have made the supreme sacrifice in the cause of their country; therefore be it

Resolved, That the Boston City Council, in meeting assembled, urges that the State Department of the United States Government request the British Government to treat all Irish Republican prisoners as political prisoners, not as convicts; and be it further

Resolved, That a copy of this resolution be forwarded to each member of the Massachusetts delegation in Congress.

Referred to Committee on Rules.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. MORIARTY, for the Committee on Public Lands, submitted the following:

Report on message of Mayor and order (referred May 6) for release of restrictions on land on Harrison avenue—recommending that order pass.

The report was accepted, and the order was given its second reading and passage, yeas 16, nays 0.

Yeas—Coun. Bayley, Bryan, Cantwell, Carey, Cook, Fish, Hannon, Keenan, Kinsella, Kelly, Linehan, Moriarty, Muchnick, Russo, Scannell, Sullivan—16.

Nays—0.

ROPING OFF OF MARY A. HANNON PLAYGROUND.

Coun. HANNON offered the following:

Ordered, That the City Messenger be directed to rope off the Mary A. Hannon Playground on Howard avenue, Dorchester, on Sunday, May 26, for the Memorial Celebration to be held there.

Passed under suspension of the rule.

RECESS.

On motion of Coun. BRYAN the Council voted to take a recess at 3.05 p. m., subject to the call of the Chair. The members reassembled and were called to order by President KELLY at 3.45 p. m.

DESIGNATION OF STREETS FOR INSTRUCTION OF UNLICENSED CAR OPERATORS.

Coun. MUCHNICK offered the following:
Be it ordained,

1. No person shall instruct an unlicensed operator in the operation or control of a motor vehicle on any street or way in which the public has a right of travel except on such streets or ways specifically designated for instruction purposes by the Superintendent of Police.

2. Any person convicted of violating the preceding section shall be punished by a fine not exceeding twenty dollars.

Coun. MUCHNICK—In asking that this ordinance be enacted, I am concerned with the great number of accidents that take place with greater rapidity than ever before, not only in our city but all over the country. We are faced here with two problems. One is we must have some place where people who wish to learn to drive an automobile can receive that information and instruction, and another that those people who are on the highways should be kept as free as possible from situations that may be caused by unlicensed and inexperienced operators. I am not too sure whether this proposed ordinance is constitutional under the General Laws. I would suggest this be sent to the Committee on Ordinances, and that the Law Department be asked to come down and give us their opinion at that time as to whether this ordinance should or should not be enacted. In the event that the ordinance is not enacted, I would suggest that either the Registry of Motor Vehicles or the Police Commissioner take the proper action to designate certain streets for instruction purposes so that everybody would know which streets to stay off of at the right times.

Coun. KINSELLA—I was going to suggest, shouldn't it more properly be the Traffic Commission to designate streets on which instruction could be given? They can tell you at a glance what the traffic load is on any street in the city. I wonder if the councilor will accept an amendment to that extent?

Coun. MUCHNICK—I have no objection to accepting any amendment. It seems to me, Mr. President, that the whole thing should be thrashed out in the Committee on Ordinances.

President KELLY—The Chair will state the order can be amended or revised in the Committee on Ordinances. It is referred to the Committee on Ordinances.

Referred to the Committee on Ordinances.

USE OF ABANDONED CHARLESTOWN SCHOOLHOUSE BY VETERANS.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to consult with the School Committee for the purpose of renovating the abandoned schoolhouse in Charlestown for occupancy by veterans with families until the worst of the housing shortage is over.

Coun. KINSELLA—Briefly, Mr. President, it is my information that the Federal Government allows something like \$1,250 a unit for renovation for public housing which would mean in this case a huge schoolroom might be rearranged into a three-room apartment. Renovation would be paid for by the Federal Government. The schools I have in mind over there are moderately substantial buildings, but because of the decrease in the number of children the school authorities have seen fit to abandon them. In each case they have a huge play yard which would lend itself nicely to the furtherance of the idea of a school in the home, or a home in the school. It is something that I could not criticize. I have my feeling toward the Federal Government and other public agencies for the apparent neglect with which they have treated the housing of veterans. As Councilor Russo said at the executive session, Mr. President, they can spend \$20,000,000 or \$40,000,000 on Army camps preparing for the business of killing, but they cannot seem to find a solution for the housing problems of these married veterans. I have an opinion of my own which I want to express. I think that the Federal Government is directly responsible for the chaotic conditions that exist today in public housing for no other reason than that they increased the base pay of the privates from \$30 to \$50 a month. They arranged an allotment system that more or less encouraged marriage. While the pay itself was well justified—\$50 is not much for the chance any of them took—I do not think the allotment system was properly devised. It encourages marriages which we find today are falling apart. In many instances, the parties are sincere in their marriage intentions. They cannot carry them to fulfillment. I think the Federal Government is deliberately and strictly to blame. It is a rather easy matter for a young boy going into service and having kept company for any period of time to suddenly decide on getting married because the Federal Government will give her \$50 a month for herself. As we know, she could continue to work during the war period. I think that is one of the reasons—

Coun. COOK—Will the gentleman yield for a question?

Coun. KINSELLA—Yes.

Coun. COOK—Is it my understanding the councilor is against more marriages, or is he against the government's policy of making marriages more frequent?

Coun. KINSELLA—I think that the councilor from Ward 12 (Coun. Cook) has not followed what I said. I said I thought the Federal Government in setting up the allotment system made it convenient and easy for people to go into marriage more or less rashly. I did not use the term before. I use it now. The allotment system brought money to the wife. Now we see the marriages falling apart for two or three reasons. First, because they were hasty and should never have been entered into. Secondly, and probably most important of all, there is the fact that there is no housing. I think it is something to ponder, although the damage has been done. As a lawyer I think the councilor from Ward 12 (Coun. Cook) knows what the divorce proposition is today among young veterans. There are many cases of abandonment. There are many cases of—I have forgotten the term the attorneys use—infidelity, proven infidelity, during the war. Now we have resolved ourselves to help them to the limit of our ability. The very best we can do for hasty housing is to put them up in barracks, on public fields or in this case, schoolhouses. I do not think the criticism is unwarranted. I do not think it is unreasonable, in line with many things the government did or did not do during the war. They probably prostituted the idea of marriage because they have encouraged it on the money basis. Now we see them reaping the fruits of the whirlwind. This could probably go to the Committee on Housing, Mr. President, because as I understand it, the Committee on Public Housing takes matters referred to it only where housing is already established. I would like to have suspension of the rule and passage of the order.

The order was passed under suspension of the rule.

IMMEDIATE USE OF PEOPLES PALACE HOTEL.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Boston Housing Authority to see if some immediate use cannot be made of the Peoples Palace Hotel recently acquired by the Boston Housing Authority.

Coun. HANNON—Mr. President, I think each one of us is conversant with the fact that there is the greatest need for housing. It seems to me a little strange that the Boston Housing Authority acquired a building formerly used by the Salvation Army at the corner of Brookline and Washington streets in the South End. The People's Palace Hotel did fine work. I know that myself. As I understand it, the building is in fine condition. Yet, strange as it seems, with all the housing shortage, the Housing Authority acquired the building. Instead of opening it, it is closed. This building used to house characters and individuals who were up against it. The people went there of a night to obtain a night's lodging. We are going to take veterans and put them into overnight cabins or any covered wagon we can find. Here is a hotel, a building operated up to the very moment it was transferred to the Authority. Why not keep it open? Why not house some veterans there? There might possibly be a few renovations necessary. Here is a good, substantial building, a building used for housing for years. We complain that we are having a housing shortage in the city. Yet we take a building that was built to accommodate people, to house people, and instead of opening it, we shut it down. The Lord knows what is going to become of it now. I suppose it will merely deteriorate and rot and it will be there a year or two before the Authority gets around to tear it down or replace it. I think in an emergency such as this that building could be used far better, both for the building itself and for the veterans, than it is being used. It is not being used at all. If we need homes and rooms, why not open this up? If the Boston Housing Authority cannot do it, then I think some arrangement should be made. Probably our Welfare Department could do it. There are good rooms up there in a good building. I hope that the city will not permit them to go to waste.

The order was passed under suspension of the rule.

EXECUTIVE COMMITTEE REPORTS.

Coun. FISH, for the Executive Committee, submitted the following:

Report on order (referred today) concerning Sunday baseball games—recommending passage of order in new draft, viz.:

Ordered, That his Honor the Mayor be requested to confer with the officials of the Boston American League Baseball Club with a view to starting Sunday games at a later hour, now that there is no time limit on Sunday games, but not later than 2 p. m., if a doubleheader, and 3.15 p. m. if a single game; and also to broadcast Sunday games such as the game next Sunday between the Boston Red Sox and New York Yankees.

Report accepted; order passed.

SPECULATION ON BASEBALL TICKETS.

Coun. BRYAN and CANTWELL offered the following:

Ordered, That his Honor the Mayor be requested to ask the Police Commissioner to take the necessary steps to prevent ticket speculators from peddling tickets on the sidewalks to patrons of the baseball parks and demanding from these patrons an amount as much as three times the original price for such tickets.

Coun. BRYAN—Mr. President, I understand that the game for next Sunday is a sellout and there are no tickets available at the present time. I believe on the game to be held next Sunday there will be plenty of scalpers out on the sidewalks peddling tickets for two and three times the amount of the original price. I think it is about time that the Police Commissioner took steps to prevent this from being carried out whenever there is a large game, a sellout game in Boston.

Coun. CANTWELL—My reason for the order was it is a situation which denies the workingman, who cannot afford to pay as high as \$25 for a ticket, a chance to see the game. These few scalpers have monopolized the tickets some two weeks before the game, and they deny the workingman who cannot afford to pay these enormous prices for the tickets a chance to see the game.

Coun. BAYLEY—Mr. President, in line with this order I also hope that the baseball clubs, particularly the Boston American League Baseball Club, will consider the advisability of placing in reserve tickets on sale at the box office. I understood all reserve tickets for Sunday's doubleheader with the Yankees were sold through the mail. Preference was given to those who mailed in applications rather than to those who went to get the tickets at the box office. That enabled the people from all over New England to come to the game. The Boston fans should have the first chance at the tickets. Half of them should be placed on sale at the box office and half should be sold through the mail. In this way Boston fans who are willing to take time to purchase tickets may go to the game. They have the right to have first call on the tickets. I believe tickets should be put on sale at the box office on the basis of first come, first served, rather than the system of mail order sale which has been created, which has been criticized in at least one newspaper and which criticism can be made justly.

The order was passed under suspension of the rule.

VOICING OF OBJECTIONS BY CANDIDATES FOR OFFICE.

Coun. RUSSO—Mr. President.

President KELLY—Have you an order?

Coun. RUSSO—I have not written it down as yet. I would like to have a few seconds to write the order out.

President KELLY—The Chair will call a recess for one minute and Councilor Russo may write his order.

Coun. RUSSO—If I may at this time, while waiting so that the order may be written up, I would like to express the intent of the order so it will save time. The order is to have his Honor the Mayor confer with the Corporation Counsel with a view of preparing legislation for the Legislature to change the existing law in so far as the objections of candidates for office is concerned to have it appear seventy-two hours after the withdrawal of any candidate and not that the objections should be made at the time of the withdrawal. The reason for that order, Mr. President, is that just on this election for nomination that will take place on June 18, candidates who have filed for various offices who were certified first by their local governments, by the local election commissioners, and then presented to the Secretary of State, have a time limit on the date set for withdrawal. Mind you, you have to put in your objections not later than the same day and hour that a person withdraws. I ask you, Mr. President, how can any candidate truthfully object to any papers that have been signed by the voters for a candidate when at possibly five o'clock p. m. on May 3d, for instance, how can I know who is staying in a contest and who withdraws until the time limit has expired? It is unfair that a candidate for office must, without knowing who his opponents are, object to the nomination papers before that time. I maintain that individual candidates should have at least seventy-two hours after the last day and hour for withdrawal, so that he knows who is a candidate and who is not. It will give him the opportunity if he so desires to put in his objections on those nomination papers. I am sure, Mr. President, that on this nomination for the various offices and in particular, the Eleventh Congressional District, something should be done about some of my opponents who have placed their names as candidates, because their papers were forged. I was under the impression, which I believe it is logical to assume, that it is the same as we have here in Boston, we have seventy-two hours to object after a person has made his withdrawal or his intention to stay in the contest. Therefore, I hope that the State Legislature will see fit to modify that law in order to give any person who aspires to public office an opportunity to object to any person's or persons' papers that have already declared their

intention of staying in the contest. I hope his Honor the Mayor, with his Corporation Counsel, will prepare such legislation.

The order presented by Coun. RUSSO was as follows:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to draw up legislation which would give candidates, withdrawing from public office, seventy-two hours in which to voice objections instead of at the time of the withdrawal.

The order was referred to the Committee on Legislative Matters.

Adjourned at 4.15 p. m., on motion of Coun. SULLIVAN, to meet on Monday, May 27, 1946, at 2 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

Apr. 29, 1946.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 12:40 o'clock P. M., the Chairman presiding:

Present: Messrs. Foley, McDevitt, Norton, and White.

APPROVAL AND AMENDMENT OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

On motion, the minutes of the meeting of May 1, 1945, were amended as follows:

On page 56, to provide that the appointment of John B. Gibbons, Jr., instructor, military drill, Department of Physical Education, shall read "seventh year."

TUITION OF NON-RESIDENT PUPILS

A communication was received from M. Norcross Stratton, Division of Vocational Education, Massachusetts Department of Education, under date of April 29, 1946, reporting that a tuition rate of \$.40 per hour of service is approved and effective Sept. 1, 1945, for non-resident pupils attending the Boston Continuation School.

Placed on file.

DEATH

The Superintendent reported the death of the following-named teacher:

Jeremiah E. Burke High School for Girls—Elizabeth A. Skirball, assistant, Apr. 24, 1946.

Placed on file.

RETIREMENT ON PENSION

The Superintendent offered the following:

ORDERED, that the following-named person is hereby retired on pension in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, Chapter 304 of the Special Acts of 1915 and Chapter 685 of the Acts of 1945, the date of retirement and rate of pension to be as hereinafter specified:

Department of Manual Arts—Bertha A. Pettee, assistant in Manual Arts, May 10, 1946, \$900.

Passed, the four members present voting in the affirmative.

APPOINTMENTS

The following appointments by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the date stated, were presented:

GARDENING

Season of 1946

(To take effect Apr. 22, 1946)

Garden assistant—Ruth E. Delano, Ida Feldman, Louisa A. Gilbert, A. Ruth Hickey, Mary M. Miller, Carolyn V. Murphy, Edith I. Swanson.

Approved.

REPORT ON ATTENDANCE AT CONVENTION

A communication was received from the Superintendent, under date of Apr. 29, 1946, submitting in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Joseph A. Hennessey, Director of Visual and Radio Education, on his attendance at the Convention of the American Association of School Administrators, held at New York City, Mar. 4 to 7, 1946.

Placed on file.

LEAVES OF ABSENCE TO CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of Apr. 29, 1946, recommending that the following-named custodians be granted leaves of absence on one-half compensation for the periods specified because of personal illness:

Paul E. Butler, senior custodian, Dillaway Schoolhouse, May 1 to 31, 1946.

James J. Curran, senior custodian, Quincy E. Dickerman Schoolhouse, May 1 to 31, 1946.

Frederick N. Eaton, senior custodian, Roger Clap Schoolhouse, May 1 to 31, 1946.

Frederick A. Fitzgerald, senior custodian, Julia Ward Howe Schoolhouse, May 1 to 31, 1946.

Joseph R. Hurley, junior custodian, Boston Clerical Schoolhouse, May 1 to 31, 1946.

Angelo Macello, senior custodian, Prince Schoolhouse, May 1 to 31, 1946.

John J. Mullane, senior custodian, Ellen H. Richards Schoolhouse, May 1 to 31, 1946.

John Murphy, senior custodian, The Teachers' College, May 2 to 31, 1946.

James A. Spillane, senior custodian, Mozart Schoolhouse, May 1 to 31, 1946.

Charles F. Sullivan, senior custodian, Copley Schoolhouse, May 1 to 31, 1946.

Edward D. Ward, senior custodian, William E. Endicott Schoolhouse, May 1 to 31, 1946.

Placed on file and leaves of absence on one-half compensation granted for the periods specified.

RECESS

On motion of Mr. White, the Committee took a recess until tomorrow morning, Tuesday, Apr. 30, 1946, at 11 o'clock.

Apr. 30, 1946.

At the conclusion of the recess, the four members reassembled and were called to order by the Chairman at 12:05 o'clock P. M.

The Chairman stated that the Committee would consider the annual appropriation orders for the maintenance of the public schools for 1946, which orders had been vetoed by His Honor the Mayor and returned with the suggestion that a careful study of the budget would disclose the possibility of an overall reduction in the 1946 budget of one million dollars.

In connection therewith, the following discussion ensued:

Superintendent: The Municipal Research Bureau has suggested a reduction in the appropriations, item by item, of some \$600,000-odd. The City Auditor suggested a reduction in the budget of something like \$350,000 or \$400,000. And the Board of Apportionment has suggested reductions in the neighborhood of \$90,000.

Mr. McDevitt: \$50,000.

Superintendent—Could you get any agreement among the members of this body now about whether they want to adopt one of those three propositions or a fourth and new proposition?

Mr. White—Time is so much of the essence today that I think we are going to vindicate what some members of this Committee admitted, that they are going to pass another budget without knowing what it amounts to or where the money is going. If you accept an arbitrary figure, nobody knows.

Superintendent—You have very definite figures submitted by the City Auditor and from the Municipal Research Bureau on each of the major items.

Take "Salaries of Administrative Officers, Salaries of Supervisors of Attendance, Salaries of Principals and Teachers, Supplies, Equipment and other items." There is a very definite recommendation for each one of them.

Business Manager: Definite as to totals.

Mr. White: You yourself and your Board disagree. You said that you did not believe you could keep up the activities recommended by the School Committee and reduce the expenditures as the City Auditor suggests.

Superintendent: That is right. The point I am making is this, that even yesterday the Municipal Research Bureau said that some of these reductions here are purely matters of policy. If

you are going to take \$40,000 off playgrounds, then the School Committee has a policy of curtailment.

Dr. Foley: I move that we accept the new figures of the cut of \$635,000.

Mr. White: You cannot do that. You have to have a motion to override the Mayor's veto.

Chairman: That is a technical question.

Mr. White: Have we done that?

Chairman: No.

Dr. Foley: We automatically do it by accepting the new figure.

I move that we accept the new budget with the figures submitted by our Chairman.

Chairman: I second that motion.

Dr. Foley: That will bring it to a head. Either you do that or you will go back to a \$1,200,000 reduction.

Mr. White: There is no budget before you now.

Chairman: The question that you gentlemen are arguing is this: The Mayor has sent back the budget; he has vetoed it. Do we have to vote on that veto? Or isn't it all right to submit a budget to the Mayor that he said he will accept?

Mr. McDevitt: We have until midnight tonight.

Chairman: If we do not accept this budget we revert to \$1,200,000 less.

Asst. Supt. Downey: I think there is another little legal difficulty. So far as the Department of School Buildings is concerned, I think we have to have an opinion from them in the minutes on the new budget.

Dr. Foley: You do not have to have their opinion. We formulate the budget.

Mr. White: You are limited by law.

Asst. Supt. Downey: If you are going to cut Land and Buildings and Alterations and Repairs, you must submit that to the Department of School Buildings and get the written opinion of that department, and, I think, Mr. Mooney.

Business Manager: Haven't they given us an opinion?

Chairman: I do not think it is necessary. If I vote to override the Mayor's veto somebody here can say, "Fine! Good night! Good-bye!" I am not ready to do that. That was my original intention until Mr. Downey said, "You have to." That was the considered opinion here.

I felt it would be the best thing if we could get together here on something and pass it in preference to that cut of \$1,200,000.

There is nothing in there that says we must first vote on the Mayor's veto before voting a new budget.

Dr. Foley has presented a motion for a budget with \$635,000 off. The question is, as I see it, to accept one of these budgets or accept a cut of \$1,200,000.

Dr. Foley: I move its acceptance.

Mr. White: I am trying to go according to what advice I can get. I only know that you are guessing and I am guessing and we admit that we do not know what it is all about. We are arbitrarily cutting the budget \$1,184,000 or \$636,000, and we do not know what the result will be, and nobody is able to tell us.

Chairman: Here are my results (referring to recommendations of Municipal Research Bureau).

Mr. White: They disagree. The only authority you have is Mr. Costello. I would vote for Mayor Curley's reduction if I thought it was basically sound. If I thought there was \$1,184,000 too much I would vote for that as soon as I would vote for Mr. Costello's figures.

Chairman: It is a question of accepting this or twice the amount.

Superintendent: May I read from this letter, written in 1935 when Mr. Mansfield was Mayor of the city and he vetoed the school budget. He said in his last sentence, "I am returning the two appropriation orders, which I have not approved."

That means that the Mayor has the right to veto the budget as a whole or he has a right to veto any item in it.

Here is the action of the School Committee right after that:

"The question comes on the passage of the first order appropriating \$16,000,000 for the maintenance of schools, notwithstanding the veto of His Honor the Mayor.

"The Secretary was directed to call the roll." And the roll call was Yes, Yes, Yes, Yes.

The question came on the passage of the order and they voted Yes, Yes, Yes, Yes, making four votes.

(The School Committee record with respect to the vote on each appropriation order was read.)

Chairman: The four votes are our hurdle.

Superintendent: Having received a veto message they considered the various appropriation orders.

Chairman: I agree with you that if we override the Mayor's veto we can send it right to the Board of Assessors, but we are not overriding his veto.

Dr. Foley: I think he would be willing to compromise on anything. We did not hear from Mr. Fox and Mr. Carven until they had looked at our budget.

Superintendent: I still think that the power to appropriate rests with the School Committee.

Dr. Foley: I do, too.

Mr. White: This is winding up in strictly a deal.

As I understand it now and as the situation has arisen, we have the choice of one of two things, because Mr. Norton says he will not vote to override the Mayor's veto unless we agree to take off \$636,000. As a consequence we need four votes and we have to do it by May 1. If we do either of those two things we do not know

exactly what must be curtailed. We are guessing. I want to get this budget down to the lowest possible amount. I do not know whether Mayor Curley's cut of \$1,184,000 is better than the figure or the guess of the Municipal Research Bureau, whether Mr. Norton's is the better figure or whether we should go along with your advice.

Once we do this without giving faith to the advice of the Board of Apportionment; once we throw your advice out the window, I don't know how we might be justified.

I would like to go along provided the School Committee agrees to this—and I put this now in the form of a motion before any action is taken. These are the three motions.

First of all, that we shall agree that where vacancies occur in the teaching staff alone, they will be filled when the numbers are there.

I do not mean excess teachers. I mean where there are legitimate vacancies according to numbers, so that the youngsters will get the necessary amount of teaching and we will not take anything away from them.

Asst. Supt. Downey: If you do that you ought to cut something off.

Chairman: Your suggestion is that where teachers leave the system on pension or marry and there is a vacancy—

Dr. Foley: City-wide.

Mr. White: Provided the vacancy is there according to pupil numbers, so that we will not be building up pupil numbers at the expense of this cut, so that we will not take it out of the teaching staff.

Chairman: I claim on that that the whole system has to be revamped and revised, where there are over 300 classes with less than 15 pupils in them.

If you are going to replace a teacher with 10 pupils out at the Clerical School, we are never going to get anywhere.

Mr. White: If we have a teacher teaching less than 15 pupils there is no vacancy there. So we would not be appointing excess teachers. I am only saying to go according to the rules, where we will not be building up the pupil load.

Chairman: The only point is this: We must remember that we have gone from 137,000 pupils to 90,000, and we must re-district the whole set-up. We have over 300 classes with 15 students.

Mr. White: Is that so?

Chairman: In 1943 there were 285.

Superintendent: That includes temporary teachers, and your regulations allow a temporary teacher for ten excess pupils. The Strayer Report makes no distinction between a temporary teacher and a regular teacher.

Chairman: I have brought out the point I am making. Your system is falling apart. You had 137,000 and you are down to 90,000.

Superintendent: Under your rules and regulations if you have 45 pupils in a class you may employ a temporary teacher to take care of ten pupils. When the Strayer group counted the classes—and Mr. Connor was the man who did that—I took the matter up with him and he said, "We are counting groups of pupils wherever there is a teacher."

Dr. Foley: The temporary teacher will get more pupils than the permanent teacher.

Mr. White: The second point is that no vacancies now in the supervisory staff—and by that I do not mean the supervisors of elementary teachers, because I believe there should be supervision of them—I mean in the administrative offices and in the supervisory staff, that no such vacancies be filled and no new jobs created. And I want that accepted.

There is one further motion I want to make, and if that is agreeable to this Committee I will go along with the reduction of \$636,000.

Dr. Foley: I thought you did not want to trade.

Mr. White: Time is of the essence. If you do not want to trade I will stay here till twelve o'clock. I am asking you if you will accept this. If you don't, all right.

I have one other thing. This will take four votes because there will be rules established and I will submit them as such:

"That before the School Committee takes final action on any motion for salary changes from group to group or for the creation of new jobs, said motions shall be publicized for a full month before any final action can be taken by this Committee, publicized not only in the public records of the School Committee but posted in every school building."

Chairman: That is what Buckley wants.

Mr. White: That, I think, is a very fine suggestion.

If those things are done over a period of years, I think you will automatically eliminate a lot of top-heavy salaries and top-heavy positions and you will cut the administrative costs considerably and perhaps you will save \$636,000 in a period of four years.

Chairman: Some of these propositions I will defend right away.

So far as new jobs or promotions are concerned I am going along with the Superintendent's suggestions as I have in the past.

Dr. Foley: We do not get the appointments until the day of the meeting, so that it would be up to the Superintendent to publicize them at his convenience as he sees fit.

Mr. White: That does not mean a thing. By vote of this Committee we have abolished a job and the next year recreated it and put a new man on the job. That is why this budget is the way it is, that is why we have reached our

appropriation limit, and that is why you are admitting again today that you do not know what is going to happen when you cut off \$636,000.

Chairman: You are not talking for me. I know what is going to happen.

Mr. White: Because one group of people came up here last week and gave you a figure, you took it.

Chairman: Are you telling me where I got my information?

Mr. White: Yes; you told us yesterday.

Chairman: Don't you think I do some investigating and thinking on this?

Mr. White: No.

Chairman: That shows how far apart in our ideas some of us are.

Mr. White: We have been far apart in a lot of cases and we will continue to be if this is the way it is going to happen. You voted for this budget originally and the next day you told the Mayor you didn't know a thing about it.

Chairman: My answer to you is this: The budget involves thousands of items. We do not have the time in an hour or two hours a week to go through all those items. These men who are experts admit they are confused. Here is a man out of Harvard, Mr. Costello. Here is the City Auditor, who said, "I don't understand many of the items in it."

To answer you specifically, as one man who works for a living and comes here for about two hours a week or less, I do not have the time to go into these individual items and I do not know of any human being who could.

A budget went to the Mayor and he questioned it. With these men helping me I put in a week, working nights, on it. As a result of that extra research this is what we have come up with. I do not claim I have done anything wrong. The inference is that I voted for a budget and changed my mind. I will change my mind on anything when I am convinced that I have been wrong. I have changed my mind a number of times and I will change it again. The only individual who is 100 per cent consistent is the man who doesn't think. Where do we go from here?

Mr. White: I would like to re-submit the three orders drawn up by the Secretary and have them voted upon. If you vote them down, I will take what action I please.

The Secretary read the three orders referred to, as follows:

1. ORDERED, That the members of the School Committee agree where vacancies occur in the teaching staff alone, they will be filled when the numbers exist according to our rules. This is to be city-wide.

2. ORDERED, That the members of the School Committee agree that no vacancies now in the supervising staff (Administrative Offices) be filled and no new jobs created.

3. ORDERED, That the members of the School Committee

agree that any motion made by a member of this Committee that any new change in salaries or group to group or any new jobs created, shall be published, not only in the public records of the School Committee but shall be posted in every school building, one full month before any action can be taken by this Committee.

Dr. Foley: I have the original figures here. I would like to change those figures to the new figures, around \$636,000 less than the figures submitted at the Mayor's office in the last budget conference.

If the Business Manager will change his figures to meet the new figures we will probably present to the Mayor or the assessors a figure of \$16,461,061.87.

Business Manager: I would suggest that you read that again. What Mr. Norton has now, I think, covers what you have in mind.

Mr. White: Any member of this Committee has the power to cut that budget \$636,000 or any amount.

Business Manager: One member?

Mr. White: One member today can cut that budget as much as he wants.

Asst. Supt. Downey: You have to have four votes.

Dr. Foley: One member can suggest a cut and it has to go to a vote of four.

Asst. Supt. Haley: They can take from the School Buildings budget \$119,000 of the \$636,717, and they can take the remainder of the \$636,000 off the general budget of \$16,000,000.

Dr. Foley: \$517,000 off the general budget and \$119,000 off the School Buildings budget.

Mr. White: You are suggesting taking \$119,000 off the School Buildings budget without notifying the Buildings Department what you are going to do.

Asst. Supt. Downey: It is true that some time since he wrote us a letter, which I think we should use in the minutes, expressing his desire to keep that entire amount.

Business Manager: You could reduce it any time.

Superintendent: If the School Committee votes to reduce his budget it is reduced. Not only that, but I have already asked him, in case the School Committee did reduce his budget by \$119,000, what items he would cut, and he is prepared to give that statement.

The following is the letter from the Superintendent of Construction in the Department of School Buildings referred to:

April 17, 1946.

School Committee, City of Boston,
15 Beacon Street,
Boston, Massachusetts.
Gentlemen:

Concerning the proposed reduction of the 1946 budget of the Department of School Buildings in

the amount of \$119,126.71, I comment as follows:

Positions now vacant.

Since 1938 the department personnel has been decreased in numbers from 82 to 60 persons, affecting the functioning of each division of the department. Further restrictions prohibiting the employ of additional skilled men will, in my opinion, so limit the capacity of departmental divisions to produce the work necessary to properly maintain the huge school plant of approximately 280 buildings that the rate of building deterioration and depreciation may approach a condition which could be considered dangerous to the occupants.

As Superintendent of Construction I am now working without the assistance of a Deputy Superintendent, whereas in previous years there have been two deputy superintendents, one less in number than permitted by the statute creating the department, to assist in an administrative capacity. With such a great number of buildings in the school system, and the distances between buildings being what they are, to think that one man, without assistance, can acquire economic expenditure of funds and reasonably satisfactory work value, is incredible. I ask that the amount for payment of salary to a deputy superintendent of construction not be omitted from the budget.

Roofs of the same 280 odd buildings are now being inspected by one man and to believe that all required roof inspections can be done satisfactorily by one man is preposterous. The immediate need of the services of an additional roofing inspector cannot reasonably be questioned. I ask that the amount for payment of salary to a roofing inspector not be omitted from the budget.

The architectural division, now composed of one architect, one architectural draftsman and one structural engineer, all efficient, conscientious professional workers is greatly in need of assistance to produce for record and contractual purposes the many architectural and structural drawings now mandatorily required by the Massachusetts Department of Public Safety and the City of Boston Buildings Department. I ask that the amount for payment of salary to a draftsman not be omitted from the budget.

During the past year the services of three inspectors were terminated by death and retirement and at least one inspector, a person whose services are almost indispensable, will be obliged to retire June 1st of this year. For these reasons I believe I am unquestionably justified in asking that the amounts for payment of salaries for two inspectors not be omitted from the budget.

Referring to the proposed reduction of \$100,000.00 from Item E of the 1946 budget, it should be noted that in twelve of twenty-one items amounts re-

quested in the 1946 budget are less than the actual expenditures of 1945, attributed to respective items. Although the budget for the grouped E items is \$114,500.00 larger in amount than the 1945 budget, it should particularly be noted that the increased amount is brought about mainly by Item 4, Fire Escapes, New and Repair, and Fire Protection, and by Item 21, Roofing.

Item 4. The sum requested allows, not only for the maintenance and repair of fire escape structures and enclosures, appliances and appurtenances used in connection with fire protection, approximating an annual expenditure of \$30,000.00 but also allows what, I believe, would be a minimum amount necessary to incorporate in a small number of school buildings changes required by provisions of a law now applicable, but not heretofore applicable to Boston.

Item 21. Roofs of school buildings, regardless of their type, copper, slate, rolled, tarred and gravelled, asphalt, zinc and other materials, and regardless of their construction, pitched, flat, concaved, convexed, mansard or otherwise, have, in the year 1945, been subjected to weather elements more severe than in many previous years and have been affected in much the same manner as street surfaces, a condition you gentlemen have knowledge of. They are very definitely in need of inspection and repair, and to allow them to remain in an unrepaired condition is to invite excessive abnormally expensive lathing and plastering repairs and prohibition of interior painting and decoration. Corrosion of structural members and deterioration of masonry caused by leaking walls and roofs can and will, if allowed to progress, cause failure in a structure. The necessity of providing required repairs cannot be conscientiously overlooked. I ask that the proposed reduction of \$100,000.00 from Item E remain in the budget.

Land and Buildings for Schools.

As I believe the disposition of the amount of \$9,126.71 is entirely within the jurisdiction of the City Auditor, I have no comment to make.

Appropriate to the subject.

As of the close of business Tuesday, April 16, 1946, the total encumbrances entered upon the books of this department are as follows:

General alterations and repairs	\$164,230.32
Salaries, E. C. A., Administrative Expenses	60,727.42
	\$224,957.74

Although approximately 18 per cent of the submitted budget, or approximately 21 per cent of the proposed reduced budget has already been encumbered by commitments for absolute minimum repair requirements to permit continued functioning of school buildings, in the amount stated above, not a single exterior repair, such as the work of roofing, painting, masonry pointing, water-

proofing, carpentry, fencing, repair of walks, resurfacing of yards or landscaping has been started. Neither have any requests of school principals for interior painting, repairs and other work not immediately necessary for school functioning been honored, pending the final approval of the budget. Likewise, requests for incorporation of work in the buildings by other authorities have been held in abeyance pending approval of the budget.

Gentlemen, it is my firm and honest opinion that, with prevailing labor and material costs such as they are, the school plant cannot be properly maintained at a cost less than the amount submitted for approval in the Department of School Buildings budget for 1946, namely \$1,211,730.00.

Very truly yours,

(Signed) James H. Mooney
Superintendent of Construction.

Business Manager: That statement that Mr. Norton has, which was prepared by the Superintendent and myself, overrides the Mayor's veto and also reduces the budget, if the Committee votes for it, either by what the Board of Apportionment recommends or some other reduction.

Chairman: In the first place, what we vote here today regarding the three orders mentioned by Mr. White, means nothing.

Mr. White: Why?

Chairman: Because tomorrow we can vote to do as we please.

Mr. White: No. It takes four votes to change the rules. I wouldn't doubt that they were changed the day after tomorrow.

Dr. Foley: The rules are under revision.

Chairman: I don't know why we should be going to pass three orders changing the rules today.

Mr. White: I thought they were self-evident.

Chairman: One has been proposed by a certain group. You want me to agree that before the School Committee takes final action on any motion for salary changes from group to group or for the creation of new jobs, said motions shall be publicized for thirty days.

Mr. White: Yes.

Chairman: I am elected by the people. I am going to vote for whoever the Superintendent recommends.

Mr. White: The purpose of that is so that you will have a healthy situation here, so that you will not do things that you will later change your mind about; you will have thirty days to get all sorts of information.

I am not unmindful that there are many changes here that add a lot to this budget. I may have been guilty of some. On some I would like to change my mind.

Dr. Foley: Mr. Superintendent, do you recommend that thirty-day notice?

Superintendent: I would want to think it over. Suppose a

vacancy occurred in the principalship of the Mary E. Curley School.

Mr. White: I have a motion here that vacancies occurring in the supervisory (administrative) staff, such as masters, principals, and heads of department, shall be filled. Vacancies of teachers are regulated by pupil numbers in the district. That motion does not affect them?

Superintendent: No.

Mr. White: The motion I made is perfectly clear and the purpose of it is clear.

(The motion was read as follows:

"That before the School Committee takes final action on any motion for salary changes from group to group or for the creation of new jobs, said motion shall be published for a full month not only in the public records of the School Committee, but shall be posted in every school building.")

Superintendent: That refers only to new positions or new jobs.

Mr. White: And changes in salary of individuals or salary changes from group to group.

In the light of that motion, what objection have you to that?

Superintendent: As regards the creation of new positions or advancements?

Mr. White: That one particular motion.

Chairman: How have we gone along for a hundred years without that?

Mr. White: We have gone along for a long time without getting into the predicament that we are in today.

Chairman: I am up here today on the budget and I am not going to consider some of these matters, some of which I may agree with.

It is a question in my mind whether it is a cut of \$636,000 or \$1,200,000.

Business Manager: Can't that memorandum on the veto message of the Mayor be read?

Chairman: The School Committee, having considered the veto message of His Honor the Mayor at this meeting, held on April 30, 1946, and being convinced of the impossibility of reducing its appropriations by the amount of \$1,000,000, as suggested by the Mayor, does now adopt the following appropriation orders, notwithstanding the veto by the Mayor, for the purpose of notifying the Board of Assessors of the amount to be raised by taxation for schools. The total of the following appropriation orders is \$636,717 less than the total of the appropriation orders passed at the meeting of Mar. 28, 1946.

Mr. White: This is not the Business Manager's idea. The Business Manager has told us officially that he cannot reduce the budget.

Chairman: The Business Manager is merely talking about the nomenclature.

Dr. Foley: I move the acceptance of that.

Chairman: I second the motion. Business Manager: The Superintendent and I drew that up.

Mr. White: When did you draw it up?

Business Manager: Several days ago.

Mr. White: Evidently you knew they were going to wind up with a \$671,000 reduction.

Business Manager: It is wholly dependent on what the School Committee wants to do; whether it wants to accept the Board of Apportionment's recommendation, the City Auditor's recommendation, or the Municipal Research Bureau's recommendation.

Mr. White: You are still standing on the Board of Apportionment's recommendation?

Business Manager: As an individual and with the other members of the Board of Apportionment.

Mr. White: I want to submit to the School Committee an order. In filing that order here does it mean that once this order is accepted by four votes it is a rule of the School Committee?

Chairman: That would have to be at two meetings.

Dr. Foley: It could be rescinded at another meeting.

Chairman: We can pass your rule by four votes and rescind it at the next meeting.

Mr. White: If I file an order for a change in the rules and you vote to amend the rules, that new rule is laid over for a week, but four votes would suspend that rule requiring it to lie over for a week, so that it would go into effect immediately.

Dr. Foley: I think to proceed with a change in the rules under the present circumstances would be coercion of the School Committee. I do not feel that they have any place here at a budgetary meeting, because they are devoid of anything to do with the budget.

To take up matters pertaining to the rules and regulations would not be fair to Mr. Ward, who is a member of the Committee. He should be here listening to this creation of Mr. White. That is only my opinion. I do not think they are in order. I do not think they should be brought in at this particular time.

I think their introduction at this time is taking advantage of the members of this Committee, who have been very decent and very nice about trying to settle the budget. That is only my thought.

Mr. White: If I was not decent I would apologize to you. I resent the fact that you inferred that I was not considerate of Mr. Ward. I resent that.

Dr. Foley: Mr. Ward is not here.

Mr. White: And we are considering the budget without him. I have as much right to present this motion in the absence of Mr. Ward as you have to pass the budget without Mr. Ward.

Dr. Foley: Heretofore we have always taken these matters up in conference and we have argued them pro and con.

Mr. White: You have had a lot of conferences where all of the members were not included.

Chairman: Shall we consider those items today? I make a motion that the budget only be considered today. I would like to study this.

Mr. White: They are as much a part of this budget as anything else. I am going to submit these anyway.

Chairman: I make a motion that nothing be considered here except the budget.

Mr. White: I submit an order that when the members of the School Committee agree that vacancies exist in the teaching staff they will be filled when the numbers exist according to our rules.

Superintendent: That is your present policy.

Chairman: As I see it, Mr. White is trying to protect himself if we do not have a teacher for a class.

Dr. Foley: I have made a motion prior to Mr. White and I ask this Committee to vote on that first.

Chairman: The Chair rules that your motion is in order and it is proper.

Mr. White: I anticipated that the Chair would rule that way.

Dr. Foley: I think my motion was first.

Mr. White: I said I was going to submit my motion, I had it typed and brought in here, and then you made your motion.

Chairman: We are here today on the budget. Now these propositions are introduced here. I want this motion to wait over.

Mr. White: I want you to deny me the privilege of submitting these motions which I want read.

Chairman: They have been read, and are in the record.

Secretary (Reading):

"ORDERED, That the members of the School Committee agree that where vacancies occur in the teaching staff they will be filled when the numbers exist according to our rules. This is to be city-wide."

Mr. White: That is according to our present rules.

Secretary (Reading):

"ORDERED, That the members of the School Committee agree that no vacancies now existing—"

Mr. White: Or future vacancies.

Secretary (Reading):

"... no vacancies now existing—or future vacancies—in the supervising staff (Administrative Offices) shall be filled and no new jobs created."

Mr. White: I want this to apply to all administrative offices.

Secretary (Reading):

"ORDERED, That the members of the School Committee agree that any motion made by a member of this Committee that any

new change in salaries or group to group or any new jobs created, shall be published, not only in the public records of the School Committee but shall be posted in every school building one full month before any action can be taken by this Committee."

Mr. White: Shall be published not only in the public records of the School Committee for one full month, but shall be posted in every school building before any action shall be taken by this Committee.

Mr. McDevitt: On that last order, hasn't it been the policy that these girls automatically go from one group to another?

Mr. White: That does not change that.

The question is whether the Chairman is allowing a vote to be taken on this or whether he is preventing a vote being taken.

Chairman: Have the gentlemen had all the time they wish for discussion? Personally, I feel that I want time to study these three motions. Have you said all that you want to say, Doctor?

Dr. Foley: You mean on the budget?

Chairman: Yes.

Dr. Foley: I cannot say any more on the budget.

Mr. White: I thought you were discussing whether we would deliberate on these motions.

Chairman: We are coming to that. According to Robert's Rules of Order we first must consider this motion.

Mr. White: That does not apply here at all. The only rules I have followed since you have been a member have been your rules. There is no recognized procedure here. I made a motion and we were talking on that motion.

Chairman: There is only one rule I know of that you can follow.

Mr. White: You have to deny the motion or put it to a vote.

Chairman: Under Robert's Rules of Order we generally follow a certain procedure, and there has been a motion made here by Dr. Foley that we accept these new figures, \$636,000 less than the figures submitted by this Committee at the Mayor's office.

This is the terminology that we used in making the motion on this new revised budget? This is what you thought out and recommend, Mr. Business Manager?

Business Manager: The Superintendent and I.

Chairman: This is Dr. Foley's motion. There was a second motion made to the effect that these three orders of Mr. White's be accepted.

The Chair is going to rule that there is one motion at the present time before the Chair and that that takes precedence. If the ruling of the Chair is objected to, the man who made these orders has a right to take an exception from the ruling of the Chair. I may be wrong on this.

Mr. White: I take exception.

Chairman: The ruling of the Chair being excepted to, what is the wish of the body? Shall the Chair be sustained in his ruling regarding the admissibility and the procedure to be followed in the matters now before this body?

Dr. Foley: I move that we sustain the ruling of the Chair.

Chairman: The question is whether the ruling of the Chair shall be sustained on a matter concerning procedure.

Mr. Devitt: I vote to sustain.

Chairman: First, Dr. Foley has submitted a motion to the effect that the reduced budget be approved. Mr. White has introduced three orders.

The Chair has ruled that under the circumstances the motion as presented by Dr. Foley shall take precedence and be voted upon at this meeting. Exception to the Chair's ruling has been taken and noted and the Chair has duly submitted the question to the body itself.

Now the question is: Shall the ruling of the Chair be sustained? I ask for a roll call on that.

The Secretary was directed to call the roll. The members, as their names were called, respectively stated that they voted as follows:

Dr. Foley: I vote to sustain the Chair.

Mr. McDevitt: Yes.

Mr. Ward absent.

Mr. White: No.

Chairman: Not voting.

Dr. Foley: I ask that we proceed with the budget.

RECESS

On motion of Mr. White, the Committee took a five-minute recess.

At the conclusion of the recess, the four members reassembled and were called to order by the Chairman.

Chairman: I do not want to sermonize and I do not want to lecture. This is the most important meeting of the year and we all have sound judgment.

The question is the submission of the budget. It has already been submitted and we await merely a vote.

Business Manager: That should be read by the Secretary.

Mr. White: I am asking this particular question: What will happen if you cut \$636,000 out of the budget? Does anybody know what we are voting for when we do that? Do you know what will happen?

Business Manager: We would have to sit down on the detail items and cut out \$636,000 where it hurts the least.

Mr. White: Are you going to cut it from cushions?

Business Manager: If there are cushions there we would have to consider them. We would have to consider the thing in detail.

Mr. White: The question is whether to accept Mayor Curley's

recommendation cutting \$1,180,000 or making a trade and taking off \$636,000?

Chairman: That is it exactly.

Mr. White: I am not so certain in my mind—if we are going to take off \$636,000—that we do not take last year's expenditures, as Mayor Curley says.

The only reason you are trading is as to what to take. You say "We take the lesser of two evils."

In neither case do we know what is going to happen, and in both cases you are voting on this budget without anybody knowing what is going to happen.

Business Manager: We will have to take whatever the School Committee recommends.

Mr. White: I know that. I am asking you definitely, as one of the Board of Apportionment, with the \$636,000 cut what do you think has to be cut to make this up? I want to know if only cushions are to be cut, so there is no question about that.

Business Manager: In my opinion there will be much more than cushions cut.

Mr. White: Do you know how much more?

Business Manager: No, I don't.

Mr. White: Do you know, Mr. Downey?

Asst. Supt. Downey: No.

Business Manager: We can bring in a detailed statement for your information and the information of the other members of where we will cut and how we will cut when we get around to studying the thing in detail.

Mr. White: Here is the position: If I vote to sustain the budget as you people submitted it to us on two different occasions, you will automatically revert to Mayor Curley's recommended cut, because you will not have the votes to override the veto.

Business Manager: That is correct.

Mr. White: If I also vote for this \$636,000 reduction, it will reduce what Mayor Curley said we ought to cut, but in your opinion and the best advice I get from this Board, it will mean cutting some activities, but nobody knows what activities they will be. It is an arbitrary cut.

Then the question is coming as to what is the best thing to do for the taxpayer.

If it is going to be a cut—and I think by the way we are now cutting it, without knowing what is going to be cut—we will never know or perhaps have no voice in what activities might be cut.

Dr. Foley: I wouldn't say that.

Mr. White: I would. That leaves me in this dilemma: Perhaps if we accepted Mayor Curley's recommendation we certainly would get down to rock bottom for at least one year. Unquestionably we would then have to cut certain activities but we might have a much better idea of what we will have to put back in the budget the following year. I would like the Superintendent's recommenda-

tion. I would like to hear from the Superintendent what he would advise.

Superintendent: The Board of Apportionment unanimously approved the budget that was submitted to you a week ago yesterday, after having heard the City Auditor and the representative of the Municipal Research Board, and I voted with that Board.

I realize, however, that the School Committee has the authority and the responsibility of cutting that budget, but I do not believe that the cuts here represented are for the best interests of the schools. Therefore, my position is that the budget as recommended by the Board of Apportionment is far more detailed in its study than either of the studies placed before this Committee.

Dr. Foley: That is rather a vague explanation.

Mr. White: I thought that was very definite.

Superintendent: That is specific and definite as it can be.

Dr. Foley: If that is not jumping out the window I do not know what is.

Chairman: If you were a member of this Committee voting on this today and knowing the situation as you know it, what would you do?

Superintendent: Knowing the studies that have been made and reported over and over again by the Board of Apportionment in the past?

Chairman: I mean on this motion, knowing that we have to do something today.

Superintendent: I should certainly sustain the report of the Board of Apportionment.

Chairman: What is the next thing?

Superintendent: The next thing would be to take some other reduction, and for my second choice I would take the City Auditor's recommendation.

Chairman: That is not before us.

Superintendent: That has not been proposed here. I would take the smallest amount from what was originally before us.

Mr. White: That can be before us by a motion of any member of the Committee.

Chairman: You know what the question is here,—a cut of \$1,200,000 or a cut of \$636,000.

Mr. White: I am going to make a statement here and now and declare my position.

In the face of the fact that the Chairman denied me the privilege of having a vote on whether this Committee was sincere in saving money and trying to give the best sort of an administration they could give, and in the face of the fact that you denied the privilege of appointing teachers under this appropriation as a first item to fill vacancies that were legitimate; second, the fact that you have refused to save money by filling unnecessary vacancies; and third, because you have refused to adopt the sound business policy

of posting or publicizing for a month the positions you will fill, I am taking the recommendations of the Board of Apportionment and I am voting for the budget submitted by them.

Incidentally, might I add that it was a budget that this Committee unanimously approved.

Chairman: That means that we will go back to a cut of \$1,200,000.

Mr. White: That means that you will not deny yourselves the right of doing something constructive.

Chairman: I deny each and every statement that Mr. White has made.

Mr. White: You would. You will change your mind tomorrow on the radio.

RECESS

On motion, the Committee took a recess at 2:50 o'clock P. M. and agreed to reassemble at 4 o'clock P. M.

At the conclusion of the recess, the four members reassembled and agreed to recess to the Harley Hospital, Dorchester, where the meeting was resumed and called to order by the Chairman at 5:15 o'clock P. M.

Present: Messrs. Foley, McDevitt, Norton, Ward, and White.

ANNUAL APPROPRIATION ORDERS

The following communication was received:

City of Boston
Office of the Mayor
City Hall

April 12, 1946.

To the School Committee:
City of Boston.

Gentlemen:

I return herewith without my approval, thus indicating my disapproval of, appropriation orders totaling \$18,212,508.87 adopted by you at your meeting on March 28, 1946. My objection to these orders is based on the opinion that further reductions may be made in the various appropriation items set forth in the orders without disrupting in any way the conduct of school activities.

At our conference yesterday afternoon, a schedule of proposed reductions totaling \$440,626.71 was presented by the City Auditor and apparently well received. Adoption of the reductions set forth in this schedule would merely serve to remove the so-called "cushion" which evidently is present in this year's budget. Stopping at this point, however, is not enough. The budget as adopted by your Committee is \$1,184,402.70 in excess of actual expenditures in 1945. I am unable to see any justification for this huge increase in the light of the fact that on January 31, 1946, the number of pupils attending our public schools was 1,231 less than last year, and 39,760 less than in 1935, when the school budget was \$825,000 less than that proposed for the current year.

I pointed out to you yesterday a number of examples taken from this year's budget which clearly indicate that a large share of the increase in the budget may be attributed to the creation of positions and the establishment of activities having only indirect bearing on the fundamental responsibility of the schools, namely, "instruction in the 3 R's." I am confident that careful study of this aspect of the budget will disclose the possibility of an overall reduction in the 1946 budget of one million dollars. I recommend that you review the appropriation orders which are herewith returned with this objective in mind.

Very truly yours,

(Signed) James M. Curley

Mayor of Boston

Placed on file.

Chairman: The question comes on the passage of the three orders passed at the meeting of Mar. 28, 1946, appropriating the sum of \$18,212,508.87 for the maintenance of the public schools (including alterations and repairs) and for land and buildings for schools, notwithstanding the veto of His Honor the Mayor.

The Secretary was directed to call the roll.

The members, as their names were called, respectively stated that they voted as follows:

YEAS—Messrs. Foley, McDevitt, Norton, Ward and White—5.

NAYS—0.

The three orders were thereupon declared passed notwithstanding the veto of His Honor the Mayor.

The Chairman offered the following:

ORDERED, That the School Committee, after considering the veto message of His Honor the Mayor as presented at the meeting of even date, and being convinced of the impossibility of reducing its appropriations in the amount of \$1,000,000, as suggested by the Mayor, does now adopt by the votes indicated, in accordance with the provisions of Chapter 224 of the Acts of 1936, the following revisions of the appropriation orders passed at the meeting of Mar. 28, 1946, and again passed earlier in this meeting notwithstanding the veto of His Honor the Mayor, thus reducing the amounts originally appropriated by the sum of \$636,717.00.

The order passed.

•The following was offered:

ORDERED, That to meet the estimated cost of maintenance of the Boston public schools for the fiscal year 1946, exclusive of "alterations, repairs, furniture and fixtures" for which separate appropriation orders are made, the following amounts are hereby appropriated to cover expenditures under the control of the School Committee and for the purposes indicated below, which amounts include provision for emergency compensation allot-

ments to be continued at the will of the School Committee:

For general school purposes:

Salaries of administrative officers, clerks, stenographers and other employees	\$ 516,657.59
Salaries of supervisors of attendance	98,987.00
Salaries of principals, teachers, members of the supervising staff and others	12,043,159.56
Salaries of cafeteria employees	211,674.21
Salaries of custodians	1,066,294.38
Salaries of school medical aides	28,814.80
Fuel and light, including electric current for power	576,361.17
Supplies, equipment and other items	1,051,851.00
Pensions to veterans (non-contributory)	47,881.10
Pension to janitress-matron (non-contributory)	360.00
Promoting the Americanization and better training for citizenship of foreign-born persons	12,234.90
Vocational guidance	57,573.34
Physical education — day schools and playgrounds	432,692.32
Salaries of school physicians, salaries of school nurses and care of teeth	224,000.00
Extended use of the public schools	92,520.50
Pensions to teachers (non-contributory)	—

Total \$16,461,061.87

*No appropriation from tax levy. These pensions paid from (a) income received from Commonwealth, (b) unexpended balance of last year, (c) accrued interest of Permanent School Pension Fund.

On roll call, the order making appropriation in the sum of \$16,461,061.87 passed by the following vote:

YEAS — Messrs. Foley, McDevitt, Norton, and Ward—4.
NAYS—Mr. White—1.

The following was offered:

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriation is hereby made to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1946:

Alteration and Repair of School Buildings	\$1,101,730.00
The above total of \$1,101,730.00 appropriated for "alteration and repair of school buildings," etc., is obtained as follows:	
a. From the amount available under the \$.85 allowance	\$1,078,328.80
b. Unexpended balances of 1945:	
Administration Expenses, Salaries	\$1,542.97
Emergency Compensation Allotment	637.21
Administration Expenses, Office Expenses and other items	1,197.57
Alterations, Furniture and Equipment for special educational needs	4,005.22
General alterations and repairs	16,018.23
Total	\$1,101,730.00

The order passed by the following vote:

YEAS—Messrs. Foley, McDevitt, Norton, and Ward—4.
NAYS—Mr. White—1.

The following was offered:

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriation

is hereby made to meet the estimated cost of "construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards and the preparing of school yards for use, and for rent of hired school accommodations" for the fiscal year 1946:

LAND AND BUILDINGS FOR SCHOOLS	
Item 1—Rent of Hired Accommodations	\$5,659.89
The above sum of \$5,659.89 appropriated for land and buildings is obtained as follows:	
a. From the amount available under the \$.50 allowance	5,386.89
b. From the unexpended balance from 1945	273.00
The order passed by the following vote:	
YEAS—Messrs. Foley, McDevitt, Norton, and Ward—4.	
NAYS—Mr. White—1.	

The following was offered:

ORDERED, That the balances remaining in the appropriations made by the School Committee under dates of May 16, 1921 (see pp. 60-61), Apr. 1, 1929 (see p. 76), and Dec. 20, 1940 (see p. 207), are hereby re-appropriated for Item 1, 1946—Rent of Hired Accommodations:

Item 17, 1921—Wells District, City Proper: Extension of yard	\$4,361.81
Item 14, 1929—Warren-Bunker Hill District, Charlestown: Addition to yard of Bunker Hill School (Item 17, 1926)	41.85
Item 4, 1940—Agassiz District, Jamaica Plain: Plans and construction of elementary school building (Item 4, 1938)	1,423.21
Total	\$5,826.87

The order passed by the following vote:

YEAS — Messrs. Foley, McDevitt, Norton, Ward and White—5.
NAYS—0.

The following was offered:

ORDERED, That the sum of \$1,513.24, representing reimbursement received from the Federal Government for expenditures actually incurred by the Department of School Buildings in connection with the preparation of plans for the proposed addition to the Michael J. Perkins School (War Public Works Project Docket No. Mass. 19-148), which grant was cancelled by the Government, is hereby appropriated as follows:

LAND AND BUILDINGS FOR SCHOOLS	
Item 1, 1946—Rent of Hired Accommodations	\$1,513.24

The order passed by the following vote:

YEAS — Messrs. Foley, McDevitt, Norton, Ward and White—5.
NAYS—0.

NOTICE TO BOARD OF ASSESSORS OF ANNUAL APPROPRIATIONS

A communication was received from the Business Manager, under date of April 30, 1946, reporting that under the provisions of Section 3 of Chapter 224 of the Acts of 1936 the School Committee is required to certify not later than May 1st of each fiscal year to the Board of Assessors the amount

of its total appropriations that must be raised by taxation.

The total of the appropriations for the year 1946 is \$17,575,791.87, made up as follows:

(a) General school purposes and special items	\$16,461,061.87
(b) Alteration and repair of school buildings, furniture and fixtures	1,101,730.00
(c) Land and buildings for schools (rent of hired school accommodations only)	13,000.00
Total	\$17,575,791.87

The Business Manager recommended the passage of the accompanying orders certifying to the Board of Assessors that the sum of \$15,527,693.26 is to be raised by taxation in the year 1946.

The amount of the total of the appropriations to be raised by taxation for 1946, viz., \$15,527,693.26, is \$288,181.77 less than the amount raised by taxation for the year 1945. This decrease in the amount to be raised by taxation is brought about by the fact that the total of the appropriations for the year 1946 is \$37,886.38 less than the total of the appropriations for the year 1945 and also the fact that the total of the credits (unexpended balances and income) for the year 1946 is \$250,295.39 greater than the total of the credits for the year 1945—(\$37,886.38 + \$250,295.39 = \$288,181.77.)

Placed on file.

The following were offered:

MAINTENANCE OF THE PUBLIC SCHOOLS

1. ORDERED, That the Board of Assessors is hereby notified that the School Committee of the City of Boston has appropriated under the provisions of Chapter 224 of the Acts of 1936 for the fiscal year 1946 the sum of \$17,562,791.87 for maintenance of the Boston Public Schools (General School Purposes and Special Items, \$16,461,061.87, plus Alteration and Repair of School Buildings, Furniture and Fixtures, \$1,101,730).

2. ORDERED, That the Board of Assessors is hereby further notified that of the amount specified in the preceding order, viz., \$17,562,791.87, the sum of \$15,522,306.37 should be included in the total amount to be raised by taxation for maintenance. The balance, \$2,040,485.50, will be obtained as follows:

Unexpended balances, 1945, School Committee:	
General school purposes*	\$466,488.86
Promoting Americanization	3,205.73
Vocational guidance	5,121.57
Physical education	66,126.72
School physicians, school nurses and care of teeth	6,309.72
Extended use of the public schools	1,720.60
Total	\$548,973.20

Unexpended balances, 1945—Alterations, Repairs, Furniture and Fixtures:	
Administration expenses (salaries)	\$1,542.97
Emergency Compensation Allotments	637.21
Administration Expenses (office expenses and other items)	1,197.57
Alterations, furniture and equipment for special educational needs	4,005.22
General alterations and repairs	16,018.23
Total	\$23,401.20

*\$484,123.03 less deficit in estimated income for 1945 of \$17,634.17 equals \$466,488.86.

Income, School Committee:	
Excess of income over amount estimated, general, 1945	—
Excess of income over amount estimated, physical education, 1945	9,847.53
Excess of income over amount estimated, extended use of public schools, 1945	5,179.11
Estimated income, general, including U. S. Government Funds, 1946	1,441,584.46
Estimated income, physical education, 1946	5,000.00
Estimated income, extended use of the public schools, 1946	6,500.00
	<u>\$1,468,111.10</u>

Total of foregoing unexpended balances and income \$2,040,485.50

LAND AND BUILDINGS FOR SCHOOLS, INCLUDING RENT OF HIRED SCHOOL ACCOMMODATIONS

3. ORDERED. That the Board of Assessors is hereby noti-

The following summary shows the total appropriations, the total credits and the total amount to be raised by taxation for the fiscal year 1946:

	Appropriations	Credits	Amounts to be raised by taxation
School Committee—General School Purposes and Special Items	\$16,461,061.87	\$2,017,084.30	\$14,443,977.57
Department of School Buildings—Alteration and repair of school buildings, furniture and fixtures	1,101,730.00	23,401.20	1,078,328.80
	<u>\$17,562,791.87</u>	<u>\$2,040,485.50</u>	<u>\$15,522,306.37</u>
Department of School Buildings—Land and buildings for schools (rent of hired school accommodations only)	13,000.00	7,613.11	5,386.89
Totals	<u>\$17,575,791.87</u>	<u>\$2,048,098.61</u>	<u>\$15,527,693.26</u>

N. B. The total credits are made up of unexpended balances of the previous year (1945) and estimated income for the current year (1946).

Question came on the passage of the four orders notifying the Board of Assessors of appropriations made by the School Committee for the current financial year and certifying the amount to be raised by taxation for school purposes, totaling \$15,527,693.26.

fied that the School Committee of the City of Boston has appropriated under the provisions of Chapter 224 of the Acts of 1936 for the fiscal year 1946, the sum of \$13,000 for rent of hired school accommodations.

4. ORDERED. That the Board of Assessors is hereby further notified that of the amount appropriated as specified in the preceding order, viz., \$13,000, the sum of \$5,386.89 should be included in the total amount to be raised by taxation as the balance, \$7,613.11, will be obtained as follows:

Department of School Buildings—Unexpended balances, appropriations for land and buildings for schools, including rent of hired accommodations, 1945	\$273.00
Department of School Buildings—Reappropriation of balances of previous years (see minutes of April 30, 1946)	<u>\$7,340.11</u>

The four orders passed unanimously.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS,
Acting Secretary.

NEW SOURCES OF MUNICIPAL REVENUE.

Philadelphia recently adopted three new city taxes: auctioneers are required to register and pay a tax of \$500 a year, bowling alleys \$20 for each alley, and coin-operated slot machines and other amusement devices \$20 a year each.

Portsmouth, Ohio, has levied a license fee of \$25 a year on juke boxes, pin ball machines, and other coin-operated amusement devices. Santa Barbara, California, on February 23 adopted a local retail sales tax of one per cent on the recommendation of a citizens' tax committee. Sacramento, California, has

adopted a new business license ordinance which will provide approximately \$110,000 a year revenue. In New York City Mayor La Guardia has proposed an additional one per cent sales tax to finance a three-year program of subway rehabilitation; the present one per cent sales tax raises about \$32,000,000 a year.
—Public Management.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN MORTON STREET, WARD 17, FROM DRUID STREET TO WASHINGTON STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Morton street, Ward 17, from Druid street to Washington street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope sealed, marked "Proposal for Sheet Asphalt Pavement in Morton Street, Ward 17, from Druid Street to Washington Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, June 13, 1946, with a certified check for twenty-one hundred (2,100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(June 1.) ROBERT P. CURLEY,
Commissioner of Public Works.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PUBLIC AUCTION.

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906 will sell at public auction on the premises on Friday, June 14, 1946, at 11 a. m., a parcel of land in East Boston, formerly the site of the Commodore Barry School and described as follows: Beginning at a point on the northeasterly corner of Lamson and Sumner streets, East Boston, thence northeasterly by Lamson street 100.49 feet, thence southeasterly 210 feet, thence southwesterly 100 feet to Sumner street, thence northwesterly by Sumner street 210.10 feet to point of beginning and contains 21,000 square feet. Be all measurements more or less. The upset price will be \$2,000. A deposit of \$500 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days.

The Superintendent of Construction of the Department of School Buildings of the City of Boston reserves the right to reject any or all bids.

PUBLIC AUCTION.

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906, will sell at public auction on the premises on Friday, June 7, 1946, at 10 a. m., lot of land, formerly the site of the Everett Street School on Everett street, between Park and Mill streets, Dorchester, and described as follows: Beginning at a point on the northerly side of Everett street approximately 77 feet east of Park street; thence northeasterly 156.07 feet; thence southeasterly 119.91 feet; thence southwesterly 163.03 feet; thence northwesterly 120 feet to point of beginning and contains 19,130 square feet. Be all said measurements more or less. The upset price will be \$2,000. A deposit of \$500 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days.

The Superintendent of Construction reserves the right to reject any or all bids.

JAMES H. MOONEY,
Superintendent of Construction,
Department of School Buildings,
26 Norman Street, Boston, Mass.
Capitol 5750.

(May 25-June 1.)

BOND SALES.

Labor, farm, school and women's groups were responsible for 1943's greatest sale of E Bonds.

Using the person to person approach, Payroll Savings added two million workers—bringing its ranks to 26.4 million. Payroll Savings allotments jumped from 355 millions in December, 1942, to 445 millions in October, 1943. Thousands of

labor-management War Bond committees were organized.

Farm committees worked intensively through personal solicitation and farmers' organizations to convert a large share of the largest farm income in history into War Bonds.

In the schools, the nation's youngest group of Bond buyers is rapidly enlisting every pupil in America.

CITY OF BOSTON.**DEPARTMENT OF SCHOOL BUILDINGS.****PUBLIC AUCTION.**

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906 will sell at public auction on the premises on Friday, June 14, 1946, at 10 a. m., a parcel of land in Brighton, formerly the site of the North Harvard Street School and described as follows: Beginning at a point on the easterly side of North Harvard street, Brighton, approximately 75 feet north of Rena street, thence northerly by North Harvard street 139.97 feet, thence easterly 168.59 feet, thence southeasterly 104.50 feet, thence westerly 172.16 feet to point of beginning and contains 18,802 square feet. Be all measurements more or less. The upset price will be \$1,500. A deposit of \$500 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days.

The Superintendent of Construction of the Department of School Buildings of the City of Boston reserves the right to reject any or all bids.

Capitol 5750.

(June 1-8.)

CITY OF BOSTON.**DEPARTMENT OF SCHOOL BUILDINGS.****TO ASPHALT PAVING CONTRACTORS.****INVITATION FOR PROPOSALS FOR LAYING ASPHALT SURFACE AT THE SITE OF THE CORA ETHERIDGE SCHOOL, HARBOR VIEW STREET, DORCHESTER.**

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for laying asphalt surface at the site of the Cora Etheridge School, Harbor View street, Dorchester.

Proposals will be received until 12 o'clock noon, Monday, June 10, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
Superintendent of Construction.

CITY OF BOSTON.

INSTITUTIONS DEPARTMENT.

PROPOSALS FOR ERECTING A WHARF TO REPLACE THE FRONT WHARF, INCLUDING ELECTRICAL WORK, AT LONG ISLAND, BOSTON HARBOR.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for erecting a wharf to replace the Front Wharf, including electrical work, at Long Island, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 12, 1946, at the office of the Awarding Authority, eighth floor, 809 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$5,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, carpenters, engineers and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of the compliance with the foregoing stipulations will be required prior to the award of a contract, and also comply fully with the rules and regulations governing the taking down of buildings or other structures as contained in bulletin No. 49, revised as of January 2, 1944, of the Building Commissioner for the City of Boston.

Specifications may be obtained at the office of the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Friday, June 7, 1946.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

G. FRANK McDONALD,
Commissioner of Institutions.

PARK DEPARTMENT.

PROPOSALS FOR FILLING AND LOAMING AT CARSON STREET PLAYGROUND, DORCHESTER, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for filling and loaming at Carson Street Playground, Dorchester, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Filling and Loaming at Carson Street Playground, Dorchester, Mass.," and left before 2 o'clock on Thursday, June 6, 1946, at the office of the Park Department with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

TO PROTECT MINORS.

Buffalo is considering an ordinance, similar to the one in effect in New York City, for the protection of minors in theaters. It permits children, unaccompanied by adults, only in theaters licensed as to adequate sanitary and safety provisions, sets aside a certain section for them and requires the presence of a licensed matron.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING WEST FOURTH STREET BRIDGE OVER THE NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States, for resurfacing West Fourth Street Bridge over the New York, New Haven & Hartford Railroad. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Resurfacing West Fourth Street Bridge over the New York, New Haven & Hartford Railroad," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, June 11, 1946, with a certified check for two hundred and fifty (\$250) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
(June 1.) Commissioner of Public Works.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PUBLIC AUCTION.

By vote of the School Committee it is ordered that it is advisable to sell, and the Board of Sale created by chapter 259 of the Acts of 1906 will sell at public auction on the premises on Friday, June 7, 1946, at 1 p. m., a lot of land formerly the site of the Old Baker Street School at the corner of Baker and Gardner streets, West Roxbury, and described as follows: Beginning at a point on the westerly side of Baker street approximately 78 feet south of Gardner street; thence westerly 114.08 feet; thence northerly 82.32 feet; thence easterly by Gardner street 115.71 feet to corner of Baker street; thence southerly by Baker street 77.82 feet to point of beginning and contains 9,339 square feet. Be all said measurements more or less. The upset price will be \$750. A deposit of \$250 in cash or certified check made payable to the City of Boston will be required at time of sale, the balance to be paid in thirty days. The Superintendent of Construction reserves the right to reject any or all bids.

INSTITUTIONS DEPARTMENT.

PROPOSALS FOR CONCRETE ROADS, LONG ISLAND, BOSTON HARBOR.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for concrete roads at Long Island, Boston Harbor, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 12, 1946, at the office of the Awarding Authority, eighth floor, 809 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$4,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ASPHALT PAVING CONTRACTORS.

INVITATION FOR PROPOSALS FOR LAYING ASPHALT SURFACE AT THE SITE OF THE BRIGHTON HIGH SCHOOL, WARREN STREET, BRIGHTON.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for laying asphalt surface at the site of the Brighton High School, Warren street, Brighton.

Proposals will be received until 12 o'clock noon, Monday, June 10, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
Superintendent of Construction.

(June 1.)

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

LAND, HYDE PARK AVENUE, HYDE PARK.

The City of Boston will sell at public auction all its right, title and interest in and to about eighteen thousand five hundred eighty-seven (18,587) square feet of land, more or less, on the easterly side of Hyde Park avenue, Hyde Park, bounded and described as follows:

Beginning at a point on the easterly line of Hyde Park avenue at the land of Page & Hall Manufacturing Company, Inc.

Westerly by the easterly line of Hyde Park avenue, ninety-seven and 89-100 (97.89) feet.

Northerly by land now or formerly of City of Boston, one hundred ninety-seven and 79-100 (197.79) feet.

Easterly by land of New York, New Haven & Hartford Railroad Company, ninety-nine and 16-100 (99.16) feet.

Southerly by land of Page & Hall Manufacturing Company, Inc., one hundred eighty-one and 96-100 (181.96) feet to the point of beginning.

Said parcel is a lot shown on a plan by Thomas F. McGovern, Chief Engineer, Street Laying-Out Department, Boston, dated April 1, 1946, on file in the office of said department, City Hall, Boston, Mass. Said land is a portion of the premises described in a tax deed recorded with Suffolk Registry of Deeds, Book 5881, page 37.

Time of Sale: Tuesday, June 4, 1946, at 3.10 p. m., on the premises. Minimum price is eighteen hundred and fifty dollars (\$1,850). A deposit of three hundred dollars (\$300), in cash or certified check, is required at the time and place of sale, balance to be paid in thirty (30) days.

The Chairman reserves the right to reject any or all bids. Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston.

IRVING LEWIS,
Chairman.

(May 25-June 1.)

CITY OF BOSTON.

HOSPITAL DEPARTMENT, SANATORIUM DIVISION.

PROPOSALS FOR REPAIRING ELEVATORS AT THE SANATORIUM DIVISION OF THE BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital invite sealed proposals for repairing elevators at the Sanatorium Division, 249 River street, Mattapan, in accordance with the specifications, giving a bond of a surety company satisfactory to the Trustees therefor, in the sum of the full amount of the contract. Only proposals obtained at the office of the Assistant Superintendent of the Sanatorium Division of the Boston City Hospital, at 249 River street, Mattapan, signed by the bidder, and left before 12 o'clock noon of Wednesday, June 12, 1946, at the office of the Assistant Superintendent, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be left as above, the other to be deposited with the City Auditor, City Hall, Boston, before the time of opening the bids. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is attached to the specifications. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Trustees reserve the right to reject any and all proposals. Proposals are to be addressed: "Proposals for Repairing Elevators, Sanatorium Division."

TRUSTEES OF THE BOSTON CITY HOSPITAL,
MARTIN J. ENGLISH, President.

CITY OF BOSTON.

LIBRARY DEPARTMENT.

INVITATION FOR PROPOSALS FOR NEW MEN'S TOILET ON STACK NO. 3 LEVEL; NEW LAVATORY IN HEALTH ROOM ON STACK NO. 1 LEVEL; VENTILATION OF CARPENTER SHOP AND VENTILATION OF THE OFFICE OF THE KEEPER OF PRINTS AT THE CENTRAL LIBRARY BUILDING.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for a new men's toilet on the stack No. 3 level; new lavatory in the health room on the stack No. 1 level; ventilation of the carpenter shop in the basement, and ventilation of the office of the keeper of prints at the Central Library building.

Proposals will be received until 12 o'clock noon, Monday, June 24, 1946, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of two hundred and fifty dollars (\$250), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after 9 a. m. Tuesday, June 4, 1946, at the Business Office, Public Library of the City of Boston, Central Library, Copley square, Boston, Mass. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of ten dollars (\$10) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition.

Sub-bidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Tuesday, June 18, 1946.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the total amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR RECHARGING EXTINGUISHERS FOR CITY DEPARTMENTS.

The Supply Department of the City of Boston invites proposals for recharging extinguishers as specified in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston, if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Recharging Extinguishers. There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out. The bids will be publicly opened and read Tuesday, June 11, 1946, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

(June 1.) WILLIAM I. ROSE,
Superintendent of Supplies.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN MAYNARD STREET, WARD 18, FROM POPLAR STREET TO METROPOLITAN AVENUE, AND DWINELL STREET, WARD 20, FROM COREY STREET TO ADDINGTON ROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Maynard street, Ward 18, from Poplar street to Metropolitan avenue, and Dwinell street, Ward 20, from Corey street to Addington road. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Maynard Street, Ward 18, from Poplar Street to Metropolitan Avenue, and Dwinell Street, Ward 20, from Corey Street to Addington Road," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, June 14, 1946, with a certified check for sixteen hundred (1,600) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(June 1.) ROBERT P. CURLEY,
Commissioner of Public Works.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING PHOTOFLUOROGRAPHIC X-RAY EQUIPMENT.

The Supply Department of the City of Boston invites proposals for furnishing X-ray equipment for Boston City Hospital as specified in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and marked "Proposal for X-Ray Equipment." There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out. No blueprints furnished with proposal but a copy may be viewed at Supply Department, Room 1001, City Hall Annex. The bids will be publicly opened and read Wednesday, June 12, 1946, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING WORK AT THE DWIGHT SCHOOL, WEST SPRINGFIELD STREET, BOSTON.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing work at the Dwight School, West Springfield street, Boston.

Proposals will be received until 12 o'clock noon, Wednesday, June 12, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

Superintendent of Construction.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 38

SATURDAY, JUNE 8, 1946.

No. 23

MAYOR CURLEY RENDERS ACCOUNT FOR FIRST FIVE MONTHS OF ADMINISTRATION IN RADIO BROADCAST OVER WMEX—HE SHOWS SAVINGS TO CITY IN FIRST FIVE MONTHS OF A GRAND TOTAL OF \$80,210,365—FACTS SHOW EVERY EFFORT MADE TO FULFILL CAMPAIGN PROMISE TO DEVOTE EVERY ENERGY TO REBUILDING OF BOSTON WITH RESULTANT BENEFITS TO CITY—\$865,035 REALIZED FROM SALES OF FORECLOSED REAL ESTATE—IMPROVEMENTS AT LONG ISLAND HOSPITAL AS WELL AS OTHER IMPROVEMENTS AT SAVING INDICATED.

The following is the radio address of Hon. James M. Curley, Mayor of Boston, over WMEX on June 3, on the first five months of his administration:

Five months have elapsed since I took over for the fourth time the executive direction of the activities and affairs of the City of Boston. In the administration of a large municipality, this is a relatively short period of time. When it is considered that a large amount of effort has necessarily been expended during these five months in reorganizing the official personnel of city departments, planning the municipal budget for the current year, appearing before legislative committees in support of measures designed to benefit the city, and holding innumerable conferences with various groups for the purpose of securing citizen interest and cooperation in the policies and plans of my administration, it might well be deemed excusable if little had been done in the way of definite and positive accomplishments. I feel, therefore, that I can take reasonable pride in stating that despite the time consumed in streamlining the municipal organization that a number of progressive measures have been initiated and that a large measure of success has been achieved in the execution of these activities. In the belief that you, my listeners, would be interested in a summary of what has been definitely accomplished in the past five months, I present this record of stewardship.

Disposition of Foreclosed Real Estate.

The Board of Real Estate Commissioners is charged with the care, custody, management and control of all foreclosed property. At the present time, 3,500 parcels of property valued at \$7,500,000 are in the custody of the Board. Since the present administration took over five months ago, the Board has disposed of 75 pieces of property, bringing into the city treasury \$865,035. The amount of taxes which were due the city on these properties was \$589,213. Thus the city realized the sum of \$277,822 above the amount that was due for taxes on the date of foreclosure.

The auction sales are held at centrally located buildings, in order to dispose of the great back-log of pending sales. It is estimated that the carrying out of this plan will make it possible to dispose of seven to eight hundred parcels for the year 1946. The value of sale of property by this department is twofold. When property is sold, it is usually to individuals who have a particular use for the property, and who will put the property to immediate use and improvement, as well as restoring the property to the tax rolls for assessment purposes. Thus, the city benefits every time property is disposed of.

In 1945, this department paid in auctioneers' fees approximately \$23,800 and if this system had not been checked, the sum that the auctioneer would have received up to date for 1946 would far exceed this sum, and in the total for the year would probably run to be between 50 and 60 thousand dollars.

Long Island Hospital.

One of the steamers, the "Michael J. Perkins," was purchased by me at the close of World War I. After a quarter of a century of continuous operation, it has, more or less, outlived its usefulness. When this fact was brought to my attention, I opened negotiations with the Federal government and finally secured for the city at a cost of \$43,500 a boat which cost the government approximately \$450,000 in 1944. When the boat was turned over to the city a few weeks ago, the Army placed on board 68 boxes of spare parts, and equipment that had an invoice value of \$41,000. In consequence, no new or replacement parts will need to be purchased by the city for at least five years. With surplus equipment received, there will be substantial salvage derived from excess rope, winches and generators delivered with the boat. All in all, it would appear that by the time the boat is placed in actual service, the city will have recovered by transfer or direct sale the full purchase price paid.

(Continued on page 699.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Haymarket Square, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughterhouses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE ELECTRICAL INSPECTION DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

MAYOR CURLEY RENDERS ACCOUNT FOR FIRST FIVE MONTHS OF ADMINISTRATION IN RADIO ADDRESS.

(Continued from page 697.)

The nurses' home at Long Island, which has a replacement value of \$350,000, has leaked continually for the past dozen years through the north and northeast walls. Many unsuccessful attempts have been made to correct this condition and with considerable expense to the city. Conditions became so bad that two years ago 45 rooms on one side had to be vacated and water was often a foot deep on the lower floor. Deterioration was rapidly setting in and it was evident that, unless positive action was taken, ultimate total abandonment of the building would be necessary. On the advice of the Massachusetts Institute of Technology, the services of an outstanding engineering firm were retained to make a survey. The report submitted by this firm indicated that existing defects in the building could be corrected and specified how the corrective work should be performed. A contract based on these specifications has been awarded and it is anticipated that by September 1 the building will be ready for full occupancy. The contract covering the restoration of the building contains a full guarantee that the existing defects will be remedied to the complete satisfaction of the city. Defects are being corrected at a total cost of \$20,000, thereby saving the city \$330,000 on this transaction.

SCHOOL APPROPRIATIONS.

On February 1, I received official notification from the School Committee that the total appropriating authority authorized by existing law would be used in connection with the 1946 school budget. In dollars and cents, this meant that the Committee proposed to appropriate \$1,184,402.70 in excess of what was actually expended for school purposes in 1945. At my request, the City Auditor and the Budget Commissioner made an exhaustive study of school finances and the results of this study showed that material reductions could be made in proposed school appropriations. Subsequently, when the school budget was adopted by the Committee, a conference was arranged in the Mayor's office at which time I indicated, in the light of the report submitted by my financial advisors, my intention to veto the budget as adopted. The members present at this conference agreed to reconsider the budget previously adopted and subsequently notified me that reductions totalling \$644,330.11 had been made. I am advised that this is the first time in a long period of years that a mayor's veto has not been over-ridden by the School Committee.

OFF-STREET PARKING.

Early in my administration, I requested the Traffic Commission to adopt regulations which would prohibit the parking of cars on the right side of downtown streets from 8 a. m. to 10 a. m., and on the opposite side of the same streets between 4.30 p. m. and 6.30 p. m. The adoption of this regulation by the Commission was the equivalent of adding 8 feet to the width of these streets during the heaviest traffic hours of the day. To actually widen the streets involved would have necessitated the expenditure of millions of dollars for construction costs

and land damages, whereas it was possible to secure the same result through the adoption of the suggestive regulation for only a nominal expenditure for traffic signs and printed notices.

In conformity with my opinion that traffic congestion can be relieved through the medium of keeping our streets open for moving vehicles, I supported before the Legislature the so-called "Off-Street Parking" measure. The bill, now on its way through the Legislature, authorizes the city to borrow five million dollars for the purchase and development of various sites in the business section of the city for off-street parking purposes. After preparing the sites for such use, the city may lease the same for private operation, thus affording the city revenue to finance the annual debt requirements on the original issue of bonds.

MERIDIAN STREET BRIDGE.

In 1940, the city was directed by the War Department to proceed forthwith with the reconstruction of the so-called Meridian Street Bridge which spans the waters of Chelsea Creek just above the Charlestown Navy Yard. This directive involved the construction of a high-level bridge with a span of 150 feet and construction was required to be accomplished within a period of five years. No action was taken by the city until early in 1945 when an extension in the period of construction was secured until April, 1946. In granting this extension, the War Department notified the city a penalty of five thousand dollars per month would be imposed on any construction delay beyond April 30, 1946. When this matter was called to my attention early this year, I conferred with War Department officials in Washington and, after pointing out that it was impossible to secure the steel necessary for the construction of the bridge, secured a stay of one year in the enforcement of the penalty clause. Subsequently, at my request a further extension of three years has been granted. I am now advised by the Commissioner of Public Works that, under the terms of legislation soon to be enacted, the operation of the bridge will ultimately be taken over by the state, thus relieving the city of a capital expenditure of at least \$1,800,000.

WHITE FUND.

Subsequent to the close of World War I, a special recess commission recommended construction by the state on a site in the Boston Fens of a memorial to Massachusetts veterans of all wars. The recommendation of this commission was never favorably acted upon by the Legislature. A few years ago, a member of this commission became a trustee of the George Robert White Fund. On his recommendation, the trustees voted to construct such a memorial from the income of the fund and set aside an initial appropriation of one million dollars for this purpose. At a meeting of the trustees early this year, I expressed the opinion that, since the proposed memorial was intended to commemorate the services of all Massachusetts veterans, the construction expense should be borne by the Commonwealth as proposed by the original commission. This opinion has received favorable support by the White Fund trustees, thus releasing at least a million dollars of fund income to be spent on projects of immediate and particular benefit to the citizens of Boston.

UNDERGROUND GARAGE, BOSTON COMMON.

Records of the current session of the Legislature indicate that nine proposed bills were filed in connection with the construction of a garage under Boston Common. In the majority of these bills, it was proposed that the city should construct and operate the garage. This would have required an initial investment of five million dollars by the city. In the legislative hearing at which all of these proposals were considered, I stated plainly that, while in favor of the construction of the garage, I could not, in view of the financial condition of the city, support any proposal which required the city to assume the cost of constructing and operating the garage. I indicated that legislation providing for the construction of the garage by the city with funds provided by private sources would receive my approval. I am pleased to report that a bill of this character has been enacted by the Legislature.

In my opening remarks, I made mention of my attempts to secure citizen cooperation in the conduct of the affairs of the city. During the past week, I have received notice of a splendid example of this type of action. One of the leading department stores of the city notified the Board of Assessors early last week that it was voluntarily withdrawing from the Board of Tax Appeals petitions embracing assessments for eight years and involving taxes of \$2,800,000. In addition, the firm indicated its willingness to accept the valuation increase proposed on its property for the current year by the assessors. My sincere thanks are extended to this firm for this splendid cooperative act. May I suggest that other business interests in the city take pattern from this action and thus assist the responsible officers of the city in halting further deterioration in the base on which the revenue structure of the city rests.

CIRCUMFERENTIAL HIGHWAY.

The circumferential highway proposed by all the leading organizations of Boston and Massachusetts and which has been a subject of study for many years, would have represented a cost to the City of Boston of \$27,000,000 for properties destroyed and \$13,000,000 for consequential damages to adjoining properties, in addition to the building of an elevated highway that in all probability would cost \$10,000,000 additional, or a total of fifty millions of dollars.

TOLL BRIDGE.

A responsible group presented a plan for a toll bridge to East Boston for the relief of traffic congestion at a cost of \$20,000,000, with no expense to the state or city, and the property to revert to the City of Boston when amortized, or in about 20 years. I supported the proposition for the bridge on the grounds that the city was unable to meet the major obligation of \$50,000,000, and the Legislature accepted my recommendation and authorized the construction of the toll bridge in place of the circumferential highway, thereby saving the city \$50,000,000 on the circumferential highway, and turning over to the city, when the toll bridge has been paid off, the entire structure representing a cost of \$20,000,000 additional, or a total saving on this transaction to the city of \$70,000,000.

It is interesting to summarize briefly the savings effected, namely:

Sales of properties.....	\$865,035
Saving on auctioneers' fees.....	55,000
Saving to city on boat for use between Boston and Long Island.....	450,000
Saving on Long Island buildings which would otherwise be condemned or destroyed.....	330,000
Saving on school appropriations budget through reductions of school budget.....	644,330

By adopting one-way traffic on streets leading in and out of the city between the hours of 8 and 10 a. m., and 4 and 6.30 p. m., estimated by competent authorities to be millions of dollars, with no cost to the city other than the cost of signs and the enforcement of the regulation.

Meridian Street Bridge—a saving of \$1,800,000 was effected through not building the bridge and through inducing the Federal authorities to forego the penalty clause of \$5,000 per month—a saving of \$30,000 for the balance of the present year, it being understood that the state is prepared to take over the Meridian Street Bridge as a state highway early in 1947.

The abandonment of the proposal for a White Fund memorial to veterans of all wars rather than having it done as it should be done by the state—a saving of \$1,000,000 was effected.

A garage under Boston Common to be built by private funds rather than by the city for the relief of traffic represents a saving of \$5,000,000.

The Gilchrist Company tax case represents a saving of \$136,000.

The circumferential highway represents a saving to the city of \$50,000,000, through its abandonment, while the toll bridge to be constructed by private interests to take the place of the circumferential highway represents a saving of \$20,000,000—or a *grand total saving in five months* of \$80,210,365.

I note that time will not permit me to continue with any further presentation of accomplishments made during the past five months. I trust, however, that the measures I have described will indicate to my listeners that I have not been idle since January 7, 1946, and that I am doing everything within my power to satisfy the promise made during my campaign for Mayor, namely, to devote all of my energy and talents during my present term of office to the rebuilding of Boston.

CIRCULAR LETTER NO. 12.

City of Boston,
MAYOR'S OFFICE, May 29, 1946.

To the Heads of All City Departments.

GENTLEMEN,—I have been advised that the State Convention of the United Spanish War Veterans will be held in Worcester, June 14, 15 and 16, 1946.

The National Encampment of the United Spanish War Veterans takes place in Milwaukee, August 4 to 8, inclusive.

In accordance with the custom, you are directed to grant leave of absence to employees in your department who are duly authorized delegates or alternates who desire to attend these meetings.

Respectfully,

JAMES M. CURLEY, Mayor.

MAYOR CURLEY EXPRESSES THANKS TO VETERAN RETIRING EMPLOYEES FOR SERVICES DURING PERIOD OF WAR.

His Honor the Mayor sent the following letter on May 31 to those retiring under chapter 55, Acts of 1946:

Dear Friend,—You, as a city employee, are to retire from service at the close of business today. I wish to take this opportunity to extend my personal thanks to you, as well as the thanks of all good citizens of Boston, for faithful and patriotic endeavors, above and beyond the call of duty, which you have rendered.

With the youth of our Nation engaged in waging a successful, though costly, war, the public service here at home faced an emergency. Men and women who had retired from active labors were called upon in the city's hour of need, to bring their expert advice and assistance to Boston's help. They responded nobly. Theirs was indeed a remarkable war effort.

You are returning to retirement, to spend the twilight years of life—and I pray they may be many—with the happy knowledge that you have performed an outstanding work. In closing, I can merely say, "Well done, thou good and faithful servant," and may God be with you and grant to you health and happiness.

Sincerely,

JAMES M. CURLEY, Mayor.

ASK PROTECTION IN CASE OF MARINE STRIKE.

His Honor the Mayor was, on May 28, in receipt of the following letter from John J. Collins, Adviser for the Board of Governors of the Esso Tanker Men's Association, 53 Park place, New York:

The Mayor of Boston,
Boston, Mass.

DEAR MR. MAYOR,—You undoubtedly read in the newspapers of the proposed CIO National shipping strike, to take place at 12.01 a. m. on June 15.

This is to inform you that the Esso Tanker Men's Association is an independent union composed of the unlicensed men, Deck and Engine Department, on the tankers of the Standard Oil Company (New Jersey). This association was certified by the National Labor Relations Board as the Exclusive Collective Bargaining Agent for all unlicensed men on the American Flag Vessels of the Standard Oil Company (New Jersey). There is at present a Collective Bargaining Agreement between this association and the company.

It is not the desire of this association to participate in any way whatsoever in this proposed shipping strike. The association expects, therefore, that the City of Boston will fulfill its primary duty in the matter of maintaining law and order should such a strike take place and afford all law-abiding citizens full protection in their right to enter or leave their place of employment, whether this be their ships or the Company Shipping Office.

An early official reply to this communication will be appreciated.

Very truly yours,

JOHN J. COLLINS,
Adviser for the Board of Governors.

BUSINESS ENTERPRISE GRATEFUL TO MAYOR FOR ENCOURAGEMENT.

The following communication has been received by the Mayor from the Nylosh Corporation, Distributors, 457 Stuart street:

BOSTON, May 29, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Our corporation is sole distributor of a new liquid soap made expressly to wash nylon stockings and lingerie. Our product is called NYLOSH. We have taken the liberty of forwarding to you a case of our product, with a twofold purpose:

First, as a gesture of friendship from our corporation to the Mayor of the city in which we are located; second, as a token of appreciation to the champion of Boston business enterprises and the best friend local businessmen could have.

We feel you will be interested to know that not only our general offices are located in Boston, but also the plant and offices of our manufacturer. As we ourselves grow toward nation-wide distribution we are proud of the fact that we achieved our start in Boston and have chosen it as our permanent home.

Very truly yours,

NYLOSH CORPORATION,
WILLIAM J. TIBBETTS,
General Manager.

SEEKS FLOORING FOR CAMP McKAY HOUSING FOR VETERANS.

BOSTON, May 29, 1946.

HON. JAMES FORRESTAL, Secretary of the Navy, Washington, D. C.

DEAR SIR,—The project known as Camp McKay, utilized by the government at Boston for the use of Italian prisoners of war, is now being converted into homes for the families of veterans.

I have been informed by Mr. John Carroll, chairman of the Boston Housing Authority in charge of the project, that the Navy Department has millions of yards of linoleum in the United States Navy Warehouse at Scotia, New York.

The City of Boston is very desirous of securing for the flooring of these houses 100,000 yards of this material which cannot be obtained here and which is of questionable use to the Navy.

If you can assign someone to set a reasonable figure on it and sell it to the City of Boston, or give it to the city without charge, we will be most pleased to secure the same.

With every good wish and sincere thanks for past courtesies, I am,

Respectfully,

JAMES M. CURLEY, Mayor.

EXTRA WORK UNDER CONTRACT.

Baker & Co. has been directed to perform the following extra work under the contract for sewerage works in Van Ness street, between Jersey street and Ipswich street, Roxbury, as part of paving contract, dated November 13, 1945. Items ordered: Furnish all labor, materials and equipment required to rebuild four manholes made necessary by change in street grade by Paving Division, at agreed price of \$50 each. Estimated cost of extra work, \$200.

TRANSFERS OF REAL ESTATE.

The Mayor has approved the requests of the Board of Real Estate Commissioners as contained in the following letters:

Boston, April 30, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—Your permission is hereby requested for authority to transfer two parcels of foreclosed property (2½ Charter street and 390-394 Hanover street) from the custody of the Board of Real Estate Commissioners to the Fire Department.

This property is to be used by the Fire Department for the location of a new fire house.

Very truly yours,

IRVING LEWIS,
Chairman.

Boston, May 3, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—Your permission is hereby requested for authority to transfer one parcel of foreclosed property from the custody of the Board of Real Estate Commissioners to the Public Works Department.

This property is located on Belle avenue, in the West Roxbury district, and is to be used by the Public Works Department for a much needed city dump.

Very truly yours,

IRVING LEWIS,
Chairman.

RETIREMENT BOARD REPORT.

Attest:

W. J. DOYLE, *Chairman.*

* The retirement of William J. Hartnett was approved to become effective at the close of business, May 14, 1946.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of October 3, 1944, determining that no person sustains damages by the making of the public improvement consisting of the laying out of Berwick street, be, and the same hereby is, amended, by striking out in the first and second lines of said order the words "that no person sustains in his estate," and by striking out in the last line of said order the word "no"; that said order be further amended by adding thereto "Mary Milone, \$184.60"; that the amount \$184.60 be, and the same hereby is, awarded to Mary Milone for the damages sustained by the making of the said improvement.

Voted, That the order of the Street Commissioners and Mayor of July 28, 1943, determining damages caused by the making of the public improvement consisting of the widening and relocation of Weld street, be, and the same hereby is, amended, by striking from said order the amount \$1 awarded to Ivar L. Stone and Helen M. Stone, husband and wife as tenants by the entirety, in said order and inserting in place thereof the amount \$25; that the amount \$25 be, and the same hereby is, awarded to Ivar L. Stone and Helen M. Stone, husband and wife as tenants by the entirety, for the damages so sustained.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

Three hundred eighty feet of minor drains, twenty-one catch-basins, three drop inlets and two manholes in Boylston place and Myles Standish road, West Roxbury; Birchcroft road and Gwinnett street, Hyde Park, and Pleasant Hill avenue, Dorchester, in the several districts, at an estimated cost of \$9,200.

* Contract awarded.

PARK DEPARTMENT.

Upon May 20 the Mayor approved a contract with Patrick J. Sullivan for repairs to field house, shelter and bleacher seats at William H. Garvey Playground. Bids, opened May 9, were as follows:

Patrick J. Sullivan, \$3,050; M. Solimando, \$3,657; P. J. Cantwell & Son, \$3,937; R. A. Buccella & Sons, \$4,000; Feldman Construction Company, \$4,212.

On Item A, for roofing, only one bid was received. The amount of the bid, \$345, was not reasonable for acceptance without competition. Again bids were asked for roofing and a low bid of \$295 was received for this work. This price is a reasonable one and has been substituted for the original price of \$345, so that Item A will now read: Roofing, John J. Hourihan, \$295.

PUBLIC BUILDINGS DEPARTMENT.

Upon May 24 the Mayor approved a contract with Joseph Gazzola for painting and plastering in City Hall and City Hall Annex. Bids, opened May 20, were as follows:

Abbott Painting Company, \$4,241; Joseph Gazzola, \$4,875; Realty Maintenance Company, \$5,875; Utility Painting and Decorating Company, \$5,935; Max Cahn, \$6,250; John T. Bradley, \$6,489.

Due to the manpower shortage the Abbott Painting Company had written that they were unable to fulfill the contract and had asked permission to withdraw their proposal.

PUBLIC WORKS DEPARTMENT.

Upon May 20 the Mayor approved a contract with the Carney Construction Company, Inc., the lowest bidder, for repairing Braddock park and West Rutland square footbridges, at an estimated cost of \$8,332.50.

The work is to be commenced on a date to be specified on a written order

from the commissioner and shall be fully completed within three months from that date.

The following bids were received May 8: Carney Construction Company, Inc., \$8,332.50; Marinucci Brothers & Co., \$10,150; M. J. Kelly Company, Inc., \$10,545.50; A. Orlando, Inc., \$11,500.

Upon May 21 the Mayor approved a contract with J. D'Amico, the lowest bidder, for sewerage works in Boylston place and Myles Standish road, West Roxbury; Pleasant Hill avenue, Dorchester; Birchcroft road and Gwinnett street, Hyde Park, at an estimated cost of \$8,451, including concrete pipe.

The work contemplated in the contract is to be completed within sixty days after the contract is approved by the Mayor.

The following bids were received May 9:

Clay Pipe.—J. D'Amico, \$8,451; Baker & Co., \$8,617.50; F. Susi & DiSantis Company, \$8,983; Williams Brothers, \$10,840; R. A. Buccella and Sons, \$13,865.

Concrete Pipe.—J. D'Amico, \$8,451; Baker & Co., \$8,560; F. Susi & DiSantis Company, \$8,983; Williams Brothers, \$10,690; R. A. Buccella & Sons, \$13,835.

SUPPLY DEPARTMENT.

Upon May 20 the Mayor approved a contract with lowest bidders as indicated for furnishing hay and poultry feed for the city departments, as required, for May delivery. The totals of the awards were as follows:

Curley Grain and Fuel Company, \$2,784; Louis E. Page, Inc., \$558.

Bids, opened May 10, were as follows: *30,000 Pounds Beacon Turkey Growing Mash, Per Hundredweight.*—Curley Grain and Fuel Company, \$3.96.*

20,000 Pounds Beacon Broiler Mash, Per Hundredweight.—Curley Grain and Fuel Company, \$3.91.*

20,000 Pounds Beacon Broiler Pellets, Per Hundredweight.—Curley Grain and Fuel Company, \$4.07.*

20,000 Pounds United States No. 1 Clover Hay, 40 Per Cent Clover, Per Hundredweight.—Curley Grain and Fuel Company, \$1.429; Louis E. Page, Inc., \$1.395*; John J. White Company, \$1.575.

20,000 Pounds United States No. 1 Timothy Hay, Per Hundredweight.—Curley Grain and Fuel Company, \$1.399; Louis E. Page, Inc., \$1.395*; John J. White Company, \$1.50.

Cash Discount, Ten Days.—Curley Grain and Fuel Company, 1 per cent; Louis E. Page, Inc., 1 per cent; John J. White Company, 1 per cent.

Remarks.—Curley Grain and Fuel Company, prices are subject to any change on account of ceiling prices on feed.

* Contract awarded.

EXTENSION OF CONTRACTS.

William P. Herlihy has been granted an extension of time until May 1, 1946, for the completion of the contract for grading, loaming and improvements at Chestnut Hill Playground, Brighton.

Kenworthy & Taylor, Inc., has been granted an extension of time until July 30, 1946, for completion of the contract for electrical work at Calf Pasture pumping station.

This extension was requested because of the contractor's inability to obtain material.

J. D'Amico has been granted an extension of the time of completion of the contract for sewerage works in Pontiac street, Humboldt avenue and South

Huntington avenue, Roxbury, approved by his Honor the Mayor December 24, 1945, said contract to have been completed within sixty days after approval by the Mayor, from April 24, 1946, to May 24, 1946.

This extension was requested for the reason that the contractor engaged on this work was delayed by reason of unforeseen difficulties encountered in the progress of the work in Humboldt avenue.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of horse racing at Suffolk Downs Track, parking of vehicles is prohibited in the following street, from May 27, 1946, to July 6, 1946, inclusive, and from October 1, 1946, to October 26, 1946, inclusive:

Waldemar Avenue, East Boston.

Both sides, from Walley street to McClellan Highway, 7 a. m. to 8 p. m.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary rule, which was adopted and was effective February 26, 1943, for the period of the National Emergency, is hereby rescinded, effective May 13, 1946:

Parking of vehicles is prohibited, except that vehicles owned by the U. S. Government may be parked without time limit, in the following street:

Boylston Street, Boston Proper.

South side, from a point thirty-five (35) feet west of Tremont street to a point one hundred and fifteen (115) feet west of Tremont street, twenty-four hours.

FIRE DEPARTMENT ORDERS.

General Order No. 35.

I. RETIREMENTS.

The following retirement which will become effective at 4.30 p. m., Friday, May 31, 1946, is hereby announced:

Master Hose Repairer Thomas W. Kennedy, Maintenance Division.

The following retirements which will become effective at 8 a. m., Saturday, June 1, 1946, are hereby announced:

Hoseman John A. McGranahan, Engine Company 51.

Ladderman Martin A. Callaghan, Ladder Company 14.

Master Hose Repairer Kennedy was appointed to the department October 27, 1905. Hoseman McGranahan was appointed July 18, 1924, and Ladderman Callaghan was appointed to the department August 5, 1927. All these men leave the department with the best wishes of their associates.

II. TRANSFERS.

The following transfers which will become effective at 8 a. m., Wednesday, May 29, 1946, are hereby announced:

Capt. Carl S. Bowers, from Engine 4 to Headquarters.

Capt. Gerald F. Keenan, from Engine 34 to Ladder 32.

Capt. William A. Henneberry, from Engine 33 to Engine 34.

Hoseman William F. Gilmore, from Engine 14 to Maintenance Division.

III. FIRE ALARM BOXES REMOVED FROM SERVICE.

At the request of the owners the following fire alarm boxes have been disconnected and permanently removed from service:

12-2395, Thomas G. Plant Company, Walden street entrance.

12-2411, Thomas G. Plant Company, 307 Centre street.

14 2411, Thomas G. Plant Company, 89 Bickford street, "A" lobby.

These fire alarm boxes shall be deleted from the assignment cards for Boxes 2395 and 2411.

At the request of the United States Army the following fire alarm box has been disconnected and permanently removed from service:

12-7143, D Street Garage, D street, near Clavin.

This box should be deleted from the assignment card for Box 7143.

IV. CHANGE OF NEAREST CITY BOX FOR A. D. T. SIGNALS.

Due to the removal from service of Fire Alarm Boxes 12-2395, 12-2411 and 14-2411, formerly located at the Thomas G. Plant Company, Centre and Bickford streets, Jamaica Plain, the nearest city box should be changed for the following A. D. T. signals:

A.D.T.	Now Listed as	Change to
648	14-2411	2411
649	12-2411	2411
651	12-2395	2415
652	14-2411	2412

V. G. A. C. ASSIGNMENT.

The following signal numbers are to be added to running cards of the G. A. C. in this department:

Signal 293, United Distributors, 855-861 Commonwealth avenue. Apparatus to respond: Engine 41, Ladder 14, District Chief 11. Nearest box is 511.

Signal 294, Fur Merchants Cold Storage. (Sprinkler.) 717-719 Atlantic avenue. Apparatus to respond: Engine 7, Ladder 17, District Chief 5. Nearest box is 1434.

VI. APPRECIATIONS.

The Fire Commissioner is pleased to publish the following letter received from Commodore A. R. Marron of the Boston Naval Shipyard:

"Dear Sir,—I wish to thank the Boston Fire Department for the valuable and efficient service rendered fighting the fire aboard the USS "Whitewood" on Saturday, May 18, 1946. The assistance rendered by your department was a great factor in controlling the fire, and I want you to know that it was appreciated.

Again thanking you, I am

Yours sincerely,

A. R. MARRON,
Commodore, U. S. N.
Commander."

He is also pleased to publish the following complimentary letter received from Chief J. B. Hartnett of the Dedham Fire Department:

"DEAR COMMISSIONER,—I wish to thank you through District Chief Foley and the members of his district who rendered such able assistance to my department at a fire in the Moseley Boat-house on the 20th day of May.

It was through the efforts of District Chief Foley and his men that one building housing a cafe and clubroom is now standing, if the fire had reached this building there is no telling where it might have traveled to before it could be extinguished.

Thank you for the cooperation of your department, I remain

Very truly yours,

J. B. HARTNETT,
Chief of Fire Department."

The commissioner is pleased to publish the following letter received from Mr. W. E. Mullins, Superintendent of the Boston Division, the New York, New Haven & Hartford Railroad Company:

"DEAR SIR,—I would like at this time to express my personal appreciation as well as the appreciation of the Railroad Company for your cooperation at the time of collision between two of our passenger trains at Readville, Mass., on April 21, 1946.

Your department responded to our plea for assistance in the emergency and rendered every service possible, for which we are deeply grateful.

Very truly yours,

W. E. MULLINS,
Superintendent."

VII. COMMENDATIONS.

Capt. Thomas M. Manning of Rescue Company 2, Lieut. Ralph Reis of Engine Company 24, and Hoseman John T. Manning of Engine Company 23 are hereby commended for responding to and working at fire, Box 2795, May 20, 1946, while off duty.

Hoseman Gerard S. Melia of Engine Company 29 is hereby commended for responding to and working at fire, Box 5271, on May 23, 1946, while off duty.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

General Order No. 36.

I. FIRE DISTRICTS.

Effective at 8 a. m., Wednesday, June 5, 1946, Fire District No. 3 shall be re-established and included in Division No. 1.

Effective at the same time and date that portion of the city within the boundary lines as stated below, shall comprise District No. 3 and the following changes in district boundaries will become operative:

FIRE DISTRICT No. 3.

Headquarters, Ladder House No. 18, Pittsburgh Street, City Proper.

All that portion of the city included within a line beginning at the intersection of Congress and State streets, and continuing through State street to Atlantic avenue to a point midway between Long and Central Wharves, thence easterly to the center line of the harbor, and following said harbor line midway between the United States Pierhead lines to a point opposite the center of the Reserve Channel, thence through said channel to the center line of L Street Bridge, thence northwesterly through Summer street to E street, E street to Cypher street, to B street to West First street to Dorchester avenue to center of Fort Point Channel at Dorchester Avenue Bridge, said bridge included, and following the channel to and including Summer Street Bridge, Summer street to Federal street to Milk street to Congress street to point of beginning.

The Boston Elevated Railway Tunnel Station at State street and Atlantic avenue shall be excluded from Fire District No. 3.

Gallup's, George's, Lovell's, Long, Rainsford, Spectacle, and Thompson's Islands are to be considered part of Fire District No. 3.

Companies located in this district—Engine Companies 25, 38, 39, 44, 54, Ladder Companies 8, 18, 33, Tower Company 3.

FIRE DISTRICT No. 4.

Headquarters, Engine House No. 4, Bowdoin Square, City Proper.

All that portion of the city included within a line beginning at the intersection of the Cambridge boundary line and Miller's River, and continuing through the center of said river to the channel,

and following on a line midway between Charlestown and City Proper to the center line of the harbor and following said harbor line to a point opposite the center of the dock between Long and Central Wharves, through said dock line to Atlantic avenue to State street, to Congress street through Congress street to Water street, thence westerly through Water street to Washington street, Washington street to School street, School street to Beacon street to Embankment road to the intersection of Back street, thence northwesterly to the Cambridge boundary line at a point opposite Pinckney street to the point of beginning.

All that portion of the East Boston Tunnel within the City Proper to the Pump Chamber (2,900 feet east of the Atlantic Avenue Station) and the Sumner Traffic Tunnel shall be included in Fire District No. 4.

Companies located in this district—Engines 4, 6, 8, 10, 31, Ladders 1, 24, Rescue 3, Tower 1.

FIRE DISTRICT No. 5.

Headquarters, Engine House No. 7, 9 East Street, City Proper.

All that portion of the city included within a line beginning at the intersection of Beacon and Charles streets, thence through Beacon street to School street to Washington street, to Water Street to Congress street, thence southerly through Congress street to Milk street to Federal street to Summer street, thence easterly through Summer street to center of Fort Point Channel (Summer Street Bridge excluded), thence southerly through said channel to the northeasterly side of Broadway, (Dorchester Avenue Bridge excluded), following said northeasterly side to and excluding the bridge over the Boston & Albany and the New York, New Haven & Hartford Railroad tracks, to center line of Broadway to Park square to Charles street and through Charles street to point of beginning.

All that portion of the Cambridge-Dorchester Tunnel within the district lines to Pump Chamber (under Fort Point Channel) shall be included in Fire District No. 5.

Companies located in this district—Engines 7, 26, 35, Ladder 17, Rescue 1.

FIRE DISTRICT No. 6.

Headquarters, Engine House No. 1, 119 Dorchester Street, South Boston.

All that portion of the city included within a line beginning at the center of Fort Point Channel at Dorchester avenue Bridge (excluding said bridge) and continuing southerly through Dorchester avenue to West First street to B street, B street to Cypher street, through Cypher street to E street, thence through E street to Summer street, thence southeasterly through Summer street to center line of the Reserve Channel at L Street Bridge, thence easterly through center line of said channel to the center line of the harbor, and following said harbor line, midway between the United States Pierhead lines to a line running from the southerly point of the United States Pierhead line off Governor's Island to the southeast point of the United States Pierhead line off Castle Island, thence continuing southwesterly by the end of the Headhouse Pier to the northeast junction of the United States Pierhead line off the property of the City of Boston at Old Harbor Point, and following the

United States Pierhead line northwesterly to the bulkhead at the southerly end of Carson Beach and following said bulkhead, and an imaginary line, to the intersection of Columbia road and Old Colony Parkway, thence westerly through Columbia road to Massachusetts avenue, thence through Massachusetts avenue to South Bay, thence following the center lines of South Bay and Fort Point Channel to the point of beginning.

All that portion of the Cambridge-Dorchester Tunnel within the district lines to the Pump Chamber (under Fort Point Channel) shall be included in Fire District No. 6.

Companies located in this district—Engines 1, 2, 15, 43, Ladders 5, 19, 20.

(The center line of the street shall determine the location of the boundary lines between districts unless otherwise stated.)

II. CHANGES IN ASSIGNMENT.

The following changes in fire alarm box assignments, for deputy and district chiefs, to take effect at 8 a. m., Wednesday, June 5, 1946, are here announced.

This also includes changes in covering assignments for district chiefs. Where a district chief is assigned to cover at a division quarters, on a multiple alarm, he shall assume the box assignments of the deputy chief, but not the authority of the deputy chief.

Boxes: 1211, 1212, 1213, 1214, 1215, 1221, 1223, 1224, 1231, 1232, 1233, 1234, 1235, 1241, 1242, 1243, 1244, 1245, 1246, 1247, 1251, 1252, 1253, 1254, 1256, 1257, 1261, 1271, 1273, 1274, 1281.

Drop: District 2 on 2d alarm, Add: District 3 on 2d alarm.

Drop: District 9 to District 5 on 2d alarm, Add: District 9 to Division 1 on 2d alarm.

Districts 3, 4, 5, 6 shall respond to all Boston Automatic, American District Telegraph, General Alarm Boxes and Still Alarms within their respective districts in accordance with the new district lines.

Company commanders shall be responsible for making the above changes on the assignment cards.

The attention of the department is called to the fact that the assignments to a city box are also the assignments to any private box on the assignment card, unless otherwise designated by a symbol.

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

General Order No. 38.

I. PROMOTIONS.

The following promotions which will become effective at 8 a. m. Wednesday, June 5, 1946, are hereby announced:

Ladderman John K. Hayes, Motor Squad, to engineer.

Ladderman John J. Madden, Motor Squad, to engineer.

II. RETURN TO DUTY FROM ARMED FORCES.

The following member who has been serving in the armed forces of the United States will return to duty in the department effective at 8 a. m., Wednesday, June 5, 1946:

M. O. P. Joseph T. Heim, Ladder Company 29.

III. TRANSFERS.

The following transfers which will become effective at 8 a. m. Wednesday, June 5, 1946, are hereby announced:

District Chief William A. Donovan, from District 14 to District 3.

District Chief Leo C. Driscoll, from District 8 to District 3.

Ladderman Walter F. Thurston, from Ladder 12 to Ladder 18.

Hoseman George L. Rooney, from Engine 14 to Ladder 10.

Hoseman Harry N. Arnao, from Engine 18 to Engine 43.

The following transfers which became effective at 8 a. m. Wednesday, May 22, 1946, are hereby announced:

Ladderman John K. Hayes, from Ladder 29 to Motor Squad.

Ladderman John J. Madden, from Ladder 32 to Motor Squad.

IV. RETIREMENTS.

The following retirement which will become effective at 5 p. m. Tuesday, June 4, 1946, is hereby announced:

Interior Wire Inspector Philip F. Cunniff, Electrical Inspection Division.

The following retirements which will become effective at 8 a. m. Wednesday, June 5, 1946, are hereby announced:

Lieutenant Daniel P. Connor, Engine Company 21.

Lieutenant Francis J. Doyle, Headquarters.

Apparatus Operator Thomas F. Flaherty, Engine Company 45.

Hoseman George J. A. Walker, Engine Company 1.

Hoseman Edward J. Brown, Engine Company 20.

Hoseman Edward G. Gillespie, Engine Company 27.

Ladderman Moses J. Kinsella, Ladder Company 7.

Ladderman John J. Killackey, Ladder Company 12.

Ladderman John S. Cheevers, Ladder Company 20.

Ladderman Lawrence J. Buchanan, Ladder Company 26.

Interior Inspector Cunniff was appointed to the department July 13, 1923; Lieutenant Connor was appointed December 16, 1912, and promoted to lieutenant August 10, 1928; Lieutenant Doyle was appointed February 1, 1924, and was promoted to lieutenant April 12, 1939; Apparatus Operator Flaherty was appointed to the department January 30, 1918; Hoseman Walker was appointed April 18, 1930; Hoseman Brown was appointed September 20, 1918; Hoseman Gillespie was appointed July 19, 1918; Ladderman Kinsella was appointed February 16, 1912; Ladderman Killackey was appointed March 16, 1928; Ladder-

man Cheevers was appointed February 1, 1918; Ladderman Buchanan was appointed December 8, 1905.

All the foregoing officers and men leave the department with the best wishes of their associates.

V. RESIGNATION.

The following resignation which became effective at 8 a. m. Monday, June 3, 1946, is hereby announced:

P. M. S. Charles C. Leneten, Jr., Engine Company 41.

VI. CHANGE IN DESIGNATION—Box 3221.

The auxiliary fire alarm system in the Richard C. Humphreys School has been permanently disconnected. The part of designation of the box reading "Aux. Richard C. Humphreys School" shall be deleted so that the location of the box will read as follows: 3221—Sumner and Willis streets.

VII. FIREMEN'S MEMORIAL SUNDAY.

Firemen's Memorial Sunday will be held on Sunday morning, June 9, 1946. Hon. James M. Curley, Mayor of the City of Boston, will be orator of the day. A detail, consisting of one man from each company, will act as an escort to the various organizations participating in the Memorial Exercises. The detail will report to Thomas W. Cooke, Chief Marshal, in front of Fire Department Headquarters, 60 Bristol street, at 9.15 a. m.

The detail will include the trustees or members of the Charitable Association of the Boston Fire Department who are on duty that day. Regulation uniform with sack coat and white gloves will be worn on this occasion.

Members of the night tour of duty Saturday, June 8, 1946, who are to participate in the services will be excused from roll call if relieved by members of the on-coming shift prior to eight o'clock.

Members of the department who are on a day off or who are on the off tour on Sunday, June 9, are invited to participate in the Memorial Exercises, and it is hoped that a large number will be present to honor the memory of the deceased members of the department.

Members of the department who are on the Committee on Arrangements will be granted sufficient time to attend to their customary duties, and those members of the committee who are scheduled to work on Sunday, June 9, will be excused from duty on that day.

The Boston Fire Department Band will furnish the music for the parade and exercises. Members of the band who are on duty June 9 will be excused from 7.30 a. m. to 3 p. m. They will report to Band Manager Frank Marr at Headquarters at 9 a. m.

In connection with the Firemen's Memorial Day Services, there will be two band rehearsals, one on Thursday, June 6, and one on Friday, June 7, at 7.30 p. m., at Ladder 17's quarters. Band members shall report to Hoseman John Abbott. If working, they will be excused from duty from 6 p. m. until midnight.

VIII. COMMENDATION.

The following-named are hereby commended for diligence and effort shown by them in preparation of General Order No. 36, which was issued to the department on May 31, 1946:

District Chief William A. Donovan, District 3.

District Chief John J. Crehan, District 15.

Hoseman William J. Forster, Headquarters.

Hoseman John J. Kelley, Headquarters. Clerk Gerald J. Harrington, Headquarters.

Clerk-Stenographer Mary A. Hurley, Headquarters.

Clerk-Stenographer Eleanor J. Cunniff, Headquarters.

By Order of Fire Commissioner,
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 27, 1946.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KELLY in the chair. Absent, Coun. Coffey, Linehan.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council the Mayor submitted the following appointments, viz.:

Constable to serve without bond and without authority to serve civil process for term ending April 30, 1947: Louis J. Lanata, 44 Rexford street, Mattapan.

Weighers of Goods for term ending April 30, 1947: William H. Mountain, 80 Allston street, Allston; John Conley, 168 Broadway, South Boston; Charles W. Lenaghan, 8 George street, Cambridge.

Severally referred to the Committee on Constables and Confirmations.

IMPROVEMENT OF FORT HILL OBSERVATORY.

The following was received:

City of Boston,
Office of the Mayor, May 25, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Art Commission, in reply to your order of May 6, 1946, to re-create, beautify and make attractive for historical celebrations the Fort Hill Observatory, atop Fort avenue, Ward 11.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Art Commission, May 16, 1946.
To Office of the Mayor, City Hall, Boston.
Subject: City Council Order, May 6, 1946, High Fort Observatory, Ward 11.

A fine lofty park with remarkable pudding-stone ledges and the outlines of the old fort followed by the modern walks. The observatory building is graceful and appropriate in this historical setting. It does need some pointing and painting. The stone marker was restored by the Art Commission in 1945. The observatory is not within our jurisdiction.

ROBERT P. BELLOWES, Chairman.
Placed on file.

REAL ESTATE ASSESSMENT OF SUFFOLK DOWNS PROPERTY.

The following was received:

City of Boston,
Office of the Mayor, May 25, 1946.
To the City Council.

Gentlemen,—I transmit herewith communication from the Board of Assessors, in reply to your order of May 13, 1946, to consider the advisability of increasing the real estate assessment on the Suffolk Downs property.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Assessors, May 20, 1946.
J. Joseph Connors,
Chief Clerk, Mayor's Office.

Dear Sir,—The Board of Assessors has received a copy of an order from the City Council, dated May 13, 1946, to the effect:

"Ordered, That the Board of Assessors be instructed by his Honor the Mayor to consider the advisability of increasing the real estate assessment on the Suffolk Downs property."

It is respectfully suggested that the City Council be informed that the Board of Assessors will give whatever consideration is just and equitable to the subject of the City Council order.

Very truly yours,
PETER J. ALLEN,
BOARD OF ASSESSORS,
Principal Assessor.

Placed on file.

TRANSFER OF LAND ON HARRISON AVENUE TO FIRE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 27, 1946.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Chairman of the Board of Real Estate Commissioners, in which it is proposed to transfer three parcels of land on Harrison avenue to the Fire Department.

Upon completion of this transfer of land, it is the intention of the Fire Department to construct thereon a paint shop and small garage.

I am in favor of this transfer of land, and respectfully request passage of the accompanying order approving such transfer by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Real Estate Commissioners,
February 21, 1946.

Hon. James M. Curley,
Mayor of Boston.

My dear Mr. Mayor,—I am presenting for your approval and that of the City Council, four copies of an order for the transfer from the Board of Real Estate Commissioners to the Fire Department, of three parcels of land. This land is owned by the City of Boston by virtue of foreclosure, and is to be used for the location of a paint shop together with a small garage.

The property is located at:

1. Land on the southeasterly side of Harrison avenue, Boston, formerly numbered 624 in the numbering of said avenue. Area, 1,831 square feet. File, J-538.

2. Land on the southeasterly side of Harrison avenue, Boston, formerly numbered 628 and 630 in the numbering of said avenue. Area, 1,831 square feet. File, K-347.

3. Land on the southeasterly side of Harrison avenue, Boston, formerly numbered 632 and 634 in the numbering of said avenue. Area, 1,574 square feet. File, J-557.

Respectfully yours,
IRVING LEWIS,
Chairman.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated November 7, 1945, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5926, page 223, on about one thousand eight hundred thirty-one (1,831) square feet of land on the southeasterly side of Harrison avenue, Boston, formerly numbered 624 in the numbering of said avenue; and

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated November 7, 1945, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5995, page 175, on about one thousand eight hundred thirty-one (1,831) square feet of land on the southeasterly side of Harrison avenue, Boston, formerly numbered 628 and 630 in the numbering of said avenue; and

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated January 25, 1945, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5926, page 250, on one thousand five hundred and seventy-four (1,574) square feet of land on the southeasterly side of Harrison avenue, Boston, formerly numbered 632 and 634 in the numbering of said avenue; and

Whereas, The Fire Department has requested that the aforesaid parcels of foreclosed tax title properties be transferred to that department for the purposes of establishing thereon a paint shop and garage; now therefore it is hereby

Ordered, That the aforesaid parcels of foreclosed tax title property be, and the same hereby are, transferred from the care, custody, control and management of the Chairman, Board of Real Estate Commissioners, to the care, custody, control and management of the Fire Department for Fire Department purposes.

Referred to Executive Committee.

SALE OF LAND TO DOWNES REALTY CORPORATION.

The following was received:

City of Boston,
Office of the Mayor, May 27, 1946.
To the Honorable the City Council.

Gentlemen,—The City of Boston owns a large area of land situated at the corner of Southampton and Atkinson streets in the Roxbury district. This land was acquired by the City for Health Department purposes, but in recent years this land has been occupied by the Public Works Department. Downes Realty Corporation owns a large tract of land contiguous to the city-owned property.

Downes Realty Corporation informs me that it proposes to construct on its land a building for the receiving, storage and sale of lumber. The proposed building will be approximately three hundred sixty-two (362) feet in length, one hundred one (101) feet in width, and twenty-eight (28) feet in height. Plans of this proposed terminal shed, most modern in design, have been approved by the Building Department of the City of Boston. The estimated cost of the proposed building is \$50,000.

In the preparation of the plot plan for the layout of the proposed terminal storage building, it was found that an additional small area of land was required in order to erect a building of this size on the present lot. The area needed for this purpose contains approximately four hundred and thirty-eight (438) square feet and is situated at the northwesterly corner of the large tract of land owned by the City of Boston. Mr. Downes informs me that the acquisition of this small parcel of city-owned land is vitally necessary in order that he may proceed with the proposed construction.

In exchange for the sale and conveyance of the city-owned parcel of land containing four hundred and thirty-eight (438) square feet, Downes Realty Corporation has offered to the City of Boston a parcel of land containing approximately four hundred and seventy-eight (478) square feet and situated in the rear of and adjacent to the property of the City of Boston and in addition, Downes Realty Corporation has agreed to replace and reset the present wall and fence owned by the city and situated on the present boundary line between lands of the City of Boston and Downes Realty Corporation.

I am of the opinion that the proposed exchange of lands between the City of Boston and Downes Realty Corporation will be of mutual advantage to both parties. Downes Realty Corporation will build a retail lumber terminal, served by both rail and water, and thereby will provide increased facilities and service to the people of our city. The City of Boston in addition to the grant of land to it will permit the full utilization of privately-owned property, and thereby receive from such use an increased revenue based upon the assessment of land with improvements thereon.

I transmit to you herewith an order whereby the proposed exchange of lands between the City of Boston and Downes Realty Corporation may be authorized, and I respectfully recommend your consideration and passage of this order.

Respectfully,
JAMES M. CURLEY, Mayor.

Whereas, The City of Boston owns in fee a certain parcel of land containing approximately one hundred four thousand nine hundred seventy-nine (104,979) square feet of land situated on the northerly side of Southampton street and on the westerly side of Atkinson street in the Roxbury district. This parcel of land was acquired by the city for Health Department purposes, but for some years this property has been used for Public Works Department purposes; and

Whereas, Downes Realty Corporation, a corporation organized under the laws of the Commonwealth of Massachusetts, owns in fee a certain parcel of land situated on the northerly side of Southampton street and on the westerly side of Atkinson street adjacent to and bounding the city-owned parcel of land on the west and north sides thereof; and

Whereas, Downes Realty Corporation desires to erect a building one hundred (100) feet wide and in order so to do must obtain a small parcel of city-owned land, approximately four hundred thirty-eight (438) square feet, "Parcel A," hereinafter described, and Downes Realty Corporation has offered to the city in exchange a larger area of land "Parcel B," hereinafter described, contiguous to and in the rear of the city-owned property, and Downes Realty Corporation has agreed to replace and reset the present wall and fence owned by the city and located on the present boundary line between properties of the City of Boston and Downes Realty Corporation; and

Whereas, the Health Commissioner and the Commissioner of Public Works have declared the parcel of city-owned land, "Parcel A," is no longer required for any public purpose; now therefore it is hereby

Ordered, That his Honor the Mayor of the City of Boston, be, and he hereby is, authorized in the name and behalf of the City of Boston, to convey to Downes Realty Corporation by an instrument in writing satisfactory in form to the Law Department of the City of Boston, all the City of Boston's right, title and interest in and to the parcel of land containing four hundred thirty-eight (438) square feet, designated as "Parcel A," hereinafter bounded and described, in consideration for the conveyance to the City of Boston by Downes Realty Corporation by an instrument in writing satisfactory in form to the Law Department of the City of Boston, of a certain parcel of land containing four hundred seventy-eight (478) square feet, designated as "Parcel B," hereinafter bounded and described, and in the further consideration that Downes Realty Corporation replace and reset the present wall and fence on the new boundary line established by the conveyance of the City of Boston herein authorized. The said parcels of land herein authorized to be conveyed and received by the City of Boston are bounded and described as follows:

Parcel A.

Northwesterly by land of Downes Realty Corporation, eighty-eight and 80/100 (88.80) feet; northerly by other land of Downes Realty Corporation, ten and 22/100 (10.22) feet; southeasterly by land of the City of Boston, ninety-two and 3/100 (92.03) feet, containing four hundred thirty-eight (438) square feet of land.

Parcel B.

Northerly by land of Downes Realty Corporation, seventy (70) feet; southeasterly by land of the City of Boston, twenty-five and 99/100 (25.99) feet; southerly by other land of the City of Boston, forty-nine and 78/100 (49.78) feet, containing four hundred seventy-eight (478) square feet of land.

Said "Parcel A" and "Parcel B" and all of said measurements are shown on a plan marked "City of Boston, Atkinson Street, Southampton Street, Roxbury, April 21, 1946, Thomas F. McGovern, Chief Engineer, Street Laying-Out Department." The original of said plan is on file in the office of the Street Laying-Out Department, City Hall, Boston.

Referred to Committee on Public Lands.

SUPPLEMENTARY BUDGET.

The following was received:

City of Boston,
Office of the Mayor, May 24, 1946.
To the City Council.

Gentlemen,—Herewith I am submitting a supplementary budget containing additional appropriations which are largely of an emergency nature.

The larger items are for alterations and repairs to existing Fire Department buildings which, according to the Fire Commissioner, are in a deplorable condition and in many cases are in a dangerous condition; while the item for Park Department reconstruction and repairs of parkways and roadways is to cover resurfacing of many of the most important roads in the park system. Other large appropriations are of an emergency nature, under the control of the Commissioner of Public Works which appear to be absolutely essential.

I respectfully urge the early passage of this supplementary budget by your Honorable Body in order that the same may be included by the assessors in preparation of the tax rate for the year.

Respectfully,
JAMES M. CURLEY, Mayor.

SUPPLEMENTARY APPROPRIATION AND TAX ORDER FOR THE FINANCIAL YEAR 1946.

Ordered, That the respective sums of money specified in the schedules hereinafter set out, be, and hereby are, appropriated, for the purposes hereinafter specified, said sums to be raised by taxation on the polls and estates in the City of Boston, and that all orders heretofore or hereafter passed by the City Council relating to appropriations, taxes and the interest thereon, apply to the appropriations and taxes herein provided for; and that the expenditures for Revenue Departments be met from the income of such departments and that any expenditures in excess of the income be met from taxes.

CITY OF BOSTON.

ANNOUNCEMENT OF EXECUTIVE SESSION.

President KELLY—Before we go further with the business of the Council today, the Chair will state that invitations have been sent out to various persons to attend a meeting of the Executive Committee at three o'clock. In order not to keep these gentlemen waiting a recess will be called at approximately three o'clock in order to go into executive session.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

AAA Salvage Company, for rebate on auto wrecker's license.

Sally Bashway, for compensation for injuries caused by an alleged defect at Munroe and Warren streets.

Joseph E. DeBeech, for compensation for damage to car caused by an alleged defect at Washington and Dover streets.

Harry Freeland, for compensation for damage to car caused by an alleged defect in Huntington avenue.

Samuel & Nathan Kaufman, for compensation for damage to car and injuries caused by city hospital ambulance.

Laurence L. Luneau, for compensation for damage to car by police cruising car.

Edward Miller, for compensation for damage to property caused by explosion on Devon street.

Margaret M. Murphy, for compensation for damage to property at 55 King street, caused by broken water main.

Austin O'Malley, for compensation for damage to property at 93 Mt. Ida road, caused by balls thrown from Ronan park.

Ormond L. Pieri, for compensation for damage to car caused by an alleged defect at 19 Pinehurst street.

Mary Ryan, for compensation for damage to car by city truck.

Maria T. Spriano, for compensation for damage to property at 21 Virgil road, during street construction.

James W. Stewart, for compensation for damage to clothing by fire at Albany street garage.

Francis T. Hannon, to be reimbursed as result of accident which occurred while in performance of duty as employee of Mayor's office.

Gertrude Phillips, for compensation for injuries caused by an alleged defect in Harvard avenue, Brighton.

PERMITS FOR CHILDREN.

Petitions for children under fifteen years of age to appear at places of public amusement were received as follows:

Armando Arena, Jordan Hall, June 6.
Mona J. Somerville, New England Mutual Hall, May 28 and 29.
Adolphe Robicheau, Jordan Hall, May 25.
East Boston Civic League, East Boston High School, June 18.

Permits granted under usual conditions.

APPROVAL OF CONSTABLES' BONDS.

The bonds of the following constables, having been duly approved by the City Treasurer, were received and approved by the Council, viz.:

James A. Canton, Patrick J. Donovan, Louis Levendorf, Charles A. Wood, Morris Youman.

APPOINTMENT OF MAYOR'S COMMITTEE ON HOUSING.

Notice was received from the Mayor of appointment of following committee to work out specific plans and iron out all legal requirements relative to housing:

Robert P. Curley, Commissioner of Public Works, Chairman; John J. Mahoney, Building Commissioner; William P. Long, Park Commissioner; Irving Lewis, Chairman of Real Estate Board; Clement A. Norton, Chairman of Boston School Committee; Frank Lane, Boston Housing Authority; Philip Bourne, Legal Advisor, Federal Housing Administration; Mr. Tobin of Law Department.

Placed on file.

APPOINTMENT OF MERTON P. ELLIS.

Notice was received from the Mayor of appointment of Merton P. Ellis, of 77 Summer street, Boston, as member of Board of Appeal for term ending April 30, 1951.

Placed on file.

APPOINTMENT OF JOHN J. MOFFITT.

Notice was received from the Health Commissioner of provisional appointment of John F. Moffitt, 3 Blossom court, Boston, as inspector of housing and sanitation at \$1,800 a year plus \$200 E. C. A., effective May 22, 1946.

Placed on file.

COLLECTION AND DISPOSAL OF REFUSE.

The following was received:

City of Boston,
Finance Commission, May 24, 1946.
To the Honorable the Mayor and City Council.

The Finance Commission desires once again to try to inspire some official action which will provide a solution of one of the city's most troublesome problems—the collection and disposal of refuse by

a method which will be efficient and economical. The problem appears to be no nearer solution now than it has been for many years. Certainly it does not appear that any action in regard to it is in immediate prospect.

Although many other capital improvements have been provided by the insertion in the budget of the 10 per cent down payment, so called,—the amount to be raised by taxation of any project to be financed by loan appropriation—there has been no such provision yet made for the construction of an incinerator to consume the city refuse. Inasmuch as the assessors have practically completed their work of fixing valuations and the declaration of the tax rate will be made within a few weeks, hope for an early substitution of the incineration method of disposal for the antiquated dump method used in Boston has waned.

During the war years the construction of an incinerator system for disposal of the city refuse was proclaimed to be the No. 1 postwar construction project. Now this project appears to have been abandoned.

Nevertheless the records continue to abound with complaints of the lack of adequate service, with charges of unsavory practices in the making of contracts for collection and disposal of refuse, and with intimations of unwarranted and excessive cost. They abound also with demands by individuals, organizations, and even by officials charged with the duty of operating it for the adoption of a modern, efficient, and economical method and means of performance.

Regretfully the Finance Commission must state that the situation annually becomes worse, that the cost annually becomes more and more excessive, and that every effort made to obtain improvement of any kind is brushed aside. It is evident that administrations, one after another, prefer to keep this activity within the political patronage field rather than provide a system which will make the service reliable and less costly.

Besides being a service upon which the health of the community, in large part, depends and which has great importance in maintaining a clean city appearance, the cost of collection and disposal of refuse is a big item in the list which adds up to Boston's almost prohibitive tax rate, \$42.50. The total cost of it today to people living or doing business in Boston is at the rate of approximately \$3,000,000 a year. Yet the opinion seems well-founded that this cost is excessive to the extent of over \$1,000,000.

There has been little permanent change in the situation with respect to method and facilities in more than half-a-century. On the other hand, each year brings its own increase in its cost and these increases have been unavoidable only because of the unwillingness to install an efficient modern method.

As the only benefit from the present arrangement accrues to a limited number of contractors with whom the city deals in this matter and as this benefit is substantial and constantly increasing, as will be shown in this report, it is high time that the city administration put a stop to thus favoring a small and powerful group at the expense of the city and face the situation squarely by introducing efficiency and economy in the operation of this important service. Among these particular refuse contractors there is always the threat hanging over them all that if one attempts individual action, another will break his hold on a district by offering a lower price for the contract. As a result competition is stifled.

NUMBER INVOLVED IN REFUSE COLLECTION IN BOSTON.

In no other city is there, proportionately, such a multitude of men and methods involved in the collection and disposal of refuse. Besides regularly employed city men who collect in the North End, the West End, Beacon Hill, the central business district, part of the South End and part of Roxbury, there are nine private firms collecting in other districts under city contract. A tenth firm has a contract for disposal of the collections in the central area. For more than thirty years there was a stipulation in the latter contract that garbage must be separated from other refuse and consumed by the reduction process at Spectacle Island, but now disposal is permitted by dumping all refuse, garbage, as well as general rubbish, on city-owned land on Spectacle Island. In the other areas, it was the intention of the contracts when executed that the operating contractor must find his own dump for general rubbish. Separate collection of garbage was required, and disposal of garbage, other than by dumping, was permitted as the contractor could arrange for it. Most of them sold it to farmers for feeding pigs. Nevertheless, in some areas, the city is now being forced to assume the obligation of providing dumping places for the rubbish, while the contractors retain the lucrative disposal of garbage.

Moreover, in addition to public collection, there are a large number of private firms selling collection service to commercial establishments. These establishments, by city regulation, must pay for disposal of refuse, in contrast to free collection from residences. The volume of this private business has become substantial because the prices charged by private contractors are much less than the cost by use of the city's ticket system. At present, in addition to the collection by city employees and by city contract, eighty-four permits for garbage collection and forty-seven for general refuse collection are held by private

contractors. Hence, from a financial standpoint, the city gives up to private contractors the only part of the service from which a revenue can be derived.

EXPENSE TO TAXPAYERS.

The only conclusion which may be drawn from this situation is that the motive is to provide that the greatest possible number may profit from this work at the expense of the taxpayer. Efficiency in the system and economy hold no place in the picture.

EFFORTS TO IMPROVE THE SITUATION.

A few years ago the Finance Commission made an exhaustive study of the situation. It has continued to keep track of developments since. One administration was induced to give up city collections in some districts and substitute collection by contract. City collection cost was then estimated to be three times as much as contract collection might be.

Subsequent developments proved the estimate correct. In Charlestown, where city collection cost was about \$65,000, the low bidder in advertised competition obtained a contract to do the work for \$17,000. It was the consensus of official and Charlestown opinion that the contractor did a better job. South Boston collection was given to a contractor who bid about \$26,000, whereas it had been costing the city around \$85,000. Again it was the general opinion that the service was better. The administration in office at the time thereupon extended contract collection to other districts.

However, the cost benefit in contract collection did not last long. New conditions speedily developed under which the city lost the advantage. A group of contractors, one to each district, obtained control of the only dumps available. There was then only one dump to each contractor. This meant that the contractor who had the dump had the advantage over all others who might want to enter competition for the contract. If the city advertised for bids there would be no real competition because only one bidder would have a place for disposal.

In this situation of no advertised competition the city had to take the price of the one contractor who was thus entrenched. To revert to collection by city employees had its drawback because the city owned no mainland dumps, and without them the only recourse would be to truck the collections from all parts of the city to a couple of city-owned wharves, at which another contractor provides disposal by hauling the refuse to Spectacle Island. The cost of hauling from all over the city to these wharves and the difficulties of trucking through the city were considered insurmountable obstacles.

PRICES MOUNT UP.

With the coming of war and consequent labor and equipment shortages, prices for collection and disposal began to go up all around. For a time charges increased moderately; but, as the war situation developed, demands by the contractors for increased allowances became less moderate. Now the city is powerless to control prices unless the incineration system is provided.

If the city owned a few incinerators properly located, disposal by incineration would reduce the contract work merely to collection. Collection, without disposal other than to an incinerator, only requires manpower and trucks to pick up the refuse and tote it to the incinerators. A large number of contractors would quite probably make competition for the work on this limited basis. This would release the grip which the few now have on it.

The construction of one big incinerator adjacent to the City Hospital where it might pay for its operation by supplying heat, light, and power to the City Hospital and the Public Works Department shops was proposed by the Finance Commission. Naturally, the erection of three to five more small incinerators properly located would take care of the collections in the remainder of the city.

One recent administration retained a leading engineering firm to investigate this idea. Its report confirmed the view of the Finance Commission that not only would incineration be cleaner and healthier, but cheaper.

In February, 1945, the administration in office made a gesture toward incineration by providing an appropriation of \$30,000 for plans and letting a contract to a designing engineer to work out detailed plans for an incinerator on city-owned land on Albany street. After this contract was executed the engineer was forced to change his plans because some official objection was raised to the Albany street site. He went ahead with the new idea of locating the incinerator on Southampton street. Nine months later, after the engineer had been paid \$24,080, a new Public Works Commissioner, the third to hold office while this matter of incineration was being worked out, claimed a serious flaw in the performance of the engineer's contract and refused to accept the plans.

The difficulty in the latter situation arises over two specifications in the engineer's contract. The possibility of a difference in interpretation of them may have more significance than appears on the surface. One required a plan for an incinerator which will dispose of "200 tons of refuse per day." The commissioner who let the contract interpreted this specification to mean an

incinerator which could consume 200 tons in an eight-hour day. The plans were drawn to provide an incinerator which will consume from 450 to 600 tons in a twenty-four-hour day. A new commissioner, however, interprets "the day" as specified to mean 200 tons in a twenty-four-hour period. Whatever the merits of the present Public Works Commissioner's decision on this feature of the plans, erecting an incinerator on Albany street or Southampton street which can consume only 200 tons in a twenty-four-hour day is wasting an opportunity to make a substantial saving in providing heat, light and power at the City Hospital.

The second point in dispute relates to the cost of the incinerator planned. The contract stipulated that in the payment for plans \$700,000 would be considered as the maximum cost of the proposed incinerator until bid prices determined otherwise. However, to carry out the plans as drawn by the designing engineer, his estimate is that it will cost about \$1,500,000. He contends that the \$700,000 figure was intended merely to be a control in the cost of plans, and that his plans as drawn for a \$1,500,000 incinerator had the authority of the former commissioner who let the contract. This dispute has continued since last December without any perceptible hope of solution.

If the contentions of the present commissioner are correct, that he cannot accept the plans which have been drawn because they will provide an incinerator of 450 to 600 tons capacity for a twenty-four-hour day and will cost more than \$700,000, it means that the city now has no plans and that the \$24,080 already paid to the engineer is wasted. Therefore, what was intended to be the No. 1 postwar project, a big incinerator which would conceivably save the city hundreds of thousands of dollars, thus appears to be definitely sidetracked.

It may be significant in this situation that the contractor who has had a monopoly for twenty-five years for disposal of refuse from the central area at Spectacle Island is now renewing his equipment, though his present contract expires on December 31, 1946. Apparently he is not anticipating that his lucrative business with the city is soon to come to an end.

Cost of Collection by Contractors.

An examination of the cost of contract collection in the last five years reveals an increase which is out of all proportion to the current rise in general labor prices. The following figures show how this cost has advanced in that period:

COLLECTION CONTRACT PAYMENTS.

YEAR.	Expenditure.	Increase Over Previous Year.	Per Cent of Increase Over 1941.
1941.....	\$415,248		
1942†.....	580,688	\$165,420	39.8%
1943‡.....	996,935	416,267	140.0%
1944.....	1,096,280	99,345	164.0%
1945.....	1,233,122	136,842	196.9%
1946.....	*1,291,440	*58,318	211.0%

* Estimated—based on January 1, 1946 contract prices.

† 1942—1 district added at cost of \$2,380 per month—\$28,560 per year.

‡ 1943—2 districts added at cost of \$9,725 per month—\$116,700 per year.

The cost by districts for collection is shown in the table on the following page.

The Finance Commission believes that the present charges of the contractors in these districts are excessive. That has naturally followed the practice in recent years to award the contracts in negotiation proceedings rather than follow the standard method of seeking public competition. It has failed to keep charges at reasonable figures. The negotiations have come to consist of merely listening to a statement from each contractor as to what he wants and then deciding to give him what he wants. What his costs are, which is something the city has the right to know, the city apparently does not bother to find out.

THE DISPOSAL CONTRACT.

One company has held the contract for the disposal of refuse collected in the central area for twenty-five years. After it once became established, it had no competition. The executive of this disposal company is the executive head of another firm which holds the collection contract in the largest district of the city. This second firm also engages in general contracting and has had numerous city contracts.

The cost of the central area disposal has risen from the rate of \$265,000 in 1943 to \$414,000 in 1946 (the award price), an increase of 56.2 per cent.

The contract with the disposal company was on a ten-year basis from 1922 to 1942, but since 1943 has been for a year at a time. When the ten-year contract practice was abandoned the reason given was that it was the intention to erect an incinerator and dispose of the refuse by incineration. Incidentally, a ten-year contract must have City Council approval under the Boston Charter, but a yearly contract may be made by the Mayor and Public Works Commissioner without Council approval.

In yielding to the price demands of the contractor in the recent awards of this contract, the Public Works officials have accepted without question the contractor's statement of costs. The Finance Commission has analyzed these reputed costs and is of the opinion that some of them do not fairly apply to this contract and others warrant no consideration by the city in determination of a fair price. For example, there is an item for depreciation and another for replacement on a plant now obsolete and no longer in use, allowances for taxes not being paid, and for office and advertising expense seemingly not properly chargeable to this contract. Furthermore, it is the opinion of the Commission that the work intended by the contract can be performed by the city itself, even if the same method is continued, for \$200,000 less per year than the contractor charges. The city owns the principal area used for dumping and there is now no separation of garbage from other refuse.

The detail on which the Finance Commission bases this contention is as follows:

Present cost of disposal under contract method.....	\$414,000
Operating cost by city under same method.....	275,293
Income from service and salvage.....	\$138,707
	61,563
	\$200,270

Therefore, if the present method of disposal at Spectacle Island is to be continued, the city should take over the work of disposal and the difference in cost, under proper management, could be cut in half. In one year the saving will provide for all the equipment necessary and leave a very substantial margin as well. Until incineration is provided, it is unconscionable to continue the unwarranted expense in the present arrangement.

Moreover, the Finance Commission is still of the opinion that the best solution of this irritating situation is to adopt the incineration plan. It should be the cheapest in the long run and is the least objectionable method of disposal. In the increasing scarcity of dumps and the unwillingness of one community after another to allow the use of vacant and waste land for dumping purposes, it is only a question of a short time when there will be no other method of disposal left to the city.

Recent happenings in the Brighton district are an indication of what is likely to happen soon all over the city. The Brighton contractor used a Watertown dump for many years. Recently he was deprived of the use of this dump location. The Public Works Commissioner tried, in turn, to obtain two other dumping sites in Brighton and one in West Roxbury. In each instance the force of local public opinion blocked the venture. Now arrangements are being made to have the contractor truck his loads of refuse to Albany street in the South End where he will dump into scows. This arrangement will require the city to increase his price from \$10,000 per month to \$17,000 per month. In fact, this contractor is now receiving an increase amounting to a rate of \$84,000 per year to cart his collections temporarily to city-owned land in Dorchester. In addition the city will have to increase the contract price of the disposal contractor because of the extra haulage by him to Spectacle Island.

This situation may soon be repeated in other districts. It saves the contractor expense of maintaining and operating dumps and gets him a larger return for his truck equipment.

From the foregoing it may be seen that the city is in a vicious situation in respect to this particular service. Yet it can not be abandoned as could some other less needed services. It can, however be intelligently and scientifically provided. From the taxpayers' standpoint there is neither intelligence nor science in the present arrangement of it, and the cost has become almost prohibitive.

The immediate duty of the Public Works Department and the Mayor is to straighten out the tangle in regard to the contract for plans for an incinerator. The next step then is to erect the requisite number of incinerators and, once and for all, get the city out of the grip of a few political contractors. Such a use of the city's borrowing capacity has as much merit as any of the projects now being provided for and more than some of them.

Respectfully submitted,
EDWARD F. MULLEN, Chairman,
ALEXANDER WHEELER,
LEO J. DUNN,
FREDERICK DEANE,
The Finance Commission.

ROBERT E. CUNNIFF,
Secretary.

Dudley.....	26,988	56,400	61,977	52,740	63,000	67,200	148.9
South Boston.....	29,388	46,680	71,710	82,140	95,340	100,932	243.4
Stuart.....		28,560	48,220	45,960	53,760	57,852	102.5
Mission Hill.....			39,842	47,640	57,000	60,600	52.1
Total.....	\$415,260	\$580,668	\$996,979	\$1,006,680	\$1,204,332	\$1,291,440	

* Three months' contract expires March 31, 1946.

† The 1944 contracts provide for extra payment for increase in wages not included in these figures. The increases added approximately 10 per cent to the contract price as given in each case.

CONGRATULATIONS TO ARCHBISHOP RICHARD J. CUSHING.

Coun. HANNON offered the following:
Resolved, That the City Council of the City of Boston, in meeting assembled, hereby tenders to his Excellency, Richard J. Cushing, Archbishop of Boston, its hearty congratulations on the twenty-fifth anniversary of his ordination as a priest of God; and devoutly hopes that his Excellency, the Archbishop, will continue to enjoy the good health and vigor which mark him as a worthy leader of his flock, and an outstanding laborer in the vineyard of the Lord.

Coun. MUCHNICK, HURLEY and CHASE offered the following:

Whereas, Sunday, May 26, 1946, marked the twenty-fifth anniversary of the ordination of his Excellency Archbishop Richard J. Cushing; and
Whereas, His Excellency the Archbishop has exemplified the best traditions of an American clergyman; therefore be it

Resolved, That the Boston City Council respectfully extends its felicitations to his Excellency the Archbishop on the Silver Jubilee of his ordination and extends its best wishes for continued success as the spiritual leader of the Catholic Archdiocese of Boston; and be it further

Resolved, That a copy of the above resolution be sent to his Excellency the Archbishop.

Severally adopted by a unanimous vote.

CLEANING OF SOUTH BOSTON PARKS AND BENCHES.

Coun. SCANNELL offered the following:
Ordered, That the Park Commission be requested, through his Honor the Mayor, to take immediate action in the cleaning up of all parks and beaches in South Boston.

Passed under suspension of the rule.

COLLECTION OF TAXES FROM NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

Coun. SCANNELL offered the following:
Ordered, That his Honor the Mayor be requested to instruct the Corporation Counsel to immediately take the necessary steps to collect the \$6,500,000 which is owed to the City of Boston by the New York, New Haven & Hartford Railroad for taxes.

Coun. SCANNELL—Mr. President, in presenting this order to the Council today I am going to try to stir up some agitation so that a large corporation in this city, the New York, New Haven & Hartford Railroad who have no interest in the city or the Port of Boston, will be forced to pay the full amount of money owed for the past eight years to the City of Boston in the amount of \$6,500,000. I have been informed that the receivers of the New Haven Railroad at the present time are trying to make a settlement on their taxes with the City of Boston. There is no reason why the Law Department or anybody in authority should make a settlement in any amount on taxes owed for the past eight years to the City of Boston. Just imagine, gentlemen, it is \$6,500,000. If a poor soul in South Boston or a poorer section of the city

comes in or as some of the members present have come in according to the Assessing Department and asked to help a poor widow with three or four children, it will take them a couple of months to get some help for such a person. The inability to pay clause takes a lot of explaining. If they do not pay in the course of two years, the sheriff will come in and try to take their home. Here is a situation where the New Haven Railroad which does not care about the Port of Boston or any of its facilities and does not care about the City of Boston, has a Mr. Henry B. Sawyer, one of the three receivers of the New York, New Haven & Hartford Railroad who told a man that the New Haven Railroad does not need the City of Boston; the New Haven Railroad does not need the South Station. He said they could stop at Providence. In other words, cut out the Port of Boston. Here are these men, and the New Haven Railroad owing this tremendous amount of money and coming in and making statements such as that. It is about time the men in public life in this city got on to themselves and shook up some of these corporations or utilities to get them interested in the Port of Boston and this great city. I am going to ask for suspension of the rule, and passage of the order. In doing so, I hope we get enough agitation so at least we can make the receivers pay the City of Boston what money they owe.

The order was passed under suspension of the rule.

Coun. MORIARTY in the chair.

REPORT OF COMMITTEE ON CONSTABLES AND CONFIRMATIONS.

Coun. BRYAN, for the Committee on Constables and Confirmations, offered the following:

Report on appointment of Francis J. Dewey (referred May 13) to be Measurer of Grain for term ending April 30, 1947—that said appointment be confirmed.

Report on appointment of Miss Helen C. Riley (referred May 13) and Louis Novick (referred May 13) to be Weighers of Coal for term ending April 30, 1947—that said appointments be confirmed.

Report on appointment of Mary F. Willis and Ethel T. Concrey (referred May 13) to be Weighers of Coal and Weighers of Goods for term ending April 30, 1947—that said appointments be confirmed.

Report on appointment of Anthony S. J. Tomasello (referred May 13) as Weigher of Goods for term ending April 30, 1947—that said appointment be confirmed.

Report on appointment of Hector Palladino and William James Bacon as constables authorized to serve civil process upon filing of bond (referred May 13)—that said appointments be confirmed.

Report on appointment of James Amato and Walter A. Murphy (referred May 13) and Raymond M. Lindsay and James W. Daly (referred May 20) as constables to serve without bond and without authority to serve civil process for term ending April 30, 1947—that said appointments be confirmed.

Chairman MORIARTY—The question comes on the acceptance of the report of the committee.

Coun. BRYAN—I would like the name of James W. Daly of Dorchester withheld another week.

Coun. RUSSO—Mr. President, I would like to make a motion that we hold up the appointment of James Amato for constable.

Chairman MORIARTY—The question comes on the acceptance of the report of the committee.

Coun. MUCHNICK—I would like to ask Councilor Russo a question through the Chair.

Chairman MORIARTY—I wonder, would the gentleman refrain until we have the committee's report accepted? The question comes on the acceptance of the report of the committee.

Coun. KINSELLA—Mr. Chairman, a point of information. If we accept the committee's report do we accept all the names submitted?

Chairman MORIARTY—No, sir, we do not. The question comes on the acceptance of the report of the committee. It is a vote and the report is accepted. The question comes on confirmation, Councilor Bryan and Councilor Russo requesting that the names of James W. Daly and James Amato be withheld.

Coun. MUCHNICK—I wonder if either of the councilors would care to tell us why they want these names withheld at this time after the committee has passed on them?

Chairman MORIARTY—Will Councilor Russo furnish the councilor from Ward 14 (Coun. Muchnick) his reasons for wanting to withhold the name of James Amato?

Coun. RUSSO—I will be glad to, Mr. President, if you desire to hear the reasons. First of all, I do not know who this individual is. I would like to find out just who he is. Secondly, I would like to find out from his Honor the Mayor if this is a replacement of a constable whom he has fired without any probable cause, a man who has three children, receiving only \$33 or \$34 a week. Is this the individual who will have that position? Of course, I realize, Mr. President, they are trying to do everything under the sun in order to make it so hard for City Councilor Russo because he is a candidate for Congress in the Eleventh Congressional District.

Coun. MUCHNICK—Mr. President, my question has been fully answered already, to my satisfaction. I do not know if it is to the satisfaction of anyone else.

Chairman MORIARTY—The gentleman is still in the process of explanation.

Coun. RUSSO—Mr. President, I would like to find out if those are the tactics of his Honor the Mayor. For what reason it is done, I do not know. Is it because Councilor Russo has the courage to be with his Honor the Mayor when he believes he is right and to be against him when he believes he is wrong? Councilor Russo has not stood for any whip in the eight years that he has been a City Councilor. He will not start now. I say it is a shame that his Honor the Mayor must pick out an individual who has three children and who has done his work, merely to get back at Councilor Russo by dismissing that individual without any probable cause. I am informed today that he will receive his position back not through Councilor Russo but only if he does the bidding of someone else. I am glad that the individual had enough confidence in me and enough courage as an individual and as a man to say that, although the job means bread and butter to him and his children, he still can get along because he will not do any-

thing that the dictates of his conscience tell him not to do. Are these the tactics that are to be used, Mr. President? I say to you gentlemen it may be you tomorrow. If we as councilors must have a whip over our head, then it is high time we stand on our own record. I have nothing to fear in so far as my public office has been concerned. My people have had enough confidence in me to elect me four consecutive times to the Boston City Council. My opponents tried everything under the sun. They are running an individual by the same name as mine. I know that the American people will not stand those tactics, regardless of who the individuals may be. It is high time that the Boston City Council gets on its feet and demands what is right and challenges what is wrong. That is all I am asking. I am asking only for a fair and square deal. I will never ask for anything which is indecent. I will never ask any individual to do something which is not within reason. I told his Honor the Mayor from the beginning that I will be with him any time he has anything that is within reason and when I was satisfied that it was within reason. I told his Honor the Mayor I will not ask him for anything which is not within reason. After all, we are here to do a job. I have tried to do the job to the best of my ability. Thank God I have courage and a sense of reason that I can exercise. As long as my conscience is clear, I have nothing to fear.

Chairman MORIARTY—Does the councilor from Ward 3 (Coun. Russo) make a motion to lay the name on the table?

Coun. RUSSO—I do.

The question came on laying the name of James Amato on the table, and it was so voted.

Coun. BRYAN—Mr. President, as chairman of the Committee on Constables and Confirmations, the reason that the name of James W. Daly was held up is that he is sick or out of town at the present time. He failed to appear at the committee meeting last Thursday. That is the reason his name is being withheld for one week.

The question came on laying the name of James W. Daly on the table for one week, and it was so voted.

The question came on the confirmation of the appointments, with the exception of James Amato and James W. Daly.

Committee, Coun. Bryan and Russo. Whole number of ballots 13, yeas 13, nays 0, and the appointments were confirmed.

SUPPLEMENTARY TELEPHONE DIRECTORY.

Coun. MUCHNICK offered the following:

Ordered, That the New England Telephone & Telegraph Company be requested by his Honor the Mayor to publish forthwith a supplementary telephone directory, so that the telephone numbers of veterans entering business and the professions might be listed immediately.

Coun. MUCHNICK—Mr. Chairman, as probably all of you know, there are now thousands of veterans in greater Boston who have come back to work and are in business or in the professions. They have obtained telephones for their place of business or their office. They do not have any means of letting the public know they are back and can take advantage of the telephone. I understand that the new directory will not be out until December of this year or January of next year. It seems to me only fair and proper that the telephone company should undertake the expense and trouble of printing a supplementary volume of numbers now so that these thousands of men can have whatever facilities are available at their command. I happen to know several hundred doctors and lawyers who are very much up against it because people do not know how to get in touch with them. If these telephone books were published, it seems to me those men might start in again at their careers and get off to as much of a head start as they can after coming back into civilian life.

The order was passed under suspension of the rule.

BUS SERVICE TO CEMETERIES ON MEMORIAL DAY.

Coun. MUCHNICK and CANTWELL offered the following:

Ordered, That the Boston Elevated Railway Company be requested by his Honor the Mayor to operate buses from Mattapan square to Forest Hills along Walk Hill street and Blue Hill avenue, for the convenience of persons visiting the cemeteries up to and including Memorial Day.

Coun. CANTWELL—I want to congratulate Councilor Muchnick on that order. There have been thousands of people who go up to Walk Hill street to the cemeteries such as Calvary, Mount Hope and St. Michael's, and despite the mile and a half to the cemeteries have been going to the cemeteries for years. We have been trying to get the Boston Elevated Railway Company to make it convenient for the people visiting their dead on that particular day. I hope this is passed, under suspension of the rule.

The order was passed under suspension of the rule.

CLEANING OF WARD 3 CATCH-BASINS AND STREETS.

Coun. RUSSO offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to clean all catch-basins in the Ward 3 section of Boston.

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to instruct the Sanitary Division to clean all streets in Ward 3, especially on Saturday nights.

Coun. RUSSO—Mr. President, very briefly the first order is a repetition of many orders I have put in this Body here from time to time. Of course, we must realize that summer weather is very close at hand. It is surprising that these catch-basins have not been taken care of. By cleaning the sewers we may eliminate the breeding of various germs which can be caught by children and adults. Especially with this rainy weather the streets are flooded. I do hope his Honor the Mayor will instruct the Public Works Commissioner to do something in order to eliminate these conditions and do it as soon as possible. In so far as the other order is concerned, Mr. President, it is a disgrace to the people of the City of Boston. It is a reflection upon them when the persons who are entrusted with the affairs of the City of Boston do not do the things they are supposed to do. It is a shame to find yourself on Sunday morning going to church and seeing the streets with all kinds of rubbish, everything you can imagine. I say if there is one day out of the week when we ought to have our streets clean, it is on Sunday, which is the Sabbath Day, the day of worship. I feel, Mr. President, that we have no respect for that day if the City of Boston cannot keep the streets clean at least on Sundays. I hope his Honor the Mayor will see fit to immediately take steps to eliminate these conditions.

The orders were severally passed under suspension of the rule.

STATEMENT ON RECESS.

Chairman MORIARTY—The Chair at this time has been informed that there is a group of gentlemen in the executive chamber who have been invited to discuss the \$500,000 loan for temporary housing. If we can bide our time and there is no objection, I suggest we recess.

Coun. CHASE—Mr. President, I offer an order.

Coun. COOK—I rise to a point of order, Mr. President. In order to carry out a motion passed two weeks ago by the City Council and approved last week, that the meeting of the City Council would immediately go into executive session in order to take up the housing loan of \$500,000, I move that the Council now go into executive session.

Coun. CANTWELL—The order called for last Monday. I do not know who made the mistake.

Chairman MORIARTY—The councilor from Ward 18 (Coun. Cantwell) is correct. It was impossible to hold the meeting last Monday.

Coun. COOK—I think my motion is in order, and I call for a vote.

Coun. CHASE—Mr. President.

Chairman MORIARTY—The Chair will rule that the point is not well taken.

Coun. COOK—Mr. Chairman.

Chairman MORIARTY—The meeting was supposed to be held last Monday. It was impossible to do so.

Coun. COOK—Mr. Chairman.

Chairman MORIARTY—As of today the present City Council can do anything that they so desire by a majority vote.

Coun. CHASE—Mr. Chairman.

Coun. COOK—I just made a motion. It was in order.

Chairman MORIARTY—The Chair declares the motion is out of order.

DISPOSAL OF REFUSE.

Coun. CHASE—Mr. Chairman, will the clerk read the orders?

The clerk read the following order:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately make arrangements for the city to take over the work of disposal at Spectacle Island.

Coun. CHASE—I notice in the Boston Finance Commission's report which is submitted to the Council, on page 12, the Commission reports that, if the City of Boston were to take over the disposal at Spectacle Island, the city could make a \$200,000 annual saving. I submit to you, sir, that this is sufficiently worth while in view of the fact that the city is in financial difficulty and his Honor the Mayor has promised the citizens he would use every possible economy. He should adopt this proposed economy. I personally cannot see the City of Boston paying \$200,000 to any middleman in clear profit when the city with city help can save the \$200,000 expenditure. I trust that his Honor the Mayor will follow this suggestion and save the city \$200,000 a year by taking over the dumping and the disposal proposition at Spectacle Island.

The clerk also read the following order offered by Coun. Chase:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to

immediately arrange for the erection of an incinerator on Albany street in accordance with plans for which the city has already spent \$24,000.

Coun. CHASE—Mr. President, the Boston Finance Commission is also indicating in its report to us that the city could save \$1,000,000 annually if we were to adopt the incineration method of disposal of garbage and so forth. Well, sir, I am very much in favor of that suggestion. I presume that the city is adopting every efficient method possible in the conducting of its business, especially, Mr. President, if it would save the citizens of Boston and the taxpayers \$1,000,000 a year. I have in mind that last year the city spent some \$24,000 for the preparation of plans which called for the erection of an incinerator on Albany street. Now, sir, the Public Works Commissioner apparently is finding fault with the plans. I think that, instead of finding fault with the plans, they should iron out whatever difficulties do exist and go ahead with the idea and install that incinerator. Administration after administration has delayed this point of disposal by incineration methods. The time has come when the city must adopt every efficient method in the conduct of its municipal government. The Boston Finance Commission at a cost of \$50,000 a year with its engineers and experts has studied this proposition very thoroughly. They are convinced that the city is losing \$1,000,000 a year. This is not my allegation. This is the allegation of a commission which was created by an act of the Legislature and which is composed of men appointed by different governors. They are unbiased. They have the necessary statistics to back up their opinions. Their allegation is that it is costing the City of Boston \$1,000,000 a year in its present method of disposing of garbage more than it would if they were to dispose of it by the incineration method. I am of the opinion that his Honor the Mayor may fail to carry on his business of conducting the affairs of this city in an efficient manner and that the Legislature may step in and take control. I say to you, sir, that will be a sad story for many people in Boston if the state government has to take control of the business of the City of Boston. You cannot have experts like the Finance Commission say that by an antiquated method of disposal of garbage and other things it is costing the city \$1,000,000 more than it would if they were to adopt modern methods. You cannot have a commission like the Finance Commission by a report clearly indicating there is collusion between the administration and contractors looting the city treasury of \$1,000,000 a year. The Finance Commission clearly reports that certain contractors in the disposal business have control over certain dumps in this city and that by this control they jack up the prices, and the city has no way of combating it. The only way they can combat it, according to the Finance Commission's report, is through the incineration method. Through that method they can cut the cost of the removal of garbage and ashes and other things by \$1,000,000 a year. It is a worth-while saving. I believe his Honor the Mayor is in duty bound to do something to relieve the taxpayers of this excessive burden which they are forced to bear of \$1,000,000 unnecessarily spent when the incineration method would relieve the taxpayers of that burden. I trust that the Council will pass both orders.

Coun. HURLEY—Mr. Chairman, lately it has been getting to be a common thing to take a shot at the Mayor of Boston. This is the first time I have been on my feet defending him. It was a different story last year. We had another Mayor, a fellow by the name of Kerrigan. All of this routine business of appropriating money for loan orders and everything else was done. We had plans and surveys, but not a thing was done in twelve months last year. The same people attacking the Mayor today were pretty close to him. This thing should have been followed up last year. I am rather reluctant about getting up here and differing with this fellow whom I think is a pretty nice man. It burns me up. It gets me all upset to have people just going after Mayor Curley. I do not know whether it is a personal matter or not. It is just a matter of pot shooting every Monday for five or six hours a day, rapping Curley. Mayor Curley has not had a chance yet to straighten out matters and wrongs that were performed by the administration in power for one year. It is a pretty good Mayor who can in the course of seven or eight months unravel and rectify the damage that was done by that man in charge of the City of Boston for the year 1945. It was through his instigation, Mr. President, that this money was appropriated for plans. I think there was \$30,000 voted for it. They were going to draw the plans and build an incinerator. Incidentally in his political advertising, when he was a candidate for Mayor of Boston, he stressed the fact strongly that he was the man who sponsored an incinerator for the City of Boston. That was fine. The money was turned over to certain gentlemen who went on an expedition down around Atlanta, Georgia, and other places. Not one report was ever given back to this Council here which appropriated the money for that purpose. Twelve months went by, Mr. President, there was no answer from the Mayor; and there was no answer from the committee. But, lo and behold, at the tag end of the year, they come in and decide they want \$2,500 more for borings. They decided on a place up there on Southampton street next to the pest house. They are going to build a great incinerator there. They wanted

to test the land to see if it would hold the foundation for this big incinerator. So they were given \$2,500 more for borings. I have not heard, and you have not heard, nor has any member of the Council heard what was the test of the borings. Let us take our time on this thing. Do not rush it through. Do not be high-pressured by the Finance Commission or any one else. Gentlemen, do not be high-pressured by any man here trying to knock this man down. If there was any man who should have been knocked down, it was the man who was Mayor of Boston last year and the people this year who were his friends and advisors last year. Let us go slow in this thing, but not as slow as he went last year. I would like to find out who made the plans and how the money was spent. I would also like to find out who got the \$2,500 last year, and what is the result of the borings taken at Southampton street. Let us give this a day or two. He had twelve months last year. I think the man downstairs is a pretty good fellow. Give him a little time to straighten out the wrongs Kerrigan did to the city last year.

Coun. FISH—I move these orders be sent to the executive session.

Chairman MORIARTY—Counselor Fish moves that both orders be sent to the executive session. Coun. MUCHNICK—Mr. Chairman.

Coun. SCANNELL—Mr. Chairman, a point of order. We passed an order here in the past two weeks that around three o'clock we would go into executive session. Although this is very vital to the City of Boston and other citizens of Boston, we have something else that might be much more of concern to us than it seems to be. We have men from the Housing Authority out there who are going to talk to the Executive Committee on housing for veterans. I think at this time we should not keep them waiting too long. At this time I am going to ask that we go into executive session.

Chairman MORIARTY—Counselor Scannell moves that we go into executive session.

Coun. BAYLEY—You recognized the counselor on a point of order. He must be given the floor to make a motion. That is my point of order.

Chairman MORIARTY—Your point of order is well taken.

Coun. MUCHNICK—You had recognized me. If Counselor Scannell had not brought the matter up by a point of order, I was merely going to observe, in addition to everything that Counselor Scannell said, we sent some invitations to some people to meet with us at a certain time. The least we can do is to show them the courtesy and decency of keeping our appointment. If I am in order, I move we do now go into executive session. Chairman MORIARTY—The motion is now in order. The question comes on going into executive session. It is a vote and so ordered.

Coun. KINSELLA—This matter was not disposed of.

RECESS.

On motion of Coun. MUCHNICK the Council voted at 3.40 p. m., to take a recess, subject to the call of the Chair. The members reassembled and were called to order by President KELLY at 5.30 p. m.

GARBAGE DISPOSAL BY CITY AND ERECTION OF INCINERATOR.

The two orders offered by Coun. CHASE before the recess were read by the clerk as follows:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately make arrangements for the city to take over the work of disposal at Spectacle Island.

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately arrange for the erection of an incinerator on Albany street in accordance with plans for which the city has already spent \$24,000.

President KELLY—A motion has been made to refer both orders to the Executive Committee.

Coun. RUSSO—Mr. President, in order to clear the record of remarks made before we went into the executive meeting, I wish to have it understood that any remarks of mine have never had any purpose behind them to attack his Honor the Mayor unjustly. I believe that I am justified in the remarks I made previously regarding this order. But in so far as this order is concerned—and again I state that my opinion does not reflect on the individual downstairs—the order is a simple one, asking that his Honor the Mayor look into the matter that the City Council passed some time ago, when the City Council members appropriated, I believe, \$30,000 in order to give us a report, to make blueprints and other necessary observations, to find out whether or not an incinerator would be the best thing in order to dispose of our garbage and refuse. And I don't see any harm in any remarks that have been made in so far as his Honor is concerned, and I do not believe it is a direct accusation in so far as his Honor is concerned. Some of my colleagues who have spoken previously have stated that the individual who was the Mayor last year had it within his power to act upon the matter. In so far as that is concerned,

Mr. President, I am of the belief that two wrongs do not make one right. If this project has been pigeon-holed, or purposely cast aside, I do not see any reason why we, the Boston City Council, cannot request his Honor the Mayor to look into this matter and to give us a report. After all, we have expended close to \$30,000 of the taxpayers' money. They are entitled to know what benefit has been derived from this money. So it is not a reflection in so far as his Honor the Mayor is concerned. It is not because I am in accord with the gentleman from the Back Bay, Ward 4, that I am in favor of this order and that I am speaking against his Honor the Mayor. I hope that we will clear up our minds, in so far as I am concerned, and tell his Honor the Mayor, right here in the City Council, that when the Mayor has given to me the information that I am entitled to, because my people have sent me here to see to that, if I feel that he is right in his opinion, his Honor the Mayor can rest assured that he will find Counselor Russo on his side in reference to any order that is for the best interests of the citizens of the City of Boston; and when I feel that he is not right he will find me on the opposite side. The reason why I state this is so that we may have the record straight. So that, therefore, I move, Mr. President, that the second part of the order of Counselor Chase, requesting that the project of this incinerator be looked into, be passed, and I see no harm in passing a simple request. I hope that the councilors will go along with me.

President KELLY—Counselor, that motion is out of order because there is a motion before the Body now that both orders be referred to the Executive Committee. I shall have to take a vote on that first.

Coun. RUSSO—Mr. President, could we have those two orders acted upon separately?

President KELLY—Not now. There is a motion before the Body to have both of these orders referred to the executive session. We shall have to take a vote on that first, counselor. The question is on referring to the executive session both orders.

Coun. CAREY—Mr. President, may I ask that the orders be read again?

The two orders introduced by Coun. Chase are read by the clerk.

President KELLY—The question is on referring both of these orders to the executive session.

Coun. CHASE—Mr. President, I rise at this time to defend myself against an unfair attack by one of my colleagues.

President KELLY—Just a minute, counselor. I want to be fair. We are taking a vote on this matter now. The question is on referring these two matters to the executive session. I was fair in allowing you to get up while taking a vote. The question is on referring these two matters to the executive session.

Coun. FISH—Mr. President, a moment ago you asked a vote on referring these matters to the Executive Committee.

President KELLY—That is right. Coun. FISH—I cast my vote by voice.

President KELLY—That is right. I told the gentleman that he was out of order until the vote was finished.

The orders were referred to the Executive Committee.

Coun. CHASE—Mr. President—

President KELLY—For what purpose does the gentleman rise?

Coun. CHASE—In regard to the motion.

President KELLY—What motion?

Coun. CHASE—To refer to the executive session.

President KELLY—I said that the orders are referred to the Executive Committee.

Coun. CHASE. Mr. President—

President KELLY—For what purpose does the gentleman rise?

Coun. CHASE—To talk on the motion referring to the executive session. I might state at this time that you had not put the question before I took the floor.

President KELLY—If you are talking on that motion, counselor, you are out of order. The orders are referred to the executive session.

EXECUTIVE COMMITTEE REPORT.

Coun. FISH, for the Executive Committee, submitted the following:

Report on message of the Mayor and order (referred May 13) for loan of \$500,000 for housing for veterans—recommending that same ought to pass.

Coun. SULLIVAN—Mr. President, I don't like to move the previous question, which I had in mind. I thought everything was taken care of in the Executive Committee. We all know that there is a question of the legality of this loan order, and I am going to move at this time that the debate be limited to ten minutes.

Coun. KINSELLA—Mr. President, I would like to amend that motion to read no more than ten minutes for the entire Body, not ten minutes per counselor.

President KELLY—Counselor Sullivan makes a motion that the debate be limited to ten minutes, and Counselor Kinsella has amended the motion to ten minutes for the entire Body.

Coun. COOK—Mr. President, a further amendment. I move the previous question.

President KELLY—Counselor Cook moves the previous question.

Coun. RUSSO—Mr. President—

President KELLY—I am sorry, but there is no debate.

Coun. RUSSO—Mr. President—

President KELLY—There is no debate, counselor, in moving the previous question. The clerk will call the roll.

Coun. RUSSO—Mr. President, a point of order.

President KELLY—There is no debate on this. Coun. RUSSO—A point of personal privilege, Mr. President.

President KELLY—The question is on the previous question.

Coun. RUSSO—Mr. President—

President KELLY—There is no debate on the previous question, counselor.

Coun. RUSSO—A point of parliamentary inquiry.

President KELLY—State your point of parliamentary inquiry.

Coun. RUSSO—Mr. President, do I understand that this is to do away with the freedom of speech and freedom of expression of opinion?

President KELLY—Counselor, you understand that motion as well as I do. There is no debate in moving the previous question. I am only here to uphold the rules of the Council.

The motion was carried.

Coun. RUSSO—Mr. President, I doubt the vote and ask for a roll call.

President KELLY—Counselor Russo doubts the vote and asks for a roll call. Three having joined him, the clerk will call the roll.

The roll was called and the motion was carried, yeas 11, nays 3:

Yeas—Coun. Bryan, Cantwell, Cook, Fish, Kelly, Kinsella, Lane, McCormack, Moriarty, Muchnick, Sullivan—11.

Nays—Coun. Carey, Chase, Russo—3.

The question then came on the passage of the order.

Coun. MUCHNICK—Mr. President, a point of information.

President KELLY—There is no debate.

Coun. MUCHNICK—A point of information.

President KELLY—No point of information can be accepted. The clerk will call the roll.

The roll was called and the order was rejected, yeas 13, nays none.

Yeas—Coun. Bryan, Cantwell, Carey, Cook, Fish, Hannon, Kelly, Kinsella, Lane, McCormack, Moriarty, Muchnick, Sullivan—13.

Nays—None.

Coun. MUCHNICK—Mr. President, is it in order now to move that each prospective speaker be limited to two minutes out of this total of ten, so that one won't take up the entire time?

President KELLY—There is nothing before the Body at all now, counselor.

Coun. HANNON—Mr. President, I move reconsideration.

President KELLY—Coun. Hannon moves reconsideration.

The motion was carried.

Coun. HANNON—Mr. President, I move that the matter be laid over for one week.

President KELLY—Coun. Hannon moves assignment of the order for next week.

Coun. SULLIVAN—Mr. President, I move to amend the counselor's order by striking out the words "for one week," and move that the matter be laid on the table.

President KELLY—Counselor Sullivan moves that the matter be laid on the table. There is no debate on the motion.

Coun. RUSSO—Could I make an amendment to that?

President KELLY—You cannot make an amendment to that, counselor. The question is on laying on the table.

The matter was laid on the table.

REQUESTED APPROPRIATION FOR EMERGENCY VETERANS' HOUSING.

Coun. RUSSO offered the following:

Ordered, That his Honor the Mayor be requested to immediately present to the City Council a request for an appropriation in the amount of \$500,000, said sum to be expended for emergency veterans' housing under the rules and regulations as set forth by the Federal Government.

Coun. RUSSO—Mr. President, we have just got out of the Executive Committee meeting where we have had some information from the Federal Housing Authority and from the Boston Housing, and the question that I put to them was whether or not this loan that we have just now recently laid on the table was constitutional. I asked them a question, if it was true that the banks have ruled that this is unconstitutional and that the banks will refuse to float the loan that the City of Boston is trying to get in order to get along with the emergency housing for veterans. Having that in mind, Mr. President, I refrained from voting on that loan for the simple reason, not that I am against giving the veterans housing accommodations in this emergency, but because, Mr. President, it is really a waste of time to have an order for a loan sent to us when it is shown that at least it is the opinion of the banks that they will not accept this loan, which would mean time wasted in

order to provide for the necessities of housing for veterans. If I could have been assured, Mr. President, that this loan is constitutional and that it will be accepted by the banks, in order to expedite the housing shortage and to accommodate the veterans I would have been the first one to vote for this loan. Therefore, I feel that it was not fair to the City Councilors to be placed in the position of not knowing if this loan was constitutional or not, and if we had passed it and then the loan had been declared unconstitutional, I believe, Mr. President, that the City Council would have made an error in passing something which they did not have sufficient information regarding, as to whether or not that would be expediting the housing for veterans. I present this order in order that if this loan which is now laid on the table is not accepted by the banks because they believe it to be unconstitutional, that his Honor the Mayor will send to this Body an appropriation for \$500,000 in order that we may be able to help the veterans and not kid the veterans along. Therefore I hope, Mr. President, that this order will pass, and I hope that his Honor the Mayor will make sure that \$500,000 is given for the project, in order to take care of the veterans whether by loan or by an appropriation.

Coun. KINSELLA—Mr. President, will the Chair ask the clerk to read Councilor Russo's order?

The order of Coun. Russo is again read by the clerk.

Coun. KINSELLA—Will the Chair ask the clerk if there is any substantial difference as far as the law is concerned between a loan order and an appropriation?

President KELLY—I am informed that the law would apply to either an appropriation or a loan order, councilor.

Coun. KINSELLA—Mr. President, I rather thought that that would be the answer, and I would like to urge Councilor Russo to vote for the loan order in view of the fact that by his own action here, by filing the appropriation order, or requesting the same, he said that he will vote for an appropriation of \$500,000. Now, there is not any doubt but what Councilor Russo is as much interested in the veterans as anyone else here, but what line his interest takes has been very sharply defined here today, and we have reached the climax now in the opinion of the Chair that an appropriation order would necessarily receive the same treatment as a loan order if the law is upheld, and since Councilor Russo has been informed that the action would be the same in either case, then it would justify his vote on this loan order. I have no quarrel with Councilor Russo because I know him too well, but aside from Councilor Russo there is altogether too much criticism of the corner office, and I am not beholden to them. I am as free and independent of the corner office as any man in this Body. Here the interest of the city is at stake, and yet we find men who are honestly interested in the city voting against something that they want in another form. That is a little too much to understand. I have been in this Body for over four years with Councilor Russo, and I can't think of one time when he ever got personal in his remarks. I would ask Councilor Russo, in the interest of his ward as well as the other wards of the city, to accept the present uncertain condition legally of the loan order. If we authorize it here and the law is upheld elsewhere, making our action inoperative, then it would also be inoperative if it were an appropriation. So that I ask the councilor to join forces with us and put it over, if possible, since his own order will receive the same treatment ultimately as a loan order would.

Coun. RUSSO—Mr. President, in answer to my good friend and colleague from Ward 2, I would like to state that if I am correctly informed—and I am not going to differ in so far as the opinion given by the City Clerk is concerned—but if I am correct, Mr. Robinson stated that, in accord with the Federal law, the cities and towns have the right to appropriate money. I do not believe that he said anything in so far as a loan is concerned. I am also of the opinion—and I can perhaps sympathize with the bankers, which I do not ordinarily do—that naturally, to float a loan on something which is only of a temporary nature, is not good investment. The reason why I am asking that we appropriate money is that in case the opinion is that a loan cannot be floated, then at least we have two shots and we need not wait any longer in sending through an appropriation. This is merely a request that if the answer that the Mayor is waiting for is not satisfactory—and I believe that we ought to wait until the answer comes in order to pass a loan—I don't believe that we as councilors should pass anything until such time as we have been given assurance that the banks will take this loan. There is a question in my mind as to whether or not his Honor the Mayor can send to us an appropriation, and that is why I am asking that the appropriation be sent, in case the loan cannot be floated, as perhaps we may be able to get around the law by having an appropriation.

Coun. MUCHNICK—Mr. President, it seems that we have a very able Law Department in this city, containing some men who are very well versed in constitutional law as well as in other fields of law, and this question should not be decided by the bankers or by any members of the Council, whether they have or do not have any legal knowledge, nor by anybody representing

the Federal Public Housing. Therefore, I move that this order be laid on the table along with the loan order and that we ask the Law Department to clear up the question for us.

The question came on Coun. Muchnick's motion to lay the order on the table. The motion was passed and the order was laid on the table.

THE NEXT MEETING.

Coun. SULLIVAN—Mr. President, may I first move that when we adjourn, we adjourn until tomorrow afternoon at 2 p. m. The reason I make that motion is because of the question I asked in executive, if this temporary housing was pending the outcome of this loan, and the answer to that question was that it was. The Mayor is having a conference tomorrow morning in his office, and I feel that we should not let this loan order wait until next Monday, that if we can get the information tomorrow afternoon from the Mayor that this loan is legal, that we will be able to pass it tomorrow afternoon.

President KELLY—Councilor Sullivan makes a motion that when we adjourn today, we adjourn until tomorrow, Tuesday, at 2 p. m.

Coun. FISH—Mr. President, I think under the circumstances it is a good motion, but I wonder if you would accept the suggestion, in the form of an amendment, that we request the Mayor to notify the Council immediately upon his receiving the information and call a special session of the Council for that purpose, which could be possibly Wednesday. So that I would like to offer an amendment to Councilor Sullivan's motion that the Mayor immediately notify the Council when he has the information as to the legality of this loan.

President KELLY—Councilor Fish makes an amendment to the motion, that the Mayor immediately notify the Council and call a special session of the Council.

Coun. FISH—And that he call that meeting within twenty-four hours.

President KELLY—Councilor Sullivan's motion is within twenty-four hours.

Coun. FISH—If the Mayor gets his information tomorrow morning it would be Wednesday morning.

President KELLY—That he call the meeting within twenty-four hours from the time he gets the information. The motion is that the Mayor be requested to call a Special Meeting of the Council within twenty-four hours from the time he gets the information.

The motion was carried.

INSTRUCTION OF PRECINCT OFFICERS AS TO DUTIES.

Coun. SULLIVAN offered the following:

Ordered, That the Election Commission be requested, through his Honor the Mayor, to definitely instruct all precinct officers relative to their duties on primary and election days.

Coun. SULLIVAN—Mr. President, I am putting this order in now because it seems that every time the Election Commissioners go out to the various wards with the sole purpose of instructing the precinct officers who are to handle the election on both primary and election day, that they are just sworn in, and no instructions are given to them whatsoever on how to open the precinct in the morning or how to close it, or how to handle the ballots or give assistance to the voter, and what voters they may give assistance to. Also relative to after the polls are closed, how the ballot boxes should be opened and how the ballots should be taken out of the ballot boxes in front of any spectators or any persons there in the various precincts. Also no instructions are given to them that one Democrat and one Republican will check one another. I have seen two Republicans working together and two Democrats working together. This was in one of the precinct schoolhouses. It is because the Election Department has not given the workers the proper instructions. I think that they should take a little added time and instruct the precinct officers as to what their duties are. This year in the primaries they are going to use the 1945 voting list, and I don't believe that it is the same procedure as it has been in the past and that these workers should be instructed accordingly. A large number of people throughout the city have moved since 1945, and they will show up in the precinct in which they are entitled to vote in the precinct in which they now reside. They will have to go back to where they voted last November. This should be stressed to the various precinct officers in all the voting precincts throughout the city, so that no one will be deprived of his right to vote. I hope that the Election Department will carry out the request made in this order and instruct all the precinct officers throughout the entire city.

The order was passed under suspension of the rule.

VIOLATIONS OF ROAD TRAVEL BY HEAVY TRUCKS AND BUSES.

Coun. CAREY offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to enforce fully the provisions of the General Laws regarding

travel on the public highways especially with regard to heavy trucks and buses which are the most flagrant violators of the provision with respect to traveling on the right-hand side of the road.

Coun. CAREY—Mr. President, we have on numerous occasions heard about it, and have ourselves endeavored to be instrumental in relieving some of the traffic congestion in the city, and likewise to make travel on the highways safer for the traveling public. But I think that the members of the Council will agree with me that one of the most serious hazards, and one of the greatest handicaps that you see in getting around is that which is brought about by these heavy motor trucks and buses that insist on being all over the road, so to speak, congesting traffic and making it impossible for a small automobile to get along on the highway due to the fact that they clog the highway completely, and not only do they clog it completely but of course handicap the movement of traffic, and on a good many occasions they make driving hazardous for those in small automobiles. We can drive about our highways any day or any night and we will find congestion there brought about time and time again by these big freight-car trucks, so to speak, that insist on being all over the road. It might be, of course, that they have schedules to maintain, but I suppose it might be said that the individual driver of an automobile also wishes to get to his destination. You get downtown here and you will find a line of traffic tied up through which the smaller automobile could easily pass were it not for the fact that a big truck or bus is in the middle of the road congesting the traffic and holding up the movement of the traffic. I understand that there is a section of the General Laws which requires all traffic to keep to the right, and I think that if the Police Commissioner would do, through the members of the Force, his utmost to keep the large-sized trucks and buses to the right of the road, it would do a great deal toward eliminating a great part of the traffic congestion. I move suspension of the rule and the passage of my order.

The order was passed under suspension of the rule.

ACCEPTANCE OF ROSEBERY ROAD, WARD 18.

Coun. CANTWELL offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway, Rosebery road, from Greenfield road to Taunton avenue, Ward 18.

Passed under suspension of the rule.

HEALTH CLINIC IN TILESTON SCHOOL.

Coun. CANTWELL offered the following:

Ordered, That his Honor the Mayor be requested to consider the establishment of a health clinic in the Tileston School for the accommodation and benefit of the residents of the Mattapan section of Ward 18.

Coun. CANTWELL—Mr. President, Ward 18, being one sixth of the area of the size of Boston, and I believe the largest number of people of any ward living in the area, we have one clinic which is located in the Municipal Building in Hyde Park, and the people in the Mattapan section of that ward, in order to get to that clinic with their babies, have to make two transfers to get to that clinic. This Tileston School is located on Babson street, and due to a parochial school being built there some time ago they have several rooms vacant. I would like to see a clinic established there as it would be more convenient to the people in the Mattapan section, so that they could push their baby carriages there and take their children there without taking the elevated to Hyde Park. I hope that this order can pass.

The order was passed under suspension of the rule.

RODENT AND VERMIN CONTROL.

Coun. LANE offered the following:

Ordered, That there shall be established in the Health Department of the City of Boston a "Division of Rodent and Vermin Control"; said Division of Rodent and Vermin Control shall be in charge of a person whose title shall be "Director of Rodent and Vermin Control." The salary of the Director of Rodent and Vermin Control shall be fixed by the Health Commissioner subject to the approval of the Mayor.

Coun. LANE—Mr. President, I realize and appreciate the fact that this present session has extended far beyond the usual time of adjournment, and therefore I shall speak only briefly. This is a very important subject, the matter of rat control in the City of Boston. In the United States of America we have fourteen cities of over 500,000 people, one of the cities being the Commissioner-ship in the District of Columbia. As you well know, Boston is a city of three-quarters of a million people, yet we are one of the few larger cities in the United States without a distinctly rat control division. I have here prepared twelve pages on rat control, but I am not going to read it all to you. I will only read for your information and guidance

two outstanding paragraphs. "The necessity of a permanent rat control program in a city the size of the City of Boston can best be demonstrated by a careful study of the following statistics, which were prepared by the Fish and Wildlife Service of the United States Department of Interior, who estimate that the cost to the nation for damage caused by these rodents is each year two hundred million dollars. In a city the size of Boston annually the damage is estimated at three or four million dollars, and if that sum is broken down it means a cost of from \$8 to \$20 for each family throughout the entire United States." The concluding paragraph states as follows: "To initiate a program of this nature would require the establishment of a full-time special unit in the City of Boston Health Department, with a director in charge. The director, in addition to administering the entire program, would also be the instructor in the School of Rat Control. Two assistants would be necessary after the first phase of the program was established, who would supervise the field work. Three or four laborers would be necessary when the program had been thoroughly established, to mix baits, use cyano gas in burrows and assist in other work that would be involved in a program of this nature. The City of Boston needs a rat control program and this is offered to meet that need." I have some letters here which I received. I have received over two hundred letters and telephone calls since I gave the release to the Press that I would introduce the order today. Here is a sample of the letters. This came to me from Mrs. Ethel B. Leatherbee of 42 Rockview street, Jamaica Plain 30. She says: "I note with keen interest in this morning's papers that you are going to introduce an anti-rat ordinance, with the support of the City Health Commissioner. Thirty years ago I managed an anti-rat campaign for the Women's Municipal League in which I had the active support of Mayor Curley and Health Commissioner Mahoney, and also the editorial support of all the Boston papers. It created quite a stir and temporarily aroused many people to rat elimination. We endeavored to get a bill through the General Court for rat-proofing, but the real estate interest defeated us. Of course, the real methods for rat elimination are building and starving them out. Killing of course reduces rodent population for a short time but they breed too rapidly for it to have much effect. I am sure that Mayor Curley will support any sensible plan that may be offered as he has always been keen on improving health conditions in the city and is perfectly conversant with the disease menace of rats. There is also rat-catcher Kennedy who is an excellent man to consult as he has spent a lifetime on the subject and is, I believe, still in the employ of the Health Department. I wish you every success in your efforts because this is a very important matter, both from the health and economic phases of rat action; and if you can arouse public opinion sufficiently to the menace you may get somewhere." Incidentally, talking about rat-catcher Kennedy, that is not his official title, but it is, nevertheless, correct. There are two rat-catchers in the Health Department of the City of Boston. Boston certainly needs rat control. Here is a letter I received today from a constituent of Dan Sullivan of Ward 9, which refers to the condition at the corner of Cabot street and Linden Park street in Ward 9. He says to look into the situation. This Mrs. Leatherbee that sent that letter to me that I read first had a card copyrighted under her name in 1917, containing the following verse, which I believe applies to the situation today: "I am man's greatest foe; I destroy his property, bring disease and death into his home; but I dwell in his house and I eat his food, for I am more clever than man, otherwise he would destroy me." Another very important thing to remember is that rats propagate every three or four weeks, and usually in a litter of thirteen. Mr. President, it seems to me that this is a very important matter, and I hope that we can get some action on it at once. I hope, Mr. President, that the rules may be suspended and that the order may be passed. This is not a new department; it is only a division of a department now existing.

The order was referred to the Committee on Ordinances.

ELEVATED SERVICE TO CEMETERIES ON MEMORIAL DAY.

Coun. RUSSO offered the following:
Ordered, That the trustees of the Boston Elevated Company be requested through his Honor the Mayor to put in operation buses to take people from the Forest Hills station to cemeteries along Walk Hill street and other cemeteries where the Boston Elevated Company can give this service to the public during May 30, Memorial Day.

Passed under suspension of the rule.
Coun. RUSSO—Briefly, we all realize May 30 is a day set aside to commemorate the memory of our beloved dead. We also must realize that many people are going to Forest Hills station from all sections of the City of Boston and the other cities and towns connected with the city. There are thousands who get off at Forest Hills station and have to walk from there to the various cemeteries which are located on Walk Hill street. We have, for instance, the Forest Hills Cemetery, St. Michael's Cemetery, and a cemetery owned by the City of Boston, Mount Hope Cemetery. Near by we have the new and old Calvary Ceme-

tery. It is quite a hike, Mr. President, and I feel that the Boston Elevated Railway Company, at least on this particular day, ought to give service to the public in order to make it a little bit easier for them to get to their destination. I also realize there are other cemeteries in the City of Boston and, if the trustees of the Boston Elevated Railway Company can see their way clear to give bus service to the people, I hope that they will do it. I hope his Honor the Mayor will immediately get in touch with the trustees and that the service can be given to the public.

The order was passed under suspension of the rule.

Adjourned at 6.30 p. m., on motion of Coun. MORIARTY, to meet on Monday, June 3, 1946, at 2 p. m.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be thirty (30) days, vehicles are excluded from the following streets, effective May 21, 1946:

Gaston Street, Roxbury.
From Blue Hill avenue to Warren street.
Gannett Street, Roxbury.
From Holborn street to Gaston street.
Norway Street, Boston Proper.
From Hemenway street to Massachusetts avenue.

Voted, That as urgently required by considerations of public safety and convenience, during the period of the School Boys' Cadet Parade on Sunday, May 26, 1946, the following rules are effective:

Vehicles are excluded from the following streets:

Appleton Street.
From Berkeley street to West Canton street.
Chandler Street.
From Berkeley street to Columbus avenue.
Clarendon Street.
From Columbus avenue to Montgomery street.
Dartmouth Street.
From Columbus avenue to Montgomery street.
Montgomery Street.
From Tremont street to West Canton street.
Warren Avenue.
From Berkeley street to West Canton street.
West Canton Street.
From Appleton street to Montgomery street.

The following street is one way in the direction indicated:

Exeter Street.
From Boylston street to Beacon street.
Parking of vehicles is prohibited on both sides of the following streets:
Clarendon Street.
From Columbus avenue to Stuart street.
Stuart Street.
From Clarendon street to Columbus avenue.
Columbus Avenue.
From Arlington street to Park square.
Park Square.
Boylston Street.
From Park square to Tremont street.
Tremont Street.
From Boylston street to Park street.
Park Street.
From Tremont street to Beacon street.

Beacon Street.

From Park street to Arlington street.
Arlington Street.

From Beacon street to Commonwealth avenue.

Marlborough Street.
From Arlington street to Dartmouth street.

Dartmouth Street.
From Marlborough street to Columbus avenue.

Blagden Street.
From Huntington avenue to Exeter street.

Exeter Street.
From Boylston street to Huntington avenue.

Stuart Street.
From Dartmouth street to Huntington avenue.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be one (1) week, vehicles are excluded from the following street, effective May 24, 1946:

Dartmouth Street, Boston Proper.
From Buckingham street to Huntington avenue.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO GENERAL CONTRACTORS.

INVITATION FOR PROPOSALS FOR CALKING, POINTING AND WATERPROOFING AT THE AUDUBON SCHOOL, HARVARD STREET, DORCHESTER, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for calking, pointing and waterproofing at the Audubon School, Harvard street, Dorchester, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 19, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.

(June 8.)

CITY OF BOSTON.

PARK DEPARTMENT.

PROPOSALS FOR REPOINTING, PAINTING AND REPAIRS TO THE ROXBURY STANDPIPE, FORT AVENUE, ROXBURY, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for repointing, painting and repairs to the Roxbury Standpipe, Fort avenue, Roxbury, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Repointing, Painting and Repairs to the Roxbury Standpipe, Fort Avenue, Roxbury, Mass.," and left before 2 o'clock on Thursday, June 20, 1946, at the office of the Park Department with a certified check for \$500, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

WILLIAM P. LONG, *Chairman,*
THEODORE C. HOFFENREFFER,
FRANK R. KELLY, *Commissioners.*

(June 8-15.)

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

PROPOSALS FOR THE CLEANING OF THE LUCY L. DROWN HOUSE, BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital invite sealed proposals for the inside cleaning of the Lucy L. Drown House, 717 Massachusetts avenue, Boston, Mass., in accordance with the specifications, giving a bond of a surety company satisfactory to the Trustees therefor in the sum of the full amount of the contract. Only proposals obtained at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, City Hall, before the time of opening the bids, signed by the bidder and left before two o'clock p. m. on Thursday, June 13, 1946, at the office of the Superintendent with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bids must be made in duplicate, the one with the check to be left as above, the other to be deposited with the City Auditor, City Hall, Boston, before the time of opening the bids. The rate per hour to be paid those employed to do the work under this contract shall not be less than the rate of wages determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is attached to the specifications. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required before the award of said contract. The Trustees reserve the right to reject any and all proposals. Proposals are to be addressed "Proposal for the Cleaning of the Lucy L. Drown House, Boston City Hospital."

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING CRUSHED STONE.

The Supply Department of the City of Boston invites proposals for furnishing crushed stone as required for city departments. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 1001, City Hall Annex, and the successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. *There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out.* Bids, with a certified check for \$200, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the above office before Friday, June 21, 1946, at 12 m., at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Crushed Stone."* The Superintendent of Supplies reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WILLIAM I. ROSE,
(June 8.) *Superintendent of Supplies.*

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING WORK AT THE ENGLISH HIGH SCHOOL, MONTGOMERY STREET, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing work at the English High School, Montgomery street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 19, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

TO GENERAL CONTRACTORS.

INVITATION FOR PROPOSALS FOR CALKING, POINTING AND WATERPROOFING AT THE WILLIAM BRADFORD SCHOOL, WILLOWWOOD STREET, DORCHESTER, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for calking, pointing and waterproofing at the William Bradford School, Willowwood street, Dorchester, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 19, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

Department of School Buildings,
26 Norman Street, Boston, Mass.
(June 1-8.) Capitol 5750.

CITY OF BOSTON.

LIBRARY DEPARTMENT.

INVITATION FOR PROPOSALS FOR NEW MEN'S TOILET ON STACK NO. 3 LEVEL; NEW LAVATORY IN HEALTH ROOM ON STACK NO. 1 LEVEL; VENTILATION OF CARPENTER SHOP AND VENTILATION OF THE OFFICE OF THE KEEPER OF PRINTS AT THE CENTRAL LIBRARY BUILDING.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for a new men's toilet on the stack No. 3 level; new lavatory in the health room on the stack No. 1 level; ventilation of the carpenter shop in the basement, and ventilation of the office of the keeper of prints at the Central Library building.

Proposals will be received until 12 o'clock noon, Monday, June 24, 1946, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed, and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of two hundred and fifty dollars (\$250), shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after 9 a. m. Tuesday, June 4, 1946, at the Business Office, Public Library of the City of Boston, Central Library, Copley square, Boston, Mass. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of ten dollars (\$10) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Tuesday, June 18, 1946.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the total amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 38

SATURDAY, JUNE 15, 1946.

No. 24

REPORT OF FRANCIS J. DALY, HEAD OF DIVISION, JUVENILE ADJUSTMENT, ON VISIT TO MID-WEST TO STUDY ADJUSTMENT SERVICES IN THE VARIOUS SCHOOL SYSTEMS, APRIL 18 TO 26, 1946, INCLUSIVE.

The following is the report of visit by Francis J. Daly to study adjustment services in school systems of Milwaukee, Detroit, and Minneapolis, as presented to the School Committee:

Milwaukee, with a compulsory school attendance age of 18, and responsibility for a school population approximately that of Boston, takes less than 20 cases a year into court. This is largely due to the remarkable functioning of the Welfare Counseling Department, which has replaced the old Attendance Department. There is a carefully planned program which begins with the attendance teachers on the faculties of the schools who take responsibility for incidental absences. Beyond that, the 17 highly trained and socially sensitive Welfare Counselors work on an adjustment basis through five different steps before giving up on a case. The accent is on getting at the cause and curing the truancy. The program is obviously an outstanding success. The Welfare Counselors also handles most of the duties assigned locally to the Division of Juvenile Adjustment.

At the present time the Milwaukee schools have a man traveling throughout the country studying adjustment and guidance services preparatory to establishing a bureau similar to our Bureau of Child Accounting.

The Life Advisement Department, so called, takes the place of the guidance department elsewhere. This work functions not only at senior but at junior high school and elementary school levels. A series of Child Adjustment Conferences are held each year cooperatively by the Life Advisement Department, Counselors of the elementary, junior, and senior high schools, together with the several service groups of the community.

Classes for Mentally Slow.

There are two types of special classes for mentally retarded or slow learners in Milwaukee. Special Classes are for children with I. Q.'s between 50 and 70. Children are admitted thereto only after a complete individual test and a complete physical examination. At the age of 16 these children go to vocational schools to learn some simple trade. Special Class Centers, used years ago, have been discontinued. There are only 280 children in these Special Classes.

Special B Classes provide for about 1,000 children with I. Q.'s between 70 and 85. More than one third eventually return to grade after being given tryouts in normal classrooms for several periods a day and intensive attention in special disability subjects. Each child is given achievement tests at least once a year. Many of these children go right up to junior and senior high schools after a restorative period in Special B Classes. Otherwise they automatically go up to a junior trade school at the age of 13.

Home instruction for the physically handicapped is covered by eight full-time teachers. Superintendent Goodrich is experimenting with a continuous primary grade promotion plan in four school districts. He is very enthusiastic about it. Health services are covered by city health doctors assigned to the schools, and there is provision for personal conferences with parents and for an individual audiogram on each child.

Clinics and File System.

Of outstanding interest in Detroit are the psychological clinic, the central file system, the work of the visiting teachers attached to the psychological clinic, and the special education organization, the provisions for psychiatric service to teachers, as well as to pupils needing the same, and the organization procedures and personnel of the attendance department.

The psychological clinic, still under the direction of Dr. Harry J. Baker, its founder, is perhaps the oldest unit of its sort in the entire country, having been founded in 1911. In this clinic were developed many procedures and tests in widespread use throughout the country today by those who are endeavoring to help children with various types of maladjustment in the school situation.

Here are centralized all efforts to help children showing maladjustment in the Detroit schools. All intake for a special education is through service by the clinic staff. Very careful examination is made of each child emerging as a problem in the school system. This involves careful physical examinations as well as psychological study and social investigation. Wayne University provides certain special diagnostic services and treatment, such as the glandular clinic and the speech clinic.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

STREET AGENCIES.

Old South News Stand, Old South entrance to subway. Also News Stand, first floor, City Hall Annex.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, July 1, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Haymarket Square, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughterhouses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE ELECTRICAL INSPECTION DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

Death rate per 1,000 of population:

Last week, 14.38; corresponding week last year, 14.68.

Deaths by age periods, sex, etc.: Under one year, 28; one year to four years, inclusive, 3; sixty years and over, 123. Total deaths: Male, 123; female, 100; deaths in hospitals and institutions, 148.

REPORTABLE DISEASES: CASES AND DEATHS.*

REPORT OF FRANCIS J. DALY, HEAD OF DIVISION OF JUVENILE ADJUSTMENT, ON VISIT TO MID-WEST CITIES.

(Continued from page 729.)

SPECIAL EDUCATION.

The range of special education is especially interesting. Detroit is one of the few cities in the country that has a school for children with epilepsy. Also of particular interest in their special education program are the provisions for Special A, Custodial, Special B, Special Prep, and Ungraded Junior Classes.

The Special A Classes are for children 6 to 13 years of age with I.Q.'s between 50 and 75, and correspond roughly to our Special Classes.

There are five classes known as Custodial Classes for children 6 to 13 years old with I.Q.'s around 50. The grade level is kindergarten or first grade. There are only about 10 children in each of these classes.

Special B Classes are for children 13 to 15 years of age who are promoted to them from the Special A Classes. There are also a number of Special Prep Classes for children over 15 years of age, and these are in the intermediate or high schools. There is a sequence of promotion from Special A through Special B, through Special Prep Classes for all except the relatively hopeless Custodial Class cases. The Ungraded Junior Classes are really for behavior problem children /under 12 whose difficulties are of a serious degree approaching the pre-psychotic. These classes are in the elementary schools and are used rather flexibly. A child may stay in such a room a relatively short period of time. Transfer thereto is controlled completely by the psychological clinic, and complete medical and physical examinations and other studies are required.

Detroit is also one of the few large cities of the country that has a school of the probationary school type. No child under 12 years of age may be sent to this type of education. Transfer to this school is made after study by the psychological clinic as outlined above. The department of special education issues the transfers. Forty per cent of the graduates of this school go to the state penitentiary. It is not known how many had other forms of court appearance or institutionalization, but it was stated that naturally this was well above the 40 per cent.

ATTENDANCE SUPERVISORS.

The Attendance Department requires a master's degree for appointment as Supervisor of Attendance. Attendance supervision is effectively organized under eight districts. There is a process of hearings or conferences on all "trouble" cases prior to any court action, and this must include psychological study, personality study, school reports, etc.

There is provision for a series of definite types of conferences between the attendance supervisors and their district heads, and for conferences with the visiting teachers and school personnel, etc., before any case may be taken to court. When a case is actually taken to court the individual attendance supervisor scarcely ever takes time from his work to attend the session, inasmuch as this is assigned to a central office man who specializes in the work. Cooperation with the psychological clinic and certain

other agencies both within and without the school system is very well developed.

The special service units in Detroit are not under one bureau or coordinating agency in the school system, but their work has always been brought together by an assistant superintendent in charge of special services.

IN MINNEAPOLIS.

In Minneapolis I had a very full program of conferences with Mr. Walter A. Anderson, General Assistant Superintendent; Mr. A. I. Heggerston, Director of Administrative Research, Census, Attendance, and Law Enforcement; Miss Barbara Wright, Supervisor of Counselors; Miss Margaret Andrews, Employment Coordinator; Dr. Harold Hanson, Director of Child Study Department; Miss Alma Laabs, Supervisor of Visiting Teachers; Miss Bryne, Director of Special Classes, Miss Cora Helgesen, Supervisor of Nurses; Dr. Hermina Hartig, Chief School Physician.

Special services in Minneapolis are being grouped in organization under General Assistant Superintendent Anderson. The Child Study Division is very much overloaded, with probably five times as many cases being referred for help as the staff is able to handle. The Visiting Teachers Department gives service both to attendance and behavior problems. There is only one Attendance Supervisor, as such, and he has all responsibility for court cases. There are less than 25 formal court cases each year. This same officer also has responsibility for the investigation of vandalism.

The health program in Minneapolis is noteworthy for its emphasis on pre-school round-ups and the early correction of physical handicaps or defects. The parents are present at these examinations in a large percentage of cases. There are also many devices to sensitize teachers to the detection of health handicaps bearing on failure or maladjustment. A continuous frequency audiometer is used on an individual basis for almost the entire city. The School Department has its own eye clinic and ear clinic.

The Guidance Department is characterized by very good cumulative records going down into the elementary schools and by counselors not only in high schools but in junior high schools.

There is an extremely broad and intensive testing program. Because machine scoring is used they are able to keep up with this without any undue delay.

Minneapolis has very good provisions for check-up of the progress of children in Special Classes and there is guidance and follow-up on Special Class drop-out cases.

VETERANS THANK MAYOR FOR EFFORTS TO SECURE FOOD.

The following telegram was received by James M. Curley, Mayor of Boston, on June 8, from Frederick P. Gaunt, Commander, United American Veterans:

We, the United American Veterans, with 50 posts in Massachusetts and 40,000 members, wish to congratulate you for your efforts to secure us food. The American children must come first, and this is the primary obligation of our government. We do not want bread lines in America and clothes. We are all willing to share but first we want something to share.

MAYOR APPEALS TO WASHINGTON FOR FOOD FOR HOSPITALS.

His Honor the Mayor, on June 8, forwarded the Hon. Clinton P. Anderson, Secretary of Agriculture, Washington, D. C., the following letter:

MY DEAR SECRETARY,—I took up with E. O. Pollock the question of providing meats and flour for the hospitals of Boston. I pointed out to him that according to the Purchasing Agent of the City of Boston the supply of flour being delivered to Massachusetts and the New England area generally has been about 25 per cent of the allocation that was made in 1945. He informed me that I was in error and that it was in excess of that or 75 per cent of what was being allocated to other states of the Union.

However, he believed that the situation would be relieved at once since the flour mills had been starting up in Kansas City and a supply in addition to that from the mills of Buffalo would be made available—at least between 50 or 60 per cent.

I trust you will check into the matter and in the event other states of the Union are receiving 75 per cent there is no reason why New England should be discriminated against and there is every reason why New England should receive the 75 per cent.

To bear out the contention made by me, I submit herewith copy of telegram received June 7:

"W.AGA91 50 Govt—AG Washington DC. 7 210P. Gen. William I. Rose, Purchasing Agent of City of Boston, BSN. Have been unable to make arrangements for the Department of Agriculture to supply you the 2,500 bags of flour requested until June 5. Suggest you attempt to purchase this flour through regular trade channels. If arrangements can be made whereby this flour can be supplied through the Department you will be advised.

E. O. POLLOCK, Grain Branch PMA."

According to the Purchasing Agent for the City of Boston, the supply of meat and flour for the institutions of the City of Boston is insufficient to provide for the needs of the institutions for more than one week. The situation is desperate—bread and meat are needed for the patients of these institutions, and relief must be provided without further delay.

With every good wish and trusting we will hear something encouraging in the very near future, I remain,

Sincerely,

JAMES M. CURLEY, Mayor.

SENATOR SALTONSTALL REPLIES TO MAYOR CURLEY'S REQUEST FOR FOOD FOR NEW ENGLAND AND BOSTON.

The following letter has been received by the Mayor from the United States Senate Committee on Naval Affairs:

June 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MAYOR,—I am in receipt of your telegram.

I have repeatedly appealed to the Department of Agriculture and recently to President Truman urging more grain for New England. I have been told that more grain is on the way and that measures are being taken to help assure us of flour.

I have just made an appeal to the Special Committee to Study and Survey Problems of Small Business Enterprises which is now in session on this problem, urging immediate action.

I assure you I will continue to do what I can to provide relief.

Sincerely,

LEVERETT SALTONSTALL.

**REPORT OF JOSEPH McKENNEY,
DIRECTOR, DEPARTMENT OF
PHYSICAL EDUCATION, ON
ATTENDANCE AT NATIONAL
CONVENTION OF AMERICAN
ASSOCIATION FOR HEALTH,
PHYSICAL EDUCATION AND
RECREATION, AT ST. LOUIS,
APRIL 9 TO 13, 1946, INCLU-
SIVE.**

BOSTON, May 27, 1946.

MR. ARTHUR L. GOULD, *Superintendent,
Boston School Department.*

DEAR MR. GOULD,—I respectfully submit a report of my attendance at the fifty-first annual convention of the American Association for Health, Physical Education and Recreation which was held in St. Louis, Missouri, April 9 to 13, inclusive:

The theme of the convention was "Fitness for the American Way of Life."

The following recommendations made at the convention are applicable to the Boston public schools.

ELEMENTARY SCHOOLS.

It was recommended that —

1. One hour per day should be devoted to physical education, preferably thirty minutes in the morning and thirty minutes in the afternoon.

2. Greater use be made of outdoor facilities for physical education.

3. Combining of two classrooms by knocking down of walls to make indoor playrooms.

4. More intensive training in elementary physical education at teacher training institutions.

5. Organized play at recess for safety of pupils.

6. Complete physical examinations be conducted in Grades I and IV—with follow-up check on defects in Grades II, III, V and VI.

INTERMEDIATE SCHOOLS.

It was recommended that —

1. Showers be provided in all intermediate schools.

2. Shower facilities be connected to separate heating system.

3. Gymnasium-auditorium unsatisfactory; auditoriums be used for auditorium purposes only, gymnasiums be built for physical education.

4. Complete health examinations be held in Grade VII—follow-up check in defects in Grades VIII and IX.

A special report on Interscholastic Athletics was made by Dr. Louis R. Burnett of Baltimore, Maryland, supplementing his reports of 1939 and 1944. He reported that Boston is still the outstanding city in the method of financing their athletic program.

For many years Boston has had the parents of each competitor sign a parents' permission card before allowing a boy to participate in the athletic program. The latest legal decisions have held that it is not legal for a parent to sign away the

rights of his child. I still believe, however, that we should continue our present practice.

In a survey of 219 cities it was found that 150 have inclosed athletic fields of their own.

The most startling facts presented were of the trend to night football throughout the country, especially in the South, Mid-West and West. The discipline of the spectators during and after the games is still one of their greatest problems.

The American Association for Health, Physical Education and Recreation will hold its 1949 or 1950 convention in the East. Many have expressed a desire to come to Boston at that time. The Chamber of Commerce has started the preliminary plans and procedures to have Boston act as host at this time.

Respectfully submitted,

JOSEPH McKENNEY,
Director of Physical Education.

**STORM DAMAGES LONG ISLAND
HOSPITAL.**

The Mayor on June 10 received the following letter from G. Frank McDonald, Institutions Commissioner:

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I regret to report that the cyclonic storm Saturday night caused considerable damage to the Long Island Hospital. The damage was comparable to the 1938 hurricane, if not more. All buildings had damage. The slate roof on the north side of the Administration Building was completely blown off and the copper cornices and gutters torn out. Dormer windows were blown out and skylights vanished. The slate roof on the Attendants' Home was entirely off and other slate roofs were considerably damaged. The slate from the roofs caused great glass breakage and during the storm blew everywhere. That there were no fatal accidents was remarkable. The only accident we had was a nurse receiving a lacerated arm from glass breakage. Fifty-three-year-old trees were broken in two and damage to shrubbery was high. The Medical Director, the Staff, and the Boston Fire Department are to be commended for the complete control they maintained in preventing accidents.

I went down to the island on the first boat Sunday and we proceeded at once to arrange for repairs on an emergency basis. The roofs must be temporarily covered with roofing paper to prevent interior damage in the event of rain. This will be done today, although we anticipate some difficulty in obtaining roofing paper. Slate is almost unobtainable, and I am getting expert advice on the advisability of using heavy butt asphalt shingles, which can be had. They, at least, will be safe and, I believe, fully as serviceable. All skylights will be boarded up and sealed permanently, and cupolas will not be replaced, as they serve no purpose. Colonel Grossman, cooperatively, is sending to the island a large detail of prisoners to clean up the debris.

We were able, Sunday, to contact a building carpenter, also a roofer, and both of these contractors will have their men on the first boat Monday, with stock. Repairs, therefore, will go forward at once and will be completed in two weeks. It is too early to estimate the full damage but a conservative estimate is placed in the vicinity of \$25,000.

Respectfully,

G. FRANK McDONALD,
Commissioner.

REPORT OF ROBERT C. SCHIMMEL, MASTER, DORCHESTER HIGH SCHOOL FOR BOYS, ON ATTENDANCE AT TENTH AMERICAN EXHIBITION OF EDUCATION PROGRAMS, SPONSORED BY INSTITUTE FOR EDUCATION BY RADIO, COLUMBUS, OHIO, MAY 3 TO 6, 1946, INCLUSIVE.

BOSTON, May 22, 1946.

DR. ARTHUR L. GOULD,
*Superintendent of Schools,
15 Beacon Street, Boston, Mass.*

DEAR DR. GOULD,—May I submit the following report on my attendance at the Annual Institute for Education by Radio:

The meetings this year were held in the Wallick-Deshler Hotel, Columbus, Ohio, May 3 to 6. The following is a list of the topics discussed at the meetings each day:

Friday, May 3. "Has Radio Reconverted?"—Mr. Edgar Kobak, President of Mutual Broadcasting System, presiding.

Saturday, May 4. "Radio and the International Scene."—Mr. Sterling Fisher of National Broadcasting System, presiding. "Work Study Groups." "College Public Relations Broadcasting." "High School Radio Workshop."

Sunday, May 5. "Radio Faces the Future" and "Television and Education."

Monday, May 6. Round Table Discussion. "Radio and Inter-Group Understanding."—Dr. I. Keith Tyler presiding.

The Annual Institute for Education by Radio, to me, was distinctly worth while for the interchange of ideas. I found that our local problems are national problems, and, while we are far behind other large school systems in what they have accomplished in the use of radio, we have made a definite beginning. Our chief lack seems to be mechanical equipment. Certainly our youth and our teachers are second to no other school system.

Respectfully submitted,

ROBERT C. SCHIMMEL.

**MAYOR CURLEY JOINS IN
URGING CHARLES BANK
HIGHWAY:**

Mayor Curley has received the following letter from Governor Tobin on the proposed Charles River Basin Highway:

BOSTON, June 10, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

MY DEAR MR. MAYOR,—Thank you for your communication regarding the construction of a roadway between Beacon street and the Charles River Basin, joining Embankment road with Soldiers Field road in the vicinity of Cottage Farm Bridge.

I am in agreement that the construction of this roadway will contribute greatly to the easing of the traffic situation created by motor vehicles coming from and going to the territory southwest of Boston.

I am sending a special message to the Legislature immediately, requesting an appropriation out of the Highway Fund to be made available to the Metropolitan District Commission for the making of the necessary detailed plans for the carry-

ing out of this project. These plans and specifications could be completed by the time of the return of the Legislature in 1947, at which time the necessary appropriations could and should be made.

Sincerely,

MAURICE J. TOBIN, Governor.

MAYOR ASKS FOR STATE TROOPS FOR JUNE 17th PARADE.

The following letter was forwarded on June 10 to Governor Maurice J. Tobin by Mayor James M. Curley, relative to troops for the June 17th celebration in Charlestown:

HON. MAURICE TOBIN,

Governor of the Commonwealth.

MY DEAR GOVERNOR,—As you are aware, it is customary on the 17th of June each year to have a parade in Charlestown. Due to the closing of Fort Devens and Camp Edwards, it will be extremely difficult for the Federal authorities to serve the customary quota, and what is true of the Army is equally true of the Navy and Marine Corps.

Under the circumstances, it is imperative that the largest possible delegation from the National Guard be assigned to participate in the exercises. I have consulted with General Harrison and have informed him that I would consult with you. If you will kindly take up the matter with him and give the necessary orders to provide the troops so that we may have a parade in keeping with the traditions of Bunker Hill Day, I will be sincerely grateful.

Sincerely,

JAMES M. CURLEY, Mayor.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

ASSESSING DEPARTMENT.

Permission has been given for payment of compensation for extra services performed by John H. Hout, first assistant assessor, as chairman of the Dooming Board, amounting to \$425 for the year 1946.

DEPARTMENT OF SCHOOL BUILDINGS.

John A. Noonan has been appointed executive secretary and acting deputy superintendent of construction at a combined salary of \$5,200 a year plus \$200 E. C. A.

Peter M. Curley, 11 Robeson street, Jamaica Plain, an inspector, has been granted a leave of absence for an indeterminate period, so that he may accept appointment as a deputy superintendent of construction.

ELECTION DEPARTMENT.

Authority has been given to pay overtime in connection with the advancing of the date of the primaries for two days at \$1 per hour.

FIRE DEPARTMENT.

Approval has been given to grant salary adjustments to military substitute firemen and provisional military substitute firemen who had to resign from the Fire Department because of induction into the armed forces of the United States and who were subsequently appointed as permanent firemen.

The following increases have been granted:

John H. Grady, Fire Prevention Division, from \$2,400 to \$2,500 a year.

Charles I. Pierce, Rescue Company 1, from \$2,000 to \$2,200 a year.

Joseph T. Heim, Ladder Company 29, from \$2,200 to \$2,400 a year.

The following-named firemen have been promoted to engineer, Motor Squad, with increases as follows:

Fireman John K. Hayes, from \$2,500 to \$2,700 a year.

Fireman John J. Madden, from \$2,400 to \$2,700 a year.

Permission has been given to grant sliding scale increases in salaries as follows:

Fireman Joseph T. Heim, from \$2,400 to \$2,500 a year.

Fireman John J. McCarthy, from \$2,400 to \$2,500 a year.

Fireman Francis X. McCormack, from \$2,400 to \$2,500 a year.

Fireman Martin E. Pierce, from \$2,400 to \$2,500 a year.

DEPARTMENT CHANGES.

(Continued from page 733.)

INSTITUTIONS DEPARTMENT.

In accordance with order passed by the City Council and approved by the Mayor April 23, 1946, the custody of the steamer "Michael J. Perkins" was transferred from the Penal Institutions Department to the Institutions Department, June 1, 1946.

Authority is requested to transfer the following employees on the steamer "Michael J. Perkins," from the Penal Institutions Department to the Institutions Department on that date:

Rufus J. Clark, mate and pilot (permanent), \$50 a week, \$200 E. C. A. a year; captain (temporary), \$3,000 a year, \$200 E. C. A.

Joseph F. Harrington, mate, inland mate and alternating captain (permanent), \$50 a week, \$200 E. C. A. a year.

Frederick E. Steele, marine engineer (permanent), \$48 a week, \$200 E. C. A. a year.

William W. Silinsky, oiler (permanent), \$41.50 a week, \$200 E. C. A. a year; alternating assistant engineer and oiler (temporary), \$44 a week, \$200 E. C. A. a year.

Myles McDonough, fireman (permanent), \$41.50 a week, \$200 E. C. A. a year.

Valentine Keeley, fireman (permanent), \$41.50 a week, \$200 E. C. A. a year.

Charles A. Trask, fireman (permanent), \$41.50 a week, \$200 E. C. A. a year.

James L. Foley, deckhand (permanent), \$33 a week, \$200 E. C. A. a year; acting mate (temporary), \$46 a week, \$200 E. C. A. a year.

John J. Herlihy, watchman and marine fireman (permanent), \$38.50 a week, \$200 E. C. A. a year; deckhand (temporary), \$33 a week, \$200 E. C. A. a year.

Thomas A. Scanlon, deckhand (permanent), \$33 a week, \$200 E. C. A. a year.

Fred Farraro, deckhand (permanent), \$33 a week, \$200 E. C. A. a year.

James F. Langone, deckhand (permanent), \$33 a week, \$200 E. C. A. a year.

Margaret J. McDonald, matron (permanent), \$25 a week, \$200 E. C. A. a year.

Patrick J. Doherty, wharfinger (permanent), \$40 a week, \$200 E. C. A. a year.

Provisional Appointments.—Thomas J. Moran, deckhand (temporary), \$30 a week, \$200 E. C. A. a year; Thomas F. Burke, watchman—fireman (temporary), \$38.50 a week, \$200 E. C. A. a year; Peter Coholan, watchman—fireman (temporary), \$38.50 a week, \$200 E. C. A. a year.

The following changes have been made:

Appointments.—William J. Conroy, 735 Tremont street, City, attendant (provisional), \$800 a year plus \$200 E. C. A.; John J. Crowley, 223 Webster street, East Boston, helper, serving room (provisional), \$726 a year plus \$200 E. C. A.; John J. Hourihan, 35 Mead street, Charlestown, watchman (provisional), \$800 a year plus \$200 E. C. A.; Herman E. Klein, 24 East Springfield street, City, helper, butcher shop (provisional), \$726 a year plus \$200 E. C. A.; Harold F. Wilkins, 45 Woodbine street, Chelmsford, cook (provisional), \$800 a year plus \$200 E. C. A.

Reinstatement.—Salvatore Saccardo 274 Bunker Hill street, Charlestown, attendant, \$800 a year plus \$200 E. C. A.

Termination.—Michael J. Riley, 55 Park street, Charlestown, toolkeeper, \$800 a year plus \$200 E. C. A.

Approval has been given to retain the services of Dr. Newton S. Bacon on a

fee basis at the Long Island Hospital for an amount not to exceed \$1,575, for a period of seven months. Dr. Bacon, aged 73, is a physician employed at the Long Island Hospital at \$2,500 a year plus \$200 E. C. A., and not in the retirement system.

PARK DEPARTMENT.

Permission has been given to alter the budget in the personnel item by reducing the laborers at \$5.50 a day by one and increasing the number of tractors at \$6 a day by one, to allow for a promotion for William L. Cotter of 58 Harvest street, Dorchester, from laborer to tractorman.

Heller & Co., 1 per cent, ten days; Ralston, Purina Company, 2 per cent, ten days.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, commercial houses and contractors for furnishing supplies, labor, etc. Communications from the heads of the several departments interested were as follows:

INSTITUTIONS DEPARTMENT.

BOSTON, May 17, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested to permit this department to contract with Thomas D. McInerney, Naval Architect, 195 Upland road, Quincy, to draw plans and make up the specifications for the alteration of the steamship "James Michael Curley."

The total fee to be paid to the architect for these services is to be 10 per cent of the cost of the work, a rate which is established and is customary. In no instance, however, shall the total fee be in excess of \$3,000.

This architect has proved to this department, both by education and work that he has performed, that he is capable and that he will be satisfactory. As no advantage can possibly be gained by the city in publicly advertising for bids, I request that this contract be awarded without formal advertising for bids.

Respectfully,

G. FRANK McDONALD,
Commissioner.

BOSTON, May 21, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—The Nurses' Home on Long Island was built about twenty years ago and ever since it has leaked continuously through the north and northeast walls to a point where a foot of water settles on the lower floor. At various times ineffectual attempts have been made to correct this condition at considerable expense to the city. No effort has been made in the last few years to do anything about it. In consequence, deterioration has set in to a degree that further neglect will cause irreparable damage to the building. It has a replacement value of approximately \$350,000.

It seems logical to me now that expert advice should be sought. I, therefore, consulted with the Massachusetts Institute of Technology and subsequently retained the services of the J. R. Worcester Company, engineers, to investigate and determine the cause of the leaks and to recommend and make suggestions for the correction of same. Their determination of the cause is logical and factual.

Their recommendation for correction was to confine to special expert treatment by the following firms: A. G. Horne Company with their "Dehydrative No. 2-A"; Insul-Mastic Corporation with their "Gilsontite"; and Western Waterproofing Company with their "Resto-crete."

Following the specifications as outlined by the J. R. Worcester Company, we invited bids on our plans from these companies. We received two bids—A. G. Horne Company, five thousand one hundred ninety-four dollars (\$5,194) and Insul-Mastic Corporation through their licensee, the New England Insulation Company, eight thousand five hundred forty-two dollars and ninety-one cents (\$8,542.91).

We also invited a bid from the National Waterproofing Company, Boston. Their bid was on a stock and labor basis and in consequence could not be considered.

As the Insul-Mastic Corporation through their licensee, the New England Insulation Company, has followed the specifications with but slight changes and further will guarantee, absolutely, the work, and whereas the A. G. Horne Company has submitted its price on its own specifications with considerable change, I respectfully request your approval to award the work to the New England Insulation Company, licensee of the Insul-Mastic Company, at their price of eight thousand five hundred forty-two dollars and ninety-one cents (\$8,542.91) as being best for the city. As this is a specialist's work, no advantage can be favorably derived for the city by writing specifications and advertising such in the *City Record*.

Respectfully,

G. FRANK McDONALD,
Commissioner.

PARK DEPARTMENT.

BOSTON, May 22, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request permission to award to C. J. Maney Company, Inc., 24 Dane street, Somerville, a service order to regrade the beaches in South Boston, from Farragut Monument to L Street Bath House, for a sum not to exceed \$1,800, the work to start on May 15, 1946. The contractor is to furnish one D-8 caterpillar with bulldozer, including operator, fuel, etc., at an hourly rate of \$9.37 1/2 cents.

This concern is the best equipped one that I know of to do this type of work.
The cost of the work will be charged to the B-39 item in our budget.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, May 9, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—After its annual inspection the U. S. Coast Guard Inspection Service has ordered the City of Boston to make certain repairs on the steamer "Michael J. Perkins." Unless these repairs are made we are not permitted to navigate the steamer.

The Bethlehem Steel Company, 256 Marginal street, East Boston, has the facilities to perform immediately these necessary repairs for the sum of \$2,878.

In view of the foregoing I respectfully request your approval for the award, without advertising, to the Bethlehem Steel Company, 256 Marginal street, East Boston, for repairs to steamer "Michael J. Perkins" in the sum of \$2,878.

Very truly yours,

MAXWELL B. GROSSMAN,
Penal Institutions Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 28, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—In connection with the discontinuing of the purchasing of steam from the Boston Edison Company it will be necessary to furnish and install a new low pressure boiler and a new oil burner for the purpose of heating and furnishing hot water to both City Hall and City Hall Annex in the summer time. This department sent out bids to 3 (three) reputable heating and plumbing firms. (Specifications attached.)

The following bids have been received:

P. J. Riley & Co., 295 Highland street, Roxbury, \$2,843; J. L. Sullivan & Co., 93 Massachusetts avenue, \$2,995; M. J. Flaherty Company, 29 Wareham street, \$3,150.

As time is of the essence and the work being of an emergency nature, nothing can be gained by the usual form of advertising. I feel that the best interests of the city will be served by awarding this contract to the low bidder, P. J. Riley & Co., in the sum of \$2,843.

Respectfully,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT.

BOSTON, May 21, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—I respectfully call your attention to the fact that the present agreement which we have with the Welsbach Street Lighting Company of America for lighting streets with gas lamps will expire on June 1.

In order to ascertain what it would be possible for the Boston Edison Company to do in the matter of substituting electric lamps for gas lamps, I had a conference yesterday with officials of that company. The information which I received at that time was very definite, to the effect that there is no likelihood until at least the first of next year for the Edison Company to take over any additional areas for electric lighting.

I was further informed that, because of the shortage of materials and supplies, and the difficulty of obtaining new equipment, etc., because of the unsettled conditions existing in the steel, transportation, and other industries, the situation has reached [the point where the Edison Company cannot make any additional installations, even in small numbers.

Under the conditions as they exist today, I feel that the only possible thing to do would be to extend, for a period of four months, the agreement which we have with the Welsbach Street Lighting Company of America for lighting streets by means of gas lamps, at a cost of \$23 per lamp per year.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, May 21, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—The agreement which the city has with the Welsbach, Street Lighting Company of America, whereby this firm has been carrying on the work of lighting streets by means of gas lamps at the rate of \$23 per lamp per year, will expire on June 1.

As the city is still not in a position to negotiate a new contract, I respectfully ask the permission of your Honor to make another agreement with that company, to carry on this service until October 1, 1946.

In this connection, I respectfully request your permission to dispense with advertising, since the above-mentioned company is the only firm which is in a position to do this particular work.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, May 20, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is requested to award a contract without publicly advertising for bids to Van't Hof & Blokker, Limited, 40 Oakmount road, Toronto 9, Canada, for furnishing to the Park Department:

5,000 single early tulips, Pink Beauty, \$58 per M; 3,000 single early tulips, General deWet, \$54 per M; 4,000 single early tulips, Couleur Cardinal, \$58 per M; 3,000 single early tulips, Prince of Austria, \$53 per M; 5,000 single early tulips, White Hawk (yellow), \$54 per M; 2,000 single early tulips, Rose Luisant, \$53 per M; 1,000 single early tulips, Prosperine, \$58 per M; 1,000 single early tulips, Rising Sun, \$54 per M; 1,000 single early tulips, Keizerskroon, \$58 per M. Cost of tulips, \$1,389; plus charge for packing, cases and insurance, \$70; total of contract, \$1,459.

Van't Hof & Blokker, Limited, supplied the tulips used in the current display at the Public Garden and, in a letter on file in this office, the Park Commissioner has requested that the purchase for the 1947 display be made from the same company as it is prepared to furnish all Holland bulbs and it is his belief that no other concern would be in a position to furnish bulbs comparable in quality since Holland bulbs are still extremely hard to obtain.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

BOSTON, May 24, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On May 6, 1946, your Honor approved an award to H. P. Hood & Sons, Inc., for furnishing 1,125 gallons of ice cream, in accordance with specifications, to the Long Island Hospital Division of the Institutions Department during the period from May 1, 1946, to October 31, 1946.

My attention has been directed to the fact that, through oversight, H. P. Hood, Inc., failed to file a copy of its bid with the Auditing Department, as required by city ordinance.

Your permission is, therefore, respectfully requested to revise this department's letter of April 29, and award the contract to H. P. Hood, Inc., without further public advertisement.

The amount of the award is \$1,350, less a cash discount of 2 per cent for payment in ten days.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

CHANGES IN CONTRACTS.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 20, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—On April 23, 1946, a contract was entered into with the Massachusetts Electric Construction Company, 120 Tremont street, to make necessary changes in wiring to enable Edison current to be utilized in City Hall and City Hall Annex in the sum of \$3,470.

During the progress of the work tests taken by the contractor and confirmed by Mr. Higgins, our electrical inspector, on 1600-ampere service, wires between service switch and existing switch boxes showed readings of 1350 amperes to be present consumption. To this present load must be added an additional 300 amperes when the existing service in City Hall is removed and the two elevators and the I. B. M. machines are connected. To remedy this situation, wires are to be increased to 2,000 amperes and the neutral should be increased 800 amperes. Also portions of the switch-board bus bar should be increased from 1,600 to 2,000 amperes. Cost for this change will be \$340.

It was further found that the service switch in the City Hall basement is of 400-ampere capacity and is now carrying 350 amperes; also the distributor switches are all up to capacity and due to long usage and heat has lost all its temper and the equipment is running hot. To remedy this condition, it will be necessary to install complete new switch equipment consisting of dead front cabinet with proper circuits to connect to the existing lines, and new circuits are to be added together with a new 800-ampere service switch. Cost for this change will be \$830.

I have taken this entire matter up with Mr. Whelan, Superintendent of the Wire Department, and he has advised me that these conditions should be remedied at once before something drastic occurs.

In view of the above, I respectfully request permission to amend the Massachusetts Electric Construction Company's contract to allow an addition in the sum of \$1,170 to do the work as outlined above.

Respectfully yours,

JAMES E. SULLIVAN,
Superintendent of Public Buildings.

POLICE DEPARTMENT ORDERS.*General Order No. 674.*

Transfer of the following-named persons from Superintendent's Office (armed service roll) is hereby ordered; effective Thursday, June 6, 1946, at 9 o'clock a. m.:

Patrolman Martin F. Glynn to Division 4.

Patrolman John J. McCarthy to Division 6.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 675.

Transfer of the following-named person from Superintendent's Office (armed service roll) is hereby ordered; effective Monday, June 10, 1946, at 9 o'clock a. m.:

Patrolman Leo G. Hearn to Division 15.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 676.

The Rules and Regulations of the Police Department are hereby amended by inserting upon page 133 thereof (after conclusion of Rule 38) a new rule, to read as follows:

Rule 38A—Vacation Leave of Civilian Employees.

1. On and after June 1, 1946, the following regulations concerning vacation leave shall apply to civilian employees of the department.

2. Permanent civilian and temporary civilian employees who have completed six months of continuous service will receive vacation with pay, not to exceed the following:

(a) For less than one year's service, vacation allowance of one day for each month of service.

(b) For more than one year's service and less than ten years' service, vacation allowance of two weeks.

(c) For more than ten years' service but less than twenty years' service, vacation allowance of three weeks.

(d) For more than twenty years' service, vacation allowance of four weeks.

3. Assignment of vacation periods shall be approved by the commissioner for such time or times as will best serve the public interest.

4. Vacation allowances may not be accumulated from one vacation year to another.

5. Division and Unit heads shall keep a register, showing records of vacations and attendance of each civilian employee, so that the same may be available for inspection.

Upon page 400 of the Rules and Regulations of the Police Department, after the last entry under "Vacation," as appearing in the index, insert the following:

"for civilian employees,—rule relating to . . . page 133."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 677.

Relative to provisions of chapter 635, Acts, 1945, which permits advances of vacation pay to employees, the Police Commissioner has been in receipt of the following communication from the City Auditor:

VACATION PAY ADVANCES.

The following regulations relating to procedure in the handling of vacation advances have the approval of the City Treasurer:

1. Payments can only be approved for a full number of weeks. Fractional divisions of a week cannot be allowed.

2. Where the vacation period does not coincide with the pay-roll period, the advance will be handled as of the beginning of the pay-roll period in which the vacation starts and will terminate at the end of the pay-roll period immediately prior to the last day of the vacation. In no instance, however, will an approval be granted for a greater period of full weeks than that indicated in the "Period of Vacation" appearing on the employee's advance request.

CHARLES J. FOX,
Auditor of the City of Boston and County of Suffolk.

It may be noticed that the application blank for such advance is in triplicate form.

The forms bear a Printing Department identification number, "GEN. 36," and are headed, as may be observed, "Request for Advance of Vacation Pay."

One block of the forms contains fifty sets.

Division and Unit heads will make requisition on the Property Clerk's stock rooms for their respective needs.

When filled out, they will be forwarded by the commanding officer to the Chief Clerk's office of this department for further action.

Such requests for vacation pay must be made two weeks in advance.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 678.

Transfer of the following-named persons from Superintendent's Office (armed service roll) is hereby ordered; effective Tuesday, June 11, 1946, at 9 o'clock a. m.: Patrolman Harry A. F. Mawhinney to Division 10.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS*General Order No. 39.***I. HECTOR J. MCNEIL.**

It is with deep regret that the Fire Commissioner announces the death, on Saturday, June 8, 1946, of Carpenter Hector J. McNeil of the Maintenance Division. Carpenter McNeil was appointed to the department August 12, 1942.

The funeral was held from his late residence, 32 Hill Top street, Dorchester, at 8 a. m., Tuesday, June 11, 1946, followed by services at St. Brendan's Church, Gallivan Boulevard, Dorchester, at 9 a. m.

A detail from the Maintenance Division was assigned to act as a funeral escort and

members of the Maintenance were excused from duty to attend the services.

II. JOHN J. MARTIN.

It is with deep regret that the Fire Commissioner announces the death, on Sunday, June 9, 1946, of Ladderman John J. Martin of Ladder Company 13. Ladderman Martin was appointed to the department April 1, 1918.

The funeral will be held from his late residence, 2284 Centre street, West Roxbury, at 9.15 a. m., Wednesday, June 12, 1946, followed by services at St. Theresa's Church, Centre street, West Roxbury, at 10 a. m.

The chief of department will make the necessary detail to act as funeral escort and the members of Ladder Company 13 will be excused from duty to attend the services.

III. TRANSFERS.

The following transfers which will become effective at 8 a. m., Wednesday, June 12, 1946, are hereby announced:

Lieut. Walter F. Reddington, from Ladder 21 to Fire Prevention.

Ladderman William J. Fisher, from Ladder 29 to Ladder 7.

Ladderman John J. O'Brien, from Ladder 10 to Engine 7.

Ladderman George E. Randall, from Ladder 9 to Ladder 21.

IV. A. D. T. ASSIGNMENT.

The following signal number is to be added to running cards of the A. D. T. Company in this department:

Signal 687, The Cundy-Bettoney Company, Inc., 96 Bradlee street. (Sprinkler system.) Apparatus to respond: Engine 48, Ladder 28, District Chief 15. Nearest box is 3725.

V. G. A. C. ASSIGNMENT.

The following signal number is to be added to running cards of the General Alarm Corporation in this department:

Signal 295, Phoebe Phelps Caramel Corporation, 549 Albany street. (Wet system.) Apparatus to respond: Engine 3, Ladder 3, District Chief 7. Nearest box is 1646.

VI. COMMENDATIONS.

Hoseman Edward F. Leonard of Rescue Company 2 is hereby commended for responding to and working at fire, still alarm, on Chiswick road, Brighton, on June 6, 1946, while off duty.

Man on Probation James L. Fitzgibbons of Ladder Company 15 is hereby commended for responding to and working at fire, Box 4135, two alarms, on June 6, 1946, while off duty.

Ladderman William W. Sparrow of Ladder Company 14 is hereby commended for responding to and working at fire, Box 3356, on June 7, 1946, while off duty.

By order of Fire Commissioner RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of dredging, vehicles are excluded from the following street, from 12.01 a. m. to 6 a. m. each day, from May 20, 1946, to May 26, 1946, inclusive:

Salary: Basic salary: Minimum, \$1,680 a year; maximum, \$2,160 a year. Temporary salary increase: 20 per cent, not to exceed \$420 a year.

Vacancies: At present there is one vacancy for a male, to be filled on a permanent basis.

Duties: Under general supervision to operate, repair and calibrate instruments used in sampling industrial atmospheres and in the measurement of air flow, temperature, humidity, light, noise and radiation; to design and construct apparatus for sampling industrial atmospheres for the measurement of ventilation, temperature, humidity, light, noise and electromagnetic radiation; to maintain field and laboratory equipment in proper operating condition; to prepare abstracts of articles dealing with engineering aspects of occupational hygiene.

Under direct supervision to collect and quantitatively measure samples of industrial air contaminants by microscopic, X-ray diffraction, or other suitable means, to evaluate results of such determinations in terms of the hazard to exposed workers, and to measure efficiency of means for control of such hazards and advise relative to introduction of or improvement in such control; to measure health factors in industrial illumination, and advise relative thereto; to measure injurious industrial noise and physically injurious heat, humidity, and air motion in industrial establishments, and advise relative to their control; to measure injurious ultra-violet and infra-red radiation and physically injurious X-ray and radium radiation from industrial operations and to advise relative to protection therefrom; to make laboratory tests of efficiency of respiratory protection devices with respect to industrial dusts, fumes and gases; to prepare reports of field studies and investigations including such drawings, plans and charts as may be required; to keep abreast of current research and developments in the field of occupational hygiene important to the engineering personnel; and to perform related work as required.

The ability to use such specialized instruments as the dust sampling impinger, jet dust counter, konimeter, Tyndall meter, dust counting microscope, carbon monoxide detector and recorder, anemometer, kata thermometer, Pitot tube, manometer, psychrometer, Venturi meter, foot candle meter, illuminometer, and wet and dry gas meters, and a working knowledge of industrial chemistry and industrial toxicology, with detailed understanding of the subject of effective temperature, thorough grounding in sanitary engineering, and complete familiarity with the principles of modern industrial ventilation, including exhaust hood and duct design, fan characteristics, and performance of dust filters and collectors, are required.

A knowledge of German and French is desirable.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 3, 1946.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m. President KELLY in the chair. Absent, Coun. Carey, Linehan and Madden.

The meeting was opened with the salute to the Flag.

JURORS DRAWN.

Jurors were drawn, Coun. RUSSO presiding at the ballot box in the absence of the Mayor, as follows:

Twenty-two grand jurors, Superior Criminal Court, to appear July 1, 1946:

William H. Morley, Ward 2; Pandi Michael Tssetsi, Ward 3; Thomas Frye, Ward 4; Carl A. Svenson, Ward 4; Roy F. Leatherwood, Ward 5; J. LeRoy Johnson, Ward 9; Stephen A. Deagle, Ward 10; James J. Egan, Ward 10; Thomas F. Ford, Ward 11; Isidore Madow, Ward 14; Alfred Shulman, Ward 14; Philip Weinstein, Ward 14; John L. Barry, Ward 16; Robert J. Burden, Ward 16; Frederick W. Craig, jr., Ward 16; Henry G. Nieland, Ward 16; Earl J. Phinney, Ward 17; William G. Fardie, Ward 18; Saverio Messina, Ward 20; Angelo Rando, Ward 20; Arthur F. Watson, Ward 20; Willard H. Bryant, Ward 22.

Fifty-three traverse jurors, Superior Criminal Court, to appear July 1, 1946:

Andrew G. Hegner, Ward 1; Patrick Kelly, Ward 2; John J. Moynihan, Ward 2; Alfonso Guarnaccia, Ward 3; Charles Lois Hemmerlin, Ward 3; Samuel Nadel, Ward 3; George W. Wallace, Ward 3; Mauro Federico, Ward 4; George W. Masterson, Ward 4; Charles A. Wilcutt, Ward 4; George A. Turner, Ward 5; James J. Hallahan, Ward 6; Thomas McDonough, Ward 6; Austin B. Sharkey, Ward 6; Charles Mager, Ward 7; Frank A. Makouski, Ward 7; Bernard F. McSheffrey, Ward 7; Joseph F. O'Keefe, Ward 8; Charles Bouchard, Ward 9; John R. Goodman, Ward 9; Dennis Barton, Ward 10; Richard J. McNicholas, Ward 10; Michael J. Sullivan, Ward 10; John F. Boyce, Ward 11; Ernest M. Abbott, Ward 12; Walter Christensen, Ward 12; Solomon Jacobs, Ward 12; Louis H. Silverman, Ward 12; William R. McKenzie, Ward 13; Maurice Cohen, Ward 14; Michael J. Conroy, Ward 14; George Dushane, Ward 14; Samuel I. Greenglass, Ward 14; Benjamin H. Kaplan, Ward 14; John F. Collins, Ward 16; John F. Muldoon, Ward 16; Henry Roun, Ward 16; George A. Chambers, Ward 17; Herbert A. Ladner, Ward 17; Abraham Ludwig, Ward 17; Joseph Baker, Ward 18; Frederick W. Bumpus, Ward 18; Israel Kaplan, Ward 18; George L. Pierce, Ward 18; Frank J. McElroy, Ward 19; John J. Rogers, Ward 19; George E. Allen, Ward 20; Frederick F. Paradise, Ward 20; Edward A. Macdonald, Ward 21; John J. Nolan, Ward 21; Patrick J. Dargin, Ward 22; Vincent T. Doucette, Ward 22; George H. Smith, Ward 22.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weighter of Coal for term ending April 30, 1947: Alberta M. Toolan, 158 Salem street, Revere.

Weighters of Goods for term ending April 30, 1947: Howard W. Colby, 8 Marion street, Roslindale; David A. Shea, 34 Catherine street, Roslindale; Walter Walsh, 384 Hyde Park avenue, Roslindale; John J. Flanagan, 193 Florence street, Roslindale; Michael Ferala, 120 Gladstone street, East Boston; Frank J. Conti, 4337 Washington street, Roslindale.

Severally referred to the Committee on Constables and Confirmations.

RETIREMENT SYSTEM FOR EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, May 29, 1946.
To the City Council.

Gentlemen,—Chapter 658 of the Acts of 1945 establishes a single contributory retirement law, which is designed to include ultimately all public employees. In cities where a contributory retirement system now exists under a special law, the new system does not become effective unless accepted by the mayor and city council. If it is so accepted in this city, the employees who now belong to the Boston Retirement System or who have any other prospective pension rights will become members of the new system unless they elect, on a duly prescribed form, not to become such members. If they elect not to become members of the new system, they retain unimpaired their present pension rights. I do not propose to make a comparison of the merits or demerits of the new system as against the old, but I am satisfied from competent advice that it would be advantageous for a considerable number of employees

to join the new system. That, however, would be a matter to be determined by each individual employee.

Whatever might be the result, I am of the opinion that the employees of the city should be given the opportunity of becoming members of the new system, if it is for their benefit to do so, and I accordingly recommend the passage by your Honorable Body of the accompanying order.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That sections 1 to 28, inclusive, of chapter 32 of the General Laws, inserted therein by chapter 658 of the Acts of 1945, are hereby accepted by the City Council and Mayor of the City of Boston, acting in behalf of said city and the County of Suffolk.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Martha W. Doherty, for compensation for injuries caused by an alleged defect at 40 Elm street.

John A. Finn, to be reimbursed for expenses incurred during repavement of Lindsey street.

Philip Green, for compensation for injuries caused by fire truck.

Alexander F. Halasz, for compensation for damage to car caused by an alleged defect in Brookline avenue.

Mrs. Albert Haley, for compensation for injuries caused by an alleged defect in Oak square.

Kathryn Healey, for compensation for injuries caused by an alleged defect at 1868 Commonwealth avenue.

Ronald Hollett, for compensation for damage to car by city truck.

Charles I. MacEachern, for compensation for injuries caused by an alleged defect in Neponset avenue.

Annie McGrimley, for compensation for injuries caused by an alleged defect in Washington street, Roslindale.

James G. McMahon, for compensation for damage to car caused by an alleged defect at 541 Columbia road.

Charles E. Morgan, for compensation for damage to car by fire apparatus.

Annie M. O'Brien, for compensation for injuries caused by an alleged defect at Washington and Court streets.

Peter Osisko, for compensation for damage to property at 17 Linden street, caused by falling tree.

Arthur Pauletti, for compensation for damage to car caused by an alleged defect in Bremen street.

Edward F. Powers, to be reimbursed as result of accident which occurred while in performance of duty as employee of Fire Department.

Herbert Price, for compensation for damage to property at 55 King street, caused by broken water main.

Nicholas J. Schaaf, to be reimbursed as result of accident which occurred while in performance of duty as employee of Sewer Division.

Benjamin Seidman, for compensation for injuries caused by fire truck.

Seidman Bros., Inc., for compensation for damage to car by fire truck.

Mrs. F. S. VanDyke, for compensation for injuries caused by an alleged defect in Gardner street.

Committee on County Accounts.

Petition of John Londrigan, employee of the Penal Institutions Department, to be retired.

Executive.

Petition of Elizabeth R. Bailey, to be paid annuity on account of death of husband, Frank A. Bailey, late member of Fire Department.

Committee on Licenses.

Petition of Vincent and Maria F. DiNunno for driveway opening at 1135 Saratoga street.

PERMITS FOR CHILDREN.

Petitions for children under fifteen years of age to appear at places of public amusement were received as follows:

Althea Shults, New England Mutual Hall, June 7.

Leopold DeCordova, Recital Hall, June 13.

John B. Monticone, New England Mutual Hall, June 19.

Ann V. Zona, New England Mutual Hall, June 10.

D. Tierney, Jordan Hall, June 3.

Martha Avery Dancing School, Jordan Hall, June 10.

Permits granted under usual conditions.

APPOINTMENTS BY THE MAYOR.

Notices were received from the Mayor of the following appointments, viz.:

Peter J. Allen, 11 Josephine street, Dorchester, to serve as Chairman of Assessing Board at salary of \$7,500 plus \$200 E. C. A., effective June 3.

William B. Carolan, 216 Tremont street, member of Board of Commissioners of Sinking Funds, for period ending April 30, 1949.

Daniel J. Donovan, 137 St. Andrew road, East Boston, member of City Planning Board for term ending April 30, 1951, vice Ernest A. Johnson, term expired.

Eliot N. Jones, 42 Mt. Vernon street, member of Board of Zoning Adjustment for term ending April 30, 1951.

Mary M. Fitzgerald, 59 Halifax street, Jamaica Plain, member of City Planning Board, for term ending April 30, 1951.

John A. Sullivan, 14 Johnson street, West Roxbury, Budget Commissioner, for period ending April 30, 1950, said appointment to take effect June 1, 1946.

Severally placed on file.

APPOINTMENT OF DEPUTY SUPERINTENDENTS.

Notice was received from the Department of School Buildings, James H. Mooney, Superintendent of Construction, of following appointments as deputy superintendents:

Edward M. O'Flaherty, at annual salary of \$5,000 plus \$200 E. C. A., effective May 29, 1946.

Peter M. Curley, at annual salary of \$5,000 plus \$200 E. C. A., effective May 29, 1946.

Joseph L. Hern, at annual salary of \$4,000 plus \$200 E. C. A., effective May 29, 1946.

Severally placed on file.

ELECTION OF PRESIDENT OF LIBRARY TRUSTEES.

Notice was received from the trustees of the Public Library of election of Abraham E. Pinaski as president.

Placed on file.

APPROVAL OF CONSTABLES' BONDS.

The following constables' bonds, having been duly approved by the City Treasurer, were received and approved by the Council, viz.:

Hector Palladino, George W. Brooker, William J. Baker.

REPORT OF COMMITTEE ON PARKMAN FUND.

Coun. COFFEY, for the Committee on Parkman Fund, submitted the following:

Report on order (referred May 6) that Park Commission construct a municipal building on Billings Field, Ward 20, the funds to be made available from the Parkman Fund—that same ought to pass.

The report was accepted, and the order was passed.

INVESTIGATION OF LICENSE GRANTED EASTERN MASSACHUSETTS STREET RAILWAY COMPANY.

Coun. COFFEY offered the following:

Ordered, That the President of the Boston City Council immediately designate a committee consisting of three members of the Council, other than members of the Licensing Committee, to investigate the passing of a report and the granting of a license by the Committee on Licenses to the Eastern Massachusetts Street Railway Company to operate motor vehicles from Sullivan square to the Somerville line.

Coun. COFFEY—Mr. President, the order I intended to introduce today was to ask for investigation by the Finance Commission. Two weeks ago today an order was passed here on a permit granting the Eastern Massachusetts Street Railway the right to run buses from Sullivan square up to the Stoneham line. I know nothing about it. I got very little information since I came back. Naturally I have introduced this order asking you to appoint three members other than members of the Licensing Committee to hold some kind of hearing to get some kind of information, especially to satisfy me. I do not know if the other members are satisfied or not as to what took place. I know for the four years I was chairman of that committee I have always opposed buses. I have always opposed new bus lines coming into the city. I never went on record once as favoring any bus line. I held my hearings and gave everybody an opportunity to be heard. We brought back a negative report as far as any new bus lines were concerned or even new streets. I cannot understand why an order such as this comes in with no opposition. There is nothing in the minutes of the meeting to show that anybody asked for information on this line which is coming in, and yet the permit to run buses from Sullivan square to the Stoneham line was granted. The only information I got was from some one of the members of the committee who told me a representative of the board

of selectmen of Stoneham was here begging for the passage of this order. I would like to remind them, as the members of the Legislature know, any time we wanted any legislation for Boston we did not get any help from Stoneham, especially on a uniform rate for automobile insurance. We were always sure to get opposition from the small towns and cities outside metropolitan Boston. I have asked for this. If I do not get any satisfaction within a week, I intend to ask for an investigation by the Finance Commission. I have called the Mayor's office today. I found out this thing has been signed. The reason it was signed is this—his Honor the Mayor himself said, "I have not heard any opposition to it. I suppose it is all right to sign it." If I had been here, you could rest assured there would have been opposition. The chairman of the committee was not in favor of this, I am told. He brought it in because other members of the committee told him they were in favor of it. I hope a committee of three non-members of the Licensing Committee, of which I am a member, will be appointed and that a hearing will be held some day this week so we can get some satisfactory information which would assure us that the permit was granted in good faith. Up to now, I do not believe it was.

President KELLY—Have you any objection if I refer the matter to the executive session? (No objection.)

The order was referred to the Executive Committee.

Coun. COOK in the chair.

FOOD SITUATION IN BOSTON.

Coun. KEENAN and HANNON offered the following:

Ordered, That his Honor the Mayor be requested to appoint a committee of five citizens to investigate the critical food situation in the City of Boston.

Coun. KEENAN—Mr. President, over the week end the papers showed that his Honor the Mayor was vitally interested in the food situation in the City of Boston. In East Boston they say there were riots when men, women and children were unable to receive the necessities of life. I understand that the Governor of the Commonwealth is appointing a committee to investigate conditions. I think it would be advisable for his Honor the Mayor to investigate conditions, appointing five members of the City Council of Boston.

Coun. COFFEY—Mr. President, I would like to go along with the councilor. There was a shortage of bread in the last few days. I suppose there is no sense in going into any lengthy debate upon it. There were bread lines in East Boston the same as throughout the entire state of Massachusetts. I have seen some of the pictures in the past few weeks in the *Pathé News* about hundreds of thousands of people starving in Europe. Of course, my sympathy goes out to them the same as that of every other citizen of the United States. There is one thing I would like to remind the members of Congress of. We, in this country, are on the winning side. If we cannot give enough so that every household can get one loaf of bread a day, then I think we are going to extremes in taking from the citizens of the United States the things to which they are entitled. I think you, Mr. President, will agree when we were kids there was many a day when a piece of bread and a cup of tea or coffee was a meal for us. I think bread is more important than anything else. They can take butter and sugar and other necessities, and ship them across. But I think they are going to extremes in taking bread away from our children. I hope the order is passed and some action is taken in the near future.

Coun. RUSSO—I wish to commend Councilor Keenan for presenting this order. I am of the same opinion as the two previous speakers. Sometimes I wonder what is happening to our country. We boast of our great nation where we are supposed to have all the essentials of life. Still we have bread lines in our country. I cannot help but bring to your attention, Mr. President, and to the members of the Council that we in this country produced last year approximately 1,200,000,000 bushels of wheat. As I understand it, only 194,000,000 bushels were sent to the starving people throughout the world. We have huge billboards around the City of Boston informing the public that some of the American companies cannot produce such things as ale and beer on account of the grain shortage. On the other hand, you have huge billboards around here with Canadian companies soliciting the American people in order to have them buy Black Horse ale. What is happening to our country? Canada is one of the greatest grain producers, the third largest grain producer in the world. Here in America we have bread lines. Russia produces three times as much grain as we do here in the United States. Yet they refuse up to this time to cooperate with the United States in order to see the starving people throughout the world get some wheat. What is the matter with Congress? What is happening? These are the essentials of life. I believe Congress may give England \$3,750,000,000 to get her in direct competition with United States business. I cannot see how

it is that the Canadian government can advertise here asking us to buy their products when we cannot receive our own products of American companies. There is something wrong somewhere. The people are not aware of the facts. Mr. President, I do hope that a committee is formed to investigate and check where the fault lies. It was not so bad during the war. Here we are a year after the war has ended, and we have to be confronted with bread lines in this great nation of ours which has had everything that any person can demand. Still we are being deprived of these essentials of life. Mr. President, I am heartily in accord. I hope that the order will pass and some action will be taken immediately.

The order was passed under suspension of the rule.

ROPING OFF STREETS, JUNE 17.

Coun. KINSELLA offered the following:

Ordered, That the City Messenger be authorized to provide for the roping off of the streets in Charlestown for the parade on Monday, June 17, 1946, and that the expense of same be charged to the City Council appropriation for Ropes, Flags and Stakes.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON COUNTY ACCOUNTS.

Coun. BRYAN, for the Committee on County Accounts, submitted the following:

Report on petition of John Londrigan, employee of the Penal Institutions Department (referred today), to be retired—recommending passage of accompanying order, viz.:

Whereas, John Londrigan, employed in the service of the County of Suffolk as deckhand in the Penal Institutions Department, has made application to be retired under the provisions of chapter 678 of the Acts of 1945; and

Whereas, The said John Londrigan has submitted to the City Council satisfactory evidence that he is a veteran as defined in section 56 of chapter 32 of the General Laws; that he has been certified for retirement for disability by the duly authorized medical panel; that he has been in the service of the county at least ten years and has reached the age of fifty; that he is incapacitated for active service; and that his total income from all sources, exclusive of his retirement allowance and of any sum received from the government of the United States as a pension for war service, does not exceed five hundred dollars;

Ordered, That under the provisions of section 56 of chapter 32 of the General Laws, as amended by chapter 514 of the Acts of 1943, John Londrigan, employed in the County of Suffolk as deckhand in the Penal Institutions Department, be and hereby is, retired by the Mayor and City Council, acting as county commissioners, at an annual pension of eight hundred sixty dollars and seventy-five cents, being one half of his highest regular rate of compensation.

Report accepted; said order passed.

LEGISLATION RE CERTAIN RETIREMENT ALLOWANCES.

Coun. BRYAN offered the following:

Resolved, That the Boston City Council favors the enactment of legislation providing for retirement allowances for policemen and firemen retired for accidental disability under the Boston Retirement Act, so called, provided such legislation includes a referendum to the Mayor and City Council.

Passed under suspension of the rule.

RECESS.

On motion of Coun. KINSELLA, the Council voted to take a recess at 2.40 p. m., subject to the call of the Chair. The members reassembled and were called to order by Chairman COOK at 3.40 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. SULLIVAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor (referred today) with order accepting chapter 658 of Acts of 1945—that same ought to pass.

The report was accepted, and the order was passed.

2. Report on petition of Marie Cullinane (referred March 4) to be paid annuity on account of death of her husband, Joseph P. Cullinane, late member of the Police Department—recommending passage of accompanying order:

Ordered, That under the provisions of section 89 of chapter 32 of the General Laws an annuity of fifteen hundred and twenty dollars be allowed and paid to Marie Cullinane, widow of Joseph P. Cullinane, a member of the Police Department who died on February 4, 1946, on account of injuries received in the performance of his duty; said annuity being made up of allowances as follows:

For the widow, Marie Cullinane, so long as she remains unmarried—\$1,000 per annum;

For each of the following-named children during such time as he or she is under the age of eighteen or over said age and physically or mentally incapacitated from earning—\$260 per annum:

Ruth Marie Cullinane, born May 31, 1929; Doris Elizabeth Cullinane, born March 23, 1934; provided, however, that if the widow remarries the annuity for each of said children shall be \$520 during the remainder of the time aforesaid, the payments to date from February 4, 1946, and to be charged to the appropriation for Police Department, Pensions and Annuities.

3. Report on petition of Eleanor M. Mullen (referred April 29) to be paid annuity on account of death of her husband, Francis I. Mullen, late member of Police Department—recommending passage of accompanying order:

Ordered, That under the provisions of section 89 of chapter 32 of the General Laws an annuity of fifteen hundred and twenty dollars be allowed and paid to Eleanor M. Mullen, widow of Francis I. Mullen, a member of the Police Department who died on December 22, 1945, on account of injuries received in the performance of his duty; said annuity being made up of allowances as follows:

For the widow, Eleanor M. Mullen, so long as she remains unmarried—\$1,000 per annum;

For each of the following-named children during such time as he or she is under the age of eighteen or over said age and physically or mentally incapacitated from earning—\$260 per annum:

Eleanor T. Mullen, born April 25, 1931; Louise A. Mullen, born January 11, 1934;

provided, however, that if the widow remarries the annuity for each of said children shall be \$520 during the remainder of the time aforesaid, the payments to date from December 22, 1945, and to be charged to the appropriation for Police Department, Pensions and Annuities.

The report was accepted, and the orders were severally passed.

ANNUITY TO HOLDER OF CONGRESSIONAL MEDAL OF HONOR.

Coun. HANNON and SCANNELL offered the following:

Ordered, That his Honor the Mayor be requested to consider the advisability of introducing legislation into Congress which will insure an annuity of \$5,000 annually to the holder of the Congressional Medal of Honor.

Coun. HANNON—Mr. President, in the course of the next two weeks the city is going to pay due tribute and homage to its outstanding heroes of this war and the winner of the Congressional Medal of Honor. It is altogether fitting and proper we should do this. Anything we do for that gentleman is picaresque compared with what he has done for us. It seems to me a peculiar situation that the city should be called upon to do anything for a gentleman who has done as much as he has done for our government. Here is a man who has received the highest honor that this government can give. Yet, what does the honor amount to? This man is not assured of his livelihood. He is not assured of proper income. I think legislation should be passed in the Federal Congress which would insure a man receiving this honor a sufficient income, at least \$5,000 for life, so that he might live in the condition which he has fought so hard to preserve and to make enduring. I think the least the government can do is give these holders of Congressional Medals a proper and sufficient annuity. Give them \$5,000 a year. No matter what we give them, we are not paying back what they have given to us. It seems to me a reflection not merely on the local and state governments but on the Federal Government if a man who has so conducted himself in military warfare, that he has earned the highest award of this government should be given nothing else. I think altogether too often the government is inclined to place a medal upon the breast of a hero and then forget him. I think something more should go with that. I really believe with every medal the government gives there should be a stipend or annuity. Certainly, with the highest award that this government can give we should likewise give some assurance that the recipient of that award can live in peace and comfort the rest of his life.

Coun. KINSELLA—Mr. President, will the Chair ask the clerk to read the order again?

(The clerk read the order.)

Coun. KINSELLA—Some while back, probably two years ago, I had occasion to speak on the manner in which the government honors its war heroes. It said substantially the same as Councilor Hannon just said. I recall a conversation I had with a Congressional Medal of Honor holder, George Hall of Stoneham, who died lately, on the occasion of inviting him to speak for a fee at one of our fraternal organization's meetings in Charlestown. At that time he had been employed a short while in the Veterans' Administration. He accounted himself extremely lucky. During the course of our conversation on the day we engaged his services, I said to him, "George, you are a hero now. What does it bring you?" He said, "\$2 a month." I said, "For life or just for the time you were in the service?" I forget now what his answer was. I do not know whether he lost the \$2 when discharged from the service, or whether

it goes on for life. His life was not very far from ending at that time. I think it is the shabbiest kind of treatment possible. They will single out 40 or 50 men out of an Army and Navy of 13,500,000 men and women and find there are only forty or so who merit the highest possible award within the gift of Congress. They strike off what they call a Congressional Medal of Honor and award it to the men and women of the service for service above and beyond the call of duty with the puny consideration of \$2 a month. It is rather a little ironic when a man can lose an arm or leg or without suffering any physical injury whatsoever acquit himself in such fashion that untold thousands of his comrades might be saved as a result of his action. Yet a grateful democracy can be guilty of base ingratitude by offering him either \$2 a month or what would be more to their credit, nothing at all. They should not stultify the award by any consideration of money. I am heartily in agreement with Councilor Hannon. If these men can be isolated for extraordinary deeds of valor, they can be isolated for special privilege and treatment in the economic phase of our life, especially when they have been deprived of a limb or of any vital part of their body that precludes the possibility of making a normal living upon their return to civilian life. I think \$5,000 which is roughly \$90 a week would cover the compensating of those men for the horrors they have gone through and with the attendant loss of a limb. I suggested in my remarks some while back that they have a graded scale of monetary consideration which they would set up for the holders of the various medals or stars or buttons. Naturally, nothing ever came of it. It probably did not get any further than the Mayor's office. I saw McGillivray marching today with the Ancient and Honorable Artillery. I would like to make a wager with somebody here on a friendly basis that of the couple of thousand people in that short stretch of School street there probably was not 10 per cent who knew who that young one-armed fellow was. I would like to make a further friendly wager with any one in this chamber that prior to my mentioning George Hall's name you would have some difficulty in recalling his name, had I not mentioned it. Yet he was the other holder of the medal in greater Boston. George Hall is dead. So are the hopes and aspirations of many millions of these young men, altogether too many of them. The streets are cluttered today with young veterans getting \$20 a week. It is not cigarette money. When a veteran can get only \$20 a week out of what amounts to a "charity fund"—I hope that remark is properly quoted, I said out of what amounts to a "charity fund,"—I did not say it was a charity fund—you can hardly expect much more consideration for a handicapped veteran whose handicap does not require constant hospitalization. George Hall could make a living. He had to make it by means of having one of the Congressional Medals of Honor. McGillivray has to make a living. But if it were not for holding the highest award within the gift of the country, he would be one of the 13,500,000 who are completely forgotten today. I do not know whether it is the fault of those directly in Washington or the fault of the American people as a body. One of the worst traits of the American people is their capacity for mass ingratitude. Everyone here knows—and you do not, Mr. President, since you were away four years ago—you could not open your mouth in criticism of the government's many derelictions of duty of which they were guilty toward the people in the armed services without being branded a Fascist or troublemaker or an agitator or disseminator of subversive statements. You do not find that condition today. They do not care now what you say. The war has been won. They are made secure again. Those who made them secure are the first to be forgotten. If we can pick out forty or a hundred or two hundred out of 13,500,000 men and give them an award that is supposed to mean something, we can give them a proper companion piece which is nothing more or less than personal economic security. It is a small return for what they have done. It is not so much that they hold the medal. It is the fact that the thing for which they received the medal might have been directly responsible for thousands of boys returning alive as well. I recall a story they told in the First World War of a seaman on a merchant ship that had been torpedoed. He dove overboard as the ship was going down and swam over to the German submarine. Just about that time an American destroyer appeared on the horizon and the sub made an effort to crash, this seaman wedged his body between the deck of the sub and the closing hatch, causing it to fill and sink, and take him down with it. Nobody knows the lives that man saved as a result of sending to its doom another German U-boat. Nobody knows how many boys are back here today because of Hall or McGillivray. Let us not forget them in here at least where we can offer them some sort of lip service, if nothing else. Let us further any effort to give them the security they have richly earned. I hope that the rule is suspended and Councilor Hannon's order is passed.

Coun. SCANNELL—Mr. President, I want to congratulate the councilor from Ward 13 (Coun. Hannon) in regard to this order. I have an order here I am going to present on behalf of a good friend of mine, a Congressional Medal of Honor man. He is the only one in the City of Boston. Some of the good citizens of Boston are seeking to buy him a home and give him something that may

make him comfortable for the rest of his days. As the gentleman from Charlestown (Coun. Kinsella) and the gentleman from Dorchester (Coun. Hannon) have well said, there is nothing too much that we can do for a Congressional Medal of Honor man, a man who has made the sacrifice that he has made, that other men in his outfit may have been saved. It seems to me about a couple of years ago Mr. McGillivray's brother-in-law came to me and asked me what the government or the state was going to do for a Congressional Medal of Honor man. At that time I did not know. To my amazement I found out what could be done for a Congressional Medal of Honor man. I was told there was nothing that could be done for him. He might take an examination. He might be able to pass. He would get just what a veteran or a disabled veteran might get. It is the only thing the state and the country offers him, veterans' preference on civil service. It is a sad state of affairs when a man who has been so gallant for the people of his country must come and, as you might say, ask the citizens of Boston and Massachusetts for help. This man fought hard and lost his arm in the protection of his men and the people of the country. I have been trying to get a woman in South Boston into a housing project for the past eight months. She has two children. Her husband was killed in action. Imagine trying to get a home for this widow with two children and being unable to do it. The same goes for McGillivray who had the same trouble in getting into a Federal housing project here about 18 months ago. It is about time the Congress of the United States should do something about this. It is about time the City of Boston woke up and found out that we have a Congressional Medal of Honor man here and do something for him. We are under obligation to these men. We owe anything that we might be able to give them. I am going to present an order at this time asking the Mayor in some way, and the City Council, to provide some funds so that we may make a Congressional Medal of Honor man, Charles McGillivray, realize the people of the city, state and nation appreciate what he has done for them.

Chairman COOK—The Chair will ask the councilor to hold his order until the first order is disposed of.

Coun. RUSSO—Speaking on the motion, Mr. President, I wish to concur in the expression of opinion that has just been made. Certainly there is nothing too good we can do as a great nation for any one of these Congressional Medal heroes of the war. It is very surprising how Congress at the present time has not taken any action in so far as making secure the individual who has won this high honor is concerned. Certainly he must have done something meritorious in order to have been given the Congressional Medal of Honor. We can see every week that passes by individuals who went out in order to make our way of life secure come back and find themselves in the 9-20 Club. The government is giving out at the present time, I believe, close to \$1,600,000 in unemployment compensation to veterans. They have been in all parts of the world in order to make democracy safe. It is really disheartening, Mr. President, to see so many of these young men who have come back and have no future ahead of them. They are merely looking forward to the 9-20 Club. When that is over, they do not know what is going to happen. I want to congratulate Councilor Hannon in presenting this order. I feel his Honor the Mayor as present Congressman of the Eleventh Congressional District should present an order and enact legislation in the nation whereby the Federal Government should give some stipend to these individuals in order to make sure that at least the rest of their lives they will be secure. Again, I reiterate there is nothing too good for them. I hope that the order will pass and that some immediate action will be taken.

The order was passed under suspension of the rule.

RECORDS ISSUED BY REGISTRAR OF BIRTHS, DEATHS AND MARRIAGES.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor be requested to direct the Registrar of Births, Deaths and Marriages to use banknote paper and a distinctive type of ink for all records issued by that office, in order that these records cannot be duplicated or changed.

Coun. HANNON—Mr. President, a few weeks ago in the Roxbury District Court a youngster was arrested on a minor charge. He was discovered to be under the influence of liquor. Upon investigation this boy was only eighteen years of age. He said he had altered his birth certificate. He got his birth certificate which showed his age to be eighteen. He got some ink eradiator and changed the date on it. He went in and purchased liquor. When the clerk in good faith said he doubted his age, the boy presented the birth certificate. Of course, to the boy it was only a lark. He was having a great time being a big shot and getting a few drinks. But that prank of his means much to the proprietor of the liquor store. We have already had an instance out there of a boy who altered his draft registration and in that way purchased liquor. The license of the store was suspended for a week. In the case I first quoted the defendant was found not guilty of selling liquor to a minor. Had there been another judge on that case, a

judge who had not looked beyond the surface of the facts, that man might be found guilty and undoubtedly his license would have been suspended. I think a birth certificate is a public record and is something that should be semi-sacred. It is something that cannot be easily pointed out. On inquiry I found out when you pay for your birth certificate it is given to you on banknote paper, paper on which erasures cannot be made, paper from which you cannot remove the ink or the figures. If you are given a free birth certificate, an ordinary card, when you go to work or apply for relief, that is merely written in ordinary ink on an ordinary card. It can be removed by ink remover. It can be written on by someone who wants to deface it and use it for an evil purpose. I think, for the sake of preserving these kids who get the foolish idea they might want a drink or be big shots and show people they can buy liquor, I think in order to keep them from defacing these birth certificates, in order to keep them from altering birth records, some ways and means should be found so that these records cannot be altered, or at least so that the alteration will be difficult to make, so that it might easily be discernible by an honest clerk looking at it. A clerk who does not want to serve liquor to a minor sometimes is placed in an embarrassing position. He must find fault with the birth record or endanger and jeopardize not only his job but even his entire means of livelihood. Many times these places are closed not for a week or two, but permanently. This fellow had been buying liquor over a year. He said they knew him. He had brought in the birth certificate once, and after that they knew him. This fellow boasted how much he could buy and consume. I think we should make it difficult for his type not merely to jeopardize his own life and limb but to jeopardize the means of livelihood of responsible citizens who might be operating a legitimate business.

The order was passed under suspension of the rule.

REPORT OF COMMITTEE ON APPROPRIATIONS.

Coun. McCORMACK, for the Committee on Appropriations, submitted the following:

Report on message of the Mayor and order (referred May 27) submitting supplementary budget of \$940,189.59—that same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. BAYLEY—Mr. Chairman, as a member of the committee I dissented and do dissent from approval of this appropriation. I first move you, sir, that \$25,000 be cut out of the provision under the Public Works Department, Sanitary Service. Mr. Chairman, we were informed by the Public Works Commissioner that the reason why he asked \$87,500 was owing to the fact that a new contract had to be made for the final nine months of this year with a contractor who is in charge of the Brighton district. He informed us that the cost, instead of being \$10,000 per month, must now become \$17,000 per month. The contract was originally only for three months. The new contract calls for \$17,000, or an increase of \$7,000 over the original advice of \$10,000. That amounts to an increase of \$63,000. Mr. Chairman, it is due to the fact that the contractor can no longer use the dump which he had formerly used near Brighton. Instead, he must take his refuse and garbage over to the Coleman dump in South Boston, one of the places farthest from Brighton. This question of dumping and where to put the refuse is becoming increasingly difficult in the City of Boston, as was pointed out in the Finance Commission's report sent to us last week. There are at present only two land dumps in the City of Boston. One, I believe, is in Dorchester, and the other is in South Boston. In addition, there is a dump at Spectable Island which the city uses. Now, Mr. President, this city is getting, as the Finance Commission well said in its report to us, in a vicious situation in respect to this particular service. The next step is to erect a number of incinerators and once and for all get the city out of the grip of a few political contractors. This question of having only two dumps comes to a crisis when we have to pay an increase of \$87,000 this year. Let me read the figures on the cost of refuse collection in Brighton. In 1941 the sum was only \$35,930. By 1944 it had gone to \$84,000. This year it was estimated at \$120,000. The percentage of increase is 233.9. In addition to that tremendous increase from \$35,000 to \$120,000, we are now asked to appropriate a further figure of \$87,500. It will bring the whole total to a little over \$200,000, or almost six times what it was in 1941, just five years ago. Mr. President, that is a tremendous increase for the cost of refuse collection. It has increased nearly six times in five years. You can see what will happen if that keeps on for the next five or ten years. The reason I mention taking off the sum of \$25,000 is that it is in addition to the \$63,000 which is necessary for the cost of taking, as the contractor and the Public Works Commissioner say, taking refuse from Brighton to South Boston instead of the old dump near Brighton. There is also a charge made of \$24,500 for the privilege of putting it on a dump. It was mentioned in the hearings before the Appropriations Committee that the main reason

it had to be paid was that it cost about \$25,000 to rake it after it is put on the dump. I quote from the Boston Herald of May 30:

"Disclosure that \$3,500 a month for seven months, a total of \$24,500, is included in the supplemental budget to pay a dump owner for raking and smoothing rubbish after it had been deposited on the dump from the Brighton area was made yesterday at a City Council Appropriations Committee hearing."

The Globe brings out the fact the money is to be used for the privilege of dumping and not for the transportation, but for the dumping so the contractor can have a right to rake it. That is an unnecessary expense. A new dump should be found. I would like to go as far as cutting out the entire appropriation of \$87,500. I do feel if we allow a total of \$63,000 that is plenty. The \$25,000 given to a contractor for the privilege of raking it on his dump is an excess. Mr. Chairman, I move \$25,000 be cut from the Sanitary Service of the Public Works Department supplementary budget appropriation submitted to us.

Chairman COOK—You move that \$25,000 be struck from the budget in the Sanitary Service Department.

Coun. CHASE—Mr. Chairman, speaking on the motion, I think what the gentleman from Ward 5 (Coun. Bayley) brought out only bears out my contention that we should at the earliest opportunity erect incinerators for the purpose of doing away with the rubbish instead of wasting the taxpayers' money. These contracts are needless. I realize, Mr. Chairman, in the event the city were to erect incinerators and save the taxpayers a million dollars annually, that the juicy business that the contractors and others are enjoying would be put to an end. Mr. Chairman, I submit to you, sir, when a responsible body like the Boston Finance Commission has advocated the erection of incinerators and has stated it would save a million dollars a year to the taxpayers, that the municipal officers should do something about following that advice. Either his Honor the Mayor should endeavor to save that \$1,000,000, or else to my way of thinking he should resign. Do to otherwise, sir, is directly not within the keeping of a good chief executive. I say, sir, there is something funny about this business in the event the city this year does not follow through with the plans drawn last year and start immediately on the erection of an incinerator. I repeat, to me it looks like collusion between the municipal authorities and the contractors when the City of Boston has to spend a million dollars excessively.

Coun. FISH—Mr. Chairman, a point of order. I wonder if the councilor would yield for a question.

Coun. CHASE—I do not care to yield. I think that his Honor the Mayor, instead of coming in with appropriation orders amounting to \$87,500 for Sanitary Service, should try to cut down on that service instead of adding to it, which he has done on all the departmental budgets. He has given us a budget this year which runs over \$5,000,000 over last year. The Sanitary Service is asking more. The contractors are getting juicier contracts. His Honor the Mayor is not doing anything, so far as I can see, to cut the taxes. I hope that he will wake up and realize there is more than one person watching his actions downstairs. Who does he think he is kidding? I trust that the Body will go along with the gentleman from Ward 5 (Coun. Bayley) and reduce this particular item by the amount of \$25,000.

Coun. HURLEY—Mr. Chairman and members of the Council, as I stated last week, there is nothing constructive going on in this Body here. I do not think there is any sense in the talk of the gentleman from Ward 5 (Coun. Bayley) about striking out money now in anticipation of building incinerators. If we appropriated the money today, the people in Brighton would have to store their garbage and refuse in their cellars until the incinerators were built, if we did not have the money to take it from their homes now and deposit it in Dorchester, Roxbury or South Boston. I had a talk with the Mayor about this thing in the past week. Of course, I agree there should be incinerators built. I know everyone is objecting to dumps in his district. Of course, the people in Brighton do not want people from West Roxbury bringing their garbage in there and, vice versa, the people from West Roxbury do not want the Brighton garbage brought over there. The only equitable way to do this is to erect incinerators. Striking out that item today will not help the people out in Brighton. They will not be living in a very safe, healthy or sanitary condition if there is no contractor there to take the garbage and refuse away and they have to store it in the cellar or in their yards until we build incinerators. I think it is foolish. I think everyone here in the Council knows that in time we will have to build incinerators in certain parts of Boston. We all agree it will bring down the cost of transportation. There probably will not be any labor saving in the contracts. The refuse will have to be rolled out and put on trucks and carried to its destination, which will probably be much nearer than it is today. But it is rather foolish to ask us now in June to strike out an item of the budget that is to take care of something within the next six months. I think you, Mr. Chairman, and the members of the Council realize that is rather a silly and foolish thing and not good business. I think the councilor from Ward 4 (Coun. Chase) has something on the ball in regard to incinerators. But do not rush the man downstairs right now, so that he has to

have plans and build incinerators next week. We had the same thing here last year, Mr. Chairman. We had ample time. If the Mayor of Boston at that time had gone through with his plans there would be no need for coming in here today and arguing about refuse in Brighton or Dorchester or Roxbury. I think incineration is the modern way of disposing of garbage and refuse. Modern cities have it. Inland cities have to have it. Of course, on the seashore of Boston, where we have places to dump it, and there is so much land they can use, it is easy. But in Boston we are coming to it, too. We will have to get modern incinerators. Why all the rush today? It is merely a knock at the man downstairs. It is his idea to modernize and make Boston an efficient city. He has proven it. If any councilor has driven by the big Public Works Department on Albany street this year, he would be proud to see the conditions up there today. There is no more piling up of trucks and equipment with loads of garbage on them dropped in there last year and left loaded because they could not repair them. The Mayor of Boston, speaking to me, said that the big transportation companies in Boston could never have a thing like that happen. They did not have loads of equipment tied up. They were getting them fixed up. He said, "I have a man there now, an efficient man who has been doing that job for the United States Army. I know we are going to do a good job and have all the equipment rolling at a minimum cost." Yes, he spoke about incinerators. He has the same view I have and the gentleman from Ward 4 (Coun. Chase) has. We will get incinerators. I think that is the one thing on his mind today—to get it completed. But of course last year, when Kerrigan was Mayor of Boston, or supposed to be, there was mismanagement, and of course the gentlemen here were with him. They were his sponsors. They were his backers, his advisers. We did not cry and holler and screech last year because Kerrigan was making a mess out of the City of Boston. We were charitable toward the man here. We knew of it. They had made a mistake and did not want to admit it. This year there is a man named Curley downstairs. Of course everything he does is wrong. Mind you, Mr. Chairman, I was not with Mr. Curley, either. I was with Arthur Reilly. I was hoping he would win the fight for Mayor of Boston.

Coun. BAYLEY—Mr. Chairman.

Chairman COOK—For what purpose does the gentleman rise?

Coun. BAYLEY—Is the gentleman speaking on the question?

Chairman COOK—Are you stating a point of order?

Coun. BAYLEY—Yes. Has he been speaking on the question in the last minute?

Chairman COOK—The Chair thinks the point of order is not well taken, but will ask the councilor to stick a little more closely to the subject at hand.

Coun. HURLEY—I am sorry, Mr. Chairman. I will stick to the question at hand. If I have strayed, I am sorry. I expected that the gentleman from Ward 5 (Coun. Bayley) would question something during the afternoon. He has asked lots of silly questions. If I were satisfied, Mr. Chairman, that the Mayor of Boston is very anxious to modernize and give us an efficient administration, I would go along with him, but it seems up here there is just a small group pot shooting. What I was trying to bring out, talking about the past administration, Mr. President, was that we appropriated \$30,000 for plans and specifications for this particular incinerator. The site was selected. It was in my district on Southampton street. They had a party which went down to Atlanta, Georgia. The Council had a short trip on their expense. They rode down to Providence, Rhode Island, and inspected an incinerator. But not one word was heard on the \$30,000 that was given to Mayor Kerrigan early in his administration. Not one report came back and not one councilor, not even the man from the Back Bay asked for a report. But Kerrigan was Mayor. Everything was all right. Then during the height of the campaign we had all sorts of propaganda and publicity telling the people of Boston how fortunate they were in having this mental giant as Mayor because we were going to modernize the city. We were going to have an elaborate modern incinerator and all the troubles of Boston were over. But it went along. The contest rolled along. Then we had another order come in. They wanted only \$2,500 this time to supplement the \$30,000. They wanted to make sure that this mammoth structure to beautify the city, this piece of architecture that was going to cure all in the sanitation and collection of garbage and refuse, they wanted to make sure that this ground would hold this monstrous structure. We thought it was a good idea, now that they had the plans and so forth, to give them \$2,500, and let them go forward. The first word I have heard in this chamber about an incinerator and about the plans for the incinerator or the report of the board was the criticism of the man from the Back Bay. I do not think it was justified, knowing his closeness morning, noon and night with Kerrigan, advising him and helping him. Mr. Chairman, do not be rushed through. I advise the members of the Boston City Council to let this stay in the budget for the people of Brighton. If it were pertaining to my district, I know that the men in Brighton would be up here helping me to get my district cleaned out.

Coun. RUSSO—Mr. Chairman, I have always been open-minded, when it came to sanitary service, and I would not deduct one penny if it meant the safety and health of the people of the City of Boston. I have only one thing in mind. A few short weeks ago we passed the original budget. The Council approved and passed it. A few weeks later we are confronted with a supplementary budget of \$940,189.50. I would like to find out, Mr. Chairman, where all these items were at the time the budget was drawn. Why wasn't it put in the budget at that time?

Coun. HURLEY—Mr. Chairman, I think I can help by answering that question if he would care to have it answered.

Coun. HANNON—Mr. Chairman, a point of order. The question before us, Mr. Chairman, is the elimination of the \$25,000 item. It is not a question of amounts in the budget. You have one specific item.

Chairman COOK—The Chair will rule that the councilor will confine the discussion to the elimination of the \$25,000, Councilor Bayley's motion.

Coun. RUSSO—Mr. President.

Coun. HURLEY—Mr. Chairman, will the gentleman yield?

Chairman COOK—Does the gentleman yield?

Coun. RUSSO—Before I yield, Mr. Chairman, I would like to find out through you if the gentleman who is willing to give me the information is a member of the Committee on Appropriations?

Coun. HURLEY—No. But I know the answer to the question which he wants.

Coun. RUSSO—I am coming to that, Mr. Chairman. First I would like some member of the Committee on Appropriations to answer the question which I am about to ask. If then there is not any answer, I would ask the councilor from Ward 8 (Coun. Hurley) for any information he may have to enlighten me.

Chairman COOK—Does the councilor yield now?

Coun. RUSSO—Not at the present time, sir.

Chairman COOK—Does the councilor yield to any member of the Committee on Appropriations?

Coun. RUSSO—I would like to find out from any member of the Committee on Appropriations how much —

Coun. KINSELLA—Mr. Chairman, a point of order.

Chairman COOK—State your point of order.

Coun. KINSELLA—In the interest of brevity, I would like to say this, I would like the Chair to rule that no member of the committee or the Council is capable of explaining to the councilor why any item does not or did not appear in the original budget. That is for the department heads and for the Mayor to answer.

Chairman COOK—I am sorry. The Chair cannot rule that way. It is argumentative. The Chair rules it is not a point of order.

Coun. FISH—Mr. Chairman.

Chairman COOK—Are you on the Committee on Appropriations?

Coun. FISH—Yes, Mr. Chairman. Will you have him ask the question again?

Chairman COOK—Do you yield to Councilor Fish, Councilor Russo?

Coun. RUSSO—Yes, Mr. Chairman, if he can give me some information. I would like to find out from the Committee on Appropriations why this appropriation was not put on the original budget.

Coun. FISH—Mr. Chairman, my understanding is the Brighton dump was available at the first of the year. Sufficient money apparently was appropriated for it. The Brighton dump has since become unavailable. There was a necessary expense of hauling the refuse across the entire City Proper over to South Boston.

Coun. RUSSO—If I may ask through you, when did the dumping facility become unavailable for the Brighton section? When was the termination of the lease?

Coun. FISH—Mr. Chairman, I am not a lawyer. I am not quite as inquisitive as the councilor from Ward 3 (Coun. Russo). I was very well satisfied with the explanation given by the Public Works Commissioner. He satisfied me, and I think he satisfied the committee that the money was necessary to haul this garbage and refuse.

Coun. RUSSO—Mr. Chairman, of course I respect my colleague's opinion. I want him or anyone else here strictly to understand in so far as my questions are concerned, I am not directing them to any one individual or because I have some axe to grind. I am trying to find out only if he is satisfied with the information given. I was wondering only if the committee asked that question or asked for that information.

Coun. FISH—Briefly, the answer is — perfectly.

Coun. BAYLEY—Councilor Fish speaks for himself, but not for all the members of the committee.

Chairman COOK—The councilor is out of order.

Coun. FISH—I never proposed to speak for them.

Chairman COOK—The Council will be in order.

Coun. RUSSO—Mr. Chairman, as I said before, I do not want to cut out a dime if I can see my way clear, when it comes to our Sanitary Department. I believe I have done it time and time again. I am trying to get information. If anyone has it, I would be glad to listen. I am trying to find out why this \$87,500 now on a supplementary budget is before us when it is only a short time ago that we passed a budget. Why was it not included? Is it an oversight? Is it something

new? Is it something they did not foresee? I would like to find out, Mr. Chairman.

Coun. FISH—Mr. Chairman, the best answer that I can give you on that—

Chairman COOK—Just a moment. Does the councilor yield?

Coun. RUSSO—I do not yield at the present time.

Coun. FISH—You do not care for an answer. Chairman COOK—The councilor does not yield.

Coun. RUSSO—Mr. Chairman, I believe the gentleman should speak when he is recognized. Coun. KINSELLA—Mr. Chairman, I rise to offer some answer to the councilor if he will yield.

Coun. RUSSO—I would be glad to yield for any information which would enlighten me.

Coun. KINSELLA—The original question, as I understood it, was—

Chairman COOK—Just a minute. Have you yielded?

Coun. RUSSO—I yield for any information that they can give me in so far as this supplemental budget is concerned as to the Sanitary Division.

Coun. KINSELLA—Mr. Chairman, for Councilor Russo's information I would remind him that this budget was made up by former Mayor Kerrigan. Contrary to the practice and habit over the years, Mayor Kerrigan refused to consult with the winner of the November election in the matter of budget items, which is the custom. So that the budget we passed in April was not Mayor Curley's budget. It was John E. Kerrigan's budget. Any derelictions in the budget are unquestionably being made up now. I think the Council will accept that. It was not Mayor Curley's budget any more than the budget last year was Mayor Kerrigan's. It was Maurice Tobin's last budget. This year it is Mayor Kerrigan's budget, being carried out by Mayor Curley. Now Councilor Russo knows that.

Coun. RUSSO—Mr. Chairman, of course I am sorry to say I have not had the information I would like to have in so far as that is concerned. Mr. Chairman, I agree it is the budget formulated by the previous Mayor. However, I believe that the present Mayor at the present time is the one who sent this budget in to us for approval. Therefore, he must have gone over it. It must have had his approval. I do not see any reason why any one should pass the buck to anyone else. I am only trying to find out, trying to make up my mind whether or not the supplementary budget appropriation on the Sanitary Division was something which was not foreseen when the budget was sent to us. I would like to make up my mind whether I should vote for the deduction of \$25,000 on the \$87,000 or let it stay in. I haven't the information, Mr. Chairman. It is very fine for any councilor to say he has sufficient information and is satisfied. In so far as his opinion is concerned, I agree he has the right to feel that way. Neither do I think I ought to be criticized by anyone for not agreeing with the gentleman but trying to get information to which I am entitled. There are other items here on the budget, Mr. President, which I would like to discuss as we go along. I would like to be placed in a position to know when the contracts did terminate, if anyone can enlighten me. I do not know for how long the budget was drawn. I understand there is about \$120,000 on this particular item on the regular budget. I would like to give the people of Brighton and the entire city everything they are entitled to. Am I going to be accused of trying to grind an axe with some one just because I am trying to get information to which I am entitled? Mr. Chairman, I would like to find out from any member of the committee if they can enlighten me as to why they are asking \$87,500 on a supplemental budget for the Sanitary Division in the Brighton section. What has brought it about?

Coun. FISH—Mr. Chairman, maybe he would like an answer from the Public Works Commissioner.

Chairman COOK—Does the councilor yield? Coun. RUSSO—I yield for any information that would enlighten me.

Coun. FISH—Reading from Appropriation Committee report as follows:

Chairman FISH—Will you explain the \$87,500?

"Mr. CURLEY—Take the item of \$63,000. We let a contract for three months for the disposal of refuse in the Brighton district. It cost \$10,000 per month for three months. In our budget we estimate \$10,000 each month for twelve months. At the first of April the contractor lost his dump. That meant we had to go into new negotiations to remove garbage. We put him on a day labor basis for a month to find out the actual cost of taking garbage from the Brighton district. He had to go way over to South Boston on the Mile Road dump. After negotiations we arrived at a total of \$17,000 per month. That is nine months. I am asking nine times seven, which is \$63,000 for that item in excess of the \$10,000."

If you care to have me continue, I can read further. Incidentally, may I inject here that the contractor never had the privilege of dumping in Boston? It was in Watertown. The Watertown officials closed the dump on him.

Coun. RUSSO—I would like to find out if on the original contract the same contractor that had the dump at that time when the contract was written and given out, if it included the dumping of garbage and refuse.

Coun. FISH—I assume the contract made with the Public Works Department was a complete contract.

Coun. RUSSO—Assuming it is so, and I do not know who the contractor is, and I do not care, isn't it fair that the contractor ought to live up to his contract? Why should the city be made to suffer?

Coun. FISH—In answer to that, Mr. Chairman, it is an obligation on the city to provide the dumping for the contractors.

Coun. RUSSO—Mr. Chairman, realizing that naturally there is an obligation on the part of the city to see that refuse and garbage is picked up by the city, I am trying to arrive at whether or not there is an obligation on the part of the contractor who has the contract with the city to provide the dump.

Coun. FISH—That is the final question. You know a contract is a contract. Two parties are involved. Each party has to live up to its agreement. Otherwise, the contract is broken. It is not the responsibility of the contractor when he loses a dump. It is specifically in the contract that if he loses his dump the contract is broken. He goes into a new contract, or it is stated in his present contract the city must provide it. I think that explains enough for anyone in the room to understand.

Coun. RUSSO—Mr. President, it might be sufficient information for anyone in the room. Perhaps it is not sufficient for me.

Coun. BAYLEY—Mr. Chairman, talking on the motion, first I would like to answer the gentleman from Ward 2 (Coun. Kinsella) by quoting from the Mayor's message, February 4, 1946, page 48 of the Council Minutes. Mayor Curley says because of the pressure of business naturally attendant upon opening a new administration it was impossible to complete a review of budget estimates submitted by the department officials for the activities of the current year. He then submitted the lump sum budget recommendations of the city and county departments. On February 25, when the real budget came in, the Mayor made statements to the press whereas the budget had increased \$12,000,000, he had been able to cut it \$7,000,000 to \$5,000,000. If the gentleman from Ward 2 (Coun. Kinsella) will read page 80, he will see where Mayor Curley takes pride in submitting the budget which he did. The present Mayor of Boston submitted the budget.

Coun. KINSELLA—Will the gentleman yield?

Coun. BAYLEY—Yes.

Coun. KINSELLA—Was this budget \$5,000,000 less?

Coun. BAYLEY—Five million more than last year. It was still \$5,000,000 over last year. If this is added, it will be \$6,000,000 more.

Coun. FISH—Mr. Chairman, will the gentleman yield for a question?

Coun. BAYLEY—No. I have some other matters I want to take up on the budget. I would like to point out there are seven councilors absent here today on this matter of spending \$940,000 of the taxpayers' money. This may add to the tax rate for 1946. It must be fully considered by all the members of the Council. Yet seven members are absent. It is a question if we want a full and fair discussion and a fair decision by all the members of the Council. The vote in the committee was 3 to 1. Only three members voted to report it favorably. Only four were on hand to vote. The three were a minority of the seven members and recommended the passage of the budget. One member of the committee, myself, did not. Three did not participate in the voting. Two members did not hear any of the evidence. Now, Mr. Chairman, rather than go on with the argument, I am going to withdraw my motion, cutting \$25,000 from the supplementary budget, in order that we may study the blue book and get the information asked for, which the councilor from Ward 3 (Coun. Russo) has every right to know. I withdraw my other motion, and I move the supplementary budget be laid on the table for one week.

Coun. SULLIVAN—I object.

President KELLY in the chair.

President KELLY—The first question is on asking unanimous consent to withdraw the motion. Is there any objection?

Coun. SULLIVAN—I object.

President KELLY—There is objection. The question now is on reducing the Sanitary Division appropriation by \$25,000. It is not a vote. Councilor Bayley doubts the vote and asks for a roll call. He has the necessary support. The clerk will call the roll.

The roll was called, and the motion to reduce the appropriation by \$25,000 was lost, yeas 2, nays 11: Yeas—Coun. Bayley, Chase—2.

Nays—Coun. Bryan, Fish, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, Moriarty, Russo, Sullivan—11.

Coun. SULLIVAN—Mr. President, I move the previous question.

President KELLY—Councilor Sullivan moves the previous question. There is no debate.

Coun. BAYLEY—Mr. President.

President KELLY—It is a vote, and so ordered. Councilor Bayley doubts the vote and asks for a roll call. He has the necessary support. The clerk will call the roll.

The roll was called, and the motion for the previous question was carried, yeas 12, nays 3:

Yeas—Coun. Bryan, Cantwell, Cook, Fish, Hurley, Keenan, Kelly, Kinsella, Lane, McCormack, Scannell, Sullivan—12.

Nays—Coun. Bayley, Chase, Russo—3.

President KELLY—The question comes on the passage of the supplementary budget. The clerk will call the roll. There is no debate.

Coun. RUSSO—Mr. President, a point of information.

President KELLY—There is no debate. A point of information is out of order.

Coun. CHASE—Mr. President, a point of order. As I understand it, the previous question was moved on the motion to cut.

President KELLY—That motion was defeated. The previous question is on the main question. There is no debate. The clerk will call the roll.

Coun. RUSSO—Mr. President, a point of order.

Coun. FISH—Mr. President.

President KELLY—The Chair recognizes Councilor Russo on a point of order.

Coun. RUSSO—Mr. President, my point of order is does the previous question cut off everything so far as the supplementary budget is concerned, so that we are not supposed to have any information whatsoever?

President KELLY—That is what the previous question does. The clerk will call the roll.

The roll was called, and the supplementary budget was passed, yeas 14, nays 3:

Yeas—Coun. Bryan, Cantwell, Cook, Fish, Hannon, Hurley, Keenan, Kelly, Kinsella, Lane, McCormack, Moriarty, Scannell, Sullivan—14.

Nays—Coun. Bayley, Chase, Russo—3.

Coun. CHASE—Mr. President, I move reconsideration. Speaking on the motion, Mr. President, I see no reason, sir, why this matter—

Coun. SCANNELL—Mr. President, a point of order. Are we to take a vote on reconsideration?

President KELLY—He can talk on reconsideration.

Coun. CHASE—Mr. President, I see no reason why this matter should be cut short. I think a matter involving almost a million dollars should be subject to free debate. It is customary, sir, in this Body where we have always enjoyed free debate. I am rather surprised that the matter was cut short and steam-rolled through. It has been asked what has become of the \$30,000 appropriated last year for plans for an incinerator. The Finance Commission states that \$24,000 was spent in the drawing of plans for an incinerator. The Finance Commission concludes, "Therefore, what was intended to be the No. 1 postwar project, a big incinerator which would conceivably save the city hundreds of thousands of dollars, thus appears to be definitely sidetracked." The report further says, "It may be significant in this situation that the contractor who has had a monopoly for 25 years for disposal of refuse from the central area at Spectacle Island is now renewing his equipment although his present contract expires on December 31, 1946. Apparently he is not anticipating that his lucrative business with the city is soon to come to an end."

Coun. KINSELLA—Mr. President, a point of information. Will the clerk read just what is being discussed?

President KELLY—Does Councilor Chase yield to a point of information?

Coun. CHASE—I do not.

Coun. KINSELLA—Mr. President, a point of order. Since reconsideration is an offshoot of the previous question and the previous question is not debatable, I would like the Chair to rule that debate on reconsideration is out of order.

President KELLY—Reconsideration is in order on the passage of an order.

Coun. CHASE—Mr. President—"It may be significant in this situation that the contractor who has had a monopoly for 25 years for disposal of refuse from the central area at Spectacle Island is now renewing his equipment, though his present contract expires on December 31, 1946. Apparently he is not anticipating that his lucrative business with the city is soon to come to an end." I repeat, sir, that all through this report there clearly is evidence that in the opinion of the Finance Commission there is collusion between the city government and the contractors, and that the city is being looted to the tune of a million dollars a year. A million dollars a year, sir, that we could save if incinerators were erected. If incinerators were erected, we could put an end to this monopoly by a few contractors having all the dumps. I feel that the City Council is in a position to force his Honor the Mayor to take action. I think one of the ways we can force him to take action is by refusing to grant him the appropriations which he requests. I trust that this Body is not going to abide by his Honor the Mayor on everything he sends up here. We are here to reduce the budget if it can reasonably be reduced. I think that \$25,000 upon a \$87,500 appropriation can reasonably be reduced. I hope that the members of this Body will reconsider the vote that was taken and vote to reduce the budget by \$25,000.

Coun. RUSSO—Mr. President.

Coun. SULLIVAN—Mr. President.

Coun. RUSSO—Mr. President, in speaking on reconsideration, never could I have realized that in the great City of Boston, where we boast of freedom of speech and freedom of religious worship being first adopted, would we come to a point where we cannot receive the information we want.

We cannot talk on issues which are vital to the people of our city. I as a representative of one section of the city should be given the right to have the information that I seek. Never could I realize that hundreds of our boys who have fought all over the world in order to preserve our democratic way of life, in order that we may be able to express our opinion, will come back to find ourselves shut off from debate or from getting right information. Mr. President, we as a nation are trying to instill in the minds of all people throughout the world the principle that there is only one way of living, and that is having freedom of speech and freedom of religious worship. If this is an example, Mr. President, than I say we are not going on the right track. I say other people will fight them to the end. I have never been a party to the cutting off of debate without any reason when someone is inquiring about information they are entitled to. I am not here to say I am going to cut the budget. I am not here to say there are some items which should not be in the budget. But I am strongly urging the Council to go along with me in order to give me the opportunity to get the information I am entitled to. There are other items here of \$300,000 in the Fire Department for building and alterations. Certainly, as one interested in the City of Boston and in the welfare of our citizens, I want to see that we have the best fire protection any city can have. Am I entitled to know the information on what they intend to do? Where is this going to take place? There is another item of \$149,000 for construction of buildings. I would like to find out where they are going to be constructed. Am I entitled to that information, Mr. President? Have in mind, Mr. President, that for six and one half years I have been a member of the Body. I have been trying to relocate a fire house on Salem street which has been a hazard to all the citizens of the City of Boston in that vicinity in case of any fire. Am I entitled to know this information? We live in a country that is fostering freedom of speech and freedom of religious worship. I say, if this is an example of what we are doing, we certainly are not showing the example that the city should show throughout the country. I would like to go along on this budget. I would like to reduce it if necessary reductions could be made. At least let us find out and have the right information. There has not been any councilor who can give me the information I have been asking. It is all right if they have their opinions and are satisfied. I have no quarrel with them so far as that is concerned. Why deprive me or any councilor of getting information to which we are entitled? Are we going to vote blindly? I do not think it is fair to shut off debate without getting some information. Speaking for myself, I need information to put me in a position where I will be able to vote intelligently on the question before us. I do hope, sir, that the Body will go along and, if they have any information, give me the information which I am trying to find out, and not cut me off in debate.

Coun. SULLIVAN—I move, Mr. President, that the motion to reconsider be laid on the table.

Coun. BAYLEY—Mr. President.

President KELLY—There is no debate.

Coun. BAYLEY—A point of order, Mr. President. Did you recognize Councilor Sullivan to speak? He did not rise to his feet and ask for your attention.

President KELLY—Let me say in defense of the Chair that Councilor Sullivan and Councilor Russo arose at the same time to speak. I recognized Councilor Russo. Now I am recognizing Councilor Sullivan. I could not recognize the two men at the same time.

Coun. SULLIVAN—That is correct.

Coun. BAYLEY—He did not rise this time.

President KELLY—He rose before.

Coun. BAYLEY—Suppose I rose three hours ago? Would you recognize me?

President KELLY—The Chair will rule I recognized Councilor Sullivan after the two councilors had arisen at the same time. The question is to lay the matter on the table.

Coun. RUSSO—Mr. President, a point of information.

President KELLY—There is no point of information. The question is on laying the matter on the table.

Coun. RUSSO—Mr. President, a point of order. My point of order is that, if this is laid on the table, isn't that the same thing as the previous question?

President KELLY—This motion is to lay the motion to reconsider on the table. There is no debate.

Coun. RUSSO—What happens to the previous motion?

President KELLY—It lies on the table and dies. It dies after this meeting. The question is on the motion to lay the motion to reconsider on the table.

Coun. FISH—Mr. President, a point of information. If we vote to lay this motion for reconsideration on the table, I understand that dies tonight, if we vote to lay it on the table?

President KELLY—The motion to reconsider does not go over to another week. It dies on the table and does not go over.

Coun. FISH—I does not go over? The final outcome of this \$940,000 on today's meeting then is that it is passed?

President KELLY—The Chair will read Rule 20. "A motion to reconsider may be laid on the table or postponed indefinitely, and the effect of such action in either case shall be to defeat the motion to reconsider."

Coun. FISH—May I ask an answer to that final question to be sure the councilors know? We vote to pass this \$940,000 if we vote to lay reconsideration on the table? The \$940,000 is passed?

President KELLY—That is right, councilor. The question is on laying on the table the motion to reconsider. It is a vote. Councilor Chase doubts the vote and asks for a roll call. He has the necessary support. The clerk will call the roll.

The roll was called, and the motion to lay on the table was carried, yeas 12, nays 3:

Yeas—Coun. Bryan, Cantwell, Cook, Fish, Hurley, Keenan, Kelly, Kinsella, Lane, McCormack, Scannell, Sullivan—12.

Nays—Coun. Bayley, Chase, Russo—3.

Coun. BAYLEY—Mr. President, I move that the motion to reconsider be taken off the table.

President KELLY—The motion is out of order.

Coun. BAYLEY—Why, Mr. President?

President KELLY—Rule 20. "A motion to reconsider may be laid on the table or postponed indefinitely, and the effect of such action in either case shall be to defeat the motion to reconsider." The motion stands defeated.

CONFIRMATION OF APPOINTMENT OF JAMES AMATO.

Coun. HURLEY—I move No. 3 be removed from the table.

Coun. RUSSO—Mr. President.

President KELLY—There is no debate on taking from the table. The question is on taking from the table.

Coun. CHASE—Mr. President, a point of information. I would like to know something about this.

President KELLY—Your point of information is not in order. The motion is to take from the table. It is a vote. Councilor Bayley doubts the vote and asks for a roll call. He has the necessary support. The clerk will call the roll.

The roll was called, and the motion to take from the table carried, yeas 11, nays 3:

Yeas—Coun. Bryan, Cantwell, Fish, Hurley, Keenan, Kelly, Kinsella, Lane, Moriarty, Scannell, Sullivan—11.

Nays—Coun. Bayley, Chase, Russo—3.

No. 3 on the table was as follows:

"3. Confirmation of appointment submitted by Mayor May 13, 1946, of James Amato, to be a Constable, not authorized to serve civil process."

President KELLY—The question comes on the confirmation of the appointment of James Amato.

Coun. RUSSO—Mr. President, I can readily see through the underhanded methods that are being used. It is the first time, Mr. President, that a councilor who represents the district where the individual comes from, that the other councilors do not give that particular councilor the time necessary in order to make up his mind whether or not that person is an individual who should be appointed. I have always acted in that way. Never have I tried in any underhanded method to give the councilor in the district affected no opportunity to decide for himself. As I said last week, Mr. President, I do not know this fellow. I do not care who he is. I am asking that the councilors go along with me until such time as his Honor the Mayor will give me information and reasons why an individual was let go as constable without any cause. He is a father of three children. He has done his work all right. His Honor the Mayor asked for thirty constables to be given to him in order to carry out the duties and responsibilities of that office. At that time we were told that a councilor had a right to nominate one individual. It is stooping very low, Mr. President, when the Mayor of the City of Boston, in order to get at a councilor, tries these cheap, un-American tactics, letting an individual go who is receiving \$33 a week. Mr. President, I would like to find out how many constables we have in the City of Boston who are the ones being favored by his Honor the Mayor. I realize and I believe his Honor the Mayor was right when he was Governor of this Commonwealth and signed a bill that a person being of the age of seventy should retire. I do not think very much of an individual who can stoop that low. I have the courage of my convictions regardless of what may come. It is done, Mr. President, only for the purpose of trying to tear down a councilor who is aspiring to higher office. There is no way out of it. It is cheap political trickery. I am asking that the councilors go along with me. It is a reasonable request. You may find yourselves some day in the same predicament that I am in at the present time. As I said before, it makes no difference to me. I have always been able to stand on my feet and defend myself and defend any one of my constituents. Never have I stooped that low. I have gone along for six and one-half years with many of you councilors. I intend to go along. I am asking you to go along with me. If you do not believe I am entitled to that information, then I say do as you please. But at least I can say I have the courage of my convictions regardless of anything. They can

never say Joseph Russo, the councilor, did not have the courage to stand up and fight for the things that were decent, asking for an equal opportunity, equal chance. That is why I am appealing to you to go along with me. I hope you will.

President KELLY—The question comes on confirmation.

Coun. BAYLEY—Mr. President, I hope the members will go along with the distinguished councilor from Ward 3 (Coun. Russo). I believe we should have a full investigation and complete information on all actions that we take in this City Council. Today, for the first time in this Council, I have been really disappointed in the actions of the members. They have refused to give those of us who are trying to act for the best interests of the City of Boston, to keep the tax rate down, a chance to speak. Many of you will go back, and when you are asked what the appropriation was that you passed today, you will be unable to tell your constituents. You have not examined it thoroughly. I feel I examined it as thoroughly as anybody could. I came out of a sick bed to speak here today against the orders of my doctor. I have examined it carefully. I thought there were some cuts that could be made. Unfortunately, a great deal of money was to be appropriated. I was not given the chance to fully present my views. We spent the time debating things that are not of too much importance. On these great important things—

Coun. SULLIVAN—Mr. President, a point of order. The gentleman is not speaking on confirmation.

President KELLY—The point is well taken. Will the councilor confine his remarks to the subject?

Coun. BAYLEY—I was speaking on the subject that we should have as much information on every subject as possible. I believe, Mr. President, I was pointing out that we do not have enough information on some subjects. The councilor from Ward 3 (Coun. Russo) is entitled to full information in this matter. Before we vote on this, how many of you know who Mr. Amato is and where he lives? How many of you know whether he is fit to be a constable of the City of Boston? I am going to close in a moment. I would like to say I am disappointed. I have been serving for a long time in this Body now. It is a great disappointment to me that the people of Boston have not got a chance to vote on whether they like this form of government or a better form of government. I think if they did, after the actions of today and the actions of the Council through the year, they would throw this form of government out of the City of Boston. The sooner they do it the better.

Coun. FISH—I do not think the form of government has anything to do with confirmation of the appointment.

President KELLY—The point is well taken, councilor. The question is on confirmation.

Coun. HANNON—Mr. President, I find myself in a very embarrassing situation. I believe the gentleman from Ward 3 (Coun. Russo) has spoken much truth. The only trouble with him, Mr. President, is that instead of sticking to the subject he is following along in the wake of the gentleman who stands beside him. He ends up in a tirade on the man who holds the office of Mayor. If it comes to a question of picking between the Mayor and the gentleman from Ward 3 (Coun. Russo), I will pick the Mayor. If it comes to a question of sticking with the gentleman from Ward 3 when I think he is right and sticking with other gentlemen here when I think they are right, I will make my own decisions. The gentleman from Ward 3 certainly embarrasses those of us who would like to be friendly with him when he enters into a tirade upon the office holders of the city. If this gentleman here (Mr. Amato) lives in Ward 3, then I think the councilor from Ward 3 has every right to know who he is and what he is. If he lived in my ward, I would insist on it. I remember a couple of years ago I was embarrassed in Dorchester Court. A man in the district was arrested. He lived in my ward. When they asked him what he did for a living, he said he did nothing—he was a constable for the City of Boston. He was up there for failure to support his family. I was astounded. I could not believe it. I went to the Mayor and told the Mayor that man could either move out of Ward 13 or he could be removed from the list of constables. I think every councilor has a right to know when somebody in his district is appointed constable. I do not agree with the gentleman from Ward 3 when he says he is waiting for information. I have heard him so often say he was waiting for information. He never gets it. Why doesn't he get it? How long does he want to get information? If he is going to get the information in a reasonable time, I think we should wait. I do not believe in other councilors butting into the business of a councilor. Each one of us has his own ward to attend to. Each one of us is just as anxious as the next fellow to hurry favor with the Mayor. That is why I would not vote for the previous question to lay on the table. Of course, we are entitled to debate matters here. That is why we are elected. But the trouble is, when some of these fellows get started debating matters, they do not know when to stop. Instead of debating on the matter, they like to vent their spleen on the Mayor. The Mayor of Boston has not done anything to me. I am not voting against him. When the gentleman makes it a question

that if you are voting with him you are voting against the Mayor, then I will stick to the Mayor and vote against him. If it is a question of one councilor against another councilor, then I think out of courtesy and out of respect and decency we should stick with the councilor in whose district the gentleman lives. I will ask the same courtesy and expect to be given it. Every councilor is entitled to certain courtesies. I think they should be respected. But at the same time in all decency and fairness, I think any councilor here who is asking a vote from another councilor should so conduct himself and should so talk that another councilor could vote for him without his vote being interpreted as a slap at the Mayor.

Coun. RUSSO—Mr. President, certainly in all my years as a member of the City Council, regardless of my feelings toward the man downstairs on the second floor—and each one of us with whom I have served can vouch for my remarks—it makes no difference in so far as my feelings are concerned—I have always gone along with the remarks as Councilor Hannon just stated, with the councilor whose ward is affected. This particular individual lives in my district. The Mayor has seen fit to give me no reasons for the discharge. I have called the Mayor's office. I have been in the Mayor's office. They cannot give me any information. It is up to the Mayor. I have not been able to speak with him. No reason whatsoever is given why this individual is fired and another put in his place. It is not a question, and I am not asking you to either be with the Mayor or with the councilor. If you wish, you can have your own opinion. I am asking only what you would be asking if you were in the same position that I am in today. I would not have brought out anything if it had not been for the gentleman from Ward 14 (Coun. Muchnick). Last week he interrogated about the reasons. I would like to find out. I have never taken my feet in order to put something across which belonged in somebody else's district without at least paying the courtesy of going to that individual and trying to find out if it was all right. You can readily see what it is. Certainly it is a whip that the Mayor has. If you fellows concur in that opinion, you can fail to do so. I am only asking you to do what you would want me to do if you were in the position I am in today. If you think I am asking too much and I am not entitled to the vote, then vote whatever you want. I am asking only for things that are decent and that I believe we are entitled to as councilors. Whatever my difference may be with the Mayor, it does not enter into this question. This particular individual comes from my district. I could have opposed all the others. I did not, because I left that up to you people whose districts these individuals come from. You ought to pay that much respect to me, the same respect I would pay to you. That is all I am asking.

President KELLY—The question comes on confirmation. The Chair will appoint Councilor Bryan and Moriarty to receive, sort and count the ballots.

The appointment was confirmed, yeas 7, nays 3.

Coun. RUSSO—Mr. President, I ask for a reconsideration on that vote.

President KELLY—There will have to be a roll call on reconsideration.

Coun. RUSSO—I ask that a roll call be made.

President KELLY—Councilor Russo asks for a roll call on the vote on Mr. Amato's appointment. Sufficient councilors having joined him, the clerk will call the roll.

Coun. SULLIVAN—For what purpose is Councilor Russo asking reconsideration? To refer it back to the committee, or hold it for a week, or for an outright defeat?

Coun. RUSSO—Well, Mr. President, I ask to be given time to get the information I am after and that I am trying to get. The Council has seen fit to confirm the appointment by 7 to 3, and therefore I am asking that a roll call be made.

Coun. SULLIVAN—Mr. President, Councilor Hannon stated that Councilor Russo was putting the councilors on the spot. They want to go along and to help him. He did not make any motion. The only motion before us is relative to confirmation. There is no question but that, if the councilor asked that this appointment be referred back to the Committee on Constables and Confirmations, it would have been referred back there for a week or two weeks, to give him sufficient time to obtain the information he seeks.

Coun. KEENAN—Mr. President, a point of information.

President KELLY—Does Councilor Russo yield to Councilor Keenan?

Coun. RUSSO—To a point of information, yes.

Coun. KEENAN—When a vote is taken 7 to 3, does that indicate a quorum for a meeting?

President KELLY—No, it was not a roll call. It was a confirmation.

Coun. RUSSO—Mr. President, I want to have this matter referred to the Committee on Constables and Confirmations. I have been asking it be referred back to the committee. Therefore, if reconsideration prevails, I will make a motion to that effect.

President KELLY—The motion is on reconsideration of the vote of confirmation. Enough councilors having joined with Councilor Russo, the clerk will call the roll. I might remind the councilors they have to respond in the affirmative, the negative or "Present." The clerk will call the roll.

The roll was called, and the motion to reconsider was carried, yeas 7, nays 0, and 6 responding "Present", viz.:

Yeas—Coun. Bayley, Bryan, Chase, Hannon, Moriarty, Russo, Sullivan—7.

Nays—0.

Present—Coun. Fish, Hurley, Keenan, Kelly, McCormack, Scannell—6.

Coun. RUSSO—I move now, sir, that it be taken from the table and sent to the Committee on Constables and Confirmations.

President KELLY—It is not on the table. You are making a motion to recommit it to the Committee on Constables.

Coun. HURLEY—Could we have a definite date set on it? I would like to amend it to read "one week from today."

President KELLY—You cannot amend it to read one week. You can ask the chairman of the committee if he will not hold the meeting of his committee this week.

Coun. BRYAN—I would be glad to hold the committee meeting on Thursday morning.

The question came on the motion to recommit to the Committee on Constables and Confirmations, and it was voted to recommit.

IMMEDIATE PAY INCREASE TO CITY EMPLOYEES.

Coun. SULLIVAN offered the following:

Ordered, That his Honor the Mayor be requested to consider the advisability of immediately granting the proposed \$400 pay increase to city employees due to the present increased prices of food.

Passed under suspension of the rule.

ADDITIONAL INCREASE TO RELIEF RECIPIENTS.

Coun. SULLIVAN offered the following:

Ordered, That his Honor the Mayor consider the advisability of granting an additional increase to recipients of Old Age, Mothers' Aid, Soldiers' Relief and Welfare, due to the present increased prices of food.

Passed under suspension of the rule.

RENT CEILING ON COMMERCIAL PROPERTY.

Coun. SULLIVAN offered the following:

Ordered, That his Honor the Mayor be requested to confer with O. P. A. officials relative to placing a rent ceiling on commercial property.

Passed under suspension of the rule.

WIDENING OF WASHINGTON STREET, FOREST HILLS.

Coun. MORIARTY and SULLIVAN offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to consider the advisability of shearing about three feet of sidewalk from approximately 3708 Washington street to Morton street, Forest Hills, so that the fluidity of automotive traffic may be enhanced and thereby afford relief to a traffic bottleneck.

Passed under suspension of the rule.

GIFT TO CHARLES MCGILLIVARY.

Coun. SCANNELL offered the following:

Ordered, That his Honor the Mayor be requested to devise some means of presenting a substantial gift, in the name of the citizens of the City of Boston, to Charles McGillivary, the only Boston man to be awarded the Congressional Medal of Honor.

Coun. SCANNELL—Just a word on this order. The people of Boston and the merchants of Boston have a fund that they are getting together in the interest of Charles McGillivary, the Congressional Medal of Honor man. He is the only Congressional Medal of Honor man in Boston. In all parts of the country cities have honored and have done something for a Congressional Medal of Honor man. It seems to me, in this historic City of Boston, if the people of Boston are interested in doing something for this man, I think the Mayor, in his official capacity, the City Council and the people should do something in regard to this man. They missed the boat when they did not have an official greeting for him. I think at the time it is only fair and right that we do something financially for this Medal of Honor man who brought so much honor to the City of Boston. I move suspension of the rule and passage of the order.

Coun. RUSSO—I have no objection so far as the order is concerned. However, I feel that it is an obligation on the part of our Federal Government. Not only did he protect the City of Boston; he protected the whole nation. I do hope that the previous order which was presented will

find its proper place in order that public recognition may be given by the Federal authorities. Although it is fine that the city or town should do something, I believe it is more of an obligation on the part of the Federal Government to honor these individuals.

Coun. SCANNELL—Mr. President, it is all right to say that the Federal Government can do something for these war veterans. They have not done an awful lot as yet. I do not think they are going to do much more outside of veterans' preference on Civil Service. The City of Boston spends thousands of dollars upon men who have come from foreign countries and come into the city. They spend thousands of dollars for luncheons for them, men who are not as prominent in this city as the Medal of Honor man, Charles McGillivary from South Boston. I think, if they can spend \$25,000 or \$50,000 for honoring foreign diplomats or people from another city or state, it is about high time the City of Boston should do something for one of their own, the only Congressional Medal of Honor man in the city.

The order was passed under suspension of the rule.

EMPLOYEES IN MAYOR'S OFFICE.

Coun. CHASE offered the following:

Ordered, That the Boston Finance Commission be requested to investigate the need for the many employees in the Mayor's office.

Coun. CHASE—Mr. President, the municipal records show that his Honor the Mayor has a budget of \$93,000, as against last year's budget of \$71,000, for employees in the Mayor's office. The municipal records disclose, sir, that his Honor the Mayor has thirty-six employees as against last year's record of twenty-four employees in the Mayor's office. Now, sir, I submit to you that that does not abide by the Mayor's announced intention that he was going to do everything possible to reduce the tax rate. Comparatively, sir, he has in this particular instance, as in every other instance, decided to squander the taxpayers' money. If anyone can explain to me why it is necessary that he should have twelve more employees than were required by the administration of last year, or of other years, in his office, at an expense of \$22,000 more than last year, I would like to know it, and I trust, sir, that the Boston Finance Commission, which was created for the purpose of giving us just such information as I am asking, will give us this information. I hope the order will pass, sir.

Coun. SCANNELL—Mr. President, I do not like to get up here in connection with this order. I might explain, without going into detail, that the Finance Commission knows in regard to what help is needed in the Mayor's office or in any other department. If the gentleman could see in the course of a day what I have done in meeting people, veterans looking for jobs, veterans looking for this and looking for that, he might understand why the Mayor's office has probably a little more help. If he could only see some of the veterans who are coming back from overseas, coming to my home, then I think he might have a little different impression and might like to have a secretary, too.

Coun. CHASE—Mr. President, I submit to you, sir, that we have a special Veterans' Department, and it is absolutely unnecessary in addition to have twelve more people now in the Mayor's office when we have a special department for the veterans, where the taxpayers' money, amounting to thousands of dollars, is already being spent on them. I trust, sir, that this simple order will be passed. It is a matter of information that we are entitled to. We pass on the Mayor's budget; yet we have no way, apparently, to know just how many employees the Mayor's office has, and I can't understand why it is necessary that he should have twelve more employees than the past administrations have had.

Coun. FISH—Mr. President, I am going to vote against this, because I do not think the Finance Commission needs any invitation from us to investigate any part of the City of Boston. When they see anything to investigate they investigate it.

President KELLY—Councilor Chase asks suspension of the rule and passage of the order.

Coun. BAYLEY—Mr. President, I wish to commend the councilor from Ward 4 for introducing this order. Back on March 19, when you were debating the budget, I tried to cut a few thousand dollars out of the budget, and I pointed out at that time that there was some increase in the employees, especially in the Licensing Department. I can't see how the Licensing Department has anything to do with the Veterans' Department. There had been three veterans in the Licensing Department, and on March 19 there were six. I think the order is a good one, and I commend the councilor for offering it.

Coun. HANNON—Mr. President, as long as these investigations are being referred to, I hope that sometime we will arrive at the happy moment when we can commend the gentlemen from Wards 4 and 5 for going through a meeting here without finding fault with the Mayor's office. As far as the gentleman from Ward 5 is concerned, I know that his commendation is wholehearted and comes right from the bottom of his soul. But as far as the order is concerned, I know there is no place

for it, because after all we know the order is only put in here for the purpose of publicity. The Finance Commission will read it in the paper and if they want to investigate that matter they will investigate it anyhow. As the councilor from Ward 16 has said, they do not need any invitation to investigate. I think the time for an investigation is when we have people loafing. I have been down in the Mayor's office, and everybody seems busy. Instead of criticizing them for doing too much, we might well commend the Mayor's office for the good job that they are doing.

The order was declared lost. Coun. CHASE doubted the vote and asked for a roll call. The roll was called and the order was lost, yeas 3, nays 6:

Yeas—Coun. Bayley, Chase, Russo—3.
Nays—Coun. Bryan, Cantwell, Fish, Hannon, Keenan, Kelly—6.

President KELLY—Less than a quorum having voted, the Chair will have to declare the meeting adjourned.

Adjourned, at 5.45 p. m., to meet on Monday, June 10, 1946, at 2 p. m.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

DIVISION MOTH SUPPRESSOR, DEPARTMENT OF CONSERVATION, JULY 19, 1946.

Last date for filing applications, Friday, June 28, 1946, at 5 p. m.

Salary: Basic salary: Minimum, \$1,800 a year; maximum, \$2,160 a year. Temporary salary increase 20 per cent not to exceed \$420 a year.

Vacancies: At present there are two vacancies to be filled on a permanent basis.

Duties: Under the supervision of the superintendent, to assist cities and towns in preparation of individual moth appropriations; to supervise the location of work, type of work and expenditure on each area; to make surveys in advance of field work, and to inspect all types of land where forest growth occurs; to inspect quality of work upon completion; to advise finance boards concerning annual changes in infestations, with corresponding recommendations; to train newly appointed local superintendents; to prepare estimates of commonwealth reimbursement to towns; to prepare the annual report of a division; to answer inquiries concerning insects (identification, treatment, etc.); to meet with town officials and address public gatherings; to assist in seasonal spraying work with spray hose under 600-pound pressure and to assist in loading of spray machines, including lifting 50-pound weights straight over head; and to perform related work as required. Tree-climbing and travel through all types of weather and terrain (forests, swamps, cliffs) are necessary. A knowledge of insect pest control (manual and natural), silviculture, and quarantine regulations, and familiarity with the Massachusetts Moth Laws are required.

Entrance Requirements: Applicants who have passed their forty-fifth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Veterans who had not reached the maximum age limit at the time of entering military or naval service will not be disqualified by reason of age, within three years after the date of honorable discharge. (See chapter 440, Acts of 1945.)

Applicants must possess a motor vehicle operator's license.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

HEAD INDUSTRIAL THERAPIST (TAILOR), TAUNTON STATE HOSPITAL, DEPARTMENT OF MENTAL HEALTH, JULY 19, 1946.

Last date for filing applications, Friday, June 28, 1946, at 5 p. m.

Salary: Basic salary, with maintenance: Minimum, \$1,200 a year; maximum, \$1,560 a year. Temporary salary increase, 20 per cent.

Vacancies: At present there is one vacancy for a male to be filled on a permanent basis.

Duties: To cut, fit, manufacture and repair men's suits and overcoats, women's coats, etc., and to instruct and direct the work of patients in these operations; to see that machinery and tools are kept in good condition; and to perform related work as required.

Entrance Requirements: Applicants must have at least three years of full-time, paid experience in tailoring, including experience both in manufacture and repair of clothing, preferably in a supervisory capacity.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CHIEF POWER PLANT ENGINEER, GRADE D, LYMAN SCHOOL FOR BOYS, DEPARTMENT OF PUBLIC WELFARE, JULY 19, 1946.

Last date for filing applications, Friday, June 28, 1946, at 5 p. m.

Salary: Basic salary, with maintenance: Minimum, \$1,800 a year; maximum, \$2,160 a year. Temporary salary increase, \$420 a year.

Vacancies: At present there is one vacancy to be filled on a permanent basis.

Duties: To have responsible charge of the Lyman School Power Plant, supervising the work of the third-class power plant engineers, electrician, plumber and steamfitter in maintaining the functioning of the heat, power, water, and sewage disposal systems of the institution; to plan the work schedules and keep the time records of these employees; and to perform related work as required.

Examples of Duties: To keep complete records of water evaporation, fuel consumption, boiler pressures and operation of engine generator sets, and records of water supply; to test fire equipment and apparatus daily to insure proper functioning; to supervise and advise the electrician, plumber and steamfitter in making necessary repairs and minor installations in the electrical, water and plumbing systems of approximately thirty-six buildings; to be responsible for requisitioning and distributing essential materials.

Possession of journeyman electrician and master plumber licenses is desirable but not required.

Entrance Requirements: Applicants who have passed their fiftieth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application

unless one has been filed with a previous application.

Veterans who had not reached the maximum age limit at the time of entering military or naval service will not be disqualified by reason of age, within three years after the date of honorable discharge. (See chapter 440, Acts of 1945.)

Applicants must have at least five years of full-time paid experience as a stationary steam engineer, at least one year of which must have been in an institution housing 300 or more patients, inmates, students or employees, with a steam plant generating heat, light and power.

Applicants must possess a second-class stationary engineer's license or a license of a higher grade on the date of filing application.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

TANKERS DO DOUBLE DUTY.

American shipyards are now making it possible for our tankers to carry extra loads. A scaffold-type extra deck enables a modern tanker to carry a load of extra freight the equivalent of 10 per cent of its normal load capacity. Some tankers now carry, in addition to its load of gasoline, deck loads of ambulances, planes, jeeps and trucks.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

FOR ALTERATIONS AND REPAIRS TO BUILDING E, SANATORIUM DIVISION, BOSTON CITY HOSPITAL, MATTAPAN.

The Trustees of the Boston City Hospital invite sealed proposals for alterations and repairs to Building E, Sanatorium Division, Boston City Hospital, River street, Mattapan, giving a bond of a surety company satisfactory to the Board of Trustees therefor in the sum of the full amount of the contract. Only proposals obtained at the office of the Architects and Engineers, James H. Ritchie and Associates, 38 Newbury street, Boston, Mass., signed by the bidders and left before four (4) p. m., Monday, July 1, 1946, at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., with a certified check for \$3,000 payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bids must be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, Boston, Mass., before the time of opening the bids. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract, shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is attached in the specification. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract. Sub-bids shall be filed at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, Mass., on or before 12 o'clock noon, Friday, June 28, 1946; shall be submitted in accordance with notice to sub-bidders contained in the contract documents of the specification and shall be accompanied by a certified check of not less than 10 per cent of the amount of the sub-bid, but in no event less than the sum of one hundred (100) dollars. The Board of Trustees reserves the right to reject any or all proposals. Plans and specifications may be obtained at the office of the Architects and Engineers, James H. Ritchie and Associates, 38 Newbury street, Boston, Mass., after twelve (12) o'clock noon on Wednesday, June 19, 1946. A deposit of \$20 will be required for a complete set of plans and specifications, said sum to be refunded on return of drawings and specifications. Multification of the plans or specifications will be deemed sufficient cause for the forfeiture of the said deposit.

TRUSTEES OF THE BOSTON CITY HOSPITAL,
DR. MARTIN ENGLISH, President.
(June 15.)

CITY OF BOSTON.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

At Champney street.
Linden Street, Brighton.

At Gardner street.
Washington Street, Brighton.

At Breck avenue.
At Nonantum street.

THOMAS F. SULLIVAN,
Acting Commissioner.

(June 15-22.)

CIVIL SERVICE EXAMINATIONS.

STOREKEEPER AND PROPERTY CLERK,

FIRE ALARM DIVISION, BOSTON FIRE

DEPARTMENT, JULY 26, 1946.

Last date for filing applications, Friday,

July 5, 1946, at 5 p. m.

Salary: \$2,200 a year plus a temporary

increase as authorized by the City of

Boston.

Vacancies: At present there is one

vacancy to be filled on a permanent

basis.

Duties: To be responsible for receiv-

ing all material, stock and supplies at

the Fire Alarm Shop; to keep the stock-

room in proper order and to fill requis-

itions for stock and supplies; to keep a

record of all material, equipment, stock

and supplies received and issued,

maintaining a perpetual inventory and

checking and recording invoices; to keep

records at the Fire Alarm Shop relative

to fire alarm equipment and the work of

the Construction Force; to write out

reports pertaining to the operation of the Fire Alarm Shop; and to perform related work as required.

The ability to operate a typewriter is necessary. A knowledge of electrical materials and supplies is desirable.

Subjects and weights: Training and experience, 2; practical questions, 3; total, 5. Also a supplementary test in typewriting.

Passing requirements: At least 70 per cent in each subject and in the supplementary test in order to become eligible.

Physical fitness to be determined by physical examination.

AIDS PAID TO PUBLIC ELEMENTARY AND SECONDARY SCHOOLS FROM INCOME OF MASSACHUSETTS SCHOOL FUND.

State participation in the financing of education began with the establishment of the Massachusetts School Fund in 1834, the income from which was to be used "for the aid and encouragement of common schools," (chapter 169, Acts of 1834). The principal of this fund is now \$5,000,000. The income of the fund has been distributed in many different ways. In 1835, population and the amount raised by local taxation for school support were the determining factors. Many changes followed until the present complex provisions were enacted, mostly in 1919, with some modification in later years.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ASPHALT PAVING CONTRACTORS.

INVITATION FOR PROPOSALS FOR LAYING ASPHALT SURFACE AT THE SITE OF THE PRINCE SCHOOL, NEWBURY STREET, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for laying asphalt surface at the site of the Prince School, Newbury street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Wednesday, June 26, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
(June 15.) Superintendent of Construction.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

SUPERVISOR OF SCHOOLS OF NURSING,
BOARD OF REGISTRATION IN NURSING,
AUGUST 2, 1946.

Last date for filing applications, Friday,
July 12, 1946, at 5 p. m.

Salary: Basic salary: Minimum, \$2,400
a year; maximum, \$2,760 a year. Tem-
porary salary increase: \$420 a year.

Vacancies: At present there is one
vacancy for a female to be filled on a
permanent basis.

Duties: Under the direction of the
Approving Authority, to examine the
management of the training schools in
nursing; to report detailed information
to the Approving Authority so as to
provide them with an adequate basis for
approval or disapproval of the schools;
to perform such other duties as may be
designated, in order to assist high schools,
hospitals, and schools of nursing to meet
the requirements of the Approving
Authority; and to perform related work
as required.

Examples of Duties: To secure and
submit written reports to the Approving
Authority of such information concerning
Schools of Nursing as may be required
in order to give an adequate basis on
which the Approving Authority may
make its decision for giving or withholding
approval; to confer with representatives

of groups of persons interested in Schools
of Nursing, such as hospital trustees and
superintendents, principals of Schools of
Nursing and teachers and students
therein, candidates for admission and
their parents, secondary school principals,
teachers and student advisors, and
departments of education; to answer
correspondence on all matters which do
not need direct reference to the secretary
of the Approving Authority or to the
Approving Authority itself; to keep
records as required by the Approving
Authority.

A knowledge of chapter 620 of the
Acts of 1941 is required.

Entrance Requirements: Applicants
who have passed their fifty-fifth birthday
on the date of examination will not be
eligible to apply. A certificate of date
of birth must be filed with the application
unless one has been filed with a previous
application.

Applicants must be registered nurses
under the State Board of Registration
in Nursing on the date of filing applica-
tion, and must have been registered for
at least eight years.

Applicants must have had at least
six years' experience covering teaching
in an Approved School for Nurses,
administration of nursing education in
an Approved School for Nurses, and
administration of nursing service in a
hospital.

Subjects and Weights: Training and
experience, 2; practical questions, 3;
total, 5.

Passing Requirements: Applicants must
obtain at least 70 per cent in each subject
in order to become eligible.

Physical fitness to be determined by
physical examination.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO CONTRACTORS FOR INSTALLING MANHOLE
AND HANDHOLE PLATES, GASKETS AND
FUSIBLE PLUGS IN STEAM BOILERS.

INVITATION FOR PROPOSALS FOR INSTALLING
MANHOLE AND HANDHOLE PLATES, GASKETS
AND FUSIBLE PLUGS IN STEAM BOILERS IN
THE VARIOUS SCHOOLS, BOSTON, MASS.

The Superintendent of Construction of the
Department of School Buildings, Boston, Mass.,
hereinafter referred to as the Awarding Authority,
invites sealed proposals for installing manhole
and handhole plates, gaskets and fusible plugs in
steam boilers in the various schools, Boston, Mass.

Proposals will be received until 12 o'clock
noon, Monday, June 24, 1946, at the office of the
Awarding Authority, fourth floor, 26 Norman
street, Boston, Mass., at which time and place
they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on
forms obtained from the Awarding Authority.
Each copy of the proposal shall be properly filled
out, signed and inclosed in a sealed envelope,
plainly marked with the name of the bidder and
the description of the work bid upon. One copy
shall be filed at the office of the Awarding Author-
ity, designated above, and the other copy shall be
filed at the office of the City Auditor, City Hall,
Boston, Mass. Both copies shall be filed before
the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified
check on, or a certificate of deposit issued by, a
responsible bank or trust company, payable to the
City of Boston, in the sum of \$250, shall be sub-
mitted with the copy of the proposal filed with the
Awarding Authority. The bid deposit shall be in
a separate envelope, properly marked. Bid bonds
will not be accepted.

No bidder may withdraw his bid within thirty
days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to
mechanics, teamsters, chauffeurs and laborers in
the work to be performed shall not be less than the
rate of wages determined for this work by the
Commissioner of Labor and Industries of the
Commonwealth of Massachusetts under the pro-
visions of General Laws (Ter. Ed.), chapter 149,
section 26, a schedule of which appears in the
specification.

The successful bidder will be required to pro-
vide by insurance for the payment of compensa-
tion and the furnishing of other benefits under the
Workmen's Compensation Law, General Laws
(Ter. Ed.), chapter 152, to all persons to be em-
ployed under the contract and sufficient proof of
compliance with the foregoing stipulation will be
required prior to the award of a contract.

A performance bond, issued by a surety com-
pany satisfactory to the Awarding Authority, in
the full amount of the contract, will be required
of the successful contractor.

The Awarding Authority reserves the right to
waive any informalities and to reject any and all
bids if it be in the public interest so to do.

All the above subject to approval of the Civilian
Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVE-
MENT IN FENDALE AVENUE, WARD 17, FROM
WASHINGTON STREET TO NEVADA STREET.

The Commissioner of Public Works of the City
of Boston, office 508 City Hall Annex, invites
proposals from citizens of the United States and
corporations or other legal associations wherein
the controlling interest to the extent of at least
over one half thereof is owned by a citizen or
citizens of the United States, for bituminous
concrete pavement in Fendale Avenue, Ward 17,
from Washington street to Nevada street. A
bond will be required for doing the work of a
surety company approved by the Commissioner
in the sum of 100 per cent of the amount of the
contract, to secure the due performance of the
contract and the full protection of the city. Forms
of proposals may be obtained at Room 508, City
Hall Annex. Each proposal should be inclosed
in an envelope sealed, marked "Proposal for
Bituminous Concrete Pavement in Fendale
Avenue, Ward 17, from Washington Street to
Nevada Street," and left at Room 508, fifth floor,
City Hall Annex, before 12 m. of Thursday, June
27, 1946, with a certified check for four hundred
and fifty (450) dollars, payable to and to become
the property of the city if the proposal after
acceptance is not carried out. The proposals will
then and there be publicly opened and read.
Proposals must be made in duplicate, the sealed
duplicate, without check, to be deposited by the
bidder with the City Auditor previous to the time
named for opening the bids. *There will be a charge
of two dollars (\$2) for each set of plans and specifi-
cations taken out.* If the price of any item appears
to the Commissioner to be abnormally high or low,
or the bidder neglects to bid on each and every
item, it may lead to the rejection of the proposal
containing such price. The rate per hour of
the wages to be paid to mechanics, teamsters,
chauffeurs and laborers in the work to be performed
under the contract shall not be less than the rate
of wages in the schedule determined by the Com-
missioner of Labor and Industries of the Common-
wealth, a copy of which schedule is annexed to
the form of contract referred to herein. Copies
of said schedule may be obtained, without cost,
upon application therefor at the office of the
Commissioner of Public Works. The successful
bidder will be required to provide by insurance for
the payment of compensation and the furnishing
of other benefits under chapter 152 of the General
Laws (the Workmen's Compensation Law so
called) to all persons to be employed under this
contract and sufficient proof of compliance with
the foregoing stipulation will be required prior to
the award of said contract. The undersigned
reserves the right to reject any or all proposals or
to award the contract as he deems best.

ROBERT P. CURLEY,
Commissioner of Public Works.

(June 15.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN GREEN-
WOOD AVENUE, BIRCHCROFT AND LAUREL
ROADS, RESERVOIR STREET AND ROSEWOOD
ROAD, HYDE PARK.

The Commissioner of Public Works of the City
of Boston, office 508 City Hall Annex, invites
proposals from citizens of the United States and
corporations or other legal associations wherein
the controlling interest to the extent of at least
over one half thereof is owned by a citizen or
citizens of the United States, for sewerage works
in Greenwood Avenue, Birchcroft and Laurel
roads, Reservoir Street and Rosewood road, Hyde
Park. A bond will be required for doing the
work of a surety company approved by the Com-
missioner in the sum of 100 per cent of the amount
of the contract, to secure the due performance of
the contract and the full protection of the city.
Forms of proposals may be obtained at Room 508,
City Hall Annex. Each proposal should be
inclosed in an envelope, sealed, marked "Proposal
for Sewerage Works in Greenwood Avenue,
Birchcroft and Laurel Roads, Reservoir Street and
Rosewood Road, Hyde Park," and left at Room
508, fifth floor, City Hall Annex, before 12 m.
of Thursday, June 27, 1946, with a certified check for
four hundred (400) dollars, payable to and to become
the property of the city if the proposal after
acceptance is not carried out. The propos-
als will then and there be publicly opened and
read. Proposals must be made in duplicate, the
sealed duplicate, without check, to be deposited
by the bidder with the City Auditor previous to
the time named for opening the bids. *There will
be a charge of two dollars (\$2) for each set of plans and
specifications taken out.* If the price of any item
appears to the Commissioner to be abnormally
high or low, or the bidder neglects to bid on each
and every item, it may lead to the rejection of the
proposal containing such price. The rate per hour
of the wages to be paid to mechanics, teamsters,
chauffeurs and laborers in the work to be per-
formed under the contract shall not be less than
the rate of wages in the schedule determined by
the Commissioner of Labor and Industries of the
Commonwealth, a copy of which schedule is
annexed to the form of contract referred to herein.
Copies of said schedule may be obtained, without
cost, upon application therefor at the office of the
Commissioner of Public Works. The successful
bidder will be required to provide by insurance for
the payment of compensation and the furnishing
of other benefits under chapter 152 of the General
Laws (the Workmen's Compensation Law so
called) to all persons to be employed under this
contract and sufficient proof of compliance with
the foregoing stipulation will be required prior
to the award of said contract. The undersigned
reserves the right to reject any or all proposals or
to award the contract as he deems best.

CITY OF BOSTON.

PUBLIC BUILDINGS DEPARTMENT.

INVITATIONS FOR PROPOSALS FOR PAINTING
WORK, EXTERIOR OF FANEUIL HALL.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for painting work, exterior of Faneuil Hall, Boston, Mass.

Proposals will be received until 12 o'clock noon, Monday, June 24, 1946, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained on and after Tuesday, June 18, 1946, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING FIRE APPARATUS.

The Supply Department of the City of Boston invites proposals for furnishing fire apparatus to the Fire Department, as specified in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$1,000, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and marked "Proposal for Furnishing Fire Apparatus." There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out.* The bids will be publicly opened and read Tuesday, July 2, 1946, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
Commissioner of Public Works.
(June 15.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING 1,000 WROUGHT IRON MANHOLE STEPS.

The Supply Department of the City of Boston invites proposals for furnishing manhole steps for Sewer Division, Public Works Department, on specifications contained in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposals with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Manhole Steps." There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out.* The bids will be publicly opened and read Monday, June 24, 1946, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WILLIAM I. ROSE,
Superintendent of Supplies.
(June 15.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO GENERAL CONTRACTORS.

INVITATION FOR PROPOSALS FOR CALKING, POINTING AND WATERPROOFING AT THE C. H. TAYLOR SCHOOL, MORTON STREET, DORCHESTER, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority invites sealed proposals for calking, pointing and waterproofing at the C. H. Taylor School, Morton street, Dorchester, Mass.

Proposals will be received until 12 o'clock noon Wednesday, June 26, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,
Superintendent of Construction.
(June 15.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR GASOLINE FOR CITY DEPARTMENTS.

The Supply Department of the City of Boston invites proposals for furnishing for city departments, gasoline, as specified. The bidder must use the form of proposal to be obtained at the office of the Supply Department, Room 1001, City Hall Annex, and leave his proposal with a certified check for \$200, payable to and to become the property of the City of Boston, if the proposal is not carried out, at the above-mentioned office. *There will be a charge of twenty-five cents (\$0.25) for each set of proposals taken out.* A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and marked "Proposal for Gasoline." Bids will be publicly opened and read Friday, June 28, 1946, at 12 o'clock noon. The successful bidder must furnish a bond for one half the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

WILLIAM I. ROSE,
Superintendent of Supplies.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 38

SATURDAY, JUNE 22, 1946.

NO. 25

MAYOR CURLEY ANNOUNCES TAX RATE FOR 1946 OF \$42 PER THOUSAND OF VALUATION — SO ADVISED BY BOARD OF ASSESSORS — REDUCTION OF 50 CENTS FROM 1945 RATE THUS ACHIEVED, THEREBY FULFILLING ANOTHER OF CAMPAIGN PLEDGES — TAX LEVY APPROXIMATELY \$1,650,000 HIGHER BUT OFFSET BY INCREASE OF ABOUT \$57,000,000 IN ASSESSED VALUATIONS — LEVY INCREASE DUE LARGELY TO POSTWAR REHABILITATION REQUIREMENTS AND OVERLAY PROVISIONS.

Mayor Curley announced on June 14 that he had been advised by the Board of Assessors that the tax rate for 1946 had been fixed at \$42 per thousand of valuation, representing a reduction of 50 cents from the rate declared in 1945. According to figures released by the assessors, the tax levy for the year is roughly \$1,650,000 in excess of the 1945 levy. This increase has been offset, however, by an increase of roughly \$57,200,000 in assessed valuations.

The increase in the levy is attributable, in the main, to two factors: First, expenses connected with postwar rehabilitation requirements, and second, increased overlay provisions. The return of city employees from the armed services, rehabilitation of the plant and structures of the city, necessarily deferred during the war because of shortages of manpower and materials, and increased welfare and relief requirements resulting from the return of veterans and former war plant workers to civilian status, represent postwar costs.

In fixing this year's rate, the assessors have allowed for a $3\frac{1}{2}$ per cent overlay as against the 3 per cent allowance made in the tax rates of the last few years. From the experience of the city it is evident that this 3 per cent has not been sufficient to cover abatements granted in the assessed valuations of the years in which the 3 per cent overlay was allowed. This year's action, in increasing the amount provided in the levy for this item, should result in reducing the amounts to be provided in the levies of subsequent years for overlay deficits resulting from the granting of abatements.

The total valuation of personal property established by the assessors is \$93,200 less than the valuation of 1945. Valuations of real property for the current year represent an increase of \$57,306,800 over 1945. In reaching this figure, the assessors have not increased the valuations on homes and apartment houses where the income is frozen under existing OPA regulations. The increase secured has come from industrial and commercial properties where it is evident that substantial returns are being realized because of increased business activity.

(Continued on page 763.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Haymarket Square, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughterhouses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE ELECTRICAL INSPECTION DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For week ending June 15, 1946.

Population as of July, 1943, Massachusetts State Census, 817,713; population estimated July, 1946, United States Census Bureau, 766,386; number of deaths (stillbirths excluded): Residents, 186; nonresidents, 38; total, 224.

REPORT OF EDWARD J. WALL, SUPERVISOR OF SAFETY EDUCATION AND HEALTH EDUCATION ON ATTENDANCE AT PRESIDENT'S HIGHWAY SAFETY CONFERENCE, WASH- INGTON, MAY 8 TO 10, 1946, INCLUSIVE.

The following report on attendance at the President's Highway Safety Conference has been received by the School Committee:

A conference on highway safety, called by the President of the United States, was held in Washington, D. C., on Wednesday, Thursday and Friday, May 8, 9 and 10, 1946. Attending this notable conference were delegates from each of the forty-eight states. Delegates included heads of governmental departments directly responsible for traffic safety, mayors, police chiefs, engineers, city managers, school and other local officials, and representatives from the public at large. A number of governors headed their respective delegations.

Following registration, the first general session was held in the Departmental Auditorium on the morning of Wednesday, May 8. Hon. John Russell Young, President, Board of Commissioners of the District of Columbia, welcomed the delegates. Maj. General Philip B. Fleming, General Chairman, opened the Conference. President Truman was then introduced and addressed the assembly.

The President directed the attention of delegates to the grave highway prob-

lems confronting the nation. He emphasized the need for coordination of effort, called for united action and pointed out the responsibility of local communities in meeting the growing challenge to our national life and economy.

A roll call of the states followed, after which delegates adjourned to committee rooms where hearings were held under the leadership of the several conference committee chairman. The eight major committee groups were divided as follows: Accident Records, Education, Enforcement, Engineering, Laws and Ordinances, Motor Vehicle Administration, Organized Public Support, Public Information. Preliminary reports prepared in the months preceding the President's conference were distributed to conference members.

Committee hearings were resumed on Thursday morning. The hearings were followed by the second general session, which was addressed by Hon. William Orville Douglas, Associate Justice, Supreme Court of the United States. The speaker stressed the need for uniform state traffic legislation and particularly for highway safety leadership on the local community level. Governors of the several states were introduced and addressed the session briefly. The stimulating message of Governor Maurice J. Tobin was highly commended.

The Hon. Clare Boothe Luce, Member of Congress, addressed the afternoon assembly, and made special reference to the role of the schools in promoting the safety ideal. Traffic safety and pedestrian protection awards were then

presented to states and cities with outstanding national safety records.

The third general session on Friday was devoted to consideration and discussion of conference reports. Hon. Thomas H. MacDonald, Commissioner, Public Roads Administration presided. Conference committee chairmen presenting reports included: Dr. George H. Gallup, Director, American Institute of Public Opinion; Dr. George D. Stoddard, Commissioner of Education, State of New York; Arthur T. Vanderbilt, Dean, New York University School of Law; Gibb Gilchrist, President, A. and M. College of Texas; Hon. Owen J. Roberts, Associate Justice (retired), Supreme Court of the United States; Roy A. Roberts, Editor, "The Kansas City Star"; Paul G. Hoffman, Chairman of the Board, Automotive Safety Foundation; William J. Scripps, The Detroit News and WWJ; Thomas H. MacDonald, Commissioner, Public Roads Administration. Heads of state delegations participated in a general discussion.

During the period of the Highway Safety Conference I availed myself of numerous opportunities to confer with national safety leaders with regard to the opportunity and responsibility of the public schools in the field of Safety Education and in particular with regard to the development of the traffic education and training programs and the student traffic patrol movement. On Saturday a number of schools participated in an excellent school safety patrol demonstration.

The broad purpose of the conference was to provide through national leadership the means of focusing public attention on the highway accident problem and the effective methods of bringing about its solution; to mobilize public support for local, state, and federal agencies having legal responsibilities for the promotion of safety on our streets and highways.

Respectfully submitted,

EDWARD J. WALL, *Supervisor,
Health Education and Safety
Education, Boston Public Schools.*

June 13, 1946.

MAYOR SENDS DIAMOND WED- DING GREETINGS TO COUPLE.

His Honor the Mayor, on June 19, sent the following letter:

MR. and MRS. LUDGAR RINFRET, SR.,
Stoneham Cottage, Plum Island,
Mass.

MY DEAR MR. AND MRS. RINFRET,—
Just ten years ago, as Governor of the Commonwealth of Massachusetts, it was my happy privilege to extend to you my heartiest congratulations on the occasion of your Fiftieth (Golden Wedding) Anniversary.

It is my understanding that on Sunday, June 23, 1946, you are to observe your Sixtieth (Diamond Wedding) Anniversary in your Plum Island Cottage, together with your family of eight children, all living, healthy and happy.

I am very proud indeed, at this time, to renew my congratulations of a decade ago. I feel that you and your family have established a remarkable record in the modern annals of the history of our Commonwealth.

I send to you and yours the kindest greeting which my heart can express. May your anniversary be one of the utmost joy and happiness. It is my

earnest prayer that you may be spared to remain with us for years to come. May God bless you, and may the rays of His blessed sunshine rest gently upon you, now and forever.

Yours sincerely,

JAMES M. CURLEY,
Mayor of Boston.

(A copy of this letter has been sent to Mr. Arthur P. Rinfret, 55 Lanark road, Brookline—a son of the above-named parents.)

MAYOR ORDERS POSTERS OFF BILLBOARDS.

I have this day arranged to have taken down, wherever found in any part of the city, posters advertising my candidacy for Mayor of Boston and I am requesting all candidates in the recent Primaries to do likewise.

If this work is carried out by everyone who has been a candidate for office, it will add materially to the aesthetic value of the city without great expense to the persons who have been candidates. Consequently, I trust everyone will take the necessary steps to have this done at once.

CITY SAVING \$20,000 IN REPAIRS AT DEER ISLAND.

On June 19 the Mayor received the following letter from the Penal Institutions Commissioner:

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Since your last radio talk I have visited several homes in Boston and Greater Boston and the conversation has been about the good work that the Mayor is doing; and the hundreds of thousands of dollars that he is saving the city. They say the amazing part of your radio address is that, although the newspapers did not give it proper coverage, everybody is aware of the fact that an excellent job is being done by you in all branches of municipal government.

For the past eight years, nothing has been done for the upkeep of the House of Correction, Deer Island. Since you have taken office, this department has undertaken the following work, which would have cost the City of Boston a large amount of money, if outside contractors or outside labor had been called in to do the work:

1. Demolishing a building formerly used as a storehouse on the first floor and officers' quarters on the upper three floors, which had been condemned by both the building and fire inspectors; making a 40-foot extension to the street floor and reroofing same, \$10,000.

2. Resurfacing and oiling roads with salvaged oil and cinders, \$1,000.

3. Supplying ten to twelve laborers at the Long Island Hospital each day, for digging graves, shoveling coal and driving trucks, per month, \$2,000.

4. Supplying eight to ten men per day to the steamer "Perkins" as long-shoremen, cleaners, etc., per month, \$1,500.

5. Demolishing old, unsafe coal shed and storage building 175 feet long and 35 feet wide \$3,000.

6. Supplying chickens and pork products to this institution, City Hospital, Sanatorium and Jail, at a saving of over (per year) \$8,000.

7. Now starting to repair roof of cell block 300 feet long and 35 feet wide and

recoping (with the view in mind of remodelling the entire building and placing same in usable condition), approximately \$6,000.

Inasmuch as all this work was performed by inmate labor, we can estimate a saving to the City of Boston of \$20,000 on repairs and rebuilding from January 7, 1946, to date; and are saving \$3,500 per month on labor and \$8,000 per year on food supplies to the institutions mentioned above.

Very truly yours,

MAXWELL B. GROSSMAN,
Commissioner.

APPROVES SEWERAGE PLANT AT CALF PASTURE.

His Honor the Mayor is in receipt of the following communication from Public Works Commissioner Robert P. Curley:

BOSTON, June 12, 1946.

DEAR MR. MAYOR,—During the past few years many complaints have been received regarding conditions existing in Quincy Bay because of raw sewage being deposited in the waters, and because of the conditions which have existed much agitation has been brought about for improvements.

The Commonwealth of Massachusetts has now under construction a treatment plant at its Nut Island pumping station. The purpose of this plant is to remove the properties from the sewage which are the cause of pollution of the waters in this area. The City of Boston has been advised that it also must take such steps as are necessary to correct the conditions brought about by the disposal of sewage from its basins at Moon Island, and that it should go along in a manner at least equal to that contemplated by the Metropolitan District Commission, which, under this new system, will treat its sewage before it reaches the harbor waters.

Since the original City of Boston works were constructed, the sewage from the City Proper and from certain other sections of the city flows into the main interceptor leading to the Calf Pasture pumping station, where it is pumped through a tunnel under Dorchester Bay to Squantum, and thence through the Squantum outfall sewer to the storage basins at Moon Island. It is retained there until the ebb of the tide, when it is released, still in its raw state, into the waters of Boston Harbor.

Dr. Vlado A. Getting, the Commissioner, in a letter to me dated May 3, 1946, reported that the Department of Public Health was in favor of the adoption of Plan II, which, as I stated, provides that the entire treatment works be located at the Calf Pasture.

Sincerely,

ROBERT P. CURLEY,
Commissioner.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

ASSESSING DEPARTMENT.

Permission has been given to employ Isabel Hickey, 1023 Washington street, Dorchester, as temporary typist-clerk, upon an emergency basis, at \$4 a day plus \$200 a year E. C. A.

ELECTION DEPARTMENT.

Authority has been given to amend the A-1 item of its budget for the current year as follows:

From 1 Deputy Chief Assistant Registrar at \$2,400 a year plus \$200 E. C. A. to 1 Deputy Chief Assistant Registrar at \$3,100 a year plus \$200 E. C. A.

Permission has been given for the re-employment of Guy E. Leone of 61 Hiawatha road, Mattapan, as assistant registrar of voters at \$1,900 a year plus \$200 E. C. A.

FIRE DEPARTMENT.

John L. McFadden, assistant operator in the Fire Alarm Division, has been granted an increase in salary from \$1,800 to \$1,900 a year.

HOSPITAL DEPARTMENT.

General Division.

For the week ending May 28:

The services of the following employees have been terminated:

Permanent.—Jacqueline Rutherford, 12 Orvis road, floor nurse, \$1,600 a year; Estelle Florek, 33 Marlborough street, head nurse, \$1,880 a year; Thomas O'Neil, 48 Linden Park street, ambulance medical aide man, \$30 a week; William Blaisdell, 11 Calvin road, hospital house worker, \$28 a week.

Provisional.—Joseph M. Foley, 20 Glendale street, Thomas J. LaCara, 200 Bremen street, Walter F. Wong, 11 Berkeley street, Oliver Fortune, 31 Lynde street, William J. Hurney, 27 West street, Fred Bachofner, 1 Carolina place, Frederick Petrillo, 45 Amherst street, Alfons Glibright, 666 Tremont street, hospital medical workers, \$19.50 a week; John Phillips, 2 Cluney court, part-time hospital medical worker, \$15 a week; George LeMay, 18 Whitney street, Joseph McCarthy, 96 West Springfield street, Robert A. Kelley, 7 Ringgold street, hospital kitchen workers, \$20.50 a week.

South Department.

Provisional.—Margaret Dwyer, 135 Warren street, Margaret Morgan, 58 East Springfield street, hospital medical workers, \$18 a week.

East Boston Relief Station.

Provisional.—Dr. Emil Sauer, 628 Massachusetts avenue, resident physician, \$2,000 a year.

The following provisional employees have been appointed:

James Crowley, 132 West Concord street, John Smith, 7 Dale street, Alfred J. Gallagher, 227 Roxbury street, hospital kitchen workers, \$20.50 a week; Christine Sheedy, 921 Albany street, hospital kitchen worker, \$18 a week; James McDonald, 11 Union park, John Killoran, 1 Alfred street, Arthur Rofe, 4 Union avenue, Francis Halloran, 27A Dearborn street, Joseph J. Shea, 702 Tremont street, hospital house workers, \$19.50 a week; John J. Matsokis, 316 Huntington avenue, hospital laundry worker, \$20.50 a week; Mary A. CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon June 3 the Mayor approved a contract with Richard Moore Company for roofing work at the Stephen M. Weld School. Bids, opened Wednesday, May 29, were as follows:

Richard Moore Company, \$2,520; Burgess & Blacher Company, \$2,846; John J. Hourihan, \$2,879; Atlantic Roofing and Skylight Works, \$3,825.

Upon June 5 the Mayor approved a contract with P. J. Cantwell & Son for alterations, etc., at the Girls' Trade School. Bids, opened May 28, were as follows:

Base Bid.—Michael Racioppi, \$4,740; P. J. Cantwell & Son, \$3,820; M. Spinelli & Sons Company, Inc., \$5,300; Rossano Construction Company, Inc., \$8,452; M. S. Kelliher Company, \$6,500.

Alternate A.—Michael Racioppi, \$2,675; P. J. Cantwell & Son, \$1,160; M. Spinelli & Sons Company, Inc., \$3,500; Rossano Construction Company, Inc., \$2,833; M. S. Kelliher Company, \$1,750.

Alternate B.—Michael Racioppi, \$6,950; P. J. Cantwell & Son, \$8,760; M. Spinelli & Sons Company, Inc., \$11,300; Rossano Construction Company, Inc., \$14,819; M. S. Kelliher Company, \$16,660.

An error was made in proposal price of \$6,950 for Alternate B. Michael Racioppi asked for and received from Superintendent of Construction permission to withdraw bid.

In view of the fact that Michael Racioppi made an error in his proposal submitted and was granted permission to withdraw his bid, the contract was awarded to P. J. Cantwell & Son, the lowest responsible bidder, complying with

specifications and plans, under Alternate B in the sum of \$8,760.

HEALTH DEPARTMENT.

Upon May 21 the Mayor approved a contract with the Federal National Linen Company for furnishing laundry and service to the Health Department at various locations.

The following bids were opened on May 15:

Federal National Linen Service Company, \$104.36; Bell Linen Service, Inc., \$104.48; Capitol Laundry Company, \$105.50.

PARK DEPARTMENT.

Upon May 27 the Mayor approved a contract with P. J. Cantwell & Son for repairs to field house, shelter and playground facilities at Jefferson Playground, Roxbury. Bids, opened Wednesday, May 22, were as follows:

P. J. Cantwell & Son, \$4,840; Patrick J. Sullivan, \$5,200; M. Solimando, \$5,589; Rossano Construction Company, Inc., \$5,979; John Rugo, \$8,962.

Upon May 27 the Mayor approved a contract with the Walter Reed Corporation for excavation, grading and loaming of grave lots, Fairview Cemetery, Hyde Park. Bids, opened Thursday, May 16, were as follows:

Walter Reed Corporation, \$5,590.50; Marinucci Brothers & Co., \$6,116.50; James A. Susi, \$6,585; M. McGinnis Company, \$6,621; William P. Herlihy, \$7,065.60; R. W. Balam, \$7,214; Charles Struzziery Company, \$7,275; West Construction Company, \$7,308.50; R. A. Buccala & Sons, \$7,755.

Upon May 27 the Mayor approved a contract with John McCourt Company for asphalt tennis courts at Almont Street Playground, Dorchester. Bids, opened Thursday, May 16, were as follows:

John McCourt Company, \$2,725; Warren Brothers Roads Company, \$2,800; F. C. Power Corporation, \$2,818.50; S. J. Tomasello Corporation, \$3,142.50.

Upon May 29 the Mayor approved a contract with the Highland Sand and Gravel Company, Inc., for furnishing and spreading filling and sand at Tenean Beach, Dorchester. Bids, opened Tuesday, May 21, were as follows:

Highland Sand and Gravel Company, Inc., \$2,573; Charles Struzziery, \$3,350; William P. Herlihy, \$4,080; M. McGinnis Company, \$4,480; Marinucci Brothers & Co., \$6,240; Ralph Beaudoin, \$6,415.

PUBLIC WORKS DEPARTMENT.

Upon June 4 the Mayor approved a contract with James A. Susi, the lowest bidder, for bituminous concrete pavement in Gwinnett street and Myles Standish road, at an estimated cost of \$17,154.50.

The work to be done under this contract is to be completed August 31, 1946.

The following bids were received May 24:

James A. Susi, \$17,154.50; Charles Struzziery, \$17,852; Charles Capone, \$18,227.75; Warren Brothers Roads Company, \$18,842.75; S. J. Tomasello Corporation, \$18,957.25; DeStefano Construction Company, \$19,321.25; M. J. Kelly Company, Inc., \$19,531.25; Dooley Brothers, Inc., \$19,680.25; Baker & Co., \$21,582.25.

Upon June 4 the Mayor approved a contract with Charles Struzziery Company, the lowest bidder, for sheet asphalt

pavement in Neponset avenue, from Adams street to 206 feet south of Minot street, at an estimated cost of \$33,605.

The work to be done under this contract is to be completed August 31, 1946.

The following bids were received May 23:

Charles Struzziery, \$33,605; Baker & Co., \$33,735; S. J. Tomasello Corporation, \$34,675; Warren Brothers Roads Company, \$35,096.50; M. J. Kelly Company, Inc., \$35,796.50; Charles Capone, \$35,822.50; John McCourt Company, \$70,564.

Upon June 4 the Mayor approved a contract with Frederick J. Wallace, the lowest bidder, for repairing Warren Bridge over the Charles river, at an estimated cost of \$27,610.

The work is to be commenced on a date to be specified in a written order from the commissioner and shall be fully completed within three months from that date.

The following bids were received May 22:

Frederick J. Wallace, \$27,610; Martin J. Kelly Company, Inc., \$28,163.75; J. A. Singarella Company, \$28,975; Robert J. Moore, \$29,371.25; A. Orlando, Inc., \$30,079.50; Marinucci Brothers & Co., \$30,995; W. H. Ellis & Son Company, \$31,917; C. & R. Construction Company, \$32,675; Thomas P. Lane Company, \$34,283.75; James B. Rendle Company, \$34,201.25; Berke-Moore Company, Inc., \$37,435; V. Grande, \$41,970.

Upon June 4 the Mayor approved a contract with Baker & Co., for earth excavation and refilling to allow Water Division Employees to install, regulate or repair Water Division structures, also for the installation of wooden boxes and establishing post hydrants in the Brighton district, at an estimated cost of \$5,700.

The work to be done under this contract is to be completed December 31, 1946.

The following bids were received May 24:

Baker & Co., \$5,700; Roslindale Contracting Company, \$5,700; C. Russo, Inc., \$6,340; Joseph Botti & Son, \$6,575.

SUPPLY DEPARTMENT.

Upon May 24 the Mayor approved a contract with the E. L. LeBaron Foundry Company for furnishing C iron castings (service pipe castings) for the Water Division, Public Works Department, at a price of \$1.18 per pound.

The total amount of the contract was \$10,030. Bid was opened May 30, as follows:

Approximately 85,000 Pounds C Iron Castings, Per Pound.—E. L. LeBaron Foundry Company, \$1.18, total, \$10,030.

Upon May 28 the Mayor approved a contract with the Boston Tailoring Company, Inc., for furnishing thirty-two tollman-guard uniform overcoats to be used at the Sumner Traffic Tunnel, Public Works Department, at a price of \$39.50 each, less 1 per cent cash discount for payment in ten days.

The total amount of the award was \$1,264, less 1 per cent cash discount for payment in ten days.

Bid, opened May 21, was as follows:
32 Tollman-Guard Uniform Overcoats, to Be Same Weight and Style Coats as Those at Present in Use, Gray Color, Each Delivered Complete in Every Detail, as Per

Samples.—Boston Tailoring Company, Inc., A, \$39.50*; B, \$46.50; C, \$54.50; D, \$43.50.

Total.—Boston Tailoring Company, Inc., A, \$1,264; B, \$1,488; C, \$1,744; D, \$1,392.

Cash Discount, Ten Days.—Boston Tailoring Company, Inc., A, 1 per cent.

Net Total.—Boston Tailoring Company, Inc., \$1,251.36, A, 30 ounces, 60 per cent wool, 40 per cent reprocess; \$1,473.12, B, 30 ounces, 100 per cent wool; \$1,726.56, C, 30 ounces, 100 per cent wool; \$1,378.08, D, 29 ounces, 28 per cent wool, 72 per cent reprocess.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors as indicated for furnishing supplies, labor, etc. Communications from the heads of the several departments interested were as follows:

PUBLIC WORKS DEPARTMENT.

BOSTON, May 14, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—The contract which Anthony J. Ryan, Inc., of 942 Washington street, Dorchester, had with this department for collecting and removing garbage and ashes in the Brighton district, expired by limitation on March 31.

When the contracts were awarded by this department for the collection and disposal of garbage, ashes and rubbish in the so-called contract districts, they were made for the customary period of one year, but in the case of the Brighton district—on account of the fact that the contractor's authority for the use of a dump would terminate on March 31—it was not possible for this department to make a contract with this firm beyond that date.

The city is required, as a health measure, to remove and dispose of the garbage and rubbish produced by its inhabitants, and any failure to do so would have a very serious effect on the health and well-being of the community. In order that there would be no interruption with this very essential service and because of the emergency which arose, I made arrangements with this firm to continue collecting and disposing of the garbage and rubbish from this district until such time as it would be possible to obtain a suitable dumping location.

On April 10 your Honor approved my request to issue service orders to this firm to carry on the work in the emergency until it was certain that a suitable dumping location had been obtained, temporary arrangements having been made for dumping on city-owned land on the so-called Mile road in Dorchester. Subsequently, however, the City Auditor determined that the work for this temporary period could not be handled in the manner outlined, and he ruled that this department would have to make a contract for performing the service called for.

As a result of the situation which confronted us, I negotiated with this firm to carry on this work for a period of three months (that is, from April 1 to June 30), and, as under the circumstances, no advantage would be gained by advertising, I respectfully request the permission of your Honor to

dispense with advertising, and to award a contract to the above-mentioned firm for doing this work during the months of April, May, and June, at the agreed upon price of \$17,000 per month.

Anthony J. Ryan, Inc., has collected and removed garbage and ashes in the Brighton district from 1941 to date, and his work has always been satisfactory.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, May 15, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Throughout the city there are many openings in pavements and sidewalks where excavations have been made in the past few years by the Sewer and Water Divisions of this department for underground work.

The temporary patching which has been done is costly to maintain, and up to the present time no steps have been taken to make such permanent restorations which are required. As a result, many conditions exist throughout the city which subject travelers to the daily possibility of personal injuries and damages to property. In addition, the city may be subjected to many law suits on account of these conditions. I believe that under existing conditions the best interests of the city require the immediate permanent replacement of the street and sidewalk areas involved.

Many of the street and sidewalk areas are at present being restored by several contractors under the provisions of section 9 of chapter 27 of the Revised Ordinances of 1925, insofar as the surfaces were removed or damaged by public service corporations in the performance of work for which permits had been issued by this department. Because of this situation, the city is able to have the necessary work done by the same contractors at substantial savings to the city.

I respectfully request your Honor's authority to dispense with advertising and award contracts for the above-mentioned work to the following persons, at the below listed prices:

District 1. John Deveney Company, 73 square yards granite block paving, \$575.

District 2. C. & R. Construction Company, 165 square yards granite block paving, \$1,295.

District 3. Baker & Co., 85 square yards granite block paving, \$670.

District 4. Ward General Contracting Company, 75 square yards granite block paving, \$590; 1,000 square feet artificial stone sidewalks, \$400.

District 4-A. Ward General Contracting Company, 10,000 square feet artificial stone sidewalks, \$4,000.

District 5. Mogavero Contracting Company, Inc., 80 square yards granite block paving, \$630.

District 5-A. Mogavero Contracting Company, Inc., 1,000 square feet artificial stone sidewalks, \$400.

Districts 6 and 6-A. J. A. Singarella Company, 105 square yards granite block paving, \$825; 10,000 square feet artificial stone sidewalks, \$4,000; 12 square yards reinforced concrete, \$84.

District 7-A. Martin J. Kelly Company, 5,000 square feet artificial stone sidewalks, \$2,000.

Entire city (in all streets within the limits of the City of Boston). Ward General Contracting Company, 1,000 square

yards bituminous macadam (penetration) pavement, \$3,000.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, May 20, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—In accordance with an order of the Board of Street Commissioners, dated April 23, 1945, this department has done some construction work in Oak square, Brighton.

The work contemplated has not been finished, and in order to complete the development of the circle in this important area, I solicited bids by invitation from three firms for doing the work indicated in our communication. I am in receipt of proposals from these three firms. The lowest bid for doing the work, amounting to \$4,395.95, was received from the Walter Reed Corporation. This method of inviting bids was utilized because time would not permit of advertising and awarding a contract so as to have the work completed before Memorial Day, Friday, May 30, when exercises are to be held at this location by the residents of this section of Brighton.

While the total cost of doing the work, in accordance with the low bid received, is \$4,395.95, the Park Department—through an arrangement which has been made with Commissioner Long—has agreed to pay for the construction work for which it is responsible. This will amount to \$2,445.70, leaving the balance, \$1,950.25, to be paid for out of the appropriation for Public Ways, which is under the control of the Public Works Department.

In view of this fact, I respectfully request your permission to dispense with advertising, and to award a contract for this work to the Walter Reed Corporation, at the above-mentioned price. This firm has done considerable work for the city and is in a position to proceed immediately with the execution of this contract.

Following is a tabulation of the bids received:

Walter Reed Corporation, \$4,395.95; Baker & Co., Inc., \$4,638.50; Mogavero Contracting Company, Inc., \$6,354.20.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, June 4, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—The firm of C. Russo, Inc., of 499 Beech street, Roslindale, has just completed a contract with this department for earth excavation and refilling to allow the Water Division to install, regulate, or repair its underground structures, and also to permit the installation of wooden boxes and the establishment of post hydrants in the West Roxbury district.

The work performed by this firm has been satisfactory in every respect and its services are available at any time, day or night, when emergency work is necessary because of breaks in mains and pipes in the water system of this district.

The prices which have been paid have been very reasonable, and on the basis of

our past experience, I do not feel that lower prices would be obtained if we were to publicly advertise for bids for doing this work. In my opinion, the best interests of the city will be served by awarding another contract to this firm to carry on, under the terms and conditions of its present contract, the work which it has been doing.

I respectfully request the permission of your Honor to dispense with advertising, and to award a contract to the above-mentioned firm for doing this work during the balance of the current year, that is, until December 31, 1946, in the estimated amount of \$16,925.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, June 4, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR.—For a number of years there has been considerable agitation for the removal of the so-called looper traps in three locations in Bunker Hill street, Charlestown.

These were constructed primarily for the purpose of curbing reckless driving which was prevalent at the time, and when they were built certain alterations were made in the street, including the removal of a portion of the roadway, the narrowing of the sidewalks, and the construction of large concrete blocks.

Recently, the demand for the elimination of these obstructions has increased, and we have come to the conclusion that it is advisable to remove the three traps entirely, and restore the street and sidewalk surfaces to their original condition.

In connection with the annual parade which is held on the 17th of June, in Charlestown, it has always been the custom of this department since these traps were built, to temporarily fill the roadway, in order to permit the parade to pass over this particular part of the route, and as soon as the celebration was over, the material which was placed there temporarily has had to be removed; all being an annual expense to the city. This year, as usual, the parade takes in Bunker Hill street, and I feel that because these traps are an obstruction in an important public street and are no longer necessary, it will be advisable to remove them and restore the original conditions to the street and sidewalk surfaces before the date of the annual holiday celebration. Since the time is short and we would not have sufficient opportunity to invite proposals, by public advertisement, to restore Bunker Hill street before the 17th of June, three firms were asked to submit bids for doing the work, and the following bids were received:

John Deveney & Co., Inc., \$7,913;
Walter Reed Corporation, \$8,030.50;
Mogavero Constructing Company, Inc., \$9,182.20.

In view of the immediate need of restoring the street and to obviate the necessity of this department's making emergency repairs, I respectfully request the authority of your Honor to dispense with advertising and to award a contract for this work to the low bidder, John Deveney & Co., Inc., in the amount of \$7,913.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

V. Grande has been granted an extension of the time of completion of the contract for construction work on the Summer Street Bridge, to July 12, 1946. This extension is requested for the reason that the contractor was delayed due to the large amount of unforeseen repair work required on the steel of the draw span and the difficulty in obtaining the necessary materials.

Baker & Co. have been granted an extension of the time of completion of the contract for bituminous concrete pavement in Capen, Owen, Plainfield and Saco streets, contract dated October 17, 1945, from June 15, 1946, to July 1, 1946. This extension is requested for the reason that the contractor was delayed by inclement weather conditions and a shortage of labor and materials.

Baker & Co. have been granted an extension of the time of completion of the contract for bituminous concrete pavement in Fernboro, Greenheys and Holborn streets, contract dated November 13, 1945, from June 15, 1946, to July 1, 1946. This extension is requested for the reason that the contractor was delayed by inclement weather conditions and a shortage of labor and materials.

ADDITIONS TO CONTRACTS.

PARK DEPARTMENT.

J. A. Singarella Company has been authorized to make the following additions to the contract for repairs and renovations to the Aquarium, Marine Park, South Boston, signed July 27, 1945:

Item 1. Make necessary changes in the electrical connections to the new water conditioning system by installing new main feeder and branch feeders with all necessary connections to control board and motors at new location, for the sum of \$293.70.

Item 2. Replace present obsolete control board for the new motor on present circulating pump with new automatic controller, for the sum of \$49.50.

Contract price, \$38,300; addition previously authorized, \$616; addition under this order, \$343.20; contract as standing, \$39,259.20.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

Walter J. Reed Corporation has been directed to omit and substitute work under the contract for sheet asphalt pavement in Cumberland, Garrison and Norway streets and for bituminous concrete pavement in Field and Forsyth streets, dated October 18, 1945. Items ordered: Omit the laying of bituminous concrete pavement (Item 7d of contract) in Forsyth street and substitute the laying of sheet asphalt wearing surface on asphalt binder course (Items 7b and 7c of contract). Prices to be paid for substituted work: For approximately 450 square yards existing bituminous macadam pavement removed, the sum of 75 cents per square yard; for asphalt wearing surface layer furnished and laid, the sum of 65 cents per square yard; for asphalt binder course furnished and laid, the sum of \$8 per ton. Estimated cost of substituted work, \$2,923.50; estimated cost of omitted work, \$2,600; estimated increase in cost, \$323.50.

CHANGE IN CONTRACT.

PARK DEPARTMENT.

J. A. Singarella Company has been ordered to make the following changes in the contract dated April 9, 1946, for construction of women's solarium and new fence at L Street Bath House, South Boston.

Addition: You are to remove cold water piping now located above furred ceiling on first floor, and relocate this piping so that same will not interfere with the installation of concrete slab which will replace the furred ceiling. This work is in accordance with letter of the John M. Gray Company, dated May 17, 1946. Price submitted by plumbing subcontractor, Ferris & Mahoney, \$325; contractor's profit, 10 per cent, \$32.50; total amount of this order, \$357.50.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

A. Orlando, Inc., has been directed to substitute the following extra work under the contract for repairing, etc., the Dartmouth Street, Clarendon Street and Arlington Street Bridges, over the Boston & Albany Railroad, dated May 16, 1946. Items ordered: Substitute $\frac{3}{4}$ -inch steel plate for $\frac{1}{2}$ -inch wrought-iron plate. This $\frac{3}{4}$ -inch plate is to be paid for under Item 5 of the contract on the basis of the weight of $\frac{1}{2}$ -inch plate. This substitution is because wrought-iron plate is unobtainable in the market at the present time. Estimated cost of extra work, none.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A 10-inch pipe sanitary sewer, 10-inch and 12-inch pipe surface drain and one catch-basin in Brook Farm road between La Grange street and 900 feet southwesterly, in the West Roxbury district, at an estimated cost of \$7,100.

Twenty-two catch-basins, convert twenty-six batch-basins to manholes and dismantle sixteen catch-basins in Columbus avenue, between Station street and Northampton street, in the Roxbury district, at an estimated cost of \$42,000.

REALLOCATION OF BUDGET APPROPRIATIONS.

The Mayor has approved the requests of the heads of the following departments to be granted a reallocation of appropriations. The reasons for requests are contained in the following communications:

BOARD OF ELECTION COMMISSIONERS.

BOSTON, May 21, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR.—The Board of Election Commissioners respectfully requests the following reallocation in the 1946 budget of this department:

From B-35, Fees, service of venires, etc., \$3, to B-42, Miscellaneous services, \$3.

This is necessary to permit payment for an expense (under correct budget classification) incurred in the making and lettering of desk sign for Commissioner Langone.

Very truly yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR., *Chairman.*

BOSTON, May 28, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—The Board of Election Commissioners respectfully requests authority to amend its departmental budget by the transfer of \$1,000 from the A-2 item to the A-3 item.

It will be necessary for our assistant registrars to work Saturday afternoon and evening and Sunday if the work of certifying petitions now on file here is to be completed, and the Board believes that the employees should be paid overtime for this work. May we explain that we requested no overtime in our 1946 budget estimates. Now that we are faced with an emergency we wish to use some of the money which was appropriated to permit us to hire temporary employees to work on the card index to pay our regular employees overtime. No temporary employees have as yet been engaged to work on the card index project.

We trust that you will give this matter your favorable consideration.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR., *Chairman.*

BOSTON, May 28, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—The Board of Election Commissioners respectfully requests authority to amend its departmental budget by the transfer of \$125 from the A-2 item to the B-29 item.

This request is occasioned by the fact that we have 12,600 postal cards advising voters of changes in locations of polling places which must, in accordance with law, be addressed and mailed to the voters affected prior to the State Primaries on June 18. Since we now have close to 1,000 petitions on file here to be checked by June 7, we wish to place the work of addressing the postals with the Dewell Company, as it seems unlikely that our regular office force could complete the work in time.

May we explain that money was provided in our A-2 item for the establishment of a project to bring the card index up to date and that nobody has as yet been hired to do this work. We therefore believe that it would be well to use this money in our present emergency.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR., *Chairman.*

BUILDING DEPARTMENT.

BOSTON, May 28, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Will you be kind enough to approve the reallocation of funds in Group G of this department's budget for 1946 to pay for the following articles which we found it necessary to purchase to expedite the work of the office.

From appropriation for C-10, Library, \$5; C-13, Tools and Instruments, \$7.50; C-15, Tires, Tubes, etc., \$5, to appropriation for C-9, Office, 1 Inkwell, \$1.35; 3 Staplers, \$14.40; 1 Shears, \$1.75.

From appropriation for C-13, Tools and Instruments, \$7.50, to appropriation for C-16, Wearing Apparel, 1 Badge for Commissioner Mahoney, \$7.50.

Yours very truly,

JOHN J. MAHONEY,
Building Commissioner.

FIRE DEPARTMENT.

BOSTON, May 14, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Permission is hereby requested for the following transfer of funds in the 1946 Fire Department Budget:

From A-1, Permanent Employees, \$1,000, to A-3, Overtime, \$1,000.

From E-13, Miscellaneous, \$1,000, to A-3, Overtime, \$1,000.

The foregoing is in addition to \$2,000 which has already been previously re-allocated from A-1 to A-3 in order to pay auto mechanics for overtime work in repairing major fire apparatus of the department.

A force of auto mechanics has already been working overtime during the past six weeks, but because of the poor condition of much of our over-age apparatus they cannot keep up with all repairs required to maintain motor fire apparatus in operating condition. It appears that the mechanics will be required to work overtime for about five to six weeks additional in order to place our apparatus in working condition.

I have previously received your Honor's approval to employ these men three nights per week, six hours each night, for approximately two months, for which work they are being paid at the rate of time and one-half. In addition to the foregoing reallocation, I respectfully request your Honor's approval to employ our motor mechanics for approximately six additional weeks in order to repair the vast amount of mechanical breakdowns in our equipment.

Respectfully yours,

RUSSELL S. CODMAN,
Fire Commissioner.

HEALTH DEPARTMENT.

BOSTON, May 2, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request your approval of a reallocation of funds in the Health Department Budget:

From B-17, Care of Persons, \$700, to B-14, Motor Vehicle Repairs, \$700.

The amount estimated in the 1945 budget for the repair of motor vehicles has proved insufficient, inasmuch as the cars have been in service several years and unfortunately have required more repairs than we anticipated.

Yours respectfully,

FREDERICK J. BAILEY, M. D.,
Health Commissioner.

INSTITUTIONS DEPARTMENT.

BOSTON, May 21, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Authority is requested to reallocate funds as follows:

Child Welfare Division: From C-16, Wearing Apparel, \$10, to C-7, Furniture and Fittings, \$10.

To cover cost of clothes hangers, requisition 107, order No. 10666, being held by the Auditor due to insufficient funds.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

LIBRARY DEPARTMENT.

BOSTON, May 15, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—We respectfully request that the following reallocation be made within Group B of our budget appropriation:

From B-39 to B-28, \$525.

In 1941 the City Auditor made on behalf of the Trustees of the Public Library a survey of the accounting procedures of the Library. One of the important recommendations was that there should be introduced the principles of machine accounting. During the war it was not possible to secure the necessary equipment. This equipment is now available, and it is desired to proceed with the installation at the present time. To direct the installation, the Library proposes to make use of the services of the certified public accountant who made the original survey for the City Auditor.

It is for the purpose of making payment of the necessary fees for this work that the above reallocation of \$525 is requested from the B-39 to the B-28 accounts of the Library.

Respectfully submitted,

MILTON E. LORD, *Director.*

BOSTON, May 15, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—We respectfully request that the following reallocation be made within Group B of our budget appropriation:

From B-42 to B-19, \$29.20.

This reallocation is necessary in order to provide funds for the removal of an accumulation of waste building materials resulting from work being done by our own workmen in improving arrangements of space in the Central Library building.

Respectfully yours,

MILTON E. LORD, *Director.*

OFFICE OF THE MAYOR.

BOSTON, May 14, 1946.

RUPERT S. CARVEN,
Commissioner, Budget Department.

DEAR SIR,—Please transfer from F-7, \$1,429.17, to D-1, \$1,429.17, in the Mayor's office budget.

This request is necessary on account of the substantial costs of office supplies, and to provide estimated balance necessary for the remainder of the year.

Very truly yours,

JAMES M. CURLEY, *Mayor.*

PARK DEPARTMENT.

BOSTON, May 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request that you vary the Park Department budget so as to provide sufficient funds for encumbrances on the following two items: "C-16, Wearing Apparel," and "E-2, Highway," by making the following transfers:

From C-17, Miscellaneous Equipment, \$30, to C-16, Wearing Apparel. This is to cover the cost of rubber boots and oil suits to be used by the men at the South Boston Aquarium.

From E-13, Miscellaneous Materials, \$95, to E-2, Highway. This is to make up the deficit needed to pay for patching material already ordered.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 15, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Will you kindly grant me permission to make the following reallocation in the appropriation of the County Buildings, for Mr. Kamanski, fireman, who worked one day overtime:

From A-1, \$11, to A-3, \$11.

This request is to take care of existing deficit. There will be a surplus in the County Buildings, A-1, at the end of the year.

Respectfully yours,

JAMES E. SULLIVAN,
Superintendent.

PUBLIC WORKS DEPARTMENT.

BOSTON, April 22, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Approval is respectfully requested to amend the personal service schedule of the 1946 Paving Service budget by eliminating the present quota of two Building Custodians, Junior, at \$35 per week, and substituting in place thereof one Building Custodian at \$35 per week and one Building Custodian, Junior, at \$35 per week.

The reason for this request is that the Building Custodian will have charge of the care and cleaning of all buildings maintained by the Highway Division of the Public Works Department.

This will not necessitate any increase in salary or in the A-1 item of the budget.

Respectfully,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, May 27, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Approval is respectfully requested to amend the budget of the Highway Division of this department as follows:

Decrease the budget item Subforemen at \$1,700 to \$2,400 a year from (9) to (8).

Increase the Inspector-Subforemen item at \$1,700 to \$2,400 a year, from (52) to (53).

The reason for the above is that vacancies as they occur in this group are filled from the eligible list for inspectors and are designated as inspector-subforemen.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

SOLDIERS' RELIEF DEPARTMENT.

BOSTON, May 16, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Will you please reallocate the funds of the Soldiers' Relief Department as follows:

From the appropriation for D-1, Office Supplies, \$45, to the appropriation for D-16, Miscellaneous Supplies, \$45.

This reallocation is requested for the purchase of 4,000 paper cups per month at \$1.25 per 1,000. These cups will be used for the drinking of water from cooler machines furnished since March 23, 1946, at no cost to this department.

It is necessary to use these cooler machines because of the fact that no suitable drinking water is obtainable in

our present quarters either for the veterans who seek assistance or for employees of the department.

Respectfully,

DAVID J. BRICKLEY, *Commissioner.*

SUPPLY DEPARTMENT.

BOSTON, May 9, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Your approval is requested to amend the A-1 budget item of this department as follows:

One clerk-stenographer from \$2,300 plus \$200 E. C. A. to \$2,500 plus \$200 E. C. A.

One clerk from \$1,800 plus \$200 E. C. A. to \$2,000 plus \$200 E. C. A.

One inspector and tester of eggs from \$2,200 plus \$200 E. C. A. to \$2,400 plus \$200 E. C. A.

This approval is necessary to provide for increases for Eugene K. Welsh, clerk-stenographer, and Thomas L. O'Rourke, inspector and tester of eggs, who since their return from active service with the U. S. Army and Navy, respectively, have been assigned to positions of greater responsibility than those held previous to such service, due to the fact that they have been given positions as heads of buying units in this office. This increase is recommended to recognize such added responsibility.

The increase from \$1,800 plus \$200 E. C. A. to \$2,000 plus \$200 E. C. A. is recommended for Michael DeSimone, clerk, who is a returned veteran, and since his return his duties have increased very considerably, owing to the fact that his immediate superior has been assigned the duties of purchasing surplus war material for the various departments, and this necessarily increases the volume of work handled by Mr. DeSimone in the purchase of our regular budgetary supplies other than surplus war material.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

MEDICAL EXAMINER (Suffolk County).

BOSTON, May 29, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I hereby request reallocations as follows:

From B-39, \$0.32, to B-1, \$0.32.

To meet the cost of tax circulars and tables.

From C-12, \$5.21, to C-15, \$5.21.

To meet the cost of a battery for car registration 290.

From C-12, \$2, to C-13, \$2.

To meet the cost of a jack for car registration 290.

Yours very truly,

TIMOTHY LEARY, M. D.,
Medical Examiner.

FIRE DEPARTMENT ORDERS.

General Order No. 41.

I. EXAMINATION FOR PROMOTION TO DEPUTY CHIEF.

The Department of Civil Service will hold an examination for promotion to the grade of deputy chief in the Boston Fire Department on July 30, 1946.

The examination is open to all permanent district chiefs in the department who have been employed in this grade, after certification, for at least one year prior to the date of examination.

The duties are the regular duties of a deputy chief.

Subjects and weights of examination are as follows: Seniority, 3; report, 2; practical questions, 10; total, 15.

Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Application blanks may be obtained at the office of the Fire Commissioner. When completed, applications should be sent to the Division of Civil Service, Room 148, State House, Boston. Applications must be placed on file not later than Tuesday, July 9, 1946, at 5 p. m.

Applicants who are absent on military duty will be allowed to take this examination provided they make request at the time of filing application.

Applicants will be notified at a later date of the time and place of examination.

Exchange of time off will be allowed so that officers desiring to take the examination can do so without interfering with the efficiency of the department.

Copies of poster concerning the foregoing examination are being issued to the department today. One copy is to be posted in a conspicuous place in each fire station and other buildings of the department.

II. TRANSFERS.

The following transfers which will become effective at 8 a. m., Wednesday, June 19, 1946, are hereby announced:

Ladderman Edward J. C. Powers, from Ladder 8 to Fire Prevention.

Hoseman Joseph L. O'Donnell, from Engine 29 to Fire Prevention.

Hoseman Thomas F. Somma, from Engine 49 to Engine 28.

Ladderman John A. Dovi, from Ladder 18 to Ladder 20.

Apparatus Operator Valentine B. Nolan, from Engine 26 to Fire Prevention.

III. RESIGNATION.

The following resignation which will become effective at 8 a. m., Wednesday, June 19, 1946, is hereby announced:

P. M. S. Pasquale LaSelva, Ladder Company 31.

IV. ACTING DISTRICT CHIEFS.

Captains John F. Sampson of Engine Company 25 and John T. J. Cronin of Ladder Company 18 are hereby designated as Acting District Chiefs of District 3, effective as of June 5, 1946. Capt. M. J. Buckley, Ladder 1, designated Acting Chief of District 4.

V. APPRECIATION.

The Fire Commissioner is pleased to publish the following letter received from the General Manager of the National Fire Protection Association:

"DEAR COMMISSIONER,—This is to thank you formally for the very fine cooperation that we received from you during our 50th annual meeting in Boston last week. The demonstrations at India Wharf and the fire boat demonstrations were greatly enjoyed by our members and we certainly appreciated your arranging to have some of your officers around during the meeting. They were mighty helpful to us. Thank you very much indeed.

Cordially yours,

PERCY BUGBEE,
General Manager."

By order of Fire Commissioner
RUSSELL S. CODMAN, JR.

NAPEEN BOUTILIER,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 679.

The Superintendent of Police is hereby directed to make the following details for duty at the State Primary in this city on Tuesday, June 18, 1946.

1. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the State Primary at 10 o'clock a. m., Friday, June 14, 1946, such details to continue until all ballots cast at the primary have been received.

2. A detail of one patrolman for duty in parking area surrounding City Hall Annex at 4 o'clock p. m., Monday, June 17, 1946 (the night before election day), to keep the entire area clear for the following morning, so that motor trucks coming to the Election Commissioners' office for ballots at early hours on primary morning will be able to park without interference or delay.

Despite the fact that Monday, June 17, will be observed as a holiday, it is thought that night workers, accustomed to parking their cars in Court square, will be in town as usual.

As twenty-five trucks arrive practically simultaneously in the early hours on Tuesday, it is essential that the entire area surrounding the Annex be kept clear throughout the night.

*Note.

The Board of Election Commissioners states that the Traffic Commission has been written to for "No Parking" signs, to reserve space necessary for motor vehicles assigned to the Board on Tuesday, June 18, for election purposes.

3. An officer of rank above that of sergeant for duty at the City Hall Annex, to supervise the police detail for motor trucks from 5 o'clock a. m., Tuesday, June 18, 1946, until relieved, and a patrolman from 4 o'clock p. m. on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

4. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on State Primary Day, to preserve order and protect voters in the full exercise of their rights.

5. Twenty-five sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample season, to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

SCHEDULE FOR HOURS OF DEPARTURE OF SERGEANTS SO DETAILED FROM OFFICE OF BOARD OF ELECTION COMMISSIONERS ON MORNING OF JUNE 18, 1946.

(One motor vehicle for each of the twenty-two wards, excepting Ward 1, East Boston; Ward 18, Hyde Park; and excepting, also, Ward 20, West Roxbury, for which two trucks each have been engaged.)

Wards 1 to 7, inclusive, 6 a. m.
Wards 8 to 10, inclusive, 5.30 a. m.
Ward 11, 5 a. m.
Ward 12, 5.45 a. m.
Wards 13 to 17, inclusive, 5.30 a. m.

Ward 18, 5.15 a. m.
Wards 19 and 20, 5.20 a. m.
Ward 21, 5.25 a. m.
Ward 22, 5.30 a. m.

6. For proper coordination in the delivery of ballot boxes, ballots, etc., by the sergeants, as herein set forth, to the police officers detailed at the various precincts, it is of the utmost importance that such sergeants leave the City Hall Annex promptly on time as per schedule.

7. One patrolman to report at each of the three hundred and ninety-five precincts, as hereinafter set forth, on Tuesday, June 18, 1946, to receive ballot boxes, ballots, etc., from the sergeants detailed on motor trucks.

Attention is called to the necessity of having officers, so detailed, to report at their posts on time, so that there will be no delay in the opening of any polling place.

In Ward 22, Precinct 3 (polling place located in Allston Station of Boston & Albany Railroad), from the opening to close of the polls, an additional officer will be detailed outside the polling place, making two officers in all on the outside at that location, to safeguard the voters.

SCHEDULE OF THE HOUR FOR OFFICER TO REPORT IN EACH OF THE PRECINCTS TO RECEIVE BALLOT BOXES, BALLOTS, ETC., FROM SERGEANTS DETAILED ON MOTOR TRUCKS.

Ward 1, Precincts 9 to 11, inclusive; Precincts 13 to 19, inclusive; and Precinct 22, 6.15 a. m.
Ward 1, Precincts 1 to 8, inclusive; and Precincts 12, 20, 21, 23 and 24, 6.30 a. m.
Ward 2, 6.30 a. m.
Wards 3, 6 and 7, 6.45 a. m.
Ward 4, Precincts 1, 2 and 5, 6.30 a. m.
Ward 4, Precincts 3 and 4; and Precincts 6 to 15, inclusive, 6.45 a. m.
Ward 5, Precincts 4 to 7, inclusive, 6.15 a. m.
Ward 5, Precincts 1, 2 and 3; and Precincts 8 to 13, inclusive, 6.30 a. m.
Ward 5, Precincts 14 to 16, inclusive, 6.45 a. m.
Ward 8, Precincts 1 to 8, inclusive, 6 a. m.
Ward 8, Precincts 14 to 16, inclusive, 6.15 a. m.
Ward 8, Precincts 9 to 13, inclusive, 6.20 a. m.
Ward 9, Precincts 1 to 6, inclusive, 6 a. m.
Ward 9, Precincts 7 to 15, inclusive, 6.30 a. m.
Ward 10, Precincts 1 and 2; and Precincts 4 and 6, 6 a. m.
Ward 10, Precincts 3 and 5; Precincts 7 to 11, inclusive; and Precinct 17, 6.15 a. m.
Ward 10, Precincts 12 to 16, inclusive, 6.30 a. m.
Ward 11, Precinct 1, 5.45 a. m.
Ward 11, Precincts 2 to 4, inclusive, 6 a. m.
Ward 11, Precincts 5 to 12, inclusive, 6.15 a. m.
Ward 11, Precincts 13 to 16, inclusive, 6.30 a. m.
Ward 12, Precincts 1 to 5, inclusive, 6 a. m.
Ward 12, Precincts 6 to 8, inclusive, 6.15 a. m.
Ward 12, Precincts 12 to 19, inclusive, 6.30 a. m.
Ward 12, Precincts 9 to 11, inclusive, 6.45 a. m.
Ward 13, Precincts 1 to 5, inclusive, 6 a. m.
Ward 13, Precincts 6 and 7, 6.15 a. m.
Ward 13, Precincts 9 to 12, inclusive, 6.30 a. m.
Ward 13, Precinct 8 and Precincts 13 to 16, inclusive, 6.45 a. m.
Ward 14, Precincts 1 to 5, inclusive; and Precinct 21, 6 a. m.
Ward 14, Precincts 6, 7 and 11, 6.15 a. m.
Ward 14, Precincts 8 to 10, inclusive; and Precincts 12 to 20, inclusive, 6.30 a. m.
Ward 15, Precincts 1 to 4, inclusive; and Precincts 13 and 14, 6 a. m.
Ward 15, Precincts 5 to 8, inclusive, 6.15 a. m.
Ward 15, Precincts 9 to 12, inclusive, 6.30 a. m.
Ward 15, Precinct 15, 6.45 a. m.
Ward 16, Precincts 1, 2, 5 and 15, 6.15 a. m.
Ward 16, Precincts 6 to 14, inclusive; and Precincts 16 to 19, inclusive, 6.30 a. m.
Ward 16, Precinct 20, 6.45 a. m.
Ward 16, Precincts 3 and 4, 7 a. m.
Ward 17, Precincts 1 to 6, inclusive, 6 a. m.
Ward 17, Precincts 7 to 9, inclusive, 6.15 a. m.

Ward 17, Precinct 10; Precincts 12 to 15, inclusive; and Precinct 19, 6.30 a. m.
Ward 17, Precinct 11; Precincts 16 to 18, inclusive; and Precinct 20, 6.45 a. m.
Ward 18, Precincts 7 to 11, inclusive; and Precinct 14, 6 a. m.
Ward 18, Precincts 4 to 6, inclusive; Precincts 12, 15, 17; and Precincts 19 to 21, inclusive, 6.15 a. m.
Ward 18, Precincts 1 to 3, inclusive, and Precincts 13, 16 and 18, 6.30 a. m.
Ward 19, Precincts 1 to 4, inclusive, 6 a. m.
Ward 19, Precincts 5 to 9, inclusive; and Precinct 17, 6.15 a. m.
Ward 19, Precincts 10 to 12, inclusive; and Precinct 15, 6.30 a. m.
Ward 19, Precincts 13 and 14; and Precinct 16, 7 a. m.
Ward 20, Precincts 1 to 5, inclusive; and Precinct 22, 6 a. m.
Ward 20, Precincts 6 to 10, inclusive; and Precinct 15, 6.15 a. m.
Ward 20, Precincts 13 and 16; and Precincts 18 to 21, inclusive, 6.30 a. m.
Ward 20, Precincts 11, 12, 14 and 17, 6.45 a. m.
Ward 21, Precincts 1 to 5, inclusive, 6 a. m.
Ward 21, Precincts 6 to 10, inclusive, 6.15 a. m.
Ward 21, Precincts 12 to 18, inclusive, 6.30 a. m.
Ward 21, Precinct 11, 7 a. m.
Ward 22, Precincts 1 to 5, inclusive, 6.15 a. m.
Ward 22, Precincts 6 to 9, inclusive; and Precinct 17, 6.30 a. m.
Ward 22, Precincts 10 to 12, inclusive; and Precincts 15 and 16, 6.40 a. m.
Ward 22, Precincts 13 and 14, 7 a. m.

8. Commanding officers are to take notice it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes as is plainly seen, with the balance of the delivery schedule.

9. This detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' office.

10. Cards with the ward and precinct number and location of voting booth printed thereon will be forwarded to the several police divisions, on which the Division Commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of June 18, 1946, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivery by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from the Election Commissioners' office on the morning of June 18, 1946, with the ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

11. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot

box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

12. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots, after which the patrolman will see that the box is again locked, and the key returned to the police officer.

The Board of Election Commissioners states that if a heavy vote is cast, large ballots, such as those used on November 6, 1945, are apt to catch in the mechanism of the ballot box, and that if the ballots are not pressed down, there is danger that some of them may become mutilated.

13. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

14. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of polls.

15. When the polls are opened, the patrolman will mark in the place indicated on the tag attached to the key the figures which the register shows before any ballots are cast.

16. At 8 p. m., Tuesday, June 18, 1946, when the polls close, one sergeant will report in each of the 22 wards (excepting Ward 1, East Boston; Ward 18, Hyde Park; and Ward 20, West Roxbury, for which wards two sergeants and two motor trucks, each, are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked), and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot box, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots and check lists, carry them to the Election Commissioners' office and deliver same to some member of the Board of Election Commissioners.

17. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists, including the list used by the police officer, to be sealed up in an envelope, and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners, as described in Section 16 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep

it about his person until delivery at the office of the Election Commissioners.

The unused and spoiled ballots are then to be put into the box for unused ballots and the box sealed and certified, to be delivered to the office of the Board of Election Commissioners as set out in the paragraph immediately preceding.

18. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

19. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

20. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official return, the box of ballots cast, and the press return to the Election Commissioners' office as soon as they are delivered to him by the election officers.

21. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else (the ballots to be in their separate boxes or envelopes) shall be placed by the warden in the leatheroid box sent for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners.

The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box with ballots cast, but are to be returned by the officer to the Board of Election Commissioners.

22. While the polls remain open an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with headquarters.

23. Attention is called to the fact that the polls at the State Primary on Tuesday, June 18, 1946, shall open at 8 o'clock a. m. and close at 8 o'clock p. m.

24. Commanding officers of divisions will see that the officers detailed for duty on State Primary Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on . . . Primary Days."

Notes.

A. Attention is again called to the last paragraph of the circular, "Instructions to Police Officers on . . . Primary Days," which reads: "The police officer is directed not to allow the official return, press return or record book to be placed in the leatheroid box."

On this subject the Board of Election Commissioners wrote on a previous occasion:

" . . . This matter is very important and we have stressed it for years; still we have difficulty in respect to it at every primary and election. This year we are again giving our election officers special instructions, and we believe that if the officer is alert he can remind the precinct workers that the three items named . . . (official return, press return and record book) are to be given to him to return to the office of the Election Commissioners."

The officer of rank who will visit the polling places in each division (provided for in Section 22 of this order) shall, at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls that the official return, press return and record book are not to be placed in the leatheroid box.

They shall be handed to the police officer, who will deliver them as set out in the paragraph immediately following.

B. The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return, press return and record book which he shall safely deliver to the Election Commissioners with the leatheroid box, as provided in Section 21 of this order.

C. The police shall enforce the order that smoking is prohibited within the confines of the polling places during the entire day, while the polls are open, as well as after they are closed.

The Board of Election Commissioners makes special request that the officers detailed at the 395 precincts be instructed to see that this is enforced.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

Commanding officers will take notice of the following comments contained in a letter to the Police Commissioner, dated October 23, 1942, from the Board of Election Commissioners:

"The law prohibits smoking in any polling place—after the polls are closed as well as while they are open.

"We request that the officers be reminded that it is their duty to assist the warden in enforcing this law. Since the recent primaries we have received several complaints from owners of private property used for polling, to the effect that smoking was prevalent at the primaries. This violation of law must not be permitted to continue. We have had letters from members of the boards of two churches warning us that if smoking continues we will have to vacate the premises.

"We trust that you will stress this matter with the officers."

D. The following matter was on a previous occasion brought particularly to the attention of the Police Commissioner in writing by the Board of Election Commissioners. Commanding officers will see that this cause of complaint, if it again occurs, is corrected:

"During the hours from 6 p. m. to 8 p. m. there has been a large increase in the number of persons who congre-

gate outside the polling places. This makes it disagreeable to voters who are entering and leaving the polling places. May we ask that the police use every effort to relieve this congestion?"

E. Under date of October 27, 1939, the Board of Election Commissioners wrote to the Police Commissioner as follows:

"We also request that the officers assigned to the polls be reminded that it is the privilege of the voters to watch the count of votes cast; the law specifically states, 'The voting lists and all ballots removed from ballot box shall be kept in open view of the voters present until enclosed and sealed up, and all proceedings in the canvass and counting of votes shall be public and in open view of the voter.'

"It is understood, of course, that no disturbance or crowding is to be allowed and that the voters are to remain outside the rails."

F. In a letter dated April 3, 1944, to the Police Commissioner from the Board of Election Commissioners, the following comment was made:

"We also request that the officers be reminded of the necessity of handling ballot boxes with care.

"Under present conditions, this is more essential than ever, since we find that it is very difficult to replace boxes because of wartime shortages of materials."

G. The Board of Election Commissioners calls attention to the fact that in fourteen instances (five new this year) there are two precincts now located in the same building.

The Board is of the opinion that officers assigned should be apprised of this fact, so that they may assist voters who are confused by proximity of such polling places.

The locations are as follows:

Ward 1, Precincts 2 and 3, are in the Samuel Adams School, Webster street—Precinct 2 in one section of the Assembly Hall; Precinct 3 at the other end of the Assembly Hall.

Ward 1, Precincts 15 and 16, are in the John Cheverus School, Moore street, corner McClellan Highway—Precinct 15 in the girls' basement; Precinct 16 in the boys' basement.

Ward 2, Precincts 14 and 15 are in the Clarence R. Edwards School, Walker street—Precinct 14 in the gymnasium; Precinct 15 in the sewing room in the basement.

Ward 3, Precincts 13 and 14, are in Health Unit, North Margin street—two precincts in different ends of the same room.

Ward 3, Precincts 15 and 16, are in Mayhew School, 106 Chambers street, corner Poplar street—Precinct 15 in the boys' basement; Precinct 16 in the girls' basement.

Ward 4, Precincts 4 and 8, are in the Charles C. Perkins School, St. Botolph street—Precinct 4 in the kindergarten; Precinct 8 in the basement.

Ward 5, Precincts 14 and 15, are in Martin Milmore School—Precinct 14 uses the Kilmarnock street entrance; Precinct 15 uses the Peterborough street entrance.

Ward 10, Precincts 3 and 8, are in the Farragut School, Huntington avenue—two precincts in different parts of the basement.

Ward 11, Precincts 13 and 16, are in the Michael J. O'Connell Post, American

Legion (recently changed to the Jamaica Plain Post), 129 South street—both precincts in the hall on the first floor.

Ward 12, Precincts 3 and 5, are in Boston Clerical School, Warren street—Precinct 3 in custodian's room; Precinct 5 in gymnasium.

Ward 13, Precincts 9 and 14, are in the Knights of Columbus Building, Pearl and Pleasant streets—Precinct 14 in the reception room; Precinct 9 in room opposite reception room.

Ward 15, Precincts 8 and 9, are in the John Marshall School, Westville street—Precinct 8 in the kindergarten; Precinct 9 in basement.

Ward 16, Precincts 18 and 19, are in Old Dorchester Post, A. L., 500 Gallivan Boulevard—Precinct 18 in hall on first floor; Precinct 19 in hall on second floor.

Ward 21, Precincts 14 and 15, are in Alexander Hamilton School, Chestnut Hill avenue—Precinct 14 in the Assembly Hall; Precinct 15 in the basement.

Change in the Law.

H. The Board of Election Commissioners, under date of April 3, 1944, wrote to the Police Commissioner as follows:

"The officers should be reminded of a change in the law affecting the closing of the polls. (This law was operative at the City Election in November, but we feel it is well to bring it to the attention of the men again at this time.)

"At the close of the polls all voters who are waiting to vote (including any who might be in line at the entrance to the polling place) are to be given cards bearing their names by the warden and placed in a line.

"A police officer is to stand at the end of the line to be certain that persons not present at the close of the polls are not permitted to join the line.

"All voters in the line are to be permitted to vote, and when the last group enters the marking compartments they are to be permitted five minutes to mark their ballots."

I. Candidate Running on "Stickers."

The Board of Election Commissioners has stated that a candidate running on "stickers" (or his representative) may stand at the entrance to the polling place to distribute "stickers."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience parking of vehicles is prohibited in the following streets, from June 15, 1946, to October 1, 1946, inclusive:

Columbia Road, South Boston.

North side, from I street to Farragut road, twenty-four hours.

I. Street, South Boston.

Both sides, from Columbia road to East Eighth street, twenty-four hours.

Strandway, South Boston.

East and south side (ocean side), from Kosciuszko Circle to Farragut road, twenty-four hours.

Ticknor Street, South Boston.

Both sides, from Columbia road to Marine road, twenty-four hours.

Voted, That as urgently required by considerations of public safety and convenience, during the period of baseball or football games at Braves Field, when signs are in place, the following temporary rules are effective from June 8, 1946, to December 11, 1946:

Parking of vehicles is prohibited in the following street:

Gardner Street, Brighton.

South side, from Malvern street to Harvard avenue.

The following streets are one way in the direction indicated:

Alcorn Street, Brighton.

From Gardner street to Ashford street.

Ashford Street, Brighton.

From Babcock street to Linden street.

Chester Street, Brighton.

From Ashford street to Brighton avenue.

Gardner Street, Brighton.

From Malvern street to Harvard avenue.

Linden Street, Brighton.

From Brighton avenue to Cambridge street.

Malvern Street, Brighton.

From Brighton avenue to Ashford street.

Pratt Street, Brighton.

From Linden street to Ashford street.

Voted, That as urgently required by considerations of public safety and convenience, for a trial period of sixty (60) days, the Revised Traffic Rules and Regulations of the City of Boston are amended as follows, effective June 20, 1946:

Section 8, Part 2 (Prohibition of Parking), is amended by adding the following:

Southampton Street, South Boston.

North side, from a point one hundred and eighty-seven (187) feet east of New York, New Haven & Hartford Railroad bridge to a point two hundred and ninety (290) feet east of New York, New Haven & Hartford Railroad bridge, twenty-four hours.

South side, from a point eighty-four (84) feet east of New York, New Haven & Hartford Railroad bridge to a point one hundred and ninety-six (196) feet east of New York, New Haven & Hartford Railroad bridge, twenty-four hours.

Voted, That as urgently required by considerations of public safety and convenience, for a trial period of sixty (60) days, the Revised Traffic Rules and Regulations of the City of Boston are amended as follows, effective July 8, 1946:

Section 15 (Commercial Vehicles May Back to Curb or Edge of Roadway Except in Specified Places) is amended by adding the following:

Atlantic Avenue, Boston Proper.

West side, from Commercial street to Summer street, 4 p. m. to 6 p. m.

Brookline Avenue, Boston Proper.

Both sides, from Kenmore square to Park Drive, 4 p. m. to 6 p. m.

Commercial Street, Boston Proper.

Southwest side, from Prince street to Atlantic avenue, 4 p. m. to 6 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

May 14, 1946.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 7:10 o'clock p. m., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton and White.

APPROVAL AND AMENDMENT OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

On motion, the minutes of previous meetings were amended as follows:

Oct. 5, 1944, on page 140, to provide that the appointment of Eileen M. Keane, school nurse, Department of School Hygiene, to take effect Oct. 16, 1944, shall read "second year."

Oct. 2, 1945, on page 145, to provide that the leave of absence without pay granted Walter E. Leidner, head of department, men, Roxbury Memorial High School (Boys), for the term Sept. 24, 1945, to Apr. 30, 1946, shall read "Sept. 24, 1945, to Apr. 29, 1946."

Apr. 23, 1946, on page 61, to provide that the discontinuance of the military leave of absence granted Robert L. Bertolli, junior master, High School of Commerce, to take effect Mar. 29, 1946, shall read to take effect "Mar. 31, 1946."

APPROVAL OF STATE-AIDED WORK

A communication was received from M. Norcross Stratton, Division of Vocational Education, Massachusetts Department of Education, under date of Mar. 28, 1946, reporting that the Commissioner of Education has approved the arrangement that the enrollment in the Boston Part-time Trade Preparatory School (Boston Teachers College) with departments of machine shop, machine drafting, and radio, be restricted to veterans of World War II, exclusively, beginning Apr. 1, 1946.

If the plans as submitted are carried out, the work of the Boston Part-time Trade Preparatory School will be given approval and the City of Boston recommended for reimbursement under the provisions of Chapter 74 of the General Laws, as amended, reimbursement to date from Apr. 1, 1946.

Placed on file.

A communication was received from M. Norcross Stratton, Division of Vocational Education, Massachusetts Department of Education, under date of Mar. 28, 1946, reporting that a tuition rate of \$437.50 per year is approved

and effective Apr. 1, 1946, for veterans attending the Boston Part-time Trade Preparatory School. (Boston Teachers College).

Placed on file.

A communication was received from Daniel H. Shay, Agent, Board of Collegiate Authority, Massachusetts Department of Education, reporting that all courses at the Boston Part-time Trade Preparatory School, located at the Boston Teachers College, have been approved by the Board of Collegiate Authority for the purposes of Public Law 346.

This letter is a correction of information previously submitted regarding state-aided vocational schools. This school should have been included with all other state-aided vocational schools submitted previously as approved under Public Law 346.

Placed on file.

SUGGESTED ESTABLISHMENT OF POLICY—FILLING OF VACANCIES, CHANGES IN SALARIES, ETC.

Mr. White: I have three orders that I was not able to submit at the meeting on the budget, and I would like to submit those three orders now. I would like to read them again.

1. ORDERED, That the members of the School Committee agree where vacancies occur in the teaching staff—and I am talking specifically about the teaching staff—that they be filled when the numbers existing, according to our rules, warrant those appointments.

For the benefit of the school system and so that this reduction in the budget will not affect the efficiency of the teaching staff and also so that it will not result in an inequity to the people on our lists, where there is an opportunity for an appointment this year, and that they will be given their just right to an appointment.

2. ORDERED, That the School Committee agree that where vacancies occur in the supervisory administrative staff by death or retirement—and I am referring to directors and assistant directors—and no present incumbents are affected and nobody will be hurt, that with our dwindling school population such vacancies be not filled.

We will then not have the disproportionate administrative costs that have affected our appropriations, to my knowledge, for the last ten years, so that we can make that money available to put teachers to work who might, otherwise be laid off.

3. ORDERED, That the members of the School Committee agree that any motion made by a member of this Committee with reference to any change in the salary of an individual, or group changes of salary, or new jobs created, be posted for one month

in all of the schools and published in the School Committee records, so that everybody in the school system who is interested will have a chance to advocate or oppose the salary changes or the creation of new jobs.

I think this is good public policy, that it will establish a lot of good will, that it will prove to be good collective bargaining with the teachers, and that it will save us a lot of headaches and prevent inequalities. It would certainly prevent a lot of special motions and special legislation up here.

I would like to have these orders voted upon at this time.

Dr. Foley: I would like to study them.

Chairman: They are very interesting orders.

Mr. White: I have made the motion. The only vote you can have is approval or disapproval of this, and I insist on my rights, that the motion be denied or not.

Dr. Foley: You would not object if a member asked for an opportunity to study them?

Mr. White: No, Doctor, but I asked you two weeks ago and you refused me the opportunity. You have had two weeks to study these proposals. We have discussed one of them this afternoon for nearly an hour.

I have made that motion and I would like it to be denied or adopted.

Chairman: It has been the rule here that when a member asked for an opportunity to study a matter, that he be given that opportunity.

Dr. Foley: You have not a full board. I do not see how you can act. I would like to study them. No member has a license to ask me how I am going to vote.

Mr. White: You can tell the public how you are going to vote when you study them.

Dr. Foley: I would like a week or two weeks.

Mr. White: At the end of two weeks you will be within two weeks of the close of school. I think it is getting so close to the end of the school year that we should let these people know definitely whether they will have a chance of appointment or not.

Dr. Foley: What do you think about it, Mr. Superintendent?

Superintendent: The third part of it disturbs me, the posting of a notice in each school.

Mr. White: They are three distinct orders and I hoped I would not have to ask you again to consider them, because at the last meeting you said you thought they required a little study.

This is not the first time you have heard about this. I have discussed this before with you.

There are three distinct orders. It is parliamentary procedure to vote on each order as it comes along.

Chairman: Has anyone anything else to say on this matter? Some of these orders seem to be pretty good.

Dr. Foley: I don't think the Superintendent is quite ready to vote.

Superintendent: I do not vote. The thing that concerns me is publishing a notice in 240 school buildings.

Mr. White: What is difficult about that? I have sat around this table and week after week I have seen you ask for permission to post a notice for the Teachers Union, for the A. F. of L., the CIO, and for the Red Cross, and it has been done in two minutes; you agree to send a letter and post it. What does that require? I have seen that happen in five seconds at one of these meetings. If you have some other objection I would like to hear it.

Dr. Foley: Has the Board of Apportionment or the Board of Superintendents reviewed any of these orders at all? Have they looked into the advisability of these orders? Isn't it customary for the School Committee to refer matters of this kind to the Board of Superintendents?

Mr. White: It has all depended on what you wanted to do.

Dr. Foley: I am not asking you, Mr. White. Isn't it customary to refer orders of this kind to the Board of Superintendents?

Superintendent: It is not a uniform policy, no.

Dr. Foley: I am trying to get at the procedure.

Chairman: This is a question of strategy. Let me say again that there is no confusion at all. There are certain well-formulated forms of procedure that we commonly call boxing.

Mr. White: I am not facetious about this. I am serious about it and, in my opinion, for the benefit of the school system this ought to be accepted. The only thing I would like to find out is whether you agree with me by vote.

Chairman: No one has said that you were considering this lightly. I would like the Board of Superintendents to make a study of the three proposals. Usually the Board of Superintendents does make a study of such recommendations and reports back.

Mr. White: The first is nothing more than we have done year after year, but because of the cut in the budget the Superintendent says he does not see how he is going to do it. There was provision in the order that cut the salary appropriation that there would be no teachers appointed.

Superintendent: As a matter of fact, I have no objection to the first order. When this cut in the budget was suggested to us by the representative of the Municipal Research Bureau it was said that the proposed budget was based on the fact that there would be no appointments and no replacements. In other words they do not stand on their figures if there are to be appointments and replacements.

Mr. McDevitt: That order specifically states that in cases where

there is a full pupil load a teacher will be appointed.

Chairman: According to our rules.

Mr. White: The Superintendent told me that in the face of this order that you voted for, he could not make appointments.

Superintendent: That is what Mr. Atkins and Mr. John Costello told us here.

Chairman: To hold the present set-up as is.

Superintendent: And not even to make replacements.

Dr. Foley: Why would there be objection to the Board of Superintendents reviewing these orders? Is there any objection to that?

Mr. White: I believe time is of the essence, and the more you postpone this, the closer you come to the last day of school. If you do not make these appointments before the close of school these people on the list are out of luck; there will be a new list and those who merited appointment this year will not get it.

Dr. Foley: Are you acquainted with these orders, Mr. Haley?

Asst. Supt. Haley: I heard them.

Mr. White: They were in the minutes for at least two weeks and were printed in the paper.

Asst. Supt. Gillis: I am for filling vacancies absolutely. The people on the list deserve those appointments.

Chairman: If there are pupils there.

Asst. Supt. Gillis: If there is a job there the people on the list have a moral right to the appointment.

Mr. White: That is all the order does.

Chairman: I can't see anything wrong with that.

Dr. Foley: I move that we accept the first order.

Chairman: It is moved that Mr. White's first order be accepted.

Asst. Supt. Downey: There should be a provision "provided there is money in the budget."

Chairman: That is understood.

Mr. White: I don't want that order altered. You can provide and you can transfer an appropriation and put the money somewhere else.

Dr. Foley: I think we ought to hold it over until we can review it. The Board of Superintendents are not united on this. They do not understand it.

Mr. White: All you have to do is to vote on it.

Chairman: Can you report on this whole business next Tuesday?

Mr. White: Suppose they tell you that they cannot do it because in their opinion there is no money in the budget?

Chairman: I would like to hear what they have to say on it.

Mr. White: I think it is a travesty to cut the budget and prevent people who are eligible for appointment this year from being

appointed. If you people want to postpone it, vote for the postponement.

Chairman: You move, Doctor, that action on Mr. White's orders be postponed?

Dr. Foley: To postpone, and to give the matter to the Board of Superintendents.

Question came on the motion to postpone action on Mr. White's three orders to next Tuesday, May 21, 1946, at which time a report is to be received from the Board of Superintendents.

The Secretary was directed to call the roll.

The members, as their names were called, respectively stated that they voted as follows:

YEAS—Messrs. Foley, McDevitt, and Norton—3.

NAYS—Mr. White—1.

ABSENT—Mr. Ward—1.

Mr. White continuing: I don't think there is any degree of foresight on the passing of the budget the way we did it, when you do not show any intention of cutting down the overhead in the very place expense is not necessary. I think you should have gone on record to cut down the expenses of the administrative staff.

Chairman: I think you will find there is some sympathy with what you are talking about. We will have to take cognizance of the new day that has arrived here.

The salaries amount to around \$12,000,000 and I understand in the first third of the year we spent less than the one-third that was allotted. I hope we can get down and down so that when we come to the end of the year nobody is hurt.

From the first third of the year I think there is encouragement that we will be able to take care of those departments that should be taken care of.

ACCEPTANCE OF OFFICE

The following communication was received:

April 30, 1946.

Miss Agnes E. Reynolds
Acting Secretary
Boston School Committee
Dear Miss Reynolds:

Please extend to the members of the Boston School Committee my sincere appreciation of their confidence in unanimously re-electing me Assistant Superintendent of the Boston Public Schools, for a term of six years, to take effect September 1, 1946.

Assure them of the deep faith I have in our Boston School System and of the earnest effort I shall make to keep the ideals and standards of that beloved school system the activating motive of all my work.

Sincerely yours,
(signed) Katharine C. McDonnell
Assistant Superintendent

Placed on file.

RESIGNATIONS

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:

Roxbury Memorial High School (Boys)—John Griffin, master, Apr. 26, 1946.

South Boston High School—E. Patricia McCulloch, assistant, Apr. 29, 1946.

Assignments

General Helpers — Louise B. Dumas, Rosemary Gibbons, Helen V. Mahoney, George B. Trongone, Joseph A. Trongone, Apr. 25, 1946.

Helpers—Josephine A. Murray, M. Jennie Murtha, Helen A. Waters, Apr. 25, 1946.

Approved.

TEACHER OF PHYSICALLY HANDICAPPED CHILDREN

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee, he has assigned the following-named teacher for home instruction of physically handicapped children, to take effect May 6, 1946:

Ethel M. Cunningham.

Approved.

GARDENING

Season of 1946

(To take effect May 11, 1946)

Supervisors—Elsie McHale, (full time); John J. Connelly, John F. Meade, Cornelius J. O'Leary, John P. Sweeney, (half-time).

Garden assistant—James H. Nolan.

Approved.

LEAVES OF ABSENCE

On motion of the Superintendent, it was

ORDERED, That the action of the School Committee at the meeting of Apr. 23, 1946 (see p. 62), granting the following leave of absence is hereby rescinded:

Edmund P. Tileston District—Henrietta W. Sheinker, teacher, elementary, Apr. 2 to June 27, 1946, without pay.

On motion it was

ORDERED, That the action of the School Committee at the meetings of Oct. 25, 1945 and March 12, 1946 (see p. 177—1945, p. 37—1946), granting the following leave of absence without pay is hereby rescinded:

Washington Allston District—Mildred A. Bradley, assistant, special class, from Feb. 4 to May 31, 1946, inclusive.

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee, he has discontinued the leaves of absence for military service granted the following-named persons, to take effect on the dates indicated:

Rosindale High School—Katharine Keough, assistant, May 16, 1946.

Department of School Hygiene—Eileen M. Keane, school nurse, May 19, 1946.

Placed on file and the discontinuances approved from the dates stated.

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee he has discontinued the leave of absence granted Lillian T. Kearney, teacher, elementary, Gaston-Oliver Hazard Perry District, at the meeting of Oct. 2, 1945 (see p. 145), said discontinuance to take effect June 2, 1946.

Placed on file and the discontinuance approved from the date stated.

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee, he has discontinued the leave of absence for service in the National Catholic Community Service of the U. S. O., of the following-named teacher to take effect on the date indicated:

Hugh O'Brien District—Kathleen G. Oxley, teacher, intermediate, May 12, 1946.

Placed on file and the discontinuance approved from the date stated.

A communication was received from the Superintendent under date of May 14, 1946, recommending that the following-named teacher be granted a leave of absence, without pay, for overseas duty with the Red Cross to take effect Jan. 2, 1946, and to continue for the duration of the war, unless earlier terminated by the Superintendent with the approval of the School Committee: Julia Ward Howe District—Marion G. Connolly, teacher, elementary.

Placed on file and leave of absence without pay granted for the period specified.

On the report of the Superintendent, leaves of absence were granted the following-named teachers for the period specified:

Henry L. Higginson District—May M. Gormley, teacher, elementary, Apr. 4, 1946, one day, court summons.

John Marshall District—Helen G. Gormley, teacher, kindergarten, April 4, 1946, one day, court summons.

On the report of the Superintendent, leaves of absence for study, travel, or for rest, were granted the following named teachers for the term specified:

English High School—Everett J. Ford, master, from Sept. 1, 1946, to Aug. 31, 1947, for study; John J. Keelon, junior master, from Sept. 1, 1946, to Aug. 31, 1947, for study and travel.

Hyde Park High School—John T. Mendenhall, co-operative instructor, from Sept. 1, 1946, to Aug. 31, 1947, for rest.

Abraham Lincoln District—Irvin D. Reade, submaster, from Sept. 1, 1946, to Aug. 31, 1947, for rest.

On the report of the Superintendent and under a suspension of the regulations, leave of absence for study was granted the following-named teacher for the term specified:

Washington Allston District—Mildred A. Bradley, assistant, special class, from Feb. 4 to May 31, 1946, inclusive.

ASSIGNMENTS

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee, he has terminated the assignment of the following-named teacher, to the school indicated, to take effect on the date stated:

Victor J. Campbell, shop instructor, Department of Manual Arts, to East Boston High School, Dec. 31, 1945.

Placed on file and the assignment terminated from the date stated.

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee, he has assigned the following-named secretary to the School for Veterans, without change of rank or salary, to take effect on the date stated and to continue for the school year ending Aug. 31, 1946, unless earlier terminated by the Superintendent, with the approval of the School Committee:

Boston Trade High School—Margaret C. Crowley, secretary, May 8, 1946.

Placed on file and the assignment approved, to take effect on the date stated.

DESIGNATION

A communication was received from the Superintendent, under date of May 14, 1946, reporting that he has made the following designation of a teacher to serve in the position indicated until such time as it shall be filled otherwise in accordance with the rules and regulations but not beyond Aug. 31, 1946:

Department of Manual Arts—William L. Hartnett, shop instructor, as acting shop foreman, May 1, 1946.

Placed on file.

EMERGENCY EMPLOYMENT IN AFTERNOON KINDERGARTEN

On motion of the Superintendent, it was

ORDERED, That the emergency employment of the following-named kindergarten teacher is hereby authorized in the kindergarten indicated for the period specified, and that she be allowed and paid for this emergency service, additional compensation at the rate of two dollars (\$2) per session:

Marian M. Scarr, kindergarten teacher, Stephen M. Weld School, Charles Sumner District, in the afternoon session, Sophia W. Ripley School, Patrick F. Lydon District, May 3, 1946.

TRANSFER OF SECRETARY

A communication was received from the Superintendent, under date of May 14, 1946, reporting that subject to the approval of the School Committee and at the request of the person concerned, he has transferred Gertrude E. Doherty, secretary, East Boston High School, to the position of secretary, Solomon Lewenberg Intermediate District, to take effect Sept. 1, 1946.

Approved.

ATTENDANCE AT CONVENTIONS

On motion, of the Superintendent, it was

ORDERED, That the action of the School Committee at the meeting of Apr. 23, 1946 (see pp. 65-66), authorizing Joseph A. Hennessey, Director of Visual and Radio Education, to attend the Tenth American Exhibition of Education Programs, held in Columbus, Ohio, is hereby rescinded.

On motion, of the Superintendent, it was

ORDERED, That Robert C. Schimmel, master, Dorchester High School for Boys, assigned to the Department of Visual and Radio Education, is hereby au-

thorized to attend the Tenth American Exhibition of Education Programs, sponsored by the Institute for Education by Radio, held in Columbus, Ohio, May 3 to 6, 1946, inclusive, at an expense to the city not to exceed one hundred fifteen dollars (\$115).

A communication was received from the Superintendent, under date of May 14, 1946, submitting in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Frederick J. Gillis, Assistant Superintendent, on his attendance at the President's Highway Safety Conference, held in Washington, D. C., May 8 to 10, 1946, inclusive.

Placed on file.

A communication was received from the Superintendent, under date of May 14, 1946, submitting in accordance with the provisions of Section 3 of Chapter 274 of the Acts of 1914, report of Dennis C. Haley, Assistant Superintendent, on his attendance at the Eastern Commercial Teachers' Association Convention, held in New York City, Apr. 17 to 20, 1946, inclusive.

Placed on file.

LIST OF AUTHORIZED TEXT BOOKS

The Superintendent offered the following eleven orders making changes in and additions to the list of authorized text books:

1. ORDERED, That the following-named books are hereby authorized for use as text books in The Teachers College of the City of Boston:

APPROPRIATIONS AND EXPENDITURES TO MAY 1, 1946

A communication was received from the Business Manager, under date of May 14, 1946, submitting a statement showing the expenditures for maintenance of the public schools for the first four drafts of the current fiscal year, the expenditures for the first four drafts of the fiscal year 1945, and the increases and decreases in the several items.

Placed on file.

DISCONTINUANCE OF MILITARY LEAVE OF ABSENCE

A communication was received from the Business Manager, under date of May 14, 1946, reporting that subject to the approval of the School Committee, he has discontinued the leave of absence for military service granted George F. Noonan, Pay Roll Clerk, Group D, in the office of the Business Manager at the meeting of May 3, 1943 (see page 81), said discontinuance to take effect May 7, 1946.

Placed on file and the discontinuance approved, to take effect on the date stated.

SALARY OF GEORGE F. NOONAN

A communication was received from the Business Manager, under date of May 14, 1946, recommending the passage of an accompanying order adjusting the salary of George F. Noonan who has recently returned from military service, this newly established salary being at the rate he would have been receiving had he not gone into military service.

Placed on file.

On motion, it was

ORDERED, That the classification and the salary or compensation of George F. Noonan, Pay Roll Clerk, Group B, employed in the office of the Business Manager is hereby established at the rate of forty-one dollars (\$41) per week, to take effect May 8, 1946 and to continue until otherwise ordered.

SALARIES OF CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of May 14, 1946, recommending the passage of an accompanying order establishing the salary of certain senior building custodians because the present salary schedule does not include these buildings due to the peculiar type of same and the variance of the services required of the custodians, to take effect April 24, 1946.

Placed on file.

On motion, it was ORDERED, that the weekly compensation of the senior custodians of the following named buildings be established at the rates indicated to take effect Apr. 24, 1946:—

Administration Building, \$82 per week.

Administration Bldg., Annex, \$65 per week.

School Committee Supply Room, \$61 per week.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS,
Acting Secretary.

May 17, 1946.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 4:45 o'clock p. m., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton, and White.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

SALE OF SHARP SCHOOL

The following preamble and order were offered:

WHEREAS, The Sharp School, Pinckney and Anderson Streets, Boston, is not in actual use for school purposes, it is hereby

ORDERED, That it is advisable to sell the following-named property which is not now required for school purposes, in accordance with the provisions of Chapter 259 of the Acts of 1906:

Sharp School, Pinckney and Anderson Streets, Boston:

Land and building.

The preamble was adopted and the order passed, the four members present voting in the affirmative.

The Committee adjourned.

Attest:

AGNES E. REYNOLDS,
Acting Secretary.

CREATES ARBITRATION BOARD TO SETTLE INDUSTRIAL LABOR DISPUTES.

The city council of Toledo, Ohio, recently approved an "industrial relations charter" which creates a labor-management citizens' committee of 18 appointed by the Mayor. The charter is recommended by the Toledo City Council for adoption by representatives of industry and labor in the city. The preamble states: "Industrial harmony means more than the elimination of strikes, slow-downs and lock-outs. It means a practical, common-sense recognition of the rights of both employers and employees, the mutuality of their interests, and the importance of their joint responsibility to the citizens as a whole, whose interests transcend the presumed rights of any group."

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

SENIOR ENGINEERING AID (INDUSTRIAL SANITATION), DIVISION OF OCCUPATIONAL HYGIENE, DEPARTMENT OF LABOR AND INDUSTRIES, AUGUST 2, 1946.

Last date for filing applications, Friday, July 12, 1946, at 5 p. m.

Salary: Basic salary: Minimum, \$1,680 a year; maximum, \$2,160 a year. Temporary salary increase: 20 per cent, not to exceed \$420 a year.

Vacancies: At present there is one vacancy for a male, to be filled on a permanent basis.

Duties: Under general supervision to operate, repair and calibrate instruments used in sampling industrial atmospheres and in the measurement of air flow, temperature, humidity, light, noise and radiation; to design and construct apparatus for sampling industrial atmospheres for the measurement of ventilation, temperature, humidity, light, noise and electromagnetic radiation; to maintain field and laboratory equipment in proper operating condition; to prepare abstracts of articles dealing with engineering aspects of occupational hygiene.

Under direct supervision to collect and quantitatively measure samples of industrial air contaminants by microscopic, X-ray diffraction, or other suitable means, to evaluate results of such determinations in terms of the hazard to exposed workers, and to measure efficiency of means for control of such hazards and advise relative to introduction of or improvement in such control; to measure health factors in industrial illumination, and advise relative thereto; to measure injurious industrial noise and physically injurious heat, humidity, and air motion in industrial establishments, and advise relative to their control; to measure injurious ultra-violet and infra-red radiation and physically injurious X-ray and radium radiation from industrial operations and to advise relative to protection therefrom; to make laboratory tests of efficiency of respiratory protection devices with respect to industrial dusts, fumes and gases; to prepare reports of field studies and investigations including such drawings, plans and charts as may be required; to keep abreast of current research and developments in the field of occupational hygiene important to the engineering personnel; and to perform related work as required.

The ability to use such specialized instruments as the dust sampling impinger, jet dust counter, komimeter, Tyndall meter, dust counting microscope, carbon monoxide detector and recorder, anemometer, katal thermometer, Pitot tube, manometer, psychrometer, Venturi meter, foot candle meter, illuminometer, and wet and dry gas meters, and a working knowledge of industrial chemistry and industrial toxicology, with detailed understanding of the subject of effective temperature, thorough grounding in sanitary engineering, and complete familiarity with the principles of modern industrial ventilation, including exhaust hood and duct design, fan characteristics, and performance of dust filters and collectors, are required.

A knowledge of German and French is desirable.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

CIVIL SERVICE EXAMINATIONS.

LAUNDRY MANAGER, BOSTON INSTITUTIONS DEPARTMENT, AUGUST 9, 1946.

Last date for filing applications, Friday, July 19, 1946, at 5 p. m.

Salary: \$2,200 a year with full maintenance (room and meals), plus a temporary increase as authorized by the City of Boston.

Vacancies: At present there is one vacancy for a male, to be filled on a permanent basis.

Duties: Under the direct supervision of the Medical Director to have full charge of the laundry and its associated departments; to regulate formulas for washing and to analyze washing solutions; to have complete charge of all linen in the hospital and to test linen periodically for tensile strength; to submit specifications for the purchase of all linen used in the institution; to be responsible for the work in the ironing room, sewing room, and sorting room; to propose material for manufacture by the sewing room; to supervise the making of sheets, towels, pillow cases, uniforms and other items, using methods of manufacture which facilitate efficient laundering; and to perform related work as required.

Entrance Requirement: Applicants must have at least five years of full-time, paid experience in laundry work, including at least two years in a supervisory capacity in a large laundry.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR ROOFING REPAIRS AT THE Calf Pasture Pumping Station in Dorchester, Mass.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for roofing repairs at the Calf Pasture Pumping Station in Dorchester, Mass. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Roofing Repairs at the Calf Pasture Pumping Station in Dorchester, Mass.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, July 8, 1946, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
Commissioner of Public Works.

(June 22.)

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

MULTILITH OPERATOR, DEPARTMENT OF EDUCATION, JULY 19, 1946.

Last date for filing applications, Friday, June 28, 1946, at 5 p. m.

Salary: Basic salary: Minimum, \$1,440 a year; maximum, \$1,800 a year. Temporary salary increase 20 per cent, with a minimum of \$300 a year.

Vacancies: At present there is one vacancy for a male, in the Division of University Extension, to be filled on a permanent basis.

Duties: To operate a multilith machine; and to perform related work as required.

Entrance Requirements: Applicants must have at least three months of paid experience in the operation of a multilith machine. Substitution: Completion of a course in multilith operation in a recognized school may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ASPHALT PAVING CONTRACTORS.

INVITATION FOR PROPOSALS FOR LAYING ASPHALT SURFACE AT THE SITE OF THE BENEDICT FENWICK SCHOOL, MAGNOLIA STREET, DORCHESTER.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for laying asphalt surface at the site of the Benedict Fenwick School, Magnolia street, Dorchester.

Proposals will be received until 12 o'clock noon, Wednesday, July 3, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES H. MOONEY,
Superintendent of Construction.

(June 22.)

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

CHIEF POWER PLANT ENGINEER, GRADE D, LYMAN SCHOOL FOR BOYS, DEPARTMENT OF PUBLIC WELFARE, JULY 19, 1946.

Last date for filing applications, Friday, June 28, 1946, at 5 p. m.

Salary: Basic salary, with maintenance: Minimum, \$1,800 a year; maximum, \$2,160 a year. Temporary salary increase, \$420 a year.

Vacancies: At present there is one vacancy to be filled on a permanent basis.

Duties: To have responsible charge of the Lyman School Power Plant, supervising the work of the third-class power plant engineers, electrician, plumber and steamfitter in maintaining the functioning of the heat, power, water, and sewage disposal systems of the institution; to plan the work schedules and keep the time records of these employees; and to perform related work as required.

Examples of Duties: To keep complete records of water evaporation, fuel consumption, boiler pressures and operation of engine generator sets, and records of

water supply; to test fire equipment and apparatus daily to insure proper functioning; to supervise and advise the electrician, plumber and steamfitter in making necessary repairs and minor installations in the electrical, water and plumbing systems of approximately thirty-six buildings; to be responsible for requisitioning and distributing essential materials.

Possession of journeyman electrician and master plumber licenses is desirable but not required.

Entrance Requirements: Applicants who have passed their fiftieth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Veterans who had not reached the maximum age limit at the time of entering military or naval service will not be disqualified by reason of age, within three years after the date of honorable discharge. (See chapter 440, Acts of 1945.)

Applicants must have at least five years of full-time paid experience as a stationary steam engineer, at least one year of which must have been in an institution housing 300 or more patients, inmates, students or employees, with a steam plant generating heat, light and power.

Applicants must possess a second-class stationary engineer's license or a license of a higher grade on the date of filing application.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

SUPERVISOR OF SCHOOLS OF NURSING, BOARD OF REGISTRATION IN NURSING, AUGUST 2, 1946.

Last date for filing applications, Friday, July 12, 1946, at 5 p. m.

Salary: Basic salary: Minimum, \$2,400 a year; maximum, \$2,760 a year. Temporary salary increase: \$420 a year.

Vacancies: At present there is one vacancy for a female to be filled on a permanent basis.

Duties: Under the direction of the Approving Authority, to examine the management of the training schools in nursing; to report detailed information to the Approving Authority so as to provide them with an adequate basis for approval or disapproval of the schools; to perform such other duties as may be designated, in order to assist high schools, hospitals, and schools of nursing to meet the requirements of the Approving Authority; and to perform related work as required.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR INTERIOR AND EXTERIOR PAINTING AT THE LAFAYETTE SCHOOL, RUGGLES STREET, ROXBURY, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for interior and exterior painting at the Lafayette School, Ruggles street, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Monday, July 8, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING WORK AT THE THOMAS GARDNER SCHOOL, BRENTWOOD STREET, ALLSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing work at the Thomas Gardner School, Brentwood street, Allston, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, July 2, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

All the above subject to approval of the Civilian Production Administration as applicable.

JAMES H. MOONEY,

(June 22.) Superintendent of Construction.

Examples of Duties: To secure and submit written reports to the Approving Authority of such information concerning Schools of Nursing as may be required in order to give an adequate basis on which the Approving Authority may make its decision for giving or withholding approval; to confer with representatives of groups of persons interested in Schools of Nursing, such as hospital trustees and superintendents, principals of Schools of Nursing and teachers and students therein, candidates for admission and their parents, secondary school principals, teachers and student advisors, and departments of education; to answer correspondence on all matters which do not need direct reference to the secretary of the Approving Authority or to the Approving Authority itself; to keep records as required by the Approving Authority.

A knowledge of chapter 620 of the Acts of 1941 is required.

Entrance Requirements: Applicants who have passed their fifty-fifth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Applicants must be registered nurses under the State Board of Registration in Nursing on the date of filing application, and must have been registered for at least eight years.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR RESURFACING WEST FOURTH STREET BRIDGE OVER THE NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for resurfacing West Fourth Street Bridge over the New York, New Haven & Hartford Railroad. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Resurfacing West Fourth Street Bridge over the New York, New Haven & Hartford Railroad," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, July 1, 1946, with a certified check for two hundred and fifty (250) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
Commissioner of Public Works.
(June 22.)

Applicants must have had at least six years' experience covering teaching in an Approved School for Nurses, administration of nursing education in an Approved School for Nurses, and administration of nursing service in a hospital.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

HIGHWAY AID.

The Federal Works Agency has apportioned to the states the \$500,000,000 made available for this year under the Federal Highway Aid Act of 1944. This appropriation recognizes that the major traffic problems are in and adjacent to urban centers and is therefore to be spent in large part (\$125,000,000) for removing traffic bottlenecks and connecting principal cities with express highways. A total of \$100,000,000 is being made immediately available for planning, surveying, engineering, acquiring rights-of-way, and for construction.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN DAY SQUARE AND BENNINGTON STREET, WARD 1, FROM PRESCOTT STREET TO 340 FEET EAST OF BRIDGE OVER BOSTON & ALBANY RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Day square and Bennington street, Ward 1, from Prescott street to 340 feet east of bridge over Boston & Albany Railroad. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Day Square and Bennington Street, Ward 1, from Prescott Street to 340 Feet East of Bridge over Boston and Albany Railroad," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, July 9, 1946, with a certified check for twenty-five hundred (2,500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

ROBERT P. CURLEY,
Commissioner of Public Works.
(June 22.)

EMPLOYERS.

Workers for all branches of industry or business can be secured at the Municipal Employment Bureau, 25 Church street, Boston. Tel. Liberty 8607-08-09. GEORGE NORTON, *Director*.

Male and female help furnished on short notice with service that will satisfy any employer. Office, mechanical, factory, domestic, hotel, restaurant, hospital, skilled, and unskilled.

FREE SERVICE TO EMPLOYERS AND APPLICANTS.

CITY OF BOSTON.

PARK DEPARTMENT.

INVITATION FOR PROPOSALS FOR CONSTRUCTING NEW CONVENIENCE STATION FOR WOMEN, PUBLIC GARDEN, BOSTON, MASS.

The Park Commissioners of the City of Boston, 33 Beacon street, Boston, Mass., hereinafter referred to as the Awarding Authority, invite sealed proposals for constructing new convenience station for women, Public Garden, Boston, Mass.

Proposals will be received until 2 p. m., Friday, July 5, 1946, at the office of the Awarding Authority, 33 Beacon street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained at the office of the Awarding Authority.

Sub-bidders bidding on the work of sub-contractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All sub-bidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 2 p. m., Tuesday, July 2, 1946.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each sub-bidder, with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

Information relating to the performance bonds of sub-contractors is set forth in the notice to sub-bidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all sub-bids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

East side, from Commonwealth avenue to the bend ninety (90) feet north of Bay State road.

Section 15 (Commercial Vehicles May Back to Curb or Edge of Roadway Except in Specified Places) is amended by adding the following:

Albany Street, Boston Proper.

West side, from Kneeland street to Broadway, 4 p. m. to 6 p. m.

Section 24, Part 1 (One-Way Streets), is amended by striking out the following:

Carver Street, Boston Proper.

From Boylston street to Broadway.

Section 24, Part 1 (One-Way Streets), is amended by adding the following:

Blackstone Street, Boston Proper.

From North street to Haymarket square.

Carver Street, Boston Proper.

From Boylston street to Eliot street.

From Stuart street to Broadway.

Green Street, Charlestown.

From Main street to High street.

Wood Street, Charlestown.

From High street to Main street.

Section 35 (Left Turns Prohibited) is amended by adding the following:

Exchange Place.

Into Congress street, southerly.

Massachusetts Avenue.

Into Newbury street, easterly.

Tremont Street.

Into Stuart street, easterly.

Section 41 (Isolated Stop Streets) is amended by adding the following:

Faneuil Street, Brighton.

At Bigelow street.

At Champney street.

Linden Street, Brighton.

At Gardner street.

Washington Street, Brighton.

At Breck avenue.

At Nonantum street.

THOMAS F. SULLIVAN

Acting Commissioner.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR CLEANSING, STERILIZING AND RECONDITIONING BASEBALL EQUIPMENT FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for cleansing, sterilizing and reconditioning baseball equipment for the Boston public schools. Proposal forms are obtainable at the office of the Business Manager of the School Committee, 15 Beacon street, tenth floor. Envelopes containing proposals must be sealed and plainly marked "Proposal for Cleansing, Sterilizing and Reconditioning Baseball Equipment." The bid must be in duplicate. One copy, signed by the bidder and accompanied by a certified check, payable to the City of Boston in the amount of fifty dollars (\$50), must be left at the office of the Business Manager on or before 12 o'clock m. on Wednesday, July 3, 1946. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for opening of bids. The School Committee reserves the right to reject any or all bids and to accept the bid or bids which it deems best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,

Business Manager of the School Committee.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 38

SATURDAY, JUNE 29, 1946.

No. 26

REPORT OF FREDERICK J. GILLIS, ASSISTANT SUPERINTENDENT OF SCHOOLS, ON HIS ATTENDANCE AT THE PRESIDENT'S HIGHWAY SAFETY CON- FERENCE, HELD IN WASHINGTON, MAY 8 TO 10.

The following is the report of Assistant Superintendent Frederick J. Gillis on attendance at the President's Highway Safety Conference, held in Washington, May 8, 9, 10, 1946:

The President's Highway Safety Conference was held in Washington, D. C., on May 8, 9, 10, 1946. The purpose of the conference was well stated by President Harry S. Truman in his address to the First General Session:

"I hope that means may be devised by this conference to make our streets and highways safer for motorists and for the public."

The conference was presided over by Major-General Philip B. Fleming, and was addressed by such outstanding speakers as President Harry S. Truman, Honorable William Orville Douglas, Honorable Clare Boothe Luce, and Governor Maurice J. Tobin.

After the First General Session the eighteen hundred delegates divided into eight groups:

ENGINEERING.— Greater stress on safety in the design of roads and vehicles, particularly in stopping, lighting and vision; adoption of vehicle size and weight limits recently proposed by the American Association of State Highway Officials.

EDUCATION.— Highway safety instruction throughout the school years, including driver education for pupils approaching motorist age, and summer and night courses for adults; incentives to further training of traffic experts.

LAWS AND ORDINANCES.— Country-wide adoption of the uniform vehicle code and the model traffic ordinance and the publication of simple, illustrated handbooks on the rules of the road.

ENFORCEMENT.— Consistent, impartial enforcement aimed at getting public cooperation and increased use of the practice of revoking or suspending drivers' licenses when warranted.

ACCIDENT RECORDS.— Keeping of adequate accident records in accordance with the recommendations of the national conference on uniform traffic accident statistics and use of these records in determining future traffic control policies.

MOTOR VEHICLE ADMINISTRATION.— Establishment of motor vehicle departments as independent units of state government and with rank equal to other state departments; adequate financing of these departments and staffing by especially qualified personnel.

PUBLIC INFORMATION.— Use of every possible means of keeping the public fully informed on accident prevention, including the use of volunteer group programs.

Organized Public Support.

My attention was devoted principally to the subcommittee meetings on education. A report of the Committee on Education stressed these facts:

Accidents of all types rank first as a cause of death among young people, aged five to nineteen. One out of every three deaths within this group is the result of an accident. Here is the record:

Among children five to nine years of age, accidents cause five times as many deaths as pneumonia, second ranking cause of death in this age group. In the ten to fourteen year group, accidents are responsible for three times as many deaths as is heart disease, which ranks second as a cause of death. And in the fifteen to nineteen year group, accidents take twice as many lives as does tuberculosis, second ranking cause of death.

Traffic accidents are the leading type of accidents involving fatalities and injuries among all school-age groups. In normal years they account for approximately 40 per cent of accidental deaths among elementary school children, aged five to fourteen, while on the secondary school and college levels, ages fifteen to twenty-four, they make up approximately 60 per cent of the total.

Six out of every ten victims on the elementary school level are pedestrians, while on the secondary school and college levels the ratio is one to ten. Pedestrian training, therefore, becomes particularly pressing on the elementary school level.

The Committee on Education stated the basic needs and reaffirmed the principles of organization and administration of a safety program as expressed in the final chapter of *Safety Education*, the Eighteenth Yearbook of the American Association of School Administrators:

(Continued on page 799.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly in Boston by the Board of Trustees of the Statistics Department of the City of Boston, under the direction of the Mayor, in accordance with legislative act and city ordinance.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, July 1, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Haymarket Square, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughterhouses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE ELECTRICAL INSPECTION DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For week ending June 22, 1946.

Population as of July, 1943, Massachusetts State Census, 817,713; population estimated July, 1946, United States Census Bureau, 766,386; number of deaths (stillbirths excluded): Residents, 169; nonresidents, 47; total, 216.

Death rate per 1,000 of population: All deaths, 14.65; nonresidents deducted, 11.47.

Death rate per 1,000 of population:

Last week, 15.20; corresponding week last year, 14.20.

Deaths by age periods, sex, etc.: Under one year, 17; one year to four years, inclusive, 3; sixty years and over, 121. Total deaths: Male, 114; female, 102. deaths in hospitals and institutions, 147.

REPORT OF FREDERICK J. GILLIS ON PRESIDENT'S HIGHWAY SAFETY CONFERENCE.

(Continued from page 797.)

BASIC NEEDS.

Current traffic accident statistics point to a critical need for a more effective safety education program in schools and colleges. Moreover, there is every indication that the traffic safety problem will become increasingly critical in the months and years ahead. It is expected that the next few years will witness a considerable increase in the number of cars on the streets and highways.

Essentials for an effective program are: (1) a serious consideration of the traffic safety problem leading to action by organized education from the elementary through the university level; (2) safety-conscious administrators who will exercise leadership in defining and placing responsibility for the safety program of their school systems and institutions; (3) trained teachers; (4) well-organized and planned instructional programs; (5) an adequate accident reporting system; and (6) broadly-based community support of the entire traffic safety education effort.

PRINCIPLES REAFFIRMED.

1. Experience shows that many accidents are preventable through a program of education.

2. Instruction in safety is an essential part of the modern school's program of producing good citizens.

3. The determination of the character and the extent of the school safety program and the selection of teaching methods to be used are professional responsibilities of educators.

4. Rural schools, operating under numerous conditions specifically different from those of urban schools, should make an effort to adjust their safety programs to the special conditions of their environment.

5. Safety education for adults is a primary responsibility of the community and the state.

6. In each community it is the responsibility of the Board of Education and its executive staff to build and to maintain school buildings which are safe.

7. Responsibility for areas of safety education not designated specifically by law should be assigned by agreement to the agency or agencies most competent to achieve the desired goal.

8. Teaching youth to be safe and intelligent operators of motor cars is a responsibility of the community.

9. The school has a responsibility for systematic instruction in all aspects of safety.

10. School systems embracing several schools should organize safety coordinating agencies.

11. A formal or informal safety council or committee, or other liaison among safety agencies, should be established in every community.

12. In their efforts to advance the safety movement, educators should recognize the need for appraisal and research.

13. It is remarkable how much can be accomplished if no one is too anxious about who receives credit.

14. Effective programs of safety education should be adequately financed.

15. The time has come for educators to prepare themselves for leadership in safety education.

CIRCULAR LETTER NO. 13.

CITY OF BOSTON,
MAYOR'S OFFICE, June 18, 1946.

To the Heads of All City Departments.

GENTLEMEN,—In accordance with custom, you are authorized to grant leave of absence to employees in your department who are duly accredited delegates or alternates to the annual encampment of the State Department, Veterans of Foreign Wars, or to the annual convention of the State Department, American Legion.

Respectfully,
JAMES M. CURLEY, Mayor.

TRANSFERS OF APPROPRIATIONS AND BUDGET REALLOCATIONS.

The Mayor has approved requests of the following heads of departments for transfers and reallocations of budget appropriations.

ASSESSING DEPARTMENT.

BOSTON, June 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—This request is predicated on the requirement of the Budget Department to conform literally to the principle of segregation of budget items.

The changes in personnel items involved are made necessary by reason of a limited number of salary promotions made as the result of the original salary promotion of Lawrence D. Riley, from \$2,500 to \$3,000.

It is requested, therefore, that you approve the following changes in the Assessing Department budget, Group A: Cancel 1 Executive Clerk at \$3,000 a year and substitute 1 Special Assessment Clerk at \$3,000 a year.

Cancel 1 Special Assessment Clerk at \$2,400 a year and substitute 1 Clerk at \$2,400 a year.

Respectfully,

PETER J. ALLEN, Chairman.

ELECTION DEPARTMENT.

BOSTON, June 7, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—We have been notified by the City Auditor that a purchase requisition (our Order 10714) covering electrical equipment needed for the coming primaries is being held in his office because of an insufficiency of funds in the E-10 item of our departmental budget.

Inasmuch as this requisition includes 1,000 feet of rubber-covered extension cord, three-way current taps and lamp sockets which are needed to equip voting booths for the primaries, it is essential that it be released.

We therefore respectfully request that the following transfer within the departmental budget be authorized:

From A-2, Temporary Employees, \$100, to E-10, Electrical, \$100.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR., Chairman.

HEALTH DEPARTMENT.

Boston, June 3, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request your approval of the following change in the Health Department budget, Item A-1, Permanent Employees:

3 (2) clerks, stenographers, \$2,400 a year.

0 (1) clerk, \$2,700 a year.

The above change is necessary to provide for adjustment in compensation for John A. Canniff, as clerk in this department. Mr. Canniff has not received an increase in salary since 1929, notwithstanding that he has been given increased duties and responsibilities.

Respectfully yours,

FREDERICK J. BAILEY, M. D.,
Health Commissioner.

INSTITUTIONS DEPARTMENT.

Boston, June 3, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Authority is requested to reallocate funds as follows:

Long Island Hospital.

From B-39, General Repairs, \$1,575, to B-22, Medical, \$1,575.

To provide for medical services of Dr. Newton S. Bacon from June 1 to December 31, 1946, at \$225 a month.

Respectfully yours,

FRANK McDONALD,
Commissioner.

PARK DEPARTMENT.

Boston, June 4, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request that you vary the budget in the C-7 item of this department by allowing the transfer of \$9 from C-13, Tools, to C-7, Office. This is to pay for an overencumbrance on the C-7 item.

Respectfully yours,

WILLIAM P. LONG, Chairman.

PUBLIC WORKS DEPARTMENT.

Boston, June 5, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request an amendment to the Bridge Service budget for 1946, by transferring a portion of Item B-39 to Item B-10.

This request is necessary so that we can pay a bill from the City of Chelsea for water furnished to the Meridian Street Bridge. A leak occurred in the water pipe at this bridge which was not discovered for a long time as it was escaping into tide water.

Therefore I respectfully request your approval of the following transfer:

From B-39, General Repairs, \$110, to B-10, Rent, Taxes, Water, \$110.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

Boston, June 10, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—I respectfully request that the following amendments in the budget of the Sumner Traffic Tunnel be made: From C-4, Motor Vehicles, \$1,000, to B-14, Motor Vehicles, Repair and Care, \$1,000.

From B-39, General Repairs, \$100, to B-3, Advertising and Posting, \$100.

When the budget was made up an amount was requested in the C-4 item for the purchase of a flushing machine for the purpose of washing the tunnel walls and roadway. Subsequently a truck

chassis was located in which the necessary equipment could be mounted and which will result in a substantial saving to the city. This installation will be done under the B-14 item.

A breakdown in the control cable system made it necessary to advertise in the *City Record* for bids. No funds were anticipated for the B-3 item when the budget was compiled.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, June 12, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Approval is respectfully requested to amend the budget of the Sanitary Division of this department as follows:

Increase quota for constables at \$1,600 a year plus \$200 E. C. A. from (18) to (20).

This request is made in order to provide for the appointment of James Amato, 10 Bulfinch place, Boston, and Louis J. Lanata, 44 Rexford street, Mattapan, as constables at \$1,600 a year plus \$200 E. C. A. in the Sanitary Division.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, June 14, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Approval is respectfully requested to amend the budget of the Highway Division as follows:

Eliminate item, Engineer, Chief, Grade V, at \$3,400 a year.

Increase item, Junior Engineers, Grade III, at \$2,200 to \$2,700 a year, from (7) to (8), with new position designated as Maintenance Engineer, Grade III, and Assistant Supervisor of Permits.

I respectfully recommend that this new position be filled by the promotion, subject to a qualifying examination, of Charles H. Nelson, transitman, Grade II, at \$2,100 a year plus \$200 E. C. A. to maintenance engineer, Grade III, and assistant supervisor of permits at \$2,200 a year plus \$200 E. C. A.

Mr. Nelson has served in the engineering force of this department for over thirty-one years with a fine record of capable performance of his duties and is experienced in the various phases of the work covered by the Permit Office of the Highway Division. He is the senior employee in point of service in the next lower grade qualified and willing to accept the position.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

TREASURY DEPARTMENT.

BOSTON, June 5, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—I respectfully request the following reallocation of funds within the 1946 Treasury Department budget:

From D-1, Office Supplies, \$25, to B-13, Communication, \$25.

This reallocation is necessary to provide funds for the cost of telegrams sent and

to be sent to various New York City banks requesting bids on issues of City of Boston Temporary Loans.

Very truly yours,

HENRY F. BRENNAN,
City Treasurer.

DISTRICT COURT OF CHELSEA.

BOSTON, June 13, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—This is for a pair of pants for court officer. There is \$60 now in Item C-16.

One of the court officers is getting a coat and pair of pants without a vest, the other court officer needs a pair of pants and the clothing house has agreed to make this extra pair of pants for \$10, which totals \$70.

Respectfully yours,

EDWARD F. CANAVAN, *Clerk.*

MUNICIPAL COURT OF BOSTON.

BOSTON, June 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Approval is requested for the transfer of Municipal Court of the City of Boston funds as follows:

From the appropriation for D-1, Office, to the appropriation for B-29, Stenographic and Copying, \$67.50.

This amount covers the cost of reporting an inquest in regard to alleged irregularities in making, signing and filing nomination papers for Governor's Council in the Fourth Suffolk District, which could not be foreseen at the time budget estimates were made out. (See Gen. Laws, [Ter. Ed.], chapter 55, section 42.)

Very truly yours,

DAVIS B. KENISTON,
Chief Justice.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of the city employees have been made:

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PUBLIC WORKS DEPARTMENT.

Upon June 12 the Mayor approved a contract with John Deveney Company, the lowest bidder, for sheet asphalt pavement and sewerage works in Columbus avenue, Ward 9, from Northampton street to Station street, including alternates 3AA, 3BBB and 9AAA, at an estimated cost of \$161,417.25.

The following bids were received June 7: Including Alternates 3A, 3BB and 9AA.—John Deveney Company, \$161,917.25; Baker & Co., Inc., \$163,263.25; Hancock Construction Company, \$166,600; S. J. Tomasello Corporation, \$172,376; Dooley Brothers, Inc., \$172,763; John McCourt Company, \$174,193; Warren Brothers Roads Company, \$179,670.

Including Alternates 3AA, 3BBB, 9AAA.—John Deveney Company, \$161,417.25; Baker & Co., Inc., \$167,749.50; Hancock Construction Company, \$167,050; S. J. Tomasello Corporation, \$175,976; Dooley Brothers, Inc., \$174,025.75; John McCourt Company, \$175,818.50; Warren Brothers Roads Company, \$182,923.75.

SUPPLY DEPARTMENT.

Upon June 9 the Mayor approved contracts as indicated in the following letter:

BOSTON, June 5, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of May 16, 1946, bids were publicly opened and read at this office on proposals for furnishing passenger cars and commercial vehicles for the Penal Institutions and Fire Departments.

Your permission is requested to reject all bids received on Items 3, 4, 5, 6 and 7. On Item 3, the only bid submitted did not meet specifications, and the requisitions on the other items have been withdrawn by the Fire Department pending changes in specifications.

On Item 1, calling for one new beach or station wagon, permission is requested to award to the lowest bidder, Bowers Motor Sales, for furnishing to the Penal Institutions Department:

One new 1946 Ford station wagon, nine-passenger, at \$1,401.53; less excise

tax, \$68.58; trade-in on one 1938 Ford V-8 and one half-ton patrol wagon, \$350—\$418.58; net delivered price, \$982.95.

On Item 2, calling for one new four-door sedan for the Penal Institutions Commissioner, the low bidder is not prepared to meet specifications and your permission is requested to reject its bid. The only other bidder on this item is prepared to meet specifications but has informed this office that in compliance with Revised Order No. 20 under Maximum Price Regulation No. 594, issued by the Office of Price Administration on May 22, 1946, it will be necessary to revise its original bid of \$726.57 to \$735.97.

Your permission is requested, therefore, to award without further advertising, to the Williams Buick, Inc., for furnishing the following:

One 1946 Buick Super Series No. 51, four-door sedan, with accessories as set forth in letter of May 27, 1946, at \$1,845.97; less excise tax, \$90; trade-in on 1940 Packard sedan, \$1,020—\$1,110; net delivered price, \$735.97.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

* Contract awarded.

Upon June 10 the Mayor approved a contract with lowest bidders as indicated for furnishing hay, grain and straw for the city departments, as required, from June 15, 1946, to August 15, 1946, inclusive.

Item No. 13, the Curley Grain and Fuel Company, was the only bidder on this item in the Supply Department copy of bids, but neglected to insert its price on this item in the City Auditor's copy of bids. Therefore, in order to take advantage of the price quoted, permission has been given to award item No. 13 to the Curley Grain and Fuel Company at a price of \$4.13 per hundredweight, without further advertising.

The totals of the awards were as follows:

John J. White Company, \$4,723.60; Curley Grain and Fuel Company, \$2,468.13.

Bids, opened May 31, were as follows:

Item 1. 48,000 Pounds United States No. 2 Timothy Hay, Per Hundredweight.—John J. White Company, \$1.395; Curley Grain and Fuel Company, \$1.3745; Louis E. Page, Inc., \$1.395.*

Item 2. 33,000 Pounds No. 1 Timothy, Clover Mixed, Medium Texture, Per Hundredweight.—John J. White Company, \$1.395; Curley Grain and Fuel Company, \$1.49; Louis E. Page, Inc., \$1.395.*

Item 3. 40,000 Pounds Alfalfa, Per Hundredweight.—Curley Grain and Fuel Company, \$1.74, with Timothy.*

Item 4. 8,000 Pounds Oats, No. 2, Per Hundredweight.—Curley Grain and Fuel Company, \$4.03.*

Item 5. 4,000 Pounds Bran, Per Hundredweight.—Curley Grain and Fuel Company, \$3.12.*

Item 6. 600 Pounds Sunflower Seed, Per Hundredweight.—Curley Grain and Fuel Company, \$12.40.*

Item 7. 100 Pounds Hempseed, Per Hundredweight.—John J. White Company, \$22.50; Curley Grain and Fuel Company, \$17.99.*

Item 8. 1,200 Pounds Scratch Feed, Per Hundredweight.—Curley Grain and Fuel Company, \$4.49.*

Item 9. 1,200 Pounds Cracked Corn, Per Hundredweight.—Curley Grain and Fuel Company, \$3.60.*

Item 10. 200 Pounds Whole Corn, Per Hundredweight.—Curley Grain and Fuel Company, \$3.55.*

Item 11. 100 Pounds Canary Seed, Per Hundredweight.—John J. White Company, \$14.50*; Curley Grain and Fuel Company, \$14.90.

Item 12. 4,000 Pounds Rye or Oat Straw, Per Hundredweight.—John J. White Company, \$1.575, oat, \$2.50, rye; Curley Grain and Fuel Company, \$2.79, rye, \$1.39, oat.*

Item 13. 10,000 Pounds Cracked Oats, Per Hundredweight.—Curley Grain and Fuel Company, \$4.13,* no bid in auditor's copy.

Item 14. 10,000 Pounds Chick Starter, Beacon or Equal, Per Hundredweight.—No bids.

Item 15. 30,000 Pounds Battery Broiler Mash, Beacon or Equal, Per Hundredweight.—No bids.

Item 16. 20,000 Pounds Broiler Pellets, Beacon or Equal, Per Hundredweight.—No bids.

Item 17. 30,000 Pounds Turkey Growing Pellets, Beacon or Equal, Per Hundredweight.—No bids.

Item 18. 10,000 Pounds Turkey Growing Mash, Beacon or Equal, Per Hundredweight.—No bids.

Item 19. 30,000 Pounds Turkey Fitting Ration, Beacon or Equal, Per Hundredweight.—John J. White Company, \$3.85.*

Item 20. 48,000 Pounds Fitting Dairy Ration, Beacon or Equal, Per Hundredweight.—John J. White Company, \$3.80.*

Item 21. 32,000 Pounds Test Dairy Ration, Beacon or Equal, Per Hundredweight.—John J. White Company, \$3.75.*

Cash Discount, Ten Days.—John J. White Company, 1 per cent; Curley Grain and Fuel Company, 1 per cent; Louis E. Page, Inc., 1 per cent in Supply Department copy, no cash discount in City Auditor's copy.

Trade Name of Feed to be Furnished.—Beacon feeds subject to change in price as of date of shipment and subject to delays beyond bidders' control.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, commercial and supply houses for furnishing labor, supplies, etc. Communications from the heads of the several departments were as follows:

INSTITUTIONS DEPARTMENT.

BOSTON, June 12, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—Your authority is respectfully requested to permit the Institutions Department to award a service order for the sum of \$3,650 to the Joseph H. Maguire Company, steamfitters, 87 Welles avenue, Dorchester, for the emergency installation of additional high pressure steam pipe and fittings at the Long Island Hospital.

The high pressure steam line at the hospital has deteriorated to a degree that great danger is being had in letting go at unseen places and causing considerable damage and possible serious accidents.

An order was issued to this company in May to install new pipe where specified, and as they progressed more deterioration was uncovered. The Maguire Company have their men, equipment, and supplies on the job and have done excellent work

at a reasonable price. The price for this additional work is based on the footage already installed, and no advantage would be gained by the city in publicly advertising for bids.

Respectfully yours,

G. FRANK McDONALD,
Commissioner.

PARK DEPARTMENT.

BOSTON, June 4, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—The condition of the bituminous concrete and sheet asphalt type of road surfaces on the parkways is very poor, in general. The severity of the past winter with its extremes in temperature and in its alternately wet and dry conditions caused these surfaces and foundations to disintegrate in many places. Now that the season of the year has arrived for making permanent patches on this type of roadway, such replacements should be made immediately.

The city has in force now a contract for patching bituminous type pavements on the streets and highways of Boston. I have received an offer from John Deveney, contractor, wherein he agrees to make patches on pavements of the park roads at the same unit prices that are in that contract. I feel that these unit prices are fair and reasonable. The Deveney Company has the facilities and the record to do a good job and give the department service. Considering everything, I feel that it is for the best interests of the city to accept the proposal of the Deveney Company.

You are therefore respectfully requested to award a contract without publicly advertising for bids for resurfacing or repairing with sheet asphalt the pavement in any park roadway upon which there is no maintenance guaranty to John Deveney & Co., 17 St. Ann street, Jamaica Plain, in the approximate sum of forty-five thousand three hundred sixty-eight dollars (\$45,368), same to be charged to the appropriation, Reconstructing Parkways and Roadways by Contract.

Respectfully,

WILLIAM P. LONG, *Chairman.*

BOSTON, June 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,—A license given by this department to Mr. Edward E. Adams, of the Mills Automatic Merchandising Corporation, 130 Broad street, Boston, for the operation of weighing machines in some of the buildings of this department, expires on June 30, 1946. This license has been held by Mr. Adams for many, many years, and he pays for this privilege the annual fee of \$350. These machines are owned by this company and are not the property of this department.

Our business relations with this firm have been very satisfactory over a period of years and, as it would be difficult to find another concern that would have the necessary machines, the Board of Park Commissioners believes that nothing would be gained by advertising for bids and respectfully requests your approval to the award of a license, without advertising, to Mr. Adams for one more year, from July 1, 1946, to June 30, 1947, for the sum of \$350.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

PUBLIC WORKS DEPARTMENT.

BOSTON, June 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Early this year you gave permission to this department to dispense with advertising and to make arrangements with contractors for furnishing men, equipment and materials to repair roadways in streets in various sections of the city which had become dangerous as a result of the storms and bad weather of the winter. Much work of an emergency nature was done which undoubtedly saved the city from paying damage costs due to broken automobile springs and also for personal injuries. There is still considerable work which should be done, and I feel that this can best be handled by issuing service orders to certain contractors to make emergency repairs which are now necessary. The cost in each instance will exceed \$1,000 but will not be in excess of \$2,000. I therefore respectfully request the permission of your Honor to dispense with advertising and to award the work of furnishing men, equipment and materials necessary to make emergency repairs in roadways in streets in the various districts of the city. When this request has been approved by your Honor, I shall issue service orders to the following named contractors:

Hancock Construction Company, Gaddis Construction Company, M. McGinnis Company, Louis J. Handa & Co., Carmine Russo, Ward General Contracting Company, F. C. Dolan & Sons.

Respectfully yours.

ROBERT P. CURLEY,
Commissioner of Public Works.

BOSTON, June 6, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—For the past several years the firm of Appel & O'Toole Company of 78 Moreland street, Roxbury, has had contracts with this department for doing certain work for the Water Division.

These contracts covered earth excavation and refilling the trench, and temporarily resurfacing the roadway where openings were made for the purpose of allowing the Water Division to make necessary repairs and changes to its underground structures in two districts of the city, namely, Dorchester and the City Proper, including South Boston, East Boston, Charlestown, and Roxbury.

The work performed by this firm has been exceptionally satisfactory and its force is available at all times of the day or night in connection with emergency work brought about by breaks in the water system. The prices for which this firm has agreed to do the above-mentioned work during the period ending December 31, 1946, are very reasonable and are lower than proposals recently received for the same type of work. Accordingly, I do not feel that lower prices would be obtained if we were to publicly advertise for bids for doing this work. In my opinion, the best interest of the city will be served by awarding contracts to this firm without publicly advertising for bids.

I, therefore, respectfully request the permission of your Honor to dispense with advertising and to award two contracts to the above-mentioned firm for earth excavation and refilling to allow the Water Division employees to replace, regulate, or repair Water Division struc-

tures in the City Proper, South Boston, East Boston, Charlestown, and Roxbury districts, at an estimated cost of \$18,000, and in the Dorchester district at an estimated cost of \$12,000.

Respectfully yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

EXTENSION OF CONTRACT.

PARK DEPARTMENT.

J. A. Singarella Company has been granted an extension of time until July 1, 1946, for the completion of the contract for repairs and renovations to the aquarium, Marine Park, South Boston, signed June 5, 1945.

Marinucci Brothers & Co. have been granted an extension of time until July 15, 1946, for the completion of the contract for excavating, grading and loaming of grave lots, Mount Hope Cemetery, West Roxbury, signed December 19, 1945.

SUPPLY DEPARTMENT.

BOSTON, May 31, 1946.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of April 26, your Honor approved extensions of the following coal contracts for the period from April 30, 1946, to May 31, 1946:

Staples Coal Company, doing business as City Fuel Company, contract dated August 20, 1945, for furnishing run-of-mine bituminous coal to the Fire Boats.

Snider Fuel Company, contract dated September 29, 1945, for furnishing run-of-mine bituminous coal to the Long Island Division of the Institutions Department, Public Buildings Department, Ferry Division of the Public Works Department, Penal Institutions Department, and stoker coal to the Public Buildings Department.

Since conditions in the coal industry are still unsettled, your Honor is requested to approve a further extension of these contracts for the period from June 1, 1946, to June 30, 1946.

Respectfully yours,

WILLIAM I. ROSE,
Superintendent of Supplies.

NO DAMAGES SUSTAINED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage works and the construction of sewerage works in Birchcroft road, Laurel road, and Rosewood road, Hyde Park district, under the order of the Board of June 10, 1946, and awards no damages therefor.

Owners unknown (Birchcroft road), 5,112 square feet, nothing.

Owners unknown (Rosewood road), 9,500 square feet, nothing.

Owners unknown (Laurel road), 5,974 square feet, nothing.

POLICE DEPARTMENT ORDERS.

General Order No. 682.

The following-named persons, honorably discharged veterans of World War I; having arrived at the ages stated; having been in service of the Boston Police Department for number of years set out; and having requested retire-

ment under provisions of section 56, chapter 32, General Laws (Ter. Edit.) as amended, for the reason that they are incapacitated for active service, it is hereby

Ordered, His Honor the Mayor having approved the same, that said persons be retired from active duty in the Police Department, and that their names be placed upon our pension roll at rate of twelve hundred fifty (1,250) dollars each, per annum (to be paid monthly), said sum being one-half the amount of compensation received by each in office from which he is retired; effective Thursday, June 20, 1946, at 7.45 o'clock a. m.:

Patrolman Lawrence A. Bradley, Division 7, age, 52 1-12 years, length of service 17 years.

Patrolman James Dunne, Division 7, age, 55 years, length of service 22 11-12 years.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Orders No. 683.

Whereas, Patrolman Thomas F. Coyne, Division 1 (a veteran of World War I), having arrived at the age of 57 4-12 years; having faithfully performed active service in the Police Department for 26 7-12 consecutive years; and

Whereas, The Medical Board provided for by St. 1922, chapter 521, section 18, having certified to the Police Commissioner in writing that said Patrolman Coyne is incapacitated for useful active service on the Police Force; and

Whereas, Said Patrolman Coyne is not a member of the Boston Retirement System established by St. 1922, chapter 521; now, therefore, with approval of his Honor the Mayor, the Police Commissioner hereby retires under St. 1892, chapter 353, as amended, the said Patrolman Thomas F. Coyne from active service in the Police Department and places his name upon a pension roll at an annual pension of sixteen hundred sixty-six and sixty-seven one hundredths (1,666.67) dollars, to be paid monthly; said sum being two-thirds of the annual compensation received by him in the grade in which said member served; effective as of Saturday, June 22, 1946, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 684.

Transfer of the following-named person from Superintendent's Office (armed service roll) is hereby ordered; effective Monday, June 24, 1946, at 9 o'clock a. m.:

Patrolman Richard T. Fay to Division 14.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 685.

The following transfer is hereby ordered to take effect Tuesday, June 25, 1946, at 7.45 o'clock a. m.:

Sergt. Thomas E. Keating, from Division 2 to Bureau of Operations.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 686.

Transfer of the following-named person from Superintendent's Office (armed service roll) is hereby ordered; effective Tuesday, June 25, 1946, at 9 o'clock a. m.:

Patrolman Richard F. Laughlin to Division 19.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, the following temporary amendments to the Revised Traffic Rules and Regulations of the City of Boston, which were adopted March 28, 1946, and were effective April 22, 1946, for a trial period of sixty (60) days, are hereby extended for a further trial period of sixty (60) days from June 21, 1946:

Section 8, Part 2 (Prohibition of Parking), is amended by striking out the following:

Friend Street, Boston Proper.

Southwest side, from Traverse street to Washington street, 7 a. m. to 6 p. m.

Millhouse plan, dated June, 1912, recorded with Suffolk Deeds, at end of Book 3722, a portion or all of this land is subject to a tax title or tax titles held by the City of Boston, tax for 1945.....	38 25

DANIEL F. DONOVAN,
Collector of Taxes for the City of Boston.

FIRE DEPARTMENT ORDERS.

General Order No. 42.

I. RETURN TO DUTY FROM ARMED FORCES.

The following named who have been serving in the armed forces of the United States will return to duty in this department, effective at 8 a. m. Wednesday, June 26, 1946:

Capt. Henry W. Shafer, Engine Company 5.

Ladderman William G. Lynch, Ladder Company 8.

M. O. P. Joseph F. Manning, Ladder Company 25.

II. TRANSFERS.

The following transfers, effective at 8 a. m. Wednesday, June 26, 1946, are hereby announced:

Hoseman William E. Coughlin, from Maintenance Division to Headquarters.

M. O. P. Joseph F. Manning, from Ladder 25 to Ladder 27.

III. RETIREMENTS.

The following retirements which will become effective at 8 a. m. Monday, July 1, 1946, are hereby announced:

Capt. Clarence W. Snow, Ladder Company 28.

Hoseman Charles W. Johnson, Tower Company 2.

Captain Snow was appointed to the department on May 31, 1929. He was promoted to the grade of lieutenant on October 16, 1940, and to captain on January 10, 1945.

Hoseman Johnson was appointed to the department on May 28, 1927.

Both of these men leave the department with the best wishes of their associates.

IV. BOSTON CITY HOSPITAL.

In keeping with the present policy of providing a maximum amount of fire protection to hospitals, nursing homes,

and homes for the aged, the following-named members of this department are hereby detailed to the Boston City Hospital, effective at 8 a. m. Monday, June 24, 1946:

Deputy Chief Dennis J. Coughlin, Division 3, who is hereby designated as Fire Marshal.

District Chief John J. Crehan, District 15, and Capt. Joseph F. McKendrew, Engine Company 40, assistants to the Fire Marshal.

The Fire Marshal and his assistants will arrange a program of fire prevention instructions for the personnel in the City Hospital and they will instruct members of the fire brigades in the proper use of first aid fire extinguishing equipment.

V. NEW FIRE ALARM BOX.

In the future a new fire alarm box will be installed at the Duty Officer's Desk, Main Lobby, Fargo Building, United States Naval Receiving Station, 495 Summer street, South Boston.

The box will be designated as follows and should be added to the assignment card of Box 712:

12—712, Fargo Building, 495 Summer street.

The new box will be connected into circuit No. 92, which serves the Naval Dry Dock area.

VI. DISCONTINUANCE OF A. D. T. SIGNALS.

Notice has been received from the American District Telegraph Company that the following A. D. T. signals have been discontinued.

Signal 133, 87 Milk street, New England Mutual Life Insurance Company.

Signal 351, 81—105 Medford street, Palmer & Parker Company.

Signal 542, 1360 Commonwealth avenue and rear 5—15 Scottfield road, Raytheon Manufacturing Company.

Signal 661, 184 High street, Associated Factory Mutual Fire Insurance Company.

VII. G. A. C. ASSIGNMENT.

The following signal number is to be added to the running cards of the General Alarm Corporation in this department.

Signal 296, Raymonds, Inc., 370 Washington street, Boston. (Sprinkler.) Apparatus to respond: Engine Company 25, Ladder Company 8, District Chief 5. Nearest box is 1273.

By order of Fire Commissioner
RUSSELL S. CODMAN, Jr.

WILLIAM F. QUIGLEY,
Acting Chief of Department.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of underground construction by the Boston Edison Company, vehicles are excluded from the following street from 7 p. m. Saturday, June 22, to 7 a. m. Monday, June 24, 1946:

Winter Street, Boston Proper.
From Washington street to Tremont street.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 10, 1946.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KELLY in the chair. Absent, Coun. Fish, Linehan and Madden.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

Weigher of Goods for term ending April 30, 1947: Francis J. Kelley, 175 Florence street, Roslindale.

Constables to serve without bond and without authority to serve civil process for term ending April 30, 1947: Dennis Keefe, 30 Hemenway street, Boston; George A. Nelson, 224 Bunker Hill street, Charlestown.

Severally referred to the Committee on Constables and Confirmations.

REPAIR OF SIDEWALKS, WARD 2.

The following was received:

City of Boston,

Office of the Mayor, June 7, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works, in reply to your order of April 29, 1946, to undertake at once the repair of the sidewalks alongside the play area of the Boston Housing Authority at Bunker Hill and Chelsea streets, said sidewalks being particularly located between Hunter and Chelsea streets on Bunker Hill street, Ward 2, Boston.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Public Works Department, June 6, 1946.

Mr. J. Joseph Connors,

Chief Clerk, Mayor's Office.

Dear Sir,—I return herewith order in City Council that the Commissioner of Public Works undertake at once the repair of the sidewalks alongside the play area of the Boston Housing Authority at Bunker Hill and Chelsea streets, said sidewalks being particularly located between Hunter and Chelsea streets on Bunker Hill street, Ward 2, Boston, and this will advise you that this work has been started by the local paving service district forces and will be completed in a short time.

Very truly yours,

ROBERT P. CURLEY,
Commissioner of Public Works.

Placed on file.

INSTRUCTION OF PRECINCT OFFICERS.

The following was received:

City of Boston,

Office of the Mayor, May 8, 1946.

To the City Council.

Gentlemen,—I transmit herewith communication from the Election Commission, in reply to your order of May 27, 1946, to definitely instruct all precinct officers relative to their duties on primary and election days.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Election Department, June 7, 1946.

J. Joseph Connors,

Chief Clerk, Mayor's office.

Dear Sir,—This is in reply to your communication of June 5 with attached copy of City Council order relative to the necessity for instructing election officers as to their duties.

May we explain that the election officers who are to serve at the coming primaries are the ones who served at the City Election last November. They were instructed by the Board at the time they were sworn last year, and each of them was given a book of instructions to read at home. In addition, we are sending a letter to every polling place on the day of the primaries setting forth certain aspects of the conduct of the primaries which we feel should be brought to the election officers' attention. This letter will cover, among other things, an explanation of the 1945 voting list and supplementary to be used in combination with the 1946 supplementary list on June 18.

May we say in conclusion that it has been our experience that written instructions which the election officers have before them at the polls have much more value than oral instructions.

Very truly yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR.,
Chairman.

Placed on file.

APPROPRIATION FOR BOARD OF ZONING ADJUSTMENT.

The following was received:

City of Boston,
Office of the Mayor, June 10, 1946.
To the City Council.
Gentlemen,—Each year it is customary to appropriate the sum of \$1,500 to carry on the routine work of the Board of Zoning Adjustment of the City of Boston, constituted under section 20, chapter 488, of the Acts of 1924, commonly known as the Boston Zoning Law. The money is expended for verbatim records of public hearings, blueprints, postage, automobile hire for inspection trips, personal services, including engineering, drafting, secretarial and clerical work, and miscellaneous expenses.

The Board of Zoning Adjustment, through its chairman, Dana Somes, has requested an appropriation for the ensuing year, and in compliance with this request I submit the attached order providing for the appropriation of \$1,500 from the Contingent Fund, and recommend adoption by your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Board of Zoning Adjustment,
June 4, 1946.

Hon. James M. Curley,
Mayor of Boston.

Dear Mr. Mayor,—I must apologize for my delay in thanking you for your promptness in the matter of appointments to the Board of Zoning Adjustment, which action was very much appreciated by the Board and myself.

The Board at its meeting on Wednesday, May 14, 1946, unanimously:

"Voted, To request of his Honor the Mayor the transfer of \$1,500 from Contingent Fund for routine operation of the Board of Zoning Adjustment for the ensuing year."

This money is expended for verbatim records of public hearings, blueprints, supplies, and personal services, including engineering, drafting, secretarial and clerical work. There is a balance as of June, 1946, of \$695.

It is the Board's opinion that the sum requested, namely, \$1,500, will be reasonably adequate to carry on its work for the ensuing year.

Respectfully yours,
BOARD OF ZONING ADJUSTMENT,
DANA SOMES, Chairman.

Ordered, That the sum of fifteen hundred dollars (\$1,500) be, and hereby is, appropriated, to be expended under the direction of the Board of Zoning Adjustment, for the operating expenses of this Board for the year 1946, said sum to be charged to the Contingent Fund.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Leo Adams, for compensation for damage to property at 482 Brookline avenue, Roxbury, caused by backing up of sewage.

Edward J. Connors, Jr., for compensation for injuries caused by an alleged defect at 942 South street.

Elizabeth L. Degnin, for compensation for injuries caused by an alleged defect at 942 South street.

William Junkins, for compensation for injuries caused by truck of Water Division.

New England Telephone and Telegraph Company, for compensation for damage to motor vehicle by city vehicle.

David Usiskin, for refund on second-hand furniture license.

Walter W. Whitney, to be reimbursed as result of accident which occurred while in performance of duty.

Patrick J. Flaherty, for refund on dog license.

Licenses.

Petitions for driveway openings:
William L. Walker, 104-114 West Brookline street, Ward 9.

Edmund J. O'Rourke, 490 Dorchester avenue, Ward 7.

Executive.

Petition of Anna Riley to be paid an annuity on account of death of her husband, late member of Fire Department.

PERMITS FOR MINORS.

Petitions for children under fifteen years of age to appear at places of public amusement were received as follows:

Mrs. Ray L. Gordon, Recital Hall, June 15.

Rose E. Sidman, Jordan Hall, June 8.

Anna Bobitt Gardner, Symphony Hall, June 25.

Permits granted under usual conditions.

RESIGNATION OF JOSEPH A. LANGONE, JR.

Notice was received from Joseph A. Langone, Jr., of resignation as member of Board of Election Commissioners, and acceptance by the Mayor.
Placed on file.

APPOINTMENT OF MICHAEL J. MANNING.

Notice was received from the Mayor of appointment of Michael J. Manning, Registrar of Births, Deaths and Marriages, to serve as Acting Election Commissioner, vice Joseph A. Langone, Jr.
Placed on file.

NOTICES OF HEARINGS BY DEPARTMENT OF PUBLIC UTILITIES.

Notice was received of hearing to be held June 25, at 10.30 a. m., on petition of Nathaniel Lenson for certificate of public convenience and necessity for operation of motor vehicles for sight-seeing purposes in and from City of Boston.

Notice was received of hearing to be held June 24, at 10.30 a. m., on petition of Kenneth Hudson, doing business as Hudson Bus Lines, for certificate of public convenience and necessity for operation of motor vehicles, beginning at Boston-Somerville city line on Mystic avenue, thence to Main street, on Main street to Cambridge street, on Cambridge street to Main street, on Main street to Alford street, on Alford street to West street, on West street to Beacham street, on Beacham street to Main street, in either direction.

Notice was received of petition of Transit Department for authority to make written contract without advertising with Boston Elevated Railway for alteration of chain link fence on Dorchester Rapid Transit Extension adjoining property of National Can Company, near Columbia Station, and date set for hearing on same, June 24, at 2.30 p. m.

Severally placed on file.

AUTHORITY TO LEASE SIMONDS SCHOOL.

A communication was received from the School Committee requesting authority to lease to Martin J. McDonough Post, No. 368, American Legion, the Simonds School, Broadway, South Boston, such occupancy to be discontinued at the will of the School Committee.
Placed on file.

REPORT OF COMMITTEE ON CONSTABLES AND CONFIRMATIONS.

Coun. BRYAN, for the Committee on Constables and Confirmations, submitted the following:
Report on appointment of William H. Mountain, 80 Allston street, Allston (referred May 27), to be Weigher of Goods for term ending April 30, 1947—recommending that same be confirmed.

The report was accepted, and the question came on confirmation. Committee, Coun. Bayley and Bryan. Whole number of ballots 12, yeas 12, and the appointment was confirmed.

REPORTING AND INDEXING OF COUNCIL MINUTES.

Coun. HANNON offered the following:

Ordered, That the Superintendent of Printing be authorized and directed to make a contract with Blanche I. Goell for making the index of the City Council printed minutes substantially in the form now established, for the sum of \$1,200 annually, payable in monthly installments, said contract to begin July 1, 1946, to continue until otherwise ordered by the City Council and for the amount stated; to be charged to the appropriation for City Council Proceedings; and be it further

Ordered, That the contract with Edward W. Harnden for reporting and indexing the Proceedings of the City Council be amended by striking out the words "and indexing" and by reducing the annual payment from \$5,750 to \$5,000.

Severally passed under suspension of the rule.

BUS SCHEDULE, ASHMONT STATION—RIVER STREET LINE.

Coun. KEENAN and CANTWELL offered the following:

Ordered, That the Trustees of the Boston Elevated Railway be requested, through his Honor the Mayor, to adopt a fifteen-minute schedule for buses seven days a week on the Ashmont Station-River street, Mattapan line.

Coun. KEENAN—Mr. President, Councilor Cantwell and myself introduced the order. The bus line on River street from Ashmont to Mattapan is now on a schedule of every half hour. In the vicinity of the bus line you have the Mattapan Consumptives' Hospital. Practically every day there is in the neighborhood of fifty people visiting the hospital. They have to wait half an hour. Then the buses are crowded and there is not enough room, and when that is so they have to

wait another half hour. I have spoken to the Boston Elevated Railway Company a number of times to have the Elevated run a bus there every fifteen minutes. They do not seem to want to do it. They are running a bus every half hour. It has been a very serious situation there the last couple of months. I hope that the rules are suspended, and the order passed.

Coun. CANTWELL—I want to say a few words about that bus service on River street. Quite a few people visit the hospital, the Boston Sanatorium. They have to wait an hour for a bus. There is no shelter all along the street. It is particularly bad in stormy weather.

The order was passed under suspension of the rule.

ACCEPTANCE OF DAMRELL AVENUE.

Coun. CANTWELL offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway Damrell avenue, in the Readville section of Ward 18.

Passed under suspension of the rule.

ACCEPTANCE OF COTTAGE STREET, WARD 18.

Coun. CANTWELL offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway Cottage street in the Hyde Park section of Ward 18.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON CONSTABLES AND CONFIRMATIONS.

Coun. BRYAN, for the Committee on Constables and Confirmations, submitted the following:
Report on appointment of John Conley, 168 Broadway, South Boston, and Charles W. Lenaghan, 8 George street, Cambridge (referred May 27), to be Weighers of Goods for term ending April 30, 1947—recommending that appointments be confirmed.

Report on appointment of John C. McLeod, 16 Ingleside avenue, Malden, and Nathaniel C. Lord, 420 Freeport street, Dorchester (referred May 20), to be Weighers of Goods for term ending April 30, 1947—recommending that appointments be confirmed.

Report on appointment of Louis L. Lanata, 44 Rexford street, Mattapan (referred May 27), to be Constable to serve without bond and without authority to serve civil process for term ending April 30, 1947—recommending that appointment be confirmed.

Report on appointment of Alberta M. Toolan, 158 Salem street, Revere (referred June 3), to be Weigher of Coal for term ending April 30, 1947—recommending that appointment be confirmed.

Report on appointment of Howard W. Colby, 8 Marion street, Roslindale, John J. Flanagan, 193 Florence street, Roslindale, David A. Shea, 34 Catherine street, Roslindale, Michael Ferala, 120 Gladstone street, East Boston, Walter Walsh, 384 Hyde Park avenue, Roslindale, Frank J. Conti, 4387 Washington street, Roslindale (referred June 3), to be Weighers of Goods for term ending April 30, 1947—recommending that appointments be confirmed.

The reports were accepted, and the question came on confirmation. Committee, Coun. McCormack and Coffey. Whole number of ballots 12, yeas 12, and the appointments were confirmed.

Coun. BRYAN in the chair.

LEASING OF SIMONDS SCHOOL TO McDONOUGH POST.

Coun. SCANNELL offered the following:
Ordered, That the School Committee of the City of Boston be, and hereby is, authorized, to lease to the Martin J. McDonough Post, No. 368, American Legion, the Simonds School, Broadway, South Boston, upon such terms and conditions as said committee may deem advisable.
Passed under suspension of the rule.

WIDENING OF TREMONT STREET.

Coun. SCANNELL offered the following:
Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to consider the advisability of widening Tremont street, from Park street to Boylston street.

Coun. SCANNELL—I have read in the paper in the past few days in regard to off-street parking to help the traffic condition here in Boston. I was walking down Tremont street the other day, and I observed the sidewalk condition from Park to Boylston street. We could take the two caps over the Park Street Subway and push them back 20 or 25 feet. The caps that are over the subway are about the only thing you would have to move. As I observed, I do not believe there is a catch-basin system there for the sidewalk. If we move it back 20 or 25 feet, it would be a great

help to the traffic condition here in the city. As you know, on the right-hand side of Tremont street, from Park to Boylston street, there is no parking, except taxicabs standing there or stopping there, and people from the business houses across on Tremont street, like Slattery's and the rest of the big stores. That clutters the street. I think this would be a real solution of the traffic condition in that section of the city, if you take 20 or 25 feet of that sidewalk and push it back. The result will be about a 20-foot sidewalk at least. This is not a very expensive undertaking. I know if this is done it will be one of the major improvements as far as our traffic and parking problems are concerned. In connection with that I ask suspension of the rule and passage of the order.

The order was passed under suspension of the rule.

SANDING OF SAVIN HILL BEACH.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor be requested to direct the Park Commissioner to sand Savin Hill Beach.

Passed under suspension of the rule.

RECESS.

On motion of Coun. SULLIVAN, the Council voted to take a recess at 2.40 p. m., subject to the call of the Chair. The members reassembled and were called to order by Coun. BRYAN at 2.50 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. SULLIVAN, for the Executive Committee, submitted the following:

Report on message of Mayor and order appropriating \$1,500 to be expended, under direction of Board of Zoning Adjustment, said sum to be charged to the Contingent Fund—that same ought to pass.

Report accepted, said order passed, yeas 14, nays 0:

Yeas—Coun. Bayley, Bryan, Cantwell, Coffey, Cook, Hannon, Hurley, Keenan, Kelly, Kinsella, Muchnick, Russo, Scannell, Sullivan—14.
Nays—0.

REPORT OF COMMITTEE ON LICENSES.

Coun. SCANNELL, for the Committee on Licenses, submitted the following:

Report on petition of William L. Walker for driveway opening at 104-114 West Brookline street, Ward 9—recommending that leave be granted on usual conditions.

Report of petition of Edmund J. O'Rourke, for driveway opening at 490 Dorchester avenue, Ward 7—recommending that leave be granted on usual conditions.

Report accepted; permits granted on usual conditions.

THE NEXT MEETING.

Coun. KELLY—I make a motion at this time that when we adjourn today, we adjourn to Monday, July 1.

The motion was carried.

JOHN B. KELLY ASSOCIATES ROAD RACE.

Coun. KELLY offered the following:

Ordered, That the City Messenger be authorized to rope off the streets along the route of the annual ten-mile road race of the John B. Kelly Associates which is to be held on Sunday afternoon, June 23d, and that the expense incident to same be charged to the City Council appropriation for Ropes, Flags and stakes.

Passed under suspension of the rule.

PROPOSED ACTION AGAINST NEW YORK, NEW HAVEN & HARTFORD RAILROAD.

Coun. COOK offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to take such steps as are necessary to enforce the provisions of General Laws, chapter 135, sections 1 to 4, against the New York, New Haven & Hartford Railroad and the Boston & Maine Railroad for their refusal to comply with said provisions.

Coun. COOK—Mr. President and members of the City Council, I was appointed chairman of the Committee on Unclaimed Baggage. I looked into this committee's powers and what I thought were their powers. I wrote letters to those concerns that are affected by the laws that set up our committee. Under the General Laws, chapter 135, railway corporations and proprietors of steamboats which have unclaimed baggage are supposed to advertise in January and in July.

Six months after the advertisement they are supposed to notify the City Council or the Board of Aldermen or whatever the body may be in the town or city where the unclaimed baggage is. All the concerns or corporations I wrote to answered me saying they had no unclaimed baggage with the exception of the Boston & Maine and the New York, New Haven & Hartford Railroad. The New York Central, the Cape Cod Steamship Company, the Cunard-White Star, and United Fruit said they had no unclaimed baggage and did not advertise. The Boston & Maine Railroad and the New York, New Haven & Hartford Railroad Company said they would not obey the law because they said the law did not affect them, that under the provisions of the interstate commerce act we had no jurisdiction over them. I disagree with their opinion. They write about some discussion they had with the Attorney-General in 1943 who took no action after they explained their side of the case. It is my opinion the present provisions of the law are applicable. The penalty for disobedience of the law is a fine of \$100. Therefore, I call it to the attention of the Mayor and wish to have the Corporation Counsel take such steps as necessary to bring this matter to a head. You may ask, why all the fuss about unclaimed baggage? It happened that six years ago I became very much interested in the subject of escheat. In old days, property went to the crown. Later on that theory was modified so that when no living heirs of property were around, the property went to the Commonwealth, state or crown, to the sovereign power where the property was. Then in the state of Pennsylvania in the last five years, \$2,000,000 have been recovered in unclaimed property, not especially baggage but unclaimed property. The bill I filed in the State House was passed through the House last year and killed in the Senate by the action of one Senator, Senator Lee. He was interested in the insurance companies, and did not want to see them turn over property which was not claimed to the state. He thought it ought to stay in the insurance company. This year the bill is being held up in the Senate at the present moment after two successive readings, and is in the Committee on Bills, third reading. The contest is whether property that is unclaimed should go to the Commonwealth or should stay in the hands of private corporations. Unclaimed baggage may very well mean a net proceeds to the citizens of this Commonwealth. I was given information that last year a private auctioneer who sold unclaimed baggage for a railroad company examined the bags before he sold them and found over \$1,400 worth of negotiable instruments in those bags. It can very well happen that baggage left in the North and South Stations, or any other station in the city of Boston may contain property that is of value. If nobody claims it, it is my contention the Commonwealth rather than the railroad is entitled to it. We are supposed to examine the property. By "we," I mean the City Council or a properly appointed committee. I happen to be chairman of that committee. I therefore ask that this order be passed so that the Corporation Counsel will determine by a judicial determination whether we still have that power, and give us the duty which we will carry out of examining unclaimed baggage to see to it that the interests of the citizens of this Commonwealth in this city are protected. It is to their advantage, rather than to let the railroad corporations benefit by anything that they may find. I hope that the order is passed.

The order was passed under suspension of the rule.

President KELLY in the chair.

COUNTING OF BALLOTS FOR COUNCILOR JOSEPH RUSSO.

Coun. RUSSO offered the following:

Whereas, City Councilor Joseph Russo is a candidate for Congressman in the Eleventh Congressional District; and

Whereas, City Councilor Joseph Russo is the ninth name on the ballot; and

Whereas, Another Joseph Russo, an unknown person, is also a candidate for the same office, his name being the tenth name on the ballot; and

Whereas, the Eleventh Congressional District consists of Wards 1, 2, 3 and 22 of Boston, Wards 1, 2 and 3 of Somerville, and the entire City of Cambridge; it is hereby

Ordered, That the Board of Election Commissioners of the City of Boston be requested, through his Honor the Mayor, that after the closing of the polls, all precinct wardens and precinct workers at all polling places within the Eleventh Massachusetts Congressional District are to call aloud "Boston City Councilor Joseph Russo" whenever a ballot for the said Councilor Joseph Russo is to be counted or tallied, during the counting of the ballots for Congressman in the said district, on Primary Day, June 18, 1946.

Whereas, City Councilor Joseph Russo is a candidate for Congressman in the Eleventh Congressional District; and

Whereas, City Councilor Joseph Russo is the ninth name on the ballot; and

Whereas, Another Joseph Russo, an unknown person, is also a candidate for the same office, his name being the tenth name on the ballot; and

Whereas, the Eleventh Congressional District consists of Wards 1, 2, 3 and 22 of Boston, Wards 1, 2 and 3 of Somerville, and the entire city of Cambridge; it is hereby

Ordered, That the Secretary of State instruct the Boards of Election Commissioners of the cities of Boston, Cambridge and Somerville, that after the closing of the polls, all precinct wardens and precinct workers at all polling places within the Eleventh Massachusetts Congressional District are to call aloud "Boston City Councilor Joseph Russo" whenever a ballot for the said Councilor Joseph Russo is to be counted or tallied, during the counting of the ballots for Congressman in the said district, on Primary Day, June 18, 1946.

Coun. RUSSO—Mr. President, I believe that the order specifies the reason why I am asking the Board of Election Commissioners of the cities of Cambridge, Somerville and Boston. It is due to the fact there are two similar names. Where there are two Joseph Russo's appearing on the ballot for the Eleventh Congressional District, I do not believe that my request is not within reason because I would like to see the people of the City of Boston and the Eleventh Congressional District have a fair return on this election. Therefore, I am asking suspension of the rule and passage of the order. I do hope that the Secretary of State will follow the request which is a reasonable one.

The orders were passed under suspension of the rule.

REPORT OF COMMITTEE ON CONSTABLES AND CONFIRMATIONS.

Coun. BRYAN, for the Committee on Constables and Confirmations, submitted the following:

Report on appointment of James Amato, 10 Bulfinch place, Boston (recommitted May 13), as Constable to serve without bond and without authority to serve civil process for term ending April 30, 1948—recommending that appointment be confirmed.

The report was accepted, and the question came on confirmation of the appointment. Committee, Coun. Bryan and Chase.

Coun. RUSSO—Mr. President, I do not know what kind of business is going on here. I am really surprised so far as the chairman of the committee is concerned in bringing it in. A meeting was called to be held last Thursday. I got in touch with the chairman of the committee telling him I was available to come up as soon as the parties arrived. I received no call. I got in touch with him again, and he told me that the particular individual in question did not receive any notice and therefore he could not appear. He asked me if I would consent to holding a meeting on Monday. I told him, Mr. President, due to the fact that on Monday we have the meeting and on Monday morning I am pretty well taken up by constituents coming into my office, I asked him if he would be kind enough to hold it off until any day of the following week. He promised me he would have a meeting this coming Thursday. Now I am confronted with his presenting this name for confirmation. Mr. President, I have always fought against underhanded methods. I do not like them and will not stand for them, regardless who the person is. I think we are entitled to a fair and square deal. I ask that this be returned back to the committee.

Coun. BRYAN—Mr. President, the name of this gentleman was submitted to the Council and passed on to me and my committee on May 13. It has been held up several weeks. I had a special meeting last Thursday. All the names which came before my committee were checked and submitted here today. Councilor Russo was unable to attend at the time. He did call me on the telephone and he said he would come over. I would go along with Councilor Russo and hold it up another week, but due to the fact we are going to adjourn for two weeks, I do not think it is right for the gentleman who has the position and has been confirmed to be held up two weeks more.

President KELLY—We are adjourning to July 1st, three weeks from today.

Coun. BRYAN—I do not think it is fair to keep him waiting three weeks. The Mayor sent the name in to the Council which confirmed his appointment. I do not think Councilor Russo has any fight with the chairman or the committee over the appointment. If he has anything further to say, if he wants to hold it up, it is his privilege. If it is to be held up any further, it should come from Councilor Russo and not the chairman or the committee.

Coun. HURLEY—Mr. President, a week ago I asked to have this thing acted upon. After talking with some of the members of the Council, they said, "Let it go another week, and give Councilor Russo an opportunity." Councilor Russo was notified verbally of the meeting by the Chair. The candidate was not notified because there was no need of bringing him back. He had been heard by the committee. He answered all the questions put to him by the committee. It was reported back that he should be confirmed. We have no quarrel with Councilor Russo or with the candidate. I have known the candidate over a number

of years and have always found him to be a right guy. I do not see any reason for further delay in this matter. If there is any information that the councilor wanted to ask the chairman about the prospective candidate, he has all the information they gave him at the hearing. He has spent a whole day here. He was not notified last Thursday. The chairman felt there was no need for bringing him back and asking questions about his qualifications. The chairman had all the answers. The candidate has been around here all day long. I do not think that this man should be held over three or four more weeks. There will be nothing gained by it. It is only a matter of delay. Once again, I know him, and that is why I asked to have his name removed. This is nothing personal at all with Councilor Russo as far as the appointment of this candidate is concerned. I hope you gentlemen here will go along and confirm him today.

Coun. MUCHNICK—Mr. President, I think we can assume that the appointment of a constable is necessary if the name has been submitted by the Mayor's office. If the appointment of this man has been approved by the Committee on Constables and Confirmations, there seems to be a doubt in the minds of one or more of the councilors as to whether this man is a fit person to hold the office of constable. The committee has voted after examination that he is a fit person. It seems to me that the only fair thing to do in here is, if Councilor Russo has any information to divulge which would show the unfitness of this applicant, he should tell it to us now. Otherwise, we should act in accordance with the committee's report. If Councilor Russo wishes to furnish some information which might tend to change the minds of some of the members of the Council, it seems to me it is incumbent upon him to do it now rather than to wait another few weeks.

Coun. RUSSO—Mr. President, the gentleman in question is one I do not know personally. I do not know who he is. I have nothing to say so far as his character or anything else is concerned. I do not know who he is. It may be possible I know him by sight.

Coun. MUCHNICK—Mr. President, will the gentleman yield for a question?

Coun. RUSSO—When I get through, Mr. President, last week it was agreed that this name be held over and sent in to the committee with the purpose of holding it for a meeting by the committee, the man to be invited to be present.

Coun. HURLEY—Mr. President, would the gentleman yield for a short question?

Coun. RUSSO—When I get through, Mr. President, it was agreed that the name be sent back to the committee and that this particular individual in question be examined further. He lives in my district. I feel it is my duty as a representative of that district to know who and what individual has an appointment. I asked the chairman to notify the individual and to notify the Budget Commissioner. On last Thursday, when the meeting was supposed to be held, I got in touch with the chairman and asked him if they were ready to go ahead with the meeting. I was tied up for a little while. He told me that they were not ready and that the person had not arrived. I left him my telephone number, to call me as soon as they were ready to proceed with the meeting. Not hearing from him, I again called back. I was told that due to the fact that they did not notify the individual they were going to postpone it to Monday. I asked the chairman about that, telling him it was unfair to me because on Mondays we had the meeting in the afternoon and I have many of my constituents coming in to my office so that perhaps I would be unable to be at the meeting. I asked him if it could be postponed to another day. He agreed on this coming Thursday. Now I have not been notified by the committee before this time that the name was going to be presented. I ask you councilors, if it were in your own ward, would you be asking for the same thing I am asking? I do not believe I am unfair. I believe each one of us has a duty to perform. I never interfere in someone else's ward. I believe the people of the district come to the councilors in here to protect the rights of those particular wards. When it comes to a question of the general welfare of the City of Boston, naturally we are all combined. There is nothing personal on this question. I am only asking what I believe I am entitled to. I feel, Mr. President, I am sure in any committee I have been chairman of that I have never gone ahead and done anything by an underhanded method.

Coun. MUCHNICK—I wonder if the councilor would answer the question now.

Coun. RUSSO—I cannot answer a question unless I hear it. I would like to hear the question.

Coun. MUCHNICK—What is there to your knowledge about this constable that makes him unfit to be in the service of the city?

Coun. RUSSO—I do not care to answer that question at the present time.

President KELLY—The question is on the motion to recommit to the committee. The Chair is in doubt and asks for a show of hands. The vote is 5 to 4, and it is not recommended. Councilor Russo doubts the vote and asks for a roll call; having been joined by two other councilors, the clerk will call the roll.

The roll was called, and the motion to recommit was lost, yeas 6, nays 6:

Yeas—Coun. Bayley, Bryan, Chase, Coffey, Keenan, Russo—6.

Nays—Coun. Cantwell, Cook, Hurley, Kelly, Muchnick, Scannell—6.

Present—Coun. Hannon, Sullivan—2.

Coun. RUSSO—Am I in order to ask for reconsideration?

President KELLY—It is not in order to have reconsideration of reconsideration.

Coun. RUSSO—I move it be laid on the table.

President KELLY—Councilor Russo moves to lay the appointment on the table. It is not a vote. Councilor Russo doubts the vote and asks for a roll call, two other councilors having joined him. The clerk will call the roll.

The roll was called, and the motion to lay on the table was lost, yeas 5, nays 9:

Yeas—Coun. Bayley, Chase, Coffey, Keenan, Russo—5.

Nays—Coun. Bryan, Cantwell, Cook, Hurley, Kelly, McCormack, Moriarty, Muchnick, Scannell—9.

Present—Coun. Sullivan—1.

President KELLY—The question comes on confirmation. The Chair will now appoint Councilors Cook and Coffey to receive, sort and count the ballots.

Coun. COOK—Having been on the committee, I would rather have somebody else.

President KELLY—Councilors Moriarty and Coffey will receive, sort and count the ballots.

Coun. RUSSO—Mr. President, I would like to have this go on a roll call.

President KELLY—Two other members having joined Councilor Russo, the committee are discharged with the thanks of the Chair, and the clerk will call the roll.

The roll was called, and the appointment was confirmed, yeas 12, nays 3:

Yeas—Coun. Bryan, Cantwell, Carey, Coffey, Cook, Hurley, Kelly, McCormack, Moriarty, Muchnick, Scannell, Sullivan—12.

Nays—Coun. Bayley, Chase, Keenan—3.

Present—Coun. Russo—1.

Coun. MUCHNICK—Mr. President, a point of information. Is it necessary under our rules to have gone through the formality of receiving, sorting and counting the ballots in order for this to be a valid appointment?

President KELLY—We did not use that procedure. We were in the midst of doing it when Councilor Russo asked to have a roll call.

Coun. MUCHNICK—My question is whether we must go through that formality in order for this to be a valid appointment regardless of what we have done.

President KELLY—I am informed a roll call is a superior method.

EMPLOYEES IN MAYOR'S OFFICE.

Coun. CHASE—Mr. President, I move that my order requesting the Finance Commission to investigate the need of the many employees in the Mayor's office be taken from the table.

President KELLY—The order is not on the table. The Chair will rule the order was defeated at the last meeting because less than a quorum was present. You can submit a new order as of today.

Coun. CHASE—Mr. President, I submit the same order. I understand, sir, that down in the Mayor's office we have something like

Coun. SCANNELL—Mr. President, a point of order. When there is an order presented to this Body, is it supposed to be in writing?

President KELLY—I understand the gentleman presented the order in writing last week. The gentleman is talking on the order, and is going to present it in writing again today. The order has been submitted to the Council once.

Coun. SCANNELL—But that order was defeated, and this is just another order. We should have some procedure here. An order should be presented in writing.

President KELLY—The Chair will rule Councilor Chase's motion is in order. Will you kindly write the order out and submit it to the clerk and proceed to talk? The Chair permits Councilor Chase to speak.

The order previously submitted by Coun. CHASE is as follows:

Ordered, That the Boston Finance Commission be requested to investigate the need for the many employees in the Mayor's office.

Coun. CHASE—Mr. President, I understand his Honor the Mayor is now spending \$93,000 annually for employees in his office as against last year's budget of \$71,000. I further understand, sir, his Honor the Mayor has 36 employees as against last year's record of 24 employees. Now, Mr. President, I repeat that I personally cannot conceive of the necessity for his Honor the Mayor to have 12 more employees than the Mayor in the last administration; nor can I conceive of his spending \$20,000 over the last administration figures for help. I believe his Honor the Mayor when he took office said he was going to endeavor to reduce taxes and pursue very worth-while method of doing that. I submit to you that if he has staggered his office with a lot of employees who are not doing any work and not giving the city a run for its money, that they should not be there. He has a lot of political employees down there. They just go in and put their hat on the hat rack and sit around and look wise. They should not stay there. If he has some employees on the pay roll who do not report to work but just go down and collect their weekly salary on pay

day, their names should be struck out from the pay roll. I submit to you, sir, that last year we were getting along with a considerably less number of employees than this administration in the Mayor's office. In the prior administration we got along without this large number. I see no reason why his Honor the Mayor should not get along with the number of employees that other Mayors have got along with. So, sir, I hope your Honorable Body will see fit to pass this order. It is within the province of his Honor the Mayor's campaign promises. It is within the province of his many statements he was going to adopt every worth-while reduction of taxes. I recall, sir, when his Honor the Mayor flung a challenge at every member of the Body at the time that he had a dinner on the day of inauguration. At that time he was quite cocky, but he had stated that he intended to conduct this municipal government the best way he knew how and that he was going to reduce the taxes.

Coun. COFFEY—Mr. President, I doubt the presence of a quorum.

President KELLY—The clerk will call the roll to ascertain the presence of a quorum.

The roll was called, and a quorum was in attendance.

Present, Coun. Bayley, Bryan, Cantwell, Carey, Chase, Coffey, Cook, Hurley, Kelly, McCormack, Moriarty, Russo, Sullivan—13.

Coun. CHASE—Mr. President, I well remember when he stated the necessity of cutting down the number of constables that were on the city pay rolls. He said they had not proven their duties and were a surplus and the city should be rid of them. I remember how he comes back here with more constables and is continuously sending in constables for appointment. He does not lead me to believe that he is carrying out his promises which he made to the voters when he was inaugurated, with all of his flowery statements about bad conditions in Boston and how he was going to endeavor to remedy the situation. It just does not add up. Now, I remember how he criticized the Soldiers' Department created by the last administration. He called it unnecessary and abolished that particular department. I remember how he turned an about-face within a few days later and created another department with the same sum of money used for the old department and placed in it his own employees. I have only too well in mind that he makes one statement and then does a right-about face a few days later in his actions, directly contradictory to what he promised in his statements. I do not believe it is necessary to have 36 employees in the Mayor's office.

Coun. MUCHNICK—Mr. President, a point of order. I have no desire to interfere with the councilor's right to calumniate and denounce and do anything he wants. I think he ought to stick to the subject matter of the order.

President KELLY—Councilor Chase, will you kindly confine your remarks to the order?

Coun. CHASE—My remarks are leading up to the order. Have in mind, sir, I am making every effort to influence my colleagues by my speech to vote in favor of this order.

President KELLY—Continue.

Coun. CHASE—Mr. President, why should 11 or 12 more employees over the previous administration be in the Mayor's office? That is something I do not understand. Is it a case of his Honor making political pay-offs to people who collect their pay and do not report to work?

Coun. COOK—Will the councilor yield for a question?

Coun. CHASE—I do not care to yield at this time. Well, Mr. President, I believe if we can get at the books on prior years, not only the last administration, but the administration before that and even the administration before that, right in the midst of the depression, you will not find 36 employees in the Mayor's office. I believe, as a member of the Council, I am justified in trying to find out the need of these employees because we pass on the budget. It is an item which we have to pass on every year. I trust, sir, that the members of your Body in voting on this matter will keep in mind that this is an all-time record for employees in the Mayor's office. All during the depression period when people were out of work and stalking the Mayor's office for help, we never had this number of employees. We are right at the height of prosperity. It seems to me that this thing is just a case of packing the office with a lot of political pay-offs. I trust that this Body will pass the order.

Coun. HURLEY—Mr. President, as I have stated a number of times, I admire this fellow from the Back Bay. I think he has a lot on the ball. As yet, I have yet to hear him say the fellow downstairs, our Mayor, has done one thing that is good. Everything is wrong because it is Curley. Going back to padding or overloading the pay rolls, they might have had help down there. I was in the office of the Mayor twice last year. I think I had to fight my way through the help, the clerks and attachés in the office. Now, Mr. President, I do not say they were attached to the Mayor's pay roll, his office pay roll.

Coun. MUCHNICK—Mr. President, a point of order. I think the subject under discussion is the staff of the present Mayor's office, and not the staff of the former Mayor's office.

President KELLY—I think the Chair was a bit lenient with Councilor Chase. I think he is leading up to a point.

Coun. HURLEY—Thank you, Mr. President. I am leading up to a point. Last year on several occasions I visited the Acting Mayor of Boston. You would have to fight your way into the office with the attachés, stenographers and clerks. Probably they were not attached to the pay roll of the Mayor's office. Certainly they were collecting their salaries from the same boss, namely, the City of Boston. There were girls working in that office continually who were assigned on the assessors' office pay roll. The Recreation Board had different representatives in there. I do not know whether it was work pertaining to the City of Boston or to a political contest. But surely with the man downstairs now, there is no trouble getting into his office. You do not have to battle your way through the crowd, unless he has a conference there. I do not think this particular order has much merit to it. If it is on the table, I hope it stays on the table.

President KELLY—Are you making that a motion?

Coun. HURLEY—No. I will not make it as a motion. I will let the Body vote on the councilor's motion to remove.

President KELLY—He has not made any motion. The clerk will read the order.

(The order is read.)

Coun. CHASE—Mr. President, I move suspension of the rule.

Coun. MUCHNICK—It seems to me the Boston Finance Commission does not need any information from us or any invitation from anybody else in order to conduct an investigation. They have certain powers and duties under the statute which sets them up. I imagine from what I have seen of their reports in the past, they are well qualified to initiate and conduct any investigation they feel they want to conduct. The passage of this order one way or the other will not mean a thing. It is either a complimentary pat on the back to Councilor Chase, or it is a suggestion that the Finance Commission can or cannot follow as they see fit. It seems to me everybody, including the employees of the Mayor's office, would welcome such an investigation to see if they are properly on the pay roll or not.

Coun. CHASE—Mr. President, I move suspension of the rule.

President KELLY—Councilor Chase asks suspension of the rule and passage of the order.

Coun. CHASE—I doubt the vote and ask for a roll call.

President KELLY—I have not announced the result yet.

Coun. CHASE—I doubt the vote and ask for a roll call.

President KELLY—The question first comes on the roll call and suspension of the rule which takes 15 votes. The clerk will call the roll.

Coun. RUSSO—Mr. President, I would like to find out, sir, what is the vote which was just taken.

President KELLY—The Chair has not announced it.

Coun. RUSSO—I feel before the announcement, before we go on to a roll call, that decision ought to be made.

President KELLY—The question is on the suspension of the rule. The clerk will call the roll.

The roll was called, and the motion to suspend the rules was lost, yeas 5, nays 7:

Yeas—Coun. Bayley, Bryan, Chase, Muchnick, Russo—5.

Nays—Coun. Carey, Cook, Hannon, Hurley, Keenan, Kelly, Moriarty—7.

Present—Coun. Sullivan—1.

President KELLY—The Chair will now refer the order to the Executive Committee.

Adjourned at 4 p. m., on motion of Coun. RUSSO, to meet on Monday, July 1, 1946, at 2 p. m.

SPECIAL MEETING.

Thursday, June 13, 1946.

Special meeting of the City Council held in the Council Chamber, City Hall, at 1 p. m., President KELLY in the Chair. Present, all the members. The meeting was opened with the salute to the Flag.

The meeting was held pursuant to the following call from the Mayor:

City of Boston,
Office of the Mayor, June 11, 1946.

☛You are hereby requested to attend a special meeting of the City Council, to be held in the City Council Chamber, City Hall, on Thursday, June 13, 1946, at one o'clock p. m., for the purpose of taking action on a proposed loan for \$500,000 for veteran's housing in Boston, and to take action on pending matters now before your Honorable Body, and on any other business as may come before your Honorable Body.

Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

PERMITS FOR CHILDREN.

A petition for children under fifteen years of age to appear at places of public amusement was received, viz.:

Helena Alton Stevens, Brown Hall, June 28.
Evelyn Galvin, Jeremiah Burke School, June 15
Permits granted under usual conditions.

NOTICE OF RESIGNATION.

Notice was received from J. Ralph Granara of resignation as Superintendent of Graves Registration, and acceptance by the Mayor.
Placed on file.

DESIGNATION OF ACTING SUPERINTENDENT OF GRAVES REGISTRATION.

Notice was received from the Mayor of designation of David J. Brickley, Soldiers' Relief Commissioner, to be Acting Superintendent of Graves Registration, vice J. Ralph Granara, resigned.
Placed on file.

APPOINTMENT OF HUGH T. GARTLAND.

Notice was received from the Mayor of appointment of Hugh T. Gartland of 38 Pleasant Hill avenue, Dorchester, to be a Principal Assessor for term ending March 31, 1949, vice Edward T. Kelly, retired.
Placed on file.

PREPARATION OF NAMES ON JURY LIST FOR BALLOT BOX.

Coun. KELLY offered the following:
Ordered, That the City Clerk be hereby directed to cause the names of the Jury List (City Document No. 46), when transmitted to him by the Election Commissioners, to be written each on a separate ballot, and said ballots to be properly folded, and placed in the box provided for the purpose.

The order was passed under suspension of the rule.

PENDING LEGISLATION RE VETERANS' HOUSING BY LEGISLATURE.

President KELLY—The Chair will make a statement that the pending legislation on this housing matter has not been enacted by the Legislature. We expect to hear on it momentarily. In view of that, it may be necessary to recess for an hour or so. In the meantime, we will accept any motions or resolutions.

ENTERTAINMENT OF REPRESENTATIVES OF ENGLISH GOVERNMENT.

Coun. COOK offered the following:
Ordered, That the Director of Public Celebrations or any other department so concerned be requested, through his Honor the Mayor, not to spend any of the city's money for the entertainment or to do anything in respect to representatives of the English Government.

Coun. COOK—Mr. President, I know that in the past when we had matters which a councilor thought were not the city's business we referred them to Rules. I have brought up this matter which will have the Mayor refuse to spend any of the city's money to entertain or do anything in respect to any representatives of the English Government and it is one that concerns the city. I am not talking about a four-billion dollar loan which I hope will never go through. I am talking about what the city can do to show how it feels toward any government and any representatives of a government that will come out and make such a vicious and uncalled-for statement as made by the Foreign Secretary of the English Government yesterday. Any government that can get up and say that the United States, which has done most of the work in this war, especially so far as England is concerned, can say that the United States has no interest in an international matter except that they want to keep Jews out of New York, that government and its representative should never be entitled to any respect from this city.

Coun. COFFEY—Mr. President, will the gentleman yield for a moment? I want to bring out that I introduced an order here a couple of months ago and the gentleman from Ward 12 (Coun. Cook) at that time saw fit to get up and start off the debate on the order. He said it had no interest and no meaning, and so forth, and should not be before this Body. At that time Councilor Cook said that the Congressional fight and Mr. Kennedy, one of the candidates for Congress, had nothing to do whatsoever with city business. Now, on the matter he is talking on, I can rule him out of order, and ask that he be ruled out of order. I am not going to. I want the councilor to know in the past up here we have always allowed each other to have his say regardless of what it was.

Coun. COOK—Mr. President, in the first place, in answer to the councilor from Ward 1 (Coun. Coffey) I do not recall ever having shut him off on debate. So far as I know, I think he debated the subject quite thoroughly. I do not remember his being shut off. This is the city's business. The expenditure of money by the Director of Celebrations, Public Celebrations or any other department is a part of city business. This City Council can request the Mayor to limit the persons for whom money will be spent by way of respect or entertainment. The representatives of the English Government are coming here, some of

them in the form of guests, for the purpose of lobbying for a four-billion-dollar gift or loan, and some of them for other purposes. When a representative of a foreign government in the position of Foreign Secretary sees fit to make a statement that puts the whole government and the people of the United States on the spot, so to speak, by saying that all they are interested in is an international matter is to keep Jews out of New York, after all the United States has done in the way of losing lives, ending troops and pulling England's coals out of the fire, it seems to me Boston has in the past and should in the present and future stand up and say to representatives of the English Government or any other government that, so far as Boston is concerned, they do not agree with it and go on record as doing anything they can in their way to show their disagreement with the vicious statements which will give rise only to another World War. I hope that this order passes under suspension of the rule.

Coun. RUSSO—After listening to the councilor from Ward 12 (Coun. Cook), I heartily agree with him, although at times he does not agree with me. This is one time when we both agree. We cannot expect anything else, Mr. President, if we go back to when the Prime Minister of England came into the United States some time ago and then finally when we got into the war he made the statement he worked for it, prayed for it, and finally that the United States was in just as much as England was. Naturally, they are going to give England an outright gift—that is what it will be—of \$3,750,000,000. It seems to me we are putting money into a bad debt. England already owes the United States billions of dollars on Lend-Lease. We are spending more money on direct competition with United States markets. I do not subscribe to the statement of the Foreign Secretary because we know that the United States of America and our government does not want to keep any American out of the United States. It has been the melting pot of all nationalities. That is one of the reasons why we are great, because of our various languages that are spoken in the United States. We have taken the best out of these nationalities and have made America what America is today, one of the strongest and most powerful nations in the world. I heartily agree and do hope that this order will pass under suspension of the rule.

The order was passed under suspension of the rule.

EXTENSION OF RAPID TRANSIT FACILITIES.

The following was received:

City of Boston,

Office of the Mayor, June 13, 1946.

To the City Council.

Gentlemen,—Chapter 494 of the Acts of 1946 submitted herewith amends chapter 692 of the Acts of 1945 already pending before your Honorable Body. These two acts provide for the extension of Rapid Transit facilities from Maverick square to Orient Heights in the East Boston district. Chapter 692 provided only for a route to the Day Square Station. Chapter 494 continues that route to Orient Heights. The extension to Orient Heights is a comprehensive addition to this important artery of travel.

These acts become effective when approved by the Mayor and the City Council, but no construction can be done until a plan and estimates of cost indicating that the project can be completed at a cost not exceeding \$8,500,000 is approved by the Department of Public Utilities and the contract for its use entered into between the Boston Elevated Railway and the City of Boston.

This extension of rapid transit is an important part of the master plan for rapid transit in the Metropolitan district. The project provides easy access to the Logan International Airport and beyond Day square to Orient Heights in East Boston. With this extension in operation the Airport will be the only large air field in the country with direct rapid transit connection. It makes possible a 10-cent fare to the Airport and provides a passage of from 15 to 20 minutes between the Airport and the center of the city.

There are, in the studies contemplated by this department, three stations—one near Porter street within the Airport, the second near Day square and the third at Orient Heights. The extension is from the present East Boston Tunnel terminus at Maverick Square Station to the surface at the Airport, thence along land parallel to the Boston & Albany right-of-way and beyond the Day Square Station on the roadbed of the old Boston, Revere Beach & Lynn Railroad. The length of the project is about 11,860 feet, of which 1,800 feet is subway.

Opportunities for work will be extended to veterans whose labor will be used upon construction so far as it is possible.

I recommend the acceptance of said chapter 494 of the Acts of 1946 and of said chapter 692 of the Acts of 1945, providing for the extension of rapid transit facilities in East Boston.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That chapter 494 of the Acts of 1946, entitled "An Act Relative to the Extension of

Rapid Transit Facilities in the East Boston District of the City of Boston," be, and hereby is, accepted.

Referred to Executive Committee.

NAMING OF BANDSTAND AT JAMAICA POND.

Coun. McCORMACK offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to name the bandstand at Jamaica Pond the Alfred E. Moore Bandstand and to have a suitable plaque affixed thereto designating same by July 4th.

Coun. McCORMACK—Mr. President, Alfred E. Moore was a great band leader. Every Fourth of July he conducted a band concert in Jamaica Plain. He was a veteran of the First World War. The people of Jamaica Plain would like to have the bandstand named after him by the Fourth of July and have a suitable plaque erected.

The order was passed under suspension of the rule.

SELLING OF TICKETS FOR PUBLIC AMUSEMENT BY AGENCIES.

Coun. HURLEY offered the following:

Ordered, That an ordinance be created that any agency selling tickets for any public amusement shall have a diagram of the seating arrangements posted in a conspicuous location in the agency so that the purchaser of tickets can readily observe the location of the ticket, or tickets, being sold to him.

Coun. HURLEY—Mr. President, I am introducing this order for an ordinance to protect the public from the people selling tickets for public amusements in the City of Boston. It has been brought to the attention of the public more so than ever now as a result of the fight being held in New York next week, the Conn-Louis fight. They are selling tickets at \$100 apiece. The purchasers do not know where they are going to sit. They have a tricky arrangement in numbering and lettering tickets. A person buying a ticket in Row 1 and spending \$100 for the privilege of sitting in Row 1, when he arrives at the fight, he is back so far he will have to bring his opera glasses with him. They start off with the Press taking so many rows, followed then by Row A.

Coun. KEENAN—Will the gentleman yield for a question?

Coun. HURLEY—No. I know it is going to be an embarrassing one. They start off with Row A and run the alphabet for 26 rows. Then they start off AA and run 26 rows. The purchaser buying a ticket in Row 1 finally lands in the 53d row.

Coun. KEENAN—Mr. President, will the gentleman yield for an embarrassing question?

Coun. HURLEY—I cannot yield, Mr. President. This same arrangement or tricky way of turning out tickets is in Boston, also. I have talked to one of the men running a fight club in Boston. I asked him about this ordinance today. He said he thought it would be a very good one. He said it appears to happen in the Boston Garden, the Arena and Mechanics Building where fights are being held, that the same way of setting up tickets alphabetically and numerically exists, so that a person does not know the location, I hope, Mr. President, you will refer this to the Committee on Ordinances, and that a suitable ordinance will be drawn up that will protect the people of Boston against unscrupulous persons running public events and amusements in Boston.

Coun. COOK—Mr. President, as chairman of the Committee on Ordinances, I would like to be informed by you or the clerk, or anybody who knows, as to whether the Committee on Ordinances are supposed to draw the ordinance or pass on an ordinance presented to them?

President KELLY—In this instance, councilor, the committee will have to draw up an ordinance. It is not in the form of an ordinance as presented to the Body.

The order was referred to the Committee on Ordinances.

CONFIRMATION OF APPOINTMENT OF CONSTABLE.

Coun. KEENAN—Is it in order to take a name off the table that has been there two weeks?

President KELLY—It is in order.

Coun. KEENAN—I move to have the name of James W. Daly taken off. It is No. 2 on the calendar. The motion was carried.

No. 2 on the calendar was as follows:

2. Confirmation of appointment submitted by Mayor May 20, 1946, of James W. Daly, to be a Constable, not authorized to serve civil process.

The roll was called, and the appointment was confirmed, yeas 15, nays 0.

Yeas—Coun. Bryan, Cantwell, Coffey, Fish, Hurley, Keenan, Kelly, Kinsella, Lane, Linehan, McCormack, Moriarty, Muchnick, Russo, Scannell—15.

Nays—0.

Voting present—Coun. Bayley.

RECESS.

On motion of Coun. FISH, the Council voted at 1.35 p. m., to take a recess, subject to the call of the Chair. The members reassembled and were called to order by President KELLY at 4 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. FISH, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred May 20) authorizing contracts for temporary housing—recommending that same ought to pass.

The report was accepted, and the order was passed.

2. Report on order (referred June 3) that President of Council designate committee of three members other than members of Licensing Committee to investigate passing of report and granting of license to Eastern Massachusetts Street Railway Company to operate motor vehicles from Sullivan square to Somerville line—that same ought not to pass.

The report was accepted, and the order was rejected.

LOAN OF \$500,000 TO PROVIDE HOUSING FOR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, June 13, 1946.

To the City Council.

Gentlemen,—Under the authority contained in chapter 13 of the Acts of 1946, I submitted to your Honorable Body a loan order in the sum of \$500,000 to provide housing for veterans of World War II. With commendable promptness, your Body gave this order its first reading on the day submitted.

Because, however, of legal objections concerning the constitutionality of this act, it was repealed, and a new act, chapter 372, passed in its stead by the Legislature.

Under the provisions of chapter 372 of the Acts of 1946, I now submit a new loan order in the sum of \$500,000 for housing for veterans of World War II. I am informed that the constitutional objections to this type of legislation have been found unsound by the Justices of the Supreme Judicial Court.

I respectfully request that your Honorable Body give a first reading today to this new loan order. I also respectfully request that the order submitted by me on May 13, and now pending before your Body, be rejected.

The need for housing for veterans is acute. Every agency concerned in the formulation of a program to hasten construction for veterans' needs, has, and is, cooperating to the fullest. During the past several weeks, I have given this pressing problem absolute priority in the execution of the city's affairs. Despite many obstacles and difficulties, it now appears that the construction program can proceed without further delays. I ask the continued cooperation of your Body in this matter, so that through our mutual efforts we may break the bottle-neck of this serious housing shortage which is felt so keenly by those who have done so much for us and for our country.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That in accordance with the provisions of chapter 372 of the Acts of 1946, the sum of \$500,000 be, and hereby is, appropriated, to provide housing for veterans of World War II, and that the City Treasurer be authorized to issue, from time to time, with the approval of the Mayor, bonds or certificates of indebtedness of the city to said amount.

The question came on giving the order its first reading and passage.

Coun. RUSSO—Mr. President, have we had any notification yet from the State Legislature?

President KELLY—I am informed, councilor, we have not had any notification as yet. We believe the present order is legal in form.

Coun. RUSSO—Mr. President, certainly I would be the last one to try to take away from a veteran anything on his behalf. We certainly know that regardless of what we do for them, it is not enough for what they have done for all of us. However, I am wondering, Mr. President, why Congress has not acted up to this time as they acted during the war. They took over hotels and all available space they could find in order to house our boys when they were needed for war. Why can't they take over some of the hotels in order to provide shelter for these individuals who have come back? I am sure that the veterans are seeking work and a place to live. I feel that the government should take over some of the hotels with a moderate price to the veteran and the government could subsidize the bonds until such time as this emergency housing shortage would be over. I know that we want to do everything that we can for the veterans, and I am sure I will be the last one to hold up anything on their behalf.

President KELLY—If there is no objection, the rules will be suspended, and the clerk will call the roll and give the order its first reading.

The roll was called, and the order was given its first reading and passage, yeas 18, nays 0:

Yeas—Coun. Bayley, Bryan, Cantwell, Cook, Fish, Hurley, Keenan, Kinsella, Kelly, Lane, Linehan, Madden, McCormack, Moriarty, Muchnick, Russo, Scannell, Sullivan—18.

Nays—0.

Coun. LINEHAN—Mr. President, a point of information. Will we have a chance two weeks from now to ask questions about whether or not the contract is to be given out, and how, on the \$500,000 we are going to appropriate?

President KELLY—It can be debated before it has its second reading.

Coun. LINEHAN—I wonder if we will have some one up here like the Public Works Commissioner and others, when we go into the executive session.

President KELLY—It is up to the pleasure of the Council to make a motion to have them come up.

Coun. LINEHAN—I move it be referred to the executive session.

Coun. MUCHNICK—Mr. President, talking on the motion, I would just like to add that invitations be sent to all persons who can give us information.

President KELLY—And that invitations be sent to all persons who can give us information.

Coun. RUSSO—Mr. President, may I be informed, in so far as the roll call is concerned, what the final vote was?

President KELLY—Eighteen in the affirmative and none in the negative.

Coun. RUSSO—I have been informed by several of my colleagues that my vote has not been tabulated the way I voted.

President KELLY—Councilor Russo was recorded in the affirmative.

Coun. HURLEY—I move we take the original order of \$500,000 from the table.

President KELLY—It is a vote and so ordered. The Chair will make a motion that we reject the old loan order, according to the Mayor's request.

The order, submitted by the Mayor on May 13, 1946, was rejected.

Adjourned at 4.10 p. m., on motion of Coun. FISH, to meet on Monday, July 1, 1946, at 2 p. m.

CITY OF BOSTON.

HOSPITAL DEPARTMENT, SANATORIUM DIVISION.

TO HEATING CONTRACTORS.

PROPOSALS FOR HEATING REPAIRS AND IMPROVEMENTS AT THE SANATORIUM DIVISION OF THE BOSTON CITY HOSPITAL.

The Trustees of the Boston City Hospital invite sealed proposals for heating repairs and improvements at the Sanatorium Division, 249 River street, Mattapan, in accordance with the specifications, giving a bond of a surety company satisfactory to the Trustees therefor, in the sum of the full amount of the contract. Only proposals obtained at the office of the Assistant Superintendent of the Sanatorium Division of the Boston City Hospital, at 249 River street, Mattapan, signed by the bidder, and left before 12 o'clock noon of Wednesday, July 10, 1946, at the office of the Assistant Superintendent at Mattapan, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be left as above, the other to be deposited with the City Auditor, City Hall, Boston, before the time of opening the bids. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is attached to the specifications. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Trustees reserve the right to reject any and all proposals. Proposals are to be addressed: "Proposals for Heating Repairs and Improvements, Sanatorium Division."

TRUSTEES OF THE BOSTON CITY HOSPITAL,
MARTIN J. ENGLISH, President.
(June 29.)

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

SENIOR ENGINEERING AID (INDUSTRIAL SANITATION), DIVISION OF OCCUPATIONAL HYGIENE, DEPARTMENT OF LABOR AND INDUSTRIES, AUGUST 2, 1946.

Last date for filing applications, Friday, July 12, 1946, at 5 p. m.

Salary: Basic salary: Minimum, \$1,680 a year; maximum, \$2,160 a year. Temporary salary increase: 20 per cent, not to exceed \$420 a year.

Vacancies: At present there is one vacancy for a male, to be filled on a permanent basis.

Duties: Under general supervision to operate, repair and calibrate instruments used in sampling industrial atmospheres and in the measurement of air flow, temperature, humidity, light, noise and radiation; to design and construct apparatus for sampling industrial atmospheres for the measurement of ventilation, temperature, humidity, light, noise and electromagnetic radiation; to maintain field and laboratory equipment in proper operating condition; to prepare abstracts of articles dealing with engineering aspects of occupational hygiene.

Under direct supervision to collect and quantitatively measure samples of industrial air contaminants by microscopic, X-ray diffraction, or other suitable

means, to evaluate results of such determinations in terms of the hazard to exposed workers, and to measure efficiency of means for control of such hazards and advise relative to introduction of or improvement in such control; to measure health factors in industrial illumination, and advise relative thereto; to measure injurious industrial noise and physically injurious heat, humidity, and air motion in industrial establishments, and advise relative to their control; to measure injurious ultra-violet and infra-red radiation and physically injurious X-ray and radium radiation from industrial operations and to advise relative to protection therefrom; to make laboratory tests of efficiency of respiratory protection devices with respect to industrial dusts, fumes, and gases; to prepare reports of field studies and investigations including such drawings, plans and charts as may be required; to keep abreast of current research and developments in the field of occupational hygiene important to the engineering personnel; and to perform related work as required.

The ability to use such specialized instruments as the dust sampling impinger, jet dust counter, konimeter, Tyndall meter, dust counting microscope, carbon monoxide detector and recorder, anemometer, kata thermometer, Pitot tube, manometer, psychrometer, Venturi meter,

foot candle meter, illuminometer, and wet and dry gas meters, and a working knowledge of industrial chemistry and industrial toxicology, with detailed understanding of the subject of effective temperature, thorough grounding in sanitary engineering, and complete familiarity with the principles of modern industrial ventilation, including exhaust hood and duct design, fan characteristics, and performance of dust filters and collectors, are required.

A knowledge of German and French is desirable.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

TO PROTECT MINORS.

Buffalo is considering an ordinance, similar to the one in effect in New York City, for the protection of minors in theaters. It permits children, unaccompanied by adults, only in theaters licensed as to adequate sanitary and safety provisions, sets aside a certain section for them and requires the presence of a licensed matron.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR INTERIOR PAINTING AT THE ADMINISTRATION BUILDING, 15 BEACON STREET, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for interior painting at the Administration Building, 15 Beacon street, Boston, Mass.

Proposals will be received until 12 o'clock noon, Monday, July 8, 1946, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.
